

A large, smooth, rounded rock is the central focus of the image. It is painted a vibrant purple color. In the center of the rock, the hashtag '#InThisTogether' is written in a white, hand-painted, sans-serif font. The rock sits on a patch of green grass. In the background, there are several brick buildings, a tall wooden tower with vertical slats, and bare trees under a clear blue sky with a small white moon visible in the upper right.

The Catalog

The University of Mount Union reserves the right to change policies, regulations, courses and fees at any time after the publication of this Catalog.

The provisions of this Catalog do not constitute a contract. The Mount Union Catalog in effect at the time of a student's admission to the University shall generally govern such student's degree requirements, although changes in University requirements may necessitate changes in the affected areas. The Catalog simply reflects the policies in effect at the time of publication and does not guarantee that course offerings, requirements, or policies will not change. All provisions of the Catalog can be changed at any time, without notice.

Students who experience a period of non-enrollment from the University may be expected to meet the requirements in effect at the time of re-enrollment.

Each student has the responsibility to be aware of and to meet the Catalog requirements for graduation, and to adhere to all policies, procedures, regulations and deadlines published in this Catalog and in the Student Handbook. Failure to read and comply with the policies, procedures, regulations and deadlines will not exempt a student from being governed by and accountable to them.

It is the policy of the University of Mount Union not to discriminate on the basis of race, sex, sexual orientation, religion, age, color, creed, national or ethnic origin, marital or parental status, or disability in student admissions, financial aid, educational or athletic programs, or employment as now or may hereafter be required by Title VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act of 1990, regulations of the Internal Revenue Service, and all other applicable federal, state and local statutes, ordinances and regulations. Inquiries regarding compliance may be directed to (330) 823-2886, Associate Dean of Students, Hoover-Price Campus Center, or to (330) 829-6560, Director of Human Resources and Employee Development, Beeghly Hall.

This catalog is maintained and updated by the Office of the University Registrar. The Office of the University Registrar has made every effort to ensure the information in this catalog is accurate. Any changes or corrections should be directed to the University Registrar at (330) 823-6018.

The University

Institutional Mission

The mission of the University of Mount Union is to prepare students for fulfilling lives, meaningful work, and responsible citizenship.

Goals

To accomplish the mission, the University faculty has established guidelines to help students:

I. Demonstrate Core Abilities

- Demonstrate ability to acquire and assess information.
- Demonstrate research skills (both quantitative and qualitative).
- Develop ability to think critically.
- Develop ability to think creatively.
- Develop communication skills.

II. Foundational Knowledge and Integration

- Acquire knowledge in humanities, arts, and sciences.
- Demonstrate the use of concepts and methods in humanities, arts, and sciences.
- Develop the ability to view the world from multiple disciplinary perspectives.
- Integrate knowledge and techniques across multiple disciplines.

III. Preparation for Fulfilling Lives

- Acquire the tools for self-development in order to assess and improve physical, social, emotional, intellectual, and spiritual growth and wellness.
- Find and cultivate intellectual pursuits.
- Find and cultivate pursuits for personal enrichment.

IV. Preparation for Meaningful Work

- Acquire discipline specific knowledge and skills needed at a professional level.

- Demonstrate use of discipline specific knowledge and skills.
- Integrate discipline specific knowledge and abilities with multiple disciplinary perspectives.
- Develop ability to collaborate with others to solve problems.

V. Preparation for Responsible Citizenship

- Develop knowledge and appreciation of the individual's culture and other cultures in a global context.
- Understand and employ ethics within diverse cultural, social, professional, environmental, and personal settings.
- Demonstrate civic engagement by active involvement in and beyond the classroom.

Heritage Statement

The University of Mount Union has roots in two traditions. The first of these is the Christian tradition as expressed in the American Methodist movement of the 19th Century. An important part of this movement was an effort to advance social progress through the establishment of academically rigorous institutions, which were non-sectarian, as well as racially, ethnically, and gender inclusive. This rich, church-related legacy informs the present spirit in which Mount Union maintains a historical and philosophical relationship with the Methodist tradition and foundational beliefs inherent in the Wesleyan ethos.

The University of Mount Union affirms the spiritual center of all persons and acknowledges the deep impact that spiritual and religious experience has on both cultures and individuals. In light of this, the University takes seriously its dual responsibility to foster the academic study of religious experience and to provide resources that nurture and enrich the spiritual life of our students and all members of the Mount Union community. As a university of higher education, we neither advocate a particular spiritual heritage nor proselytize on behalf of any religious or sectarian orthodoxy.

The other significant tradition of the University of Mount Union is rooted in an historic understanding of the liberal arts. A liberal arts education provides students with a broad base of knowledge in addition to training in a specific field of study. At its heart, a liberal arts course of study does not teach a single point of view but equips and empowers students to form their own conclusions based on critical reasoning. This tradition of learning continues at the University of Mount Union.

These aspects of our heritage reinforce each other in the striving for excellence, concern for the inherent dignity and worth of each individual, and the emphasis on the spiritual as well as the intellectual achievements of humanity. We embrace the global nature of our student body, recognizing that diversity serves as a resource for learning as we develop and prepare our students for “fulfilling lives, meaningful work, and responsible citizenship.

Diversity and Inclusion Statement

At the University of Mount Union, we continuously strive to welcome, accept, and respect all people. We believe that through the union of disparate perspectives, we strengthen our community, facilitate global enlightenment, and enable collective self-discovery. As such, we embrace diversity and inclusiveness to facilitate the development of ideas, the advancement of global perspectives, and to create a greater understanding and acceptance of all people. We actively promote a diverse and inclusive environment that obliges mutual respect and positive engagement to effectively enrich learning and living for our students, faculty, staff, administration, and community.

As members of the University of Mount Union community we pledge to:

- Acknowledge, respect, honor, and celebrate diversity.
- Work together to create an environment that is both diverse and inclusive.
- Take these inclusive attitudes with us as we continue our life journeys.

History

The University of Mount Union is the outgrowth of a town meeting held by forward-looking citizens of the village of Mount Union on October 4, 1846. At that time, the people gathered to hear Orville Nelson Hartshorn outline the need for a new institution in the area, where men and women could be educated with equal opportunity, where science would parallel the humanities, where laboratory and experimental subjects would receive proper emphasis, and where there would be no distinction due to race, color, sex or position. On October 20, 1846, this young man organized and taught on the third floor of the “Old Carding Mill” a “select school” of six students.

The school grew rapidly under his inspired leadership and in 1849 became known as “Mount Union Seminary.”

In 1853 a “normal department” was added for the training of teachers. On January 9, 1858, the institution was chartered and incorporated under the laws of the State of Ohio as “Mount Union College.”

In September 1911, Scio University, located at Scio, Ohio, was united with Mount Union. By the articles of consolidation, the liberal arts alumni of the former institution were made alumni of the latter.

Scio was established in 1857 at Harlem Springs, Ohio, as “The Rural Seminary.” In 1867 the school was moved to New Market, where it was known variously as New Market College, the One-Study University, and finally, Scio University in 1878.

For many years Mount Union has claimed the distinction of being one of the first institutions to have a summer school. Started in 1870, this first summer school was actually a fourth term in the school year. Since that time, summer instruction has been offered each year at the institution.

On August 1, 2010, the institution officially became known as the University of Mount Union. The change to a “university” designation was made in an effort to better describe what Mount Union is today and more effectively communicate all that the institution has to offer. This decision, unanimously approved by the Board of Trustees, came after careful review of data gathered through numerous research efforts and thoughtful consideration and discussion.

From 1846 to present, the administration of the University has been under the leadership of 12 presidents: Orville Nelson Hartshorn, 1846-1887; Tamerlane Pliny Marsh, 1888-1898; Albert Birdsall Riker, 1898-1908; William Henry McMaster 1899, 1908-1938; Charles Burgess Ketcham, 1938-1953; Carl Cluster Bracy, 1954-1967; Ronald Gilbert Weber '38, 1967-1980; G. Benjamin Lantz Jr., 1980-85; Harold M. Kolenbrander, 1986-2000; John L. Ewing Jr. 2000-2005; Richard F. Giese, 2005-2015; W. Richard Merriman, Jr., 2015-2020; and Thomas J. Botzman, 2020-Present.

Facilities

(Dates of construction or dedication)

Adams Court (2007)

This row of townhouses within the village on Hartshorn Street, named in honor of Gary '75 and Connie Adams, houses 24 upper class students.

The William H. Eells Art Center (1985)

The art center contains a lecture room, painting studio, rooms for print making, sculpture, drawing and design, plus faculty offices. Dr. Eells, a patron of the arts, is a member of the Mount Union Board of Trustees and a former faculty member at the University.

Beeghly Hall (1973)

The administration building is named in honor of Mr. and Mrs. Leon A. Beeghly of Youngstown, Ohio, who were major benefactors of Mount Union during their lifetimes. The building houses the principal administrative offices of the University.

Berea House (1999)

Originally Berea Children's Home, this building, located at 1315 S. Union Ave., serves as the Phi Kappa Tau fraternity house.

Bica-Ross Residence Hall (1996)

This three-story building houses 155 students in suite-style living units, contains two classrooms and is located directly behind the Campus Center. It was named by Violet (Bica '44) Ross in honor of her sister Virginia and in memory of her late husband L. Clayton and brother George Bica '41.

Bracy Hall (2003)

This four-story natural sciences facility houses the departments of Biology, Chemistry, Geology and Physics. Made possible through a lead gift from Jim and Vanita (Bauknight '63) Oelschlager, the facility is named for Dr. Carl C. Bracy, sixth president of the University. The 87,000-square-foot structure includes 22 laboratories of various types and sizes, three lecture halls, two classrooms and 21 faculty offices. Bracy Hall also houses the offices for the College of Natural and Health Sciences.

Brown Village (2007)

Located on Union Avenue, Brown Village is comprised of three apartment-style buildings (Clutter Manor, Jae Manor and Keller Manor) housing a combined total of 104 students. This living community, which provides housing for juniors and seniors, was made possible by a significant gift from David M. Brown '54 and was named in his honor.

Brush Performance Hall (2015)

The Louis H. Brush Performance Hall was made possible by a generous estate gift from Louis H. Brush '31, president of Brush-Moore Newspapers, Inc., which included the Salem News and the Canton Repository. The proscenium-style performance hall offers seating for 450 on its lower level and in its balcony. The acoustically-significant, state-of-the-art space can host events of varied natures including vocal, instrumental and theatrical performances.

Chapman Hall (1864)

This five-story brick, steel and concrete structure is named in honor of Professor Ira O. Chapman, who was associated with the University from the fall of 1851 to the time of his death in 1880. It is the principal humanities classroom building on campus and was completely rebuilt in 1966-67. There are 30 faculty offices, 30 classrooms, an accounting laboratory, an audio-visual room and student and faculty lounges. Chapman Hall also houses the offices for the College of Arts and Humanities.

Cicchinelli Fitness Center (2009)

The fitness center, housed in the McPherson Academic and Athletic Complex, was made possible by Christopher Cicchinelli '98 and his mother, Patricia Brisben. A two-story atrium takes you into a fitness center that has two floors housing cardiovascular and weight equipment.

Clarke Astronomical Observatory (1968)

Moved in May of 2003 to the south end of Bracy Hall, it was previously located at the south end of East Hall. It is the second such building to honor the memory of Dr. George Washington Clarke, professor of natural philosophy at the University. The first observatory, erected in 1924, served until it was razed to make room for the Timken Physical Education Building. The instruments, used in both observatories, are the gifts of Elmer E. Harrold of Leetonia, Ohio.

Clutter Manor (2007)

Named in honor of Ronald '80 and Tracy Clutter, this apartment-style building is located within Brown Village on Union Avenue and provides housing for 32 upper class students.

Cope Music Hall (1964)

This facility is named in memory of the late Kenneth B. Cope '20, alumnus, trustee and churchman. Principal donors to the building are his widow, Lela (Stoffer '21) Cope, and family. Cope Music Hall is located within the Giese Center for the Performing Arts

located on the northeast edge of the campus. The building contains the offices and teaching studios of faculty members in the Department of Music. Also located in this area is the Sturgeon Music Library, given in memory of Bertha Fogg Sturgeon and her parents, by Samuel Sturgeon. The collection of books, scores and recordings were begun by a generous donation by Mrs. Ella Wilcox Peasley and the Carnegie Corporation. Presently, there are more than 7,000 recordings in LP and CD formats, more than 10,000 music scores, a music reference collection and approximately 60 music periodical titles in the library. The facilities include four listening stations, an A-V room with stereo equipment, a TV and VCR and a computer workstation with access to the campus network, the library system and the Internet. A complete keyboard laboratory of 13 Roland electronic pianos is located in the music theory area, adjacent to a computer laboratory. The Department of Music facility includes a state-of-the-art MIDI synthesizer/computer laboratory. There are currently four computer workstations in place with access to a laser printer. The computers are connected via Studio 3 MIDI interfaces to either the Kurzweil K250, the Korg M-1 or to the Yamaha DX-7 synthesizers. The laboratory is utilized by students to do remedial work in the area of basic musicianship skills, to process music theory assignments, to orchestrate, to study audio theory and to investigate synthesizing, sequencing and voice sampling. Dedicated choir and band rehearsal rooms, a small recital hall, 30 practice rooms of various sizes and three classrooms are on the east side of the building. Presser Recital Hall is dedicated to Theodore Presser, a former Mount Union student and professor. The three-manual organ in the recital hall is the gift of the Kulas Foundation.

Cunningham Residence Hall (1968)

A residence hall for 112 first-year students, this hall is named in honor of Mr. and Mrs. N. A. Cunningham of Alliance, Ohio. Mr. Cunningham was a trustee for 30 years. The three-story brick structure, facing Clark Avenue, is a duplicate of McCready Hall, and the two halls are separated by a courtyard.

Dewald Chapel (1999)

The first free-standing Chapel in University history, the Dewald Chapel was made possible by a lead gift from Dr. Donald and Mrs. Eleanore (Iman '38) Dewald. The Chapel includes a sanctuary, 24-hour meditation room, conference and meeting rooms for religious life programs and offices.

Dom & Karen Capers Football Coaching Center (2020)

This building is a dedicated building for the football program. It contains the offices of the Head Football Coach and all of the Assistant Coaches. The facility has a large team meeting room that can accommodate 144 players. This large room can be subdivided into 4 smaller break-out spaces with instructional technology in every room.

Dussel House (1941)

This house, located at 1330 S. Union Ave., was presented to the University by the late Mrs. Frank E. Dussel of Alliance, Ohio and is used as the Delta Sigma Tau sorority house.

Elliott Residence Hall (1914)

Elliott is a three-story women's residence hall named in honor of A.V.T. Elliott of Canton, Ohio. The building was remodeled in 2006. Forty-two women are housed in the building.

Engineering and Business Building (2010)

This facility, originally built in 1958, was renovated in 2010 to house the new School of Engineering as well as the Department of Business. The facility includes a two-story lobby, five labs, a computer lab, two lecture halls, a conference room, student lounge, study areas and 21 offices.

Gallaher Hall (2014)

Gallaher Hall, Mount Union's new health and medical sciences facility, houses the Physician Assistant Studies Program and Bachelor of Science in Nursing Program as well as a potential Doctor of Physical Therapy Program slated for launch in the fall of 2015 pending the appropriate approvals. The approximately 41,000-square-foot state-of-the-art facility features an operating simulation room, exam rooms, skill labs, a conference room, tiered and regular classrooms, expansion space, a courtyard and faculty offices. Named for the late Dr. Charles S. Gallaher '25, the facility is connected by a walkway to the south end of Bracy Hall, the University's natural sciences facility.

Gallaher Theatre (2015)

The Charles S. Gallaher Theatre was made possible by a generous gift from Dr. Charles S. Gallaher '25, M.D. Mr. Gallaher, a Mount Union alumnus and distinguished member of the Board of Trustees from 1956 to 1994, very generously named Mount Union in his estate. This multipurpose space, located within the Giese Center for the Performing Arts, can host an array of events including improv theatre, theatre in the round, small music ensemble recitals, dance performances and other entertainment events as well as banquets and receptions.

Gartner Welcome Center (2009)

Named for Carl '60 and Martha Gartner, the Gartner Welcome Center was designed to further enhance the first impression for prospective students as they visit the Mount Union campus. Housing the Office of Admission and Office of Student Financial Services, the Welcome Center displays the University's commitment to green initiatives through its LEED (Leadership in Energy and Environmental Design) certification. It is one of only a few college and university buildings in Ohio to be LEED certified and the first in Stark County.

Giese Center for the Performing Arts (2015)

The Giese Center for the Performing Arts is named in honor of Dr. Richard F. and Mrs. Sandra L. Giese, who led with vision at the University of Mount Union from 2005-2015, advancing an already-strong college to a vibrant university during their 10-year tenure at the helm. The Center, which houses the departments of Music and Theatre, is dedicated to the visual and performing arts. The facility includes the Otto Art Gallery, Gallaher Theatre, Cope Music Hall and Brush Performance Hall and is also home to a green room, scene shop, costume shop and dressing area.

Grove Court (2007)

Named for Charles and Carol Grove, this row of townhouses within the village on Hartshorn Street is home to 40 juniors and seniors.

Gulling Training Center (2001)

The Gulling Training Center is located west of Mount Union Stadium. The 12,750 square-foot building contains offices, classrooms and areas for plyometrics and sprinting as well as a weight area for strength training. The building was funded by four major gifts including the lead gift from Paul Gulling '80 of North Canton, Ohio; Basil Strong '26 of Atwater, Ohio; Tony Lee '50 of Alliance, Ohio, in honor of his late wife, Beverly Jean (Bowden '51) Lee; and Robert Bordner of New Washington, Ohio.

Hammond Natatorium (2009)

Located in the McPherson Academic and Athletic Complex, the natatorium includes a pool and diving area for recreation and varsity athletic competition. This home of the varsity swimming and diving team includes office space, storage, a scoreboard and seating for 1,000 spectators. Hammond Construction generously provided the lead gift for this facility.

Hartshorn Village (2007)

The Hartshorn Street Village, centrally located on campus next to the Timken Physical Education Building and across from the Gulling Training Center, offers easy access to the fitness facilities of which so many of our students like to take advantage. This village community consists of three rows of houses; each with its own exterior entrance. The townhouse style of these structures gives students the real feeling of independence as they walk through their very own front door into an open floor plan consisting of a living room, kitchen, bathroom and one bedroom downstairs and a bathroom and three bedrooms upstairs.

Haupt House (2002)

The Fred J. Haupt President's Home is located at 1304 S. Union Ave. Flexible for family living and formal entertaining, highlights of the home include a domed ceiling in the foyer featuring the Mount Union seal and a wall of "University family" photographs dating from the early 1890s. The home was formally named the Fred J. Haupt President's Home in 2007 in honor of long-time University supporter and Board of Trustees member Dr. Fred J. Haupt '63.

Hoiles-Peterson Residence Hall (1989)

Hoiles-Peterson Residence Hall is a two-story, L-shaped building that houses 103 students in suite-style living units. The residence hall, located on the east side of Miller Avenue, is named in recognition of the support and dedication of Josephine (Hoiles '40) and Donald '39 Peterson.

Hoover-Price Campus Center (1962)

The University's Campus Center is named in honor of the Hoover Company of North Canton, Ohio and the late Mr. and Mrs. H.C. Price of North Canton, Ohio, principal donors for the building. It is a one-story structure of 55,800 square feet located on the northwest edge of the campus. The Campus Center is the extracurricular heart of the campus. Expanded in 1996, the Campus Center includes the offices for many of the student service offices which fall under the umbrella of the Office of Student Affairs. This includes the vice president for student affairs and dean of students and associate dean of students, as well as the offices of Alcohol, Drug and Wellness Education, Campus Card and Facility Scheduling, Diversity and Inclusion, International Student Services, Residence Life, Student Accessibility Services, Student Conduct, Student Involvement and Leadership, and the Center for Student Success which includes the Offices of Career Development, First Year Initiatives, Student Academic Support and Students in Academic Transition. Both the Kresge Commons and the B&B Café were renovated in 2006-2007 and serve as the primary dining options for students, faculty and staff on campus as well as popular gathering spots. The Campus Center is also the home to the University Store, a computer lab, student mailboxes and the University radio station. The Alumni Room, Newbold Room (formerly the East Room), and West Room, as well as the Osborne and Deuble Conference rooms, provide accommodations for meeting space. A student-staffed Information Desk and the main University switchboard are also located in the Campus Center.

Jae Manor (2007)

This apartment-style building located within Brown Village on Union Avenue provides housing for 36 upper class students and was named to honor the legacy of the late Hugh '54 and Nancy Jae.

Keller Manor (2007)

Named in honor of Daniel '72 and Laura Keller, this apartment-style building located within Brown Village on Union Avenue is home to 36 upper class students.

Ketcham Residence Hall (1962)

Located on Simpson Street, this residence hall is named for the late Dr. Charles B. Ketcham, president of Mount Union from 1938-1953, and his wife, Mrs. Lucile Brown Ketcham. The three-story brick structure houses 115 students.

Perry F. King Guest House (1981)

The home is the gift of Dr. and Mrs. Robert G. King '33 of Marion, Massachusetts, in memory of his late father, Dr. Perry F. King 1899, who was a prominent surgeon, member of the Board of Trustees (1914-1918), team physician (four decades), one of the founders of the Alumni Association and responsible for the organization of the Student Health Service. The beautiful old home is located at 1414 S. Union Ave. and will be the home of Alpha Delta Pi sorority.

King Residence Hall (1960)

King Hall houses 114 students. The three-story brick structure is named for the late Dr. George L. King Jr. '22 and his wife, Margaret (Wagner) King. Dr. King served as president of the Mount Union Board of Trustees for 18 years.

Kolenbrander-Harter Information Center (2000)

The Kolenbrander-Harter Information Center (KHIC) provides 45,912 square feet of technology and learning space, which is directly linked to the traditional library space (see library entry for resources). It houses the Digital, Written, and Oral Communication Studio, PC labs, a Macintosh lab, a computer science lab, a language lab, several multimedia classrooms, 24-hour

access to study space, computer labs and vending. It is home to the KHIC Stand Café and Learning Commons, which offers technology, gathering and study space for individuals and groups. It also contains classrooms and office space for the departments of Computer Science, World Languages and Culture, Religion and Philosophy, and Communication. KHIC also houses the offices for the College of Applied and Social Sciences. The facility was made possible through a lead gift from Steve '84 and Suzanne (Spisak '84) Harter.

The Lakes (1916)

The campus lakes are located across from Cope Music Hall. An idea provided by former member of the Mount Union Board of Trustees, Walter Ellet, the lakes were constructed in 1916. Shaped by shovels, wheelbarrows and horses using slip scrapers, the lakes were originally formed in the shape of an "M." The lakes suffered much erosion during the ensuing years, so in 1983, the lakes were cleaned and renovated. Through the installation of a retaining wall, much of the damage caused by the erosion was corrected. The lakes were also restored to their original depth of eight to 10 feet. Other repairs included the addition of new drainage pipes and renovation of the pedestrian bridge. The campus lakes are not to be used for recreational purposes.

Lamborn Plaza (1984)

The Plaza, adjacent to the north entrance of the Engineering and Business Building, is located on the former site of Lamborn Hall, which serviced science classes from 1914 to 1983. The plaza includes in its construction the cornerstone and name plate from Lamborn Hall.

Library (1950)

Originally built in 1950 and expanded in 1975, the University Library is located within the Kolenbrander-Harter Information Center. The library offers more than 230,000 books in open stacks, more than 900 current journal titles, back years of journals in both bound and microform format and more than 350,000 federal government publications. Access to a wide range of computer databases and electronic full-text products is available via campus networked access to the Internet. Library collections are accessed through the OPAL catalog. Mount Union is part of a 19 library catalog consortium which uses the Innovative Interfaces software system. As part of the OhioLINK system, our users may borrow materials directly from all OPAL libraries as well as any of the 74 OhioLINK libraries throughout the state of Ohio. In addition to the OPAL catalog, the Mount Union library home page on the Internet offers access to more than 200 periodical indexes in a wide array of subject areas, more than 5,000 full-text periodical titles, a range of encyclopedias and dictionaries and several gateways to federal government document resources. Special collections are located in the Rare Books Room and the Historical Room, which houses the University's archives and a local history collection. The estate of Louis H. Brush makes annual grants to purchase books and periodicals in memory of James Alpheus Brush, the first Librarian of the University, and his wife. The Thomas S. Brush Foundation, Inc. made a gift of approximately \$500,000 in 1971 to the Endowment Fund of the University with the income to be used for purchase of books and periodicals in memory of Mr. Brush's grandparents, Mr. and Mrs. Louis H. Brush. The Sturgeon Music Library, located in Cope Music Hall, houses 7,000 recordings, 10,000 scores, current music periodicals and a music reference collection. Listening stations equipped with compact disc players, turntables and cassette recorders are provided for student use as well as a soundproof listening room. The Science Library provides the most recent three years of science journals and a science reference collection in close proximity to science classrooms and laboratories.

McCready Residence Hall (1965)

A residence hall for 119 first-year students, McCready Hall is located between Hartshorn Avenue and State Street. It is named in honor of the late B. Y. McCready '16 of Alliance, Ohio, a long-time member of the Board of Trustees, and his widow, Mrs. B. Y. McCready.

McMaster Residence Hall (1956)

Located on Simpson Street, McMaster houses 163 women. It is named for the late president of Mount Union, Dr. William H. McMaster 1899, and Mrs. McMaster. The three-story brick construction is built in an L-shape and is the largest residence hall on campus.

McPherson Academic and Athletic Complex (2009)

The McPherson Academic and Athletic Complex is Mount Union's primary health and wellness complex. The facility is named in honor of Richard '50 and Dorothy (Werstler '49) McPherson, whose generosity provided for the McPherson Center for Human Health and Well-Being in 1996 as well as for this latest addition and renovation. The MAAC includes the Timken Physical Education Building, Peterson Field House, McPherson Center for Human Performance, Cicchinelli Fitness Center, Hammond Natatorium and Sweeney Auxiliary Gymnasium as well as a wrestling room, exercise science center and laboratory, athletic training facility, classrooms, laboratories, office spaces and an area dedicated to student recruitment.

McPherson Center for Human Performance (1996)

The McPherson Center, located adjacent to the Timken Physical Education Building, is the home for the Department of Exercise, Sport, and Nutrition Sciences with faculty offices, a student lounge and state-of-the-art classroom and laboratory facilities. The building was made possible through a lead gift from Richard '50 and Dorothy (Werstler '49) McPherson. The center is part of the McPherson Academic and Athletic Complex.

Miller Residence Hall (1866)

Miller is a three-story brick residence hall named in honor of the Honorable Lewis Miller of Akron, long-time chairman (1868-99) of the Mount Union Board of Trustees. It is the oldest residence hall on campus and was renovated in 2007.

Mount Union Stadium (1915)

The Stadium was planned and equipped by the University's Alumni Athletic Association. It contains a football field, an all-weather track, a steel and concrete grandstand, concrete bleachers and dressing and storage rooms. The stadium playing field is made of an artificial surface called AstroPlay. Lights allow for night contests. Stadium capacity is 5,600.

Nature Center (1986)

The John T. Huston-Dr. John D. Brumbaugh Nature Center is located six miles south of the campus. The 126-acres of woodland, including 27-acres of old growth beech maple forest, provide a nature preserve for plant and animal populations native to northeastern Ohio. The land, donated to the University by Dr. John D. Brumbaugh in honor of his grandfather, Mr. John T. Huston, will be used in perpetuity as a center for environmental education. The preserve, used as an outdoor teaching laboratory for the natural sciences, also supports many faculty/student research projects. In addition, nature trails are open to the public and to organized groups in the area. The Dr. John D. Brumbaugh Visitors Center, completed in 1991, provides classroom and laboratory space and an information resource for students and other visitors.

Orwick Court (2007)

This newest row of townhouses located on State Street was made possible by a gift from Carl '42 and Martha "Nickie" (Nicholson '45) Orwick in honor of the four generations of family who have passed through Mount Union. Forty upper class students reside within Orwick Court.

Otto Art Center (2015)

The Sally Otto Art Gallery was made possible by a generous gift from Mr. Eric (Jim) '56 and Mrs. Sally (Cooper '56) Otto. Located within the Giese Center for the Performing Arts, the Otto Art Gallery features exhibitions of work by students, faculty and professionals throughout the academic year.

Peterson Field House (1981)

Located at the west end of the McPherson Academic and Athletic Complex, the Field House is named in recognition of the late Donald '39 and Josephine (Hoiles '40) Peterson. Dr. Peterson's many contributions included serving as a member of the Board of Trustees from 1954 until 2006 and as Board president from 1971 to 1987. The Field House features the Wuske Track, a 200-meter NCAA regulation indoor track for hosting college and high school meets, named in honor of the University's successful track coach, the late Jim Wuske. The facility also includes batting cages and indoor practice space for baseball, softball and golf and provides recreational and varsity practice space for basketball, volleyball and tennis.

Scott Plaza

Adjacent to the library, Scott Plaza is named in memory of Dr. Joseph Scott who was head of the Department of Biology from 1918 to 1946.

Shields Residence Hall (1999)

This three-story building houses 155 students in suite-style living units and is located directly behind the Campus Center. It was named in honor of Dr. Clifford D. '43 and Mrs. Betty (Hatton '44) Shields.

Sweeney Auxiliary Gymnasium (2010)

The auxiliary gymnasium, located in the McPherson Academic and Athletic Complex, provides additional practice space for Mount Union's intramural program and recreational activities. The facility was made possible through the generosity of Sean '79 and Caroline Sweeney.

Timken Physical Education Building (1970)

The Timken Physical Education Building, part of the McPherson Academic and Athletic Complex, includes a performance arena with three full-size basketball and volleyball courts with a seating capacity of 3,000. Also housed in the facility is a state-of-the-art sports medicine center that includes an athletic training room, offices, rehabilitation center and hydrotherapy facilities. The Office of Athletics is located here along with classrooms, the M Club meeting room and an interactive kiosk that includes the M Club Athletic Hall of Fame.

Tolerton and Hood Hall (1982)

Tolerton and Hood houses the departments of Mathematics, Psychology and Sociology and Criminal Justice. The building includes faculty offices, a large lecture room, individual classrooms and student laboratories. The building was endowed in 1983 through a generous gift from Mary (Tolerton '24) Hood. Tolerton and Hood Hall was named for Mrs. Hood's father, Howard Tolerton, and her husband, Clifford Hood.

Union Avenue Gateway and Park

The Gateway and Park are located between Union Avenue and the University buildings. The park, made possible by the Mount Union Woman's Club, contains two lakes, walks, a bridge, trees and shrubbery. A brick entrance, erected by the class of 1893, marks the approach from Union Avenue.

Union Avenue West Village (2011)

Located on Union Avenue, is comprised of three apartment style buildings, housing a combined total of 188 students with 40, three story and eight, two story apartments. This living community provides housing for juniors and seniors.

van den Eynden Hall (1928)

Located at 136 Hartshorn St. and formerly known as the Administration Annex, the building was named in 1990 in recognition of the late Howard and Kathryn van den Eynden of Shaker Heights, Ohio. The building was the gift of an anonymous donor in 1940. Prior to that time, it housed the Phi Kappa Tau fraternity, and from 1942-1962 it served as the college Student Union and a residence hall. The building now houses the Department of Sociology and Criminal Justice and the Ralph and Mary Regula Center for Public Service and Civic Engagement.

Wable-Harter Building (1996)

The Wable-Harter Building, located behind the Mount Union Stadium, is the gift of Steve '84 and Suzanne (Spisak '84) Harter of Houston, Texas. The building houses the football locker room and facilities, offices, a meeting room and a training room.

Whitehill Tennis Courts (1946)

The University's Tennis Courts, located behind Bica-Ross Hall, are the gift of the late Mr. C. E. Whitehill of Indianapolis, Indiana. A new construction in 1999, the site includes six tennis courts.

Accreditations and Affiliations

The University of Mount Union has programs approved by a number of accrediting bodies and groups.

- University-Wide Accreditation
 - Higher Learning Commission (HLC)
 - Ohio Department of Higher Education (ODHE)
 - National Collegiate Athletic Association (NCAA)
 - National Council of State Authorization Reciprocity Agreements (NC-SARA)
- College of Applied and Social Sciences
 - Accreditation Council for Business Schools and Programs (ACBSP)
 - Commission on Sport Management Accreditation (COSMA)
 - Engineering Accreditation Commission of ABET (EAC-ABET)
 - Council for Accreditation of Educator Preparation (CAEP)
 - Department of Education of the State of Ohio (contained within CAEP accreditation)
 - Specialized Professional Association (SPA)
- College of Arts and Humanities
 - National Association of Schools of Music (NASM)
- College of Natural and Health Sciences
 - Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA).
 - American Chemical Society (ACS).
 - Commission on Accreditation of Athletic Training Education (CAATE). *This program is currently on probation and non-compliant with standard 11, based upon the three-year aggregated first-time Board Certification passing rate. The program has chosen to voluntarily withdraw its CAATE accreditation effective October 1, 2021.*
 - Commission on Collegiate Nursing Education (CCNE)
 - Ohio Board of Nursing (OBN)
 - Commission on Accreditation in Physical Therapy Education (CAPTE)

Alumni and Related Organizations

The University of Mount Union Alumni Association was officially organized in 1948, having functioned for many years as an informal organization. Its purpose is to promote interest in Mount Union through a variety of programs and events. All former students who attended for at least one semester are automatically members of the Association. Activities are coordinated through the Office of Alumni Engagement. The Alumni Association supports the work of 3 sub-committees which in turn support the strategic initiatives of the University. Participation and support of the Association are welcomed and encouraged from any of our alumni around the world.

Special events for alumni are provided at the University during Alumni Weekend and Homecoming. The Mount Union Magazine, along with a monthly email newsletter, and social media, keeps alumni and friends informed of the programs and activities coordinated through the Office of Alumni Engagement and of the University.

The Mount Union Women, founded in 1933, is an organization of local chapters with the National Cabinet as its governing body. Its purposes are to foster the interests of Mount Union, to promote the education of women, to provide an effective medium of contact between alumnae and the University and to organize local chapters of Mount Union Women. Any woman who has attended Mount Union is a member of Mount Union Women. Associate memberships may be held by the wife of an alumnus and the mother, daughter or sister of an alumnus or alumna. Honorary memberships are given to the wife of the president of the University, the wives of all members of Administrative Council, the Director of Alumni Engagement and University Activities and women members of the University's Board of Trustees. Honorary memberships may also be given to women professors and wives of professors.

M Club is an organization of former student-athletes. Any student-athlete lettering in a varsity sport (Men's and Women's) at Mount Union is automatically a member of M Club upon graduation. The M Club serves to raise additional revenue to supplement the annual operations and capital budget of the athletic programs. The major activities of the Club include the Athletic Hall of Fame induction ceremony and other fundraising and social events.

Special Lectureships

The Carr Lecture

The Joseph M. Carr Lectureship was established at Mount Union in 1916 by the Carr family in memory of the Reverend Joseph M. Carr, D.D., a close associate of President Hartshorn in the early days of the University of Mount Union. The condition under which the lectureship was given states that the lecture shall always be upon the subject, "The Mission of the Christian University to the World."

The Dewald Honors Dinner

The Dewald Honors Dinner is made possible by Dr. Donald W. and Mrs. Eleanore (Iman '38) Dewald of Mansfield, Ohio. The Dewald's have believed that academic achievement should be publicly recognized. This event applauds the quality of student effort and encourages the pursuit of academic excellence at the University of Mount Union. The purpose of the dinner is to recognize freshman honor scholars, upperclassmen who earned Dean's List recognition during the academic year and students participating in the Honors Program.

The Eckler Lecture

The Eric A. and Mary W. Eckler Lecture in Literature and Drama was established through an endowment given by Mr. John A. and Mrs. Dorothy (Nelson '29) Cummins in appreciation of the Ecklers' years of service to the community and Mount Union. The income shall be used annually to bring a person(s) to the campus for one or more programs in literature or drama. Residents of Alliance and surrounding areas shall be invited to participate in the public programs.

The Faculty Lecture

Each year a member of the faculty is selected to give a special lecture relating interesting and important developments in their own field or exploring matters of general concern to the faculty. These lectures are open to the public.

The Gallaher Lecture

The Dr. Charles S. Gallaher Science Lecture Series was established in 2013 with an estate gift from Dr. Charles S. Gallaher '25. Gallaher was a Mount Union alumnus and distinguished member of the Board of Trustees from 1956 to 1994. The lecture supports the sciences and is to be presented in the Charles S. Gallaher Hall.

The Heffern Lecture

The Gordon Heffern Business Ethics Lecture was established by Mount Union Trustee Gordon E. Heffern to encourage dialogue about the practical ways in which spirituality can transform the workplace. Heffern, a graduate of the University of Virginia, served as chairman of the board of Society Corporation before retiring in 1987.

The Kershaw Lecture

The Myrtie Allen Kershaw Lectureship on Poetry and the Fine Arts was established in 1960 by a bequest from Myrtie Allen Kershaw of Kent, OH, who indicated in her will that such a fund should go to a University chosen by her friend and executrix of her estate, Elizabeth Clark Bell. Because of Mrs. Bell's personal interest in Mount Union, where she was a student in 1932-33 and where her uncle, Robert E. Stauffer, was a teacher and librarian for many years, she designated Mount Union to receive the fund. The income is used to bring periodically to the University a person of distinction, for one or more lectures on ancient or modern poetry, the fine arts, or music or for an original performance in one of these fields.

The Schooler Lecture Series

The Schooler Lecture Series was established in 1988 through a grant made by the Schooler Family Foundation of Coshocton, Ohio. Through their gift, the University is able to provide a dramatically enhanced opportunity for young men and women studying at Mount Union and for residents in the greater Alliance area to experience the breadth and depth of American culture. Speakers have included former U.S. President Gerald Ford; former U.S. Surgeon General C. Everett Koop; the late Astronomer Carl Sagan; former U.S. Secretary of State Henry Kissinger; and U.S. Supreme Court Justice Sandra Day O'Connor.

The Slater Lecture

The Thelma Tournay Slater Classics Lecture is made possible through a gift of Mrs. Thelma E. (Tournay '42) Slater. Mrs. Slater's lifelong passion for the classics began at Mount Union. The gift supports student enrichment through an increased appreciation of the civilization and cultural achievements of ancient Greek and Rome that stand at the core of a liberal arts education.

The Wolf Lecture

The John and Eleanor Mincks Wolf Lecture in Music Education and English was established with gifts in 1999 and 2009 to honor the memory of John '47 and Eleanor (Mincks) Wolf. Mr. Wolf was a teacher of music for 30 years in the Strongsville schools. Mrs. Wolf was a teacher of English and Latin in Richfield and Highland school districts. Distributions from the endowed fund are used to bring professionals in the disciplines of music education or English to campus.

Undergraduate Academic Calendar

Undergraduate Academic Calendar REVISED 2020 - 2021

SUMMER SESSION 2020

May 18 - June 28	Session I	Summer Session I - 6 Weeks
May 25	Monday	Memorial Day, No Classes
July 6 - August 16	Session II	Summer Session II - 6 Weeks
July 4	Saturday	July 4th, No Classes

FALL SEMESTER 2020

August 21-22	Friday-Saturday	Fall Orientation
August 24	Monday	First Day of Classes
August 28	Friday	Last Day to Drop Without "W" and Last Day to Add a Class
September 7	Monday	Labor Day, Classes Not in Session
TBD	TBD	Required Faculty and Staff Compliance Training Day
October 16	Friday	Last Day to Change from Credit to S/U
November 10 & 12	Tues & Thurs	Spring Registration - Seniors on Tuesday, Juniors on Thursday
November 17 & 19	Tues & Thurs	Spring Registration - Sophomores on Tuesday, First Year on Thursday
November 2	Monday	Last Day to Withdraw with a "W" for Full Semester Courses
November 24*	Tuesday	Last Day of Fall Semester Classes - Semester Ends at 11:59pm

**Due to the nature of the ongoing pandemic (COVID-19) and the institution of the Social Distancing Learning Model, the Fall 2020 semester has been shortened to 14 weeks of instruction. For Fall 2020 only, there will be no Fall Break, no final exam week for the full semester, and no final exam days for the half semester courses. Instructors are encouraged to incorporate any traditional final exams within the 14 weeks of scheduled instruction for Fall 2020. Both the first half semester and second half semester courses have been shortened to 7 weeks to accommodate the shortened Fall 2020 term.*

FALL HALF SEMESTER 8 WEEK CLASSES (7 weeks for Fall 2020 only)

August 24 - October 9		First Half 8 Week Classes (7 weeks for Fall 2020 only)
August 28	Friday	Last Day to Drop Without a "W"
September 25	Friday	Last Day to Withdraw with a "W"
October 12 - November 24		Second Half 8 Week Classes (7 weeks for Fall 2020 only)
October 16	Monday	Last Day to Drop Without a "W"
November 13	Friday	Last Day to Withdraw with a "W"

SPRING SEMESTER 2021

January 11	Monday	First Day of Classes
January 15	Friday	Last Day to Drop Without "W" and Last Day to Add a Class
January 18	Monday	Martin Luther King, Jr. Day - Day of Service (No Classes)
February 16	Tuesday	No Classes - "Spring Relax Day"
TBD	TBD	Required Faculty and Staff Compliance Training Day
March 10	Wednesday	No Classes - "Spring Relax Day"
March 11	Thursday	No Classes - "Spring Relax Day"
March 22	Monday	Last Day to Withdraw with a "W" for Full Semester Courses
March 23 & 25	Tues & Thurs	Fall Registration - Seniors on Tuesday, Juniors on Thursday
March 30 & April 1	Tues & Thurs	Fall Registration - Sophomores on Tuesday, First Year on Thursday
April 2	Friday	Good Friday, Classes Not in Session
April 9	Friday	Last Day to Petition to Change Day/Time of a Final Exam
April 20	Tuesday	SCHOLAR Day/Honors Convoy (No Day Classes - Classes Resume at 6pm)
April 28	Wednesday	Last Day of Classes
April 29	Thursday	Reading Day (Finals Begin at 6pm)
April 29 - May 5	Thurs-Wed	Final Exam Period (Begins 6pm on Thurs - NO Sunday Final Exams)
May 5	Wednesday	Semester Ends at 11:00pm
May 8-9	Saturday - Sunday	Commencement Ceremonies

**Due to the nature of the ongoing pandemic (COVID-19) and the institution of the Social Distancing Learning Model, the Spring 2021 semester has been adjusted. For Spring 2021 only, there will be no Spring Break. The University will continue the Social Distancing Learning Model (SDLM) for instruction.*

SPRING HALF SEMESTER 8 WEEK CLASSES

January 11 - March 4		First Half 8 Week Classes
January 15	Friday	Last Day to Drop Without a "W"
February 5	Friday	Last Day to Petition to Change Day/Time of Final Exam for First Half Term Courses Only
February 22	Monday	Last Day to Withdraw with a "W"
March 5	Friday	Final Exam Day for First Half Semester Courses Only
		Math 8am-10am, All Others 11am-1pm (No Other Classes)
March 8 - May 5		Second Half 8 Week Classes
March 12	Friday	Last Day to Drop Without a "W"
April 9	Friday	Last Day to Withdraw with a "W"

Updated 09/17/2020

Admission and Financial Aid

Admission to the University

The policy of the University of Mount Union is to enroll applicants who are best qualified to participate effectively and creatively in the life of the total academic community. Admissions decisions are based on past academic achievement as well as potential for future growth. Also considered are participation in high school and community activities, talents, interests, and motivation.

A candidate may apply for admission after completion of six semesters of high school study. The University follows a policy of rolling admission with the first decisions released after September 15. Though early application is encouraged, selection is made on the basis of records and credentials rather than on the basis of priority of application.

Students may enroll in the University at the beginning of any semester or, with permission, for the Summer Session. (See the Undergraduate Academic calendar for opening dates of each semester.) Applications should be submitted well in advance of the opening date of each semester in order to receive full consideration, and no later than the week prior to the start of each academic session. However, on an exceptional basis, the Office of Admission may give consideration to qualified applicants whose complete credentials are received by the fourth day of the first week of classes.

First-Time Freshman Entrance Requirements

An entering freshman should hold a diploma from an accredited secondary school and should have completed a minimum of 15 units. Consideration for admission as an entering freshman begins at the cumulative grade point average level of 2.0 on a 4.0 scale. Preference is given to applicants who have completed with distinction college preparatory programs which include 4 units in English; 3 units or more in each of the following fields: mathematics, social sciences and laboratory sciences; and 2 units or more in a world language. A challenging high school curriculum including Advanced Placement and College Credit Plus is encouraged. Consideration for admission also is given to capable students who have followed alternate programs. Additional documentation may be required to support the admission application.

Entering freshman should submit an official six- or seventh-semester high school transcript. The student's high school counselor or principal should send an official copy of the transcript to the University of Mount Union Office of Admission. An official final high school transcript with graduate date posted and indication of diploma earned must be received prior to moving on campus or the start of classes for students living off-campus. An application essay following online instructions is also required as part of the application process. Any applicant with a gap of one or more semesters between earning their high school diploma/GED and enrolling in college, and/or throughout their college education, must provide a gap statement disclosing all periods of enrollment at an educational institution and all periods of non-enrollment, including the institution names and semesters or terms.

The University of Mount Union has approved a test optional policy for students applying for admission to the University through the spring 2022 semester, temporarily suspending its requirement that applicants submit an ACT or SAT score. The COVID-19 pandemic has created an unprecedented challenge for high school students planning for college. To better serve these students, Mount Union will admit students based upon the University's established high school grade point average requirements for admission and holistic review of each student's high school record.

The University recognizes that many students continue to be disadvantaged by the inability to take or re-take ACT and SAT tests, visit campuses, or attend the exploration events that are so key to making their college choice decision. We encourage students who have ACT or SAT scores to continue to submit them, as it helps identify which first-year courses will best serve them in pursuit of their major of choice.

Incoming students who are still considered first-time freshmen if they graduated from high school the previous spring, have taken courses at a college or university as part of their high school course work, or acquired college credit during the summer leading up to the fall semester.

All transcripts, test scores, correspondence, or other materials submitted for the purpose of applying for admission become the property of the University and will not be returned.

An applicant who does not hold a high school diploma may be considered for admission by submitting the application for admission and completing the following steps:

- Submitting GED test scores
- Presenting official transcripts of all high school work attempted
- Submitting official ACT or SAT test results, or
- A score of 300 or greater on the California High School Proficiency exam will be considered equivalent to the required GED for purposes of admission consideration

An applicant who is home schooled may be considered for admission by completing the application for admission and the following steps:

- Presenting an official transcript, including course work and grades, from the home schooling experience
- Demonstrating that he or she is graduating no earlier than his or her class in the public school system
- Submitting an official copy of the ACT or SAT test scores

Conditional Admission

An applicant that does not clearly demonstrate the ability to make an academically successful transition into the Mount Union curriculum without academic support may be admitted conditionally. This decision will typically apply to applicants with some combination of the following academic credentials: cumulative high school GPA below 2.5 (4.0 scale), ACT score (if submitted for consideration) of 17 or below (or SAT equivalent), ACT sub-score(s) in the 15-17 range, with particular attention paid to English, Math, and Reading, lacking college preparatory curriculum, particularly in English and math, a downward trend in academic performance during high school, attendance issues, recommendation from a high school official that the applicant would benefit from support, or low college-going rate of the applicant's high school class, indicating the high school may perform below base standards for college readiness.

All enrolled students accepted to the University of Mount Union with Academic Support as a condition of their admission will be required to register for the UMU 100: Raiders Rise. The UMU 100 course will incorporate the following requirements.

- Required to work one-on-one with a staff member in the Office of Academic support throughout the first semester. At the initial meeting, a support plan will be developed and will include at least 5 meetings throughout the semester.
- Required to attend a 4-week progress meeting with academic advisor.
- Required to attend 4 of 6 academic development workshops.
- May enroll in no more than 17 credit hours.
- May enroll only in classes approved by academic advisor or a member of the academic administration.
- Students conditionally admitted with a math sub-score of 18 or below will be required to enroll in an assigned math course in the first semester.

In addition to the above required conditions of admission, the following may also be included as part of an academic support plan.

- Utilize additional academic support services in the form of the Digital, Written and Oral Communication Studio, tutoring, organized study groups, and/or professor office hours.
- Accept referrals to other campus support services which may include the Office of Student Accessibility, Counseling Services, the Office of Alcohol, Drug and Wellness Education, Student Financial Services, the Business Office, and/or the Library.

Students will be registered for the course during Preview and will be contacted by an Academic Support staff person to meet and establish an academic support plan beginning at Preview.

Following the first semester of an academic support plan:

- Conditionally admitted students earning below a 1.600 grade point average at the end of the first semester will automatically be placed on probation and maintain a plan with the Office of Academic Support.
- Conditionally admitted students earning between a 1.600 and 1.990 grade point average at end of first semester will maintain a plan with the Office of Academic Support.
- Conditionally admitted students earning a 2.000 or higher grade point average at the end of the first semester may elect to progress without an academic support plan.
- Conditionally admitted students who receive an unsatisfactory grade in the UMU 100 course at the end of the first semester, will be required to retake the course. Satisfactory completion of the UMU 100 course is a graduation requirement for all students who are accepted to the University of Mount Union with Academic Support as a condition of their admission.

In addition, students admitted conditionally with warning are informed in their acceptance that admission is contingent upon the applicant earning a minimum cumulative final high school GPA of 2.0. If the student does not meet the 2.0 GPA, the University of Mount Union reserves the right to rescind this offer of admission.

All students required to work with the Office of Academic Support as a condition of their admission will be notified at the time of admission of required academic support and will be contacted by an Academic Support staff person to meet and establish an academic support plan including the following requirements to occur throughout the first semester: no less than five one-on-one meetings with a staff member in the Office of Academic support, attendance at a 4-week progress meeting with their academic advisor, and attendance at 4 of 6 academic development workshops. In addition, conditionally admitted students may enroll in no more than 16 credit hours of classes approved by their academic advisor or a member of the academic administration. Students conditionally admitted with a math sub-score of 18 or below will be required to enroll in an assigned math course in the first semester.

Students failing to meet the conditions of their admission, or failing to earn a 1.6 GPA, will be reviewed for academic probation or suspension.

Domestic Admission Deferral

For students who want to defer their enrollment to a future term may do so if they were in one of the following statuses from the current term:

- Awaiting Materials – submitted application, but did not send in all materials’
- Admitted – student was admitted within the current term.
- Deposited – student paid enrollment deposit (deposit can be rolled over to future term if the student requests it by contacting the Business Office and giving them the student’s information, and what term the money should applied to).

Students may defer their application for up to one academic year (two semesters) from the original term of application. After deferring twice, student will need to fill out a new application for admission. All deferrals must occur prior to the start of classes for the term of original acceptance.

Students may request a deferral by submitting the online deferral request form at: <https://admission.mountunion.edu/register/deferadmission>.

- Form is automatically emailed to the Director of Enrollment Operations and the Director of Admission.
- Director of Enrollment Operations will follow the steps necessary to clone the application and copy the materials to the requested future term.
 - Go to the Applications tab.
 - Click on “New Decision” – choose appropriate one (Accept Deferred, Incomplete Deferred, Deposit Deferred, etc.).
 - Click “Confirmed” to save decision.
 - Go to “Edit Application Details”.
 - Select the new term (Round). Bin = Undergrad 1; Queue = Young
 - Clone App – select new term student is deferring to.
 - Hit “Clone” button and type ‘CONFIRM’ in box. New Application tab is created at the top.
- Director of Enrollment Operations will forward the file to be reviewed by the Director of Admission by placing it in the appropriate queue in Slate Reader.
- Director of Admission will determine if the information previously submitted for the current term is still valid for the future term:
 - If yes, Director of Admission will follow the application review process outlined above.
 - If no, Director of Admission will place the file on “Hold” and add in the additional items needed (on review form and on student’s checklist) and forward the file to the “Awaiting Materials” bin. Student will be notified by email of the missing materials.
 - Student is an accepted student and should be deferred as an accepted student to the next term. No deposit was paid.
 - Student is an accepted and/or deposited student but plans to attend another institution while waiting to come to UMU; student deferred but marked as awaiting materials.
 - The Director of Admission will notify the Admission Representative of the prospective student the results of the deferral request, so they may provide follow-up as well.

Transfer Student Entrance Requirements

An entering transfer student should hold a diploma from an accredited secondary school and should have completed postsecondary schoolwork after high school graduation. Consideration for admission as a transfer student begins at the cumulative grade point average level of 2.0 on a 4.0 scale. Transfer students are reviewed using a holistic application review process. Required application documentation includes a final high school transcript, college transcripts from any institution(s) attended, a student standing evaluation (to verify enrollment standing from most recent institution attended), and an application essay.

Transfer of Credit

Consideration for admission as a transfer student requires a minimum cumulative grade point average of a 2.0 (on an A = 4.0 scale; 2.0 = C) at the institution previously attended and documentation of good academic standing and honorable disciplinary standing on the Dean’s Evaluation Form. (If past or pending disciplinary issues are evident or if other indicators warrant it, we may also require a Dean of Students Form from every institution previously attended by you.). The application for admission should be accompanied by a personal statement explaining the reason for leaving the previous institution and the reason for selecting Mount Union. In addition, the applicant must have official transcripts forwarded from all institutions previously attended (including final high school transcripts) along with the Dean of Students form. Official transcripts received by the student will only be considered official if they are sealed by the institution providing the transcripts.

A student who has been registered for one or more courses at another university, with the exception of a student who was enrolled under the College Credit Plus Program, is classified as a transfer student. Failure to report attendance at another college or university, whether or not credit was granted, may result in suspension from the University of Mount Union.

A student admitted to the University of Mount Union after having attended another institution of higher education, including students who have earned an associate’s degree, will be classified as a transfer student and must provide an official transcript of his or her academic record at all previous institutions. This transcript will be the basis for determining what, if any, transfer credit will be accepted by the University of Mount Union; such determination will be made by the Office of the University Registrar at the time of admission on a course-by-course basis. To be eligible for transfer to the University of Mount Union academic record, a transferred course must have been completed at a regionally accredited college or university, must have a grade of “C” or better and must be in an academic discipline in which courses are offered by the University of Mount Union. Any credit granted at the time of admission is conditional and may be withdrawn if a student is deemed incapable of successfully completing advanced work. Grades for transfer work accepted by the University of Mount Union will not be included when calculating the student’s University of Mount Union grade point average.

Admission of International Students

The University of Mount Union welcomes applications from qualified international students. An international student is considered a student applying for admission to the University of Mount Union that is not a citizen, permanent resident, or refugee/asylee of the United States of America. International students may apply for admission through the Office of International Admissions by filling out the online application form (www.mountunion.edu/how-to-apply). All students are required to submit the following information as part of their application:

1. Secondary school (high school) transcripts.
 - a. If not in English, an English translation must accompany the originals.
 - b. While admission criteria may vary by program, generally an applicant should have at least a 2.5 GPA on a 4.0 scale to be considered for admission.
2. Proof of English Proficiency.

English Proficiency Test	Minimum Score (ESL Bridge Coursework Required)	Minimum Score (No ESL Coursework Required)
TOEFL	61 iBT (500 PBT)	79 iBT (550 PBT)
IELTS	5.5	6.5

- Applicants may also submit one of the following examinations as proof of English proficiency, where no ESL coursework is required:

Examination	Minimum Score (No ESL Coursework Required)
PTE (Pearson’s Test of English)	55
MELAB	80
SAT Critical Reading Score (old SAT)	500
SAT Evidence-based Critical Reading & Writing Score	590
ACT English subscore	21

- Those applicants who meet one of the following conditions will be reviewed for an English proficiency test waiver:
 - Completion of a minimum of two English courses (non-ESL) at a U.S. high school with a minimum grade of B.
 - Completion of secondary school (with at least 2 years of prior, continuous enrollment in non-ESL courses) from an English-speaking country (see list below).
 - Completion of an International Baccalaureate (IB) curriculum with a minimum score of 5 in the Diploma Programme, or a minimum score of 6 in the standard level English language examinations.
 - Completion of the British Ordinary Level (O-level) English Language Exam (GCE/GCSE/IGCSE) with a Grade of B or higher.

- Completion of the British Advanced Level (A-level) English Language Exam (GCE/GCSE/IGCSE) with a Grade of C or higher.
- Completion of a minimum of 24 credit hours of academic (non-ESL) coursework at an accredited two or four-year postsecondary institution in the U.S. with a minimum GPA of 2.5 (out of 4.0 scale).
- Completion of at least 1 year of post-secondary (non-ESL) coursework at an accredited/recognized institution in an English-speaking country (see list below) with an equivalent GPA of 2.5 (out of 4.0 scale) or higher.

English-speaking Countries:

Anguilla	Antigua	Australia	Barbados
Belize	Bermuda	Botswana	British Virgin Islands
Canada	Cayman Islands	Christmas Island	Cook Islands
Dominica	Fiji	Gambia	Ghana
Gibraltar	Grenada	Guyana	Ireland
Jamaica	Jersey	Kenya	Liberia
Malawi	Mauritius	Micronesia	Montserrat
Namibia	New Zealand	Nigeria	Norfolk Islands
Papua New Guinea	Pitcairn Islands	Scotland	Sierra Leone
Solomon Islands	South Africa	St. Helena, Ascension & Tristan da Cunha	St. Kitts & Nevis
St. Lucia	St. Vincent & Grenadines	Swaziland	Tanzania
The Bahamas	Tonga	Trinidad & Tobago	Turks & Caicos
Uganda	United Kingdom	Zambia	Zimbabwe

3. Additional Documents. For applicants transferring from another U.S. institution, the applicant must submit the Dean of Students Form (this is required even if the applicant studied only English-as-a-Second language (ESL) at a U.S. institution).

You may also submit a personal essay and letters of recommendations with the application. These items are optional.

Information for Transfer International Student Applicants

International students that complete any post-secondary (college/university) coursework at another institution are considered transfer students. International transfer student applicants are required to submit all transcripts from any post-secondary institution where coursework was completed along with any and all other materials listed above. If the student has completed at least 30 credit hours (or its equivalent) at a post-secondary institution, then secondary transcripts (high school transcripts) do not need to be submitted for admission; only the post-secondary institution's transcripts need to be submitted for an admission decision to be rendered. Generally, transfer students must have at least a 2.0 GPA on a 4.0 scale to be considered for admission.

Generally, courses where a grade of C or better has been achieved may be eligible for transfer credit into Mount Union. For more detailed information on transfer credit, please see the information listed above regarding International Transfer Credit.

International students currently enrolled at another U.S. institution must have the University Registrar's Office directly send their official transcripts to Mount Union's Office of the University Registrar for transfer credit to be considered. Students that hand-deliver their official transcripts are not eligible to receive transfer credit. Students that completed coursework at an international institution should be prepared to submit (in addition to the official transcript) course descriptions and/or course syllabi information to determine the eligibility of courses to be transferred in to Mount Union. For more information on transfer credit, please contact the Office of the University Registrar

Information for Post-Baccalaureate International Student Applicants

Post baccalaureate status refers to students who have already completed an undergraduate degree, either at the University of Mount Union or at another regionally accredited institution, including those students applying for the accelerated nursing program. Post Baccalaureate students may be degree-seeking or non-degree seeking.

Post baccalaureate applicants must complete the online international undergraduate application for admission and submit an official transcript from the institution in which the undergraduate degree was earned, and any subsequent official transcripts. Applicants must meet the minimum University requirements for international admission, as well as the prerequisites for the classes they plan to enroll.

Information for Exchange Students and Language Teaching Assistants

Students that matriculate to Mount Union's campus through one of the University's exchange program agreements are considered an exchange student. Exchange students must be nominated by their home institutions and approved through Mount Union's Center for Global Education. Once nominations are approved, exchange students must apply for admission through the Office of International Admissions. Official college transcripts along with all other documents outlined above must be submitted

for admission. Exchange students are permitted to enroll in courses at Mount Union for the approved duration of time as outlined in the University's exchange program agreements.

The University also welcomes five (5) Language Teaching Assistants (TA) per year that assist our faculty in the World Languages and Cultures Department in various world language classes that the University offers. Typically, a TA is placed in French, German, Japanese, and Spanish classes. TA's are selected and approved through Mount Union's Center for Global Education. Once nominations are approved, TA's must apply for admission through the Office of International Admissions. Official college transcripts along with all other documents outlined above must be submitted for admission. TA's may complete an English Proficiency interview with faculty from the World Languages and Culture Department instead of submitting a TOEFL, IELTS, or any other form of English proficiency test. TA's are permitted to enroll in courses at Mount Union for the approved duration of time outlined in the University's agreement/contract with the teaching assistants.

International Transcript Policy

All transcripts submitted to the University of Mount Union become the property of Mount Union and cannot be returned to the student. Mount Union recognizes that in certain countries only one (1) official transcript is issued to the student upon graduation. Therefore, Mount Union will accept true, certified copies of transcripts in lieu of official transcripts. All transcripts must be translated into English by a certified translation service prior to submission.

Immigration

The University of Mount Union may enroll international students of all visa types. Mount Union, through the Department of Homeland Security's (DHS) Student & Exchange Visitor Information System (SEVIS), is authorized to issue certificates of eligibility I-20 documents for students pursuing an F-1 visa and DS-2019 documents for students pursuing a J-1 visa. U.S. federal law requires that international students seeking an F-1 or J-1 visa show proof of financial support to be issued an I-20 or DS-2019. In order to receive an I-20 or DS-2019 from the University of Mount Union, the following documentation must be submitted:

1. Copy of the biographical page of the student's passport.
2. For students seeking a degree: bank statement, letter from the bank, or scholarship/funding letter showing at least the value of one academic year's worth of tuition, fees, living expenses (room and board) and health insurance.
3. For exchange students: a bank statement, letter from the bank, or scholarship/funding letter showing at least the cost of room, board, and health insurance for one academic year or one semester (this requirement varies depending upon the agreement between the exchange student's institution and Mount Union).
4. For teaching assistants: Mount Union covers the cost of tuition, fees, living expenses and health insurance for the duration of time a teaching assistant is here. Teaching assistants are also provided with a monthly stipend for the academic year. The teaching assistant's contract from the Center for Global Education will be forwarded to the Office of International Admissions as proof of funding for these students.
5. If the bank statement or letter is not in the student's name, completion of an affidavit of support from the student's sponsor is required, or completion of Mount Union's Commitment of Financial Backing (CFB) Form is required.
6. If transferring from another U.S. institution, Mount Union's SEVIS Transfer-in Form must also be completed.

Maintaining Immigration Status

Staff members at the University of Mount Union serve as Designated School Officials (DSO's) for F-1 visa holders and Responsible Officers (RO's) for J-1 visa holders. They are responsible for student and University compliance with U.S. immigration regulations, as well as reporting required data to the Department of Homeland Security (DHS) and the Department of State (DOS) through SEVIS. DSO and RO responsibilities include, but are not limited to the following:

- General immigration advising for students and dependents
- SEVIS record maintenance
- CPT (Curricular Practical Training) authorization
- OPT (Optional Practical Training) authorization
- AT (Academic Training) authorization
- Changes to degree program dates
- Address changes in SEVIS
- Reduced Course Load (RCL) requests and authorizations
- Extension to dates on I-20 or DS-2019's
- Reinstatement of immigration status petitions
- Status form travel signatures
- Mandatory health insurance requirements

Enrollment Requirements: International students are required to enroll each semester in a full course of study and make steady academic progress toward completing their degree program by the end date on their I-20 or DS-2019. For undergraduate

students, full time enrollment is at least 12 credits per semester. If a student needs to drop below a full course load, he/she must consult with the Office of International Admissions prior to dropping a course, or his/her immigration status may be terminated.

Employment for F-1 Students:

On-campus employment: F-1 students are permitted by the Department of Homeland Security to work on campus no more than 20 hours per week while school is in session. F-1 students may work full time during break periods, including summer. Please see Mount Union's Office of Student Financial Services for their policy on on-campus employment. (Note: if a student is participating in the F-1 Dual Degree program, then that student is not eligible for on-campus employment).

CPT (Curricular Practical Training): CPT authorization may be granted for work done on or off campus but only if it is an established curricular requirement of a degree program or being completed for course credit. F-1 students are eligible for CPT after completing one academic year. At Mount Union, students may work no more than 20 hours per week on CPT while school is in session but may work full time on CPT during break periods, including summer.

OPT (Optional Practical Training): The Office of International Admissions assists students in applying to the United States Citizenship and Immigration Services (USCIS) for OPT authorization to work in the U.S.

Note: Spouses and dependents in F-2 status may not work in the U.S. under any circumstances.

Employment for J-1 Students: Students and their dependents in J status are not permitted to work on-campus during their time at Mount Union.

Address Changes: F-1 and J-1 students are responsible for submitting a physical address and any changes to the Office of International Admissions within ten days of arrival or a move. The Office of International Admissions updates the address in SEVIS in order to comply with federal reporting requirements.

Additional Regulatory Requirements for J-1 Exchange Visitors:

- **Health insurance:** All international exchange visitors and dependents are required by the Department of State (DOS) to maintain health/medical insurance that meets DOS requirements outlined in the DS-2019. The insurance must cover the entire period of the exchange experience in order to meet regulatory requirements.
- **Cultural Participation:** The Office of International Admission and the Office of International Student Services, in compliance with the Department of State, requires all exchange visitors in J status to participate in cross-cultural activities that allow exchange visitors to share their own culture while learning more about the host culture.

Students on an F-1 or J-1 visa are required to abide by all the U.S. federal immigration regulations set forth by the Department of Homeland Security (DHS) and the Department of State (DOS) to remain in status during their studies here in the U.S. It is the student's responsibility to understand and follow these laws and regulations. Please seek the advice of a Designated School Official (DSO) or Responsible Officer (RO) if you are unsure of what certain regulations or laws mean for you as a student. Failure to comply with the laws and regulations set forth by the federal government could lead to dismissal from the University and/or deportation from the United States.

Returning Students/Readmission

A Mount Union student whose attendance at the University is interrupted, either by suspension or by withdrawal for any reason, must apply for readmission with the Office of the University Registrar in order to resume academic work at Mount Union. An extended absence may result in reassessment and/or adjustment of degree requirements. A student who has attended any other institutions since leaving Mount Union must submit official transcripts from each school attended before readmission will be considered; failure to submit official transcripts will result in a denial of readmission.

When the Office of the University Registrar identifies a student, who has been pursuing a degree for more than 10 calendar years, that office will request that the department(s) in which the student is doing his or her major and minor work complete a review of the student's record to date. This review would be to determine if any modifications should be considered or implemented in the student's program of study toward the major(s) or minor(s). Students who are on an approved Leave of Absence from the University are not required to apply for readmission.

Students may be readmitted to the University with additional conditions or requirements, as deemed appropriate by the Associate Dean of Academics or the Dean of Student Affairs. These additional conditions or requirements will be outlined in the student's readmission acceptance letter. Students returning from a military leave absence are not required to apply for readmission.

Students denied readmission for any reason, may appeal the decision to the Vice President for Academic Affairs. The appeal must be in writing within 5 days of the denial letter date. The decision of the Vice President for Academic Affairs is final.

Transient Students from Another Institution

A student who is regularly enrolled at another college or university but who seeks approval to register for classes at Mount Union as a transient in order to have credit transferred to the home institution must apply by submitting a transient application to the Office of the University Registrar. Although official transcripts are not required as part of the transient application process, a student seeking transient status at Mount Union must present evidence of good academic and disciplinary standing at the home institution. Following completion of the academic work, a transient student must request an official transcript be sent to the home institution in order to transfer credit accordingly.

Post-Baccalaureate Students

Post baccalaureate status refers to students who have already completed an undergraduate degree, either at the University of Mount Union or at another regionally accredited institution, including those students applying for the accelerated nursing program. Post Baccalaureate students may be degree-seeking or non-degree seeking.

Post baccalaureate applicants must complete the online undergraduate application for admission and submit an official transcript from the institution in which the undergraduate degree was earned, and any subsequent official transcripts. Applicants must meet the minimum University requirements for admission, as well as the prerequisites for the classes they plan to enroll. Post baccalaureate applicants who have attended the University of Mount Union as an undergraduate student will contact the Office of the University Registrar for application and registration.

Advanced Placement

Mount Union encourages the taking of advanced placement courses. The University may award credit based on achieving the appropriate examination score on College Board Advanced Placement Examinations. See the Office of the University Registrar for a complete list.

International Baccalaureate

The International Baccalaureate (IB) Diploma Programme prepares high school students for success at the university level. The academically rigorous, internationally focused curriculum includes courses in six subject areas. Students taking year-end IB examinations may receive transfer credit at the University of Mount Union. Students should request a transcript from International Baccalaureate North America (IBNA) be sent directly to the University of Mount Union for an official credit evaluation. Students can visit the Office of the University Registrar for details about acceptable courses and scores for transferability.

College Credit Plus

Students who have completed regular accredited college courses while in high school through the College Credit Plus Program may, by having a copy of their transcript sent from the credit-granting college (not the high school transcript) be awarded credit according to Mount Union policy. General conditions of transferring credit also apply here. Entering students are required to take certain tests at the time of entrance to the University and are encouraged to take placement tests in applicable areas in order that they may begin course work at the proper level.

College Credit Plus Enrollment Options

The University of Mount Union's CCP Enrollment Options are designed to provide qualified students with the opportunity to complete college-level course work.

For consideration, applicants must meet the normal admission standard of the University. CCP acceptance will be based on the University's review of the following application materials: timely completion of the appropriate CCP application, transcripts reflecting all grades up to the time of application and any current courses in progress and a CCP recommendation form that has been completed by the school counselor or principal. ACT or SAT test score results (writing not required) must be provided by applicants seeking admission. Scores/Sub scores must also provide evidence that the students meet the remediation free standards as published on the site of the Ohio Board of Regents. If ACT or SAT tests have not been taken, the applicant will be required to take the University's placement test or submit current Accuplacer test scores to determine college readiness.

A letter of acceptance into CCP Program at the University site does not guarantee placement in any given course. Actual enrollment is dependent upon space availability with priority of course scheduling given to University of Mount Union undergraduate students. Normal course pre-requisites remain in place. In accordance with existing institutional policy, the University reserves the right to cancel any class if the minimum number of students is not enrolled.

While attending as a postsecondary student, each high school student attending Mount Union will receive grades and have a grade point average just like any other student attending the University.

Compliance Statements

Consumer Information Disclosures: As a prospective student, federal regulations stipulate that you have the opportunity to access various types of consumer information. If you wish to obtain a copy of the Campus Crime Report, please contact the Office of Admission. This report is published annually and includes information about campus security policies, procedures, and practices; and statistics for the occurrence, during the prior three calendar years, of criminal offenses that were reported to local police agencies or to a campus security authority. If you wish to obtain a copy of the Equity in Athletics Disclosure Act Report, please contact the Office of Admission. This report, which contains athletic program participation rates and financial support data, is compiled annually and available to the public.

Non-Discrimination Statement: The University of Mount Union prohibits discrimination on the basis of race, gender, gender identity or expression, sex, sexual orientation, religion, age, color, creed, national or ethnic origin, veteran status, marital or parental status, pregnancy, disability, or genetic information, in student admissions, financial aid, educational or athletic programs,

or employment as now, or may hereafter be, required by university policy and federal or state law. Inquiries regarding compliance may be directed to the Human Resources Office, Beeghly Hall, (330) 829-6560.

Financial Aid for Undergraduate Students

The primary goal of the financial aid program at Mount Union is to assist students in meeting their University expenses by providing financial resources. Financial assistance from the University should be considered as supplemental to the family effort. The investment of the family includes parental support for dependent students and a contribution from the students themselves. Mount Union will strive to assist eligible students to the greatest extent possible based on the University's available resources.

Eligibility for Financial Aid for Traditional Undergraduate Students

To be eligible for financial assistance, the student must be classified as a full-time traditional undergraduate student and show satisfactory progress toward meeting the requirements for a degree. Institutional financial assistance is not available to any student who holds a bachelor's degree or higher or for summer school.

Consideration for institutional need-based grants will be available for up to 10 semesters or until completion of the degree, whichever is less. Students who wish to accelerate their program by attending summer school may be eligible for limited types of assistance. The amounts and types of assistance for summer attendance are limited, and applications for such aid should be made preceding attendance.

Students must complete the Free Application for Federal Student Aid (FAFSA) in order to be considered for financial assistance based on financial need. Students apply online at www.fafsa.gov and the federal school code for the University of Mount Union is 003083. The student will be considered for state funds, federal grants such as Pell and TEACH Grant as well as federal loans and employment opportunities. University aid will be based on the assumption that students will apply for and receive other financial aid for which they are eligible. If additional aid or scholarships are received after the initial aid award has been given to the student, a review of the aid eligibility may require some adjustments to that the total award does not exceed federal, state or institutional guidelines and regulations.

Students who attend summer school at Mount Union may be eligible for financial assistance. Students may use federal funds such as Federal Loans for summer if they are eligible (according to the FAFSA). Any federal loans used for the summer sessions may reduce eligibility for the remainder of the year.

Satisfactory Academic Progress: Financial Aid Considerations

Federal regulations require the University of Mount Union to establish satisfactory academic progress (SAP) standards for student financial aid recipients. Mount Union's SAP policy measures a student's performance in the following three areas: cumulative grade point average (GPA), completion rate, and maximum time frame. The Office of Student Financial Aid is responsible for ensuring that all students who receive federal and state financial aid are meeting these standards. The Standards of Satisfactory Academic Progress apply for all financial assistance programs including but not limited to: Federal Pell Grant, Federal Perkins Loan, Federal Work-Study (FWS), Federal Supplemental Educational Opportunity Grant (FSEOG), Direct Student Loans, Direct Graduate and Parent PLUS Loans, as well as financial aid from the state of Ohio.

Satisfactory Academic Progress is reviewed annually following the spring semester. This review includes any courses taken during the summer semester. For example, the Spring 2017 review included the Summer 2016, Fall 2016, and Spring 2017 semesters in the calculation. Students who fail to meet the Standards of Satisfactory Academic Progress will be placed on financial aid suspension and lose eligibility for all federal Title IV and state financial aid programs. They will be notified, in writing, of this action. In addition, they will be provided the opportunity to appeal this decision based on mitigating circumstances that may have occurred during the year or semester that could not have been anticipated (see below).

Attempted Credit Hours. Credit hours attempted include all graded courses, transferred courses, pass/fail grades, satisfactory/unsatisfactory grades, withdrawals, incompletes, and repeats. All attempted hours are counted whether financial aid was received.

For transfer students, the figure used for "semester hours attempted" will be the sum of transfer credits accepted by Mount Union and the credits attempted here at Mount Union. For example, a transfer student who was granted six credits for transfer work and who has attempted 25 credits at Mount Union would have attempted a total of 31 semester hours for the purposes of this policy.

Pre-college (CCP) courses do not count toward credit hours attempted.

Non-credit remedial courses are not offered and do not count toward credit hours attempted.

Cumulative Grade Point Average. To retain financial aid eligibility, a student must be in "good academic standing," in terms of minimum cumulative GPA requirements. A student's academic standing is dependent upon the cumulative grade point average, attempted number of credit hours, and the degree a student is seeking. For a student to attain and/or maintain "good academic standing" at the University of Mount Union, the student must meet the following GPA requirements:

Second Degree Accelerated Bachelor of Science in Nursing

- A student must maintain a cumulative grade point average (GPA) of 2.0 or above.

Undergraduate Students (BA, BS, BM, and BSN)

- Have a 1.600 grade point average or higher and have attempted fewer than 31 semester hours.
- Have a 1.750 grade point average or higher and have attempted at least 31, but fewer than 48 semester hours.
- Have a 1.900 grade point average or higher and have attempted at least 48, but fewer than 64 semester hours.
- Have a 2.000 grade point average or higher and have attempted 64 or more semester hours.

A student may repeat a failed course as often as is necessary to pass and receive credit for the course. The course credit hours for each attempt are used in the calculation of the student's GPA unless the course was taken as a "Repeat for change of grade". All "Repeat for change of grade" course attempts will appear on a student's official academic record, but only the last attempt will be used in the calculation of the student's cumulative grade point average (the grade for the repeated attempt will appear in brackets).

Once a course has been successfully completed, a student can retake and receive financial aid for that same course only one additional time (one retake attempt). Successful completion of a course, for purposes of the Satisfactory Academic Progress calculation, are grades of A thru D-. All other grades, including Withdrawals and Incompletes will not be counted as a successful completion.

Incomplete grades are counted as unsuccessful attempts. Once an incomplete has been changed to an A, B, C, or D, it can be added to the number of hours completed for the term of the original registration. It is the student's responsibility to notify the Office of Student Financial Aid once an incomplete has been changed to a valid grade.

Withdrawals processed by the end of the first week are not recorded on the official academic record. Withdrawals processed after the first week but by the first day of the eleventh week (or by the end of the fifth week for courses that meet for only seven weeks) will be recorded as a "W" on the student's official academic record. A student withdrawing after the first day of the eleventh week of classes for any reason - other than medical or non-academic hardship - will receive grades of "F" which will be used in computing the cumulative grade point average. Note: For courses that are taught in only the first or second half of the semester, the withdrawal deadline will be the end of the fifth week of the course. A "W" is also applicable when a student, with the approval of the dean of students of the University, withdraws from a course anytime during the semester for a verified medical or other verified non-academic hardship. A "W" is not calculated in a student's grade point average.

Please note that credit hours attempted, and grades awarded for approved transient work taken at another institution are part of Mount Union credits attempted and are included in the calculation of grade point average.

Completion Rate. A student must also be making satisfactory academic progress in terms of completing courses. Completion Rate is calculated by dividing the total numbers of hours completed by the total number of hours attempted. All attempted hours are counted whether financial aid was received. A student enrolled at the University of Mount Union on a full-time basis is making satisfactory academic progress (SAP) if he or she successfully completes a minimum of 67% of the credit hours attempted.

Maximum Time Frame. A student must also complete his or her degree within 150% of the published length of the program as measured by credit hours attempted. At the University of Mount Union, this means in programs requiring 128 credit hours, the course work was successfully completed before a student reaches 192 attempted credits (150% time frame). Eligibility for financial aid will be terminated after a student reaches 192 attempted credits (150% time frame).

The 150% maximum time frame allowance for completion of the program is intended to be long enough to allow for changes in major, loss of credit due to transfer and withdrawn coursework; therefore, no extensions of the maximum time frame will be granted for those reasons.

Students seeking second degrees and students with double majors may reach the maximum timeframe standard at an accelerated pace under this policy. Students may appeal for the allowance of additional credit hours to complete their program.

Financial Aid Appeal Procedure. Students who have lost federal or state financial aid eligibility may appeal to the Office of Student Financial Aid if they have mitigating circumstances (e.g. emergency, health, family circumstances, etc.). A student must appeal in writing. Such appeals must provide an explanation for why the student failed to achieve Satisfactory Academic Progress and must include a statement explaining how the student will achieve Satisfactory Academic Progress in the subsequent semester. Additional documentation or letters of support may be requested. Students must also complete an academic plan with the University Registrar. A committee, consisting of three members of the Office of Student Financial Aid will review the appeal and notify the student of a decision.

If a student's appeal is denied, the student will be placed on financial aid suspension and will lose eligibility for all federal Title IV and state financial aid programs until they achieve the minimum financial aid SAP standards required by this policy.

Students who have been placed on financial aid suspension status may regain full eligibility for federal Title IV and state financial aid by successfully completing coursework while in that status. The student must raise their cumulative Grade Point Average to meet or exceed the requirement and meet the completion rate. Students who are Ineligible to receive federal Title IV or state student financial aid may use one or more of the following payment options while attempting to regain eligibility:

- Student's own resources
- The University of Mount Union Payment Plan
- Private Alternative Educational Loan Programs, although some private lenders require the student to meet Standards of Satisfactory Academic Progress policy requirements

Financial Aid Probation. If a student's appeal is granted, the student may continue to receive federal financial aid during

the following semester and will be considered on financial aid probation. If after the following semester, the student succeeds and meets both the completion rate and GPA requirement, he or she will be removed from financial aid probation because he or she will be meeting satisfactory academic progress.

If a student fails to meet the completion rate or GPA requirement after the following semester, the Office of Student Financial Aid will determine if the student is meeting the terms of their academic plan. If the student is meeting the terms of their academic plan, they may stay on financial aid probation. If the student fails to meet the terms of the academic plan, the student will be placed on financial aid suspension and will be ineligible for title IV and state financial aid. Although students may utilize the appeal process again if this occurs, the same mitigating circumstances used in previous appeals may not be used again. The Committee will also take the number of prior appeals submitted into consideration when reviewing subsequent appeals.

Determination of Financial Aid Eligibility for Undergraduate Students

The University requires the Free Application for Federal Student Aid (FAFSA) to determine eligibility for need-based financial aid from federal aid programs, state grants and institutional funds. Students can access this website at www.fafsa.gov. Students are encouraged to file electronically. The Office of Student Financial Services determines the financial aid award, which is consistent with federal, state and institutional guidelines. Changes that occur in the family's financial situation after the aid applications have been filed should be reported to the Office of Student Financial Services for guidance. All financial aid documents must be processed by the last date of attendance or the last day of the semester, whichever comes first.

Adjustments to the financial aid award may be the result of submitting documents such as verification worksheets and special circumstance forms or result from a change in the student housing status (on-campus vs. off-campus vs. commuter). In addition, inaccurate information, notification of additional aid from outside sources, certification of Federal Parent PLUS or private loans could also cause changes. Amounts may vary due to changes in federal, state or University funding of programs. The student will be notified of each financial aid revision. Students are notified electronically.

Financial Aid Awarding Policies for Undergraduate Students

Housing Status: University policy requires freshmen and sophomores to live on campus or to commute from their parents' home. For purposes of the initial financial aid award, we will make the assumption that the student will reside on campus unless the FAFSA indicates "with parents." In the case of FAFSA non-filers, we will assume "on campus" unless notified otherwise by the family. Students should anticipate that their aid will change as a result of a change in housing status.

Enrollment Status: Financial aid awards for traditional students are based on full-time enrollment (12 semester hours per semester) unless otherwise indicated. It is the student's responsibility to check with the Office of Student Financial Services if part-time attendance is desired. However, students enrolled less than 12 semester hours may be eligible for part-time Federal grants and/or a Federal Stafford Loan (minimum of six semester hours).

Policy for Multiple Merit Awards: A merit-based scholarship or award is offered without regard for financial need. Students who may be eligible for multiple Mount Union scholarships and awards will receive at least the value of the highest scholarship or award. Consideration that is given for any portion of a second scholarship or award from Mount Union will be based on financial need and will require that the student file the Free Application for Federal Student Aid (FAFSA). The maximum award equals full tuition; students who receive a full tuition scholarship are not eligible for additional Mount Union scholarships or awards. All University scholarships, awards, and grants are coordinated through the Office of Student Financial Services. Following the NCAA Division III philosophy, the University of Mount Union does not offer athletic scholarships. The University does award scholarships and financial aid for all students using the same policies and processes.

Financial Aid Application Procedures for New Undergraduate Students

The following steps are necessary in order to apply for financial aid at Mount Union:

- The student applies for admission to the University.
- The student files the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov to determine financial aid eligibility for need-based financial aid. The federal school code for Mount Union is 003083. The process begins on October 1 of the student's senior year.
- The process of sending award letters begins in early December.

Financial aid awards are made throughout the year, but late applications will be considered only if funds are available.

Financial Aid Renewal Procedure for Undergraduate Students

All financial aid awards are reviewed annually to accurately analyze any changes in the financial position of the student and his or her family. The annual review also permits the University to take into consideration any change in educational costs. The following information relates to renewal of financial aid:

- File the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov to apply for financial aid assistance. All renewal applicants are encouraged to complete their applications accurately and as early as possible after October 1.
- The Office of Student Financial Services provides reminders to students via electronic communication on

- campus.
- Award letters are available to students beginning March 1.

Financial Assistance for Undergraduate Degree-Seeking International Students

An applicant who is not a United States citizen or eligible non-citizen shall be considered an international student and may qualify for merit based international student scholarships. To be eligible the student must be classified as full-time, meet the criteria for the scholarship award, and show satisfactory progress toward meeting the requirements for a degree. Merit scholarships are not available to any student who holds a bachelor's degree or higher or for summer school.

Types of Assistance for Undergraduate Students

The term "financial aid" is used to include scholarships, awards, grants, loans and on-campus employment. The majority of students receiving aid are granted a combination of these types of assistance.

The initial institutional merit-based award is offered without regard for financial need. Students who may be eligible for multiple institutional grants and/or scholarships will receive at least the value of the highest grant or scholarship. It is our policy not to "stack" multiple institutional awards on the basis of merit. Consideration that is given for any portion of a second grant/scholarship or award made up of the University of Mount Union dollars will be based on financial need and will require the student to file the Free Application for Federal Student Aid (FAFSA). Students can view a list of their awards on their award offer provided by Student Financial Aid. A list of awards can also be viewed at <https://www.mountunion.edu/applying-for-financial-aid>.

Veterans Benefits

The University of Mount Union neither sets policy nor administers V.A. programs. University personnel assigned to the office process the forms as a service to the student who is claiming V.A. educational benefits and acts as liaisons between the student and the Veterans Affairs Regional Office. Students who wish to receive benefits must report to the University of Mount Union certifying official in the Office of the University Registrar each semester to fill out a Request for Certification.

Additional Financial Aid Information

Study Abroad Program: A number of financial aid programs are available to offset the educational expenses for a study abroad program for eligible students who are full-time and who have been approved by the Center for Global Education of the University. Contact the Office of Student Financial Aid for further information.

Tuition and Costs

Table of Fees, 2020-2021

<u>Full Time Undergraduate Fees Per Semester</u>	Amount
Tuition and Fees	\$ 16,100
Technology Fee	\$ 200
Program Fee (<i>Nursing Students Only</i>)	\$ 250
Program Fee (<i>Admit to Teacher Ed Program</i>)	\$ 115
Standard Room	\$ 2,650
Suite-style Room – Add \$400	\$ 3,050
Single Room: Additional Amount	\$ 600
Super Single (<i>Double Buy Out</i>): Additional Amount	\$ 800
Apartment-Style - Union Apartments	\$ 3,650
Apartment-Style - Hartshorn / Union Townhouses	\$ 3,725
Apartment-Style – Goris Apartments – Single (monthly)	\$675
Apartment-Style – Goris Apartments – Double (monthly)	\$425/\$850
Graduate Apartments – Single (<i>monthly</i>)	\$ 675
Graduate Apartments – Double (<i>monthly per person</i>)	\$ 425/\$850
Sigma Nu	\$ 2,700
Sigma Nu / Super Single	\$ 3,750
ADP, ATO, PKT / Single	\$2,650
ADP, ATO, PKT / Super Single	\$3,700
Board Plan Only	
Unlimited Meals per week + 10 meal equiv.	\$ 2,700
16 meals per week plus \$100 Dining Dollars	\$ 2,700
11 meals per week plus \$300 Dining Dollars	\$ 2,600
7 meals per week plus \$400 Dining Dollars	\$ 2,485
Block meal plan - any 50 meals	\$ 420
Block meal plan - 50 meals - breakfast and lunch only	\$ 345
Block meal plan - any 25 meals plus \$100 dining dollars	\$ 420
<u>Undergraduate Overload Fees (Over 20 Semester Credit Hours)</u>	
Per semester hour	\$ 825
<u>Summer Fees 2020</u>	
Undergraduate Classes (<i>per semester hour</i>)	\$ 425
Room (<i>per week / per person</i>) - Regular	\$ 100
Room (<i>per week / per person</i>) – Sigma Nu	\$75
<u>Undergraduate Part-time Fees</u>	
Per semester hour	\$ 1,370
Technology fee	\$ 100
<u>International Student Teaching Fee</u>	
Per semester hour	\$ 700
<u>Accelerated BSN – Program Fees</u>	
Technology Fee per term/semester	\$ 200
Program Fee per term/semester	\$ 250
Tuition per Credit Hour	\$ 450
Enrollment Deposit	\$ 200
<u>Applied Music Fees (University Student with Music Faculty)</u>	
Fifteen 30 min. lessons – 1 credit hour	\$ 500
Fifteen 60 min. lessons – 2 credit hours	\$ 1,000

Incidental Fees

Admission Application	No Fee
Undergraduate Enrollment Deposit	\$ 150
Comprehensive Deposit (<i>required of all new traditional students</i>)	\$ 150
Parking Fee	
Fall/Spring semesters (full year)	\$100
Spring semester only	\$60
Graduation Application Fee	
Graduation Application Fee Late (after October 1)	\$150
Study Abroad Application Fee	
(includes all USAC, direct exchange, and faculty-led trips)	\$100

PHY 102	\$ 20
PHY 230V	\$ 50
PL 650	\$ 75
SPE 205	\$ 300

Student Charges

Tuition, fees, room and meal plan are payable to the Office of Business Affairs by July 31 for fall semester and January 3 for spring semester. A monthly payment plan with minimal application fee is also available. Information is available at the Office of Business Affairs.

A student who is enrolled for 12 or more hours in one semester must pay full tuition and fees. A student who enrolls for more than 20 semester hours is subject to an overload fee per semester hour. A regularly registered full-time student in either

semester is one who has paid full tuition and fees for that semester. A part-time student in either semester is one who has paid less than full tuition for that semester.

Tuition and fees should be paid at the Cashier's Office, and all checks should be made payable to the University of Mount Union.

Payment of tuition and fees entitles the student to the use of science laboratories and science materials, use of the University Health Service and University Library, subscription to the University newspaper, admission to all regularly scheduled intercollegiate sports events held on the campus, and University theatre and music presentations.

In addition, tuition and fees include premiums for an accident insurance policy on each student in attendance full-time and also are designated annually for the operation of the Hoover-Price Campus Center, and class dues.

A technology fee will be charged to each student in order to upgrade and maintain computing resources, services and technologies across the campus.

Advance Deposit Payment of Regular Fees

To enable the University to confirm and assign classroom and residence hall space in advance, each new student contemplating full-time attendance must make an advance payment of \$150. Checks should be made payable to the University of Mount Union.

New students are to make advance payments after admission to the University and as notified in their acceptance letter or in their financial aid award.

The University makes no guarantee of classroom or rooming space to students having been admitted or preregistered who have not made advance payments as required.

New students applying for admission for the fall semester may receive a refund of the advance payment providing written notification of withdrawal is received and postmarked prior to May 1. Refunds will not be made after this date.

Private Music Lessons for University Students

Private instrumental and vocal study is available for credit to Mount Union students. University students register for applied lessons through the Office of the University Registrar to receive appropriate academic credit. All fees for university applied lessons are paid at the Office of Business Affairs.

Student Fees (per Semester)

Student fees for private music lessons taught to Mount Union's full-time students by members of the music faculty are as follows:

<u>Semester</u>	<u>(15) 30 min. lessons</u>	<u>(15) 60 min. lessons</u>
Fall or Spring Semester	\$500	\$1,000
Summer sessions	\$500	\$1,000

Part-time students must pay the charges listed above as well as applicable tuition charges. Lessons missed by the teacher are made up at a time acceptable to both teacher and student. Lessons missed by the student will not be made up except in cases of serious illness or emergency. No tuition refund will be given for missed lessons. If a student withdraws after the first week of classes, no refund will be given. Lessons should be completed within the semester for which registration is made. Private music lessons are not available for audit.

Private Music Lessons for the Preparatory Division (Non-University Students)

Private instrumental and vocal lessons are available for non-University students of all ages and levels of advancement through the University of Mount Union Preparatory Division. All information about Preparatory Division policies, fees, and registration is available at the Visual and Performing Arts Office in Cope Music Hall. Payment for lessons is to be made at the Visual and Performing Arts office.

Lessons are arranged at a time mutually convenient to the teacher and student. No lessons may be given in the Preparatory Division until registration is completed. Payment is made for the entire semester, or in two installments.

Preparatory Division faculty includes full-time and adjunct music faculty from the Department of Music and student intern teachers from the Department of Music. Student teachers are supervised by the director of the Preparatory Division.

Lessons will not be made up except in the event of extended illness. No tuition refund will be given for unexcused absence from lessons. Preparatory Division lessons must be completed within the semester for which the registration and payment are made.

Preparatory Division Music Lesson Fees (non-University students)

Non-University student fees for Preparatory Division music lesson fees are as follows:

Rate	Charge per Lesson	Total Charge to Student
<i>With Faculty Instructor:</i>		
15 Half-hour Lessons	\$20	\$300
15 One-hour Lessons	\$40	\$600
13 Half-hour Lessons	\$20	\$260
13 One-hour Lessons	\$40	\$520
<i>With Student Instructor:</i>		
15 Half-hour Lessons	\$10	\$150
15 One-hour Lessons	\$20	\$300

Withdrawal Fees and Refunds

The official Withdrawal Process for purposes of financial aid and institutional policy can be found under the “Drop/Add/Withdrawal Policy.”

Withdrawal Process

A student who wants to withdraw after classes have started for the semester initiates the process with the Office of Student Affairs to indicate that he/she is withdrawing. The official date of withdrawal is the date the student contacted the Office of Student Affairs OR the midpoint of the semester if the student leaves without notifying the institution OR the student’s last date of attendance at a documented academically related activity. This policy applies to students who withdraw from all of their classes for the semester or are suspended.

Students who withdraw prior to the beginning of the academic term or during the drop/add period shall be refunded 100% of tuition, fee and room charges and assessed an early withdrawal fee of \$150 as well as a room cancellation fee of \$150 if living in campus housing.

Students who withdraw from the University entirely according to the process described above are eligible for a partial refund of tuition and fee charges according to the following schedule:

Week Number	Refund Percentage	Charge Percentage
Week 1	100%	0
Week 2	75%	25%
Week 3	50%	50%
Week 4	25%	75%
Week 5 and after	0%	100%

Room and board charges are prorated on a weekly basis up through the 60 percent point of the semester. After this point there is no refund for room and board.

Application fees, laboratory fees and other course fees are not refundable after the add/drop period.

Return of Federal Title IV Funds

The federal government mandates that students who withdraw from all classes may keep only aid earned up to the time of withdrawal. This policy applies to all students who received Title IV funds (Direct Loans, Direct PLUS loans, Federal Pell Grants, Federal SEOG, and TEACH) and withdrew from all their classes prior to completing 60% of the semester for which the aid was provided. A student earns their federal aid on a pro-rated basis and is not considered to have earned 100% until they attend past the 60% point of the semester.

The return of federal title IV funds policy is a pro-ration of earned versus unearned financial aid. The earned financial aid percentage is determined by dividing the days attended in the semester by the total days in the semester with an allowance for any scheduled breaks that are 5 or more days in length (i.e., student withdraws on the 5th day of the semester which has 110 days, $5/110 = 5$ percent earned). Subtracting earned aid from aid that was awarded and disbursed gives you the amount of unearned aid that must be returned. The responsibility to repay unearned aid is shared by the institution and the student in proportion to the aid each is assumed to possess. The student may be billed by the University of Mount Union for any account balance created when the University is required to return funds. The balance due would be the result of tuition charges that are no longer being covered by the unearned aid or unearned aid that the student received in a refund check. The calculation must be performed within 30 days from the student’s withdraw date. A school must always return their portion of any unearned Title IV funds within 45 days of the date the school determined the student withdrew.

Under the Return of Federal Title IV funds policy, the programs are reimbursed in the following order:

1. Federal Direct Unsubsidized Loan
2. Federal Direct Subsidized Loan
3. PLUS Loan
4. Grad PLUS Loan
5. Federal Pell Grant

6. Federal Supplemental Educational Opportunity Grant
7. TEACH Grant

Withdrawal dates are determined in one of the following ways, depending on the situation:

1. The date the student notifies the Office of Student Affairs or another office on campus.
2. The date the student is officially dismissed from the University.
3. The last date of documented academic attendance.
4. In the case of unofficial withdrawals, it is the mid-point of the period of enrollment or last date of documented academic attendance.

A Post-Withdrawal Disbursement

A student qualifies for a post-withdrawal disbursement if their earned aid is more than the amount disbursed to them. The Office of Student Financial Aid will notify the student in writing via email or letter of their qualification for a post-withdrawal disbursement. The student has 14 days from the date of the letter to accept or decline the post-withdrawal disbursement. In the event the Office of Student Financial Aid does not receive a response from the student within 14 days, the post-withdrawal is forfeited. A school must offer any post-withdrawal disbursement of loan funds within 30 days of the date the school determined the student withdrew. A school must return any unearned funds and make a post-withdrawal disbursement of grant funds within 45 days of the date the school determined the student withdrew. The Office of Student Financial Aid recognizes if a student withdraws and is entitled to a post-withdrawal disbursement it will be applied to charges still owed to the University, and any excess will be refunded to the student.

Return of State Grant Funds

In addition to calculating all Title IV funds the student received, we calculate state funds according to the State Refund Policy.

Institutional Grants or Scholarships

Institutional Financial Aid is earned based on the tuition refund schedule:

Week Number	Percent of Institutional Aid Earned
Week 1	0%
Week 2	25%
Week 3	50%
Week 4	75%
Week 5 and after	100%

Adjustments

After the proper refund/repayment to Title IV, state, and institutional funds are determined, then adjustments are made to the student’s award. Adjustments are reflected in the Office of Business Affairs final billing, and notification is sent to the student.

Refund Appeal Process

If a student believes that individual circumstances warrant exceptions from published refund policies, they should appeal the decision by sending a written letter of appeal to the President’s Council, University of Mount Union, 1972 Clark Ave., Alliance, OH 44601.

Other Information

The Comprehensive Deposit. A comprehensive deposit is required of all new students. It serves to guarantee payment of possible residence hall damage, library fines, laboratory breakage, and other charges not paid when billed. The unassessed balance of this one-time deposit is refundable when leaving the University of Mount Union permanently.

The Transcript Fee. The transcript fee is charged for each transcript issued. Financial obligations to the University must be met before transcripts are issued.

Student Employment Forms. All students who will be working at the University must complete the following forms in the Office of Human Resources before the actual work begins in order to receive their payroll checks: Form I-9, Form W-4 and Form IT-4. To complete the I-9 Form one must have a valid U.S. Passport or two other forms of identification (valid driver’s license and Social Security Card or birth certificate).

Return of TA Funds Policy

This policy applies to all students who received TA funds and withdrew from all their classes prior to completing 60% of the semester for which the funds were provided. A student earns their TA funds on a pro-rated basis and is not considered to have earned 100% until they attend past the 60% point of the semester. After the 60% point, no TA Funds will be returned. The return of TA Funds policy is a pro-ration of earned versus unearned funds. The earned funds percentage is determined by dividing the days attended in the semester by the total days in the semester with an allowance for any scheduled breaks that are 5 or more days in length (i.e., student withdraws on the 5th day of the semester which has 110 days, $5/110 = 5$ percent earned). Subtracting earned funds from funds that were disbursed, gives you the amount of unearned funds that must be returned to the appropriate Military Service. The student may be billed by the University of Mount Union for any account balance created when the University is required to return funds. The balance due would be the result of tuition charges that are no longer being covered by the unearned funds.

Date	Day	Refund %
1/11/2021	1	0.9%
1/12/2021	2	1.7%
1/13/2021	3	2.6%
1/14/2021	4	3.5%
1/15/2021	5	4.3%
1/16/2021	6	5.2%
1/17/2021	7	6.1%

Student Life

Campus Citizenship

Campus citizenship at Mount Union is based upon ideals embodied in the statement of the goals of the University. The University has declared its position as that of a community of scholars and learners in which cooperation and concern are distinguishing characteristics, and it has further stated that it is expected that all persons within the community be responsible and maturing academic citizens. Each person should treasure and maintain their own dignity while respecting the rights and privileges of others.

The standards of campus citizenship serve as guides to the development and enforcement of specific regulations, which may be found in the codes of rules dealing with the various aspects of campus life. Those who enroll and continue in this institution are expected to give evidence of understanding of and willingness to abide by the following principles:

It is expected that all students enrolled in Mount Union will take seriously their obligations to maintain standards of personal and social behavior befitting maturing and responsible campus citizens. Respect for the rights, privacy and property of all members of the campus community is a primary consideration.

We believe that a Christian university must be committed to the principles of honesty and integrity in the classroom and other campus affairs. It is expected, therefore, that all members of this community will identify themselves with the principles of honesty and academic integrity.

Students whose behavior demonstrates inability to understand or unwillingness to abide by the requirements set forth by the University are subject to disciplinary action, which may include suspension or dismissal from the University. A complete listing of student rights and responsibilities can be found in the Student Handbook, which is available on the Mount Union website.

Alcohol, Drug and Wellness Education

The Office of Alcohol, Drug, and Wellness Education serves to provide a 3-pronged approach to education, programming, and student growth and development: (1) individuals; (2) student body as a whole; and (3) university and the greater community. Through holistic education, prevention, and counseling, the Office underscores the University's mission to prepare students for meaningful work, fulfilling lives, and responsible citizenship. By focusing on making healthy choices including responsible drinking, sexual education, and drug prevention, the office works collaboratively with faculty, staff, and students to develop proactive programming, education, and counseling opportunities.

Campus Card and Facilities Scheduling

All facilities on campus must be scheduled through the Office of the University Registrar and the Academic Systems Unit of Academic Affairs, which maintains an accurate schedule of all activities occurring on campus and other events of interest related to Mount Union wherever they may take place. This provides one central location where an event can be scheduled, and details arranged for use of any facility on campus. Faculty or staff can reserve facilities by creating an EMS account located at <http://calendar.mountunion.edu/VirtualEMS> and reserving a room online or by calling (330) 823-6018. Once a room is requested, the Academic Systems Coordinator will review the request for approval and if approved, a confirmation e-mail will be sent to the faculty or staff member requesting the reservation. Student organizations can reserve facility space using the online system located on iRaider at <https://forms.office.com/Pages/ResponsePage.aspx?id=eq9gHK7OOUy1dEXShMA10x22RJWMwB1BoDFNC1e2GHtUMjFXWkdRT1RQT0VVVTjBQUdJXMIpSNDNUTS4u>. The calendar of events can be viewed from the Mount Union home page at <http://calendar.mountunion.edu/mastercalendar/>.

Purple Plu\$ Cards

All students, faculty and staff receive a Purple Plu\$ Card. The card is used to access residence halls and meals, check out books in the library or as a debit card at various locations on campus as well as certain authorized off-campus vendors. The card is the property of Mount Union and is non-transferable. There is a \$25.00 fee for the replacement of lost cards and there is a variable fee for broken/damaged cards. Replacement for first broken/damaged card is \$5.00, second card is \$10.00, and third card is \$15.00. Replacement of broken /damaged cards requires that the recognizable pieces be presented to the Office of the University Registrar or Academic Systems Unit of Academic Affairs. If the broken pieces are not recognizable, a \$25.00 fee will be charged for the replacement. In order to protect personal funds and maintain security, students should deactivate their cards online at <https://www.mountunion.edu/purple-plus-card> in the event that their ID card is missing, and the issuing office is closed.

To obtain a new card, please visit the Office of Campus and Conferences (Academic Systems) in the Hoover-Price Campus Center. The office is adjacent to the Information Desk. For more information, call (330) 823-6018 or visit <http://www.mountunion.edu/purple-plu-card>.

Campus Recreation

Campus Recreation contributes to the Mount Union experience by providing quality facilities, programs and services to all members of the campus community. Throughout the year the recreation staff offers a variety of fitness programs and intramural sport activities. The McPherson Academic Athletic Complex (MAAC) consists of cardio machines, free weights, nautilus equipment, an aerobic room, pool and auxiliary gymnasium. The Peterson Field house has a 200 meter track, two basketball courts, four tennis courts and four volleyball courts. During the academic year students, faculty and staff may participate in intramural sports such as flag football, sand night volleyball, innertube water polo, basketball, indoor soccer and many more. Fitness programs such as yoga, step aerobics, zumba and pilates are offered as well. The wide variety of programs allows members of the Mount Union community to be physically active in a safe and fun environment.

Counseling Services

The aim of counseling at Mount Union is to assist students in living as well as possible. Counseling here is a partnership; people working together to find solutions and possibilities in life. The two full-time counselors in the Office of Counseling Services work to help Mount Union students sort out life's problems and move toward life goals. Counseling Services is located in the Family Medical Center located at 146 E. Simpson St. Free, short-term counseling services are provided by appointment to enrolled students. Counseling appointments are scheduled during daytime business hours and can be made by calling (330) 823-2886.

The primary service requested by students is individual counseling. During counseling, students typically discuss problems with relationships, adjusting to college life, stress or burnout, the death or illness of a friend or relative, academic difficulties, career or work decisions, substance abuse problems, family dilemmas, sports injuries or setbacks, the effects of violence or prejudice and/or balancing school, work and social life. Counseling allows students to address life problems typically faced by college students. If a student needs long-term, intensive out-patient, or in-patient treatment an appropriate referral will be made. In addition, there are no psychiatric services available, referrals are made for students to receive such services off campus.

Students experiencing serious emotional, medical or behavioral problems (including but not limited to suicidal or homicidal thoughts or actions, eating disorders, substance addictions and disorders which impair the ability to think logically or relate with others constructively) are referred for outside treatment, often with the aid of parents or guardians. To promote safety and recovery, students who seem a danger to themselves and/or others may be withdrawn from the University.

As time allows, other services include presentations and consultation. Presentation subjects might include creating good relationships, learning relaxation methods, finding the right path in life, making and reaching goals and communicating effectively with friends and loved ones. In addition, the staff consults with students on mental health, relationship or general life decisions or concerns.

Diversity and Inclusion

The Office of Diversity and Inclusion falls under the Office of Student Affairs, reporting to the vice president for student affairs and dean of students. Diversity and Inclusion primarily serves as a resource for students of color in matters of academic, social, cultural, and personal well-being. However, the office also offers services to all students who are interested in/concerned with issues of diversity within the campus community. Mount Union believes that an appreciation of diversity among campus constituencies creates a welcoming campus environment that is crucial to the success of all students.

The Office of Diversity and Inclusion actively works to enhance the quality of student life on the Mount Union campus by providing programs, services and other educational opportunities that contribute to student learning and growth. While student needs are the primary focus, diversity focused programming is available to the entire Mount Union community during the academic year.

Student Accessibility Services

Mount Union values disability as an important aspect of diversity and is committed to providing equitable access to learning opportunities for all students. Student Accessibility Services (SAS) is the campus office that collaborates with students who have disabilities to provide and/or arrange reasonable accommodations based upon appropriate documentation, nature of the request, and feasibility.

If you have or think you have a temporary or permanent disability and/or medical diagnosis in any area such as, physical or mental health, attention, learning, chronic health, or sensory, please contact SAS. The SAS office will confidentially discuss your needs, review your documentation, and determine your eligibility for reasonable accommodations.

Accommodations are not retroactive, and the instructor is under no obligation to provide accommodations if a student does not request an accommodation or provide documentation. Students should contact SAS to request accommodations and should discuss their accommodations with their instructor as early as possible in the semester. You may contact the SAS office by phone at (330) 823-7372; or via e-mail at studentaccessibility@mountunion.edu.

Center for Global Education

The Center for Global Education offers a variety of international opportunities for living and learning abroad. The Center advises students during the study abroad process and assists faculty with travel seminars and visiting professorships.

Health Center

Purpose and Support of Institutional Goals: The Health Center focuses on health promotion, health protection, health education, disease prevention and clinical care. The main purpose of the Health Center is to provide medical care for students who have short term illness and injuries, so they can be restored to their optimal level of good health and remain in class. The Health Center staff recognizes that good health contributes to the academic success of students. Good health contributes to the productivity and success of students and helps them achieve their academic, social, athletic, career and personal goals.

The Health Center supports the institutional mission of the University to “prepare students for meaningful work, fulfilling lives and responsible citizenship.” The Health Center helps individuals achieve their optimal level of wellness, so they can face challenges that enable them to obtain meaningful work, lead fulfilling lives and be responsible citizens.

Location and Hours: The University of Mount Union Student Health Center is located in Alliance Community Hospital’s Professional Office Building at 270 E. State Street, Suite 200. Campus Security is available to provide transportation to the Student Health Center if needed.

The student Health Center is open Monday through Friday, with nurses on duty from 8:00am to 4:00pm during the academic year when classes are in session; a physician is available 10:45am to 12:15pm and a Physician Assistant from 12:00pm to 3:45pm. Summer hours are 8:00am to 12:00pm, with nurses on duty.

No appointment is necessary. The Student Health Center can be reached at 330-823-2692.

Services: The Health Center functions as an ambulatory care center. Services include health promotion, health protection, health education, disease prevention and clinical care. Preliminary diagnostic work, preventative medicine and the care of short-term illness and injuries are services provided. The Health Center staff provides students with opportunities for learning outside the classroom. The Health Center celebrates many national health observances, and the staff teaches students about healthy lifestyles, health promotion, disease prevention, safety and self-care issues. There is no charge to see a nurse or physician, however if a diagnostic test is ordered, the student will be responsible for any amount not covered by their insurance.

Emergency Information: Students who have medical emergencies should go to the emergency room at the nearest hospital. The nearest hospital in Alliance is Alliance Community Hospital.

After Hours Care: In case of minor illness and injuries that occur after Health Center hours, students may use an urgent care center, such as an immediate care facility, or the hospital. Students, however, will be liable for expenses incurred unless the medical care is covered by insurance. Students who need assistance in making arrangements for afterhours care should contact their resident directors or community educators. Those students who receive medical care after hours must contact the Health Center the next day to follow up with the physician and complete an insurance claim form.

Policy Statement for Follow-Up Care: It is the policy of the Student Health Center that students who obtain diagnostic tests, medical consultations or other treatments at the Student Health Center receive appropriate follow-up care. If a student has an x-ray, diagnostic test or medical consultation, the results will be provided to the student during their follow-up appointment at the Health Center. It is the student’s responsibility to return to the Health Center to obtain x-ray and diagnostic test results or to receive follow-up care. Unless the x-ray, diagnostic test or medical consultation indicates a serious and/or emergency medical condition, the staff will make one telephone call to the student to inform them of the need to return to the Health Center, to schedule or reschedule appointments, or to follow-up with any treatments or other care. If a student is not available when the telephone call is made, the Health Center staff will contact the student by e-mail.

Health Requirements Prior To Arrival on Campus: The required health forms for all freshmen and transfer students are available at www.mountunion.edu/health-center-forms. All students are required to have a completed immunization record as well as other health information forms on file at the Health Center prior to their arrival on campus. The completed forms are mandatory. Athletes are required to have a physical exam.

Mandatory immunizations include: Two doses of MMR (Measles, Mumps and Rubella) vaccine and a Tetanus-Diphtheria booster or Tdap booster within the last 10 years. Refer to the immunization forms for details.

University freshman living in the close quarters of dormitories are at higher risk of meningococcal disease compared with peers the same age who are not attending the University. The ACHA, ACIP and CDC recommend University freshmen living in dormitories be immunized to reduce disease risk. Other University students may choose to receive the meningococcal vaccination to reduce their risk for the disease.

Ohio law states institutions of higher education shall not permit a student to reside in on-campus housing unless the student (or parent if the student is younger than 18 years of age) discloses whether the student has been vaccinated against meningococcal disease and hepatitis B by submitting a meningitis and hepatitis B vaccination status statement. Additional information about the diseases, the vaccines and their effectiveness and status statements can be viewed on the Ohio Department of Health webpage: www.cdc.gov/vaccines/acip/index.html.

Membership: The Mount Union Health Center is a member of the American College Health Association and the Ohio College Health Association.

Student Insurance: Federal health care reform requires all full-time students to be covered by an adequate health insurance policy. The University offers a student health insurance plan for a premium. The details of the policy can be found at www.studentplanscenter.com. All full-time students will automatically be covered under this plan unless they are covered by an

existing plan. Those students covered by an existing health plan may waive the University-offered plan by completing an on-line waiver form which is available on the University Health Center website at www.mountunion.edu/health-center.

All full-time students will be enrolled in an Accident-Only plan at no cost to the student. The plan provides a maximum benefit of \$1,000 per covered injury. This may be used in conjunction with other plans and with the intercollegiate athletic insurance provided by the University of Mount Union. More information on the Accident-Only plan can be found at www.studentplanscenter.com or by contacting the Health Center.

Intercollegiate Athletics

Mount Union is a Division III member of the National Collegiate Athletic Association (NCAA) and the Ohio Athletic Conference (OAC). All athletic contests are conducted under the rules and regulations of these associations. Student-athletes have the same privileges and responsibilities as other students.

A diversified program of 13 intercollegiate sports for men and 11 intercollegiate sports for women is maintained. Men's sports are baseball, basketball, cross country, football, golf, lacrosse, indoor track and field, outdoor track and field, soccer, swimming and diving, tennis, volleyball and wrestling. Women's sports include basketball, cross country, golf, lacrosse, indoor track and field, outdoor track and field, soccer, softball, swimming and diving, tennis and volleyball. A professional medical staff, including certified athletic trainers, supports the student-athletes of Mount Union.

The Committee on Athletics is appointed by the president and serves in an advisory capacity and makes athletic policy recommendations to the president. Actions of the committee are regularly reported to the faculty and are subject to faculty approval. The ultimate responsibility and authority for the administration of the athletics program, including all basic policies, personnel and finances, are vested in the president of the University. The intercollegiate athletic program operates separately from the academic programs in physical education, health education, athletic training, exercise science and sport management.

Mount Union annually completes the NCAA Gender Equity Survey. Under the Equity in Athletics Disclosure Act, this report is available for review in the Office of Academic Affairs upon request.

Intercollegiate Athletics Philosophy

Mount Union adopted the following principles as guidelines for our intercollegiate athletics program:

- The educational values, practices and mission of Mount Union determines the standards by which we conduct our intercollegiate athletics program.
- The highest priority is placed on the overall quality of a student's educational experience and on the successful completion of a student's academic program.
- The welfare, health, safety and academic progress of student-athletes are primary concerns of athletics administration on Mount Union's campus.
- Every student-athlete – male and female, majority and minority, in all sports – will receive equitable and fair treatment.
- The admission of student-athletes to Mount Union and the financial aid for student-athletes at Mount Union will be based on the same criteria as that of non-athletes.
- Student-athletes, in each sport, should be graduated in at least the same ratio as non-athletes who have spent comparable time as full-time students.
- The development of sportsmanship and ethical conduct in all constituents, including student-athletes, coaches, administrative personnel and spectators is encouraged. An atmosphere of respect and sensitivity to the dignity of every person, including on the basis of age, color, disability, gender, national origin, race, religion, creed or sexual orientation, will be promoted.
- The time required of student-athletes for participation in intercollegiate athletics shall be regulated to minimize interference with their opportunities for acquiring a quality education in a manner consistent with that afforded the general student body.
- All funds raised and spent in connection with intercollegiate athletics programs will be channeled through the institution's general treasury – not through independent groups, whether internal or external. The Office of Athletics' budget will be developed and monitored in accordance with general budgeting procedures on campus.
- Annual academic and fiscal audits of the athletics program will be conducted.

Statement Concerning Sportsmanship/Ethical Conduct of the University of Mount Union Intercollegiate Athletic Teams

The University of Mount Union expects high standards of honesty, integrity and behavior in the conduct of intercollegiate athletic competition.

It is the responsibility of coaches, student-athletes, administrators and other athletic personnel of the University of Mount Union to recognize the significance of their behavior as visible members of the campus and local community. These participants are, therefore, expected to live up to their responsibility by demonstrating good sportsmanship.

Inappropriate conduct on the part of coaches, student-athletes, administrators or other athletic personnel, which includes the use of alcohol or controlled substances, verbal or physical abuse, or demeaning words or actions toward officials, coaches, players or fans is unacceptable and will not be tolerated.

Existing rules for athletic competition that deal with sportsmanship/ethical conduct will be fully enforced at the University of Mount Union. Where existing rules are inadequate, the expectations of the University of Mount Union will set the standard for appropriate behavior.

Intercollegiate Athletics Eligibility

To be eligible for participation in the University's intercollegiate athletic program during the traditional season, a student must be enrolled full-time for the semesters of participation, must be in good academic standing and be making satisfactory progress toward a degree. To be eligible for participation in the University's intercollegiate athletic program during the non-traditional season, a student must be enrolled full-time for the semesters of participation. These requirements are in accordance with National Collegiate Athletic Association (NCAA) guidelines.

International Student Services

The Office of International Student Services, along with the Office of Diversity and Inclusion, assists international students as they adapt to all aspects of campus life, acting as liaison and advocate in dealings with the U.S. government, Mount Union, academic departments and administrative offices. Together, we also conduct orientation upon arrival, plan cultural programs and organize monthly social activities. The office also coordinates the i-Guide Library Peer program, i-Mentor program and Community Friend Program which are designed to match international students with current Mount Union students and local families in order to gain an authentic American perspective. The office also offers services to all students, faculty and staff who are interested in or concerned with global issues. To contact the office, call (330) 823-2574.

Residence Life

Housing of students at the University of Mount Union falls under the auspices of the Office of Residence Life within the Office of Student Affairs. Mount Union ascribes to the belief that the residential experience can significantly contribute to a student's overall collegiate experience. In accordance with those beliefs, all full-time undergraduate students are required to live on campus for two years unless an Off Campus or Commuter Petition is submitted to and approved by the Office of Residence Life. In addition, all students living in campus housing (with the exception of the apartment-style housing) are required to be on a campus meal plan. New students are required to stay on one of two meal plans the entire first year, either unlimited meals per week or 16 meals per week plus \$100 dining dollars for the semester which are available to use in any campus dining facility. After the first year, students will be able to select from more options. Block meal plans do not fulfill this requirement.

Approximately 1,650 students live on campus in 10 residence halls, three apartment complexes, and campus houses making Mount Union a largely residential campus. There are essentially four types of housing options available to students residing on campus: single-gender and coeducational traditional style residence halls; coeducational, suite-style residence halls for sophomores and above; residential houses; and junior and senior apartments or townhouse-style living options. In addition, fraternity and sorority members in good standing may choose to live in their organization's house. All rooms in campus housing are equipped with beds, desks, desk chairs, dressers, closets or wardrobes, and drapes or blinds. Additionally, all campus housing is wired for computer networking. Laundry machines are provided in all residential facilities and are free of charge.

Professional staff members, called resident directors, live on campus and are responsible for the day-to-day supervision of the residence halls, houses and apartments/townhouses. In addition to ensuring the smooth operation of the building, they supervise the student residence life staff in each area and strive to make the residence halls and houses true living and learning communities. There is a resident director on call (RD on duty) 24 hours a day, seven days a week. The RD on duty is available to assist students with any residence hall emergencies or after-hour situations that may occur.

Spiritual Life

The University of Mount Union has a chaplain who ministers to the spiritual needs of the academic community. The chaplain serves as a spiritual advisor to students, faculty, and administration. The chaplain is responsible for providing and supervising all aspects of spiritual life on campus which include community worship and prayer; advising and coordinating the activities of student spiritual life groups; encouraging student involvement in worship and community life on campus as well as churches and faith communities in the Alliance area; developing and participating in local, regional and national student spiritual life conferences and retreats; and planning and coordinating service/work trips for students, faculty and administrators.

Student Involvement and Leadership

The Office of Student Involvement and Leadership assists Mount Union Students preparing for fulfilling lives, meaningful work and responsible citizenship through engaging and intentional cocurricular activities, programs, services, and partnerships. Through immersed participation, training, practice, and reflection, the Mount Union student will gain skills that complement their academic endeavors and further enable their success after graduation. Student Involvement & Leadership is directly and specifically responsible for the coordination of all-campus programs, advising fraternity and sorority life, coordinating

and implementing leadership programs, advising the Mount Union Senate, providing student organization support, and offering the Student Involvement Record.

All-Campus Programming

The Raider Programming Board: The Raider Programming Board is the University's student-led activities council. The Raider Programming Board, or RPB, is responsible for a number of the all-campus programs that are brought to campus, including Week of Welcome, Homecoming, Family Day, Little Sibs Weekend, Springfest, and much more. RPB offers Coffeehouse open-mic night, several Fridays throughout the semester in Campus Grounds, to feature student talent. The Movie Series brings blockbuster hits to campus as well as periodically provides movie tickets to Carnation Cinema, and Midweek Madness offers a wide variety of entertainment every Wednesday such as comedians, hypnotists, pottery nights, and trivia.

Family Day: Family Day provides students, parents and their families an opportunity to re-connect during the middle of the fall semester. Including attendance at a Raider football game, a luncheon and evening entertainment, Family Day provides resources for families to continue to support the educational pursuits of their students.

Homecoming: The Raider Programming Board, in concert with Office of Alumni Relations and University Activities coordinate the events of the annual Alumni/Homecoming Weekend. The Raider Programming Board selects and coordinates the events of the week leading up to Homecoming. At half time of the Homecoming football game, the Homecoming Court Ceremony take place.

Little Sibs Weekend: A variety of student organizations on campus sponsor events throughout the weekend to provide entertainment and welcome younger family members of the current students. Activities typically include a live show, a movie, inflatable fun, various crafts, a photo booth, and so much more. Registration opens in March.

Leadership Programs: Our leadership programs provide students at a variety of abilities and engagement levels with appropriately designed leadership opportunities to further enhance their learning and engagement on campus. This includes workshops and offerings available throughout the year to meet the needs of student leaders and organizations.

Fraternity and Sorority Life

Mount Union hosts four fraternities and four sororities on campus. The Office of Student Involvement and Leadership holds the philosophy that the social fraternities and sororities are a part of a community emphasizing the shared values of the various groups, having a high expectation for interaction among all groups. When joining one organization, a member can expect to feel a sense of belonging to a greater whole.

Mount Union provides the opportunity for first-year students to join a fraternity or sorority during their first semester on campus, including in the fall of their first year. Any student who is not currently affiliated with a fraternity or sorority may participate in the recruitment process at any point in their college career. A man interested in fraternity life must achieve a minimum GPA required by the individual fraternities to be eligible to join a fraternal organization on campus. Women interested in joining a sorority must obtain that minimum grade point average required by the chapter of their interest. Interfraternity Council and Panhellenic Council, the fraternity and sorority governing boards, organize and operate the recruitment period in September. The individual chapters also sponsor a variety of events throughout the year to provide new students with information regarding fraternities and sororities.

Sophomore, junior, and senior students may choose to reside in their fraternity or sorority houses, if housing is available.

Student Organizations

In support of the leadership development that takes place in student organizations, the Office of Student Involvement and Leadership also serves as a resource center and clearinghouse for the approximately 90 active student organizations on campus. Students can learn about becoming involved in these student organizations by participating in the Raiderfest student involvement fair held during the first week of the fall semester. All student organizations are required to register with the Office of Student Involvement & Leadership and maintain current contact information for presidents and advisors. Students interested in starting a new student organization can obtain materials and learn the appropriate process by visiting the University website or contacting the Director of Student Involvement & Leadership.

Student Senate: The Mount Union Student Senate is the chief avenue for students to maintain an effective voice in the affairs of the University by serving as the link between the student body and the administration. Through Student Senate, students can express concerns or make suggestions (either directly or through their representatives) about any issue on campus, be it academics or campus life. In addition, any student or organization may petition Student Senate for funding for extracurricular projects and endeavors.

Student Involvement Record: The Student Involvement Record (SIR) is a chronological record of students' participation cocurricular activities at the University. The SIR information and data are submitted and kept on file in the Office of Student Involvement & Leadership, and data is regularly updated each semester. Students may request their SIR at any point in the year by simply contacting the Office of Student Involvement & Leadership.

Center for Student Success

The Center for Student Success (CSS) empowers students in the strategic pursuit of their goals as they relate to personal transition, self-discovery, academic progress and success, and career planning. The CSS is comprised of several offices and programmatic areas including academic support, career development, first year initiatives, search-for-a-major support, sophomore initiatives, student accessibility services, student success and retention programs, and transfer student services. While each of these areas offers a different type of assistance, their services are interrelated to provide holistic, student-centered support. The Center for Student Success is located in the Hoover-Price Campus Center. For information, call (330) 823-8685 or visit <https://www.mountunion.edu/academics/student-success>.

Academic Support: Helping students reach their full potential is the primary goal of Academic Support. Through individual meetings, success workshops, the Raider Rise program, academic peer mentoring programs, Structured Study, the tutoring program, and other academic support-related opportunities, Academic Support strives to assist students in developing the skills, habits, and behaviors for success necessary in university-level coursework. All resources and programs come at no additional cost to students, and all students are welcome and encouraged to visit the office for assistance with academic success strategies.

Career Development: Deciding on a career to pursue and having the tools to navigate the job or graduate school search process are critical to all students. This process actually begins much earlier than the senior year, and the Office of Career Development is there to assist all students with this. We help prepare students to research careers, identify and secure experiential learning opportunities (internships), and develop and implement job search strategies, which include creating a resumé, networking and interviewing with employers, and targeting job leads. Preparing for graduate school applications and admission tests is also supported by Career Development in addition to the other events we facilitate, including job and internship fairs, graduate and professional school fairs, mock interviews, on-campus recruiting, and a variety of networking events.

First Year Initiatives: The Office of First Year Initiatives strives to aid first year students to make a successful transition from high school to college. The first year of college is a pivotal one, and through intentional programming and services as well as meaningful relationship building, First Year Initiatives encourages academic excellence through co-curricular learning, fosters the development of the whole student, and provides a supportive community to learn and grow.

First Year Initiatives offerings will include the summer Preview and Fall and Spring Orientation programs as well as the year-long Exceptional Beginnings program. Exceptional Beginnings immerses first year students in the Mount Union community from their first day on campus. As a part of a small Exceptional Beginnings group with an upper-class Raider Guide mentor, first year students will be provided opportunities to get involved and gain essential skills for learning and success, preparing them for an exceptional beginning and a successful collegiate experience at the University.

- **Preview.** Preview is the first part of an ongoing and multi-faceted transition process for new Mount Union students, which involves academic, intellectual and personal development pursuits. Held during the summer months, it is your chance to “preview” much of what Mount Union has to offer in terms of University life. It is designed to begin the college transition process for both students and their parents and family members. Everything from scheduling classes to extracurricular activities; a chance to meet some of your faculty to staying overnight in one of our first year halls – it’s all here for you! In addition to making student, faculty, staff and family connections, Preview will provide students with the foundation to succeed academically. This includes math and world language testing, learning about the general education requirements, and meeting with an academic advisor to schedule classes for the fall semester.
- **Fall Orientation.** Fall Orientation, held in the fall prior to the first day of classes, is designed to continue to the transition to college process by providing opportunities to connect with roommates and classmates, learn more about extracurricular activities that enhance the whole college experience, and reconnect with faculty and the academic curriculum through a series of informational and social programs intended to increase a student’s success. The primary goal of Fall Orientation is to inform new students of their opportunities and responsibilities as part of the campus as well as to initiate their integration into all aspects of the University of Mount Union community.
- **Exceptional Beginnings.** Exceptional Beginnings is a University-wide first year experience program with the mission of helping each first year student transition from high school to college by providing a supportive community in which to learn and grow, encouraging academic excellence through co-curricular learning, fostering the development of the whole student, and developing a connection with the Mount Union community. To accomplish this mission, it offers a variety of programs and services for students in the pivotal first year of college which are designed to enhance the essential skills needed to succeed both in the classroom and outside of it. It seeks to connect first year students with pertinent resources available on campus and encourage students to engage in the wide array of opportunities that the Mount Union campus has to offer. Additionally, participation in the Exceptional Beginnings program is a requirement for the First Year Seminar (FYS/HON 110) course.

As a part of this program, every incoming student will be part of a small group of other first-year students led by a Raider Guide, an upper-class peer mentor. The Raider Guides will make individual connections with each student in their groups, plan programs for the groups as a whole, and also work within the residence halls and on campus to coordinate events for the entire community of first year students. By providing these

opportunities to be involved and getting to know first-year students individually, these Raider Guides will help new students transition to life at Mount Union – preparing them for an exceptional beginning and a successful collegiate experience.

In addition to these mentoring relationships, much programming surrounding issues pertinent to first year students, including making healthy choices, time management, financial responsibility, study skills, working and living in diverse environments, and much more, will be provided through the Exceptional Beginnings program and in conjunction with other campus offices throughout the year.

Search-for-a-Major Services: If you are not sure of your major or are considering changing it, the Center for Student Success can help. Come meet with our staff who will help you explore your interests and skills to help identify the courses, major, and/or minor that might be a good fit for your academic strengths and future career and life goals.

Sophomore Initiatives: While starting the second year of college is much different than coming as a first-year student, many students are still finding their way. Our sophomore initiatives provide support throughout that second year of college through individual appointments with the CSS staff as well as the Sophomore Halfway There Fair. The Sophomore Halfway There fair takes place in the spring semester and is a chance to make sure students are ready to submit their WOC portfolio and are poised to enter their junior year in a position of strength to reach success.

Student Success and Retention Programs: In collaboration with campus partners in Academic Affairs, Athletics, Student Affairs, and other areas, the CSS works to support, create, and ensure student success and retention programs campus wide. Along with Vice President for Student Affairs, the CSS is a co-leader of the University Retention Committee and is also responsible for maintaining the Student Success and Retention Hub on iRaider. Finally, the CSS is responsible for Starfish, a retention software utilized by Mount Union.

Transfer Student Services: Once a student completes the transfer admission process, the Center for Student Success, in conjunction with the Integrative Core Office, helps support them as they become a Raider! Some of these support programs include the Transfer Student Seminar, which all transfer students take in their first semester at Mount Union, as well as the Transfer Student Organization, which provides amazing peer support and programming and is advised out of the Center for Student Success. We also provide academic advising, a joint venture with the Integrative Core Office, for new transfer students as they enter their first semester at the University of Mount Union.

Digital, Written, and Oral Communication Studio

The Digital, Written, and Oral Communication Studio (DWOC Studio) is open to all students at the University of Mount Union. Its mission is to provide a space for students to work on writing, oral presentations, and digital artifacts, including sound and video editing, desktop publishing and more. Consultants are on hand to provide help with critical thinking at the beginning stages of a project; support through the writing, speaking, and production process; as well as polishing a final product, including essays, reports, employment and graduate school documents, public speeches, PowerPoints, Prezis, videos, audio files, and ePortfolios and more. Make an appointment online by visiting www.mountunion.edu/DWOCS.

Mathematics Learning Center (MLC)

The Mathematics Learning Center (MLC) is a multi-space area located on the Mezzanine level of KHIC and open to all University of Mount Union students. The MLC serves as the home for students seeking tutoring in math and math related courses. Tutoring is administered by student staff recommended through mathematics faculty and supervised by the Mathematics Lab Coordinator. Availability for both in-person and virtual appointments are available. In-person tutoring is done on a walk-in basis. Virtual tutoring as well as questions can be arranged or answered by emailing mlc@mountunion.edu.

Information Technology

The University offers state-of-the-art teaching and learning resources. Each semester new facilities and technologies are made available on campus to support teaching and learning. For additional details, please visit <http://www.mountunion.edu/information-technology>.

Campus-Wide High-Speed Data Network: This infrastructure is the foundation upon which all of our computer information systems are built. The data network consists of a high-speed fiber-optic network between buildings and Ethernet networks within each building. Data and Cable TV jacks are provided in every residence hall room. Wireless is available within all academic, administrative and residential buildings. The entire network is directly connected to the Internet. Faculty, staff and students have remote access to campus servers through VPN.

Public Computer Facilities: General purpose computing labs are located throughout various buildings on campus. Additionally, the library portion of KHIC and some residence halls have public workstations. Numerous classroom computer labs are available as well as several specialized departmental computer labs.

CCTV-Closed Circuit Television System: Residence hall rooms, as well as most offices, classrooms and labs are connected to the Campus Cable Television (CCTV) system. The University brings to campus a wide variety of television programming including commercial channels, educational channels, movie channels and special teleconferences.

Library: The University operates an automated library system providing online public access to the catalog, circulation services, interlibrary loan, research journals and databases.

Language Laboratory: A large, state-of-the-art language laboratory is located in the Kolenbrander-Harter Information Center.

Multimedia Facilities: The University has over 50 multimedia-equipped classrooms including large-screen computer and video projection and sound systems, as well as document cameras. Additionally, faculty make use of portable carts with computers and projectors in other classrooms.

Administrative Systems: The student information system provides online access to services via the web ranging from applying for admission to registering for classes and viewing transcript information. The University uses an ID card system for electronic access to residence halls, food service, vending, copy machines and other transactions.

Mobile App: The University offers a mobile app. The app provides a wealth of academic and campus resources that you will find helpful. For more information on our mobile app please visit <http://www.mountunion.edu/app>.

Helpdesk: The Office of Information Technology provides helpdesk services to faculty, staff and students. To reach the Helpdesk, please dial ext. 4357 on campus or (330) 829-8726 off-campus or e-mail helpdesk@mountunion.edu with details on your needs.

Technology Resources Acceptable Use Policy

Technology User Code of Conduct

The following Code of Conduct is intended to instruct technology users in acceptable behavior regarding their use of the University of Mount Union technological resources. This document is not intended to be exhaustive of all possible behaviors that may be deemed inappropriate. Users are expected to adhere to all policies set forth by the University regarding the use of technology resources. Failure to follow the expectations set forth in this Code of Conduct or any other policy of the University regarding use of technology may result in sanctions against the user including, but not limited to, loss of access to technology resources and/or disciplinary action.

1. Users are responsible for how their accounts are used; therefore, every effort must be made to protect against unauthorized access to accounts. Users must have a password which will protect their accounts from unauthorized use and which will not be guessed easily. If a user discovers that someone has made unauthorized use of their account, the student should change the password and report the intrusion to the Office of Information Technology. Users should change their password on a regular basis to assure continued security of their accounts.
2. Users may not intentionally seek information about, browse or obtain copies of or modify files or passwords belonging to other people, whether at Mount Union or elsewhere, unless specifically authorized to do so by those individuals. Also, users may not attempt to intercept, capture, alter or interfere in any way with information on campus or global network paths.
3. Users must not attempt to decrypt or translate encrypted material or obtain system privileges to which they are not entitled. Attempts to do any of the above will be considered serious violations.
4. If users encounter or observe a gap in system or network security, they must report the gap to the Office of Information Technology. Users must refrain from exploiting any such gaps in security.
5. Users must refrain from any action that interferes with the supervisory or accounting functions of the system or that is likely to have such effects.
6. Users must be sensitive to the public nature of shared facilities and take care not to display sounds or messages that could create an atmosphere of discomfort or harassment for others.
7. Users must avoid tying up computing resources for game playing or other trivial applications, sending frivolous or excessive mail or messages locally or over an affiliated network or printing excessive copies of documents, files, images or data. Users should be sensitive to special needs for software and services available in only one location and cede place to those whose work requires the special items.
8. Users may not prevent others from using shared resources by running unattended processes or placing signs on devices to "reserve" them without authorization.
9. Users may not copy, cross-assemble or reverse-compile any software or data that the University has obtained under a contract or license that prohibits such actions. If it is unclear if it is permissible to take such actions, users should assume that they may not do so.
10. Software may not be copied or used illegally. Web site materials must be cited appropriately, and permission obtained for the publishing, performing or distribution of copyrighted material.
11. Messages, sentiments and declarations sent as electronic mail or sent as electronic postings must meet the same standards for distribution or display as if they were tangible documents or instruments. Users are free to publish their opinions, but they must be clearly and accurately identified as coming from the particular user or, if a user is acting as the authorized agent of a group recognized by the University, as coming from the group s/he is authorized to represent. Attempts to alter the "From" line or other attribution of origin in electronic mail, messages or postings will be considered violations of University policies.

12. Users may not take any action that damages Mount Union technology resources in any way including technology found in classrooms, public computing labs, departmental labs, residence halls and University houses or any other campus location.
13. Users may not establish any computer to function as a server without the knowledge and approval of the Office of Information Technology.
14. Users are required to utilize anti-virus software on their computers. Anti-virus software must be updated regularly.
15. Users may not deploy any network electronic equipment or install wireless access points without express permission from the Office of Information Technology.
16. Users who utilize the Mount Union e-mail system are required to comply with state and federal law, University policies and normal standards of professional and personal courtesy and conduct.

Network Use Policies

The University of Mount Union network is provided for the academic use of students and faculty of Mount Union as well as to the University administration for conducting official University business. Academic use is determined to be any legitimate use of the network for the purpose of assisting in the conduct of the University's academic mission. The official conduct of University business is limited to efforts on behalf of the management and administration of the University. The network provides access to the Internet from all offices, residence hall rooms and computer labs, in addition to public access stations in the library. Students living in on-campus housing are accorded the privilege of using the network for personal use, as long as such use is in keeping with all applicable policies of the University, all applicable state and federal laws and is not excessive (resulting in diminished service to fellow students).

User access to the network is governed by the acceptable use policy of the University as well as by the following:

1. Servers. All servers operating on campus must do so with the knowledge and consent of the Office of Information Technology. A server is defined as any computer providing services of any type to other computers on the network or on external networks. Such services could include DNS, DHCP, SNMP, e-mail and application, file and/or printer sharing. In order to request the deployment of a server on the network, written petition must be made, stating:
 - a. The legitimate academic use of the server;
 - b. Intended server operating system;
 - c. All intended server functions and applications, including protocols and services; and
 - d. The identity and function of target subordinate computers/users.
2. Any computer acting as a server without prior authorization as stated above will be removed from the network. All licensing, operation and support of the hardware and software utilized will be the responsibility of the petitioner if such petition is granted.
3. Accounts. All authorized users will be provided an account by which to access the necessary network resources of Mount Union. The information regarding this account, including the account name and password, is privileged and must not be disseminated to anyone other than the account owner for any purpose. Account holders should protect their passwords and keep them confidential. Passwords should be changed frequently. Any problem resulting from irresponsible use of a password (e.g., a password that can be easily guessed or oral or written dissemination of a password) may be treated as grounds for action against the account holder. Any attempt to determine the passwords of other users is strictly prohibited. The following are categories of authorized users:
 - a. Full-time staff of the University.
 - b. Current faculty members
 - c. Current students
4. The following categories of users may be authorized to utilize the University network based on the legitimate need for access to such resources:
 - a. Part-time staff of the University
 - b. Volunteer staff of the University
 - c. Student employees
 - d. Current students on transfer
 - e. Retired members of the faculty and staff
 - f. Guests
5. Other categories of users may be granted special permission to obtain access to the system at the discretion of the University. Student employees who need to access administrative software and resources due to their employment must be given approval for this access by a department administrator.
6. Special Access. From time to time, circumstances dictate the provision of short-term, special access to University systems. Such access must be in accordance with the strictest adherence to the user policies stated above and may only be granted by the Office of Information Technology after review of a written petition. The petition must state the purpose of the access, the source username and the department. Such access will typically be provided only for a limited time and will be allowed only from designated computers. All such petitions that are approved will be maintained on file in the Office of Information Technology. All connections made through such petitions will be monitored.

7. Network Electronic Equipment. Network electronic equipment, including switches, hubs and routers, may only be installed on campus with the knowledge and consent of the Office of Information Technology. In order to request the deployment of this equipment on the network, written petition must be made stating:
 - a. The legitimate academic use of the equipment;
 - b. The type of equipment wishing to be deployed and for what purpose;
 - c. All intended functions, including protocols and services; and
 - d. The identity and function of target subordinate computers/users.
8. Any network electronic equipment deployed without prior authorization as stated above will be removed from the network. If a petition is granted, all licensing, operation and support of the hardware and software utilized will be the responsibility of the petitioner.
9. VPN. (Virtual Private Network) is a resource made available to faculty, staff and non-residential Mount Union students. VPN will allow a user to connect to the campus network from an off campus ISP (Internet Service Provider) and make it appear to the user that they were physically connected to the Mount Union network. VPN will allow users to gain access to their home space (H:\ drive), departmental common space (S:\ drive), and hand-in and handout folders (M:\ drive). VPN will be supported for only specified operating systems. If misuse of this resource occurs or if the user does not comply with the VPN Policy of Mount Union, the Office of Information Technology reserves the right to terminate any VPN connection without notice. Any party found to have violated the VPN policy may be subject to disciplinary action, including termination of VPN access. A copy of the VPN policy can be found on the Office of Information Technology web site.
10. Wireless. Wireless technology is available in specified areas of Mount Union. Use of the wireless information network implies consent to abide by all University policies pertaining to the use of computer resources at Mount Union. Users may not install wireless access points. Any unauthorized wireless access points deployed will be removed from the network.
11. Campus ID Card System. The Campus ID Card System is a network resource and as such is protected by the rules of this policy. Any party found to violate this policy or damage devices specific to this system, such as door card, vending machine or laundry readers, may be subject to disciplinary action.
12. Web Pages. The Mount Union website and individual web pages are network resources and as such are protected by the rules of this policy. Any party found to violate this policy may be subject to disciplinary action.

Appropriate Use of E-mail and Internet

Mount Union e-mail is intended to serve the communication needs of the University community. Access to the e-mail system is a privilege. Any e-mail addresses or accounts assigned by the University to individuals, sub-units or functions of the University are the property of the University. The Mount Union network is not intended for private correspondence, as such, all communications on Mount Union computer systems, whether personal or business-related, are the property of Mount Union. E-mail users are required to comply with state and federal law, University policies and normal standards of professional and personal courtesy and conduct. Unacceptable uses of e-mail and Internet access include, but are not limited to, the following:

1. Use for any purposes that violate a federal, state or local law.
2. Use for any commercial activities, including commercial advertising unless specific to the charter, mission or duties of the University of Mount Union.
3. Use to publish, post, distribute, disseminate, or link to any:
 - a. Inappropriate, profane, defamatory, infringing, obscene, indecent, harassing or unlawful topic, name, material or information
 - b. Software or other material protected by intellectual property laws, rights of privacy or publicity or other proprietary rights, unless the individual owns/controls such rights or has received all necessary consents for the use of such software and other materials
 - c. Software or other material that contains viruses, corrupted files or that may or are intended to damage the operation of another's computer
4. Use to gather or otherwise collect information about others for commercial or private use, including e-mail addresses, without the express consent of the individuals.
5. Use for fund raising, political campaign activities or public relations activities not specifically related to Mount Union activities.
6. Use to conduct or forward illegal contests, pyramid schemes or chain letters or to spam.
7. Use to sell access to the Internet.
8. Use to conduct any activity that adversely affects the availability, confidentiality or integrity of Mount Union's technology.
9. Use to benefit personal or financial interests of any employee or student.
10. Use for mass e-mail purposes. Ennouncements should be used for this purpose.

E-mail users shall not give the impression that they are representing, giving opinions or otherwise making statements on behalf of the University or any unit of the University unless expressly authorized to do so. Where appropriate, the following explicit disclaimer shall be included: "The opinions or statements expressed herein are my own and should not be taken as a position, opinion or endorsement by the University of Mount Union."

Security

E-mail, as a public record, is subject to the Freedom of Information Act and to subpoena by a court of law. Users should be aware that any information submitted via e-mail is not confidential and could be observed by a third party while it is in transit. Encryption encourages the false belief that privacy can be guaranteed. Users should never put anything in an e-mail message that must be kept confidential. E-mail users should assume that anyone could accidentally or intentionally view the content of their message. E-mail security is a joint responsibility of the Mount Union Office of Information Technology and e-mail users. The University will provide the security offered by the currently used software, as well as a “firewall” to prevent unauthorized access to the mail server. Users must take all reasonable precautions, including safeguarding and changing passwords, to prevent the use of the account by unauthorized individuals. Users may not divulge passwords for Mount Union accounts to any other person or allow other persons use of their Mount Union account for any reasons.

Archiving and Retention

The Office of Information Technology does not archive documents. Mount Union records communicated using e-mail or the Internet need to be identified, managed, protected and retained as long as they are needed to meet operational, legal, audit, research or other requirements. Each director is required to comply with approved records retention schedules or to set standards to retain, manage and make accessible in an existing filing system, outside the email system, records needed to support program functions in accordance with Mount Union’s standard practices.

Eligibility for E-Mail Privileges

Students are eligible for e-mail privileges as long as they are officially registered at Mount Union. Faculty and staff e-mail privileges start on the date employment begins and end at the close of the business day of the date of employment termination. The Mount Union Office of Information Technology may, under its sole discretion, attempt to redirect email for a reasonable period of time as determined by the University for purposes consistent with this policy and the University’s mission. The University may elect to terminate the individual’s e-mail account or continue the account, subject to approval by appropriate University supervisory and systems operational authority. The Office of Human Resources at Mount Union is responsible for notifying the Office of Information Technology of the date of employment termination.

Academic Policies and Procedures

Student Responsibility

Each student has the responsibility to be aware of and to meet the Catalog requirement for graduation, and to adhere to all rules, regulations, and deadlines published in this Catalog and in the Student Handbook.

The University of Mount Union Educational Records Policy Annual Notification to Students

In accordance with the Family Educational Rights and Privacy Act (commonly referred to as FERPA, or the “Buckley Amendment”), Mount Union has adopted the following policies and procedures to protect the privacy of educational records. Students will be notified of their FERPA rights annually by publication in the Catalog and on the University’s website.

Definitions

The University of Mount Union uses the following definitions in this policy:

Student: any person who attends or has attended the University.

Education records: any record in whatever form (handwritten, taped, print, film or other medium) which is maintained by the University and is directly related to a student, with the following exceptions:

- personal records kept by a University staff member if the record is not revealed to others and is kept in the sole possession of the staff member;
- student employment records that relate exclusively to the student in the capacity of an employee;
- records maintained separately from educational records solely for law enforcement agencies of the same jurisdiction;
- counseling records maintained by the University chaplain or the University counselor;
- medical records maintained by the University solely for treatment and made available only to those persons providing treatment; and
- Office of Alumni Activities records.

Rights Under FERPA

A student shall have the right and parents of a dependent student may have the right to do the following:

- inspect and review the student’s education records;
- request that the student’s education records be amended to ensure the records are not inaccurate, misleading or otherwise in violation of a student’s privacy or other rights;
- consent to disclosures of personally identifiable information contained in the student’s educational records, except to the extent that FERPA authorizes disclosure without consent;
- file a complaint with the U.S. Department of Education concerning the failure of the University to comply with the requirements of FERPA

Procedure to Inspect Education Records

Students may inspect and review their education records upon request to the appropriate record custodian(s). Students must submit a written request that identifies as precisely as possible the record(s) the student wishes to inspect.

Access will be provided within 45 days of the written request. Information contained in educational records will be fully explained and interpreted to students by University personnel assigned to, and designated by, the appropriate office.

Student records are maintained in the following offices:

- admissions and academic records in the Office of the University Registrar;
- financial aid records in the Office of Student Financial Services;
- financial records in the Office of Business Affairs;
- progress and advising records in the departmental offices and faculty offices;
- disability-related records in the Office of Student Affairs;
- counseling records in the Office of the Chaplain, the Office of Counseling Services and the Office of Alcohol, Drug, and Wellness Education;
- academic dishonesty records in the Office of Academic Affairs;
- disciplinary and student conduct records in the Office of Student Affairs.

Right of the University to Refuse Access

The University reserves the right to refuse to permit a student to inspect the following information:

- the financial statement of the student’s parents;

- letters of recommendation for which the student has waived right of access;
- records of applicants who were neither admitted to nor attended the University of Mount Union;
- records containing information about more than one student, in which case the University will permit access only to that part of the record which pertains to the inquiring student; and
- records which are excluded from the FERPA definition of educational records.

Right to Challenge Information in Records

Students have the right to challenge the content of their education records if they consider the information contained therein to be inaccurate, misleading or inappropriate. This includes an opportunity to amend the records or insert written explanations by the student into such records. The student may not initiate a FERPA challenge of a grade awarded unless it was inaccurately recorded; in such cases the correct grade will be recorded.

Procedures for Hearings to Challenge Records

Students wishing to challenge the content of their education records must submit, in writing to the appropriate office, a request for a hearing which includes the specific information in question and the reasons for the challenge.

Hearings will be conducted by a University official who does not have a direct interest in the outcome of the hearing. Students will be afforded a full and fair opportunity to present evidence relevant to the reasons for the challenge. The hearing officer will render a decision in writing, within a reasonable period of time, noting the reason and summarizing all evidence presented.

If the hearing results are in favor of the student, the record shall be amended. Should the request be denied, an appeal may be made, in writing, and submitted to the University Registrar within 10 days of the student's notification by the hearing officer. The appeal shall be heard by an Appeals Board of three disinterested senior University officials. The board will render a decision, in writing, within a reasonable period of time.

Should the appeal decision be in favor of the student, the record shall be amended accordingly. Should the appeal be denied, the student may choose to place a statement with the record commenting on the accuracy of the information in the record and/or setting forth any basis for inaccuracy. As long as the student's record is maintained by the University, when disclosed to an authorized party, the record will always include the student's statement and the board's decision.

Disclosure of Education Records

The University may disclose "non-directory" information contained in a student's educational record only with the written consent of the student, with the following exceptions:

- to school officials, including teachers, who have a legitimate educational interest in the record;
- to officials of another school in which the student seeks or intends to enroll;
- to federal, state and local agencies and authorities as provided under law;
- to the parents of an eligible student if the student is claimed as a dependent for income tax purposes;
- accrediting organizations;
- to comply with a judicial order or lawfully issued subpoena;
- emergencies affecting the health or safety of the student or other persons; and
- as otherwise permitted by FERPA.

Any student who wishes to authorize release of grades to one or both parents should complete a disclosure form in the Office of the University Registrar.

FERPA Annual Notice to Reflect Possible Federal and State Data Collection and Use

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

Disclosure of Directory Information

Disclosure of directory information normally may be made without the student's consent. Directory information includes:

- the student's name
- school and permanent addresses
- school, permanent and cellular telephone numbers
- school mailbox address
- school e-mail address
- place of birth
- majors and minors
- dates of attendance; enrollment status
- class level
- degree(s) received and dates of conferral
- honors and awards earned
- previous institutions attended
- weight, height, and age of athletes
- participation in officially recognized activities and sports
- photograph.

A student who wishes to have all directory information withheld must submit an "Authorization to Withhold Directory Information" form to the University Registrar. The hold will become effective the first day of class in the next regular semester (fall or spring). Once filed this request becomes a permanent part of the student's record until the student instructs the University Registrar in writing to have the request removed. Because the University's computer system is unable to put a "hold" on selective directory information, all directory information will be placed on hold or all directory information except name and e-mail address will be placed on hold. Moreover, this request does not restrict the release of this information to individuals and agencies list in "Disclosure of Educational Records" above.

FERPA Release of Academic Information of Those Deceased

The protections offered by the Family Educational Rights and Privacy Act (FERPA; Buckley Amendment) generally cease upon the death of a student who was otherwise protected by the Act. The Office of the University Registrar will evaluate each request for the release of a transcript or other academic records of a deceased student on the individual merits of that request. The University of Mount Union reserves the right to deny the request in whole or to release only part of the academic records that are requested. The decision will be based on what is deemed to be in the best interest of the University.

Minimum requirements for any release of academic information of a deceased student include: confirmation of the student's death proved to the satisfaction of the University and the Office of the University Registrar and a written request indicating what academic records are being requested, why they are being requested, and from whom it is being requested (news media, family, researcher, etc.). The requester assumes the burden of proof regarding who they are and what their interest is in the academic records of the deceased student. Requests for academic records using descriptions of 'all', 'entire', or other similar words or phrases will be interpreted as requests for the academic transcript. Charges such as official transcript request fees, diploma fees, shipping, and postage will apply per the Office of the University Registrar policies and procedures.

Degrees Offered

The University confers upon candidates who satisfy all specified requirements the following baccalaureate degrees:

- Bachelor of Arts
- Bachelor of Music
- Bachelor of Science in Nursing
- Bachelor of Science

Graduation Requirements

University Requirements for All Degrees

1. A minimum of 128 semester hours is required for all degrees;
2. At least 48 semester hours must be completed at the University of Mount Union;
3. The last 32 semester hours of a degree program must be pursued in residence at the University, or pre-approved transient credit. Cooperative and other special programs may be exempted from this requirement;
4. A minimum grade point average of 2.000 on a 4.000 scale must be achieved for all Mount Union and transient work attempted;
5. Completion of a major with at least a 2.000 grade point average;
6. Completion of a minor with at least a 2.000 grade point average;
7. If required by the major, completion of a concentration with at least a 2.000 grade point average;

8. Completion of the Integrative Core requirements for the degree to be earned;
9. Demonstration of proficiency in World Language and Math

Although each student is assigned a faculty advisor for discussion of academic program requirements and progress, it is the student's responsibility to be aware of and in compliance with all requirements for degree completion.

Note: The above requirements take effect for students who matriculate in the fall of 2012 and later. Students who entered Mount Union prior to the fall of 2012 will complete all requirements listed in their entry-year Catalog, with appropriate revisions to enable the transition to the four-credit Integrative Core curriculum. Students who transfer to Mount Union in 2012-2013 will complete the "old" General Education requirements (revised October 2011). Transfer students should meet with the University Registrar to discuss specific course requirements.

Special Graduation Requirement Notes

No more than four credits in physical education recreation/ activity courses, with the REC prefix, may count toward graduation requirements.

Courses numbered "199," "299," or "399" may meet General Education / Integrative Core requirements only if specifically identified as doing so by the Office of the University Registrar.

The Mount Union Catalog in effect at the time of a student's admission to the University shall govern such student's degree requirements; an extended period of non-enrollment at the University may, at the time of return, result in a change to requirements as specified in a later issue Catalog.

When the Office of the University Registrar identifies a student, who has been pursuing a degree for more than 10 calendar years, that office will request that the department(s) in which the student is pursuing major and minor work to complete a review of the student's record to date. This review would be to determine if any modifications should be considered or implemented in the student's program of study toward the major(s) or minor(s). The Academic Policies Committee will be asked to review the student's record to determine if any general degree requirements – including the General Education Requirements – should be updated for this student. Further updates will be required only if recommended by the appropriate departments or the Academic Policies Committee.

Applying for Graduation

All students are expected to apply for graduation at least two semesters prior to their expected date of graduation to ensure that all graduation requirements are identified and completed by that date. The Application for Graduation should be completed online at the University Registrar's portal page. The application form includes when the student plans to complete graduation requirements; a declaration of the student's major(s), minor(s), and concentration(s); the degree the student expects to earn and the Explorations that will be completed in the Integrative Core.

Once an application is received, the Office of the University Registrar and the student's major department chair will identify any remaining requirements for graduation on a Degree Clearance Form. The form will be scanned and sent by email to the student and advisor.

Degree Conferral

At the end of each year, the University Registrar presents to the Board of Trustees (BOT), the names of all students who have at that point successfully completed all requirements for graduation in May and will complete requirements for graduation in August and December. The BOT must then approve these potential graduates before they can be awarded a degree. Once the BOT has approved the candidates for a specific degree, that degree will be conferred on those students by the University Registrar. In special circumstances, the University Registrar may confer degrees at other times within a semester. These conferrals will be included in the approval process for May, August, or December, depending on the conferral date.

Board of Trustee Approval

At the end of the spring semester
 At the end of the spring semester
 At the end of the spring semester

Degree conferral

May
 August
 December

All diplomas will be mailed to students, regardless of conferral date; this includes those commencing in May. Students whose degrees were conferred in August or December also may participate in the May Commencement exercises, per the "walking" at commencement policy. The graduates' official academic records will include evidence of degree conferral.

A student who completes degree requirements between the times of degree conferral may request from the University Registrar, a letter of completion certifying that degree requirements have been satisfied and confirming that the degree will be awarded at the next conferral date.

If the student has an outstanding financial obligation to the University, until and unless those financial obligations have been reconciled, a potential graduate or a degree candidate may not:

- Obtain a letter of completion.

- Participate in any aspect of the Baccalaureate or Commencement exercises (i.e. wear an academic robe, cross the stage with others who have completed degree requirements, etc.).
- Receive a diploma or any other attendant documents (e.g. certificates, awards, honors, etc.).
- Secure any evidence or verification of degree conferral (e.g. transcript etc.).
- Receive an official transcript.
- Receive an unofficial transcript.

“Walking” at Commencement

The University of Mount Union makes every effort to allow students to commence with their original “cohort.” Students who are expected to graduate during a calendar year, regardless of conferral date, may participate in the commencement ceremony in May of that calendar year. For example, students expected to graduate in May, August, or December of a calendar year, not academic year may participate in the May commencement of that calendar year. Students expected to graduate in December will have the option to participate in the current commencement year or the subsequent commencement year to align with their original “cohort.”

Students who participate in the May commencement ceremony as “walkers” will not graduate until their actual conferral date. During the period of time between completion of all requirements and the date the degree is awarded, students may request a Certificate of Completion to accompany a transcript.

In order to participate in any commencement ceremony, students must complete an application for graduation submitted to the University Registrar by the deadline set forth by the Office of the University Registrar. Students who do not complete an application for graduation may not be permitted to participate in the commencement ceremony. Students must be considered as Senior standing to be eligible to participate. The University of Mount Union defines Senior standing as having earned 90 or more credit hours toward the 128 credit hour graduation requirement. Student may only participate in one commencement ceremony.

Please note: Latin Honors designations will not be listed in the Commencement program.

Second Degree Requirements

Although a second baccalaureate degree is not normally conferred by the University of Mount Union, a graduate of the University or of another accredited institution can pursue a second degree by completing the following:

- The plan must be approved by the major department involved;
- All requirements for the degree being pursued must be completed including a new major and minor;
- All University and general education requirements must be satisfied;
- The second degree may not reflect an essential duplication of a major or minor;
- A minimum of 32 semester hours in residence beyond the first degree must be completed;
- Both degrees may not be conferred at the same time.

Posthumous Degrees

University of Mount Union has a long history of compassionate interaction with families and friends of students who have passed away while enrolled at the University and, that this compassionate interaction is in the best interest of the families and the University. The awarding of a posthumous degree has frequently brought closure to a tragic situation for the family and friends of the deceased student as well as the University. The University of Mount Union may award a posthumous degree if a student, at the time of the student’s death, had not completed degree and/or major requirements but was actively enrolled at the University, was in good academic standing, and had completed a substantial amount of work toward their graduation requirements and major requirements. Considerations for a posthumous degree should be submitted, in writing, to the Office of the University Registrar and can be submitted by the family of the deceased student or by a representative of the University of Mount Union, including faculty and staff. The University Registrar will make a recommendation to the Academic Policies Committee once the request has been reviewed. Decisions regarding the definition of a substantial amount of work toward the degree and the awarding of a posthumous degree will be at the discretion of the faculty. If the degree is awarded, and the next of kin desires, the deceased student’s name can be read at the next commencement ceremony. In such cases, a diploma will be provided free of charge.

The Major

Each student must declare at least one major program of study. A major consists of not less than 30 total semester hours and not more than 44 semester hours in a major field, at least 16 of which must be completed at Mount Union with none of these 16 being transient credits. However, a student may pursue additional courses in a major field to count toward the 128 required for graduation.

Candidates for the degrees of Bachelor of Music are eligible to complete only one major. Candidates for the Bachelor of Arts or Bachelor of Science degree may choose to complete more than one major. Graduating students who have completed the requirements for a double major with one major designated Bachelor of Arts and the other designated Bachelor of Science may select which degree type appears on their diploma. Although the student will earn only one degree, both majors will be listed on the official university transcript.

World language majors and minors who take courses in a world language as part of a Study Abroad Program in a country where the world language being studied is the language of that country may count those courses toward the minimum residency

requirement for the major and minor subject to the prior approval of the chairperson of the Department of World Languages and Cultures at Mount Union. The chairperson's review will include a determination of whether or not there is an appropriate distribution of language/culture/literature in the major/minor.

The mission of the University of Mount Union is to prepare students for fulfilling lives, meaningful work and responsible citizenship. With this mission in mind, students are encouraged to begin exploring their areas of interest within their first semester. Students who have decided on a major at the end of their first semester will declare that major, while students who have not yet decided upon a specific course of study by the end of their first semester, will declare the major of "Undecided." It is anticipated that students choosing an "Undecided" major will actively engage in identifying a major by working with their advisor, the Center for Student Success, and other knowledgeable faculty and staff members. Students who declare a specific academic major will be assigned an advisor in the selected discipline. Students who declare as "Undecided" will remain with their FYS advisors until such time as they declare an academic major. All students must declare a specific academic major (not "Undecided") by the time they have completed 64 semester hours. To declare a major, the student must complete a Declaration/Change of Major/Minor/Advisor form. The form must be approved by the appropriate department chair and submitted to the Office of the University Registrar.

Satisfactory completion of a major program includes achieving a 2.000 minimum grade point average in the major. Major and departmental requirements appear in the respective discipline sections located in the Programs of Study section of this Catalog.

Majors are offered in the following areas:

Degree	Major Program	Degree	Major Program
BA	Accounting	BA	Intervention Specialist
BA	Art	BA	Japanese
BS	Biochemistry	BA	Management
BS	Biology	BA	Marketing
BS	Biomedical Engineering	BS	Mathematics
BS	Chemistry	BS	Mechanical Engineering
BS	Civil Engineering	BS	Medical Laboratory Technology
BA	Communication Studies	BA	Middle Childhood Education
BS	Computer Engineering	BS	Multi-Platform Software Development
BS	Computer Science	BA	Music
BA	Criminal Justice	BM	Music Education
BA	Early Childhood Education	BA	Nat'l Security and Foreign Intelligence Analysis
BA	Economics	BS	Neuroscience
BS	Electrical Engineering	BSN	Nursing
BA	English	BA	Philosophy
BS	Environmental Science	BA	Physical Education Pedagogy
BS	Exercise Science	BS	Physics
BA	Finance	BA	Political Science
BS	Financial Mathematics	BS	Psychology
BA	French	BA	Public Relations
BS	Geology	BA	Religious Studies
BA	German	BA	Risk Management and Insurance
BA	Health	BA	Sociology
BA	History	BA	Spanish
BS	Human Development and Family Science	BA	Sport Business
BA	Human Resources Management	BA	Theatre
BA	Integrated Media	BA	Writing
BA	International Affairs and Diplomacy		

A student may be required by their major department to complete selected courses to complement courses in the major field and/or to satisfactorily complete examinations related to the major field.

A self-defined major is available to a student interested in pursuing a concentration of study not specified in this Catalog. Such majors must satisfy all University requirements for graduation and must be consistent with the learning goals of the University of Mount Union. A student who has completed no more than half the courses in the self-defined major and has at least a 2.5 GPA may submit a self-defined program proposal to the Academic Policies Committee. The proposal must include a clear statement of the objective to be reached by the major, a list of courses that will be completed to satisfy the major, and a statement in support of the major from at least two faculty members, preferably in two different disciplines. The Academic Policies Committee will review the proposed major to ensure that it does not significantly duplicate another existing major at the university and that the proposed program is sufficiently rigorous. The proposal should include a clear rationale for pursuing the proposed major, and that the required courses in the major are the best choices for the student's educational objective. If the Self-Defined Major is approved by

Academic Policies, any changes or substitutions must be approved by the Academic Policies Committee and on file with the University Registrar.

The Minor

With the exception of those in the Bachelor of Music and Bachelor of Science in Nursing degree programs and those students who complete more than one major, all students are required to complete a minor program of study. Available minors are noted in the discipline sections of this Catalog. A minor program consists of from 15 to 21 semester hours, at least 8 of which must be completed at Mount Union with none of these 8 being transient credits. Students may not declare a major program and a minor program within the same discipline.

World language majors and minors who take courses in a world language as part of a Study Abroad Program in a country where the world language being studied is the language of that country, may count those courses toward the minimum residency requirement for the major and minor subject to the prior approval of the chairperson of the Department of World Languages and Cultures at the University of Mount Union. The chairperson's review will include a determination of whether or not there is an appropriate distribution of language/culture/literature in the major/minor.

To declare a minor, the student must complete a Declaration/Change of Major/Minor/Advisor form; the form must be approved by the student's advisor and submitted to the Office of the University Registrar.

Satisfactory completion of a minor program includes achieving a 2.0 minimum grade point average in the minor.

The Area of Concentration

An area of concentration is a group of courses which together focus on a particular sub-discipline within a given major or on a specific pre-professional program. An area of concentration may be offered by any major, pre-professional program (as defined in this Catalog) or professional program. Normally, pre-professional programs require specialized post-baccalaureate study and formal certification. Professional programs are those which directly qualify a student to seek formal certification in a given profession without specialized post-baccalaureate study.

area of concentration must be a distinct program of courses which does not duplicate an existing major or minor, although courses which count toward a given major or minor also may count toward an area of concentration. An area of concentration may not be developed within a minor program.

To be eligible for inclusion in a student's official academic record, an area of concentration within a major must contain a minimum of 16 semester hours at least 8 of which must be from courses within the department which offers the major. An area of concentration for a pre-professional or professional program must contain at least 16 semester hours and will be administered by the advisor or department chair of the program.

An area of concentration meeting the above guidelines and approved by the Academic Policies Committee will be noted on the official academic record of any student who has completed such area of concentration along with the corresponding pre-professional, professional or major program.

Satisfactory completion of a concentration includes achieving a 2.0 minimum grade point average in the concentration. The 2.0 in the concentration will be calculated as all the required courses for the concentration that satisfy the minimum number of hours required for the concentration.

The Role of Electives

The University of Mount Union faculty encourages students to use electives to explore courses outside of their major and minor areas of study.

Computation of 2.0 in a Major and a Minor

The 2.0 in the major shall be calculated as the GPA obtained in all the courses required for the major, plus all additional elective courses with the disciplinary prefix of the major. For majors that lack a disciplinary prefix, the 2.0 in the major shall be calculated as the GPA obtained in all the courses required for the major plus all elective courses taken in the home department of the major. For self-defined majors, the 2.0 in the major shall be calculated as the GPA of all courses required and elected for the major.

Courses that do not count for any major will not be included in the calculation of the 2.0 GPA.

The 2.0 in a minor will be calculated as all the required courses for the minor that satisfy the minimum number of hours required for the minor.

Academic Record

The history of a student's academic career at the University of Mount Union is compiled to create the official academic record; this may take the form of hard copy or electronic format. The academic record contains all information pertinent to the student's academic progress: courses enrolled, terms enrolled, grades, academic action (suspension, dismissal, etc.), degrees granted, major and minor programs, concentrations, honors, academic awards, etc. Disciplinary information or actions will never appear on the student's "academic record." Administrators and faculty with a need to know (advisors, department chairs, etc.) may secure copies of the academic record for use when advising the student; such copies are unofficial advisor's copies and may not be replicated for release to a third party.

Transcripts

An official copy of the academic record is called a transcript and bears the signature of the University Registrar. Only the University Registrar is authorized to prepare and issue official transcripts.

An official transcript must be requested in writing by the student using either the Transcript Request Form, a letter of request, a faxed request or by using the automated transcript order system. A transcript may be sent to a third party designated by the student or may be issued directly to the student; in the latter case, the transcript will be marked "Official Transcript Issued to Student." If the Office of Business Affairs has placed a hold on the student's record, no transcript will be issued until the financial obligation to the University has been discharged.

Academic Honesty

The University views the moral and ethical education of its students as being equal in importance to their intellectual development. The codes of conduct and ethical habits individuals practice as students are likely to guide them for their entire lives. As a consequence, a significant part of the University's mission is to support in its students a belief in the importance of personal honesty and integrity and a strong commitment to high standards in those areas. In all of their academic pursuits, Mount Union students are expected to be responsible members of the academic community.

Community Responsibility for Promoting Academic Honesty

A. Administrative responsibility

All department chairs, supervisors, and deans are expected to make sure that the employees under their supervision understand and carry out the responsibilities for developing, supporting, and maintaining academic honesty in the Mount Union community.

B. Faculty responsibility

It is the responsibility of all faculty to remind their students about the University's academic honesty policy, to help their students develop documentation and cooperative learning skills appropriate to the faculty's disciplines and subject matter. In this effort, all faculty should tell students when it is appropriate for them to collaborate on an assignment and when it is not, explaining carefully the reasons for the distinctions and the penalties for inappropriate cooperation. They should also provide the students with models for documentation that are based upon the newest revision of the chosen style guide and are consistent with current usage within the discipline.

C. Staff Responsibility

All staff persons are responsible for supporting the faculty's teaching and assessment of academic honesty in student work. Staff should help to explain to students why academic honesty is important in academic life and the workplace and should refer students back to their professors or to the DWOC for any additional instruction that the students need.

D. Student Responsibility

It is the students' responsibility to pay attention to the instruction in class, to learn the principles and mechanics of academic honesty, and to apply that knowledge in all of their work across the curriculum and outside the classroom. Students are expected to understand and comply with the limits of collaboration imposed by each faculty member, and to know when to document appropriately in the assigned style for each course. Students who are unclear about the rules and mechanics of documentation are expected to seek clarification for their professors or from the DWOC.

Academic Honesty Violations

Unless clearly documented with citations indicating otherwise, all academic work is expected to be the student's own. Plagiarism and/or any other form of cheating or dishonesty will subject the student involved to sanctions ranging from failure of an assignment to possible suspension or dismissal from the University.

Academic work comprises all activities including, but not limited to, examinations, tests, assignments, group work, projects and presentations. Academic work also incorporates timeframes of before, during and after an academic activity. Any students found to have committed or attempted to engage in the following misconduct is subject to intervention and conduct action. Below are types of academic misconduct with examples of each. Please note that this list is not exhaustive.

Alteration or attempted alteration of University Documents

- Entering a University building or office for the purpose of obtaining an administered or non-administered test
- Any unauthorized action taken for the purpose of changing a grade or grade record
- Changing, altering, or being an accessory to the changing and/or altering of a grade in a grade book, on a test, a "change of grade" form, or other official academic record of the University that relates to grades
- Forgery of an instructor's signature on a letter of recommendation or any other document
- Submitting an altered transcript of grades to or from another institution or employer
- Putting your name on another person's exam or assignment
- Altering a previously graded exam or assignment for purposes of a grade appeal or of gaining points in a re-grading process

Cheating

An act or an attempted act of deception by which a student seeks to misrepresent that one has mastered information or a skill on an academic evaluation instrument, such as (by example, not limitation) a test, exam, or quiz, that has not in fact been mastered. Below are some examples:

- Copying or attempting to copy from another student's examination paper or assignment
- Communicating answers with another person during an exam.
- Allowing another student to copy from your examination paper, text, quiz, or similar evaluation instrument
- Unauthorized use of a course textbook or other materials, such as (by example, not limitation) a notebook, to complete an examination or other assignment
- Collaborating on an examination, test, quiz, or other project with any other person(s) without authorization
- Using or processing specifically prepared materials during an examination such as (by example, not limitation) notes, formula lists, notes written on the students clothing, calculators, and/or smart devices, that are not authorized
- Taking an examination for someone else or permitting someone else to take an examination for you
- Submission of the same assignment for more than one course without prior approval of all the instructors involved
- Stealing, buying, or otherwise obtaining all or part of an administered or non-administered examination

Collusion

Action or inaction with another or others to submit academic work as your own that is not solely yours. Below are some examples:

- Unsanctioned collaboration with another person or persons in preparing any academic work offered for credit.
- Bribing a person to obtain an administered or non-administered test or any information about the test
- Lending your assignment to another student(s)
- Copying and/or sharing of individual reports among group members associated with group projects (except for instructor-approved assignments)
- Allowing others to copy your work or share your answer to an assessment task
- Allowing someone else to write or edit your work (except for the use of a scribe approved by the Office of Accessibility Services and instructor-approved tasks including DWOC and peer review)
- Writing or editing work for another student (except for instructor-approved tasks including DWOC and peer review)
- Offering to complete work or seek payment for completing academic work for other students
- Selling or distributing all or part of an administered or non-administered test, including questions and/or answers
- Buying or otherwise acquiring in any way a theme, report, term paper, essay, computer software, other written work, painting, drawing, sculpture, or other scholastic artwork, and submitting it as your own work to fulfill academic requirements
- Selling, distributing, or otherwise supplying in any way a theme, report, term paper, essay, computer software, other written work, painting, drawing, sculpture, or other scholastic artwork to another

Plagiarism

Plagiarism occurs when you represent the work or ideas of another person as your own. Below are some examples:

- Quoting verbatim another person's words (published or unpublished) without acknowledgement of the source
- Paraphrasing another person's idea(s), opinions, or theory(ies) without giving sufficient reference
- Including facts, statistics, or other illustrative materials that are not common knowledge without acknowledgement of the source; students are expected to clarify with their instructor appropriate criteria for "common knowledge"
- Submitting another person's assignment, paper, essay, test answer, computer program, and/or project as one's own
- The presenting of one's own previously published work as though it were new, referring to your work from previous classes or assignments without appropriate citation

Sabotage

The unauthorized interference with, modification of, or destruction of the work of others. Below are some examples:

- Acts that deny others access to scholarly resources or deliberately impede the progress of another student or scholar
- Tampering with laboratory experiments or research
- Giving misleading information
- Knowingly deceiving other members of a project team or group
- Disrupting class work
- Making library material unavailable to others
- Altering the computer files of another

Depending upon the severity of the infraction and the circumstances of the situation, cases of academic dishonesty may result in sanctions ranging from failure of an assignment up to and including dismissal from the University.

Having determined that an infraction has occurred, an instructor may immediately impose sanctions according to the stated policies of the course syllabus. In addition, any instructor who suspects or has determined that a case of academic dishonesty has occurred will present the evidence to the department chair and then to the assistant dean, who may impose additional sanctions as deemed appropriate. A student who wishes to do so may appeal the decision of the instructor or the assistant dean by way of a petition to the Academic Policies Committee. Incompletes may not be given or Withdrawals taken in any class where the responding student has an Academic Honesty Incident Report started.

Should the assistant dean feel the evidence of academic dishonesty warrants possible suspension or dismissal, the assistant dean will convene a hearing committee. The hearing committee will review the evidence as outlined in the student handbook under “Academic Dishonesty Hearing Process”, make a determination regarding the student’s responsibility for the alleged violation, and assign appropriate sanctions, if the student is found responsible. A student who wishes to appeal a decision of the hearing committee may do so by following the process described in the Academic Honesty Policy section in the Student Handbook.

Petitions and Appeals Regarding Non-Disciplinary Academic Matters

Any student with a concern about a non-disciplinary academic matter (for example, the assignment of a grade or the substitution of a course) should attempt to resolve the matter with the instructor, if one is involved, or the department chair. Faculty are encouraged to be available to students for such discussion so that if possible, concerns and/or disputes can be resolved informally. If the matter then remains unresolved, the student may submit a petition to the Academic Policies Committee for review.

A petition for a final course grade must be submitted in writing to the Office of the University Registrar. The student should provide a thorough rationale for the basis of the petition, detail the steps that have been taken thus far to resolve the issue, and include supporting materials as evidence. Such materials would typically consist of the course syllabus, the disputed assignment(s) in question, if applicable, and any correspondence, such as email, between the student and the instructor and/or advisor, etc. The petition for final course grade must be submitted by the end of the fifth week of the spring semester for grades received during fall semester and by the end of the fifth week of fall semester for grades received during the spring semester or during the summer session. Petition forms and information are available from the Office of the University Registrar.

The student may appeal decisions of the Academic Policies Committee to the Assistant Academic Dean. The student must submit a written request for an appeal to the Office of Academic Affairs no later than five business days following the notification of the Committee’s decision. The Assistant Academic Dean’s decision is final.

Grades

Each course completed at Mount Union is assessed by the faculty member who will employ the following system of grades and quality point equivalencies:

A..... 4.00	B..... 3.00	C..... 2.00	D..... 1.00
A-..... 3.67	B-..... 2.67	C-..... 1.67	D-..... 0.67
B+.....3.33	C+..... 2.33	D+..... 1.33	F..... 0.00
S	Satisfactory	U	Unsatisfactory
AU	Satisfactory Audit	UA	Unsatisfactory Audit

Grading Notations

In addition to grades, certain notations are employed to signify specific conditions:

H – Honors	NG - No Grade Submitted
I – Incomplete	P - Passed
W - Withdrawn	IP – In Progress

Grades and/or Grading Notation Definitions

S/U (Satisfactory/Unsatisfactory): Applicable for assignment to sophomores, juniors and seniors who elect to enroll in certain courses on a satisfactory/unsatisfactory grade basis. The S/U option must be declared by the end of the eighth week of the semester or, for courses that are not taught for the full semester, the mid-point of the course.

To qualify for this option, a student must satisfy at least one of the following criteria: (1) cumulative average of at least 3.000, (2) an average of at least 3.000 for the two preceding semesters, or (3) a junior or senior with at least a 3.000 cumulative average exclusive of the freshman year. The S/U option may not be used with courses in the major department or with extra-departmental courses required for the major (except for those courses graded on an S/U basis only). The S/U option may not be applied to any course being used to satisfy the Integrative Core requirements specified in the “Requirements for a Degree” section of this Catalog.

The S/U option may not be applied to any course being used to satisfy the Integrative Core requirements specified in the “Requirements for a Degree” section of this Catalog (except for those Integrative Core courses graded on an S/U basis only).

The S/U option may be used for courses in a minor department taken beyond those required for the minor. These courses will not include those that apply directly to the minor or those extra-departmental courses required for the minor (except those graded only on an S/U basis). Academic work completed at the “C” or higher level will be graded “S”; work completed at the “C-” level or below will be graded “U.”

S/U grades are not included in a student’s grade point averages. A student may enroll for only one elected S/U basis course each semester and a maximum of sixteen credit hours in a degree program.

The Satisfactory/Unsatisfactory option is not available to Mount Union students on Study Abroad unless this is the only manner in which the course is offered by the host university.

I (Incomplete): The “I” grade is to be used for situations where an unanticipated or unavoidable situation arises that prevents a student from completing a course during the scheduled semester. It is not to be used to extend the time available for convenience or to re-take the course. The assignment of an “I” grade must be approved by the Assistant Academic Dean. Such requests shall be submitted through the Request for Incomplete Grade Form before the end of the semester for a full semester course or second half semester course and include the basis for the request. A request for an “I” grade for a first half semester course must be made prior to the last day of class for such course. The “I” grade may also be used when internships are planned to extend beyond the end of a regular grading period and must also be approved by the Assistant Academic Dean. The Incomplete Request Form and information are available from the Office of the University Registrar.

Student work required to resolve the incomplete for full semester courses or second half semester courses must be completed by the end of the fifth week of the next regular semester following the one during which the “I” grade was assigned. Student work required to resolve the incomplete for first half semester courses must be completed by the end of the sixteenth week of the semester of the one during which the “I” grade was assigned. It is the student’s responsibility to arrange for completion of the work. The final grade for first half semester courses is due by the applicable date set forth by the Office of the University Registrar for full semester courses of the semester of the one during which the “I” grade was assigned. The final grade for second half semester and full semester courses is due to the University Registrar during the sixth week of the following semester. The final grade may be any grade from “A” to “F”. An “I” grade which has not been reconciled to a final grade by the deadlines set forth in this paragraph will become an “F” and will be included in the calculations of the student’s cumulative grade point average.

IP (In Progress): Applicable grade assigned at the end of the first semester of a two semester “extended” course.

W (Withdrawn): Applicable to students who withdraw from a course after the first week but by Monday of the eleventh week of a semester (the end of the fifth week for only the first half of the semester.). Withdrawals processed by the end of the first week are not recorded on the official academic record. Withdrawals processed after the first week but by the first day of the eleventh week (or by the end of the fifth week for courses that meet for only seven weeks) will be recorded as a “W” on the student’s official academic record. A student withdrawing after the first day of the eleventh week of classes for any reason – other than medical or non-academic hardship – will receive grades of “F” which will be used in computing the cumulative grade point average. Note: For courses that are taught in only the first or second half of the semester, the withdrawal deadline will be the end of the fifth week of the course.

“W” is also applicable when a student, with the approval of the dean of students of the University, withdraws from a course anytime during the semester for a verified medical or other verified non-academic hardship. A “W” is not calculated in a student’s grade point average.

AU/UA (Satisfactory Audit/Unsatisfactory Audit): The nature and amount of work required of an auditor, as well as the criteria for grading, will be specified by the instructor. Satisfactory completion of this work will result in “AU” on the academic record. Unsatisfactory completion of this work will result in “UA” on the academic record. No credit is awarded for an audited course.

Change of Grade

In order to seek consideration of a request for a grade change in any course, a student must submit a petition to the Academic Policies Committee. Unless there are justifiable extenuating circumstances present, a student must submit such a petition prior to the end of the semester following the one during which the original grade was assigned. (See Petitions and Appeals Regarding Academic Matters section for more information or contact the Office of the University Registrar.)

Prior to graduation from Mount Union, when the student officially changes majors or applies to a graduate or professional school requiring A/F grades for courses originally pursued on an S/U basis, such student may, by petition to the Academic Policies Committee, request that an A/F grade replace the S/U grade on the academic record. The student’s grade point average will be adjusted accordingly. Once changed from S/U to A/F, a grade cannot be returned to the S/U status.

Repeating Courses

A student may repeat a failed course as often as is necessary in order to pass and receive credit for the course. The course credit hours for each attempt are used in the calculation of the student’s GPA unless the course was taken as a “Repeat for change of grade.” With the exception of courses that are expected to be taken multiple times, such as special topic, seminar, or applied music courses--a student may receive credit toward graduation for a course only once. If a student enrolls in a course for which credit as already been received and “repeat for change of grade” does not apply, the enrollment will be converted to an “audit” enrollment.

Repeat for Change of Grade

A student may “repeat for change of grade” a regularly offered course as many times as necessary or desired subject to the following conditions:

- The University of Mount Union, for purposes of this policy, defines the following as grades: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F. For repeat for change of grade, a “W” grade is not considered a grade.
- A student may repeat at Mount Union any regularly offered course taken at the University of Mount Union in an attempt to secure a grade of “A” through “F,” however, experimental courses or topical seminars may be repeated for change of grade only if the subject matter is the same. Unlike other topical seminars, FYS and CAP classes may be repeated for change of grade even if the topic is not the same. A student may not repeat a course taken at Mount Union as a transient student at another institution without obtaining the prior written approval from the Chair of the offering department at Mount Union and the University Registrar prior to enrollment at the institution. Such requests shall be submitted before the end of the semester and include the basis for the request. Repeats for change of grade for “W” grades do not need to obtain prior approval.
- Grades for all course attempts will appear on a student’s official academic record, but only the last attempt will be used in the calculation of the student’s cumulative grade point average (the grade for the repeated attempt will appear in brackets).
- For purposes of this policy, credit earned for any repeated course will apply only once toward fulfilling degree requirements.
- Students who wish to repeat a Mount Union course for change of grade may not take the course as a transient student at another institution, unless the course received a “W” grade at Mount Union. The course must be repeated at Mount Union. However, students who wish to repeat a Mount Union course for change of grade may do so at another institution as a transient student in special and extenuating circumstances. The approval of transient courses for repeat for change of grade is to be made in cases in which a student needs such course to effectively progress through the student’s major or in extenuating circumstances. The student must obtain written approval from the Chair of the offering department at Mount Union and the University Registrar prior to enrollment at the institution. Such requests shall be submitted before the end of the semester and include the basis for the request. Repeats for change of grade for “W” grades do not need to obtain prior approval.

Notes: Courses repeated under the “audit” option will not affect grades for any previous attempt(s). The “S/U” option may not be used to repeat a course. A student, without permission of the department chair, may not repeat a course which was a prerequisite for a course subsequently taken. Students are encouraged to repeat a course within 12 months or at the next regular offering. Please note that financial aid regulations may prohibit a student from repeating a course that has already been passed more than once.

Notes about “W” grades: A course that has received a grade of “W” may be repeated for change of grade as a transient request as long as the course has only received a “W” grade and no other “A-F” grades at any point at the University of Mount Union or accepted as transfer credit from another institution. “W” and all other grades for all course attempts will appear on a student’s official academic record, but only the last attempt will be used in the calculation of the student’s cumulative grade point average (the grade for the repeated attempt will appear in brackets). Repeating a course for change of grade when the original grade was a “W” grade does not remove the “W” grade from the student’s official transcript.

Dean’s List

A Mount Union undergraduate student is eligible for and shall be placed on the Dean’s List for a given semester subject to the following conditions.

For the semester being considered the student:

- Must complete at least 12 semester credit hours of traditionally graded course work – courses graded “S” (Satisfactory) or taken as a repeated course cannot be included among these 12.
- Must have at least a 3.550 grade point average for all course work attempted for the semester.
- Cannot have a course graded below a “B” (3.000).
- Cannot have a course graded “U” (unsatisfactory);
- Cannot have a course marked “I” (incomplete) or “IP” (in progress), however, when the student completes work of the “I” or “IP” graded course(s) the student may then be eligible to be added to a supplementary Dean’s List for that semester.
- Courses graded “AU” (audit) or “W” (withdrawn) do not disqualify a student who is otherwise eligible for the Dean’s List.

Academic Standing General Statement

The University of Mount Union is committed to enabling its matriculated student to reach graduation in a timely fashion. The policies and procedures described herein are meant to ensure students are aware of their academic status and receive the support they need to overcome any academic difficulties. If, after appropriate intervention from the University, a student fails to make progress toward graduation, the University is committed to helping the student make alternative academic plans in a timely manner.

Academic standing is determined for matriculated students only. The policies and procedures governing academic standing are the same for full-time, part-time, and less than half-time students.

A student's academic standing is determined twice a year, at the end of the Fall and Spring semesters after grades for the semesters have been submitted. Academic standing is based on the cumulative grade point average earned, the semester grade point average earned, and the satisfactory completion of any academic and non-academic requirements of a conditional admission, if the student was conditionally admitted to the University. Any conditions associated with the academic standing, determined at the end of a semester, are effective for the next academic semester.

Student Classification

A student's rank is dependent on the number of semester hours of credit completed, the sum of Mount Union credits earned, and credit allowed for transfer work completed. A student is classified by rank according to the following:

- Freshman* - fewer than 30 total semester hours completed
- Sophomore* - at least 30 and fewer than 60 total semester hours completed
- Junior* - at least 60 and fewer than 90 total semester hours completed
- Senior* - a total of 90 or more semester hours completed

Note that credit awarded for approved transient course work taken at another institution is considered to be part of Mount Union credits completed.

A student is classified as full or part time according to the following:

- Full-time* - enrolled for 12 semester hours or more
- Part-time* - enrolled for fewer than 12 semester hours
- Overload* - enrolled for more than 20 semester hours at the University of Mount Union or at Mount Union and as a transient student at another institution

Academic Standing

A student's academic standing – “good academic standing” or “academic probation” – is dependent upon the cumulative grade point average and the number of semester hours that the student has attempted (note the rule for transfer students below). For a student to attain and/or maintain “good academic standing” at the University of Mount Union, the student must have a:

- 1.600 grade point average or higher at the completion of their second semester of enrollment at Mount Union, only, and regardless of semester hours attempted.
- 1.600 grade point average or higher and have attempted fewer than 31 semester hours after at least two semesters at Mount Union.
- 1.750 grade point average or higher and have attempted at least 31, but fewer than 48 semester hours after at least two semesters at Mount Union.
- 1.900 grade point average or higher and have attempted at least 48, but fewer than 64 semester hours after at least two semesters at Mount Union.
- 2.000 grade point average or higher and have attempted 64 or more semester hours after at least two semesters at Mount Union.

For transfer students, the figure used for “semester hours attempted” will be the sum of transfer credits accepted by Mount Union and the credits attempted here at Mount Union. For example, a transfer student who was granted six credits for transfer work and who has attempted 25 credits at Mount Union would have attempted a total of 31 semester hours for the purposes of this policy. Pre-college (CCP) courses do not count toward semester hours for academic standing.

Please note that credit hours attempted, and grades awarded for approved transient work taken at another institution are considered to be part of Mount Union credits attempted and are included in the calculation of grade point average.

Satisfactory Progress

A student enrolled at Mount Union on a full-time basis is considered to be making satisfactory progress toward satisfying degree requirements if they have successfully completed at Mount Union a minimum of:

- 24 semester hours after two semesters.
- 48 semester hours after four semesters.
- 72 semester hours after six semesters.
- 96 semester hours after eight semesters.
- Or 24 semester hours during the preceding two semesters of enrollment at the University.

In addition, a student's performance must represent a pattern that does not jeopardize the chances of satisfactorily completing degree requirements within approximately 128 semester hours.

Credit awarded for transfer work accepted by the University and pre-college credit (CCP) accepted by the University are is not included in the hours used to determine satisfactory progress under this policy.

Credit awarded for approved transient course work taken at another institution is considered to be part of Mount Union credits.

A semester in which a student withdraws completely from the University for approved medical reasons shall not be counted for purposes of determining satisfactory progress.

Please note that making Satisfactory Progress toward degree requirements does not necessarily ensure that the student is making Satisfactory Academic Progress for the purposes of financial aid eligibility.

Intercollegiate Athletics Eligibility

To be eligible for participation in the University's intercollegiate athletic program during the traditional season, a student must be enrolled full-time for the semesters of participation, must be in good academic standing and be making satisfactory progress toward a degree. To be eligible for participation in the University's intercollegiate athletic program during the non-traditional season, a student must be enrolled full-time for the semesters of participation. These requirements are in accordance with National Collegiate Athletic Association (NCAA) guidelines.

Academic Review

At the end of each semester, the record of all students determined to be in or eligible for the following categories will be reviewed by the Probation and Suspension Committee: "good academic standing with warning," "academic probation," "academic suspension," or "academic dismissal." The voting membership of the Committee consists of two faculty members from the Academic Policies Committee and the Assistant Academic Dean (or designee). Several administrators representing Academic Affairs, Enrollment Services, and Student Affairs provide support for the Committee.

After reviewing a student's record, the Committee may suspend (or dismiss) a student. Alternatively, the Committee may allow the student to continue enrollment, with or without conditions. Such conditions may include mandating periodic meetings with the Director of Academic Support or other staff in the Center for Student Success, requiring a reduced course load, requiring a grade objective for a specified semester, or other conditions that may be appropriate for a student. Regardless of conditions for continued enrollment (if any), a student who is not in "good academic standing" is considered to be on "academic probation," and may be required to limit participation in extracurricular activities and may incur financial aid restrictions.

Good Academic Standing with Warning

Students may be placed on "good academic standing with warning" after earning a semester GPA below the good academic standing benchmark, for not meeting all academic and non-academic requirements of a conditional admission, failure of a First Year Seminar (FYS) or Transfer Student Seminar (TRF), or immediately following a semester of good academic standing. Students may also be placed on "good academic standing with warning" if after their first semester of enrollment at Mount Union, they earn a semester GPA below 1.600.

Students receive individual written or digital notifications of an Academic Warning status that explain the requirements that must be met for return to good academic standing. This warning alerts the student to potential difficulties and students are encouraged to contact their advisor or the Center for Student Success, who will assist in the development of improved study plans.

Academic Warning status is not part of a student's permanent educational record and does not affect intercollegiate athletic eligibility or the ability to participate in other extracurricular activities. During the semester of Academic Warning status, students may be restricted to a certain minimum or maximum credit hour load. Students placed on Academic Warning may be required to participate in programs designed to help them improve academic skills and performance through the Office of Academic Support or Center for Student Success. Failure to participate in required programs by the seventh week of the semester will remove the student from "Good Academic Standing" status which will subsequently have consequences regarding athletic eligibility and participation in extra-curricular activities.

Academic Probation

Students may be placed on Academic Probation if their cumulative grade point average falls below the Good Academic Standing benchmarks. For example, a student who has completed more than one semester of enrollment at Mount Union, has not reached a 1.750 grade point average or higher, and has attempted at least 31 but fewer than 48 semester hours will be placed on Academic Probation. Students receive individual written or digital notifications of an Academic Probation status that explain the

requirements that must be met to return to good academic standing. Students should contact their advisor or the Center for Student Success, who will assist in the development of improved study plans.

Academic Probation status is not part of a student's permanent educational record but does affect intercollegiate athletic eligibility (see Intercollegiate Athletic Eligibility). During the semester of Academic Probation status, students may be restricted to a certain minimum or maximum credit hour load. Students placed on Academic Probation may be required to participate in programs designed to help them return to good academic standing. Failure to comply with the conditions of Academic Probation may result in further restrictions on registration or Academic Suspension or Academic Dismissal.

Academic Suspension

Academic Suspension in enrollment is the involuntary separation of a student from the University for a specified period of time. At the end of such period, the student may be eligible to apply for readmission; procedures for readmission application are listed in "Readmission after Suspension." A student is subject to Academic Suspension from the University if the student:

- Has a cumulative grade point average below that required for "good academic standing."
- Has already been in the categories of "good academic standing with academic warning" or "academic probation" and fails to show continued progress toward achieving good academic standing.
- Fails to show satisfactory progress toward meeting the requirements for a degree.
- Is determined to have violated academic honesty policies.
- Becomes subject to disciplinary procedures; in cases where a disciplinary action is deemed to be egregious, immediate involuntary separation may be recommended by either the Provost or the Dean of Students.

There may be occasions in which a student is on Financial Aid Suspension but remains eligible to take classes at the University. This is not considered to be an Academic Suspension. A suspension based on unsatisfactory academic performance will be considered a "Financial Aid Suspension" and will be noted accordingly on the student's official academic record. A suspension based on unsatisfactory conduct and/or ethics will be considered a "Disciplinary Suspension" but will not be noted on the official academic record.

Academic Dismissal

Academic Dismissal is the involuntary separation of a student from the University and may be permanent. Dismissed students may be ineligible to apply for readmission. A student is subject to Academic Dismissal from the University if the student:

- Has been suspended for academic reasons on two or more occasions.
- Would normally be subject to suspension but the circumstances involved are considered, by either the Provost or the Dean of Students, to be egregious; in cases of such seriousness, immediate dismissal may be recommended.

A dismissal based on unsatisfactory academic performance will be considered a "Financial Aid Dismissal" and will be noted accordingly on the student's official academic record. A dismissal based on unsatisfactory conduct and/or ethics will be considered a "Disciplinary Dismissal" but will not be noted on the official academic record.

Appealing Academic Suspensions or Dismissals

A student appeals a suspension or dismissal decision by submitting a written letter of appeal to the Office of Academic Affairs. Students are advised to obtain letters of support from faculty members or advisors.

The Assistant Academic Dean will convene a meeting of the Appeals Committee approximately two weeks after the original meeting. The Appeals Committee will consist of three voting members: two faculty members from the Academic Policies Committee who were not on the initial Probation and Suspension Committee, and a student from the Academic Policies Committee or a student recommended by the Office of Academic Affairs or the Office of Student Affairs. The Assistant Academic Dean will notify students who submit an appeal of the decision made by the Appeals Committee.

A student may request that the Vice President for Academic Affairs reconsider a suspension or dismissal decision of the Appeals Committee only when additional pertinent information becomes available. The Vice President for Academic Affairs makes a decision and notifies the student in writing. No additional appeals are allowed.

Readmission after Suspension

A student suspended from the University for academic reasons is eligible to apply for readmission after a hiatus of at least one semester not including the summer terms. Thus, a student suspended at the end of the spring semester will be eligible to be considered for readmission after the following fall semester. Applications for readmission after suspension must be submitted to the University Registrar and will be reviewed by the Assistant Academic Dean, the Dean of Students, and the University Registrar.

A student who attends another college or university after being suspended from Mount Union must submit an official transcript from that school before the application for readmission will be considered. Students returning to the University of Mount Union from academic suspension are limited to a maximum load of 16 semester hours.

CREDIT FOR TRANSCRIPTED AND NON-TRANSCRIPTED WORK AND ACCEPTANCE OF TRANSFER CREDIT

Transcribed (Transfer) Credit

A student admitted to the University of Mount Union after having attended another institution of higher education, including students who have earned an associate's degree, will be classified as a transfer student and must provide an official transcript of his or her academic record at all previous institutions. This transcript will be the basis for determining what, if any, transfer credit will be accepted by the University of Mount Union; such determination will be made by the Office of the University Registrar at the time of admission on a course-by-course basis. To be eligible for transfer to the University of Mount Union academic record, a transferred course must have been completed at a regionally accredited college or university, must have a grade of "C" or better and must be in an academic discipline in which courses are offered by the University of Mount Union. Any credit granted at the time of admission is conditional and may be withdrawn if a student is deemed incapable of successfully completing advanced work. Grades for transfer work accepted by the University of Mount Union will not be included when calculating the student's University of Mount Union grade point average.

Acceptance of Transcribed (Transfer) Credit

Credit for undergraduate transfer work will be considered if the potential course meets all of the following conditions:

- The course was taken at a regionally accredited college or university.
- The course carries a grade of "C" or better.
- The course is equivalent to a course offered by the University of Mount Union in an academic discipline.
- Courses taken at other institutions may be combined to satisfy one or more equivalent University of Mount Union courses, but no course may be counted more than once in calculating transfer credit. Students may be required to provide additional supporting documentation such as a course description or a syllabus for a class to be considered for Transfer of Credit.

The award of transfer credit may also be considered in the following cases:

- In an academic discipline or area that a University of Mount Union program does not specify a course, a student may submit for transfer of credit consideration a course not offered by the University of Mount Union but directly related in its content to the area requirement. For example, a student may submit for transfer of credit consideration for a Humanities course not offered by the University of Mount Union, but the course can be justified as a Humanities course and therefore be an acceptable transfer of credit to satisfy that requirement.
- In an academic discipline or in general education where courses are specified, a student may submit coursework to the University of Mount Union that is in a related discipline that may substitute for the required course(s). Course substitutions must be approved by the Department Chair.

All coursework will be evaluated for its current relevance and may not transfer if the material in the coursework is deemed to be significantly non-current in the subject area. Individual disciplines within the University of Mount Union may place limits on the age or relevance of courses eligible for transfer of credit.

Transfer credit will not be given by the University of Mount Union for developmental courses such as basic Mathematics or basic English (typically noted as less than 100 level coursework). Students should consult with the Office of the University Registrar about questions related to acceptance of transfer credit.

Acceptance of credits earned at other institutions, through examination, other institutions, and/or other means described in this catalog is limited to a balance of transfer credits where the student must complete a minimum of 48 semester hours at the University of Mount Union before receiving a University of Mount Union degree, including at least 16 credit hours in a Major and 8 credit hours in a Minor. Note that programmatic accreditation and/or specific state requirements may alter these minimums.

Integrative Core Transfer Credit

There are limitations to the transfer credits awarded toward the Integrative Core: The Integrative Core courses at the University of Mount Union require First Year Seminar (4 semester hours); four foundations courses with one course coming from each of the following areas: Fine Arts, Humanities, Natural Sciences, and Social Sciences (16 semester hours); two Explorations courses (8 semester hours); and a Senior Capstone (4 semester hours). The limitations on transfer credits applied to the Integrative Core are as follows: First Year Seminar does not have to be completed at the University of Mount Union for transfer students. Two of the four foundations courses must be completed at the University of Mount Union unless the transfer student has earned 48 credit hours or more of transfer credit, both Explorations courses must be completed at the University of Mount Union, and the Senior Capstone must be completed at the University of Mount Union. Therefore, up to 4 semester hours of First Year Seminar, 16

semester hours of foundations courses, 0 credit hours of Explorations courses, and 0 credit hours of the Senior Capstone can be accepted as transfer credit in the Integrative Core. Credits that meet other requirements but not those of Integrative Core, may still be accepted as elective credit.

Transfer of Remedial Coursework

The University of Mount Union does not accept remedial, or pre-college, coursework for transfer of credit. Many institutions offer remedial, developmental or para-professional courses that are not considered college level. These courses, typically indicated as “pre-college” or with a prefix of “099” or lower, are not transferrable to the University of Mount Union. This includes, but is not limited to, pre-college/remedial English, pre-college/remedial Math, and English as a Second Language (ESL) courses. For additional information, please contact the Office of the University Registrar.

Rejection of Transfer Credit

The University of Mount Union reserves the right to reject any or all undergraduate credits from other institutions, regardless of their accreditation status, when it determines through investigation or otherwise, that the quality of instruction at such institutions is for any reason deficient or unsatisfactory. The judgment of the University of Mount Union on this question shall be final. The University of Mount Union reserves the right to disallow transfer credit for courses if the student’s subsequent grades in required courses in the same subject fall below acceptable standards.

Acceptance of Non-transcripted Credit

The University of Mount Union offers students an opportunity to obtain course credit and/or satisfy requirements of general education or program specific requirements in areas of competency through several non-transcripted means, including AP Examinations, University of Mount Union-administered proficiency examinations, and military experience and training, as recommended by the American Council on Education (ACE). The University of Mount Union does not award credit for life experience. Acceptance of credits earned at other institutions, through examination, and/or other means described in this catalog is subject to approval by the Department Chairs and the University Registrar.

College Board Advanced Placement (AP) Examinations

The University of Mount Union supports the College Board’s Advanced Placement Program, which allows high school students the opportunity to pursue college level courses in their own schools and to be taught the material by their own teachers. After completion of the AP courses, students take the appropriate AP examination to determine their level of achievement. For college credit and/or proficiency to be awarded, a student must have official score reports from the College Board sent directly to the Office of University Registrar at the University of Mount Union. While there may be different AP examination score requirements, it is generally accepted that the University of Mount Union will accept AP examination scores of 4 or 5 as transfer credit and/or proof of proficiency. Programmatic requirements may require higher or lower scores for transfer credit. Students should consult the Office of the University Registrar for specific score requirements.

Credit by Examination

CLEP certification exams may be submitted for evaluation for course credit. The general guidelines for awarding credit require: no score less than 50 on the CLEP test will be considered for course credit.

If students earn a credit granting score for a CLEP exam that does not directly correlate to a course offered by the University of Mount Union, credit may be awarded as a free elective. Credits earned by examination are considered in the same way as transfer credits and are not used in the computation of the student’s grade point average. Students should consult with the Office of the University Registrar for a complete list of acceptable CLEP examinations.

Global Seal of Biliteracy

Students who have earned a Global Seal of Biliteracy in a modern world language may be awarded credit. General conditions of transferring credit also apply here, regardless of credit earned through the Global Seal of Biliteracy program. Students demonstrating the functional skill level will receive 4 semester credits, whereas students demonstrating the working skill level will receive 8 semester credits. Entering students are encouraged to speak with the chair of the Department of World Languages and Cultures in order that they may begin language course work at the proper level.

Credit by Education Training

College credit may also be awarded for education training completed through the armed services or other government chapters. The University of Mount Union is guided by the principles and recommendations of the American Council on Education (ACE) guidebooks when assessing requests for credit earned in this manner. Students must have their ACE transcripts sent directly from the Center for Adult Learning and Educational Credentials to the Office of the University Registrar for evaluation.

University Credit for Military Experience and Training

The University recognizes and uses the American Council on Education (ACE) Guide to the Evaluation of Educational Experience in the Armed Services to determine the value of learning acquired in military service. Credit may be awarded for appropriate learning acquired in military service at levels consistent with ACE Guide recommendations when applicable to a Service member's program. In addition, we utilize Joint Services Transcript (JST) or Community College of the Air Force (CCAF) Transcripts in our processing of prior learning experiences for possible transfer credit.

Students who wish to have their military experience and training evaluated for credit should send the JST or the CCAF transcript to the Office of the University Registrar. Credit will be applied upon the approval of the Department Chair from the appropriate academic discipline and the University Registrar.

Pre-College Credit (College Credit Plus Program)

Students who have completed regular accredited college courses while in high school through the College Credit Plus Program may, by having a copy of their transcript sent from the credit-granting college (not the high school transcript), be awarded credit per Mount Union policy. General conditions of transferring credit also apply here, regardless of credit earned through the College Credit Plus program. Entering students are required to take certain tests at the time of entrance to the University and are encouraged to take placement tests in applicable areas in order that they may begin course work at the proper level.

International Transfer Credit

The University of Mount Union recognizes students who have completed university-level credits at an institution outside the United States. These international credits may be applied toward a University of Mount Union degree. The following are some basic guidelines regarding the transfer of international credits:

- Credits will not be accepted from a school or institution that is not recognized by the local Ministry of Education (or equivalent). Credits will also not be accepted unless they are considered "university-level" within the original international educational system.
- Credits will be calculated to conform to the structure of the U.S. educational semester system. The definition of a semester credit in another country is not necessarily the same as the U.S. definition.
- Original transcripts (whenever possible) and evaluation documents will be accepted and must be translated in English.

Timing of Transcribed and Non-transcribed Credit Consideration and Acceptance

The University of Mount Union will accept transcripts for transcribed (transfer) and documentation of non-transcribed credit evaluation up to the student's last 32 credit hours prior to graduation, provided the limits placed on the total number of credits earned at the University of Mount Union are met. For credits to be transcribed on the official University of Mount Union transcript, students must submit official transcripts from other institutions no later than the end of the student's first semester, if a first time Mount Union student or no later than the end of the semester immediately following the term in which the credit was earned, if the student is enrolled in any semester beyond their first semester at the University.

Students are encouraged to submit all transcripts for transfer of credit evaluation or documentation for non-transcribed credit as soon as possible upon admission to the University of Mount Union to enable accurate evaluation by the Office of the University Registrar and for scheduling of courses. Official transcripts must be received by the Office of the University Registrar no later than the end of the student's first semester at the University of Mount Union.

Notice Concerning Transferability of Credits Earned at the University of Mount Union

In the U.S. higher education system, transferability of credit is determined by the receiving institution taking into account such factors as course content, grades, accreditation and licensing. For this reason, the University of Mount Union does not imply, promise, or guarantee that credits earned at the University of Mount Union will be accepted by another college or university. If the credits or degree you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. Students considering transferring to another college or university are responsible for determining whether that school will accept the University of Mount Union credits. The University of Mount Union encourages students to initiate discussions with the potential transfer school as early as possible.

Definition of a Credit Hour

The University of Mount Union operates on a semester system, with each semester having approximately 16 to 17 weeks. The University of Mount Union defines a credit hour as an expectation of student learning outcomes that can typically be achieved in 42-45 hours* of student work. This definition presumes the following:

- Student learning outcome achievement will be demonstrated by documented quantitative and qualitative evidence.
- Expectations are based on many types of learning experiences (classroom, laboratory, clinical, practica, internship, studio work, individual study, group work, other academic work, etc.) and modes of delivery (face-to-face, on-line, etc.).
- Expectations are based on degree level, course-level, and discipline.

- This definition is a minimum standard and courses may exceed this standard with more challenging outcomes that typically require a greater number of hours.

**This represents a minimum of 2 hours of independent work per week for each hour of direct faculty instruction.*

Credit Hour Conversions

Some regionally accredited institutions operate on a quarter hour system versus a semester hour system. When considering transfer credits from a regionally accredited institution on a quarter hour system, the University of Mount Union uses the standard quarter hour to semester hour conversion. Using this conversion, one semester hour equals 1.5 quarter hours, or 1 quarter hour equals .6667 semester hours. To convert semester hours into quarter hours, divide the quarter credit hours by 1.5 or multiply the semester credit hours by .6667. To convert quarter hours into semester hours, multiply the semester hours by 1.5. Typical graduation requirements are 192 quarter hours under a quarter system and 128 semester units under a semester system. 192 quarter credits divided by 1.5 = 128 semester credits; 128 semester credits multiplied by 1.5 = 192 quarter credits. At the discretion of the Office of the University Registrar, credits can be combined to increase the likelihood of transfer credit.

Registration and Enrollment

Faculty Advisors

Academic advising constitutes a key element in the educational plan of Mount Union. At the time of admission to the University, each student is assigned to a faculty member who serves as their initial academic advisor. When a student declares a major, the chair of the major department will assign a faculty member in the department to serve as academic advisor to the student. In addition to this assigned faculty advisor, other members of the University faculty and administration are available to assist students with academic and personal problems.

Registration

For currently enrolled students, each semester during the academic year, all students except graduating seniors will confer with their respective advisors, plan and select a schedule of approved classes for the following semester and then complete registration for the next semester at the appropriate times published by the Office of the University Registrar. Scheduling may be done using web registration or by paper form.

First time students entering in the fall semester will register during the preceding summer. New students entering in the spring semester will register during the break between the fall and spring semesters.

All continuing and new students are expected to be registered and have paid their fees or have satisfactory financial arrangements made prior to the start of each semester. Those who are unable to register until the first week of classes may do so on Self Service (if authorized by their advisor) or with a form signed by their advisors.

No late registrations are permitted after the first week of the semester.

Prerequisites

Many courses have prerequisites, and these may range from class standing to a series of specific courses. Course prerequisites are noted for each course in the departments' "Course Description" section located near the back of this Catalog. It is the student's responsibility to make certain that they have met all prerequisites prior to registration for a course. A student will not be permitted to remain in a course for which the prerequisite has not been satisfied.

Prerequisite Definition. Prerequisite is a condition of enrollment required to demonstrate current readiness for enrollment in a course or educational program. A prerequisite represents a set of skills and/or a body of knowledge that must be possessed prior to enrollment and without which success in the course or program is unlikely. Successful completion of appropriate prerequisites is required to enroll in such courses.

Corequisite Definition. Co-requisite is a condition of course enrollment consisting of a course that must be taken at the same time (concurrently) to enroll in another course. A co-requisite represents a set of skills and/or a body of knowledge that must be acquired through enrollment in another course at the same time. Withdrawal from one or more co-requisites will require withdrawal from all courses with the co-requisite requirement.

Enrollment Priorities

As with all institutions, the University cannot offer enough sections of all classes to ensure that all students can enroll in all the courses they wish each semester. For this reason, enrollment in some courses is limited to students who must have the course for their major or minor. Ineligible students who enroll in such courses will be withdrawn by the Office of the University Registrar. Often, when those needs have been met, any eligible student may enroll in the course, however students not needing the class to meet major or minor requirements may be denied enrollment throughout the entire registration process.

Class Limits

Class limits are established by each department; when this limit is reached during the registration process, the class is considered closed. Written approval by the instructor is required to be registered in a closed class.

Course Load and Overload

With the approval of their advisor and the respective College Dean, a student may register for an academic credit load up to and including 20 semester hours. A load ranging from 12 to 20 credit hours is considered full-time and is assessed fees accordingly. An academic load in excess of 20 credits is considered an overload and therefore requires the approval of the respective College Dean and is subject to an additional fee for which financial aid is not applicable. Courses for music ensembles, music private lessons, theatre practicum, DWOC Practicum, and Education Practicums (1 credit hour or less for students seeking licensure) are not counted toward course load, nor are they subject to an overload fee. Students in the Honors Program may register for up to and including 24 semester hours. An academic load in excess of 24 hours for honors students is considered an overload and therefore requires the approval of the respective College Dean and is subject to an additional fee for which financial aid is not applicable. Freshmen in the first semester may not enroll in more than 18 semester hours without the approval of the Assistant Academic Dean.

Students attending another institution as a transient student at the same time that they are registered for courses at the University of Mount Union are subject to the same limitations on overload. The determination of whether or not the student has an overload will be based on the sum of the hours taken at Mount Union and the other institution. Students attending other institutions in the summer are subject to the same credit hour limitations that would apply at the University of Mount Union. Any course load above that limit would require approval by the Assistant Academic Dean.

Drop/Add/Withdrawal Policy

The University takes add, drop, and withdrawal deadlines very seriously. Students are responsible for verifying enrollment before the Drop/Add period. Making adjustments to a schedule by either adding, dropping or withdrawing from a course may have financial and billing implications. Students should be familiar with financial aid policies and billing refund policies before making schedule adjustments.

During the fall and spring semesters the Drop/Add period occurs during the first week of classes. Students may change their schedule by adding (subject to availability) or dropping classes. Exception: A student who is enrolled in his/her first semester at the University must obtain the signature of his/her advisor prior to dropping or adding a course. The completed and signed schedule change form must be taken to the Office of the University Registrar. Beginning the second week, courses may not be added except internships, practicums, music lessons and ensembles. Dropping a class after the Drop/Add period has ended will result in a "W" grade. Enrollment is not permitted after the first week of the semester.

Withdrawals from classes processed by Friday of the first week of the semester will not appear on a student's official academic record. From the second week through the first day of the eleventh week of the semester (the end of the fifth week for courses that meet for only seven weeks), students withdrawing from one or more classes must obtain the signature of both the instructor(s) and the advisor. A grade of "W" will be issued on the transcript. The completed and signed schedule change form must be taken to the Office of the University Registrar. The date that the schedule change form is received and processed by the Office of the University Registrar will be the "official withdrawal date" from the class or classes being dropped. For courses that are taught in only the first or second half of the semester, the withdrawal deadline will be the end of the fifth week of the course. Designations of "W" are not used in computing a student's grade point average. Withdrawals, other than those for medical or non-academic hardship, processed after the first day of the eleventh week of the semester will be recorded on the student's official academic record as "F" and this grade will be used in computing the grade point average.

With the approval of the Dean of Students of the University, a student may withdraw anytime for verified medical or other non-academic hardship; such withdrawal will be recorded on the student's official academic record as "W." A withdrawal for verified medical reasons may be made in extraordinary cases in which a serious physical, emotional or psychological condition prevents a student from continuing with his or her program of study. A student must make a request for withdrawal for medical reasons with the Office of Student Affairs. The student must provide a letter from his or her attending healthcare provider specifying the date of the illness, dates the student was under professional care, general nature of the student's medical condition, why/how it prevented the student from completing his or her coursework and the last date the student was able to attend classes. The letter must be submitted on the healthcare provider's letterhead stationery. A withdrawal for medical reasons, when approved, will be applied to all courses for a given semester. Students are not permitted to withdraw from individual courses for medical reasons.

Withdrawal Process

A student who wants to withdraw from the university after classes have started for the semester initiates the process with the Office of Student Affairs to indicate the withdrawal. The official date of withdrawal is the date the student contacted the Office of Student Affairs OR the midpoint of the semester if the student leaves without notifying the institution OR the student's last date of attendance at a documented academically related activity. This policy applies to students who withdraw from all of their classes for the semester or are suspended.

Students who participate in activities on campus prior to the first day of classes and then submit written notice of withdrawal prior to the first day of classes shall be assessed an early withdrawal fee of \$150.

The charges for tuition, fees, room and meal plan assessed to the student are based on the number of calendar days (including Saturday and Sunday) that the student is enrolled on campus in direct proportion to the period of enrollment (number of

calendar days in the semester). The student who withdraws after 60 percent of the enrollment period will be charged for the whole semester and will be eligible for financial aid based on the semester costs.

Leave of Absence (LOA) Policy

A Leave of Absence (LOA) is a temporary interruption in a student's program of study at the University of Mount Union. There is a reasonable expectation that the student will return from the leave. LOA refers to the specific time period during a program when a student is not in attendance but remains an active student at the University of Mount Union. It does not refer to non-attendance for a scheduled break in a student's program, nor is it meant to include situations addressed by course incompletes. Students may not use the LOA policy to take courses at another institution for transfer credit or approved transient work. Prior approval and exceptions may be granted to students using the LOA policy to attend a non-credit bearing program that is deemed beneficial to the student's overall academic studies. International students are not permitted to take any form of LOA from the University.

The University of Mount Union grants a Leave of Absence for up to one full semester within an academic year (excluding Summer terms) to a matriculated undergraduate student in good standing. The Office of the University Registrar will provide an application which must be completed and signed during the mandatory exit interview with the Dean of Students of the University. The signature of the University Registrar or representative, the signature of the Director of Student Financial Services or representative, the signature of the Dean of Students or representative, the signature of the Associate Dean of Academic Affairs, and the signature of the student's advisor indicates approval of the LOA, which becomes effective on the date listed on the LOA form. Documentation submitted with the application for a LOA may be required for approval. The reentry date will be indicated on the LOA form. Please note that while the University may grant up to a full semester of LOA, any period exceeding 180 days may result in a change to the student's financial aid status. Students should consult with financial aid prior to taking a LOA from the University.

LOA will be granted only before the official Drop/Add period has ended during the semester for which the student is registered. Once a term/semester begins, a LOA will only be granted to those with extenuating circumstances and students must submit supporting documentation along with the LOA form. Students who are denied a LOA once the term/semester begins will be treated as a withdrawal for financial aid recalculation purposes. Students who do not return from an approved LOA on the reentry date indicated will be retroactively withdrawn from the University. Students may apply for an extension on an approved LOA as long as the total LOA sum of days does not exceed one full semester within an academic year (excluding Summer terms).

Students applying for a LOA, and who owe an outstanding balance to the University, must clear the debt before returning from the LOA. Students approved for a LOA will be subject to the same policies governing an outstanding balance as a student who is seeking readmission to the University. Any student considering requesting a LOA that received financial aid, should consult with the Student Financial Aid Office to determine how their financial aid will be affected. Students who take an official Leave of Absence (LOA) will be considered an official withdrawal for financial aid purposes. Federal regulations require that the Office of Financial Aid calculate a Return of Title IV for LOA cases.

Admission to Class

No student is permitted to attend any class section unless they are officially registered for that class section. A student is considered registered only if their name appears on the official class list. A student will receive neither credit nor a grade in a course for which they were not officially enrolled.

Auditor

Subject to space availability and permission of the instructor, a student may enroll in any class as an auditor. Deadlines and procedures for enrolling as an auditor are the same as for credit registration; however, the registration form must be noted appropriately to designate audit. After the third week of a semester, a student may not change from audit to credit or from credit to audit. The fee for auditing a class is one-half the per-semester hour rate assessed for credit courses. Private music lessons and ensembles are not available for audit.

Attendance Discrepancies at the Start of the Semester

During the first week of classes, faculty are asked by the University Registrar to report any students not attending class who are on the class list and any students who are attending but are not on the class list.

- Any students who are notified that they are on a class list but are not attending the class must either immediately start attending the class, or they must withdraw from the class.
- Any student attending a class who is notified that they are not on the class list must immediately register and meet any financial obligations for that course, or the student will not be permitted to attend the class.

Class Attendance and Participation

Since there has been significant mutual commitment, by both students and faculty, to the academic process at Mount Union, it is expected that each student will attend and participate during all class and laboratory sessions for which the student is registered. A student who must be absent from a class for any reason should contact the faculty member prior to the absence if possible or, in the case of an emergency, as soon as possible thereafter in order to make arrangements to secure and/or make up

missed assignments. Repeated absence can and probably will affect a student's final grade and, if not excused by the instructor, may subject the student to possible suspension or dismissal from the University. Students who stop attending a class and fail to formally withdraw will receive an "F" grade for the course.

A student who is required to miss class for health reasons is required to contact the Health Center for either treatment, release or referral. The medical staff will determine the seriousness of health problems and inform the dean of students when absence is legitimate; however, in all cases, the student is responsible to notify the faculty member and make up missed class work. In cases of prolonged illness or off-campus emergency, the student must notify the dean of students who will verify the circumstances and issue excuses when warranted.

Field trips and other academic off-campus activities, organized and supervised by faculty to support regular course work, are encouraged within the limits of reasonable time spent away from campus. A student may not be required to participate in a field trip which will necessitate missing other scheduled classes. A student who participates in a University-sponsored field trip does so voluntarily and is responsible to arrange for make-up for any class missed as a result of field trip participation. Plans for a field trip which will necessitate participating students being absent from other classes must be cleared with the Vice President for Academic Affairs prior to such event.

Organized student activities and intercollegiate athletics may, as a consequence of external scheduling exigencies, interfere with regularly scheduled classes. It is expected that a participant in these activities will confer with their advisor and carefully evaluate course requirements when registering for classes each semester; conflicts of time and course workload may be cause for alternate course selection. Coaches and activity advisors are expected to explain activity schedules carefully and as early as possible; however, the student is responsible for arranging to miss classes and making up all work. In the event of a conflict between two field trips or extracurricular activities, the student reserves the right to choose, without penalty imposed by either activity director, which activity the student wishes to pursue.

Because absence detracts in different degrees from various learning and class participation expectations, only the course instructor or the Vice President for Academic Affairs may excuse a student from class. However, to avoid confusion, each individual instructor is expected to establish and explain in writing their attendance policy for each class at the beginning of each semester; such attendance policy should be coordinated with the class schedule/syllabus, the campus calendar and institutional priorities. Attendance conflicts will be resolved by the Vice President for Academic Affairs who may confer with all parties involved. Absences resulting from bona fide emergencies, if verified, may be excused by the Vice President for Academic Affairs, and work missed may be made up. Prolonged absence for any reason may result in withdrawal, a grade of "I" (incomplete), or "F" (failure) depending on the nature of the course work missed and the circumstances of the absence.

Final Examinations

Final examinations will be conducted at the conclusion of each academic term during the period designated in the academic calendar. A final examination schedule, specifying days and times for courses, will be established and published each semester by the University Registrar. Courses that end at the mid-point of the semester will conduct final exams on the published half term exam day in the 8th week of classes. All final examinations must be conducted according to the schedule. A student may not take an examination at other than the designated time without petitioning and being granted permission to do so by the Academic Policies Committee, or, in case of emergency, the Vice President for Academic Affairs.

In addition to petitioning for personal reasons, a student scheduled for three consecutive examinations in a 24-hour period may petition for a change of time of one of the three examinations. All three exams must start and end within a 24-hour period. When this criterion is met, the University Registrar will have the authority to examine and approve the petition.

No petitions requesting examination time changes will be accepted after the twelfth week of a semester.

If the student cannot be present for an examination, it is the student's responsibility to advise the faculty member. Unless extenuating circumstances exist, a grade of "F" will be assigned for any missed examination. Cases involving extenuating circumstances must be reviewed by the Vice President for Academic Affairs, the department chairman and the faculty member and usually will result in the assignment of a grade of "I" (incomplete).

Call to Active Military Service

The University of Mount Union will assist students who are called to active military duty on a case-by-case basis. A student must present their duty orders to the Dean of Students. The date of deployment, as well as the judgment of University personnel/faculty, will determine the options that are available to each student. The student must consult with Academic Affairs and Student Financial Services to make appropriate arrangements for leaving and eventually returning to the campus.

Readmission for Students Returning After a Break in Enrollment

A Mount Union student whose attendance at the University is interrupted, either by suspension or by withdrawal for any reason, must apply for readmission with the Office of the University Registrar and be approved for readmission by the Assistant Academic Dean or Academic Affairs designee in order to resume academic work at Mount Union. An extended absence may result in reassessment and/or adjustment of degree requirements. A student who has attended any other institutions since leaving Mount Union will have to submit transcripts from each school attended before being considered for readmission.

Attending another institution as a transient student or as part of a Study Abroad program is not considered a 'break in enrollment.'

Special Educational Opportunities

Honors Program: The Honors Program provides academic opportunities and challenges for the motivated student who desires to work more in-depth with highly engaged peers and to work more independently than would be usual in a regular course. The aim is to encourage intellectual curiosity, initiative, creativity, experiential learning and a high standard of performance.

Two Honors programs are available: University Honors and Honors in the Major. A qualified student may participate in either or both programs and may discontinue honors study without penalty. Students beginning in University Honors and electing to discontinue honors study will transition to the standard Integrative Core. Cases of academic dishonesty may result in the student forfeiting any honors designation.

The Subcommittee on Advanced Placement and Honors serves as the agency for matters of policy, for coordination of the Honors Program, for overseeing standards and for carrying on a continuing evaluation of the program. The Honors Review Board considers proposals for honors projects and theses in both the Honors in the Major and University Honors programs. For more information about these programs, consult the University of Mount Union portal, iRaider.

University Honors: The University Honors Curriculum fulfills a student's Integrative Core requirements and includes a first year seminar (fall of first year), three Honors Foundations courses plus an elective in the fourth Foundation area (first and second years), an Honors Explorations, which comprises one Honors Explorations course plus an Explorations project to be completed in conjunction with an upper-level course of the student's choosing (junior year), and an Honors Capstone (senior year). University Honors students must fulfill the university world language and mathematics proficiency requirements, as well as successfully complete a Second Year WOC portfolio.

Eligibility is limited to students with an ACT score of at least 27 or SAT-1 score of at least 1220 and either a minimum grade point average of 3.5 or a high school rank in the top 15 percent of their class, or permission of the Honors Review Board. In order to remain in good standing in the University Honors program, students must maintain a cumulative GPA of 3.5 and earn an H grade in honors coursework. To receive an H grade in an honors course, students must earn at least a B+. (Students must earn an S in HON 350 and a minimum of a B+ in the associated course.) Honors courses may not be repeated for change of grade. Students may earn a B or B- in a maximum of one honors course and continue in the University Honors program, as long as they meet the GPA requirement. If students fall below a cumulative 3.5 GPA, they will be granted one semester to raise it to the standard. If students fall below a cumulative 3.5 GPA for a second consecutive semester, they will be dismissed from the honors program. Appeals may be made to the Director(s) of the Honors Program and subsequently to the Honors Subcommittee. See University Honors Curriculum for further details.

Honors in the Major: The Honors in the Major Program offers the opportunity for intensive, individual study in an area of concentration. Although the nature of the honors work will vary, it should involve intellectual creativity and may take such forms as research, investigation, or artistic effort. The student initiates and plans the honors project and works closely with one or more faculty members in carrying it out. At the conclusion of the study, superior accomplishment should be demonstrated in some appropriate way.

Students are eligible to apply to the Honors in the Major program if they have at least a 3.50 grade point average overall or meet the GPA requirements for a departmental honors society. For graduation with Honors in the Major, a student must either have at least a 3.50 grade point average both overall and in the major or meet the GPA requirements for their departmental honors society.

The Honors in the Major program has two options, determined by the participating departments. Students must submit an application to be approved for Honors in the Major. The application for the Honors in the Major Program can be found on the portal.

Option 1: Students will complete an Honors in the Major project in three courses, totaling 12 semester hours, at least two of which must be 300-level or above. Students must earn at least a B+ in the course to earn Honors in the Major credit. Project proposals are due to the honors director(s) by the end of the third week of class. They must be approved by the instructor, the departmental liaison and the honors director(s). The honors project is done in addition to the normal course assignments and does not directly affect the course grade. Honors in the Major Project Proposal forms can be found on the portal. Because of the significantly higher expectations of honors work, students are limited to a total of two honors courses per semester.

Option 2: Students will complete an Honors Thesis in the major (minimum 4 sem. hours). Students must earn a B+ or higher for the thesis to receive honors credit. Proposals for an Honors Thesis are due by the end of the 12th week of the semester prior to proposed thesis project.

To receive designation as Honors in the Major, students must submit a report about their projects or thesis to the Honors Director(s). The report will include a description of the projects or thesis, as well as reflection on challenges and benefits of the work, an explanation of how it relates to their overall educational experience within their major, and how the Honors work may relate to their broader vocational plans. The report will be reviewed by the Honors Director(s) and Honors Subcommittee. The report form can be found on the portal.

Students who, in the opinion of the department chair and the Honors Review Board, have met these requirements will be graduated with "Honors in _____," the major being specified in which credit for honors work is earned. Special recognition will be given on graduation day for students who earn Honors in the Major.

Independent Study

Independent studies provide a student with the opportunity for intensive effort in a specific area of study not normally offered by a department. A student who undertakes an independent study should express a willingness to go beyond standard course offerings into an area of special interest to that student. Therefore, the independent study does not duplicate a course regularly offered by a department or contained in a department's list of courses listed elsewhere in this Catalog.

English as a Second Language Program

Mount Union offers courses targeted to improve oral and written English language skills. English as a Second Language courses are available to any non-native speaker of English through the Department of World Languages and Cultures. These courses may be required for those students who need to improve their English language proficiency in order to meet the demands of academic work at the University. In addition, international students are encouraged to select from English as a Second Language courses in content areas, such as literature or film, which are designed to promote fluency with American culture and facilitate cultural adjustment. For further information, students may contact the director of the English as a Second Language Program in the Department of World Languages and Cultures.

Latin Honors

The following awards are made for superior work. Latin honors are based on Mount Union Grade Point Average (GPA), which includes study abroad coursework and transient, not transfer, credit as approved by Mount Union. Undergraduate students must have earned at least 60 hours from the University to be eligible for Latin Honors at graduation.

- *Cum Laude* – grade point averages in the range 3.550 through 3.749.
- *Magna Cum Laude* – grade point averages in the range 3.750 through 3.899.
- *Summa Cum Laude* – grade point averages in the range above 3.899.

Experiential Learning

Experiential learning at the University of Mount Union provides students opportunities to acquire practical knowledge and skills from direct experiences outside a traditional classroom or laboratory setting. Experiential learning can include service-learning, internships, study abroad, co-operative education, independent research and co-curricular activities. Co-curricular activities may include community service, alternative break trips, philanthropic outreach, student organizations and leadership.

Opportunities for experiential learning will:

- Synthesize theory and skills for practical application.
- Encourage students to take initiative, make decisions, and be accountable for their successes and failures.
- Develop an appreciation of the demands and challenges of our local community or global society through civic and cultural engagement.
- Be a structured activity, which includes learning goals, observation, supervision, reflection, evaluation and assessment.

Internships

The internship program offers students' academic courses designed to provide practical field experience in the major area of concentration. These courses are designed and implemented under the immediate and continuing supervision of a faculty member who, with the student and site supervisor (usually a service or commercial institution manager), will determine learning objectives, background reading, particular experiences in the field and patterns of evaluation of the learning accrued. The amount of credit awarded for a particular internship is determined by the student's major department. In some cases, regular courses also may be taken concurrently. Students enrolled in an internship pay normal tuition and fee charges to the University. All internships are graded "S/U". Generally, internships are offered primarily to seniors, but arrangements vary according to departmental programs.

Characteristics of an academic internship

- Is generally a one-time experience at a specific work site.
- May be part-time or full-time.
- May be paid or non-paid.
- Is part of an educational program that provides careful monitoring and evaluation for academic credit.
- Contains an intentional "learning agenda" structured into the experience. This is an important element that distinguishes an internship from a short-term job or volunteer work.
- Includes learning objectives, observation, reflection, evaluation and assessment, which are learning activities common to most internships.
- Establishes a reasonable balance between the intern's learning goals and the specific work an organization needs done.
- Promotes academic, career and/or personal development.

- Provides a maximum of 16 semester credits during a student's entire career at the University of Mount Union.
- Graded on S/U basis.

(Parts adapted from materials published by the National Society for Experiential Education.)

Arranging an internship

- Step 1: Student advisor or department internship coordinator is contacted by the student.
- Step 2: Appropriate paperwork such as the learning contract/agreement and the student agreement is completed by appropriate parties. This paperwork must be completed before the commencement of the actual internship. Contract prototype is to be periodically reviewed by the Mount Union Human Resources Department. If the internship contract is changed in a substantive manner, it must be reviewed by the UMU Human Resources Department.
- Step 3: Student completes internship and submits departmental requirements as assigned.
- Step 4: Faculty supervisor completes all appropriate paperwork and submits grade.

Faculty oversight/supervision during internship

Faculty supervision of the intern during the internship will include the following:

- Maintain all paperwork to include the learning contract with learning objectives that are in line with the internship site requirements, student agreement, and other departmental paperwork as required.
- Collect and review weekly log/reflection journals from the student and provide appropriate feedback.
- Conduct one physical site visit if the internship site is within the greater Alliance area within 30 miles of the University of Mount Union. If outside the 30 mile radius, conduct visit via phone conversation, email, or Skype contact with the intern/site supervisor.
- Collect appropriate internship evaluations from the site supervisor and the student evaluation form.
- Complete grading requirements and submit grade.

International Education

Study abroad is a vital component of the international education experience of Mount Union students. Such study in a foreign country can be an extraordinary educational and personal experience. Those Mount Union students who undertake such study are directly exposed to new cultural experiences, which, in turn, open up fresh perspectives on international, political, economic, and social issues, as well as interpersonal relationships, and, perhaps, career choices.

The faculty director of the Center for Global Education and the University Registrar can help interested students plan and implement comprehensive educational opportunities which will blend the student's academic-career interests with the overall objectives of Mount Union.

In recent years the University has encouraged student overseas study in Germany, France, Spain, Mexico, Japan, Australia, England, Costa Rica, Russia and Italy. In all instances, Mount Union students are directed to highly selective foreign study programs. Some of these are conducted totally in English; others require varying degrees of fluency in the language of the host country and institution. Appropriate course credits earned overseas transfer to the Mount Union transcript.

A minimum G.P.A. of 2.5 is required for participation in most of Mount Union's study abroad programs. Certain programs require a minimum of 3.00 and others a 3.33.

In a limited fashion, the financial aid a student receives from Mount Union may transfer elsewhere and be used to meet the costs of study abroad. The University does this to make overseas study both feasible and attractive, as well as to give deeper meaning to its commitment to international education.

Study at Other Accredited Colleges and Universities as a Transient Student

Regular students currently enrolled at the University of Mount Union may register at other regionally accredited institutions as transient students during either semester of the academic year or for a summer session. All courses requested for transient credit must be approved by the University Registrar and are subject to the rules and regulations applicable to work completed at the University of Mount Union. Students who are on academic probation are permitted to take transient work at another institution without additional approval. However, if a student has a cumulative grade point average of less than 1.00, the student must get additional approval from the Assistant Academic Dean.

A University of Mount Union student seeking to enroll as a transient student at another regionally accredited institution in order to earn degree-applicable credit for their University of Mount Union academic program, must obtain written approval to do so from the student's advisor and the Office of the University Registrar prior to enrollment at the other institution. Such approval will include determination of transfer credit equivalency. Departmental approval of transient courses is required if course work is being pursued to satisfy major or minor requirements or if course work is within the last 32 hours before graduation.

Approval must be obtained for each semester or session of transient attendance at another institution. Grades earned for course work pursued as a transient student at another institution will be included when the Mount Union student's grade point

average is calculated. The University of Mount Union approval to take transient work does not guarantee that the student will be admitted to take course work by the other institution. Once students have completed approved transient coursework, they must submit an official transcript of the work to the Office of the University Registrar no later than the end of the following full semester of enrollment at the University of Mount Union. Official transcripts of transient work received after the end of the first full semester of enrollment at the University after the approved transient work is completed, may not be accepted as transient work and will be recorded as transfer work on the student's official University of Mount Union transcript.

Students who wish to repeat a University of Mount Union course for change of grade may not take the course as a transient student at another institution. The course must be repeated at the University of Mount Union.

However, students who wish to repeat a University of Mount Union course for change of grade may do so at another institution as a transient student in special and extenuating circumstances. The approval of transient courses for repeat for change of grade is to be made in cases in which a student needs such course to effectively progress through the student's major or in extenuating circumstances. The student must obtain written approval from the Chair of the offering department at Mount Union and the University Registrar prior to enrollment at the institution. Such requests shall be submitted before the end of the semester and include the basis for the request.

Advanced Placement

Mount Union encourages the taking of advanced placement courses. In some cases, the University may award credit. In other cases, the University may waive certain prerequisites or University requirements. Factors considered in granting advanced placement include high school records, scores on University Board Examinations or similar tests, scores and school reports on University Board Advanced Placement program, CLEP examinations, and tests devised and administered by departments within the University.

Students who have completed regular accredited University courses while in high school may, by having a copy of their transcript sent from that University, be awarded credit, according to University policy. General conditions of transferring credit also apply here. These courses may not be included as part of the units required for high school graduation unless they are taken under the auspice of the Postsecondary Enrollment Option. Further information on the Advanced Placement Program may be obtained from the Office of Admission.

Entering students are required to take certain tests at the time of entrance to the University and are encouraged to take placement tests in applicable areas in order that they may begin course work at the proper level.

Postsecondary (College Credit Plus) Attendance

While attending as a postsecondary student, each high school student attending Mount Union will receive grades and have a grade point average just like any other student attending the University.

Senior Citizen Enrollment

Any person 60 years of age or older may, subject to permission of the instructor and space availability, attend any class offered by Mount Union. Such attendance will be on a non-credit basis, and no certification of attendance will be available. A technology fee will be charged. Detailed information about this program is available in the Office of the University Registrar.

Summer Study

Since 1870 Mount Union has offered a summer term each year. A broad cross-section of courses is offered, taught by members of the University faculty. Two summer sessions are available. The summer school serves a two-fold purpose. It allows students an opportunity to accelerate their progress toward graduation. It also offers opportunities for persons with specific interests to attend the University for shorter periods of time.

During the summer terms, the classes are longer and meet more frequently than during a regular term. The evening classes typically meet two nights a week and day classes may be held every day. During a three-week session, students are permitted to enroll in only one class. Several classes may be selected during the longer sessions. Specific information concerning the summer school schedule and tuition may be obtained from the Office of the University Registrar.

English Proficiency

Students displaying substandard ability to communicate in writing may be referred by a faculty member to the Department of English and/or to the Digital, Written, and Oral Communication Studio. Failure to achieve a satisfactory level of written expression may, in an extreme case, be the cause for academic suspension or dismissal from the University.

General Education

The Integrative Core

The mission of the University of Mount Union is to prepare students for fulfilling lives, meaningful work, and responsible citizenship. To accomplish this mission the University draws upon its roots in an historic understanding of the liberal arts. A liberal arts education provides students with a broad base of knowledge in addition to training in a specific field of study. At its heart, a liberal arts course of study does not teach a single point of view but equips and empowers students to form their own conclusions based on critical reasoning. This tradition of learning informs the Integrative Core.

The Integrative Core is a distinctive program designed to prepare students to meet the challenges of the 21st century world. It provides a framework for them to experience and shape a coherent and transformative education, grounded in the liberal arts. It is no longer true that graduates can expect to interact with the same demographic group and hold one job in the same discipline for their entire career. Integrative and synthetic thinking are more and more important for people to succeed personally and professionally in an increasingly interconnected world, in which cultures interact, technology changes rapidly, and the workplace is fluid. The Integrative Core guides students through developing the ability to think across and within different disciplines, contexts, and cultures.

The Integrative Core follows a student development model that introduces students to essential academic skills and knowledge in the initial years, guides them through increasingly complex thinking and problem-solving in the middle years, and requires them to apply their knowledge and skills to address complex issues in the final years. The Integrative Core has four components, each of which builds on the previous level and prepares students for the next.

The First Year Seminar (4 semester hours) is a topic-oriented course designed to assist students in making the academic and personal transition to higher education and launch them on their journeys through liberal education in a small, interactive class. It introduces and develops core abilities such as critical reading, thinking, argumentation and the written and oral communication skills needed to convey these ideas to appropriate audiences. Students must complete this course within their first two semesters.

Foundations (16 semester hours) courses engage students in the quest for knowledge as embodied by the particular perspectives comprising the liberal arts and sciences: Humanities, Fine Arts, Natural Sciences, and Social Sciences. The courses focus on three core ideas: What questions does this perspective ask about the world? How does it go about answering them? Why is this perspective important? They equip students with different lenses through which to understand, analyze, and appreciate the world around them. Students take at least one course in each Foundation category. Foundation courses are identified with the appropriate suffix: H for Humanities, A for Fine Arts, N for Natural Science, S for Social Science.

Explorations (8 semester hours) are a pair of courses at the intermediate to upper-level (typically 200-300) that align with Mount Union's mission to prepare students for fulfilling lives, meaningful work, and responsible citizenship. Specifically, the courses engage students in self-reflection about how they evaluate and apply knowledge (looking inward) and their place in a diverse world (looking outward). These courses will also help students develop more sophisticated written and oral communication skills, employ advanced critical thinking, encourage complex problem solving, and acquire cultural knowledge that is essential for contributing to society. Students must complete one course in each category: (1) Diversity and Global Learning and (2) Values and Reasoning. Prerequisites: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may be earned for a course only if this Explorations prerequisite is completed prior to the commencement of the course. Students may "double-count" an Explorations course to meet a major or minor requirement. However, a student cannot count both Explorations courses towards the same major or minor. Explorations courses are identified with the appropriate suffix: G for Diversity and Global Learning, V for Values and Reasoning.

The Senior Capstone (4 semester hours) builds on the Explorations by moving the students from faculty-guided synthesis to student-led integration. Students from different disciplines will collaborate to address a complex issue or problem. This course prepares students for dealing with the types of ambiguous, multi-faceted problems that they will face throughout their lives and careers equipping them with resources to address such issues, especially the ability to work collaboratively across disciplines and to negotiate competing interests and worldviews. Capstone Prerequisites: Successful completion of the Second Year Written and Oral Communication (WOC) Portfolio, and all other Integrative Core requirements.

Written and Oral Communication is integrated into all Integrative Core courses, and the successful completion of the Second Year WOC Portfolio is required.

Students may satisfy no more than two Integrative Core Foundations requirements with transfer credit (AP, CLEP, IB, post-secondary, dual-credit, transient, etc.).

Second Year Written and Oral Communication (WOC) Portfolio

The Integrative Core is designed to help students develop skills in written and oral communication throughout their academic careers at Mount Union. Each part of the IC contains a written and oral communication component, with more sophisticated and challenging requirements as students' progress through the IC. In order to make sure that the development of

communication skills is on the right track, successful completion of the IC requires successful completion of a *Second Year Written and Oral Communication (WOC) Portfolio*. Students will upload samples of written work and videos of oral communication assignments to an electronic portfolio. A team of faculty members will evaluate the portfolios to ensure that each student has met the high standards needed for communication needs at the junior and senior years. A student must be able to perform at a level commensurate with end-of-second-year students. Students are expected to submit a Second Year WOC Portfolio by the end of their 4th semester. The portfolio must be completed successfully prior to enrollment in the IC Capstone.

Details of the Second Year WOC Portfolio

Students will select materials from the many assignments completed in Integrative Core courses from the First Year Seminar through all four Foundations (H, A, N and S). Materials from other courses are not typically permitted. Required contents:

- **Written Communication Portion:** Two pieces of written communication (at least one that effectively integrates and cites sources) that reflect the elements listed in the WOC Rubrics.
- **Oral Communication Portion:** Two pieces of videotaped oral communication (at least one that effectively integrates and cites sources) that reflect the elements listed in the WOC Rubrics (multimedia use is optional).

In addition, students will submit three other documents to complete the portfolio:

- Students will write and submit a cover letter that explains the context in which the submitted pieces were produced. The cover letter should guide faculty scorers to see how the portfolio as a whole showcases the student's best efforts in WOC to date.
- Students will sign and submit a Statement of Authenticity, testifying that all submitted pieces are of the student's own creation.
- Students will sign and submit an Informed Consent Form, which gives students the opportunity to give the University permission to use selected materials for assessment, research, and scholarly purposes pertaining to WOC in the Integrative Core.

No more than two pieces in the portfolio may come from the same class or Foundation area. Students typically will be expected to submit work from at least three different types of classes. Students may revise work from their IC classes before submitting it to the Second Year WOC Portfolio. Stipulations for revising work are described on the Second Year WOC Portfolio website.

Students will select pieces on their own, write the cover letter, and submit the portfolio; this is not to be a requirement attached to any course. The Second Year WOC Portfolio is due by 4 p.m. on the last day of finals each semester. No late portfolios will be accepted.

Transfer Students' WOC Portfolio Requirements

At the time of initial matriculation, transfer students who enter the University with 48 or more earned credit hours are expected to complete the Second Year WOC Portfolio (or equivalent) within one semester at the University of Mount Union. Transfer students who enter the University with 32-47 earned credit hours are expected to complete the Second Year WOC Portfolio (or equivalent) within two semesters; transfer students who enter the University with 17-31 earned credit hours are expected to complete the Second Year WOC Portfolio (or equivalent) within three semesters; and transfer students who enter the University with 1-16 earned credit hours are expected to complete the Second Year WOC Portfolio (or equivalent) within four semesters at the University of Mount Union. FYS 100/105 will be waived for all transfer students; however, transfer students must take either TRF 100 or TRF 200 in lieu of FYS 100/105. Transfer student must complete TRF 100 or TRF 200 within their first semester. Transfer students who are transferring in at least 48 credit hours or an Associate's Degree, may fulfill all Foundations courses with approved transfer credit for those courses.

Evaluation of the WOC Portfolio

Each portfolio will be read by two faculty members trained to assess students' WOC work using the WOC Rubrics identified on the Second Year WOC Portfolio, available online on the WOC website. Students will be expected to show a minimum proficiency level of 2 on the rubrics in written communication and in oral communication. There are two possible results:

- **Pass:** The student scores satisfactory on the written and oral portion of the portfolio, showing an appropriate level of proficiency in communication at that point in their academic careers. These students will have completed their Second Year WOC Portfolio requirement and they will continue developing their WOC abilities in Explorations, major courses and electives, and then the Capstone. This will be shown as an "S" on the student's transcript under WOC 010 for the written communication portion and WOC 020 for the oral communication portion.
- **Fail:** The student scores an "NG" on either or both parts of the portfolio. Students in this category have not shown an appropriate level of proficiency in communication at this stage and the portfolio results will be a signal to the student that they need to devote more attention to developing further abilities in communication. This will be shown as an "NG" on the student's transcript under WOC 010 for the written communication portion and WOC 020 for the oral communication portion. Students who do not pass will have two options:

Option 1: Revise and Resubmit:

Talk with IC Office and submit a revised portfolio during the next semester for evaluation. This option would be good for the student who indicates ability and motivation enough to submit a better, more thoughtful portfolio. If the student's portfolio does not pass this time, then the student would have to complete Option 2 to complete the Second Year WOC Portfolio requirement.

Option 2: Successfully Complete a Course or Courses in Revising:

If the student did not successfully complete the written portion of the portfolio, the student would agree to take a 2-credit class the next semester on revising written work, WOC 200. If the student did not successfully complete the oral portion of the portfolio, the student would agree to take a 2-credit class on revising oral communication work, WOC 201. If the student failed both parts of the portfolio, the student would agree to take both 2-credit classes. A revised portfolio would be submitted as the final project in the course and it must pass in order to pass the class with an "S." If the portfolio did not pass, the student would receive a "U" for the class and would have to repeat the course until completed successfully; successful completion of the class is a prerequisite for enrolling in the IC Capstone.

Failure to Submit the WOC Portfolio

If the student did not submit their WOC portfolio by the end of their 4th semester, the student may be required to complete option 2 as soon as the next academic semester based on the IC office scheduling.

Integrative Core General Course Information

Course Numbering System

The curriculum of the University of Mount Union is designed to cultivate the intellectual development of students so when they graduate, they meet the University's mission statement of leading fulfilling lives, finding meaningful work, and developing responsible citizenship. The University of Mount Union uses a course numbering system that differentiates between undergraduate, graduate, lower-division, and upper-division courses. Each course number begins with a three character, alpha prefix and ends with a three-digit numeric course level designation. The differential of undergraduate and graduate courses shall be as follows:

- Undergraduate courses include all 100 – 400 level prefixes.
- Lower-division courses include all 100-level and 200-level prefixes.
- Upper-division courses include all 300-level and 400-level prefixes.
- Graduate courses include all 500 – 700 level prefixes.

100-Level Courses. 100-Level courses do not require prerequisites, are first year entry-level courses in a discipline, or a survey of a given subject/discipline. It is expected students entering these courses will have limited or no prior knowledge of the subject. These courses will emphasize the acquisition of basic/introductory knowledge, comprehension, and/or basic skills.

200-Level Courses. 200-Level general expect 100-level course prerequisites, have a narrower focus of a body of knowledge, or a survey courses on areas of study within a discipline. It is expected students entering these courses are at an intermediate college level difficulty above an introductory level. These courses will emphasize knowledge gaining, comprehension, and skill development at an intermediate level; developing students to progress toward developing significant conclusions.

300-Level Courses. 300-Level courses generally expect 200-level course prerequisites, requiring integration of multiple fields, or courses focusing on specific areas within a discipline. It is expected students entering these courses understand the courses are at an advanced college level difficulty above an intermediate level. These courses will emphasize application, analysis, synthesis, and evaluation of data or knowledge. Students will develop the intellectual ability and capacity to deal with abstract concepts and describe research in cohesive statements.

400-Level Courses. 400-Level courses generally expect 300-level course prerequisites, culminating in nature, or seminar courses intended for upper level students. It is expected students entering these courses understand the courses are at an advanced college level difficulty and are culminating. These courses will emphasize extensive reading, analysis, and research. Students will develop advanced analytical and reasoning skills and be able to integrate concepts and ideas across course work with current literature in the field.

500-Level Courses. 500-Level courses are designed for first year graduate students. These courses are not available for undergraduate credit.

600-Level Courses. 600-Level courses generally require 500-level prerequisites and involve clinical course work, graduate seminars, or capstone culminating courses. These courses are not available for undergraduate credit.

700-Level Courses. 700-Level courses generally require 600-level prerequisites and involve graduate seminars or upper-level clinical course work. These courses are not available for undergraduate credit.

Foundation Course Descriptions

Descriptions of the courses in the departmental curricula are detailed in this catalog. Each course is identified by a three-letter discipline code and a three-digit number followed by the course title. Suffixes following the course number indicate that the course meets a Foundation requirement for the Integrative Core, and will emphasize the development of written and oral communication skills, and will introduce students to the basic approaches of each area as a means of understanding the world:

H	Humanities
A	Fine Arts
N	Natural Science
S	Social Science

The semester hours of credit given for satisfactory completion of the course follow the course description. Some courses are offered more frequently than others. The current Schedule of Classes should be consulted in order to determine when the courses are taught.

Explorations

See General Education: The Integrative Core for a full description of requirements for Explorations prerequisites or visit the University of Mount Union website for information regarding Explorations and courses included in each of the categories.

Explorations: Diversity and Global Learning We live in an increasingly diverse world. Exposure to diverse populations and cultures challenges us to address and overcome cultural barriers, better refine our perspective on cultural difference, and have a better sense of our own cultural identity (AAC&U). Courses in the Explorations: Diversity and Global Learning category will enable students to engage multiple perspectives of cultures and identities, reflect on their own cultural self-understanding, and develop empathy across human difference, making them better global citizens.

Explorations: Values and Reasoning Throughout our lives we develop a set of values, ethical perspectives, and approaches to reasoning. These values, perspectives, and approaches shape how we perceive what is true, what is real, and how we make judgments. Courses in the Explorations: Values and Reasoning category will help students understand how processes of reasoning and value systems are developed and applied to complex situations, as well as the implications of thinking and acting a certain way (e.g., ethics, morality, the integration of technology into our work and life, ecological ethics and sustainability, social responsibility).

Majors, Minors, and Concentrations by College

THE COLLEGE OF APPLIED AND SOCIAL SCIENCES

The College of Applied and Social Sciences brings together a network of scholars, practitioners, and teachers committed to the transformational work of application of scholarship to improve social welfare, communities, and the people who are served by them. Students in the college collaborate to develop case studies, engage in fieldwork, learn both how to apply expert knowledge, teach, and communicate evidence. Working with stakeholders, students identify and solve problems, master technology, reform managerial structures and organizational systems, and drive social change in the various fields of study represented by the College of Applied and Social Sciences.

Students are provided with research opportunities, international experiences, off-campus internships, and student teaching, all within the solid liberal arts foundation that is the hallmark of a Mount Union education. The College of Applied and Social Sciences serves the largest number of students at the University – diverse students at both the graduate and undergraduate levels, and both on campus and off (via online learning). The faculty of the college are involved in the analysis, implementation, and communication of quantitative and qualitative research addressing complex environmental, structural, and social phenomena. Graduates of the college are qualified to work as researchers and data analysts in a range of careers, including business, marketing, and finance; teacher education; local and state government; project evaluation and consulting; engineering and social services.

The College of Applied and Social Sciences seeks to foster an intellectual culture with interest in communities around the globe; maintain the highest standards of professional practice, including national accreditation and/or state board approval for programs where appropriate; and promote collaborative interdisciplinary and community partnerships for reciprocal impact. Departments included in the College of Applied and Social Sciences are: Communication, Computer Science, Business, Education, School of Engineering, Mathematics, Political Science and International Studies, and Sociology and Criminal Justice. The Ralph and Mary Regula Center for Public Service and Civic Engagement is housed within the College, as is WRMU, Mount Union's student-led radio station.

Department of Communication

The mission of the Department of Communication is to help students become effective communicators and critical consumers of messages thus preparing them for life as educated citizens and professionals. The Department seeks to integrate the strengths of the liberal arts tradition with the theoretical foundation and skills necessary for majors to enter the communication professions or to continue studies in graduate school. The major is designed to produce graduates who are technically proficient as well as knowledgeable and conversant in the theory, history, literature, and criticism of the field.

The department offers three majors: Communication Studies, Public Relations, and Integrated Media. The major requires 44 semester hours of study in the department. Please note that students who choose to pursue one of the majors in the Department of Communication may not also pursue other majors or minors offered by the Department of Communication.

Major in Communication Studies

The Communication Studies major is provided for students seeking a general approach to the study of communication. A wide range of subjects and theoretical perspectives are studied. Communication Majors are strongly encouraged to apply for COM499 Communication Internship. Please note that students who choose to pursue a major in Communication Studies may not also pursue other majors or minors offered by the Department of Communication.

Requirements for the Major in Communication Studies

Major in Public Relations

The Public Relations major is a creative and strategic problem-solver who utilizes all forms of communication to develop and maintain effective relationships with a variety of stakeholder audiences. Students will develop strategic and ethical communication programs, based on research, and create public relations tactics in the print, broadcast, social, and digital mediums to support their campaigns. Public Relations Majors are strongly encouraged to apply for COM499 Communication Internship. Please note that students who choose to pursue a major in Public Relations may not also pursue other majors or minors offered by the Department of Communication.

Requirements for the Minor in Communication

Required Course		Semester Hours
COM 110S	Introduction to Communication Scholarship	4
Three additional COM courses two of which must be at the 300 level or above. Working in conjunction with a department faculty member, it is possible to develop a focused minor in a specific area. For example: sports broadcasting, social media, corporate communication, communication studies, or global communication.		12
Total		16

Requirements for Honors in the Major

Students are eligible to enter the Honors Program in communication if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board (see the catalog description of the Honors Program for additional details). To earn honors in communication, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 12 semester hours. Only 4 credit hours can be taken at the 200 level. The remaining hours must be

at the 300 level or above. For permission to register for a course with honors in the major, a completed Course Application and Proposal must be filed with the director of the Honors Program by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a “B+” in the course to earn honors credit. One of the courses (4 semester hours) a student may take is COM 494 Honors Thesis/Project. For permission to register for an honors thesis/project, a completed Honors Thesis Application and Proposal must be filed with the director of the Honors Program by the end of the twelfth week of classes of the semester prior to writing the thesis. Students must earn at least a “B+” in the course to earn honors credit.

Department of Computer Science

The Department of Computer Science offers a program which gives students a broad background in the fields of the discipline while maintaining harmony with the overall mission of the University. The Mission of the Department is to prepare students to: engage in meaningful work in the computing disciplines, adapt to rapidly-changing computing technologies, and use information technology in an effective and ethical manner.

Requirements for the Major in Computer Science

Required Courses		Semester Hours
CSC 120	Programming and Problem Solving I	4
CSC 220	Programming and Problem Solving II	4
CSC 270	Computer Organization	4

Summary of Majors and Minors Allowed in the Department

1. A student with a major in Computer Science:
 - may earn a minor in Web Design
 - may not earn any other major or minor in the department
2. A student with a major in Multi-Platform Software Development:
 - may not earn any other major or minor in the department

Department of Business

Majors in Accounting, Economics, Finance, Human Resources Management, Management, Marketing, Risk Management and Insurance, and Sport Business are administered by the Department of Business.

Accounting

The accounting major is administered by the Department of Business.

Requirements for the Major in Accounting

Required Business Core Courses		Semester Hours
BUS 100	Introduction to Business	2
BUS 110	Global Business	2
BUS 130	Legal Environment of Business	2
BUS 275	Introduction to Management Information Systems	2

BUS 313	Planning for Meaningful Work	2
BUS 315	Ethical Issues in Business	2
or		
BUS/PHL 335V	Business Ethics	4
ECN 200S	Introduction to Microeconomics	4
ECN 207	Introduction to Macroeconomics I	2
BUS122	Quantitative Methods for Business	4
or		
MTH 141	Calculus I	4
MTH 123	Elementary Statistics	4
MGT 200	Management Principles	2
MKT 220	Marketing Principles	4
FIN 320	Corporate Finance I	4
BUS 496	Applied Strategy	2
ACC 205	Financial Accounting	4
ACC 207	Managerial Accounting I	2
Required Major-Specific Courses		Semester Hours
ACC 208	Managerial Accounting II	2
ACC 305	Federal Taxation I	4
ACC 310	Intermediate Accounting I	4
ACC 311	Intermediate Accounting II	4
ACC 330	Auditing	4
ACC 455	Accounting Issues and Problems (SCE)	4
Three additional accounting courses from the following:		
ACC 345	Advanced Cost Accounting	4
ACC 445	Advanced Accounting	4
ACC 450	Federal Taxation II	4
ACC 454	Seminar in Accounting	4
ACC 499	Internship in Accounting	4 min
Total		78

**A Senior Culminating Experience is required of all students. Students who major in accounting must complete ACC 455 Accounting Issues and Problems as their Senior Culminating Experience.

Preparation for Certification in Public Accounting

Requirements for becoming a Certified Public Accountant are set by the various state boards of accountancy. Currently included in Ohio's requirement are 150 semester hours with appropriate course work in accounting and business-related topics.

Accounting areas should include:

- Auditing
- Financial accounting
- Information systems
- Management accounting
- Professional ethics and responsibilities
- Taxation
- Business related subject areas should include:
 - Business ethics
 - Business organization
 - Communication skills
 - Economics
 - Group and individual behavior
 - Finance
 - Legal and social environment of business
 - Marketing
 - Quantitative applications

Students should see their accounting advisors to select courses meeting the above criteria. The following options are available to meet the current 150-semester hour requirement.

Additional Undergraduate Hours

The student may take up to 20 semester hours without overload charges during any or all of the traditional eight semesters. Additional hours may also be earned during summer sessions. The student would major in accounting and satisfy the business-oriented course requirements with a minor in business administration and selected additional course work to include the above topics.

Requirements for the Minor in Accounting

Required Accounting Courses		Semester Hours
ACC 205	Financial Accounting	4
ACC 207	Managerial Accounting I	2
ACC 208	Managerial Accounting II	2
ACC 305	Federal Taxation I	4
ACC 310	Intermediate Accounting I	4
And any one of the following		
ACC 311	Intermediate Accounting II	4
ACC 345	Advanced Cost Accounting	4
ACC 450	Federal Taxation II	4
ACC 454	Seminar in Accounting	4
Total		20

Requirements for Honors in Accounting

Courses that may be taken for honors in accounting are the following: ACC 311, ACC 330, ACC 345, ACC 445, ACC 450, ACC 454, and ACC 494.

Economics

The field of economics is a fascinating look at what makes the world work from day to day. This includes the study of trading, growth, money, income, recessions and depressions, prices, and monopoly. Economics is important in the world because it can answer questions such as What causes inflation? and Why are people unemployed? Economics includes the study of labor, land, and investments, of money, income, and production, and of taxes and government expenditures and is one of the fastest growing majors in the country. A solid background in fundamental, undergraduate economics can help the well-informed citizen understand the world's economic challenges—especially recent developments in the U.S. and Europe.

The economics major helps prepare you for jobs in business, government, education, and the non-profit sector. Studying economics, you will be able to develop the analytical skills needed to work successfully in the field. Coursework at Mount Union includes the study of microeconomics and macroeconomics, international and domestic economic issues, buyer and seller behavior, strategic decision-making, and economic performance.

Students interested in an eventual Masters or Doctorate in economics or in graduate and professional education in business, law, or public policy will find an undergraduate major in economics to be an excellent preparation. We encourage you to take as many mathematics courses as possible if you plan to do graduate work in economics.

Requirements for the Major in Economics

Required Economics Courses		Semester Hours
ECN 200S	Introduction to Microeconomics	4
ECN 207	Introduction to Macroeconomics I	2
ECN 208	Introduction to Macroeconomics II	2
ECN 360	Managerial Microeconomics	4
ECN 365	Global Macroeconomics	4
ECN 401	SCE in Economics*	1
Any four additional economics courses at the 300 or 400 level		16
Required Departmental Courses		
BUS 313	Planning for Meaningful Work	2
ACC 205	Financial Accounting	4
BUS 122	Quantitative Methods for Business	4
or

Required Extra-Departmental Courses		
MTH 123	Elementary Statistics	4

Total

47

*Note: ECN 401 SCE in Economics is to be taken in conjunction with another 300-level or 400-level ECN course. Instructor's permission should be obtained well in advance of registration for the two courses. Consultation between student, academic advisor, and instructor is expected.

Requirements for the Minor in Economics

Any two (8 credit hours) of the following		Semester Hours
ECN 105S	Introduction to Economics	4
ECN 200S	Introduction to Microeconomics	4
ECN 207	Introduction to Macroeconomics I	2
<i>and</i>		
ECN 208	Introduction to Macroeconomics II	2
Three additional ECN courses at the 300 level or above		12
Total		20

Requirements for Honors in Economics

Courses that may be taken for honors in economics are the following: ECN 310V, ECN 315, ECN 327G, ECN 330G, ECN 380, and ECN 390.

Finance

The finance major prepares students for careers in finance, including investments, financial institutions, and corporate finance. Distinctive features of the major include:

- courses that familiarize students with financial practice and theory used within modern corporations and financial institutions
- Internship opportunities for academic credit
- personalized guidance from faculty members with significant background in many areas of finance

Total		62-64

Management

The management major is designed to prepare students for a career in business in a variety of firms and career paths. It is the most broad and general of the majors in business administration offered. All students majoring in management will complete courses in operations management, human resource management, and strategy. Students then select additional courses from a

range of electives within the major to emphasize certain areas in such areas as leadership, labor, logistics, or project management. Graduates with this major are suited to positions in purchasing, supply management, sales, and retail management, and many more.

Required Major-Specific Courses		
MKT 370	Consumer Behavior	4
MKT 371	Integrated Marketing Communications	4
MKT 372	Marketing Research	4
MKT 474	Marketing Policies and Strategies (SCE)	2
And any two of the following:		
MKT 395	Digital Marketing	2
MKT 396	Personal Selling	2
MKT 499	Internship in Marketing	2 min
Total		62

Requirements for the Minor in Business Administration

Required courses		Semester Hours
ECN 105S	Introduction to Economics	4
ACC 205	Financial Accounting	4
MGT 200	Management Principles	2
MKT 220	Marketing Principles	4
FIN 320	Corporate Finance I	4
Total		18

A minor in Business Administration will not meet the university requirement for a minor for students majoring in finance, human resource management, management, marketing, economics, or Risk Management & Insurance.

Risk Management and Insurance

The Risk Management and Insurance program is designed to provide students with the practical and theoretical knowledge needed to identify and mitigate risk across all types of organizations. Building on the foundational principles of the business core, the curriculum is aligned with industry needs. Students will be exposed to a broad range of functionality in risk and insurance to prepare for a career in the profession of risk management and insurance.

Requirements for the Major in Risk Management and Insurance

Required Business Core Courses		Semester Hours
BUS 100	Introduction to Business	2
BUS 110	Global Business	2
BUS 130	Legal Environment of Business	2
BUS 275	Introduction to Management Information Systems	2
BUS 313	Planning for Meaningful Work	2
BUS 315	Ethical Issues in Business	2
or		
BUS/PHL 335V	Business Ethics	4
ECN 200S	Introduction to Microeconomics	4
ECN 207	Introduction to Macroeconomics I	2
BUS122	Quantitative Methods for Business	4
or		
MTH 141	Calculus I	4
MTH 123	Elementary Statistics	4

ACC 205	Financial Accounting	4
ACC 207	Managerial Accounting I	2
MGT 200	Management Principles	2
MKT 220	Marketing Principles	4
FIN 320	Corporate Finance I	4
BUS 496	Applied Strategy	2
Required major specific courses		
RMI 325	Insurance and Risk Management	4
RMI 335	Insurance Company Operations	4
RMI 340	Personal Property and Liability Insurance	2
RMI 345	Commercial Property and Liability Insurance	2
RMI 350	Life and Health Insurance	2
RMI 465	Enterprise Risk Management	4
RMI 499	Experiential Learning Practicum	2
Total		64

Requirement for Honors in the Major

For the major in Finance, the following courses may be taken for honors in the major: FIN 321, FIN 460, RMI 325, or ECN 315.

For the major in Human Resource Management the following courses may be taken for honors in the major: HRM 491, HRM 356, HRM 495, SOC 325.

For the Major in Management, the following courses may be taken for honors in the major: MGT 341, HRM 356, BUS 335, PHL 335V, MGT 435, MGT 481, HRM 491, and MGT 495.

For the Major in Marketing, the following courses may be taken for honors in the major: MKT 370, MKT 371, MKT 372, MKT 395, and MKT 396.

For the Major in Risk Management and Insurance, the following courses may be taken for honors in the major: RMI 325, RMI 335, and RMI 465.

Sport Business

The sport business major is designed for students interested in joining the growing field of sport managers, directors, promoters, marketers and administrators. A demand for well-trained individuals in sport related fields creates possible employment with professional sport teams, colleges and universities, private clubs, government agencies, city recreation departments and the Y.M.C.A.

Requirements for the Major in Sport Business

Required Sport Business Courses		Semester Hours
SPB 100	Introduction to Sport Business	4
SPB 200	Sport Event and Venue Management	4
SPB 210	Analytics, Business Intelligence & New Media in Sport	4
SPB 230	Introduction to Sport Sales	4
SPB 290	Practicum in Sport Business I	1
SPB 330	Public Relations and Marketing of Sport	4
SPB 390	Practicum in Sport Business II	1
SPB 410	Finance and Economics of Sport and Recreation	4
SPB 450	International Sport Business and Administration	4
Extra-Departmental Requirements		
BUS 130	Legal Environment in Business	2
MKT 220	Marketing Principles	4
ACC 205	Financial Accounting	4
Total		40
Sport Business Electives		
SPB 199	Special Topics in Sport Business	1-4
SPB 275	Sport Journalism	4
SPB 305	Travel Seminar	1-4
SPB 320	Recreation Management	2

SPB 370	Intercollegiate Athletic Administration	4
SPB 380	Sport Entrepreneurship	4
SPB 399	Special Topics in Sport Business	1-4
SPB 400	Independent Study	1-4
SPB 430	Advanced Sport Sales	2
SPB 494	Honors Project	4-8
SPB 499	Internship in Sport Business	1-16

Requirement for the Minor in Sport Business

The minor in sport business is designed to provide the student with basic knowledge of the management and administration of sport. Students choosing to minor in sport business seek to incorporate a working knowledge of the field into their major.

Required Courses		Semester Hours
SPB 100	Introduction to Sport Business	4
SPB 200	Sport Event and Venue Management	4
SPB 230	Introduction to Sport Sales	4
SPB	Required or Elective Option (SPB 499 is not allowed)	4
Total		16

Requirements for Honors in Sport Business

To receive departmental honors in sport business, a student must satisfy all the following criteria: 1) have a grade point average of 3.5 in sport business courses; 2) have completed at least three sport business courses for a total of 10-12 hours with honors from among SPB 305, SPB 330, SPB 370, SPB 380, SPB 410, SPB 430 and SPB 450; 3) have registered with the Honors Review Board for departmental honors. One of the three courses in part 2) may be SPB 494 Honors Thesis/Project of four to eight semester hours credit.

Department of Education

The Department of Education's Teacher Education Program is approved by the Ohio Department of Education and the Ohio Department of Higher Education for the preparation of competent, capable and caring teachers in primary, middle childhood, intervention specialist, adolescence to young adult, and multiage licenses. The University of Mount Union Department of Education's Teacher Education Program is also accredited by the Council for the Accreditation of Educator Preparation (CAEP). Candidates are able to major or minor in primary, middle childhood, intervention specialist, physical education, and health. Candidates are able to minor in adolescence to young adult, multiage education, and physical education.

- The primary education major and license prepare candidates to work with typically developing and included children for grades P-5.
- The early childhood major and license prepare candidates to work with typically developing and included children for grades PK-3.
- The middle childhood major offers a choice of four different areas of emphasis leading to licensure: English, language arts, science, social studies and mathematics for grades 4-9. The middle childhood major chooses two areas of emphasis in addition to a minor area of study.
- The intervention specialist major chooses one area of focus: primary intervention specialist or mild/moderate intervention specialist. The primary intervention specialist teaching license is valid for teaching learners with mild/moderate/intensive education needs in grades P-5. The mild/moderate intervention specialist teaching license is valid for teaching learners with mild/moderate education needs from ages 5 through 21 and kindergarten through grade 12.
- The Minor in Multiage and Adolescence to Young Adult Education focuses on both multiage and adolescence to young adult. The adolescence to young adult emphasis of this minor, when taken with an appropriate major, offers programs leading to licensure in the following areas: earth science (geology major); physical science (chemistry or physics major); life science (biology major); integrated mathematics (mathematics major); integrated English language arts (English literature or writing major); and integrated social studies (history major). The multiage emphasis of this minor, when taken with an appropriate major, leads to licensure in the following areas: French, German, Japanese, Spanish, music, health, physical education and visual arts. Candidates wishing to obtain licenses in these areas should review those majors in the catalogue.

In all programs, the candidate is prepared to meet the requirements for the appropriate Ohio License. The middle childhood and prekindergarten special needs endorsement are also available. Licensure course requirements are available in the Teacher Education Program office. In order to meet the requirements for licensure in all programs, it is critical that the candidate

begins the professional education sequence during the second semester of the first year and scrupulously follows the sequences for the appropriate major, minor and integrative core requirements.

Field experience typically begins during the first year. In order to provide a rich experience, placements are made in varied school and community agency settings that allow candidates to work with students in multiple grades related to their licensure area. Furthermore, the department utilizes the Ohio Typology levels to ensure that candidates receive varied experiences in districts with diverse locations, population densities, school enrollments, poverty levels and study body demographics. It is recommended that candidates have access to their own transportation. All field experience placements are typically within a 35-mile radius.

Candidates interested in teaching in other states should contact the state Department of Education of the other state(s) for information on reciprocity and other licensure information. Assistance to teacher education candidates and graduates seeking teaching positions is provided by the Teacher Education Program office.

Candidates must meet and maintain the requirements for admission and continuance in the Teacher Education Program (TEP) including course grade requirements, successful field experiences for the licensure area, and other criteria, such as a disposition evaluation and an interview. If a candidate is not making satisfactory progress as described in the assessment plan at each transition point, the candidate will be notified of suspension and/or removal from the TEP. Candidates must be admitted into the TEP in order to take 300/400-level education classes. Teacher candidates must also meet the criteria established for acceptance into pre/clinical practice. Specific information regarding requirements at each transition point (TEP admission, entry into pre/clinical practice, and program completion) is available in the TEP office.

Requirements for the Major in Primary Education

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
EDU 234	Interdisciplinary Planning for Diverse Learners and Families	4
EDU 340	Phonics, Process, and the Structures of Language Acquisition	4
ENG 210	Children's Literature	4
PRM 200	The Foundations and Management of the Primary Classroom	4
PRM 225	Young Children in Preschool	4

Choose two of the following:

EDU 218	Educational Technology	4
EDU 315G	Multicultural Education	4
ISP 220	Introduction to the Exceptional Learner	4
PRM 315	Social Studies Practices and Curriculum	4
PRM 320	Mathematics Practices and Curriculum	4
PRM 325	English Language Arts Practices and Curriculum	4
PRM 335	Scientific Practices and Curriculum	4
PRM 460	Preclinical Practice - Primary	4
PRM 440	English Language Arts Assessment in the Primary Classroom	4
PRM 470	Clinical Practice- Primary	14
Total		32

Requirements for the Minor in Primary Education

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
PRM 200	The Foundations and Management of the Primary Classroom	4
PRM 225	Young Children in Preschool	4

Choose one of the following:

EDU 234	Interdisciplinary Planning for Diverse Learners and Families	4
EDU 340	Phonics, Process, and the Structures of Language Acquisition	4
ISP 225	American Sign Language	4
PRM 315	Social Studies Practices and Curriculum	4

PRM 320	Mathematics Practices and Curriculum	4
PRM 325	English Language Arts Practices and Curriculum	4
PRM 335	Scientific Practices and Curriculum	4
Total		16

Requirements for the Major in Intervention Specialist

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
EDU 234	Interdisciplinary Planning for Diverse Learners and Families	4
EDU 315G	Multicultural Education	4
ISP 220	Introduction to the Exceptional Learner	4
ISE 320/ISM 320	Intervention Specialist Methods	4
ISE 380/ISM 380	Applied Behavioral Analysis for Teachers	4

Choose 8 hours:

EDU 218	Educational Technology	4
EDU 340	Phonics, Process, and the Structures of Language Acquisition	4
EDU 410	Professional Practicum	1-4
ISE 450	Understanding Young Children with Exceptionalities & The Learning Environment	2
ISP 225	American Sign Language	4
ISE 455	Instructional Strategies and Effective Collaboration for Young Children with Exceptionalities	4
MCH 205	Foundations of Middle Childhood Education	2

Total 32

Requirements for the Minor in Intervention Specialist

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
EDU 234	Interdisciplinary Planning for Diverse Learners and Families	4
ISP 220	Introduction to the Exceptional Learner	4
ISE/ISM 320	Intervention Specialist Methods	4
ISE/ISM 380	Applied Behavioral Analysis for Teachers	4

Total 20

Requirements for the Major in Middle Childhood Education

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
MCH 205	Foundations of Middle Childhood Education	2
EDU 230	Student Development: Implications for Planning and Teaching	4
EDU 315G	Multicultural Education	4
EDU 340	Phonics, Process and the Structures of Language Acquisition	4
MCH 345	Content Area Reading and Writing in Middle School	4
MCH 440	Middle Childhood Assessment and Literacy Practices	4

Choose two of the following:

MCH 315	Teaching Social Studies in the Middle School	4
MCH 320	Teaching Mathematics in the Middle School	4
MCH 325	Teaching English Language Arts in the Middle School	4
MCH 335	Teaching Science in the Middle School	4

Total 34

Requirements for the Minor in Middle Childhood Education

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
MCH 205	Foundations of Middle Childhood Education	2
MCH 345	Content Area Reading and Writing in Middle School	4
EDU 340	Phonics, Process and the Structures of Language Acquisition	4
Choose one of the following		
MCH 315	Teaching Social Studies in the Middle School	4
MCH 320	Teaching Mathematics in the Middle School	4
MCH 325	Teaching English Language Arts in the Middle School	4
MCH 335	Teaching Science in the Middle School	4
Total		18

Requirements for the Minor in Multiage and Adolescence to Young Adult Education

Required Courses		Semester Hours
EDU 150	Introduction to the Teaching Profession	4
EDU 230	Student Development: Implications for Planning and Teaching	4
EDU 315G	Multicultural Education	4
EDU 355	Content Area Literacy	4
EDU 440	Assessment, Instructional Design, and Evaluation in Education	4
Total		20

Additional coursework is necessary for licensure. Each licensure area requires coursework in disciplines other than education. This additional coursework should be carefully chosen and scheduled to fulfill other University requirements when appropriate. Please refer to Catalogue listing of specific department course grade requirements. It is essential that a candidate wishing to minor in education consult an advisor in the Department of Education early in the first year at Mount Union.

Health

The health major at Mount Union equips students with the necessary knowledge, skills and dispositions to be discerning and successful health teachers capable of serving and leading in their chosen vocation. A health major along with a multi-age education minor will prepare students to teach health education in Ohio. Students are provided both theoretical foundations and practical experiences related to teaching health education in middle and high school settings, as well as improving school health program. Students may major in health if they wish to enter the teaching profession.

Requirements for the Major in Health

Required Health Courses		Semester Hours
HED 200	Health Literacy and School Health	2
HED 230	Substance Abuse Education and Prevention	4
HED 250V	Nutrition	4
HED 300	Health Behavior	4
HED 325	Introduction to Health Methods	4
HED 360	Disease Prevention and Control	4
HED 375	Human Sexuality	4
HED 410	Skill-based School Health Methods (SCE)	4
Required Departmental Courses		
PEP 430	Motor and Developmental Learning	4
Required Extra-Departmental Courses		
BIO 105	Anatomy and Physiology	4
ENV 190N	Introduction to Environmental Science	4
Required for those seeking licensure		
REL 270	Death and Dying	4
Total		38-46

Candidates seeking a teaching license in health education must earn a grade of “C” or better in HED 200, HED 325, HED 350, and HED 400. If a minimum grade of “C” is not earned, candidates are required to retake the course until a grade of “C” or better is earned. Candidates must present proof of current CPR, First Aid, and Emergency Response training by Fall semester of the Sophomore year to the program director.

Physical Education Pedagogy

The physical education pedagogy major requires 36 hours of coursework, with additional hours to complete within the Education Department for students seeking to fulfill the state of Ohio teacher licensure requirements. The physical education pedagogy major shall fulfill the Senior Culminating Experience requirement by presenting their assessment projects in PEP 440 Assessment in Health and Physical Education.

Candidates seeking a teaching license in physical education must earn a grade of C- or better in all physical education pedagogy and exercise science courses required for licensure. If a minimum grade of C- is not earned, candidates are required to retake the course until a grade of C- or better is earned.

Requirements for the Major in Physical Education Pedagogy

Required Physical Education Courses		Semester Hours
PEP 110	Team Games	2
PEP 130	Lifetime Leisure Activities	2
PEP 150	Lifetime Fitness Activities	2
PEP 200	Principles of Physical Education	2
PEP 330	Teaching in Elementary School Physical Education	4
PEP 332	Teaching in Secondary School Physical Education	4
PEP 430	Motor and Developmental Learning	4
PEP 440	Assessment in Health and Physical Education	4
Required Departmental Courses		
EXS 110	Exercise Physiology I	4
EXS 220	Foundations of Human Movement	4
Required Extra-Departmental Courses		
BIO 105	Elements of Anatomy and Physiology	4
Total		36

Requirements for the Minor in Physical Education Pedagogy

The physical education minor is designed to supplement an undergraduate’s major field of study while allowing for flexibility in selecting from existing PEP courses with an advisor to fulfill the physical education minor requirements. A minor in physical education does not prepare the student to become a teaching licensure candidate by the state of Ohio.

Required Courses		Semester Hours
PEP 200	Principles of Physical Education	2
PEP 110	Team Games	2
PEP 130	Lifetime Leisure Activities	2
PEP 150	Lifetime Fitness Activities	2
Methodology/Content Courses: select two courses from the following:		
PEP 330	Teaching in Elementary School Physical Education	4
PEP 332	Teaching in Secondary School Physical Education	4
PEP 430	Motor and Developmental Learning	4
PEP 440	Assessment in Health and Physical Education	4
Total		16

Requirements for Honors in Physical Education

To receive departmental honors in physical education pedagogy (PEP), a student must satisfy all of the following criteria: 1) have a grade point average of 3.5 in PEP major courses; 2) have completed at least three PEP major courses with honors for a total of 12 semester hours from among PEP 330, 332, 430, 440, EXS 110, and 220. One of the three courses in part 3) may be an Honors Thesis/Project (All-University course 494) of three to six semester hours credit.

Coaching Minor

Requirements for the Minor in Coaching

Required Courses		Semester Hours
EXS 110	Exercise Physiology I	4
COA 275	Sports Nutrition for Coaches	4
COA 310	Psychology of Coaching	4
COA 430	Coaching Practicum	2
Choose two of the following:		
COA 320	Coaching Basketball	2
COA 321	Coaching Football	2
COA 322	Coaching Soccer	2
COA 323	Coaching Wrestling	2
COA 324	Coaching Track and Field	2
COA 325	Coaching Baseball	2
COA 326	Coaching Softball	2
COA 327	Coaching Golf	2
COA 328	Coaching Tennis	2
COA 329	Coaching Volleyball	2
COA 330	Coaching Swimming and Diving	2
COA 331	Coaching Lacrosse	2
Total		18

School of Engineering

The Bachelor of Science degrees in Civil Engineering and Mechanical Engineering at the University of Mount Union are accredited by the Engineering Accreditation Commission of ABET, <https://www.ABET.org>. The other three new engineering programs (Biomedical Engineering, Computer Engineering, and Electrical Engineering) will seek accreditation after the first students graduate per the timeline specified by ABET. The School of Engineering offers programs that provide technical breadth and depth in the five engineering disciplines that are integrated with the overall mission of the University of Mount Union. These programs will prepare graduates to become leaders in the engineering profession through experiential learning, integration of engineering education with business and entrepreneurship, and focus on strong communication skills. The programs will also require a global experience, so graduates are prepared to enter the increasingly global engineering workplace. The engineering curricula will make use of experiential and collaborative learning in lecture, laboratory, and simulation courses.

Requirements for the Major in Biomedical Engineering

Required Courses*		Semester Hours
EGE 110	Introduction to the Engineering Profession	2
EGE 120	Introduction to Engineering Design	2
EGE 130	Computer-Aided Design	2
EGE 210	Statics and Dynamics	4
EGE 240	Mechanics of Materials	4
EGE 310	Product Design and Development	4
EGE 320G	Global Engineering	4
BME 210	Biomaterials I	2
BME 310	Biomechanics	4
BME 320	Biomedical Instrumentation	4
Required Extra-School Courses		
BIO 140N	The Unity of Life	4
BIO 210	Anatomy and Physiology I	4
CHE 120N	Concepts in Chemistry	4
CHE 231	Organic Chemistry	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 305	Introduction to Probability and Statistics for Engineering	2
MTH 333	Linear Algebra and Differential Equations	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
PHY 230V	Electronics	4

MGT 495	Project Management	2
---------	--------------------	---

ABET requires all engineering majors to take a minimum of 30 semester credit hours of college level math and basic science, and a minimum of 45 semester credit hours of engineering topics. The listed biomedical engineering curriculum contains 46 credit hours of college level math and basic science.

*The School of Engineering courses cover the first, second, and third years of the major and the extra-school courses are what are currently expected. Additional school and extra-school courses will be added as the major is developed.

Requirements for the Major in Computer Engineering

Required Courses*		Semester Hours
EGE 110	Introduction to the Engineering Profession	2
EGE 120	Introduction to Engineering Design	2
EGE 310	Product Design and Development	4
EGE 320G	Global Engineering	4
EEE 209	Electrical and Computer Engineering Tools	2
EEE 221	Electrical Circuits Analysis	4
EEE 234	Digital System Design	4
EEE 325	Engineering Electronics I	4
EEE 331	Signals and Systems	4
CPE 222	Operating System Concepts	2
CPE 334	Advanced Digital Systems Design	2

Required Extra-School Courses

CHE 120N	Concepts in Chemistry	4
CSC 120	Programming and Problem Solving I	4
CSC 220	Programming and Problem Solving II	4
CSC 270	Computer Organization	4
CSC 320	Algorithm and Data Structures	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 305	Introduction to Probability and Statistics for Engineering	2
MTH 362	Discrete Mathematics	2
MTH 333	Linear Algebra and Differential Equations	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
MGT 495	Project Management	2

ABET requires all engineering majors to take a minimum of 30 semester credit hours of college level math and basic science, and a minimum of 45 semester credit hours of engineering topics. The listed computer engineering curriculum contains 32 credit hours of college level math and basic science.

*The School of Engineering courses cover the first, second, and third years of the major and the extra-school courses are what are currently expected. Additional school and extra-school courses will be added as the major is developed.

Requirements for the Major in Civil Engineering

Required Courses		Semester Hours
EGE 110	Introduction to the Engineering Profession	2
EGE 120	Introduction to Engineering Design	2
EGE 130	Computer-Aided Design	2
EGE 210	Statics and Dynamics	4
EGE 220	Thermodynamics and Fluid Mechanics I	4

ECE 340	Structural Analysis	4

ECE 350	Geotechnical Engineering	4
ECE 360	Water Resource Engineering	4
ECE 370	Construction Engineering and Management	4
ECE 420	Structural Design	4
ECE 440	Sustainable Infrastructure Design	2
ECE 460	Geotechnical Engineering Design	2
ECE 470	Construction Methods and Equipment	2
ECE 480	Civil Engineering Capstone I	2
ECE 490	Civil Engineering Capstone II	4

Required Extra-School Courses

CHE 120N	Concepts in Chemistry	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 305	Introduction to Probability and Statistics for Engineering	2
MTH 333	Linear Algebra and Differential Equations	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
	Science Elective(s) from Approved List Below	4

Total Credit Hours 102

Four credits in college level science are required in addition to those already required by the program. This is typically referred to as a science elective course and students may select from an approved list.

The approved list is:

BIO 140N	The Unity of Life	4
BIO 141N	The Diversity of Life	4
ENV 190N	Introduction to Environmental Science	4
GEO 112N	Physical Geology: How the Earth Works	4
GEO 116N	Investigation Earth	4

ABET requires all engineering majors to take a minimum of 30 semester credit hours of college level math and basic science and a minimum of 45 semester credit hours of engineering topics. The listed civil engineering curriculum contains 34 credit hours of college level math and basic science and 68 hours of engineering topics.

Requirements for the Major in Electrical Engineering

Required Courses*		Semester Hours
EGE 110	Introduction to the Engineering Profession	2
EGE 120	Introduction to Engineering Design	2
EGE 310	Product Design and Development	4
EGE 320G	Global Engineering	4
EEE 209	Electrical and Computer Engineering Tools	2
EEE 221	Electrical Circuits Analysis I	4
EEE 222	Electrical Circuits Analysis II	2
EEE 234	Digital System Design	4
EEE 239	Engineering Electromagnetics	4
EEE 325	Engineering Electronics I	4
EEE 326	Engineering Electronics II	2
EEE 331	Signals and Systems	4
EEE 338	Electric Power Principles	4

Required Extra-School Courses

CHE 120N	Concepts in Chemistry	4
CSC 120	Programming and Problem Solving I	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 305	Introduction to Probability and Statistics for Engineering	2
MTH 333	Linear Algebra and Differential Equations	4
PHY 101N	General Physics I	4

PHY 102	General Physics II	4
MGT 495	Project Management	2

ABET requires all engineering majors to take a minimum of 30 semester credit hours of college level math and basic science, and a minimum of 45 semester credit hours of engineering topics. The listed electrical engineering curriculum contains 30 credit hours of college level math and basic science.

*The School of Engineering courses cover the first, second, and third years of the major and the extra-school courses are what are currently expected. Additional school and extra-school courses will be added as the major is developed.

CHE 120N	Concepts in Chemistry	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 306	Probability and Statistics for Engineering and Science	4
MTH 333	Linear Algebra and Differential Equations	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
PHY 230V	Electronics	4
MGT 495	Project Management	2
Total Credit Hours		100

ABET requires all engineering majors to take a minimum of 30 semester hours of college level math and basic science and a minimum of 45 semester credit hours of engineering topics. The listed mechanical engineering curriculum contains 36 credit hours of college level math and basic science and 62 hours of engineering topics.

Department of Mathematics

The Department of Mathematics seeks to contribute to the achievement of the general objectives of Mount Union by providing instruction in mathematics as a major independent area of knowledge and by providing preparation for study in other departments, since mathematics is the language in which many of the ideas of the natural and social sciences are expressed. The

department offers experience in deductive reasoning, critical analysis and problem solving all of which prepares the student for immediate employment or for graduate study.

Major in Mathematics

A major in mathematics will give students a substantial introduction to an immense area of interesting and useful ideas. It will equip them for careers in business, industry, government or education and will prepare them for graduate study.

Requirements for the Major in Mathematics

Required Mathematics Courses		Semester Hours
MTH 123	Elementary Statistics	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 301	Introduction to Advanced Math and Number Theory	4
MTH 341	Advanced Calculus	2
MTH 362	Discrete Mathematics	2
MTH 405	Mathematical Statistics I	2
MTH 411	Abstract Algebra	4

Required Extra-Departmental Course		Semester Hours
CSC 120	Programming and Problem Solving I	4

At least one of the following four tracks:

Applied Mathematics Track

MTH 335	Differential Equations	4
MTH 351	Numerical Analysis	2
MTH 406	Mathematical Statistics II	4
MTH 460	Senior Seminar in Applied Mathematics	2

Mathematics Education Track

MTH 223	Intermediate Statistics	4
MTH 300	College Geometry	2
MTH 322	Linear Algebra	4
MTH 460	Senior Seminar in Mathematics Education	2

Pure Mathematics Track

MTH 401	Topics in Pure Mathematics	2
MTH 460	Senior Seminar in Pure Mathematics	2
MTH 322	Linear Algebra	4
MTH 335	Differential Equations	4

Statistics Track

MTH 223	Intermediate Statistics	4
MTH 322	Linear Algebra	4
MTH 406	Mathematical Statistics II	4
MTH 460	Senior Seminar in Statistics	2

Total		18

Major in Financial Mathematics

A major in financial mathematics will give the student a strong mathematical and computational background in addition to strong skills in business and economics. It will equip them for quantitative financial careers such as financial engineering, risk management and the actuarial field. Students will also be prepared for graduate study.

Requirements for the Major in Financial Mathematics

Required Mathematics Courses		Semester Hours
MTH 123	Elementary Statistics	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 223	Intermediate Statistics	4

CSC 120	Programming and Problem Solving I	4
or		
CSC 140	Programming for Engineers and Scientists	2
CSC 220	Programming and Problem Solving II	4
Total		62-64

A student with a major in financial mathematics may not major or minor in mathematics. There is no minor in financial mathematics.

Requirements for Honors in Mathematics or Financial Mathematics

For honors in mathematics or financial mathematics, students may take any 200-level or above course that counts towards that major.

Mathematics Proficiency

A graduate of the University of Mount Union must demonstrate a proficiency in mathematics. In order to be deemed proficient in mathematics, a student must have developed the mathematical skills and concepts that are needed to reason quantitatively and to solve problems analytically. A student should be able to read newspapers, magazines, and other literature geared to the general public with a full understanding of graphs, data interpretation, percents, ratios, and the like.

A student proficient in mathematics will have a demonstrated aptitude in the general areas of arithmetic, algebra, geometry, and data analysis. These areas coincide with the areas of emphasis in the quantitative reasoning measure established by the Educational Testing Standards for the Graduate Record Exam.

All incoming students will be assigned a math placement level determined by their ACT math or SAT math scores. Students who have no ACT math or SAT math scores will take a math placement test. A student will be deemed proficient in mathematics if they either:

- a. Earn a satisfactory math placement level, as determined by the Department of Mathematics, or
- b. Receive credit for any one of the following courses: MTH 119 (Quantitative Literacy), MTH 123 (Elementary Statistics), MTH 125 (Elementary Discrete Math), MTH 140 (Precalculus), MTH 141 (Calculus I), or MTH 142 (Calculus II).

The Department of Mathematics offers proficiency examinations to allow students to meet graduation requirements and/or to be placed in higher level courses. These examinations demand more than an elementary acquaintance with course material. The student must have solid command of the concepts and problem-solving skills for the topic and therefore should attempt a proficiency examination only after proper study and preparation.

Students that have enrolled and received a grade for a course at the University of Mount Union where a proficiency examination exists cannot take the topic specific proficiency examination to meet requirements for understanding the course content. A topic specific proficiency examination can only be taken once.

Deadline for students to take the placement test is by the time designated by the relevant department each semester.

The deadline to take proficiencies in the Department of Mathematics is the Thursday of the first week of class.

Mathematics Placement

The math placement process will place the student into one of five levels. The following course sequences will be required to meet the mathematics proficiency component of general education for levels A, B, C, and D. Students placed into Level E will already have met the mathematics proficiency requirement.

Level A Students: Must complete MTH 119 (Quantitative Literacy); OR MTH 100 (Intermediate Algebra) and then one of the following:

- MTH 105 (College Algebra) and then MTH 140 (Precalculus), or
- MTH 105 (College Algebra) and then MTH 123 (Elementary Statistics), or
- MTH 105 (College Algebra) and then MTH 125 (Elementary Discrete Math)

Level B Students: Must complete one of the following options:

- MTH 119 (Quantitative Literacy), or
- MTH 105 (College Algebra) and then MTH 140 (Precalculus), or
- MTH 105 (College Algebra) and then MTH 123 (Elementary Statistics), or
- MTH 105 (College Algebra) and MTH 125 (Elementary Discrete Math)

Level C Students: Must complete any one of the following options:

- MTH 119 (Quantitative Literacy), or
- MTH 123 (Elementary Statistics), or
- MTH 125 (Elementary Discrete Math), or
- MTH 140 (Precalculus)

Level D Students: Must complete one of the following options:

- MTH 119 (Quantitative Literacy), or
- MTH 123 (Elementary Statistics), or
- MTH 125 (Elementary Discrete Math), or
- MTH 140 (Precalculus), or
- MTH 130 (Calculus Lab) and MTH 141 (Calculus I), taken concurrently.

Level E Students: Mathematics Proficiency Requirement completed. If further mathematics courses are required or desired, any of the following courses may be taken:

- MTH 123 (Elementary Statistics)
- MTH 125 (Elementary Discrete Math)
- MTH 140 (Precalculus)
- MTH 141 (Calculus I)
- MTH 142* (Calculus II)
- MTH 241* (Calculus III)

*Students who have already earned credit for Calculus I and/or Calculus II only, or permission of the Department of Mathematics.

Department of Political Science and International Studies

The mission of the University of Mount Union is to prepare students for meaningful work, fulfilling lives and responsible citizenship, and the study of politics is an important part of this education in our increasingly interdependent world. The Department of Political Science and International Studies seeks to equip students with the requisite skills and tools to succeed in their future and to instill in them a desire for and commitment to lifelong engagement with the political world. In pursuit of these goals, the Department incorporates an applied approach to the study of politics, encouraging intellectual growth through active learning and internships, which provide a variety of opportunities to explore careers in public service and related fields. Coursework will stimulate critical thinking about government and politics, as students improve their analytical abilities, learn both quantitative and qualitative research methods and develop effective written and oral communication skills.

The Department of Political Science and International Studies offers majors and minors in Political Science, International Affairs and Diplomacy, and National Security and Foreign Intelligence Analysis, as well as minors in Legal Studies and Public Service.

Political Science majors are strongly encouraged to participate in an internship. Credits earned during the internship can count towards the major. International Affairs and Diplomacy majors are required to participate in either a study abroad program or in a foreign policy-related internship. National Security and Intelligence Analysis majors are required to participate in a national security-related internship. Students should take into consideration that a minimum GPA of 2.5 is required for participation in most of Mount Union's internship programs. In some cases, a GPA of 3.0 or higher may be required. In addition, the approval of the Department Internship Coordinator and Department Chair is required for an internship. In addition, many of the internships available for National Security and Foreign Intelligence Analysis majors require a security clearance.

Only two courses taken toward any major program of study will be counted toward a minor program of study in either Political Science, International Affairs and Diplomacy, National Security and Foreign Intelligence Analysis, Legal Studies or Public Service.

Major in International Affairs and Diplomacy

Students majoring in International Affairs and Diplomacy must minor in a world language or demonstrate competence in one modern world language that is not their native language. Competence is defined as equivalent to two courses in the target language at the two-hundred level or above.

Requirements for the Major in International Affairs and Diplomacy

Total		16

Legal Studies

The Legal Studies Minor is designed to provide all University of Mount Union students with the opportunity to become familiarized with this important academic field of study. The courses within this minor are not intended solely for students who are interested in attending law school. Rather it is intended to be more compatible with the liberal arts tradition of our University and a general understanding of the importance of law in our society. Legal issues have a profound impact on the lives of all our citizens and its influence continues to increase. Laws determine issues such as what types of speech and expression can be censored, whether a student or employee can be forced to take a drug or lie detector test, how issues of child custody are resolved, is an oral agreement a binding contract, what constitutes sexual harassment, what is the legal status of affirmative action, and can the police randomly stop drivers. At a time when laws are increasingly important in their scope and reach, it is important for students to understand the operation of our legal institutions, the source of our laws, and how to interpret and apply legal concepts. This minor is designed for all students who wish to gain an appreciation of this complex system.

Requirements for the Minor in Legal Studies

Required Courses:		Semester Hours
POL 200	Introduction to Law and the Legal System	4
POL 305	Constitutional Law	4
or		
POL 325	Civil Rights: Race, Gender, and Sexual Orientation Discrimination	4
Either one of the following:		
COM 227H	Persuasion and Argumentation	4
POL 320	Legal Advocacy	4

Any one of the following:

BUS 130	Legal Environment of Business	2
and		
HRM 380	Employment Law	2
COM 435	Media Management, Law and Policy	4
PHL 210	Logic	4
POL 202	Congressional Politics: Issues and Controversies	4
Total		16

Note that students who are majoring in Political Science may not take POL 202 as their elective to complete the Legal Studies minor; they must choose from one of the other courses on the list of electives.

Political Science and Law (3+3 Program with University of Akron, School of Law)

The University of Mount Union recognizes that certain students have the motivation, capacity and readiness to complete their undergraduate education and law degree training in an accelerated manner. The 3+3 Political Science and Law Program allows highly motivated students to complete all requirements for both an undergraduate degree in Political Science and a Juris Doctor Degree from the University of Akron School of Law in six years of full-time study, as opposed to the traditional seven-year period of study. Under the 3+3 Program, students will complete three years of full-time study at Mount Union immediately followed by three years of full-time study at Akron Law. During the fourth year of study, the student will become a full-time, first-year law student at the Akron Law campus rather than returning to the Mount Union campus for a “senior” year.

Admissions Requirements

Any student may apply for inclusion into the 3+3 Program by contacting the Department of Political Science and International Studies. Students participating in the 3+3 Program who have completed the Integrative Core requirements, math and world language proficiencies, completion of the minor requirement and successfully completed the Mount Union required courses listed below will be automatically admitted into Akron Law as long as the student:

- is in good standing academically, financially, and from a disciplinary perspective at Mount Union;
- satisfies the character and fitness standards required of all students admitted to Akron Law;
- scores at least 150 on the LSAT examination; and
- has an undergraduate grade point average of at least 3.40 by the mid-point of his or her junior year.

Admission to the 3+3 Program does not guarantee eventual acceptance to the law program by Akron Law. A student who does not gain admission to Akron Law through this Program will devote his or her fourth year to any remaining requirements of an undergraduate major.

Requirements for the BA/JD Program

Required Courses (at the University of Mount Union)		Semester Hours
POL 105S	U.S. Politics in Crisis: American Government, Politics, and Society	4
POL 120S	Conflicts in World Politics	4
POL 135	Living the Good Life: Political Philosophy and You	4
POL 200	Introduction to Law and the Legal System	4
POL 202	Congressional Politics	4
POL 203	American President: Power and Leadership in the 21st Century	4
POL 305	Constitutional Law	4
or		
POL 325	Civil Rights: Race, Gender, and Sexual Orientation Discrimination	4
POL 350	Introduction to Political Science Methods and Inquiry	4
POL 351	Quantitative Political Analysis	4
Total		36

Sixteen additional credit hours, only eight of which can be in Political Science (with 4 credit hours in Political Science at the 200-level and 4 credit hours in Political Science at the 300-level). Note that students majoring in this Program will automatically receive a minor in Legal Studies based upon meeting the requirements for the major, i.e. following successful completion of their first year in Law School. Therefore, students are required to obtain an additional minor outside of Legal Studies during their course of study at the University of Mount Union. In the first year at the University of Akron School of Law, students will take the courses listed below that will be treated as transient credits toward the Mount Union degree. These 28 credits will count towards both the student’s undergraduate degree as well as the student’s law degree.

A student who elects to withdraw from the Akron Law Program or who fails to successfully complete the first year of law school may return, without reapplication to Mount Union, for completion of an undergraduate degree.

Political Science and Law (3+3 Program with Capital University Law School)

The University of Mount Union recognizes that certain students have the motivation, capacity and readiness to complete their undergraduate education and law degree training in an accelerated manner. The 3+3 Political Science and Law Program allows highly motivated students to complete all requirements for both an undergraduate degree in Political Science and a Juris Doctor Degree from Capital University Law School in six years of full-time study, as opposed to the traditional seven-year period of study. Under the 3+3 Program, students will complete three years of full-time study at the University of Mount Union immediately followed by three years of full-time study at Capital University Law School. During the fourth year of study, the student will become a full-time, first-year law student at Capital University Law School campus rather than returning to the University of Mount Union campus for a “senior” year.

Admissions Requirements

Any student may apply for inclusion into the 3+3 Program by contacting the Department of Political Science and International Studies. Students participating in the 3+3 Program who have completed the Integrative Core requirements, math and world language proficiencies, completion of the minor requirement, and successfully completed the University of Mount Union required courses listed below will be automatically admitted into Capital University Law school, provided the student:

- is in good standing academically, financially, and from a disciplinary perspective at the University of Mount Union;
- has submitted a fully complete application to Capital University Law School in a timely manner;
- has submitted two academic letters of recommendation from members of the University of Mount Union faculty, with one of these letters written by the University of Mount Union Partnership Program advisor;
- satisfies the character and fitness standards required of all students admitted to Capital University Law School;
- scores at least the median of the prior year’s entering class on the LSAT examination no later than June following their junior year of undergraduate studies;
- has an undergraduate cumulative grade point average at the University of Mount Union that ranks in the top half of the applicant’s graduating class at Mount Union;
- has completed a minimum of 100 semester hours, at least 60 of which are in-residency at the University of Mount Union

Students who do not meet the conditions for admission listed above will, upon the recommendation of the University of Mount Union, be interviewed for admission to the Law School. The Capital University Law School may consider such students solely for admission on a case-by-case basis with the requirement to participate in the Academic Success Program (ASP) prior to the start of Law School.

Following the receipt by the Capital University Law School of all required admission materials, the Law School will review and arrive at an admission decision. The admissions committee of the Law School reserves the right to conduct an in-person interview of the 3+3 Partnership Program applicant when arriving at the admission decision.

Admission to the 3+3 Program does not guarantee eventual acceptance to the law program at Capital University. A student who does not gain admission to Capital University Law School through this program will devote their fourth year to any remaining requirements of an undergraduate major.

The University of Mount Union will accept as transfer credits applicable to the Bachelor's degree up to 40 semester credits of course work taken at the Capital University Law School in which the student received a grade of "C" or better. The University of Mount Union shall not accept as transfer credits any credits of course work awarded by the Law School in which the student received a grade of less than a "C." A student's undergraduate GPA for degree-granting purposes at the University of Mount Union will be the GPA at the end of the undergraduate phase of the undergraduate program; grades from the Capital University Law School are not transferrable to the University of Mount Union. Capital University Law School will not accept for transfer credit any course work taken at the University of Mount Union. A student's GPA at Capital University will be determined only based on courses for which credit is awarded by the Law School.

A student who elects to withdraw from the Capital University Law School Program or who fails to successfully complete the first year of law school may return, without reapplication to the University of Mount Union, for completion of an undergraduate degree.

Department of Sociology and Criminal Justice

Criminal Justice

The Criminal Justice Major requires 58 semester hours. These hours are divided into a 38-hour core and a 20-hour set of electives (from one of the four options below). Criminal justice majors are encouraged to develop proficiency in at least one modern world language with emphasis on identifying and negotiating cultural differences and practices. Students who major in both Criminal Justice and Sociology may count no more than three Sociology courses toward both majors. All Criminal Justice majors are required to minor in Sociology.

Requirements for the Major in Criminal Justice

Required Courses for all Majors		Semester Hours
SOC 100S	Introduction to Sociology	4
CRJ 105	Introduction to Criminal Justice	4
CRJ 210	Careers in Criminal Justice	4
CRJ 208	Diversity Issues in Criminal Justice	4
CRJ 308	Criminal Procedure	4

MTH 121	Data Analysis*	2
SOC 205	Juvenile Delinquency	4
or		
SOC 280	Criminology	4
SOC 364	Research Methods I	4
CRJ 490	Senior Culminating Experience	4
One additional SOC course outside of the selected concentration		4

Total 38

*MTH 121 waived upon completion of MTH 123 or SOC 365

Areas of Concentration

All Criminal Justice Majors must complete one (and only one) area of concentration.

Requirements for the Concentration in Law Enforcement

This concentration is for students interested in pursuing a career in a variety of local, state and federal law enforcement agencies.

Required Courses		Semester Hours
CRJ 201	Law Enforcement	4
CRJ 301	Crime Investigation	4
Any THREE from the following courses:		
CRJ 325	Treatment Methods in Criminal Justice	4
CRJ 335	Offender Behavior	4
CRJ 345	Gangs and Organized Crime	4
CRJ 355	Law Enforcement Administration	4
CRJ 499	Internship	4
SOC 215	Drugs and Society	4
SOC 220	The Many Faces of Poverty	4
SOC 225	Family Violence	4
Total		20

Requirements for the Concentration in Corrections

This concentration is for students interested in pursuing a career in Corrections, Probation, or Parole.

Required Courses		Semester Hours
CRJ 203	Community Corrections	4
SOC 315	Penology	4
Any THREE from the following courses:		
CRJ 325	Treatment Methods in Criminal Justice	4
CRJ 335	Offender Behavior	4
CRJ 345	Gangs and Organized Crime	4
CRJ 499	Internship	4
SOC 215	Drugs and Society	4
SOC 220	The Many Faces of Poverty	4
SOC 225	Family Violence	4
Total		20

Requirements for the Concentration in Forensic Studies

This concentration is for students interested in pursuing a career in Criminal Justice that benefits from knowledge and experience in forensic studies.

Required Courses		Semester Hours
CHE 108N	Forensic Science	4

CRJ 201	Law Enforcement	4
CRJ 301	Crime Investigation	4
Any TWO from the following courses:		
CRJ 335	Offender Behavior	4
CRJ 499	Internship	4
PSY 370	Forensic Psychology	4
SOC 215	Drugs and Society	4
SOC 250	Medical Sociology	4
Total		20

Requirements for the Concentration in Criminology

Any FIVE Elective Courses from the following list:

Courses		Semester Hours
CHE 108N	Forensic Science	4
CRJ 201	Law Enforcement	4
CRJ 203	Community Corrections	4
CRJ 301	Crime Investigation	4
CRJ 325	Treatment Methods in Criminal Justice	4
CRJ 335	Offender Behavior	4
CRJ 345	Gangs and Organized Crime	4
CRJ 410	Advanced Seminar	4
CRJ 499	Internship	4
PSY 370	Forensic Psychology	4
SOC 215	Drugs and Society	4
SOC 220	The Many Faces of Poverty	4
SOC 225	Family Violence	4
SOC 250	Medical Sociology	4
SOC 315	Penology	4

Requirements for the Minor in Criminal Justice

Required Courses		Semester Hours
CRJ 105	Introduction to Criminal Justice	4

Any THREE Elective Courses from the following list:

CHE 108N	Forensic Science	4
CRJ 201	Law Enforcement	4
CRJ 203	Community Corrections	4
CRJ 208	Diversity Issues in Criminal Justice	4
CRJ 210	Careers in Criminal Justice	4
CRJ 301	Crime Investigation	4
CRJ 308	Criminal Procedure	4
SOC 205	Juvenile Delinquency	4
or		
SOC 280	Criminology (not both)	4
SOC 315	Penology	4
SOC 364	Research Methods I	4

Total		16
-------	--	----

Sociology

The primary mission of the sociology program is to provide a program through which students can develop the ability to scientifically study human social behavior. This includes understanding of core abilities, sociological knowledge, professionalization, personal enrichment, and community engagement.

Students who major in both sociology and criminal justice may count no more than three sociology courses toward both majors. Students who double major in sociology and psychology, or sociology and neuroscience, are not required to take SOC 365, but students must take one additional four-hour sociology elective.

Requirements for the Major in Sociology

Required Courses		Semester Hours
SOC 100S	Introduction to Sociology	4
SOC 210	Careers in Sociology	4
SOC 364	Research Methods I	4
SOC 365	Research Methods II	4
SOC 375	Sociological Theory	4
SOC 490	Senior Culminating Experience	4
	20 additional SOC semester hours	20
Total		44

Requirements for the Minor in Sociology

Required Courses		Semester Hours
SOC 100S	Introduction to Sociology	4
	Additional SOC hours	12
Total		16

Entrepreneurship

The Entrepreneurship minor is designed to prepare students with the skills and knowledge to start their own business, assist in the start-up of a new business, or bring an entrepreneurial mindset to an already established business. The minor will provide the students with the opportunity to study and analyze ideas and bring the ones that appear to possess the greatest chance of success to the next step in the business development process. Additionally, the students who complete the minor will have had the opportunity to learn from current and past entrepreneurs. The students will have a basic understanding of the financial needs of a startup business and how to pursue various funding opportunities. Also, they will have been introduced to the skills required in selling their idea to their target audience.

When a student finishes the Entrepreneurship minor, the University's goal is that the student will be more comfortable with ambiguity and risk taking. They will understand how to push their idea through to reality, how to create an innovative environment/culture, how to deal effectively with failure and rejection, and how to analyze various issues and draw conclusions.

Requirements for the Minor in Entrepreneurship

Required Courses		Semester Hours
ENT 150	Introduction to Entrepreneurship	4
ENT 300	New Venture Planning	2
ENT 350	The Entrepreneurship Experience	4

And Any Two Courses from the Following:

ACC 205	Financial Accounting	4
ART 120	Design I	4
BUS 100	Introduction to Business	2
BUS 255	Business Law II	4
COM 155S	Principles of Public Relations	4
COM 227	Public Advocacy and Argumentation	4
COM 254	Social Media Strategies	4
COM 325	Leadership and Team Communication	4
CSC 120	Programming and Problem Solving I	4
EGE 110	Introduction to the Engineering Profession	2
EGE 310	Product Design and Development	4
ENT 499	Internship in Entrepreneurship	2-4
ENV 190	Introduction to Environmental Science	4
EXS 320	Exercise Testing and Prescription	4
EXS 340	Corporate and Worksite Wellness	4
HRM 356	Human Resource Management	4
HRM 491	Seminar in Leadership	4
MKT 220	Marketing Principles	4
MKT 396	Selling and Sales Management	2
MGT 200	Management Principles	4
MUS 314	Music Technology for the Performing Musician	4
PSJ 150H	Introduction to Peacebuilding and Social Justice	4

PSY 235	Social Psychology	4
SOC 220	The Many Faces of Poverty	4
SOC 325	Organizational Analysis	4
SPB 380	Sport Entrepreneurship	4
THE 150	Believing in Imaginary: Beginning Acting for the Theatre	4
WRT 110H	Introduction to Professional Writing	4

Total 16-18

Students with majors in the Department of Economics, Accounting, and Business Administration may count up to 4 semester hours from their major toward the ENT minor.

Leadership Studies

The Leadership Studies Minor seeks to prepare students to assume roles or assigned responsibilities where they will inspire, motivate, and influence people and organizations to accomplish organizational goals and objectives. The students will also learn to motivate people, focus thinking, and shape decisions for the greater good of an organization.

Requirements for the Minor in Leadership Studies

Required Courses		Semester Hours
LDR 175	Introduction to Leadership for Life	2
LDR 275	Developing Your Leadership	4
LDR 350	Implementing Leadership Skills and Competencies	4

At least 6 Additional Hours from the Following

ART 120	Design I	4
ART 240	Graphic Design I	4
COA 310	Psychology of Coaching	4
COA 320-331	Coaching Theory Courses	2

MSL 470	Professional Military Officer, Management and Law	2
MSL 490	Leadership Seminar IV	2

Total 18

*Courses in the Minor in Military Science Leadership are taught at Kent State University through a collaborative initiative and the ROTC program at Kent State. Once completed, these courses will appear on the student's educational record as a course taught at the University of Mount Union.

Public Service

This interdisciplinary minor offers the opportunity to study the importance of social and public service in today's society. The minor will offer a foundation of theoretical knowledge while offering practical opportunities and hands-on learning in preparation for possible careers in public service and social service. Students will discover the linkages between the social service and public service sectors and will receive guidance and experience in leadership communication, non-profit organization and government service. Graduates who have completed the public service minor will be prepared for possible careers in the social service and public service sectors of our society.

In addition to the requirements outlined below, students are encouraged to take advantage of internships established by the university and through the Ralph and Mary Regula Center for Public Service and Civic Engagement.

Requirements for the Minor in Public Service

POL 317V	Education Policy	4

Total 20

THE COLLEGE OF ARTS AND HUMANITIES

The College of Arts and Humanities is dedicated to the ideals of a liberal arts education and serves as the intellectual core of the University, offering intellectual and artistic programs that engage students and faculty and the community in collaboration, dialogue, and discovery. These programs help preserve, illuminate, and nourish the arts and humanities for the campus and for the wider community.

Faculty and students in the College of Arts and Humanities study the cultures of the world, past and present, in all their rich variety. Through teaching and research that investigates human experience, thought, expression, and creativity, the college aims to educate global citizens who assess received opinion, make independent judgments, and value the transforming power of the imagination. The college teaches students how to sing, act, paint, sculpt, write fiction and non-fiction, and communicate in Chinese, French, Spanish, German, Japanese, and English.

The college sponsors a multitude of curricular and co-curricular programs, including study abroad, music, and theatre performances; writing awards; art exhibitions; lectures; and a range of programs that promote the arts, humanities, and the exchange of ideas. The Calliope is Mount Union's student-led literary and art magazine. The college is also home to the Center for Global Education and the Digital, Written, and Oral Communication Studio. Departments included in the College of Arts and Humanities are: Art, English, History, Interdisciplinary and Liberal Studies, Music, Philosophy and Religious Studies, Theatre, and World Languages and Culture.

Department of Art

The mission of the Department of Art is to develop, produce and maintain a curriculum and related activities that enable students to acquire a broad-based knowledge in the studio arts, art history and art education. The Department will provide students with the essential skills, tools and resources required for the personal interpretation and artistic expression in a wide variety of media. The students will also develop adeptness in critical inquiry in order to responsibly participate in the appreciation, production and advocacy of art over a lifetime.

Requirements for Honors in Art

Students are eligible to enter the Honors Program in art if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board. To receive honors in art, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 12 semester hours. One of the courses may be ART 494 Honors Thesis/Project that may be taken for four to eight credit hours. For permission to register for an honors thesis/project, a completed Honors Application and Registration Form must be filed with the director of Honors Programs by the end of the twelfth week of classes of the semester prior to doing the thesis. Students must earn at least a “B+” in the course to earn honors credit. Other courses students may take for honors in art include any courses at the 200 level or above. For permission to register for a course with honors in the major, a completed Application and Registration Form must be filed with the director of Honors Programs by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a “B+” in the course to earn honors credit.

Department of English

English

The English department plays a central role in the liberal education that prepares Mount Union students for fulfilling lives and successful careers in our ever-changing world. It is a world that has demanded insightful readers and powerful communicators in each new phase of its history going back thousands of years, even before the term “liberal arts” -- “skills of freedom” -- was invented.

Students in the English department explore writing from the past and the present and all over the world because all of it helps us understand life, whether it be our lives as individuals or our nation’s place in a global society. We celebrate the beauty and power of words, but we do not stop there. We see words as the basis for action. To become a liberally educated person is to become more than just “well-rounded.” It is to internalize the habit of critical, flexible, compassionate thinking and thereby to become a more responsible agent in society. It is also to become a more eloquent and persuasive communicator, therefore a more effective agent in society.

The English major’s focus on developing superior core skills of interpretation and communication prepares students for success in a huge range of professions. For example, apart from the well-known paths to teaching and various kinds of professional writing, the English major is also a traditional preparation for law school because of its emphasis on persuasion and the evaluation of verbal evidence. In fact, English is among a handful of majors that consistently place highest for scores on the national law school admissions test (LSAT). Given that a typical American now switches careers three or even five times, the flexible skill set of the English major is a major advantage in both traditional and emerging fields. In other words, the English department is built from the ground up to prepare 21st-century students for success in all three parts of the Mount Union credo: “fulfilling lives, meaningful work and responsible citizenship.”

Requirements for a Major in English

Required Courses		Semester Hours
ENG 150H	True Lies: Introduction to the Literary Imagination	4
Or		
ENG 240H	Popular Literature	4
ENG 220	Careers in English and Writing (cross listed WRT 220)	2
Four courses in period, survey literature:		
ENG 260	British Literature I	4

Four (4) additional ENG courses: at least two (2) must be 300+ level	16
Total	20

Requirements for Honors in English

To receive honors in English, a student must meet all criteria for graduating with honors in a major.

Writing

The University of Mount Union's Writing major is unique because students take a balance of courses in genres historically classified as "creative"—fiction, poetry, creative nonfiction—as well as those often referred to as "professional"—professional writing, writing for the web, and editing. A graduate with a writing degree from Mount Union will be a well-rounded writer and scholar of writing.

The Writing major provides students with a strong foundation in the craft of writing. Students examine the power of language at the macro and micro level; each course in the major offers opportunities to study global concerns about audience and purpose as well as careful editing at the level of the individual word. Students also read widely, analyzing from a writer's perspective to gain insight into the strategies successful writers employ. Students learn how writers do the research that results in creative and effective writing. Over a series of interrelated courses, students practice writing in multiple genres and for multiple purposes.

Students will develop broadly as writers through in-class work and significant experiences outside the classroom—trips to hear writers read their work, conferences in which writers discuss the act of writing, and public opportunities for students to read and receive feedback on their own work. These experiences prepare students to enter the workforce or a graduate program.

Graduates with a writing degree also leave the program with a portfolio of their work—a tangible demonstration of each student's unique abilities and interests essential to the job search, to the graduate school application process, and for publication.

Requirements for a Major in Writing

Required Courses	Semester Hours
------------------	----------------

WRT 110H	Introduction to Professional Writing	4
WRT 120A	Introduction to Creative Writing	4
WRT 200A	Fieldwork for Writers	4
WRT 220	Careers in English and Writing (cross listed ENG 220)	2

Three (3) additional WRT courses; at least two (2) must be 300+ level		12
Total		20

Requirements for Honors in Writing

To receive honors in Writing, a student must meet all criteria for graduating with honors in a major.

Department of History

The History Department develops and maintains an academic curriculum that helps students attain a broad base of knowledge in history and acquire the intellectual and communication skills necessary to an undergraduate education in history. The department offers a major and minor. Students who enroll in history courses gain knowledge about a range of temporal and geographical historical experiences from different parts of the globe and learn to think critically about historical processes that have shaped the historical past as well as contemporary civilization.

Majors are required to engage upper-level coursework to develop depth of understanding, and a Senior Culminating Experience (SCE) course in History is required. The history major prepares students for careers in education, and graduate study in history and related fields. Students with a broad range of professional career interests—including education, law, and business – major in History.

Major in History

History majors will take 44 credit hours in history: 20 required hours, 16 distribution hours selected from three categories, and 8 hours of electives in history at the 200 or 300 level. Both LIB 100 and ECN 105S are required for the History major. It is recommended that students take ECN 105S in their first year of study. LIB 100 is to be taken in the spring of their junior year. Completion of the major and all other university requirements results in a Bachelor of Arts with a major in History degree.

Requirements for the Major in History

or		
HST 102H	Western Civilization II	4
HST 110	Asian Civilization	4
Any 2 additional HST courses		8
Total		16

Requirements for Honors in History

Students are eligible to enter the Honors Program in history if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board. To receive honors in history, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 16 semester hours. One of the courses may be HST 494 Honors Thesis/Project that may be taken for four to six credit hours. For permission to register for an honors thesis/project, a completed Honors Application and Registration Form must be filed with the director of Honors Programs by the end of the 12th week of classes of the semester prior to doing the thesis. Students must earn at least a "B+" in the course to earn honors credit.

Other courses students may take for honors in history include any 200-level or above course, except HST 400 (students should register instead for HST 494). For permission to register for a course with honors in the major, a completed Application and Registration Form must be filed with the director of Honors Programs by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a “B+” in the course to earn honors credit.

Department of Interdisciplinary and Liberal Studies

Interdisciplinary Studies is the process of posing and answering questions, solving problems, or addressing issues which are too broad or complex – or both – to be dealt with adequately by a single discipline. Since most significant issues have multiple causes, interdisciplinary studies integrate a range of perspectives and methodologies to provide a more comprehensive understanding of issues and challenges. It draws upon multiple disciplinary perspectives and integrates their insights to produce an integrative result, a more comprehensive understanding or insight: interdisciplinary understanding. Interdisciplinary Studies students develop and refine the intellectual tools needed to build bridges between academic disciplines.

A self-defined major is available to a student interested in pursuing a concentration of study not specified in this Catalog. Such majors must satisfy all University requirements for graduation and must be consistent with the learning goals of the University of Mount Union. A student who has completed no more than half the courses in the self-defined major and has at least a 2.5 GPA may submit a self-defined program proposal to the Academic Policies Committee. The proposal must include a clear statement of the objective to be reached by the major, a list of courses that will be completed to satisfy the major, and a statement in support of the major from at least two faculty members, preferably in two different disciplines. The Academic Policies Committee will review the proposed major to ensure that it does not significantly duplicate another existing major at the university and that the proposed program is sufficiently rigorous. The proposal should include a clear rationale for pursuing the proposed major, and that the required courses in the major are the best choices for the student’s educational objective. If the Self-Defined Major is approved by Academic Polices, any changes or substitutions must be approved by the Academic Policies Committee and on file with the University Registrar.

Africana Studies Program

Africana Studies is an interdisciplinary program devoted to the historical, cultural, social and political legacies and subjective consequences of the dispersal of African peoples across the globe through the Atlantic, Indian Ocean and Saharan Slave Trades -- the largest forced migration in human history. It comprises the focused and critical study of the people, cultures and institutions of Africa and the African diaspora including the impact of slavery, colonialism, as well as attitudes about race and ethnicity, and, offers an interdisciplinary perspective on problems confronting a modern multiracial world. The program provides University of Mount Union students with exposure to the experiences – historical and contemporary -- of black people(s) while teaching the analytical tools and skills necessary for rigorous and culturally sensitive analyses of those experiences. Faculty in the Africana Studies Program are committed to preparing students in the essential analytical, writing and communication skills necessary for the modern professions as well as graduate and post-graduate study. The Africana Studies Program is part of the Department of Interdisciplinary and Liberal Studies.

Requirements for the Minor in Africana Studies

The Africana Studies Program at the University of Mount Union offers a minor in Africana Studies as outlined below.

Core Course:		Semester Hours
AFR 206H	Africana World(s) and the Emergence of the Modern	4
A second course in Africana Studies		
AFR 199	Special Topics in Africana Studies	4
AFR 228G	Pivotal Africana Figures	4
AFR 260G	Rap and Rhetoric of the Hip Hop Generation	4
AFR 299	Special Topics in Africana Studies	4
AFR 306G	Pan Africanism	4
AFR 326G	Black Diaspora Culture	4
AFR 346V	Imagining Slavery	4
AFR 399	Special Topics in Africana Studies	4
AFR 406	Independent Study in Africana Studies	4
One course from the Arts and Humanities		
ENG 310G	Africana Literature	4
REL 235G	The Black Church	4
	<i>or, an approved international study experience</i>	
One course from the Social Sciences		
HST 225H	History of Africa	4

HST 275H	African American History	4
HST 290H	History of the Civil Rights Movement in the USA	4
COM 200	Global and Intercultural Communication	4
COM 386G	Public Advocacy for Social Justice	4
PSY 385G	Psychology of Prejudice and Power	4

or, approved international study credit of four credit hours

Gender Studies

This interdisciplinary minor, drawn from the humanities and social sciences, examines the significance of gender in shaping the experiences of communities and individuals. Within the liberal arts tradition, gender studies analyzes the effects of cultural attitudes and social structures about gender identity and experiences, examines previously unavailable information about the lives and contributions of women and gender minorities, and demonstrates the importance of gender as a category of analysis to understand social structures of identity, power, and privilege. Graduates who have completed the gender studies minor are poised to work in a variety of settings ranging from social service to policy and lobbying organizations to research centers and educational services. Additionally, minoring in gender studies appropriately prepares students for many graduate programs.

Students are required to take a minimum of 16 credit hours: GEN 201S Introduction to Gender Studies and three other courses in the minor including at least one humanities course and at least one social science course. Students are highly encouraged to complete five courses, one of which may be an internship. The gender studies minor is part of the Department of Interdisciplinary Studies.

Requirements for the Minor in Gender Studies

Required Gender Studies Courses		Semester Hours
GEN 201S	Introduction to Gender Studies	4
Any one course from the following humanities courses		
ENG 345V	Gender Issues in Literature and Culture	4
GEN 220	Gender, Body, Identity	4
HST 260	Women in East Asia	4
HST 280	American Women's History	4
REL 370G	Gender and Religion	4
SPN 220	Gender and Ethnicity in Spanish-American Literature	4
Any one course from the following social science courses		
COM 378G	Social Identity, Power and the Media	4
COM 380G	Gender, Communication and Society	4
CRJ 208	Diversity Issues in Criminal Justice	4
ECN 330G	Economics of Gender	4
PSY 380G	Psychology of Gender	4
SOC 240	Sex, Love and Relationships	4
SOC 310	American Families	4
SOC 320	The World of Males & Females: A Sociological Perspective	4
At least one other course from the entire Gender Studies curriculum		
COM 378G	Social Identity, Power and the Media	4
COM 380G	Gender, Communication and Society	4
CRJ 208	Diversity Issues in Criminal Justice	4
ECN 330G	Economics of Gender	4

SOC 240	Sex, Love and Relationships	4
SOC 310	American Families	4
SOC 320	The World of Males & Females: A Sociological Perspective	4
Total		16

Peacebuilding and Social Justice

The peacebuilding and social justice minor at the University of Mount Union is an interdisciplinary program rooted in the humanities and drawing from the social sciences and other academic realms as well. Students will engage, analyze, and work to resolve messy, overlapping and complex interpersonal, community, and international conflicts, consider and implement creative, nonviolent, and sustainable solutions which draw from the expertise and perspectives of multiple academic perspectives, and will leverage their interdisciplinary training and disciplinary expertise to prevent conflict and to be makers and sustainers of peace and justice at home and abroad, in their homes, workplaces, and communities. As an excellent complement to nearly any academic major, and given the program's commitment to theoretical understanding, practical skills-building, and engagement with diversity, completion of the minor in peacebuilding and social justice well prepares students for graduate work and/or for a career in law, education, counseling, business, the non-profit world, social service, and many other fields. The Peacebuilding and Social Justice Program is part of the Department of Interdisciplinary and Liberal Studies.

Requirements for the Minor in Peacebuilding and Social Justice

Required Course		Semester Hours
PSJ 150H	Peacebuilding and Social Justice	4
Two of the following in the Humanities		
COM 378G	Social Identity, Power, and Media	4
COM 386G	Public Advocacy for Social Justice	4
HST 207V	Progressive Movement in American History, 1880-1945	4
HST 208V	United States since 1945	4
IDS 200H	Why Forgive?	4
REL 340V	Christian Social Ethics	4
REL 360G	Religious Conflict and Peacebuilding	4
ENG 305G	Global Anglophone Literatures	4
ENG 320G	Irish Literature and Culture	4
ENG 335	Literature and Human Rights	4

POL 315	Public Policy	4
POL 325	Civil Rights; Race, Gender, and Sexual Orientation Discrimination	4
POL 321	Terrorism	4
POL 348	Problems of Developing Nations	4
PHL 350	Social Responsibility and Personal Well-Being	4
PSY 385	Psychology of Prejudice and Power	4
SOC 220	The Many Faces of Poverty	4
SOC 225	Family Violence	4
Experiential Requirement (minimum of 4 hours)		
One of the following practicums in peacebuilding that bridges theory and practice		
PSJ 300V	Building Community, Building Peace	4
PSJ 490*	Travel Seminar (or other study abroad experience*)	4
PSJ 495	Independent Study	4
PSJ 499	Internship	4

*In consultation with and approval of the Coordinator of the Peacebuilding and Social Justice Program. USAC programs offer a variety of appropriate experiences including but not limited to Holocaust/Genocide/Peace Studies programs in England, Israel, Japan, Korea, Norway, Scotland and Sweden; short-term travel seminars may also qualify.

Department of Music

The University of Mount Union Department of Music offers vital instruction and essential experiences for future professional musicians and also fulfills its role in the liberal arts curriculum. A highly-qualified faculty provides fine training for students who anticipate careers in music and provides instruction in topics such as music theory, music appreciation, performance, and music history for majors and non-majors alike. Course offerings allow all students to acquaint themselves with the rich musical heritage of the world and to develop a greater understanding of the aesthetic experience.

The University of Mount Union Department of Music is an accredited institutional member of the National Association of Schools of Music. The Mount Union Department of Music has been accredited by the NASM since 1935, and the requirements for entrance and graduation set forth in the Catalog are in accordance with the published regulations of that organization.

Admission Requirements

Admission to the music degree programs is highly selective. The following outlines the admission requirements for the music degree programs.

Admission Requirements:

- Apply and be admitted to the University of Mount Union
- Indicate a music degree program as a first academic interest on the application for admission
- Complete the separate application for admission into the music degree programs, which includes the following:
 - A description of your musical experiences including ensembles, private music lessons, and related musical activities
 - A reference letter from a music professional who can attest to your potential for success as a college music major (private vocal/instrumental teacher, ensemble director, church musician, etc.)
 - A 500-word essay addressing the following questions:
 1. Why do you want to major in a music degree program?
 2. What is your career goal as a musician? Why?
 3. What are your musical strengths and weaknesses?
 - Your order of preference for an on-campus audition date
 - Repertoire you will perform at your on-site audition (must fulfil departmental repertoire requirements)
- Complete an on-site audition, including:
 - Audition for the music faculty on your main instrument—should be comprised of the repertoire you indicated on your application for admission into the music degrees above. Auditioning students will present a printed list of repertoire in person to the faculty hearing the audition. Auditioning students are encouraged to bring their own accompanist to the audition; if that is not possible, the department will provide an accompanist upon request (you must give four weeks' notice and provide the musical score to the department no later than three weeks before audition date).
 - Participate in an interview with the music faculty regarding musical and academic experience and goals.
 - Complete music theory, musicianship, and piano proficiency diagnostic tests. These tests are used for correct placement in the music curriculum course sequence and do not factor into the student's admission to the music program.

Following the application process to the music degree programs, student may be:

- Admitted or
- Admitted on a conditional basis* or
- Not admitted**

*Students admitted conditionally will be provided with a list of musical aspects that must be improved in order for conditional status to be removed; the music faculty will consider the work of these students at the end of the first semester by evaluating their performance at the jury on their primary instrument and their performance in MUS prefix coursework. Students may be admitted conditionally in case of long-distance auditions. These students must complete the music theory, musicianship, and piano proficiency diagnostic tests by the end of the first week of their first semester in the major in order for conditional status to be removed.

**Students admitted to the University of Mount Union who are not admitted to the music degree programs may choose another major or reapply for the music degree program admission during the following academic year.

Note: The admission process described above applies to transfer students and current University of Mount Union students who wish to change their major to one in a music degree program.

Curricula Offered

Mount Union offers two degrees in music: Bachelor of Music with a major in Music Education (a professional degree) and Bachelor of Arts with a Major in Music (a liberal arts degree). Flexibility in curriculum choice and variety allows students to prepare for graduate work in music or for professional work in music education. Each degree program serves a specific role for our students. The philosophy and focus of each degree is given below:

Bachelor of Music with a Major in Music Education

As a professional degree in music education (as defined by the National Association of Schools of Music), the Music Education program is focused on developing skills in musicianship and performance, as well as conducting, rehearsing small and large vocal, instrumental, and mixed ensembles, and teaching general music classes, pre-K through grade 12. Our focus in this degree program is to help students to become well-qualified teachers, not only by training them for their first job, but also by equipping them with skills for life-long learning.

Successful completion of the Bachelor of Music with a Major in Music Education and all guidelines of the University's Teacher Education Program, including passing all state licensure exams (among other requirements), may lead to a P-12 Multi-Age License in Music in the State of Ohio.

Requirements for the Bachelor of Music Degree with a Major in Music Education

Required Music Courses		Semester Hours
MUS 110	Music Theory I	3
MUS 111	Foundations of Musicianship	2
MUS 112	Music Theory II	3
MUS 113	Musicianship Skills I	2
MUS 140	Vocal Techniques and Diction	2
MUS 141	Brass Instruments	1
MUS 143	Piano Class I	1
MUS 144	Piano Class II	1
MUS 150	Introduction to Music Education	2
MUS 201	History and Analysis of Western Music I	4
MUS 210	Music Theory III	3
MUS 211	Musicianship Skills II	3
MUS 213	Musicianship Skills III	3
MUS 240	Stringed Instruments	1
MUS 242	Woodwind Instruments	1
MUS 243	Piano Class III	1
MUS 244	Piano Class IV	1
MUS 245	Percussion Instruments	1
MUS 301	History and Analysis of Western Music II	4
MUS 310	Orchestration and Arranging	2
MUS 320	Choral Conducting and Literature	4
MUS 321	Instrumental Conducting and Literature	4
MUS 330	Music Methods: Early Childhood	4
MUS 331	Music Methods: Middle Childhood and Adolescence to Young Adult	4
MUS 352G	World Music and Ethnographic Music Study	4
MUS 430	Music Methods: Instrumental	4
MUS 438	Clinical Practice	12

Any One from the Following Music Courses for Seven Semesters:
(Except for the semester of Clinical Practice)

MUS 260	Concert Choir	1
MUS 261	Mount Union Alliance Chorale	.5
MUS 262	Cantus Femina	1
MUS 266	Symphony Orchestra: Strings	1
MUS 267	Fall Band	1.5
MUS 268	Wind Ensemble	1
MUS 269	Concert Band	.5

All music education majors must register for and successfully complete one semester of Fall Band.

Any one from the Following Music Courses for Two Semesters:

MUS 361	Accompanying	.5
MUS 362	Master Chorale	.5
MUS 364	Guitar Ensemble	.5
MUS 365	Musical Theatre Workshop	.5
MUS 366	Student Musical	.5
MUS 367	String Chamber Ensemble	.5
MUS 368	Flute Ensemble	.5
MUS 369	Woodwind Ensemble	.5
MUS 370	Clarinet Ensemble	.5
MUS 371	Saxophone Ensemble	.5
MUS 372	Woodwind Quintet	.5
MUS 373	Trumpet Ensemble	.5
MUS 376	Brass Quintet	.5
MUS 377	Brass Ensemble	.5
MUS 378	Percussion Ensemble	.5
MUS 379	Handbell Choir	.5
MUS 380	Jazz Band	.5
MUS 381	Collegium Musicum	.5
MUS 385	Other Ensemble	.5

Any One from the Following Music Courses as an Applied Major (seven hours) and an Applied Minor (three hours):

MUS 460	Piano	1-2
MUS 461	Organ	1-2
MUS 462	Harpsichord	1-2
MUS 463	Voice	1-2
MUS 464	Violin	1-2
MUS 465	Viola	1-2
MUS 466	Violoncello	1-2
MUS 467	String Bass	1-2
MUS 468	Electric Bass	1-2
MUS 469	Guitar	1-2
MUS 470	Harp	1-2
MUS 471	Flute	1-2
MUS 472	Oboe	1-2
MUS 473	Clarinet	1-2
MUS 474	Saxophone	1-2
MUS 475	Bassoon	1-2
MUS 476	Trumpet	1-2
MUS 477	French Horn	1-2
MUS 478	Euphonium	1-2
MUS 479	Trombone	1-2
MUS 480	Tuba	1-2
MUS 481	Percussion	1-2

Required Education Courses:

EDU 230	Student Development: Implications for Planning and Teaching	4
EDU 355	Content Area Literacy	4
or		
MCH 345	Content Area Literacy in Middle School	4

Total 99.5– 105 MUS and Education Courses

One hour of the applied major should be taken each semester (for a total of seven) with the exception of the semester of Clinical Practice. MUS 143, MUS 144, MUS 243, and MUS 244 may count toward the applied minor requirement.

Proficiency requirements in keyboard must be met before the student may register for MUS 438 (Clinical Practice).

Candidates seeking a teaching license in music must earn a grade of “C” or better in all professional music education courses. If a minimum grade of “C” is not earned, candidates are required to retake the course until a grade of “C” is earned. Professional music education courses include MUS 330, MUS 331, MUS 430 and MUS 438.

Bachelor of Arts with a Major in Music

As a liberal arts degree, Bachelor of Arts with a Major in Music allows the student to hone skills in musicianship, to focus on a primary performance area, to gain keyboard competency, and to acquire a solid grounding in theory and music history; however, this degree program allows students to complete a significant amount of coursework in another academic discipline. Students in this degree program also have room in their required 128 hours for additional electives, including the opportunity to complete a concentration in Music Composition or Music Performance. By combining study in music with significant amounts of study in one or more other academic disciplines, the Bachelor of Arts allows students to integrate their work in creative ways that may lead directly to employment or graduate study in music or another related area.

Requirements for the Bachelor of Arts Degree with a Major in Music

Required Music Courses:

		Semester Hours
MUS 110	Music Theory I	3
MUS 111	Foundations of Musicianship	2
MUS 112	Music Theory II	3
MUS 113	Musicianship Skills I	2
MUS 143	Piano Class I	1
MUS 144	Piano Class II	1
MUS 201	History and Analysis of Western Music I	4

MUS 211	Musicianship Skills II	3
MUS 213	Musicianship Skills III	3
MUS 301	History and Analysis of Western Music II	4
MUS 487	Senior Project	3

Any One from the Following Music Courses for Six Semesters

MUS 260	Concert Choir	1
MUS 261	Mount Union Alliance Chorale	.5
MUS 262	Cantus Femina	1
MUS 266	Symphony Orchestra: Strings	1
MUS 267	Fall Band	1.5
MUS 268	Wind Ensemble	1
MUS 269	Concert Band	.5

Any from the Following Music Courses for a Total of Two Semesters:

MUS 361	Accompanying	.5
MUS 362	Master Chorale	.5
MUS 364	Guitar Ensemble	.5
MUS 365	Musical Theatre Workshop	.5
MUS 366	Student Musical	.5
MUS 367	String Chamber Ensemble	.5
MUS 368	Flute Ensemble	.5
MUS 369	Woodwind Ensemble	.5
MUS 370	Clarinet Ensemble	.5
MUS 371	Saxophone Ensemble	.5
MUS 372	Woodwind Quintet	.5
MUS 373	Trumpet Ensemble	.5
MUS 376	Brass Quintet	.5
MUS 377	Brass Ensemble	.5
MUS 378	Percussion Ensemble	.5
MUS 379	Handbell Choir	.5
MUS 380	Jazz Band	.5
MUS 381	Collegium Musicum	.5
MUS 385	Other Ensemble	.5

Any One from the Following Music Courses as an Applied Major (six hours):

MUS 460	Piano	1-2
MUS 461	Organ	1-2
MUS 462	Harpsichord	1-2
MUS 463	Voice	1-2
MUS 464	Violin	1-2
MUS 465	Viola	1-2

MUS 466	Violoncello	1-2
MUS 467	String Bass	1-2
MUS 468	Electric Bass	1-2
MUS 469	Guitar	1-2
MUS 470	Harp	1-2
MUS 471	Flute	1-2
MUS 472	Oboe	1-2
MUS 473	Clarinet	1-2
MUS 474	Saxophone	1-2
MUS 475	Bassoon	1-2
MUS 476	Trumpet	1-2
MUS 477	French Horn	1-2
MUS 478	Euphonium	1-2
MUS 479	Trombone	1-2
MUS 480	Tuba	1-2
MUS 481	Percussion	1-2

Total 42-47 from MUS courses, 16-20 from another Academic Department (to complete the Academic Minor)

Completion of an Academic Minor (16-20 cr.) is required for the Bachelor of Arts with a Major in Music. Proficiency Requirements in keyboard must be met before the student may register for the eighth semester.

Requirements for the Bachelor of Arts Concentration in Music Composition

This concentration is for students interested in Performance training on an instrument or voice, cultivating an understanding of the practical challenges faced by individual performances of the composer's works, performance training in large and small ensembles, cultivating an understanding of the practical challenges faced by conductors and performers of the composer's works in group settings, self-promotion and entrepreneurship, basic music technological proficiency, and the ability to conduct and orchestrate one's own compositions.

In addition to University requirements for the Bachelor of Arts in Music, those pursuing the Concentration in Music Composition must complete the following courses:

Required Courses		Semester Hours
ENT 150	Introduction to Entrepreneurship	4
MUS 243	Piano Class III	1
MUS 314	Music Technology for the Performing Musician	4
MUS 310	Orchestration and Arranging	2
MUS 482	Applied Composition and Analysis	10

Any one from the following courses:

MUS 320	Choral Conducting and Literature	4
MUS 321	Instrumental Conducting and Literature	4

Total 25

Requirements for the Bachelor of Arts Concentration in Music Performance

This concentration is for students interested in performance training in stylistic or instrumental diversity, self-promotion and entrepreneurship, basic music technological proficiency, and the ability to conduct or arrange one's performing music.

In addition, all University requirements for the Bachelor of Arts in Music, those pursuing the Concentration in Music Performance must complete the following courses:

Required Courses		Semester Hours
ENT 150	Introduction to Entrepreneurship	4
MUS 314	Music Technology for the Performing Musician	4

Additional Applied Lesson Credits

Applied Lesson Primary Area	2
Applied Lesson Secondary Area	4

Additional Ensemble Credits (2 Semesters)		
Large Ensemble		1-3
Any one from the following courses:		
MUS 310	Orchestration and Arranging	2
MUS 320	Choral Conducting and Literature	4
MUS 321	Instrumental Conducting and Literature	4
Total		17-21

Requirements for the Minor in Music

Required Courses		Semester Hours
MUS 200A	Music, the Arts, and Culture	4
MUS 110	Music Theory I	3
MUS 111	Foundations of Musicianship	2
MUS 112	Music Theory II	3
MUS 113	Musicianship Skills I	2
MUS 143	Piano Class I	1

Any from the Following Music Courses for Two Semesters:

MUS 260	Concert Choir	1
MUS 261	Mount Union Alliance Chorale	.5
MUS 262	Cantus Femina	1
MUS 266	Symphony Orchestra: Strings	1
MUS 267	Fall Band	1.5
MUS 268	Wind Ensemble	1
MUS 269	Concert Band	.5

Any One from the Following Applied Music Courses (two hours):

MUS 460	Piano	1
MUS 461	Organ	1
MUS 462	Harp	1
MUS 463	Voice	1
MUS 464	Violin	1
MUS 465	Viola	1
MUS 466	Violoncello	1
MUS 467	String Bass	1
MUS 468	Electric Bass	1
MUS 469	Guitar	1
MUS 470	Harp	1
MUS 471	Flute	1
MUS 472	Oboe	1
MUS 473	Clarinet	1
MUS 474	Saxophone	1
MUS 475	Bassoon	1
MUS 476	Trumpet	1
MUS 477	French Horn	1
MUS 478	Euphonium	1
MUS 479	Trombone	1
MUS 480	Tuba	1
MUS 481	Percussion	1

Total		17*-20 credits (depending on major ensembles and primary performance area)
-------	--	--

*Students for whom piano is their major performing area need to take two semesters hours (total) of applied piano (MUS 460).

Requirements for Honors in Music

The requirements for graduation with honors in music are:

- a grade point average of at least 3.5 in music at graduation
- completion of at least three courses in music for honors credit for a total of at least 12 semester hours; the courses must be numbered 200, 300, or 400; honors in these courses will be earned with the approval of the instructor and the music faculty; additional requirements for honors may include a series of oral reports, a bibliographic paper, or a music performance or research project; superior quality work is required throughout these courses and may be an honors thesis/project (MUS 494) of three to six hours credit.

Departmental Regulations

Students in the Bachelor of Music in Music Education program are required to attend 15 recitals and concerts per semester except for the semester of clinical practice. All students in the B.A. music degree with a major in music must attend 10 recitals or concerts per semester. Music minors must attend five recitals or concerts per semester. The specific distribution of recitals and concerts is posted at the Visual and Performing Arts Office near the beginning of each semester.

First year Music and Music Education majors are required to perform a solo in a Student Showcase or other departmental public recitals once each academic year. Sophomore, junior and senior music majors are required to perform a solo in a student recital each semester of applied music major lessons.

Any student enrolled in the Department of Music must have prior approval of the applied instructor and notify the department chair of such approval before making a public appearance as a music performer.

Students preparing public recitals, other than general student recitals, must perform for the music faculty approximately one month prior to the recital date. Final permission for public appearance is contingent upon faculty approval at this hearing.

Accompanists must be approved by the keyboard faculty four weeks before a scheduled appearance.

Student-composed works must be produced under the guidance of a qualified University of Mount Union faculty member. Compositional study should be undertaken the semester before the proposed performance.

Music education majors are required to participate in one of the large ensembles in their major performance area each semester except when completing clinical practice. Instrumental majors are additionally required to participate in a large choral ensemble for a minimum of two semesters. All music education majors must register for and successfully complete one semester of MUS 267 Fall Band. Vocal majors are additionally required to participate in a large instrumental ensemble for a minimum of two semesters. These ensembles are MUS 260, 261, 262, 266, 267, 268, or 269. Students are strongly advised to participate in at least one semester of the opposite area ensemble before the conducting sequence (MUS 320 and MUS 321) is begun.

Candidates for the Bachelor of Arts degree, with a major in music, must take the Integrative Core fine arts courses from a department other than music.

Advanced standing in music theory may be granted to students who pass examinations proving they have completed work equivalent to that required by the course. Written consent of the department chair is necessary for the examination to be given. Success in the examination affects only the theory requirement and does not diminish the number of hours necessary for graduation.

Music education majors are required to fulfill the policies for the Teacher Education Program. More information can be found in the Department of Education section of this Catalog.

All freshmen considering music as a major will be enrolled in an identical music schedule (except for applied major and minor areas) for the first semester.

The *Music Student Handbook* outlining all policies and programs pertaining to the music major and minor and private music lessons is available on the University of Mount Union website and is to be considered an extension of this Catalog.

Candidates for the degrees of Bachelor of Music are eligible to complete only one major.

Students majoring in music programs will complete Gates A and B, generally at the end of the first year and second year, respectively. These Gates serve as an opportunity for the music faculty to check for appropriate progress in a student's music major curriculum. The process, possible outcomes, and the appeals process for results of Gates A and B are described in the *Music Student Handbook*, which constitutes an extension of the policies in this Catalog.

Department of Philosophy and Religious Studies

Philosophy

The study of philosophy enables students to think more clearly and creatively by providing them with experience in analyzing and evaluating arguments about the most fundamental topics: the sources and limits of human knowledge, the nature of the world and the self, and the foundations of ethical and aesthetic value. The courses are designed to help students engage with important philosophical works, both historical and contemporary, and to thereby assist in developing rational and reflective approaches to both theoretical and applied issues.

Because the study of philosophy is excellent preparation for further study and practice in many areas, the philosophy major at the University serves a variety of students, including students who intend to continue their studies in philosophy graduate programs, and double majors who intend to continue their studies in law, computer science, seminary, writing, or other fields. Most Philosophy courses have no prerequisites and are open to all students with an interest in the area.

The philosophy major and minor are administered by the Department of Philosophy and Religious Studies.

Requirements for the Major in Philosophy

Required Philosophy Courses		Semester Hours
PHL 210	Logic	4
PHL 220H	Ancient Greek Philosophy	4
PHL 230V	Modern Philosophy	4
Ethics Requirement - Any One from the Following Courses		
PHL 270V	Ethics	4
PHL 280H	Bio-Medical Ethics	4
PHL 290V	Environmental Ethics	4
PHL 335V	Business Ethics	4
Epistemology/Metaphysics Requirement - Any One from the Following Courses		
PHL 250H	Philosophy of Religion	4
PHL 310V	Experience, Knowledge, and Reality	4
PHL 320V	Philosophy of Mind/Artificial Intelligence	4
Three additional 4-sem-hrs PHL courses, at least two of which must be at the 200-level or above		12

In meeting the Electives requirement, students with a double major may include one course from their other major that is approved by the Philosophy and Religious Studies Chair as a “theoretical foundations” course.

Research Portfolio Requirement		Semester Hours
PHL 420	Research Portfolio	1

Philosophy Majors are required to develop a portfolio of three significant research essays during their course of study. In assembling the portfolio, one of the following options should be chosen:

- (1) Distribution option: one essay in history, one in ethics, and one in epistemology/metaphysics.
- (2) Focus option: three essays in one area from different courses (e.g., ethics essays on Plato, on environmental ethics, and on the ethics of artificial intelligence).

Essays will normally be written as part of the requirements for regularly-offered courses in the relevant areas. Faculty will work with majors to ensure that appropriate opportunities for such writing are available in those courses. During their senior year, majors will register for PHL 420, which will require them to develop one or more of their research topics into a presentation for Department faculty and students.

Total 33

Requirements for the Minor in Philosophy

Required Courses		Semester Hours
Four 4-sem-hrs PHL Courses, at least three of which must be at the 200-level or above		16

Religious Studies

The Religious Studies major seeks to prepare students for a fulfilling life, meaningful work, and responsible citizenship through inviting them to engage in questions that are at the core of human identity, value, and meaning. Students will explore the nature and place of religion in human experience in both its individual and corporate dimensions. Religious experience will be explored through scriptural, historical, theological, and ethical traditions in the world’s religions. The major allows students to develop breadth across the fields of religious studies, as well as depth in an applied area. Students majoring in Religious Studies may not minor in Pre-Ministry.

Requirements for the Major in Religious Studies

Required courses		Semester Hours
REL 120H	Reel Religion: Religion and Human Experience	4
REL 200H	Biblical Texts and Contexts	4
REL 220H	Religions of the World	4
or		
REL 240H	Interreligious Understanding: Can’t We All Just Get Along?	4
REL 410	Religious Studies Portfolio	1

Experiential Learning Element, at least 2 semester hours, selected from:		
REL 490	Travel Seminar	2-4
REL 495	Research	2-4
REL 499	Internship	2-8
Five additional REL courses (may include PHL 250H), at least three of which are 300-level or above		20
Total		35 minimum

Requirements for the Minor in Religious Studies

Required courses		Semester Hours
REL 120H	Reel Religion: Religion and Human Experience	4
Three additional REL courses (may include PHL 250H) at least one of which is 300-level or above		12
Total		16 minimum

Pre-Ministry Concentration

Required courses		
REL 255V	Christianity: Past, Present, Future	4
REL 340V	Christian Social Ethics	4
One Bible Course (REL 200, 300, 310 or 315)		4
REL 499	Internship	4
Choose one from the following:		
COM 220S	Interpersonal Communication	4
COM 225S	Small Group and Organizational Communication	4
SOC 100S	Introduction to Sociology	4
SOC 220	The Many Faces of Poverty	4
Total		20

Requirements for the Minor in Pre-Ministry Studies

The minor in Pre-Ministry Studies prepares students for seminary or other ministry opportunities. Students majoring in Religious Studies may not minor in Pre-Ministry Studies.

Required Courses		
REL 255V	Christianity: Past, Present, Future	4
REL 340V	Christian Social Ethics	4
One Bible Course (REL 200, 300, 310, or 315)		4
REL 499	Internship	4
One course chosen from the following:		
COM 220S	Interpersonal Communication.	4
COM 225S	Small Group and Organizational Communication	4
SOC 100S	Introduction to Sociology	4
SOC 220	The Many Faces of Poverty	4
Total		20

Department of Theatre

The theatre major and minor are administered through the Department of Theatre. The department seeks to integrate the strengths of the liberal arts tradition with the career preparation skills necessary to graduates in the field of theatre. The program of study is designed to prepare students who are technically proficient as well as being knowledgeable and conversant in the theory, history, literature and criticism of their discipline.

The theatre major is structured to provide students with a broad foundation in all areas of theatre as preparation for graduate study or careers in professional theatre. All students complete a common core of classes and then choose to emphasize

either the performance or production aspects of theatre by completing one of three tracks: Design Technical, Musical Theatre, or Performance. Theatre electives are available to all students.

Admission Requirements

Admission to the Theatre degree program requires an audition or portfolio review.

Theatre auditions/portfolio reviews serve two purposes:

1. **Direct Entry Admission:** For students who wish to major in theatre and are applying for direct-admission, auditions are a required part of the process as they are an evaluation of skill and potential for success.
2. **Theatre Scholarship Award:** Visual and Performing Arts Scholarships are available to students who demonstrate exceptional talent in theatre. Scholarship awards are offered to theatre and non-theatre majors who have been admitted to the University. There is also a blended scholarship available for students double majoring in both theatre and music. Visit our website to view the blended theatre/music audition form.

The following outlines the admission requirement for the theatre degree programs:

- Apply and be admitted to the University of Mount Union
- Indicate a theatre degree program as a first or second academic interest on the application for admission.
- Arrange for an audition or portfolio review:

Performance Auditions: Prospective students will present two prepared pieces which contrast each other in style or genre. Musical theatre performers should include a song from Musical Theatre as one of the prepared pieces. An accompanist will be provided.

Portfolio Reviews: Prospective students will present a portfolio of work completed as a designer, stage manager, and/or theatre technician. Process photographs and items such as prompt books, renderings, programs, and reviews are preferred.

All prospective students will participate in an interview with the theatre faculty and, if appropriate, members of the music faculty regarding theatrical and academic experience and goals.

Following the application process to the theatre degree program, a student may be admitted or admitted on a conditional basis. Students admitted conditionally will be provided with a list of areas of focus that must be improved in order for provisional status to be removed. The theatre faculty will consider the work of these students at the end of the first semester by evaluating their performance in THE coursework, auditions, or work in support of departmental productions. If after two semesters the theatre faculty is unable to see significant improvement, the student will be encouraged to minor in theatre.

Requirements for the Major in Theatre

Required Theatre Courses		Semester Hours
THE 150	Acting I	4
THE 200A	People, Society, and Theatre	4
THE 360	Directing for the Stage	4
THE 275	Theatre Practicum I	.5
THE 276	Theatre Practicum II	.5
THE 375	Theatre Practicum III	.5
THE 420	Senior Culminating Experience	2
Total		15.5

In addition to the above required courses, all theatre majors must choose one of the following three tracks to complete the major:

Design/Technical Track

THE 141	Lighting Craft	2
THE 142	Stage Craft	2
THE 143	Costume Technology	2
THE 144	Stage Make Up	2
THE 341	Lighting Design	4
THE 342	Scene Design	4
THE 343	Costume Design	4

Two from among the following:

THE 205A	History of the American Musical Theatre	4
THE 305	Theatre History I	4
THE 306	Theatre History II	4

One from among the following:		
THE 341	Lighting Design	4
THE 342	Scene Design	4
THE 343	Costume Design	4
Two from among the following:		
THE 141	Lighting Craft	2
THE 142	Stage Craft	2
THE 143	Costume Technology	2
THE 144	Stage Make Up	2
Departmental requirements		44
Required Extra-Departmental Courses for the Performance Track include:		

MUS 463	Applied Voice (2 Semesters Total)	2
---------	-----------------------------------	---

Total for the Theatre Major Performance Track 46

In addition to the major requirements, students are encouraged to enroll in courses in art, history, philosophy, psychology, sociology and literature. These selections are made in consultation with the student's advisor and generally reflect the student's career interests. As an adjunct to their career preparation, students are strongly encouraged to actively participate in Mount Union Players, the theatre production organization and any large vocal ensemble from the Department of Music.

Requirements for the Minor in Theatre

Required Theatre courses		Semester Hours
THE 150	Beginning Acting I	4
THE 200A	People, Society, and Theatre	4
THE 275	Theatre Practicum I	.5
THE 276	Theatre Practicum II	.5

One from among the following:

THE 205A	History of the American Musical Theatre	4
THE 305	Theatre History I	4
THE 306	Theatre History II	4

Two from among the following:

THE 142	Stage Craft	2
THE 143	Costume Technology	2
THE 144	Stage Make Up	2

Total 17

Internship Programs in Theatre

Majors in theatre whose career interests lie in professional theatre are urged to participate in the departmental internship program. Internships provide students with professional field experience in their chosen area and are open to qualified juniors and seniors by application. Students planning internships should consult with their advisors during the academic year preceding their internship experience.

Requirements for Honors in Theatre

Students are eligible to enter the Honors Program in theatre if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board. To receive honors in Theatre, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 16 semester hours. One of the courses may be TH 494 Honors Thesis/Project. For permission to register for an honors thesis/project, a completed Honors Application and Registration Form must be filed with the director of Honors Programs by the end of the twelfth week of classes of the semester prior to doing the thesis. Students must earn at least a "B+" in the course to earn honors credit.

For permission to register for a course with honors in the major, a completed Application and Registration Form must be filed with the director of Honors Programs by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a "B+" in the course to earn honors credit.

University Honors

University Honors Curriculum

Honors General Education		Semester Hours
HON 110	Honors First Year Seminar	4
Honors Foundation Courses:		
HON 12X	Arts	4
HON 14X	Humanities	4
HON 16X	Natural Science	4
HON 18X	Social Science	4

Students will take Honors Foundations courses in three of the four areas. Students will cover the fourth foundational area by taking an elective in the area as approved by the Honors Directors (may include a fourth Honors Foundation, IC Foundation, transfer/post-secondary/AP credit, or any-level elective in that area). Science courses taken to fulfill the requirement must include a lab.

Honors Explorations:

HON 300G	Engaging Diversity	4
XXX 300-400-level concurrent with HON 350		4
HON 350 Honors Explorations Project		0

Students will take one Honors Explorations course and complete a project that develops the explorations of engaging diversity in a second course of their choosing at the 300- or 400-level. Students will submit a proposal similar to that required for an Honors in the Major project and will register for HON 350 Honors Explorations Project for 0 semester hours along with the selected course. Students must receive an S in HON 350 and a B+ in the course to fulfill the Honors Explorations requirement.

HON 410	Honors Capstone	4
---------	-----------------	---

Total Hours in University Honors	32
----------------------------------	----

*University Honors scholars must complete the math and world language proficiencies and the WOC portfolio required of all University of Mount Union students. Special recognition will be given on graduation day for students who earn University Honors.

Department of World Languages and Cultures

The Department of World Languages and Cultures supports the liberal arts philosophy of the University and furthers its mission by providing students the opportunity to broaden their perspectives humanistically and pragmatically. Through the study of world languages, literatures, and cultures, students develop the flexibility of mind essential to meet the demands of a pluralistic society and an ever-changing global marketplace.

The world language majors in French, German, Japanese, and Spanish prepare students for careers where an understanding of a world language and culture is needed, such as in business, government, social work, and law, as well as for graduate study and the teaching profession. All world language majors must complete a University-approved study abroad experience. Teacher candidates must meet the requirements of the University of Mount Union and the Ohio Department of Education for teacher licensure in French, German, Japanese, or Spanish.

The Department of World Languages and Cultures is committed to the effective use of competent, professionally trained faculty with advanced-level graduate training and research in the teaching of world languages at the university level. Additionally, the Department recognizes the value of technology as an enhancement in the language-learning process. The Department's language resource center permits computer-assisted instruction and the use of digital media as tools for effective language learning.

Native speakers of world languages offered at the University of Mount Union who wish to enroll in a course in their native language are encouraged to enroll in an upper-level content (not a skills) course such as literature and culture. Such students should seek the advice of the instructor or the department chair if they have questions about which course to take. All courses are taught primarily in the target language unless otherwise indicated in the course description.

Students wishing to receive CLEP credit in a language offered at Mount Union must take the CLEP examination prior to completing a course in that target language at Mount Union or at another college/university. Once a student has completed the target language course, CLEP credit cannot be awarded in that language.

The World Language Proficiency Requirement

As a graduation requirement, all Mount Union students must demonstrate proficiency in a modern world language equivalent to the satisfactory completion of a 102-level course. Students can demonstrate proficiency in a modern world language by choosing one of these options:

- Passing an approved examination administered by the Department of World Languages and Cultures;
- Providing an AP score of 4 or 5;
- Providing a CLEP score of 50;
- Providing a Seal of Biliteracy for a modern world language;
- Completing course work in a modern world language at Mount Union or at another accredited university at or above the 102 level.

Entering students who present a State Seal of Biliteracy in a modern world language may be awarded credit per Mount Union policy. General conditions of transferring credit also apply here, regardless of credit earned through the State Seal of Biliteracy program.

International degree-seeking students whose native language is not English can satisfy the world language proficiency requirement in one of the above-mentioned ways, or by

- Presenting a TOEFL score of 61 iBT or higher or,
- Presenting an IELTS score of 5.5 or higher or,
- PTE Academic score of 46 or higher or,
- Completion of ELS level 112 or,
- Completion of secondary school and/or college credit in a country where English is not the first language or
- Satisfactorily completing an ESL course at the 110 level or higher. English as a Second Language Administered by the Department of World Languages and Cultures, courses in English as a Second Language (ESL) are offered, but no major or minor is given in this area of study. The courses offered are provided especially for those international students who require additional English language study or who need to meet the academic demands of the University. ESL courses are considered remedial courses for international degree-seeking students. International students who take ESL courses may not apply those credits toward graduation.

Proficiency Examinations

The Department of World Languages and Cultures offers proficiency examinations to allow students to meet graduation requirements and/or to be placed in higher level courses. These examinations demand more than an elementary acquaintance with course material. The student must have solid command of the concepts and problem-solving skills for the topic and therefore should attempt a proficiency examination only after proper study and preparation.

Students that have enrolled and received a grade for a course at the University of Mount Union where a proficiency examination exists cannot take the topic specific proficiency examination to meet requirements for understanding the course content. A topic specific proficiency examination can only be taken once.

Deadline for students to take the placement test is by the time designated by the Department of World Languages and Cultures each semester.

The deadline to take proficiencies in the Department of World Languages and Cultures is the Wednesday before Fall Break (Fall semester) and the Wednesday before Spring Break (Spring semester).

English as a Second Language

Administered by the Department of World Languages and Cultures, courses in English as a Second Language (ESL) are offered, but no major or minor is given in this area of study. The courses offered are provided especially for those international students who require additional English language study or who need to meet the academic demands of the University. ESL courses are considered remedial courses. Students who take ESL courses may not apply those credits toward graduation.

Requirements for the Major in French, German, Japanese, or Spanish

The major in French, German, Japanese, or Spanish consists of 32 or 30 semester hours of study in the target language, depending on the student's point of entry into the program. Students who have passed the Mount Union proficiency test or begin coursework at the 201-level or higher must complete 30 semester hours. Those who begin at the 101- or 102-level must complete 32 semester hours. Every language major must complete a minimum of 5 semester hours in a department-approved study abroad program as part of the total hours for the major. At least three upper-level courses (300-level or above) are required of all students.

A minimum GPA of 2.5 is required for participation in most Mount Union study abroad programs. Certain other programs require a minimum of 3.0 or 3.33. The Teacher Licensure Program requires a minimum GPA of 2.5 for admittance. Licensure is available in French, German, Japanese, and Spanish. Students desiring teacher licensure need to take additional courses as per state requirements. Additionally, licensure students must complete a minimum of one semester (Fall or Spring) in a department-approved study abroad program. Candidates seeking a teaching licensure in French, German, Japanese, or Spanish must earn a grade of "C" or better in FRN/GRN/JPN/SPN 385 and FRN/GRN/JPN/SPN 386. If a minimum grade of "C" is not earned, the candidate is required to retake the course until a grade of "C" or better is earned.

Requirements for the Minor in French, German, Japanese, or Spanish

The minor in French, German, Japanese, or Spanish consists of 16 or 20 semester hours of study in the target language, depending on the student's point of entry into the program. Students who have passed the Mount Union proficiency test or begin coursework at the 201-level or higher are required to complete 16 semester hours. Those who begin at the 101- or 102-level must complete 20 semester hours. Students who minor in French, German, Japanese, or Spanish and complete a minimum of 4 semester hours in a department-approved study abroad program are required to complete 16 semester hours. No more than 4 semester hours of departmental credit for courses taught in English may count toward the minor.

Requirements for the Minor in Foreign Language

The minor in Foreign Language (FLN) is offered in any language for which sufficient coursework is not available at the University of Mount Union. It consists of 20 semester hours of study in a single modern language. No more than 4 semester hours of coursework taught in English may count toward the minor. Courses for the minor in Foreign Language must be taken at Mount Union, if available, or through coursework at another accredited university or through a university-approved study abroad program.

Students who minor in Foreign Language and complete a minimum of 4 semester hours in a department-approved study abroad program are required to complete 16 semester hours.

Medical Spanish

The minor in Medical Spanish consists of 16 or 20 semester credit hours of study in Spanish, depending on whether or not the student studies abroad. Students who study abroad in a Spanish-speaking country are required to complete only 16 semester hours. Those who do not study abroad must complete 20 semester hours. Students who study abroad may substitute an equivalent course for any of these required or elective courses. Students who elect this minor will obtain sufficient reading, writing, listening, and speaking skills in Spanish suitable for medical practitioners who interact with Spanish-speaking patients.

Requirements for the Minor in Medical Spanish

Required Courses		Semester Hours
SPN 208	Medical Spanish I	2
SPN 209	Medical Spanish II	2
SPN 309	Conversational Spanish for Medical Practitioners I	2
SPN 310	Conversational Spanish for Medical Practitioners II	2

And Any Three from the Following if not studying abroad or Two from the Following if studying abroad:

SPN 302	Spanish for the Professions	4
SPN 304	Spanish Across the Curriculum	4
SPN 305	Translating Spanish	4
SPN 401	Advanced Special Topics	4

Total		16-20
-------	--	-------

THE COLLEGE OF NATURAL AND HEALTH SCIENCES

The College of Natural and Health Sciences builds on Mount Union's recognized strengths in the natural and health sciences by bringing together new and established programs. The college simultaneously reflects commitment to the University's mission of preparing students for fulfilling lives, meaningful work, and responsible citizenship with an ambition to develop an array of signature programs for the communities we serve, enabling Mount Union to do its part to address critical shortages of healthcare and science professionals in Northeast Ohio and beyond. The sciences afford the opportunity for exploration and discovery in the pursuit of new knowledge, understanding systems in the physical and natural world, and bettering the human condition. Scientists, technicians, and caregivers are in high demand.

The College of Natural and Health Sciences offers rigorous, high-quality curricula designed to prepare students for the challenges and opportunities that lie ahead. There are organizations in all departments to help students connect with fellow students, learn about professional opportunities, develop leadership skills, and attend guest lectures. All departments in the college emphasize experiential learning opportunities through our clinical settings, laboratories, and field trips that are taken as part of many of our courses, as well as a rich array of internships and service-learning opportunities. Students are encouraged to become involved and to be responsible in the pursuit of their studies and in their learning. Research and service wise, the college has a very active team of faculty members who work hard to reach out to the community, environmental, and health sectors to provide help in key areas.

The Huston-Brumbaugh Nature Center and Spectrum Education Center are both housed within the college. The College of Natural and Health Sciences will have an enrollment of over 600 undergraduate and graduate majors and will be served by approximately 60 full-time faculty and 33 adjunct faculty. Well-managed growth is expected.

Departments included in the College of Natural and Health Sciences are: Biology, Chemistry and Biochemistry, Earth and Environmental Sciences, Exercise Sport, and Nutrition Sciences, Nursing, Physics and Astronomy, Physical Therapy, Physician Assistant Studies, and Psychology, Neuroscience, and Human Development.

Department of Biology

The Department of Biology seeks to provide students with an understanding of life as a process. Within its courses, the department emphasizes concepts, which unify and clarify this goal. In addition, an appreciation of our biological relationship to the living world is presented. Flexibility in curriculum choices allows students to prepare for graduate work in the biological sciences or professional work in medical or allied health professions.

Requirements for the Major in Biology

Required Courses		Semester Hours

Total 40

Fourth Year

Students must meet clinical program admission criteria to apply for the clinical year training. Admission is not guaranteed.

The "clinical year" of training involves intense study and laboratory experience, culminating in a comprehensive examination, all parts of which must be passed in order to graduate. Successful completion of the major will grant students a minor in Biology and a minor in Chemistry. However, students are not limited to the above minors. Senior Capstone must be completed during student's junior year. Admission criteria and clinical training information are available at: <http://my.clevelandclinic.org/services/pathology-laboratory-medicine/for-medical-professionals/school-medical-technology> and <https://www.ahn.org/education/medical-technology#MedTech-Top>

Pre-Medical and Pre-Health Professions Program

The pre-medical and pre-health professions program is designed to prepare students for future careers as doctors, dentists, pharmacists, optometrists, physical therapists, physician assistants, veterinarians, podiatrists and chiropractors. The program is not a formal degree program but is a flexible curriculum designed to prepare students for professional schools in the health-related fields. Students will take the appropriate required courses in biology, chemistry, physics, mathematics and social sciences and recommended electives in the arts and humanities to become highly-successful professional school candidates.

Department of Chemistry and Biochemistry

The Department of Chemistry and Biochemistry seeks to contribute to the achievement of the general objectives of the University by providing students with a program that will prepare them for fulfilling lives, meaningful work and responsible citizenship. The major in Chemistry is built upon the principles and recommendations of the American Chemical Society (ACS) while that for Biochemistry is built upon the principles and recommendations of American Society of Biochemists and Molecular Biologists (ASBMB). Students are prepared for advanced study in graduate or professional school or for careers in chemistry and biochemistry in industry, or secondary education. Instruction in the department places emphasis on the use of modern scientific instruments, a wide range of electronic resources such as journals and computer programs, research work, and the ability of the student to do independent work. The Department is approved by the American Chemical Society and offers a Certified Degree (see details under Certified Degree below).

Requirements for the Major in Chemistry

Required Courses		Semester Hours
CHE 120N	Concepts in Chemistry	4
CHE 214	Inorganic Chemistry I	4
CHE 220	Analytical Chemistry I	4
CHE 231	Organic Chemistry I	4
CHE 232	Organic Chemistry II	4
CHE 341	Physical Chemistry with Laboratory	4
CHE 370	Biochemistry	4
CHE 371	Biochemistry Laboratory	1
CHE 381	Chemistry Seminar	1
CHE 382	Chemistry Seminar	1
CHE 481	Chemistry Seminar	1
CHE 482	Chemistry Seminar	1
CHE 490	Senior Research	4
Any from the Following Courses Totaling Four Semester Hours		
CHE 210	Environmental Chemistry	4
CHE 212	Introduction to Green Chemistry	4
CHE 228	Forensic Chemistry	4
CHE 255	Basic Neurochemistry	2
CHE 320	Analytical Chemistry II	4
CHE 374	Medicinal Chemistry	2
CHE 390	Research	1-4
CHE 414	Inorganic Chemistry II	4
CHE 431	Advanced Organic Chemistry	2
CHE 434	Advanced Spectral Analysis	2
CHE 442	Applied Thermodynamics and Kinetics	2
CHE 443	Computational Chemistry and Spectroscopy	2
CHE 455	Advanced Neurochemistry	2
CHE 472	Advanced Biochemistry: Metabolism, Nutrition, and Pharmacology	4
CHE 474	Advanced Biochemistry: Structural Biochemistry	2
CHE 476	Advanced Biochemistry Laboratory	2

Required Extra-Departmental Courses		Semester Hours
MTH 141	Calculus I	4
MTH 142	Calculus II	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
Total		57

Senior research is a requirement of all chemistry and biochemistry majors. The requirement can be met by completion of CHE 490 or CHE 494 (Honors research designation) for a minimum of four hours or by certain off campus research experiences which have been pre-approved by the department.

A chemistry major may not major in biochemistry.

Requirements for the Major in Biochemistry

Required Courses		Semester Hours
CHE 120N	Concepts in Chemistry	4
CHE 214	Inorganic Chemistry I	4
CHE 220	Analytical Chemistry I	4
CHE 231	Organic Chemistry I	4
CHE 232	Organic Chemistry II	4
CHE 370	Biochemistry	4
CHE 371	Biochemistry Laboratory	1
CHE 381	Chemistry Seminar	1
CHE 382	Chemistry Seminar	1
CHE 472	Advanced Biochemistry: Metabolism, Nutrition, and Pharmacology	4
CHE 476	Advanced Biochemistry Laboratory	2
CHE 481	Chemistry Seminar	1
CHE 482	Chemistry Seminar	1
CHE 490	Senior Research	4

Any from the following courses totaling two semester hours:

CHE 374	Medicinal Chemistry	2
CHE 474	Advanced Biochemistry: Structural Biochemistry	2

Required Extra-Departmental Courses		Semester Hours
BIO 140N	The Unity of Life	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
Total		61

Senior research is a requirement of all chemistry and biochemistry majors. The requirement can be met by completion of CHE 490 or CHE 494 (Honors research designation) for a minimum of four hours or by certain off campus research experiences, which have been pre-approved by the department.

Biochemistry majors may not major nor minor in chemistry.

Certified Degree: American Chemical Society

The Department of Chemistry and Biochemistry at the University of Mount Union is approved by the American Chemical Society (ACS). The Chair of the Department certifies graduates who satisfy the requirements of a specific course of study. Students that have earned a certified degree are recognized as having completed a rigorous curriculum that has integrated chemical concepts with physics, mathematics, biology and appropriate professional skills. In addition, students completing the requirements for certification will have experienced a curriculum that emphasizes the laboratory experience. See any member of the Department for details of the Certified Degree curriculum.

Recommended Curriculum from the American Society of Biochemists and Molecular Biology

The American Society of Biochemistry and Molecular Biology (ASBMB) has developed a recommended curriculum for biochemistry majors. A student can complete the recommended ASBMB curriculum by completing a biochemistry major and

taking CHE 341, BIO 240, BIO 300, BIO 305, and one additional course selected from the following: CHE 210, CHE 442, CHE 443, CHE 414, CHE 320, MTH 241, or MTH 333. Note that there is no certification with this curriculum.

Requirements for Honors in Chemistry and Biochemistry

Students desiring honors in chemistry or biochemistry must complete either 1) CHE 494 with the honors thesis option or 2) any three of the following taken for honors: CHE 232, CHE 320, CHE 414, CHE 442/443, CHE 472/476, CHE 374/476, CHE 474/476. Additional requirements may be found in the description of the Honors Program. Presentation of a paper reporting the honors research at a professional meeting is encouraged.

Requirements for the Minor in Chemistry

Required Courses		Semester Hours
CHE 120N	Concepts in Chemistry	4
12 additional semester hours of CHE coursework at the 200 level or above		12
One of the Following Courses		Semester Hours
MTH 123	Elementary Statistics	4
MTH 141	Calculus I	4
Total		20

Department of Earth and Environmental Science

Environmental Science

The environmental science major at Mount Union is an interdisciplinary major that seeks to develop environmentally informed professionals and citizens who can contribute to responsible environmental management and who possess leadership, teamwork and problem-solving skills.

Requirements for the Major in Environmental Science

Required Environmental Science Courses		Semester Hours
ENV 190N	Introduction to Environmental Science	4
ENV 210V	Hydrology and Water Resources	4
ENV 350	Case Studies in Environmental Science	4
ENV 425	Senior Culminating Experience	4
Choose one of the following:		
MTH 123	Statistics	4
MTH 141	Calculus I	4
Choose two of the following:		
BIO 141N	The Diversity of Life	4
CHE 120N	Concepts in Chemistry	4
GEO 112N	Physical Geology	4
Choose four of the following:		
BIO 220	Ecology	4
BIO 321	Aquatic Ecology	4
ENV 280	Geographic Information Systems	4
CHE 210	Environmental Chemistry	4
CHE 212	Green Chemistry	4
GEO 301V	Earth Materials	4
GEO 325	Stratigraphy and Sedimentation	4
POL 316V	Environmental Politics	4
PHL 290V	Environmental Ethics	4
Choose eight additional hours selected from unused courses above or from the list below:		
BIO 230G	Conservation Biology	4
BIO 260	Plant Structure and Function	4
BIO 280	Biology of Marine Organisms	4
BIO 285	Vertebrate Zoology	4

BIO 305	Microbiology	4
BIO 322	Ecotoxicology	4
CHE 214	Inorganic Chemistry I	4
CHE 220	Analytical Chemistry	4
CHE 231	Organic Chemistry I	4
CHE 232	Organic Chemistry II	4
CHE 320	Analytical Chemistry II	4
ECE 330	Environmental Engineering	4
GEO 212	Historical Geology	4
GEO 302	Igneous and Metamorphic Petrology	4
GEO 330	Structural Geology	4
Total		52

Students minoring in Biology, Chemistry, Geology, or Sustainability may not count more than two courses toward the Environmental Science Major.

Requirements for the Minor in Environmental Science

To minor in environmental science, a student must complete the following course work in environmental science and complete courses in one of the three depth experiences below.

Required Environmental Science Courses		Semester Hours
ENV 190N	Introduction to Environmental Science	4
ENV 210V	Hydrology and Water Resources	4
ENV 350	Case Studies in Environmental Science	4

Depth Experience

The minor in environmental science also requires the completion of at least eight hours of coursework in one depth experience area. For science majors, these eight hours must be outside of the major.

Biology Depth Experience		Semester Hours
BIO 141N	The Diversity of Life	4

At least four hours of coursework at the 200 level or higher with a BIO prefix (or ENV 280) from courses listed in the requirements for the Environmental Science Major.

4

Chemistry Depth Experience		Semester Hours
CHE 120N	Concepts in Chemistry	4

At least four hours of coursework at the 200 level or higher with a CHE prefix from courses listed in the requirements for the Environmental Science Major.

4

Geology Depth Experience		Semester Hours
GEO 112N	Physical Geology	4

At least four hours of coursework at the 200 level or higher with a GEO prefix (or ENV 280) from courses listed in the requirements for the Environmental Science Major.

4

-------	--	----

Geology

The Department of Earth and Environmental Science offers a Geology program which is designed to give the student a solid foundation in understanding the materials, processes and history of the earth. Programs of study are available for those students who plan to enter graduate schools and professional careers as well as for those students who intend to terminate their studies with the bachelor's degree. Opportunities are available for students who wish to include geology as part of a double major or self-defined major. Each student works closely with department faculty members in developing a course of study that best suits individual objectives.

Requirements for the Major in Geology

Required Geology Courses		Semester Hours
GEO 112N	Physical Geology or GEO 116N Investigation Earth	4
GEO 212	Historical Geology	4
GEO 301V	Earth Materials	4
GEO 302	Igneous and Metamorphic Petrology	4
GEO 325	Stratigraphy and Sedimentation	4
GEO 330	Structural Geology	4
GEO 381- GEO 384	Seminar	2
GEO 425	Senior Culminating Experience or GEO 494 Honors Thesis/Project	4
	Eight additional hours of GEO coursework (may include ENV 280)	8
Total		38

Required extra-departmental courses		Semester Hours
MTH 140	Precalculus	4
or		
MTH 141	Calculus I	4
CHE 110N	Foundations of Chemistry	4
or		
CHE 120N	Concepts in Chemistry	4
PHY 101N	General Physics I	4
or		
BIO	One four semester hour BIO course	4
Total		50

Certain requirements may be waived at the discretion of the department if the student presents acceptable alternatives.

Completion of a summer course at an accredited field camp or completion of a summer research project is recommended for geology majors intending to continue advanced studies in graduate school. The amount of credit for such a course which can be applied toward the degree requirements will not exceed seven semester hours.

Students planning graduate study should note that most geology departments require two courses each in chemistry, physics and calculus. Some graduate programs require a reading knowledge of a second language.

Field Trips

Field trips constitute an integral part of the geology curriculum, and students are strongly encouraged to participate in such trips. Extended field trips may be incorporated into the following courses: GEO 212, 302, 320, 325 and 330.

Requirements for the Minor in Geology

Required Geology Courses		Semester Hours
GEO 112N	Physical Geology	4
or		
GEO 116N	Investigation Earth	4
GEO 212	Historical Geology	4
Additional 8 semester hours of geology coursework at the 200 level or higher.		8
Total		16

Requirements for the Minor in Earth Science

Required Geology Courses		Semester Hours
GEO 112N	Physical Geology	
or		
GEO 116N	Investigation Earth	4
GEO 212	Historical Geology	4
One additional GEO course at the 200 level or higher		4

Required Extra-Departmental Courses		
PHY 120N	Astronomy: A Survey	4
Any One from the Following Courses		
ENV 190N	Introduction to Environmental Science	4
CHE 100N	Chemistry in Society	4
PHY 110	Concepts of Physics	4
Total		20

Requirements for Honors in Geology

Students are eligible to enter the Honors Program in geology if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board.

To receive honors in geology, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 12 semester hours. One of the courses required is GEO 494 Honors Thesis/Project that may be taken for three to six credit hours. For permission to register for an honors thesis/project, a completed Honors Application and Registration form must be filed with the director of Honors Programs by the end of the twelfth week of classes of the semester prior to doing the thesis. Students must earn at least a “B+” in the course to earn honors credit.

Other courses students may take for honors in geology include any geology course numbered 200 or higher. For permission to register for a course with honors in the major, a completed Application and Registration form must be filed with the director of Honors Programs by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a “B+” in the course to earn honors credit.

Sustainability

The minor in sustainability is designed to provide students with an understanding of and ability to utilize sustainability as a lens for systems thinking in any discipline. Sustainability is a balance of dependent systems to provide for the continued function and equilibrium of the planet’s natural systems with those of society. Sustainability focuses on our economic, environmental, and social systems to 'sustain' the planet for future generations. Sustainability perspectives and practices are emerging as essential tools to have in today’s ever-changing world. This minor will serve as a compliment to any major and provide skills that can be directly applied to students’ professional and personal practices in the future. Mount Union undergraduate students in this minor will learn the ethical, practical, and innovative approaches used to balance the need for human consumption and development with environmental, economic, and social equity.

Requirements for the Minor in Sustainability

Required Sustainability Courses		Semester Hours
SUS 100	Introduction to Sustainability	2
SUS 400	Sustainability Seminar	4

Choose at least 4 credit hours from the following environment related courses:

BIO 220	Ecology	4
BIO 230G	Conservation Biology	4
BIO 315	Physiological Ecology	4
BIO 321	Aquatic Ecology	4
BIO 322	Ecotoxicology	2
CHE 210	Environmental Chemistry	4
CHE 212	Introduction to Green Chemistry	4
ECE 330	Environmental Engineering	4
EME 445	Energy Generation and Utilization: Sustainable Practices	2
ENV 210V	Hydrology and Water Resources	4
or		
GEO 210V	Hydrology and Water Resources	4
ENV 350	Case Studies in Environmental Science	4

Choose at least 8 credit hours from the following Socio-Economics courses (No more than 4 credit hours can come from courses with the same prefix):

ECN 105S	Introduction to Economics	4
ECN 200S	Introduction to Microeconomics	4
EDU 315G	Multicultural Education	4
EGE 320G	Global Engineering	4
ENG 335	Literature and Human Rights	4

PHL 290V	Environmental Ethics	4
PHL 291	The Wilderness	4
POL 245G	Comparative Political Systems	4
POL 315V	Public Policy	4
POL 316V	Environmental Politics: Pollution, Sustainability and Climate Change	4
POL 340G	Global Competition: The Dynamics of International Political Economy	4
POL 348	Problems of Developing Nations	4
PSJ 150H	Introduction to Peacebuilding and Social Justice	4
PSJ 300V	Building Community, Building Peace	4
PHL 350	Social Responsibility and Personal Well-Being	4
REL 340V	Christian Social Ethics	4
SOC 200	Contemporary Social Issues	4
SOC 220	The Many Faces of Poverty	4

Total 18

Note: Many of the courses in the lists of electives above have prerequisites. Students must satisfy all prerequisites before taking these courses. Students can only count up to 4 semester hours from their major toward the sustainability minor.

Department of Exercise, Sport, and Nutrition Sciences **Athletic Training**

In the fall of 2018, Mount Union's major in Athletic Training will be discontinued. Students enrolled at the institution during or prior to the 2017-2018 Academic Year will have the opportunity to pursue and complete the program as detailed in this catalog.

The athletic training major is a part of the Department of Exercise, Sport, and Nutrition Sciences . Mount Union has developed the athletic training major to prepare qualified students for careers as certified athletic trainers. Since 1987, the major has met the Commission on Accreditation of Athletic Training Education (CAATE) standards as an Approved Undergraduate Athletic Training Education Program, and effective November 1998, it has been accredited through the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Effective July 2006, the Athletic Training Program (ATP) was fully accredited by the Commission on Accreditation of Athletic Training Education). Effective Fall 2010, the Athletic Training Program was fully reaccredited with the maximum Ten Year Accreditation by CAATE.

The accredited Athletic Training Program (ATP) prepares students to pass the Board of Certification (BOC) examination for athletic trainers as well as the state examination for licensure as an athletic trainer in Ohio upon graduation. Students selected into the athletic training major (see Selective Admission) learn and serve under the direct supervision of the Mount Union Medical Director and Preceptors in the prevention, diagnosis, immediate care and rehabilitation of athletic related injuries and illnesses.

A graduate with an athletic training major, having successfully completed the BOC examination, may pursue employment as an athletic trainer in professional sports, colleges and universities, high schools, sports medicine centers, as an orthopedic physician extender, industrial settings, rodeo, NASCAR, PGA, military, private health/physical fitness clubs and/or the marketing and business aspects of the profession. The major may also be utilized as preparation for post-graduate study in athletic training, physical therapy, physician's assistant, nursing, podiatry, emergency medical technician, exercise physiology, kinesiology/biomechanics, sport psychology and nutrition.

Requirements for the Major in Athletic Training

Selective Admission (See University Catalog and/or ATP Student Handbook)

Athletic Training Major Requirements		Semester Hours
ATP 115	Foundations of Athletic Training	2
ATP 116	Orthopedic Applications in Athletic Training	4
ATP 118	Medical Terminology in Athletic Training	2
ATP 120	Personal Health	2
ATP 216	Injury Recognition I: Spine, Core and Lower Extremity	4
ATP 217	Injury Recognition II: Head, Cervical Spine and Upper Extremity	4
ATP 230	Clinical Practicum I	1
ATP 232	Clinical Practicum II	1
ATP 316	Medical Aspects of Sport	4
ATP 350	Clinical Practicum III	1
ATP 355	Clinical Practicum IV	1
ATP 391	Therapeutic Modalities	4

ATP 392	Therapeutic Rehabilitation	4
ATP 450	Clinical Practicum V	1
ATP 455	Clinical Practicum VI	1
ATP 498	Professional Development in Athletic Training	2
ATP 480	Senior Culminating Experience: Organization and Administration of Athletic Training	4

BIO 210	Anatomy and Physiology I	4
BIO 211	Anatomy and Physiology II	4
EXS 110	Exercise Physiology I	4
EXS 220	Foundations of Human Movement	4
EXS 250	Strength Training and Conditioning	4
EXS 270	Sports Nutrition and Ergogenic Aids	4
PSY 110S	The Psychological Sciences	4
Total		70
Elective Courses		
ATP 400	Independent Study	1-4
ATP 494	Honors Thesis	4
ATP 499	Internship in Athletic Training / Sports Medicine	1-12
Total		70 Semester Hours

Clinical Education

Six semesters of directly supervised clinical field experience, along with a minimum of 800 clock-hours are required for graduation and to be eligible to sit for the Board of Certification exam. These field experience courses must be completed under the direct supervision of qualified preceptors in an approved clinical setting; they are required and available only for students selected into the CAATE Accredited ATP. The required field experience courses must be distributed over six semesters, coinciding with ATP 230, ATP 232, ATP 350, ATP 355, ATP 450 and ATP 455.

Additionally, at least one high school experience will be incorporated into the required field experience rotations as well as exposure to at least one opposite gender sport, varying levels of risk, protective equipment and general medical experiences that address the continuum of care that would prepare a student to function in a variety of settings and meet the domains of practice delineated for a certified athletic trainer in the profession. Athletic training majors are encouraged to obtain field experiences in other allied medical settings, i.e., ambulance riding/observation or athletic/physical therapy settings and medical facilities as part of the overall field experience requirement.

Additionally, this curriculum is competency-based. Successful completion at the “proficient level” of ALL educational competencies for graduation. These educational competencies are distributed appropriately throughout the required didactic course work and clinical field experiences.

The general clinical education plan over the student’s four years progresses as follows:

Level I (Typically Freshman Year):	Minimum 75 hours, maximum 200 hours per Fall and Spring Academic Semesters
Level II (Typically Sophomore year):	Minimum 100 hours, maximum 300 hours per Fall and Spring Academic Semesters
Level III (Typically Junior year):	Minimum 200 hours, maximum 350 hours per Fall and Spring Academic Semesters
Level IV (Typically Senior Year):	Minimum 250 hours, maximum 350 hours per Fall and Spring Academic Semesters
Graduation	Students will need a minimum of 1,250 hours but may have a maximum of 3000 hours to graduate from the Mount Union Athletic Training Program.

Level I:

Seventy-five hours per semester are required for a total of 150 hours for admittance into the UMU ATP. Level I students may have a maximum of 400 hours their Level 1 year. The scheduling of the pre-professional level I student will be directly supervised by the Clinical Education Coordinator. The pre-professional level I student will work approximately six hours per week plus any game observation time. During the fall semester each pre-professional level I student will have to observe hours with fall sports, such as football, soccer, volleyball, cross-country/track, etc. Additional opportunities will be available with fall lacrosse, fall baseball, fall softball, basketball, wrestling, indoor track, swimming, and Athletic Training Facility. The spring semester will consist of hours spent with basketball, outdoor track, baseball, softball, lacrosse, wrestling, and spring football. All students will observe hours with at least seven different sports teams during their pre-professional level I year.

Level II:

The level II year will consist of the students working a minimum of 100 hours in the Fall and Spring Semesters at their clinical assignments as scheduled by their preceptor. Level II students may have a maximum of 600 hours their Level II year. The students will rotate between clinical assignments and preceptors with the clinical education coordinator being responsible for the scheduling of students to specific clinical assignments. Each academic year will consist of three rotations, with the first rotation correlating with a fall sport, the second rotation correlating with a winter sport, and the third rotation correlating with a spring sport.

Level III:

The level III year will consist of the students working a minimum of 200 hours in the Fall and Spring Semesters at their clinical assignments as scheduled by their preceptor. The students will rotate between clinical assignments and preceptors with the clinical education coordinator being responsible for the scheduling of students to specific clinical assignments. In addition to their on-campus clinical assignment, one semester of their fall or spring semester will be spent at a local high school working with a preceptor.

Level IV:

It will be the responsibility of the student to work a minimum of 250 hours per Fall and Spring Semesters while attending practices and events for that team. In addition to their senior sport assignment, students must complete a general medical rotation of 30 hours and an additional health care rotation of 30 hours as assigned by the Clinical Education Coordinator.

Selective Admission

Entrance into the accredited ATP is by selective admission. A formal application process shall be initiated at the end of the pre-professional level I year, the year in which the student is a candidate for the athletic training major (typically the first year) and after successful completion of the following prerequisites:

A minimum grade of C must be achieved in each of the following courses:

- ATP 115 Foundations of Athletic Training
- ATP 116 Orthopedic Applications in Athletic Training
- ATP 118 Medical Terminology in Athletic Training
- ATP 120 Personal Health
- BIO 210 Anatomy and Physiology I

Seventy-five hours per semester are required for a total of 150 hours for admittance into the UMU ATP. The scheduling of the pre-professional level I student will be directly supervised by the Clinical Education Coordinator. The pre-professional level I student will work approximately six hours per week plus any game observation time. During the fall semester each pre-professional level I student will have to observe hours with fall sports, such as football, soccer, volleyball, cross-country/track, etc. Additional opportunities will be available with fall lacrosse, fall baseball, fall softball, basketball, wrestling, indoor track, swimming, and Athletic Training Facility. The spring semester will consist of hours spent with basketball, outdoor track, baseball, softball, lacrosse, wrestling, and spring football. All students will observe hours with at least seven different sports teams during their pre-professional level I year.

Further requirements of the selective admission process:

- Three supportive letters of recommendation; (two must be from off campus professionals)
- Written application and resume
- Written examination (minimum score: 73 percent);
- Oral/practical examination (minimum score: 73 percent);
- Cumulative GPA of at least a 2.5 at the time of application;
- Average preceptor evaluation score of at least 73 percent;
- Formal interview with all Athletic Training Faculty and Staff

Meet all technical standards established for the program and the profession of athletic training. (See ATP Student Handbook for the complete policy on technical standards.) These are minimum requirements for admittance. Competitive selection criteria will be employed if/when there are more qualified candidates than available positions. Each year approximately 16 candidates are matriculated into the ATP. A re-application process is available if a student is unsuccessful on the initial application to the program. It is the policy of the Mount Union ATP not to discriminate on the basis of race, gender, religion, age, color, creed, national or ethnic origin, marital or parental status, or disability in the selection of students into the Athletic Training Program.

Program Fees

As a part of the matriculation process, all students admitted to the program must:

- complete formal OSHA training (which includes obtaining or declining the hepatitis B vaccination at no charge to the student);
- complete the Professional Rescuer CPR/AED certification (approximately \$19 annually);

- successfully complete a medical pre-participation examination (cost incurred by student);
- Lab fees may be assessed for select courses (see Mount Union catalog).

Requirements for Honors in Athletic Training

To receive departmental honors in athletic training, a student must meet all criteria for graduating with honors in a major. Additionally, the student must complete an in-depth project in one of the content areas described in the BOC Role Delineation Study for Professional Practice of Athletic Trainers for a total of 4 semester hours and the completion of ATP 494.

Exercise Science

The exercise science major is a part of the Department of Exercise, Sport, and Nutrition Sciences. The exercise science program is designed to meet the increasing demand in our society for quality health care professionals. The Graduate Track prepares students for graduate school in areas including exercise physiology, biomechanics/kinesiology, nutrition as well as professional programs including physical therapy, occupational therapy, chiropractic, and physician assistant studies. The Applied Track prepares students to enter the workforce in areas including personal training, corporate and worksite wellness programs, fitness facilities and sport performance coaching programs. This track will also prepare the student for various certification levels offered by the American College of Sports Medicine (ACSM) and/or the National Strength and Conditioning Association (NSCA) upon graduation.

At the University of Mount Union, courses in Exercise Science (EXS) offer students a life span approach to physical fitness, performance and health and prepares them for a career in the allied-health field. Courses are designed to expand upon information provided in the basic sciences of anatomy/physiology and chemistry. By design students learn about the effects of exercise on children, adolescents, adults, and the geriatric population. Course work also includes basic pharmacology for the health professional, testing and exercise prescription in fitness, research design/statistics and individualized direct experiences (IDE) to allow students the opportunity to apply their knowledge and skills.

Requirements for the Major in Exercise Science

Required Exercise Science Courses		Semester Hours
EXS 100	Introduction to Exercise Science	2
EXS 110	Exercise Physiology I	4
EXS 111	Exercise Physiology II	4
EXS 200	Sophomore Seminar: Professional Skills in Exercise Science	1
EXS 210	Exercise Physiology Practicum	2
EXS 220	Foundations of Human Movement	4
EXS 320	Exercise Testing and Prescription	4
EXS 360	Special Populations	4
EXS 361-363,365	IDE: Special Populations (choose one)	1

BIO 210	Anatomy and Physiology I	4
EXS 250	Strength Training and Conditioning	4
EXS 420	Senior Applied Thesis	4
Choose any one of the following for Applied Track:		
ENT 150	Introduction to Entrepreneurship	4

BUS 100	Introduction to Business	2
LDR 175	Introduction to Leadership for Life	2
HED 250	Nutrition	4
COA 275	Sports Nutrition for Coaches	4
EXS 340	Corporate and Worksite Wellness	4
EXS 490	Advanced Nutrition for the Health Sciences	4
Total		14-16
Graduate School Track total hours:		51
Applied Track total hours:		41-43

Students should consult the advising sheet for specific career paths for guidance in choosing Elective courses.

Requirements for the Concentration in Strength & Conditioning

This optional concentration is for students who want to specifically work in the field of strength & conditioning at the high school, collegiate, or professional level.

In addition to all the university requirements for the Bachelor of Science in Exercise Science, those pursuing the Concentration in Strength & Conditioning must complete the following courses:

Required Courses		
EXS 250	Strength Training and Conditioning	4
EXS 251	Strength & Conditioning Practicum	2
EXS 498	Strength & Conditioning Internship	4
	or	
EXS 499	Internship	4
Choose any two of the following:		
EXS 440	Sports Nutrition and Ergogenic Aids	4
EXS 490	Advanced Nutrition for the Health Sciences	4
COA 275	Sports Nutrition for Coaches	4
COA 310	Psychology of Coaching	4
Total		18

Requirements for the Minor in Exercise Science

Required Courses		Semester Hours
EXS 110	Exercise Physiology I	4
EXS 220	Foundations of Human Movement	4
Choose any two or three (if EXS 210 is chosen) of the following:		
EXS 111	Exercise Physiology II	4
EXS 210	Exercise Physiology Practicum	2
EXS 230	Basic Pharmacology	4
EXS 250	Strength Training and Conditioning	4
EXS 320	Exercise Testing and Prescription	4
EXS 330	Cardiac Rehabilitation	4
EXS 340	Corporate and Worksite Wellness	4
EXS 370	Environmental Physiology	4
EXS 440	Sports Nutrition and Ergogenic Aids	4
EXS 460	Lifespan Nutrition	4
EXS 490	Advanced Nutrition for the Health Sciences	4
Total		16-18

Requirements for Honors in Exercise Science

To receive honors in the exercise science program a student must meet all criteria for graduating with honors in a major.

Department of Nursing

The University of Mount Union (UMU) offers two options for the BSN degree, the traditional BSN option (BSN) for prospective students who successfully finished their high school curriculum; and the Post-Baccalaureate Accelerated BSN track for students who have a bachelor degree (of any kind) in a discipline other than nursing.

The BSN program pursues academic, clinical and professional excellence that will lead to a meaningful professional career. Nurses care for patients, families and communities and make up an indispensable component of our nation's healthcare delivery system.

Students enrolled in the BSN program at Mount Union will benefit from a new science facility with state-of-the-art laboratories and classrooms, which provide an exceptional venue for foundational science courses integral to the nursing curriculum.

Traditional Bachelor of Science Degree (BSN)

This option is designed for students who completed their high school diploma. This is a four-year program for those who want to earn a degree and become a licensed registered nurse. Components of the curriculum include, in addition to the nursing sequence of clinical and non-clinical courses, courses in the natural and social sciences, humanities, and liberal arts. Some courses fulfill more than one of the curricular requirements.

The traditional BSN degree track requires a successful completion of 128 credit hours. The courses are offered in a semester plan; the length of each semester is approximately 16 weeks. The traditional BSN curriculum plan includes sequenced courses that students must take to complete the program. These courses include 68 credit hours of nursing courses, 60 credit hours of University-required courses (Integrative Core {IC} [General Education]) and nursing support courses. Some of the nursing support courses may count toward the university-required IC courses.

Admission to the direct-entry nursing program is on a rolling basis and will be competitive. Limited opportunity for spring semester enrollment may be available and will be handled on a case-by-case basis for any given term of study.

The application review process will include, but will not be limited to, a review of all coursework taken, grades achieved in each course, overall high school grade point average, class rank and test scores as well as any recommendation or reference forms required.

First time students who are completing or have recently completed high school:

Priority consideration for admission to the nursing program begins at the following academic levels:

- Admission to the University of Mount Union and
- A cumulative high school grade point average of a B+ (3.3 on a scale of 4.0) and
- Grades of "B" or higher in high school lab-based biology and chemistry coursework or a sub score of 24 or higher on the Science Reasoning Portion of the ACT or
- For 2020-2021 Traditional Admission: a cumulative high school grade point average of 3.7, and grades of "B" or higher in high school lab-based biology and chemistry coursework is required for direct admission.

D

Students demonstrating exceptional academic potential through alternative, but related academic indicators (e.g. rank in class, SAT score, College Credit Plus or AP coursework etc.), may be considered on a case-by-case basis by the admission committee.

Admission requirements for the BSN Option, First-Time Students who are Completing or Have Recently Completed High School

1. Apply and be admitted to the University, meeting all normal admission requirements.
2. *Indicate nursing as the first academic interest on the application for admission.
3. Complete the questions specific to nursing applicants within your online application to the University of Mount Union.
4. Submit a personal statement with your application to the University of Mount Union. In 500 or more words, describe why you want to be a nurse.

By taking steps 1- 4 above, you have notified us that you are applying for admission to Mount Union and into the nursing program.

5. **Ability to meet the Technical Standards of the nursing program.
6. **Annual Criminal Background Check.
7. **Health Data and Clinical Requirements.

** If you are a current Mount Union student and are interested in applying to the nursing program, please contact The Department of Nursing (nursing@mountunion.edu) to obtain a supplemental application.*

*** Note that these are mandatory requirements that must be completed prior to beginning of clinical. Proof documents must be received by the Department of Nursing prior to starting your lab and clinical.*

Requirements for the Major in Nursing (BSN)

Required Courses		Semester Hours
NUR 120**	Introduction to Professional Nursing	4
NUR 130	Health Promotion Throughout the Lifespan	4
NUR 180**	Theoretical Foundations of Professional Nursing	2
NUR 190	Introduction to the Nursing Process	2
NUR 220**	Introduction to Concepts in Nursing Practice	2
NUR 240	Health Assessment & Physical Examination Across the Lifespan	4
NUR 260	Basic Clinical Pharmacology for Nursing Practice	4
NUR 262	Basic Nutrition for Nursing Practice	2
NUR 290	Foundations of Nursing Practice	6
NUR 295**	Introduction to Nursing Informatics	2
NUR 340	Nursing Care of the Childbearing Family and Newborn	4
NUR 360	Nursing Care of Adult Clients with Psychiatric Mental Health Conditions	4
NUR 370V	Evidence-Based Practice and Informatics in the Nursing Profession	4
NUR 380	Nursing Care of Adults with Acute & Chronic Health Conditions I	6
NUR 390	Nursing Care of Adults with Acute & Chronic Health Conditions II	6
NUR 420G*	Community Health Nursing	4
NUR 430	Professional Leadership & Management in Nursing Practice	4
NUR 440	Nursing Care of Clients with Critical Health Conditions	6
NUR 450	Nursing Care of Children & Parents	4
NUR 480	Professional Role Development & Transition into Nursing Practice	4
Required Extra-Departmental Course		
BIO 200	Fundamentals of Medical Microbiology	4
BIO 210	Anatomy and Physiology I	4
BIO 211	Anatomy and Physiology II	4
BIO 290	Pathophysiology	4
CHE 110N *	Foundations of Chemistry	4
CHE 115	Organic and Biochemistry for Nursing	4
MTH 200	Statistics for Health Sciences	4
or		
MTH 123	Elementary Statistics	4
PHL 280H***	Bio-Medical Ethics	4
PSY 225**	Lifespan Development	4

**This course meets a University integrative core (IC) requirement*

***These courses are for students admitted to the BSN major prior to Fall 2018*

****This course is highly recommended for students admitted in Fall 2018 and later*

Post-Baccalaureate Accelerated BSN Degree

The Post-Baccalaureate Accelerated BSN option is for students who hold a baccalaureate degree in a discipline other than nursing. The Accelerated program option requires a successful completion of 72 credit hours.

- Hold a Baccalaureate degree in a discipline other than nursing from an accredited higher education institution, and
- Preference will be for students with an overall average GPA of 3.0 or greater in their earned bachelor's degree, and
- Complete or have completed the following courses or equivalent courses with a cumulative grade point average of 3.0 or better*:

Pre-Required courses prior to admission:

BIO 200	Fundamentals of Medical Microbiology with lab	4
BIO 210	Anatomy and Physiology I with lab	4
BIO 211	Anatomy and Physiology II with lab	4
BIO 290**	Pathophysiology**	4
CHE 110N	Foundations of Chemistry	4
CHE 115	Organic and Biochemistry for Nursing	4
MTH 200	Basic/elementary/general Statistics	4
PSY 225**	Lifespan/Human Growth & Development**	4

**Completion of the prerequisite courses within the last five years. The nursing faculty will discuss a prerequisite completion timeframe of longer than five years on a case-by-case bases.*

***These courses could potentially be completed while matriculated in the program at Mount Union depending on the start day of the program.*

Admission to the Post-Baccalaureate Accelerated BSN degree option:

1. Apply and be admitted to the University,
2. *Indicate nursing as the first academic interest on the application for admission.
3. Complete the questions specific to nursing applicants within your online application to the University of Mount Union.
4. Submit a personal statement with your application to the University of Mount Union. In 500 or more words, describe why you want to be a nurse.

By taking steps 1- 4 above, you have notified us that you are applying for admission to Mount Union and into the nursing program.

5. **Ability to meet the Technical Standards of the nursing program.
6. **Annual Criminal Background Check.
7. **Health Data and Clinical Requirements.

** If you are a current Mount Union student and are interested in applying to the nursing program, please contact The Department of Nursing (nursing@mountunion.edu) to obtain a supplemental application.*

*** Note that these are mandatory requirement that must be completed prior to beginning of clinical. Proof documents must be received by the Department of Nursing prior to starting your lab and clinical.*

Requirements for the Major in Nursing (Post-Baccalaureate Accelerated BSN)

Required Courses		Semester Hours
NUR 130*	Health Promotion Throughout the Lifespan	4
NUR 190	Introduction to the Nursing Process	2
NUR 240	Health Assessment & Physical Examination Across the Lifespan	4
NUR 260	Basic Clinical Pharmacology for Nursing Practice	4
NUR 262*	Basic Nutrition for Nursing Practice	2
NUR 290	Foundations of Nursing Practice	6
NUR 340	Nursing Care of the Childbearing Family and Newborn	4
NUR 360	Nursing Care of Adult Clients with Psychiatric Mental Health Conditions	4
NUR 370V	Evidence-Based Practice and Informatics in the Nursing Profession	4
NUR 380	Nursing Care of Adults with Acute & Chronic Health Conditions I	6

NUR 440	Nursing Care of Clients with Critical Health Conditions	6
NUR 450	Nursing Care of Children & Parents	4
NUR 480	Professional Role Development & Transition into Nursing Practice	4

*These courses can be completed while matriculated in the program at Mount Union depending on the start day of the program or as pre-requirement before matriculation in the program. Check with program director.

Department of Physics and Astronomy

The philosophy of the physics major at Mount Union is to both develop a strong undergraduate knowledge of the fundamental principles of physics and to prepare the student with the professional skills essential for career success across disciplines. Students develop skills in scientific inquiry, problem solving, data analytics, laboratory techniques, and oral and written communication. Every major will conduct independent, hands-on research, along with both oral and written presentations on physics topics of their choice. The Bachelor of Science degree offers three tracks: fundamental physics, applied physics, and astronomy.

Flexibility exists within the Physics major for a Bachelor of Science degree, as the curriculum is designed to conform to individual needs. Students with a mind to attend graduate school in physics or engineering can choose the Fundamental Physics Track, which will prepare them for continued study and advanced research at the graduate level. Students interested in pursuing a technical career in science, engineering, or industry research can choose the Applied Physics Track, which will prepare them with the hands-on, transferrable skills needed to find success across a variety of careers. This track is designed to be especially flexible for students with interdisciplinary interests who may want to pursue a double major with another technical or scientific field of interest. All B.S. students will earn a minor in mathematics through the completion of the required extra-departmental courses, provided the required GPA for the minor is attained.

Mount Union offers comprehensive preparation for those students desiring to become professional astronomers through the Astronomy Track in the physics major. Excellent observational facilities available to qualified students include: (1) a 12-inch computer-controlled Schmidt-Cassegrain telescope; (2) a charge coupled device (CCD) camera for digital imaging of faint astronomical objects; (3) an 11-inch Schmidt-Cassegrain telescope equipped for BVRI photometry of stellar objects; (4) a nine-inch f/15 retracting telescope used for the study of lunar and planetary detail; (5) a portable eight-inch Schmidt-Cassegrain telescope; (6) remote access to optical and radio telescopes located around the world.

In addition to courses in physics and astronomy, the department offers several courses in data science. Data science is a rapidly growing and multidisciplinary field that leverages modern computing power and the availability of massive data sets (“big data”) to answer complex scientific/technical questions and inform decision-making. In the natural sciences, data science most often takes the form of (1) computer simulations of complex phenomena, (2) computer-driven analysis of large data sets (e.g. from astronomical observations), and (3) interfacing with laboratory equipment to facilitate data collection. The department’s data science courses are designed to appeal broadly to students pursuing a degree in science, engineering, mathematics, or computer science.

Students interested in physics or astronomy are urged to talk with members of the department at the earliest opportunity.

Requirements for the Major in Physics

Required Physics Courses		Semester Hours
PHY 101N	General Physics I	4
PHY 102	General Physics II	4
PHY 211	Modern Physics	4
PHY 270	Seminar I	1
PHY 370	Seminar II	1
PHY 456	Research	4
or		
PHY 460-461	Senior Thesis I and II	4
Required Extra-Departmental Courses		
DSC 250	Scientific Modeling and Data Analysis	4
MTH 141	Calculus I	4
MTH 142	Calculus II	4
MTH 241	Calculus III	4
MTH 333	Linear Algebra and Differential Equations	4

Areas of Concentration

All Physics Majors must complete one of the following three areas of concentration:

Requirements for the Fundamental Physics Concentration

Any Three of The Following Physics Core Courses:

PHY 218	Thermodynamics and Statistical Mechanics	4
PHY 302	Analytical Mechanics	4
PHY 307	Electromagnetic Theory	4

PHY 409	Quantum Mechanics	4
Any One of The Following Physics Laboratory Courses:		
PHY 220	Observational Astronomy	4
PHY 230	Electronics	4
DSC 330	Data Acquisition and Analysis	4
Any Two of The Following Advanced Physics Courses:		
PHY 312	Atomic, Nuclear, and Particle Physics	4
PHY 322	Astrophysics	4
PHY 420	Condensed Matter Physics	4
PHY 445	Methods of Mathematical Physics	4
4 additional credit hours of coursework in BIO/BME/CHE/EGE/CPE/CSC/DSC/EEE/GEO/MTH/EME*(at 120 level or higher)		4
Total		66

Requirements for the Applied Physics Concentration

Any Two of The Following Physics Core Courses:		
PHY 218	Thermodynamics and Statistical Mechanics	4
PHY 302	Analytical Mechanics	4
PHY 307	Electromagnetic Theory	4
PHY 409	Quantum Mechanics	4
Any Two of The Following Physics Laboratory Courses:		
PHY 220	Observational Astronomy	4
PHY 230	Electronics	4
DSC 330	Data Acquisition and Analysis	4
4 additional credit hours of coursework in BIO/BME/CHE/EGE/CPE/CSC/DSC/EEE/GEO/MTH/EME*(at 120 level or higher)		4
Total		58

Requirements for the Concentration in Astronomy

The concentration in astronomy will be available to students majoring in physics. In addition to or as part of the previously listed major requirements, a student wishing to obtain this concentration will need to take the following:

Required Courses		Semester Hours
PHY 120N	Astronomy	4
PHY 322	Astrophysics	4
Any One of the Following Astronomy Elective Courses:		
PHY 200V	Planets and Moons	4
PHY 201V	Einstein's Universe – The Big Bang, Black Holes and Beyond	4
PHY 220	Observational Astronomy	4
Any Two of The Following Physics Core Courses:		
PHY 218	Thermodynamics and Statistical Mechanics	4
PHY 302	Analytical Mechanics	4
PHY 307	Electromagnetic Theory	4
PHY 409	Quantum Mechanics	4
Total		58

Requirements for the Minor in Physics

Any Two of the Following Introductory Courses:		Semester Hours
PHY 101N	General Physics I	4
PHY 102	General Physics II	4

PHY 120N	Astronomy	4
8 additional credit Hours of PHY* coursework *(DSC 250, PHY200, or higher.)		8
Total		16

Department of Psychology, Neuroscience, and Human Development and Family Sciences

The mission of the Department of Psychology, Neuroscience and Human Development is to develop and maintain an academic curriculum and co-curricular activities that help students acquire a broad base of knowledge in psychology, neuroscience and human development, acquire the intellectual and communication skills necessary to participate in these fields as scientists and practitioners, and develop characteristics that encourage personal fulfillment, meaningful work, and responsible citizenship.

The three different areas of study within the department are psychology, neuroscience, and human development and family science. These three areas of study are designed with specific coursework to help students pursue their career goals and gain hands-on experience needed to become professionals in the working world. Courses in these three areas are offered within the Integrative Core so students can take classes while completing credits for their major.

Human Development and Family Science

Human Development and Family Science is an interdisciplinary major/minor that focuses on the study of human development from a systems perspective, examining the dynamic transaction of human life and the environment. The goal of both the major and minor is to help students acquire a comprehensive core of knowledge and understanding of human development across the lifespan, the development and dynamics of couple and family relationships, and the impact of family, community, society, and culture on individual development and family life. With an emphasis in theory, research, and application, a major/minor in Human Development and Family Science prepares students for graduate study and meaningful work in a variety of human-related fields.

All HDFS majors will take 44 semester hours: 28 required hours, and 16 distribution hours selected from three categories. Completion of the major and all other University requirements results in a Bachelor of Science degree with a major in Human Development and Family Science. Students majoring in Psychology, Neuroscience, and/or Sociology may not major in HDFS. Students majoring in HDFS may minor in Sociology; however, they may only overlap and count SOC 110S and SOC 310 toward the minor. Students would not be able to count any other SOC courses taken for the HDFS major toward the Sociology minor.

Requirements for the Major in Human Development and Family Science

Required Core Courses		Semester Hours
PSY 110S	The Psychological Sciences	4
SOC 100S	Introduction to Sociology	4
PSY 225	Lifespan Development	4
SOC 310	American Families	4

Complete a two course series in research and statistical methods from the following

PSY 120	Professional Development in Psych, Neuro, and HD	2
PSY 222	Research Methods in the Psychological Sciences	4
or		
SOC 364	Senior Research I	4
SOC 365	Senior Research II	4

Students SCE course(s) will be determined by the research and statistical methods track chosen above. Students will consult with their advisor to determine which choice is appropriate.

PSY 400	Senior Projects 1	4
PSY 405	Senior Projects 2	2
or		
SOC 490	Senior Culminating Experience	4

Core Distribution Courses (16 hours)

Human Development		
SOC 205	Juvenile Delinquency	4
PSY 215	Child and Adolescent Development	4
PSY 220	Adulthood and Aging	4
PSY 240	Abnormal Psychology	4

PSY 310	Child and Adolescent Psychopathology	4
PSY 345	Human Sexual Behavior	4
PSY 380G	Psychology of Gender	4
Family Development		
SOC 225	Family Violence	4
SOC 235	Stress and Wellbeing	4
SOC 240	Sex, Love, and Relationships	4
SOC 260	Social Gerontology	4
PSY 330	Drugs and Behavior	4
PSY 390	Introduction to Marriage and Family Therapy	4
Society and Culture		
SOC 200	Contemporary Social Issues	4
SOC 215	Drugs and Society	4
SOC 220	The Many Faces of Poverty	4
SOC 320	Sociology of Gender	4
SOC 345	Deviance	4
PSY 210	Educational Psychology	4
PSY 235	Social Psychology	4
PSY 410G	Cultural Health Psychology	4
Total		44-46

*Students must select one course from each of the three core distribution sections along with one elective course from any of the core distribution course options. Of those four courses, two must be from the Department of Psychology, Neuroscience, and Human Development and two must be from the Department of Sociology and Criminal Justice. One of the four core distribution courses must be at the 300-400 level.

Internship Option

Students majoring in Human Development and Family Science will have the option of gaining real-world experience with an optional internship course. Students will be placed in a work setting and work one-on-one with a site supervisor as well as faculty. While this is optional, it is highly recommended as part of the student's overall curriculum.

PSY 499	Psychology Internship	4 – 12
or		
SOC 499	Field Work Internship	4 - 12

Requirements for the Minor in Human Development and Family Science

Required Courses		Semester Hours
PSY 110S	Introduction to Psychological Science	4
SOC 100S	Introduction to Sociology	4
Required Core Option		
PSY 225	Lifespan Development	4
or		
SOC 310	American Families	4
	Any 2 additional core distribution courses	8
Total		20

*Each elective course must come from a different distribution category, with at least one course at the 300-400 level. Of the five courses taken, no more than three courses may be from either the Psychology, Neuroscience, and Human Development or Sociology & Criminal Justice departments.

Due to course overlap, students majoring in Psychology and Neuroscience may not pursue a minor in HDFS. Students minoring in Psychology or Neuroscience cannot also minor in Human Development & Family Science. HDFS minors may minor in Sociology; however, they may only overlap and count SOC 110S and SOC 310 toward both minors. Other SOC courses taken may only be counted toward either the HDFS or Sociology minors.

The Neuroscience Major

The Neuroscience major provides courses with a focus on the structure and function of the central and peripheral nervous system and how they impact cognition, emotion, and behavior. The introductory courses provide a foundation for understanding

how the anatomy and physiology of the nervous system can impact behavior, consciousness, and how we interact with others. Elective classes provide specialization in basic fields such as psychopharmacology and applied areas examining how brain functionality impacts psychiatric disorders. The major is designed to provide graduates with the tools necessary to pursue jobs immediately upon graduation as laboratory assistants in a variety of research settings. The major is also designed for students wishing to pursue graduate study and careers in neuroscience and medicine and students with an interest in nervous system specific fields such as neurology or psychiatry.

All Neuroscience majors will take 44 semester hours: 24 required core hours, 8 required extra-departmental hours, and 12 hours of electives from two categories. Completion of the major and all other University requirements results in a Bachelor of Science degree in Neuroscience. Please note that due to course overlap, anyone who chooses to pursue this major may not pursue other majors or minors within the Department of Psychology, Neuroscience, and Human Development. These would include the majors and minors in psychology and human development & family science.

Requirements for the Major in Neuroscience

Required Courses		Semester Hours
PSY 110S	The Psychological Sciences	4
PSY 120	Professional Development in Psychology	2
PSY 222	Research Methods in the Psychological Sciences	4
PSY 250	Neuroscience: The Brain	4
PSY 320	Neuroscience: Behavior and Psychiatric Disorders	4
PSY 400	Senior Research I	4
PSY 405	Senior Research II	2
 Required Extra-Departmental Courses (8 hours)		
BIO 140N	The Unity of Life	4
CHE 120N	Concepts in Chemistry	4
 Any 1 of the following basic science courses (4 hours)		
PSY 240	Abnormal Psychology	4
PSY 245	Learning and Conditioning	4
PSY 260V	Sensation and Perception	4
PSY 270	Cognitive Psychology	4
PSY 340	Animal Cognition	4
 Any 1 of the following applied science courses (4 hours)		
PSY 290	Introduction to Autism Spectrum Disorders	4
PSY 310	Child and Adolescent Psychopathology	4
PSY 330	Drugs and Behavior	4
PSY 410G	Cultural Health Psychology	4
 One additional basic or applied science course (4 hours)		 4
Total		44

Requirements for the Minor in Neuroscience

Students wishing to obtain a minor in Neuroscience can begin with an introductory course in psychology, biology, or chemistry followed by core courses in neuroscience. The Neuroscience minor consists of 16 semester hours: 4 introductory hours selected from any of three disciplines, 8 required hours in Neuroscience, and 4 elective hours in Neuroscience. Students majoring in psychology or human development & family science cannot double major or minor in neuroscience.

Any 1 of the following introductory courses (4 hours)		Semester Hours
PSY 110S	The Psychological Sciences	4
BIO 140N	The Unity of Life	4
CHE 120N	Concepts in Chemistry	4
 Required Neuroscience Courses (8 hours)		
PSY 250	Neuroscience: The Brain	4
PSY 320	Neuroscience: Behavior and Psychiatric Disorders	4
 Any 1 of the following courses (4 hours)		
PSY 240	Abnormal Psychology	4

PSY 245	Learning and Conditioning	4
PSY 260V	Sensation and Perception	4
PSY 270	Cognitive Psychology	4
PSY 290	Introduction to Autism Spectrum Disorders	4
PSY 310	Child and Adolescent Psychopathology	4
PSY 330	Drugs and Behavior	4
PSY 340	Animal Cognition	4
PSY 410G	Cultural Health Psychology	4

Total 16

Students minoring in Psychology or Human Development & Family Science cannot also minor in Neuroscience.

Major in Psychology

The psychology major is designed to reflect the basic and applied aspects of psychological science. The major includes a rigorous core emphasizing the acquisition of research methods and data analysis skills culminating in the production and presentation of completed research projects. In addition, majors are required to experience the breadth of the field by selecting courses across the discipline. The major is designed to prepare students both to pursue careers immediately after graduation in a diverse array of positions and to acquire the advanced degrees in psychology and allied fields necessary for the achievement of career goals in academic and applied areas. All psychology majors will take 44 semester hours: 20 required hours, 12 distribution hours selected from three categories, and 12 hours of electives. Completion of the major and all other University requirements results in a Bachelor of Science degree in psychology. Please note that due to course overlap, anyone who chooses to pursue this major may not pursue other majors or minors in neuroscience, and human development & family science.

Requirements for the Major in Psychology

Required Courses (20 hours)		Semester Hours
PSY 110S	The Psychological Sciences	4
PSY 120	Professional Development in Psychology	2
PSY 222	Research Methods in the Psychological Sciences	4
PSY 400	Senior Research I	4
PSY 405	Senior Research II	2
PSY 420	The Origins of Psychology	4
or		
PSY 499	Psychology Internship	4
or		
SPE 499	Spectrum Education Center Internship	4
Any One of the Following Developmental/Social Courses (4 hours)		
PSY 210	Educational Psychology	4
PSY 215	Child and Adolescent Development	4
PSY 220	Adulthood and Aging	4
PSY 225	Lifespan Development	4
PSY 230	Personality Theory	4
PSY 300	Movies & Madness	4
PSY 380G	Psychology of Gender	4
PSY 385G	Psychology of Prejudice & Power	4
Any One of the Following Cognitive/Behavioral Psychology or Neuroscience Courses (4 hours)		
PSY 245	Learning and Conditioning	4
PSY 250	Neuroscience: The Brain	4
PSY 260V	Sensation and Perception	4
PSY 270	Cognitive Psychology	4
PSY 320	Neuroscience: Behavior and Psychiatric Disorders	4
PSY 330	Drugs & Behavior	4
PSY 340	Animal Cognition	4
PSY 410G	Cultural Health Psychology	4
Any One of the Following Applied Psychology Courses (4 hours)		
PSY 240	Abnormal Psychology	4
PSY 290	Introduction to Autism Spectrum Disorders	4
PSY 305	Psychology of Humor	4

PSY 310	Child and Adolescent Psychopathology	4
PSY 345	Human Sexual Behavior	4
PSY 360	Introduction to Counseling	4
PSY 390	Introduction to Marriage and Family Therapy	4
Twelve additional PSY or SPE credits (4 credits must be at 300-400 level)		12
Total		44

Requirements for the Minor in Psychology

Students wishing to obtain a minor in psychology begin with an overview of the field and then take more specialized courses that provide greater depth of inquiry. The psychology minor consists of 16 semester hours in psychology: 4 required hours and 12 elective hours. Students majoring in neuroscience or human development & family science cannot double major or minor in psychology.

Required Courses		Semester Hours
PSY 110S	Introduction to Psychological Science	4
Any 3 additional PSY courses (excluding PSY 120 & PSY 222)		12
Total		16

Students minoring in Neuroscience or Human Development & Family Science cannot also minor in Psychology.

Requirements for Honors in Psychology, Neuroscience, and Human Development

Students are eligible to enter the Honors Program in psychology, neuroscience, or HDFS if they have at least a 3.5 grade point average in the major or permission of the Honor Review Board. To receive honors in psychology, neuroscience, or HDFS, a student must have at least a 3.5 grade point average in the major at graduation and honors credit in courses that total a minimum of 12 semester hours or complete the PSY 494 Honors Thesis/Project. For permission to register for an honors thesis/project, a completed Honors Application and Registration Form must be filed with the director of Honors Programs by the end of the 12th week of classes of the semester prior to doing the thesis. Students must earn at least a “B+” in the course to earn honors credit. Other courses students may take for honors in psychology, neuroscience, and HDFS include any 200-level or above course except PSY 110S, PSY 120, PSY 222, PSY 400 and PSY 405. For permission to register for a course with honors in the major, a completed Application and Registration Form must be filed with the director of Honors Programs by the end of the third week of classes of the semester in which the course is taken. Students must earn at least a “B+” in the course to earn honors credit.

Spectrum Education Center Internship Program

The Spectrum Education Center Internship Program is administered by the Department of Psychology, Neuroscience, and Human Development. The Spectrum Program is designed to support undergraduate students who are interested in the intervention and advocacy of people with developmental disabilities. The Spectrum Program provides students with the opportunity to participate in co-curricular, semester-long off-campus experiences. These experiences include both academic and internship components, giving students the chance to witness theory-in-practice.

Requirements for the Spectrum Internship Program

The following courses must be taken concurrently:

Required Courses		Semester Hours
SPE 200	Introduction to Developmental Disorders	4
SPE 205	Clinical Seminar on Developmental Disorders	2
SPE 499	Spectrum Education Center Internship	8

Additional Student Requirements

Students must be accepted to participate in the Spectrum Program. Once accepted, students are placed at local clinical sites with whom the University of Mount Union has partnership agreements.

The Spectrum Program requires a GPA of 3.0 and the completion of 28 credit hours for eligibility. In addition, students must have the endorsement of their academic advisor. Spectrum and representative from internship sites screen all applications. Spectrum notifies the student about admittance into the program, and course enrollment is secured at the time of selection.

A student may not repeat a failed course in order to pass and receive credit for the course. Students enrolled in an internship pay normal tuition and fee charges to the University.

Course Descriptions

All-University Courses

An institutional commitment across the entire curriculum has led to the establishment of several universal course designations with common descriptions. The following course descriptions have been established for all departments.

199 Special Topics.

A course designed to permit the offering of special subjects appropriate to the program of the department. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Lower divisional offerings will be listed as 199. Regular or frequently recurring topics are not offered under this title. Prerequisite: permission of the instructor. May be repeated as new topics are presented. Credit variable, 1-4 Semester Hours.

299 Special Topics.

A course designed to permit the offering of special subjects appropriate to the program of the department at the sophomore level. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Regular or frequently recurring topics are not offered under this title. Prerequisite: as established by the department. May be repeated as new topics are presented. Credit variable, 1-4 Semester Hours.

399 Special Topics.

A course designed to permit the offering of special subjects appropriate to the program of the department. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Upper divisional offerings will be listed as 399. Regular or frequently recurring topics are not offered under this title. Prerequisite: permission of the instructor. May be repeated as new topics are presented. Credit variable, 1-4 Semester Hours.

494 Honors Thesis/Project.

A research/project course designed to meet the needs of the individual student seeking honors in the major at graduation. Prerequisites: junior or senior standing, and approval of the instructor, the department chair and the Honors Review Board. Credit variable, 4-6 Semester Hours.

498 Internships (Internal)*

Students are provided with a significant learning experience outside the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. Taken under Satisfactory/Unsatisfactory grade option only. Credit variable, 1-16 Semester Hours.

499 Internships (External)*

Through the cooperation of agencies and businesses in the vicinity of the University, students are provided with a significant learning experience outside of the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. The basis of determining the grade for the program will be given in the contract and will include an evaluation by the supervisor at the organization where the internship work is done, an assessment by the internship faculty advisor, and a written report of the internship experience submitted by the student. Prerequisites will vary with the internship. Participation is by petition to the chair of the department. Taken under Satisfactory/Unsatisfactory grade option only. Credit variable, 1-16 Semester Hours.

*Note: For internships, a maximum of 16 semester hours of courses numbered 498 or 499 will be counted toward the 128 hours required for graduation. These 16 semester hours can be spread over as many semesters as a department may approve. All majors will consist of a minimum of 28 semester hours of coursework, exclusive of "498" or "499." All minors will consist of a minimum of 16 semester hours of coursework, exclusive of "498" or "499." Credit for internship hours will be in addition to these minimum hours for the major and minor. International students must complete the mandatory forms for academic internships (CPT/OPT) through the Office of International Student Affairs.

Extended Courses

An extended course is a course scheduled to require two consecutive semesters to complete. Students must be registered for part of the total credit in each of the two semesters. An "IP" (in progress) will be assigned to the transcript at the end of the first semester. At the completion of the course an appropriate single letter grade will be assigned for the entire course, thus replacing

the interim IP. Deadlines for special options (dropping the course, conversion to S/U, etc.) are extended until the drop/add period of the second semester in which the course is active.

General University Courses

JMP 100 Summer Jumpstart Bridge Program

This course is designed for those students who take part in the Summer Bridge Program only. 2 Semester Hours.

STA 100 Special Topic: Mapping Out Study Abroad

This course is open to students planning on studying abroad. Students will gain cross-cultural understanding and develop skills to help them maximize their experience abroad. 1 Semester Hour.

STA 200 Special Topic: Unpacking Study Abroad

This course is open to students who have returned from study abroad. Students will learn how to integrate the study abroad experience into their professional and personal lives and apply international skills to the global workplace. Prerequisite: STA 100. 2 Semester Hours.

UMU 100 Raider's Rise

This course is part of an academic support plan designed to help new conditionally admitted students rise to their full potential. Students will develop skills, habits and behaviors through intentional action steps meant to advance their abilities and confidence. This course will better prepare them for success now in University courses, while also preparing them for a lifetime of learning and success outside the classroom. In this course, students will build the tools and resources needed to rise to meet the expectations of the University and the demands of life on a University campus. 1 Semester Hour.

UMU 150 Pop Up Courses

Pop Up courses are short, extra-curricular workshops that offer students an opportunity to engage in material or activities not covered in traditional curriculum. May only be repeated for change of grade if same pop-up course is offered. A maximum of 4 semester hours of pop-up courses may be taken in each semester. Topics and instructors vary. 1 Semester Hour.

Accounting

ACC 205 Financial Accounting

Study of the accounting cycle and generally accepted accounting principles including the preparation and analysis of financial statements. Typically offered fall and spring semester. Prerequisite: Sophomore standing or permission of the instructor. 4 Semester Hours.

ACC 207 Managerial Accounting I

Introduction to the fundamental concepts of managerial accounting. There is an emphasis on product costing, operational budgeting and planning, cost reporting and control and analytical tools used by management. Prerequisite: ACC 205. 2 semester hours.

ACC 208 Managerial Accounting II

This course is a continuation of ACC 207. There is an emphasis on alternative cost allocation techniques, cost variances, cost control, and profit planning. Prerequisite: ACC 207. 2 semester hours.

ACC 305 Federal Taxation I

A theoretical and practical introduction to the study of federal income tax law with emphasis on federal taxation related to the individual. Emphasis on tax theory with return preparation used to illustrate theory. Topical coverage includes filing status, rules for dependency, the concept of income as it relates to taxes, deductible expenses, computation of tax credits, and tax rules involving property transactions. Overview of the sources of tax authority. Typically offered fall and spring semesters. Prerequisites: minimum grade of C in ACC 205; Junior standing. 4 Semester Hours.

ACC 310 Intermediate Accounting I

The theoretical foundations of accounting; intensive study of concepts and applications in accounting for cash, investments, receivables, inventories, operational and intangible assets and liabilities, with emphasis on U.S. Generally Accepted Accounting Principles and comparisons to International financial reporting standards. Typically offered fall semester. Prerequisites: ACC 205, ACC 206, and ACC 207 with a B average or better or consent of the instructor. 4 Semester Hours.

ACC 311 Intermediate Accounting II

A continuation of intermediate accounting including intensive study of debt securities, corporate equity accounts, earnings per share, investments, revenue recognition, income taxes, pensions, leases, accounting changes, cash flows, and financial statement

disclosures with emphasis on U.S. Generally Accepted Accounting Principles and comparisons to international financial reporting standards. Typically offered spring semester. Prerequisite: ACC 310. 4 Semester Hours.

ACC 330 Auditing

A study of audit objectives, principles, standards and procedures for conducting an examination of the financial statements and related accounting records of a business enterprise. Attention is given to current releases of the auditing standards board, the public company accounting oversight board, the international auditing and assurance standards board and the Securities and Exchange Commission. Professional ethics, legal liability, other assurance, and non-assurance services will also be covered. Typically offered in the fall semester. Prerequisites: ACC 311. 4 Semester Hours.

ACC 345 Advanced Cost Accounting

In-depth study of pricing decisions and cost management; strategic profitability analysis; cost allocation for joint products and byproducts; quality, time and theory of constraints; process costing; management control systems, transfer pricing and multinational considerations. Class typically participates in a service learning project. Prerequisites: ACC 205, ACC 206, and ACC 207 with a B average or better or consent of the instructor. Typically offered spring semester. 4 Semester Hours.

ACC 445 Advanced Accounting

Accounting theory and practice involving complex business transactions. Areas of study include partnerships, branch offices, business mergers and acquisitions, financial reporting by multinational enterprises, segment and interim reporting, and SEC reporting. Emphasis on ethical issues in accounting practice. Recommended for students intending to pursue CPA certification. Typically offered fall semester. Prerequisite: ACC 311. 4 Semester Hours.

ACC 450 Federal Taxation II

Study of current federal income tax law pertaining to tax reporting entities other than individuals. This includes tax planning and compliance for partnerships, C corporations, S corporations, trusts and estates. Also includes the fundamentals of researching tax law and reference materials and application of tax research techniques to selected cases. Typically offered spring semester. Prerequisite: ACC 305 with minimum grades of C. 4 Semester Hours.

ACC 454 Seminar in Accounting

A series of in-depth studies of various topics in accounting. Typical topics are forensic accounting, accounting for governmental and non-profit organizations and international accounting. Class typically participates in a service learning project. Note: Not all topics will be offered every year. Typically offered fall semester. Prerequisite: Open to junior and senior accounting majors or minors. 4 Semester Hours.

ACC 455 Accounting Issues

The study of current and relevant developments in accounting theory and practice including generally accepted accounting principles as covered in the financial accounting standards board's accounting standards codification. Ethical issues in accounting will be discussed. Students will present papers orally and in writing on relevant issues. A major project also will be included in which the students will be required to use a general ledger software program in forming and accounting for a hypothetical business starting with the proprietorship form and progressing through a corporation. This course has been designated as the Senior Culminating Experience for individuals with a major in accounting. Typically offered spring semester. Prerequisite: ACC 311, ACC 330 and senior standing or permission of the instructor. 4 Semester Hours.

ACC 494 Honors Thesis/Project

See All-University 494 course description.

ACC 499 Internship in Accounting

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. Prerequisite: ACC 208 and ACC 310. 1-16 Semester Hours.

Africana Studies

AFR 199 Special Topics in Africana Studies

See All-University 199 course description.

AFR 206H Africana World(s) and the Emergence of the Modern

Jazz? Gumbo? Blues? Zombies? Are all these things like one another? All are cultural forms emerging from the slave trade and the African diaspora. Africana World and the Emergence of the Modern is a broad introduction to Africana Studies as an

interdisciplinary field of study devoted to the historical, cultural, social and political legacies and subjective consequences of the African diaspora with its dispersal of African peoples across the globe through the slave trade(s) – Atlantic, Indian Ocean, Saharan—the largest forced migration in human history. Students will engage with the origins and history of the discipline and its methodology as grounded in cultural theory and Africana philosophy as well as pertinent disciplinary approaches to issues of philosophy and theory, culture and ideology, aesthetics and specific cultural practices. Pre-requisite: Completion of a First Year Seminar. 4 Semester Hours.

AFR 226 The History and Evolution of Gospel Music

This course is a broad survey of African-American gospel music from its roots in Negro Spirituals and lined hymns, to the emergence of the four styles of gospel (i.e. gospel hymn, rural gospel blues, Holiness-Pentacostal gospel, post-World War II/contemporary) and the development of the modern day sound. Students will be introduced the change and expansion of the five eras of gospel (i.e. solo, a capella quartets, progressive quartets, choir and contemporary). Coursework includes musical listening, analysis, and limited practicum; as a course in the Integrative Core curriculum, written and oral communication is emphasized. 4 Semester Hours.

AFR 228G Pivotal Africana Figures

A course focusing on the lives and contributions of significant figures in Africa and the African diaspora, in the humanities, the natural and social sciences, and the arts. The course examines the impact these individuals have had on the Africana world including the African diaspora and will examine the context in which these personalities developed. The learning objectives for the course are that the student will become familiar with at least one personality, will study the history and development of at least one area in which people of African descent have had an impact. Prerequisite: AFR 206H or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

AFR 260G Rap and Rhetoric of the Hip-Hop Generation

A critical study of the impact and influence of the messages in hip-hop music and culture on identity construction. This course is designed to introduce students to the history of hip-hop culture and to analyze and critique the messages disseminated through various genres of hip-hop, lyrics and videos. Prerequisite: AFR 206H. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

AFR 299 Special Topics in Africana Studies

See All-University 299 course description.

AFR 306G Pan-Africanism

An introduction to Pan-Africanism as a global movement of Africana peoples across Africa and the diaspora. Particular attention will be paid to the development of pan-Africanism as socio-political movement and significant contributors to that movement. The three pronged approach of analyzing Pan-African figures, charting the historical development of the movement and studying some of the philosophical tenets of Pan-Africanism will be the forefront of most of the discussion in the course. The course will layout the basic framework and ideas of pan-Africanism and examine the impact and contribution some of the main players. As such the course will get into some of the cultural, political, philosophical, psychological and social aspects. Prerequisite AFR 206H. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

AFR 326G Black Diaspora Culture

An introduction to diasporic culture as a distinctive and dynamic phenomenon emerging from Pan-African experiences of peoples of the African diaspora, grounded in and driven by “the folk” and folk experiences. Particular attention to interdisciplinary answers to the question: “what kinds of cultural practices developed and continue to develop out of an African in design, diasporic in origin global migration?” with attention to visible “high” culture – painting, sculpture, music – and invisible “low” or “popular” culture – quilting, cooking, hair. Prerequisites: AFR 206 and/or appropriate Integrative Core Explorations course. 4 Semester Hours.

AFR 346V Imagining Slavery

An interdisciplinary introduction to the “peculiar” institution of slavery in the Americas, Africa and Asia and its consequences for contemporary Africana identity(ies) and culture(s). Core focus is “the singular landscape” resulting from life in both New and Old Worlds where freedom and liberty are defined in the context of enslavement and devastating racial oppression. Prerequisite: AFR 206. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

AFR 399 Special Topics in Africana Studies

See All-University 399 course description.

AFR 406 Independent Study in Africana Studies

Select topics in Africana Studies with an emphasis on independent inquiry, writing and research methodologies. Prerequisite: Junior or senior standing. 2-4 Semester Hours. variable credit.

Art

ART 100A Introduction to Art

A general introduction art for students not majoring or minoring in art. This course will provide students with a broad perspective of the theories, techniques, and practices of the visual arts, design, crafts, architecture and art history. 4 Semester Hours.

ART 110 Drawing I

An introduction to the theories, techniques, and practices of representational drawing with an emphasis on the application of design principles to the means of drawing as a form of personal expression. The successful student will be able to demonstrate an ability to render objects in space with a logical and plausible light source effect. 4 Semester Hours.

ART 120 Design I

This course provides students with a study of the fundamentals of two-dimensional and three-dimensional visual organization. Through lectures, visual presentations and numerous studio projects students will become familiar with the terms and vocabulary associated with visual design and develop an appreciation for the perceptual skills related to vision. Using the design elements of line, value, texture, shape and form in conjunction with the design principles of unity, variation, emphasis, rhythm, size, scale and volume students solve aesthetic problems with spatial relationships, experiment with different two-dimensional and three-dimensional mediums, and most importantly, analyze, write about and discuss the decision making process in art and design. 4 Semester Hours.

ART 210 Drawing II

This is a Life Drawing class. The human figure is used as the primary subject for drawing. The course is founded on the study of anatomy for artists and considers the human figure as a structural entity in itself as drawing problem. Prerequisite: ART 110. (ART 120 is strongly recommended but not required). 4 Semester Hours.

ART 215V Design II

This course provides students with a comprehensive introduction to the expressive and decorative aspects of color. This course is a continuation of Design I with an emphasis on color organization and color effects in spatial systems. Through lectures, visual presentations and numerous studio projects students will become familiar with the terms and vocabulary associated with color theory, develop the techniques needed to mix colors, and experiment with the application of color to different two-dimensional and three-dimensional surfaces. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ART 220 Sculpture I

This course provides students with a comprehensive introduction to Sculpture. Students work with additive and subtractive processes of sculpture. Students learn and acquire knowledge and skills associated with the techniques of figure modeling, mold making, casting, carving and wood assemblage. Materials used are clay, plaster, wood and stone. 4 Semester Hours.

ART 225 Printmaking I

This course provides students with a comprehensive introduction to the artistic and technical aspects of printmaking. Students will gain knowledge of most forms of printmaking, including mono-type, intaglio, etching, and woodblock techniques. The history of printmaking will be discussed, as well as the importance of printmaking in contemporary art making. Prerequisites: ART 110 and ART 120. 4 Semester Hours.

ART 230 Painting I

This course is an introduction to the basic skills, tools, materials and techniques used in painting. Students will paint from direct observation using the still-life, human form and landscape as reference. Emphasis is on solving the problems of representing form in space by applying the elements of composition, value, perspective and color. Topics include demonstrating various painting techniques, preparing painting supports, and composing objects and environmental subjects for observational reference. Group and individual critiques are an essential component of this course. Prerequisite: ART 215V. 4 Semester Hours.

ART 235 Photography I

A course of study with the general goals of enabling students to take, edit and present improved photographs, to enable students to continue to grow as photographers over a lifetime, and, to appreciate the photographers and works that are considered significant. A DSLR/SLR type camera with manual controls (available) is required. Successful students will be able to achieve better results through the study of the timeless concepts of film heritage such as shutter speed, aperture, exposure, ISO settings, filters, meters. Editing will be done in Photoshop, and the works are to be professionally presented in critiques and portfolios. Students with

previous experience in the traditional “wet” darkroom and or design are welcome. Assessment is based on attendance in class and shooting trips, mastery of techniques, submitted on-time assignments, and artistic quality of the photographs. 4 Semester Hours.

ART 240 Graphic Design I

This course explores basic graphic systems, formal resources, conceptual principles and procedures underlying this practice. This course will focus on the process of problem solving by design, the visualization of problems and solutions, and the correlation of forms with their content and function. 4 Semester Hours.

ART 245 Art Education I - Materials and Methods for Art Education

This course provides pre-service art teachers with the knowledge of processes, materials, student development, and application of the state standards for K-12 art teaching. Students will begin to prepare a Portfolio showing their understanding of students, learning, teaching, and the various materials and methods needed for artistic and creative development. Studio experiences are included. 4 Semester Hours.

ART 250A Art History Survey I

This course provides a general survey of painting, sculpture, and architecture from the Pre-historic to the Gothic era in Western and Non-Western cultures. The course content will examine the context of style and era, with consideration of social, economic, political and religious issues. The intention is to provide a knowledge base that gives students a sense of connection with the past and a framework of understanding the roots of our cultures. 4 Semester Hours.

ART 251A Art History Survey II

This course provides a general survey of painting, sculpture, and architecture from the Renaissance to the Modern Era in Western and Non-Western cultures. The course content will examine the context of style and era, with consideration of social, economic, political and religious issues. The intention is to provide a knowledge base that gives students a sense of connection with the past and a framework of understanding the roots of our cultures. 4 Semester Hours.

ART 260 Visual Web Design

This studio and lecture course will deal with the visual design aesthetic of websites. Attention will be paid to core principles of art and design such as hierarchy, color, balance, proportion, texture, as well as unity and variety, focusing on the creative use of the computer as a design tool and illustrative medium. Prior knowledge of Adobe Creative Suite is highly recommended. Prerequisites: ART 240. Recommended but not required: CSW 113. 4 Semester Hours.

ART 310 Drawing III

This is an advanced-level drawing course designed to afford students opportunities to develop skills using materials and techniques they may not have worked with in previous Drawing courses. Historical and contemporary issues will be investigated with an emphasis on personal growth and the development of self-exploration and creative expression. This course is structured to enable students to further their abilities in Drawing with the specific content of the course to be developed in consultation with the professor. Prerequisite: ART 110. (ART 120 and ART 215V are strongly recommended but not required). 4 Semester Hours.

ART 320 Sculpture II

This is an advanced-level Sculpture course designed to afford students opportunities to develop skills using materials and techniques they may not have worked with in previous Sculpture courses. Historical and contemporary issues will be investigated with an emphasis on personal growth and the development of self-exploration and creative expression. This course is structured to enable students to further their abilities in Sculpture with the specific content of the course to be developed in consultation with the professor. Prerequisite: ART 220. 4 Semester Hours.

ART 323 Interactive Animation

An introduction to the problems specific to electronic design and expression. Advanced creative work will be developed, the specific content of which is to be determined by the student in conference with the instructor. Prerequisites: ART 110, ART 215V and CSW 223. 4 Semester Hours.

ART 325 Printmaking II

This is an advanced-level Printmaking course designed to afford students opportunities to develop skills using materials and techniques they may not have worked with in previous Printmaking courses. Historical and contemporary issues will be investigated with an emphasis on personal growth and the development of self-exploration and creative expression. This course is structured to enable students to further their abilities in Printmaking with the specific content of the course to be developed in consultation with the professor. Prerequisite: ART 225. 4 Semester Hours.

ART 330 Painting II

This is an advanced-level Painting course designed to afford students opportunities to develop skills using materials and techniques they may not have worked with in previous Painting courses. Historical and contemporary issues will be investigated with an emphasis on personal growth and the development of self-exploration and creative expression. This course is structured to enable

students to further their abilities in Painting with the specific content of the course to be developed in consultation with the professor. Prerequisite: ART 230. 4 Semester Hours.

ART 335 Photography II

This is an advanced-level Photography course designed to afford students opportunities to develop skills using materials and techniques they may not have worked with in previous Photography courses. Historical and contemporary issues will be investigated with an emphasis on personal growth and the development of self-exploration and creative expression. This course is structured to enable students to further their abilities in Photography with the specific content of the course to be developed in consultation with the professor. Prerequisite: ART 235. 4 Semester Hours.

ART 340 Graphic Design II

This course is a continuation of skills and concepts introduced in Graphic Design I. Emphasis will be on typography, typography and image, and pre-production projects. Traditional and innovative solutions will be developed in assignments related to the industry. Students will develop a professional portfolio of their work. Prerequisite: ART 240. 4 Semester Hours.

ART 345 Art Education II - Professional Issues in Art Education

As both curricular issues and the value of Arts in the schools becomes more and more important, students in this course will study current policy, standards, advocacy, and professional issues related to teaching Art. It is a continuation of the portfolio development and curricular work begun in ART 245. Studio experiences are included. Prerequisite: ART 245. 4 Semester Hours.

ART 346 Art Education III – Ceramics

This course provides students with a comprehensive introduction to a variety of techniques and concepts related to ceramic hand-building processes. Both functional and non-functional objects are used to demonstrate coil, slab, pinch and throwing techniques. Emphasis is placed on the three-dimensional concepts of texture, form, color, balance, and design. Prerequisites: ART 250 and ART 251. 4 Semester Hours.

ART 351V Modern Art History

This course provides students with a closer look at significant art created from 1850 to the present era, including Modern, Post-Modern, and contemporary art. Works and artists will be considered in the contexts of political, social, economic, and religious importance and the successful student will demonstrate an understanding of the artists and works considered significant. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ART 355 Illustration

Illustration is a studio and lecture course that provides students with an overview of illustration across a variety of media, from traditional to digital. The emphasis will be on creativity and imagination, combined with learned draftsmanship skills to explore the visual communication of ideas. Assignments will focus on narrative editorial, advertising and institutional illustration assignments that use effective reproduction of subject matter from still life and nature, perspective and human forms, as well as some digital and photographic work. Prior knowledge of Adobe Creative Suite may prove helpful but is not required. Prerequisites: ART 110, ART 120, ART 215V. Recommended but not required ART 230. 4 Semester Hours.

ART 360 3D Modeling and Animation

This course is an introduction to 3D modeling, rendering and animation. Basic concepts learned in 2D animation such as narrative and movement are revisited within the 3D environment. This course covers 3D modeling techniques to create forms and environments within the realms of sculpture, architecture, and character animation. Prerequisite: ART 323 or ART 220. 4 Semester Hours.

ART 425 Art SCE - Senior Exhibition

This course is meant as a continuation of one upper level Art course: ART 310, 320, 325, 330, 335, 340, 345, 346, and/or 360. This capstone provides an exhibit experience for the studio art major. The SCE in enables students to synthesize the theories, concepts, and technical skills encountered in the whole major-based experience with a focus on one medium or process. The SCE exhibit is a body of creative work consistent with a thesis and is formulated during the senior exhibition sequence and deemed suitable for exhibition in the Sally Otto Art Gallery. The exhibition will demonstrate the students' ability to conceptualize, evaluate, revise, and professionally present a sizeable number of works that communicate a unique expressive vision. 4 Semester Hours.

ART 450 Art History Study Travel SCE

Students will experience a guided study tour of significant culturally historic sites abroad. The cities of London, Paris, Venice, Florence, Siena, Rome, Cairo and Athens have been visited in the past. Emphasis is on direct engagement with the art and architecture of each site in its actual context. Visits to museums, cathedrals, palaces, archaeological sites, and other points of interest will be a part of the trip. The course is flexible, so it may serve a variety of situations involving foreign on-site study. In addition to the tour itself, pre-trip seminar attendance, background study, written assignments, presentations and research are considered for grading purposes. Prerequisites: ART 250 and ART 251, or permission of instructor. 4 Semester Hours.

ART 494 Honors Thesis/Project SCE

A research/project course designed to meet the needs of the individual student seeking honors in the major at graduation. Prerequisites: junior or senior standing, and approval of the instructor, the department chair and the Honors Review Board. See All-University -494 course descriptions. 4 Semester Hours.

ART 498 Art Internship (Internal) SCE

Students are provided with a significant learning experience outside the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. Taken under Satisfactory/Unsatisfactory grade option only. See All-University -498 course descriptions. 1-16 Semester Hours.

ART 499 Art Internship (External) SCE

Through the cooperation of agencies and businesses in the vicinity of the University, students are provided with a significant learning experience outside of the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. The basis of determining the grade for the program will be given in the contract and will include an evaluation by the supervisor at the organization where the internship work is done, an assessment by the internship faculty/advisor, and a written report of the internship experience submitted by the student. Prerequisites will vary with the internship. Participation is by petition to the chair art of the department. Taken under Satisfactory/Unsatisfactory grade option only. See All-University -499 course descriptions. 1-16 Semester Hours.

Athletic Training

ATP 115 Foundations of Athletic Training

An introduction to the multifaceted field of athletic training; includes the roles and responsibilities of various members of the global sports medicine team, basic components of a comprehensive athletic injury/illness prevention program (including the pre-participation physical examination), and environmental risk factors. The course also includes introduction to the injury/illness assessment process, including general injury classifications, medical-legal considerations, medical terminology and patient documentation skills. Students seeking admittance into the CAATE accredited athletic training major are required to take this course. Two class hours per week, should be taken concurrently with ATP 118. 2 Semester Hours. (typically offered fall semester)

ATP 116 Orthopedic Applications in Athletic Training

The purpose of this clinical course is to provide students with the anatomical basis and the technical aspects of applying clinical proficiencies relating to orthopedic applications used in the care and prevention of injuries in physically active individuals. Techniques taught include supportive taping, protective wrapping, special pad fabrication and other applications. In the second half of the course, students will also learn the basic principles and/or physiological effects of professional rescuer first aid and CPR, therapeutic modalities and interventions, and written and electronic clinical note documentation. Lab fee required. Students seeking admittance into the CAATE accredited athletic training major are required to take this course. Additional fee applies. Prerequisite: ATP 115 with a C or higher or with permission from ATP Program Director. 4 Semester Hours. (typically offered spring semester)

ATP 118 Medical Terminology in Athletic Training

An introduction to medical word structures, with emphasis on word roots, prefixes, suffixes, and abbreviations while gaining an understanding of the rules for building and analyzing medical terms associated with body systems. Students will define and interpret terms relating to structure and function, pathology, diagnosis, and clinical procedures. The course also includes investigation of personal health and wellness and discusses various influencing factors like community health operations, addictive behaviors, and motivation. Students seeking admittance into the CAATE accredited athletic training major are required to take this course. 2 Semester Hours (typically offered fall semester)

ATP 120 Personal Health

The course includes the investigation of personal health and wellness through discussion of various influencing factors including community health operations, addictive behaviors, and motivation. Other topics include obesity, fitness, cardiovascular health, sexuality, and infectious disease. Students seeking admittance into the CAATE accredited athletic training major are required to take this course. 2 Semester Hours (typically offered fall/spring/summer semesters).

ATP 216 Injury Recognition I

Clinical assessment of injuries and illnesses commonly sustained by the competitive athlete and/or physically active individual(s). Prepares students to recognize clinical signs and symptoms in order to effectively formulate a clinical impression of the nature and severity of injuries/illnesses relating to the thoracic spine, thorax, lumbar spine, abdomen, pelvis, hip, thigh, knee, ankle and foot

for the primary purpose of making an accurate assessment and appropriate medical referrals. The course involves extensive application of anatomy, injury mechanics and an in-depth understanding of injury pathophysiology. Prerequisites: ATP 115, ATP 116, ATP 118 and BIO 210. 4 Semester Hours. (typically offered fall semester)

ATP 217 Injury Recognition II

The continuation of ATP 216; clinical assessment of injuries and illnesses commonly sustained by the competitive athlete and/or physically active individual(s). Prepares students to recognize clinical signs and symptoms in order to effectively formulate clinical impressions about the nature and severity of injuries/illnesses relating to the face, head (intercranium), cervical/thoracic spine, shoulder, elbow, wrist and hand for the primary purpose of making an accurate assessment and appropriate medical referrals. The course involves extensive application of anatomy, injury mechanics and an in-depth understanding of injury pathophysiology. Prerequisites: ATP 216. 4 Semester Hours. (typically offered spring semester)

ATP 230 Clinical Practicum I

This course is a clinical field experience designed to expose first semester athletic training students to authentic situations relating to the evaluation and care of athletic injuries/illnesses that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will include the initial exposure to selected educational competencies and clinical proficiencies focusing on emergency medical procedures (spine-board, splinting, environmental illness, shock, etc.) Additional fee applies. Prerequisite: ATP 115 and ATP 116. This required course is available only for students officially enrolled in the accredited athletic training major. (lab fee required) 1 Semester Hour. (offered every fall)

ATP 232 Clinical Practicum II

This course is a clinical field experience designed to expose second semester athletic training students to authentic situations relating to the evaluation and care of lower extremity, thorax, and abdominal athletic injuries/illnesses that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will include a review of lower extremity, thoracic, and abdominal anatomy, clinical signs and symptoms and pathologies. Prerequisite: ATP 216 & ATP 230, or with permission of the athletic training program director. This required course is available only for students officially enrolled in the accredited athletic training major. 1 Semester Hour. (offered every spring)

ATP 316 Medical Aspects of Sport

Students will comprehend the pathological basis for clinical presentation of injuries/illnesses commonly sustained by competitive athletes and/or physically active individuals. This course will explore various medical topics and pharmacological basics relevant for entry-level certified athletic trainers. The students will gain knowledge of orthopedic and general medical conditions related to physically active individuals, as well as prepare the student to formulate an impression of an injury/illness for the primary purpose of recognizing the nature, severity and subsequently formulate an effective treatment plan. Students will be exposed to the therapeutic drug classifications, indications, contraindications, and regulations to the injuries/illnesses discussed in this course, as well as drug testing in sport. Prerequisite: At least junior standing or permission of the athletic training program director. 4 Semester Hour. (typically offered fall semester)

ATP 350 Clinical Practicum III

This course is a clinical field experience designed to expose third semester athletic training students to authentic situations relating to the evaluation and care of lower extremity, face, and head athletic injuries/illnesses that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at all team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will include a review of upper extremity, face, and head anatomy, clinical signs and symptoms and pathologies. Additional fee applies. Prerequisite: ATP 217 & ATP 232, or with permission of the athletic training program director. This required course is available only for students officially enrolled in the accredited athletic training major. (Lab fee required) 1 Semester Hour. (offered every fall)

ATP 355 Clinical Practicum IV

This course is a clinical field experience designed to expose fourth semester athletic training students to authentic situations relating to the evaluation and care of hip and spinal athletic injuries/illnesses that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will review hip and spinal anatomy and pathologies. Prerequisite: ATP 350, or with permission of the athletic training program director. This required course is available only for students officially enrolled in the accredited athletic training major. 1 Semester Hour. (offered every spring)

ATP 391 Therapeutic Modalities

The student will demonstrate the ability to plan, implement, document, and evaluate the efficacy of therapeutic modalities and basic components of a comprehensive rehabilitation and treatment plan. Lecture and lab emphasis will be placed upon the physiological response of the body to trauma/injury, pain modulation, infrared modalities, electrical stimulation modalities, therapeutic ultrasound, mechanical modalities, massage and other manual treatment techniques. Other areas of focus will include indications, contraindications, safety precautions, set-up and standard operating procedures of contemporary therapeutic modalities commonly used in athletic therapy. Prerequisite: ATP 116. 4 Semester Hours. (typically offered fall semester)

ATP 392 Therapeutic Rehabilitation

Basic components of a comprehensive rehabilitation program for the upper and lower quadrants are introduced including anatomical, physiological and psychological basis of a rehabilitation prescription, determination of therapeutic goals, objectives and the need for psycho-social intervention and referral. Students will demonstrate selection and use of various rehabilitation techniques plus the development of criteria for progression to full active participation in upper and lower extremity intensive activities. Selected topics will include range of motion techniques, strengthening, proprioception, aquatic therapy, plyometric, open and closed kinetic chain exercises and functional progressions. Prerequisite: ATP 391. 4 Semester Hours. (typically offered spring semester)

ATP 394 Cultural Competencies in Health Care

Students will expand their cultural literacy through an exploration of varied theories and models of cultural competence through the lens of sports, specifically sports medicine. Students will examine and analyze through oral and written assignments the roles of cultural differences including cultural attitudes, beliefs, and expectations as they pertain to effective healthcare in diverse settings. Course will include local off-campus exposure to culturally diverse settings and the opportunity to explore sports medicine in other countries through planned study abroad trips. Prerequisite: completion of all four foundation courses or junior standing. 4 Semester Hours. (Typically offered every spring)

ATP 400 Independent Study (elective)

The student, in consultation with the instructor, will select a topic, project or problem for in-depth research. Prerequisite: A 2.8 GPA in major and at least junior standing. 1-4 Semester Hours. (typically offered every semester)

ATP 450 Clinical Practicum V

This course is a clinical field experience designed to expose fifth semester athletic training students to authentic situations relating to the rehabilitative care of athletic injuries/illnesses that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will review current rehabilitation techniques, the anatomical, psychological, and physiological basis for a rehabilitation program, and modality theories and procedures. Students will also be assigned to an off-campus healthcare provider for a rotation of a minimum 30 clinical hours. Additional fee applies. Prerequisite: ATP 355, or with permission of the athletic training program director. This required course is available only for students officially enrolled in the accredited athletic training major. (lab fee required) 1 Semester Hour. (offered every fall)

ATP 455 Clinical Practicum VI

This course is a clinical field experience designed to expose sixth semester athletic training students to authentic situations relating to the evaluation and care of general medical diseases and disorders and pharmacological issues that may occur in an interscholastic or intercollegiate setting within the context of professionally supervised, hands-on patient care. The course requires attendance at team practices, home contests and selected supervised travel to away contests for the duration of the regular season as assigned by their supervising preceptor. This course will review medical conditions/illnesses, formulation of impressions of medical conditions, recognizing the nature and severity of the condition, when to refer to the proper healthcare professional, and pharmacological basics. Students will also be assigned to an off-campus site for a rotation of a minimum 30 clinical hours. Prerequisite: ATP 450, or with permission of the program director. This required course is available only for students officially enrolled in the accredited athletic training major. 1 Semester Hour. (offered every spring)

ATP 480 Senior Culminating Experience: Organization and Administration of Athletic Training

This course provides information in the organization and the administration aspects of comprehensive athletic training programs, including law, ethics, facility design, management, budget development, inventory control and therapeutic concepts. Students will complete various collaborative and individual projects to facilitate learning and comprehension of topics. Research design of a selected athletic training topic will be included. This course will include current issues in athletic training and will conclude with a culminating project for athletic training majors. 4 Semester Hours.

ATP 494 Honors Thesis/Project

A research project/course designed to meet the needs of the individual student seeking honors in the athletic training education major at graduation. Prerequisites: Senior standing and approval of the instructor, the department chair and the Honors Review Board. Credit variable, 4 Semester Hours.

ATP 498 Professional Development in Athletic Training

This course is designed to assist students in developing as a professional in the field of Athletic Training. Focus will be placed on preparation of students for the Board of Certification (BOC) examination by completing a comprehensive review of competencies and BOC practice examinations. Preparation for life after graduation will also be addressed with resume development, interview skills, licensure requirements, the continuing education process for both certification and licensure maintenance, and career placement strategies. Prerequisite: ATP 480 or permission from the program director. 2 Semester Hours. (typically offered spring semester)

ATP 499 Internship in Sports Medicine/Athletic Training

An elective, off-campus field experience learning and serving in a medical or allied health setting. The student intern will gain a hands-on, professionally supervised clinical experience and a broader perspective of the athletic training/sports medicine field. The course provides practical application of theoretical knowledge gained in the classroom. The experience is provided by the cooperating organization and the University. Prerequisites: at least junior standing. Departmental approval is required prior to registration for this course. 1-12 Semester Hours. (typically offered every semester)

Biology

BIO 100N Foundations of Biological Science

This course is designed to fulfill foundational knowledge credit for students that are non-science majors. It is designed to provide an appreciation for life and its intricacies. Students enrolled in this course will develop an understanding of science, the nature of scientific inquiry, and how evolution explains the unity and diversity of all life on Earth. This course focuses on common features that all organisms share, as well as their unique characteristics. Current issue topics will be explored and may include personalized medicine, stem cell research, cloning, and conservation biology efforts. This course does not fulfill any requirement for the biology major or minor. Lecture meets for 65-minutes three times each week and lab meets for 3-hours once per week. 4 semester hours.

BIO 105 Elements of Anatomy and Physiology

This introductory-level course concentrates on the basic structure and function of select organ systems in the human body. The following organ systems will be addressed in this course: skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic/immune, respiratory and digestive. This course is designed for the non-science major and does not satisfy requirements for a major or minor in biology or medical laboratory science. Enrollment is limited to students with a major in health or physical education. Additional fee applies. Two lectures and one lab per week. Credit will not be given for both BIO 105 and BIO 210. This course is only offered in the Spring Semester. 4 Semester Hours.

BIO 140N The Unity of Life

This course examines the common denominators of all life including biomolecules, cell structure and function, biological energetics, respiration, photosynthesis and genetics. This class is required of all majors and minors in biology and is a prerequisite for most biology courses. Laboratories will include inquiry-based experiences. Three lectures and one lab per week. 4 Semester Hours.

BIO 141N The Diversity of Life

This course examines the "Tree of Life" beginning with its evolutionary foundation followed by an examination of the resulting diversity of life. This class is required for all majors and minors in biology and is a prerequisite for most other biology courses. Laboratories will include inquiry-based experiences. Three lectures and one lab per week. 4 Semester Hours.

BIO 200 Foundations of Medical Microbiology

This course introduces the student to microorganisms including bacteria, fungi, parasites and viruses. Emphasis is placed on the structure and life processes of these microorganisms along with their role in causing human diseases. The host response to infectious disease is also integrated into this course. For the laboratory, students will examine the microscopic and macroscopic structure of microorganisms. Students will learn basic laboratory techniques including staining and microscopy, culturing, methods for quantifying microorganisms, and biochemical/immunological testing. Three lectures and one lab per week. Prerequisite: Admission to the Nursing Program. 4 Semester Hours.

BIO 210 Anatomy and Physiology I

This course is an integrated study of the structure and function of various organ systems of the human body such as the Integumentary, Skeletal, Muscular, and Nervous systems. An extensive presentation of the anatomy of these systems will be given at the macroscopic and microscopic levels. The functions of these systems will be addressed through the study of each system's homeostatic mechanisms as well as their response to homeostatic imbalances in the body. Two lectures and one lab per week. A lab fee is charged for the course. Additional fee applies. BIO 210 is a prerequisite for BIO 211. 4 Semester Hours.

BIO 211 Anatomy and Physiology II

This course is an integrated study of the structure and function of various organ systems of the human body such as the Endocrine, Cardiovascular, Lymphatic, Immune, Respiratory, Digestive, Urinary, and Reproductive systems. An extensive presentation of the anatomy of these systems will be given at the macroscopic and microscopic levels. The functions of these systems will be addressed through the study of each system's homeostatic mechanisms as well as their response to homeostatic imbalances in the body. Two lectures and one lab per week. A lab fee is charged for the course. Additional fee applies. Prerequisite: BIO 210. 4 Semester Hours.

BIO 215G Evolutionary Biology

This course introduces the major principles of evolutionary biology, beginning with a brief history of evolutionary thought and working through the fundamental concepts of evolutionary genetics, adaptation and natural selection, the origins of biological diversity and overall patterns of evolutionary change. The methods employed in evolutionary investigations and experiments and the kinds of reasoning by which those methods are used to develop, and test hypotheses are emphasized. Four class hours per week. Prerequisite: BIO 141. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

BIO 220 Ecology

An introduction to the ecological factors affecting the distribution and abundance of the major groups of animals and plants. Emphasis is on the local fauna and flora, utilizing frequent field trips. Three lectures and one laboratory per week. Prerequisite: BIO 141. 4 Semester Hours.

BIO 230G Conservation Biology

This course is an introduction to conservation biology, a synthetic discipline within biology that addresses the loss of biological diversity throughout the world. The course is divided into three principal sections, (1) biological diversity: principles, threats and values, (2) practical applications, and (3) the human role and solutions. The course also will present some of the currently active research in conservation biology. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

BIO 240 Genetics

A study of hereditary mechanisms and the experimental methods used in the analysis and manipulation of these mechanisms. Topics include classical transmission genetics, the nature of the gene and microbial and molecular genetics. The laboratory includes experiments in *Drosophila* genetics, bacterial and phage genetics and molecular genetics. Three lectures and one laboratory per week. Prerequisites: BIO 140 and BIO 141 or consent of instructor. 4 Semester Hours.

BIO 260 Plant Structure and Function

This course introduces the breadth of contemporary plant sciences so that students can develop a synthetic understanding of the field. The links between genes, plant structure and development and plant physiology will be demonstrated as well as how these factors interact in the environment. Three class hours with integrated laboratory per week. Prerequisites: BIO 140 or BIO 141. 4 Semester Hours.

BIO 270 Cell Biology

Modern cell biology is a unifying discipline that combines genetics, biochemistry and molecular biology with traditional morphological descriptions to study how cells function at the molecular level. This course will introduce students to the dynamic relationship between the structure of cellular organelles and the numerous biochemical reactions that are necessary for cell growth and survival with an emphasis on eukaryotic cells. Three lectures and one laboratory per week. Prerequisites: BIO 140 and CHE 120. 4 Semester Hours.

BIO 280 Biology of Marine Organisms

A study of selected groups of marine organisms. Emphasis is placed on ecological, reproductive and physiological adaptations to the marine environment. Where appropriate, biological and societal factors concerning the economic importance of marine organisms are included. Participation in an extended field trip either during or after completion of the campus portion of the course is required. A fee is charged for the field trip. Two three to four-hour classes/labs per week. Additional fee applies. Prerequisites: BIO 140 and BIO141. 4 Semester Hours.

BIO 285 Vertebrate Zoology

This course is an introduction to the biology of vertebrates. It will specifically focus on the evolution of vertebrates and the physiology, anatomy, behavior and ecology associated with each vertebrate class. Three lectures and one three-hour lab per week. Prerequisites: BIO 140 and BIO 141. 4 Semester Hours.

BIO 290 Pathophysiology

This course will examine basic physiology and the impact internal and external pathological events can have on the human body. Two 100-minute lectures per week. Prerequisites: Admission to the Nursing Program and successful completion of BIO 210 & BIO 211. 4 Semester Hours.

BIO 295 Developmental Biology

This course is an analysis of developmental processes that lead to the construction of an entire organism from a single cell. Study begins with gametogenesis, fertilization, and early developmental processes including cleavage, gastrulation, and axis specification. Later embryonic development will also be covered including the formation of tissues, organs, and limbs. Additional topics may include sex determination, environmental influence on development, and evo-devo. Two lectures and two 1.5 hour labs per week. Prerequisites: BIO 140 and BIO 141. 4 Semester Hours.

BIO 299 Special Topics

A course designed to offer special subjects appropriate to the biology department. Such offerings will take advantage of the expertise of a visiting professor, fill special needs of specific students, or serve as an initial experimental offering of a contemplated regular course. Prerequisite: sophomore standing. 1-4 Semester Hours.

BIO 300 Molecular Biology

A study of eukaryotic cell communication and response on a molecular level through the use of cell structures, chemical signals and gene expression. Emphasis will be placed on modern molecular science techniques and research, as well as disease models. Three lectures and one laboratory per week. Prerequisites: BIO 140 and CHE 120. 4 Semester Hours.

BIO 305 Microbiology

An introduction to bacteria, viruses, fungi and parasites of economic or pathogenic importance to humans. Microbial ecology, water and soil microbiology, industrial microbiology and medical microbiology are all briefly addressed in this course, providing a general overview of many aspects of the microbial world. Two lectures and two laboratories per week. Prerequisites: BIO 140 and CHE 120. 4 Semester Hours.

BIO 315 Physiological Ecology

An examination of how the structure and function of organisms allow them to exploit their specific environment and/or ecological niche. The course focuses on a variety of ecosystems, assesses the environmental stresses inherent in each, and looks at the physiological adaptations that selected organisms have evolved which allow them to be successful in that environment. Syntheses of many biological disciplines, problem solving, and experimental procedures/interpretations are involved. Three class hours and one three-hour laboratory per week. Prerequisites: BIO 140 and BIO 141. 4 Semester Hours.

BIO 321 Aquatic Ecology

A study of the ecology of freshwater ecosystems. Energetics, chemistry, movements of nutrients, and plankton and littoral communities will be presented with particular attention to north temperate ecosystems. Laboratories will emphasize field work. A fee is charged for a field trip to Lake Erie. Two 65 minute lectures and one 3 and half hour lab per week. Prerequisites: BIO 141 and BIO 220 or consent of instructor. 4 Semester Hours.

BIO 322 Ecotoxicology

A study of toxic effects of chemicals upon components of ecosystems. The course will begin by examining how human activities have provided pathways for pollutants into the environment. Students will then learn how those pollutants affect biochemical and physiological processes of organisms and thus may alter functions of ecosystem components. Two class hours per week. Prerequisites: BIO 141 and CHE 120 or consent of instructor. 2 Semester Hours.

BIO 340 Immunology

A study of the immune response mechanisms including innate, cell-mediated and humoral immunity. Hypersensitivities, autoimmune diseases and organ transplantation will also be discussed. Four class hours per week. Prerequisites: BIO140 and CHE 120. 4 Semester Hours. BIO 340 is non-lab.

BIO 360 Independent Study

An in-depth exploration of student-selected subject matter. Registration requires consent of the instructor. 1-4 Semester Hours.

BIO 380 Vertebrate Physiology

A study of the functions of vertebrate tissues and organs and how these functions interact to maintain homeostasis. Three class hours and one three-hour laboratory per week. Prerequisites: BIO 140 and BIO 141, or permission of the instructor. 4 Semester Hours.

BIO 399 Special Topics

A course designed to offer special subjects appropriate to the biology department. Such offerings will take advantage of the expertise of a visiting professor, fill special needs of specific students, or serve as an initial experimental offering of a contemplated regular course. Prerequisites: junior standing. 1-4 Semester Hours.

BIO 405 Research

This course involves the experimental investigation of a problem in biology under the supervision of a biology faculty member. Registration requires junior standing and consent of the instructor. 1-4 Semester Hours.

BIO 410 Seminar I

Discussion and critical evaluation of selected topics in biology. Students perform an extensive review of the primary literature on current biological topics. Each student prepares a detailed research proposal on a topic of interest related to biology and presents a seminar on the proposal. Prerequisite: junior standing. 2 Semester Hours.

BIO 411 Seminar II

Discussion and critical evaluation of selected topics in biology. This seminar may include student-led discussions, book reviews, journal article critiques, seminar presentations and other forms of critical analysis.. Prerequisites: BIO 410 and junior standing. 2 Semester Hours.

BIO 494 Honors Thesis/Project

See All-University 494 course description.

BIO 498 Internship in Environmental Education (Internal)

Students will gain experience in developing, implementing and evaluating environmental and outdoor education programs. Work will be done through the University's John T. Huston-Dr. John D. Brumbaugh Nature Center but may involve outreach activities to other agencies or groups in the area. Students will be required to participate in at least one state or regional meeting of environmental educators. The internship is designed for students who intend to be educators or who plan to work in the general area of outdoor education. Specific activities will be specified in a contract between the student and instructor. S/U grade option only. Prerequisite: Open only to juniors and seniors who are majoring or minoring in education, biology or environmental science. Credit variable, 1-4 Semester Hours.

BIO 499 Internship in Biology

An experience based course designed for juniors and seniors. Students are placed in appropriate laboratories of agencies where previous classroom learning may be integrated with a work or research experience. The exact location, program and method of evaluation are provided in a contract drawn between the student, the faculty sponsor, and the host internship supervisor. Registration by arrangement with the faculty sponsor and departmental chairperson. S/U grade option only. Specific restrictions may apply. Credit variable, 1-4 Semester Hours.

Business Administration

BUS 100 Introduction to Business

This course is intended to expose students to the functional areas and environments of business administration. The course includes overviews of accounting, economics, management, human resources, health care management, finance and marketing, while highlighting how each functions within the business environment. 2 Semester Hours.

BUS 110 Global Business

This course is designed as an introduction to doing business in a global economy. Students will focus on the way in which political, economic, social, technological and legal differences in other countries influence strategic decisions businesses must make when competing internationally. Course content will be shared through lectures, guest speakers, videos, class discussions and outside readings related to current events. 2 semester hours.

BUS 122 Quantitative Methods for Business

Methods of solving quadratic equations. A study of limits, continuity, differentiation, and an introduction to indefinite and definite integrals, including applications to minimization and maximization problems related to Business and Economics. Functions of two or more variables, including partial differentiation, and applications to Business and Economics. Introduction to regression analysis and linear programming. Prerequisites: MTH 105 or placement of Level C, D, or E on the mathematics placement examination. 4 Semester Hours.

BUS 130 Legal Environment of Business

This course introduces the legal environment of business. Major topics broadly covered in the course include business environment laws and ethics, torts, product liability, contracts, intellectual property, business organizations, negotiable instruments, and employment laws. 2 semester hours.

BUS 250 Business Law I

An introductory study of the legal environment associated with managing a business in contemporary American society. Course emphasis will be placed on business-related torts, contracts and the legal implications of employment issues ranging from the hiring process to the termination process. Prerequisite: At least sophomore standing. Typically offered in the fall semester. 4 Semester Hours.

BUS 255 Business Law II

A further study of business law with emphasis on topics which include partnerships, corporations, sales, negotiable instruments, insurance and bankruptcy. Prerequisite: At least sophomore standing. Typically offered in the spring semester. 4 Semester Hours.

BUS 275 Introduction to Management Information Systems

This two semester hour course will introduce our business students to the world of information systems that will be needed in the business world as we move through the 21st Century. Topics include management information systems, decision support systems, and the systems development process. Special emphasis on information resource management and the strategic use of information systems in organizations. Projects provide practical experience, complementing the conceptual approach. Prerequisite: Sophomore standing or permission of the instructor. 2 Semester hours.

BUS 313 Planning for Meaningful Work

This two semester hour course provides opportunities for the individual to reflect upon and refine their professional and personal objectives while gaining vital skills and knowledge that will help them successfully plan for and achieve those objectives upon graduation... and throughout their life. Classroom exercises and lectures led by subject matter experts provide important applied techniques and theories. Participants will integrate those theories and techniques into their own skill/knowledge base and use them to map out strategies for achieving their professional and personal objectives. Although the course carries a Business Administration prefix, it is open to juniors and seniors in any program of study. Prerequisite: Junior or Senior standing OR permission of the instructor. 2 Semester Hours.

BUS 315 Ethical Issues in Business

An introduction to a range of ethical issues that arise in business contexts. The course covers issues relating to the moral obligations of a business to society at large, such as discrimination and affirmative action, product safety, unfairness in advertising, and environmental concerns. It also examines ethical issues that arise within the workplace such as workplace safety, drug testing, comparable worth, sexual harassment and whistle blowing. 2 Semester Hours.

BUS 335V Business Ethics

The course will examine key ethical concepts and issues that apply to careers in business. The course will cover theories of ethics and will also use practical examples. In particular, the content of the course will include the ethical standards applicable to the practice of financial planning. Prerequisite: junior standing or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

BUS 341V Market and Business Analysis

This course introduces students to the essential elements of market and business analysis and intelligence. Topics covered include competitive industry/business analysis, strategy development for competitive positioning, management of country, market, and business risks. Illustrative country, industry, and/or specific business case studies will also be an integral part of the course. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

BUS 496 Applied Strategy

This course is designed to enable students to work collaboratively to make a wide range of interconnected business decisions. Using a computer business simulation, students will be organized into mixed discipline teams. Each team will be a management group of a simulated company and compete against the other companies. Prerequisites: MGT 200, MKT 220, FIN 320, or permission of the instructor. 2 Semester Hours.

BUS 499 Internship in Business Administration

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. 1-16 Semester Hours.

Chemistry

CHE 100N Chemistry in Society

This course involves the study of the basic principles of chemistry and their applications to society. Specific topics are decided upon by the instructor but may include environmental issues, forensic science, energy, food, etc. This course does not count toward a major or minor in chemistry or a major in biochemistry. Additional fee applies. Three class hours and one three hour laboratory per week. 4 Semester Hours.

CHE 108N Forensic Science

This course will expose students to the field of forensic science primarily using chemical forensics and testing. Topics include evidence collection and preservation, drugs and drug chemistry, heat and explosions, poisons and others. The course will cover basic chemical concepts needed to plan, execute, and interpret forensic results. All necessary scientific concepts will be developed in the context of forensic science. The course is intended for students pursuing the forensic track in the Criminal Justice major. Three class hours and one three hour laboratory per week. 4 Semester Hours.

CHE 110N Foundations of Chemistry

This introductory course begins with an emphasis on the atomic and molecular nature of matter and the stoichiometric relationships of reactions. These fundamental principles will be applied to reactions in aqueous solutions, the ideal gas law, and an introduction to thermochemistry. Special emphasis will be placed on skills necessary to succeed in chemistry including problem solving strategies. This course is intended for students with 0 or 1 year of high school chemistry or as a preparatory course for CHE 120. Additional fee applies. Three class hours and one three hour laboratory per week. 4 Semester Hours.

CHE 115 Organic and Biochemistry for Nursing

This course focuses on basic organic chemistry and fundamental biochemistry. Topics include Lewis structures, physical properties, basic nomenclature, and chemical reactions of the major classes of organic compounds. Stereochemistry and acid-base topics are also included. The course applies organic chemistry to biochemicals with an emphasis on health-related applications. Topics include amino acids and proteins, enzymes, carbohydrates, lipids, nucleic acids, vitamins and coenzymes, and basic metabolism. Clinical topics include, but are not limited to, diabetes mellitus, clinical isoenzymes, lipoprotein profiles, drug therapies, and ethanol metabolism. Additional fee applies. Prerequisites: Admission to the Nursing Program and successful completion of CHE 110 with a grade of "C" or better. Students wishing to continue in the Nursing Program must earn a "C" or higher in this course. 4 Semester Hours.

CHE 120N Concepts in Chemistry

This introductory course is a study of atomic structure, intermolecular interactions, chemical kinetics, equilibrium, and chemical thermodynamics. This course provides a chemical basis needed for the continuing study of chemistry and other natural sciences. Additional fee applies. Prerequisite: 1 or 2 years of high school chemistry or CHE 110. Three class hours and one three hour lab period. 4 Semester Hours.

CHE 210 Environmental Chemistry

A study of the chemical reactions controlling the cycling of natural chemical species and anthropogenic pollutants in the water, soil and air environments of our earth system. The chemical processes operating in the natural environment including acid-base, complexation, redox, photochemical and biotic degradation phenomena are examined. Throughout the course, the chemistry underlying current issues of water, soil and air pollution, focusing on nutrient, metal and organic contaminants, are studied. Three hours of lecture and three hours of laboratory each week. Prerequisite: CHE 120. 4 Semester Hours.

CHE 212 Introduction to Green Chemistry

This course explores in detail the 12 principles of green chemistry and evaluates how the use of "greener" chemistry in industry and the laboratory can contribute to a more sustainable world. Includes some recent innovations by chemists and engineers and their real world applications. Additional fee applies. Prerequisite: CHE 120. Three class hours and one three-hour laboratory per week. 4 Semester hours.

CHE 214 Inorganic Chemistry I

A study of the physical and chemical properties of inorganic substances from a consideration of atomic structure, the nature of the chemical bond and the periodic system of the elements. Additional fee applies. Prerequisite: CHE 120. Three class hours and one three-hour laboratory per week. 4 Semester Hours.

CHE 220 Analytical Chemistry I

A study of the principles of chemical equilibrium and their applications to problems of chemical analysis. Includes an introduction to statistics and optical, electrochemical and chromatographic methods of analysis. Additional fee applies. Prerequisites: CHE 120 or permission of instructor. Three class hours and one three-hour laboratory per week. 4 Semester Hours.

CHE 228 Forensic Chemistry

In this course, students will apply chemical principles to the collection, preservation, and analysis of physical evidence from crime scenes. Forensic analysis of materials such as drugs, blood, DNA, hair, fibers, paint, firearms, fingerprints, glass, and arson debris will be studied and performed. The legal, ethical, and professional standards unique to forensic analysis and data reporting will be emphasized. Three class hours and one three hour laboratory per week. Prerequisite: CHE 120. 4 Semester Hours.

CHE 231 Organic Chemistry I

A first course in the chemistry of carbon compounds designed for chemistry majors and premedical students. Emphasis is placed on the study of the nature and consequences of covalent bonds as encountered in organic compounds. The major aspects of the chemistry of aliphatic hydrocarbons and saturated functional groups are included. The principles of chirality and both IR and NMR spectroscopy also are studied. The laboratory concentrates on organic microlab techniques including gas chromatography and spectroscopy. Additional fee applies. Prerequisite: CHE 120. Three class hours and one three-hour laboratory per week. 4 Semester Hours.

CHE 232 Organic Chemistry II

A continuation of CHE 231. This course covers the major aspects of the chemistry of unsaturated functional groups and selected aromatic and heterocyclic compounds. Emphasis is placed on reaction mechanisms. The laboratory is designed to apply the techniques acquired in CHE 231 to synthesis, identification and mechanism problems. Prerequisite: CHE 231. Three class hours and one three-hour laboratory per week. 4 Semester Hours.

CHE 255 Basic Neurochemistry

This course is an introduction to the chemistry of the central nervous system. Topics will include neurocellular anatomy, growth, differentiation and development, and intercellular and intracellular signaling. Prerequisites: CHE 231. 2 Semester Hours.

CHE 320 Analytical Chemistry II

A study of the principles and applications of instrumental techniques used for analytical measurements such as spectrophotometry, chromatography, etc. Three class hours and one three-hour laboratory per week. Prerequisites: CHE 220 and current or prior enrollment in PHY 102 and MTH 142. 4 Semester Hours.

CHE 341 Physical Chemistry with Laboratory

An examination of the laws of classical thermodynamics associated with energy, entropy and Gibbs energy. These topics of study are developed from an atoms first approach via basic quantum mechanics and statistical mechanics. The laboratory involves the determination of a variety of thermodynamic functions studied in lecture including heat capacity, enthalpy and equilibrium constants and the exploration of basic quantum mechanical properties via spectroscopy. Prerequisites: CHE 120, PHY 102 and MTH 142. Three class hours and one three-hour laboratory per week. 4 Semester Hours.

CHE 370 Biochemistry

To understand what makes living organisms different than their environment, one must investigate their chemical makeup. The structures and properties of the four major classes of biological molecules, proteins, carbohydrates, lipids and nucleic acids will be studied. Other topics include enzyme kinetics, mechanisms of enzyme action and regulation of enzymes. Prerequisites: CHE 232 and BIO 140. Three class hours per week. 4 Semester Hours.

CHE 371 Biochemistry Laboratory

Biochemistry has changed the way we look at biology and chemistry by integrating the two to explain biological principles. In this laboratory students will use a variety of techniques including spectroscopy, chromatography and electrophoresis to learn about the chemistry of the four major classes of biological molecules: proteins, carbohydrates, lipids and nucleic acids. Special emphasis will be placed on the current use of computers in structural biochemistry. Specifically, students will gain experience in protein purification, enzyme kinetics and inhibition and analysis of DNA restriction digests. One three-hour laboratory per week. Corequisite: CHE 370. 1 Semester Hour.

CHE 374 Medicinal Chemistry

This course focuses on the fundamental aspects and current methodologies involved in the drug discovery process. The fundamental aspects include the physical, chemical, and pharmaceutical properties of drugs. A receptor-based, target-centered approach will be used to present the concepts central to the study of drug action. Application to the chemotherapy of cancer, immunomodulators, and viral and microbial diseases will be examined. Prerequisites: CHE 232. Two class hours. 2 Semester Hours.

CHE 381/382/481/482 Chemistry Seminar

Library research on a subject related to research interest of the student is followed by an oral presentation and discussion. Each student is responsible for giving one seminar in both junior and senior years. In addition, guest speakers from academia and industry will speak to the class. Prerequisites: Junior or senior standing, respectively. 1 Semester Hour each.

CHE 390 Research

The student will propose and carry out a defined, original research project in the field of chemistry under the supervision of a faculty member. A total of 60 hours of literature and laboratory research is expected for each credit hour taken. A formal written report of the research is due at the end of the semester. The course may be taken for more than one semester. Credit variable, 1-4 Semester Hours.

CHE 414 Inorganic Chemistry II

A survey of the descriptive chemistry of the elements. In addition, time is devoted to the study of bioinorganic systems, organometallic chemistry and pollution studies. Prerequisites: CHE 214, CHE 232, Senior standing or permission of instructor. Four class hours per week. 4 Semester Hours.

CHE 431 Advanced Organic Chemistry

Understanding topics in advanced organic chemistry requires knowledge of both synthetic and mechanistic chemistry. Synthetic chemists use reaction methodology to construct target compounds; mechanistic chemists study the detailed mechanisms by which these reactions proceed. Topics in synthetic chemistry include functional group transformations, retrosynthetic analysis and named reactions. Topics in mechanistic organic chemistry include kinetics, general and specific acid/base catalysis, kinetic isotope effects, linear free energy relationships, analysis of reaction coordinates and rearrangements. Prerequisite: CHE 232. 2 Semester Hours.

CHE 434 Advanced Spectral Analysis

An advanced course for the characterization of compounds with a focus on IR, UV-vis, NMR and MS analysis. Spectral interpretation will include multi-dimensional NMR and MS fragmentation analysis. Prerequisites: CHE 220 and CHE 232. Two hours per week of class and instrument time. 2 Semester Hours.

CHE 442 Applied Thermodynamics and Kinetics

Thermodynamic theories and laws will be applied to real systems including gases, liquids, solids, electrolytes, and phase changes in matter. The study of thermodynamics will be extended to non-equilibrium systems. Chemical kinetics, theories of reaction rates, and transport properties will be studied. Prerequisites: CHE 341. 2 Semester Hours.

CHE 443 Computational Chemistry and Spectroscopy

The theories of basic quantum mechanics will be extended to multielectron atoms, molecules, and chemical reactions. Computational tools and ab initio calculations will be introduced and developed using a project based approach. The powerful interplay between spectroscopy and quantum mechanics will be examined. Prerequisites: CHE 341. 2 Semester Hours.

CHE 455 Advanced Neurochemistry

This course is an advanced study of the chemistry of the central nervous system. Topics will include metabolism, sensory transduction, neural processing, and neurodegenerative diseases. Prerequisite: CHE 370. 2 Semester Hours.

CHE 472 Advanced Biochemistry: Metabolism, Nutrition and Pharmacology

Advanced study in biochemistry. Application of the laws and theories of chemistry to specific biological processes involved in metabolism, nutrition, and pharmacology. Topics include integration of major metabolic pathways, and the role of regulation including hormonal control. Prerequisites: CHE 370. 4 Semester Hours.

CHE 474 Advanced Biochemistry: Structural Biochemistry

Advanced study in biochemistry. Application of the laws and theories of chemistry to the specific study of the structure/function relationships in biological systems. Topics will include structural motifs of protein structure, DNA transcription and translation mechanisms, immune system recognition, and viral particle assembly. Prerequisites: CHE 370. 2 Semester Hours.

CHE 476 Advanced Biochemistry Laboratory

This laboratory course builds upon previous biochemistry laboratory experience to expose students to advanced biochemistry laboratory techniques including, but not limited to, protein expression and purification, isolation and manipulation of DNA, and culminates in an open-inquiry based project. Prerequisites: CHE 370 and CHE 371. Credit variable, 1-2 Semester Hours.

CHE 490 Senior Research

This course is required of all chemistry and biochemistry majors. This course has as its requirements the completion of a senior research project which will be communicated to the department in a poster and research paper. A total of four credits must be completed in one or both semesters of the senior year. Prerequisites: Chemistry or biochemistry major with senior standing. Credit variable, 1-4 Semester Hours.

Coaching

COA 275 Sports Nutrition for Coaches

This course will provide students with an introduction to nutrition and supplement concepts as they apply to sports and the role a coach has in providing information and guidance to athletes. Topics of study will include nutritional standards for different types of sports and training. This course will also focus very specifically on popular sports nutrition products and a process to determine their safety and efficacy. 4 Semester hours.

COA 310 Psychology of Coaching

This course will familiarize students with aspects of psychology that influence performance and participation in athletics. This course will also examine the nature and responsibilities of the coaching profession with a focus on the psychological aspects of competitive sports. Some topics that will be discussed are self-esteem, motivation, stress, and imagery as it applies to one's ability to perform or willingness to participate in athletics. Prerequisites: EXS 110 and COA 275, or HED 250V. 4 Semester Hours.

COA 320-331 Coaching Theory Courses

Coaching theory courses will expose students to strategies, techniques, coaching methods and team management strategies related to each distinctive competitive sport. Prerequisite: COA 310, or concurrently with COA 310. 2 Semester Hours.

COA 320	Coaching Basketball
COA 321	Coaching Football
COA 322	Coaching Soccer
COA 323	Coaching Wrestling
COA 324	Coaching Track and Field
COA 325	Coaching Baseball
COA 326	Coaching Softball
COA 327	Coaching Golf
COA 328	Coaching Tennis
COA 329	Coaching Volleyball
COA 330	Coaching Swimming and Diving
COA 331	Coaching Lacrosse

COA 430 Coaching Practicum

Students will be expected to complete a full season as an athletic coach in a sport of their choice. Students will be supervised by university faculty/staff during the course of the sport season and will be required to complete several assignments deemed appropriate by the university faculty/staff supervisor. Students will also be required to complete a culminating experience related to the practicum as arranged by the university faculty/staff supervisor. When a sport spans two terms, the course may be taken for 1 semester hour in each of two consecutive terms. If the sport season is complete in one term, the course will be taken for two semester hours. This course is graded S/U. Prerequisites: COA 310 and two COA coaching theory courses. 1-2 Semester Hours with students completing a minimum of 2 semester hours.

Communication

COM 101H Principles of Public Speaking

A study of effective extemporaneous speaking emphasizing informative and persuasive speaking. Special attention is given to the development of competent speakers. A competent speaker is a person that is able to compose a message and provide ideas and information suitable to the topic, purpose, and audience and transmit the message by using delivery skills suitable to the topic, purpose, and audience. 4 Semester Hours.

COM 110S Introduction to Communication Scholarship

An introductory survey of concepts, methods, and theories that define the study of communication. Attention is given to the history of the field, ethics, the process of communication, contexts of communication, theories and research methods fundamental to the study of communication as well as career options. This course is required for the major and minor in the department and is to be completed prior to the end of the second year of study. 4 Semester Hours.

COM 120 Sport Communication

Mount Union has many sports. If you're one of Mount Union's student athletes, a communication major, or just interested in sports, this course will introduce you to the field of sports communication. This two-credit survey course will meet once weekly to discuss topics including community, media, fan cultures, mythology, gender, race, crisis and the growing area of competitive video gaming as sports culture. We'll have guest speakers including sports information directors, photographers, play-by-play announcers, reporters, the Raider Student Media sports team, public relations practitioners, and athletes. 2 Semester Hours.

COM 130S Media, Culture and Technology

An introduction into the historical, legal and social backgrounds of contemporary mass communication media including newspapers, radio, television, film, magazines, books and the Internet. 4 Semester Hours.

COM 140 Broadcast Studio Operations

An introductory course to the functions, operations, and equipment found in a radio studio. FCC Rules and regulations are emphasized. Required of all majors and students wishing to be on the staff of WRMU. 1 Semester Hour.

COM 150 Multimedia Journalism

An introductory course in the basic theories, principles and practices of multimedia journalism. Topics include narrative and feature storytelling techniques through photojournalism, audio, video, and multiple media. Students learn the fundamentals of reporting, news value, and the ethical dimensions of story development. This course will teach students how to use social media to promote their work and adopt an entrepreneurial approach to media production and development. Three hours of class instruction with one hour of lab time spent producing content for student and campus media. 4 Semester Hours.

COM 155S Principles of Public Relations

This course will introduce students to the field and practice of public relations. Emphasis will be placed on the following: theories used in public relations; the importance of research and audience segmentation; creating program objectives, strategies, and tactics; introduction of the tools used in public relations, including both traditional and social media; evaluation of public relations efforts; legal and ethical considerations; and crisis communication. 4 Semester Hours.

COM 199 Special Topics

See All-university course description.

COM 200 Global and Intercultural Communication

A study of human communication across cultures focusing on the variables that influence interaction when members of different cultures come together. The course considers the basic concepts of intercultural communication with attention to cultural stereotypes, prejudice, and ethnocentrism. 4 Semester Hours.

COM 220S Interpersonal Communication

A study of the major approaches, models, theories and research on dyadic and small group communication. Focus will be on topics such as verbal and nonverbal communication, competent listening, situation analysis, relationship management, conflict management, and self-disclosure in personal and professional relationships. 4 Semester Hours.

COM 225S Small Group and Organizational Communication

A review of the development of organizational communication theory and how application of that theory adds to our understanding of organizations as information systems. Topics include information flow, organizational structures, formal and informal networks, organizational cultures, and external and internal organizational communication. 4 Semester Hours.

COM 227H Persuasion and Argumentation

This course provides an introduction to principles of persuasion and argumentation. Students will learn how to construct and critique persuasive messages and arguments in both written and oral formats. 4 Semester Hours.

COM 231 Applied Media Research

This course focuses on the interaction between current and traditional mass media theory and research along with the analysis and interpretation of original and proprietary research, complex data sets, and audience analysis and ethnography. Journalistic, narrative and feature storytelling will be explored through the development and production of several research-based projects. Prerequisite: COM130S, may be taken concurrently, or permission of instructor. Prerequisite: COM 130S, may be taken concurrently, or permission of instructor. 4 Semester Hours.

COM 254 Social Media Strategies

An introductory course designed to develop skills in the social media and apply those skills toward appropriate messaging. The social media change rapidly and the course is designed to teach concepts, which may be adapted to accommodate change. 4 Semester Hours.

COM 256 Information Design

This research and project-based course will center on story development and information design through the visualization of information. This course teaches students how to effectively visualize complex ideas. It covers the concepts, theories and skills needed to convey visual messages based on complex data sets and original research. Several forms of data visualization will be explored including maps, diagrams, charts, timelines, and information graphics. Students will use social media to promote and share their projects with various audiences. Three hours of class instruction with one hour of lab time spent producing content for student and campus media. 4 Semester Hours.

COM 260 Public Relations Research and Design

This course will introduce students to research methods and designs used to analyze and segment audiences in the public relations field. Students will develop primary research for public relations scenarios with specific target publics using the following tools:

survey, focus group, and content analysis. Students will also learn how to locate and analyze secondary research. Prerequisite: COM 155S. 4 Semester Hours.

COM 275 Sports Journalism

A course designed to introduce students to sports journalism in the 21st Century. A writing intensive course which provides an overview of the ever-changing sports media field, discusses journalists as public figures, explores the role of the Internet, and analyzes the 24-hour news cycle and its effects on journalists and the public figures they cover. Cross-listed as SPB 275. Prerequisite: permission of instructor. 4 Semester Hours.

COM 290 Communication Practicum

Open to majors and minors wishing to pursue an on-campus project in communications. Course work involves active participation in a performance-oriented project typically on campus. Students may count a maximum of four semester hours in any practicum toward graduation requirements. Registration for practicum hours requires completion of an application form. Graded S or U. Prerequisites: 16 hours of Communication Department Credit, COM 110S and permission of instructor. 1-4 Semester Hours.

COM 305 Communication Study Travel Seminar

A faculty led trip to national or international locations for the purpose of studying a topic or even firsthand from a communication perspective. Students are expected to attend orientation sessions, complete required readings and develop a research proposal before the trip. During the trip students will keep a journal and collect data for their project which is to be completed upon return. Prerequisites: permission of instructor. 1-4 Semester Hours.

COM 310 Public Relations Writing

Students will develop both internal and external writing associated with the field of public relations. Students will write and create public relations materials in print, broadcast, and social media. Prerequisites: COM 155S and COM 260. 4 Semester Hours.

COM 320V Public Relations Cases

In Public Relations Cases, a Values and Reasoning Exploration course in the Integrative Curriculum, students will be exposed to the processes of reasoning and value systems as applied to complex organizational situations. Students will be utilizing a systemic approach to analyze and evaluate how organizations develop public relations campaigns to create and maintain ethical relationships, based on global social responsibility, with all stakeholder audiences. Students will also research, analyze, and propose solutions for a current issue affecting public relations practitioners in the field. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

COM 321 Communication Research Methods

An introduction to research design with application of qualitative and quantitative methods typically used in communication studies. Prerequisite: COM 110S and junior standing or permission of instructor. 4 Semester Hours.

COM 325 Leadership and Team Communication

The course explores the relationship between communication and leadership within organizations to develop specific communication competencies associated with effective leadership. This is accomplished by considering both theoretical and applied approaches to leadership communication. The relationship between leaders and followers and the communication approaches used to develop and maintain that relationship are studied. Prerequisite: sophomore standing or above. 4 Semester Hours.

COM 346 Digital Audio and Video Production

An intensive project-driven course offering students the opportunity to further develop their skills in writing and producing audio and video content. This will be a laboratory-based course in which students will gain advanced hands-on experience. Prerequisites: COM 150. 4 Semester Hours.

COM 378G Social Identity, Power and the Media

This course in media literacy offers students the opportunity to examine critically the image construction of women, LBGT communities, economic classes, and various minorities including but not limited to racial and ethnic minorities. Both U.S. and international media will be considered. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

COM 380G Gender, Communication and Society

An examination of how communication structures gender identities, and how gender affects communication. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

COM 385 Health Communication

This course provides an introduction to the roles of communication in health, health and risk behavior, health care, and health promotion, including interpersonal and media contexts. The over-arching goal of the course is to directly and/or indirectly facilitate health consumers' and professionals' communication skills. Effective communication requires understanding the significance of communication processes in health contexts (everyday interactions, health information-seeking, health care, and health promotion). In turn, more effective health communication likely results in better health outcomes. 4 Semester Hours.

COM 386G Public Advocacy for Social Justice

This course offers a critical analysis of persuasive discourse advanced in U.S. social movements such as but not limited to the abolitionist movement, civil rights movement, Native American rights movement, women's rights movements, LGBT rights movement, peace movement and labor movement. Persuasive strategies used by those advocating change as well as those opposing change will be considered. Emphasis is placed on the rhetorical strategies employed in representative texts. Prerequisites: COM 227H recommended. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

COM 399 Special Topics

See AI-University 300 course description.

COM 400 Independent Study

The study of selected topics in communication. Individual research is emphasized, and a paper or major project is required. Prerequisites: COM 110S, COM 321, and junior or above standing. 4 Semester Hours.

COM 403 Documentary Film Production

This course builds on concepts explored in Digital Audio and Video Production. In this advanced project-based course students will continue to hone their filmmaking skills through the production of a documentary film, which will be screened in front of an audience. This challenging production-oriented course will teach students to work in a cooperative team environment where each person fills a different role within the production team. Prerequisite: COM 346. 4 Semester Hours.

COM 425 Design for Multimedia

Students will demonstrate the culmination of the narrative and documentary story telling approach through the production of a richly detailed researched-based electronic story package. Prerequisites: COM 150, COM 231, COM 321, COM 346 and junior or senior standing. COM 256 is highly recommended. 4 Semester Hours.

COM 430 Critical Perspectives on Media, Popular Culture and Advertising

A seminar exploring media from a critical perspective. The social, political and economic impact of both the mainstream and alternative media, advertising, and popular culture texts on American society and democracy will be discussed. 4 Semester Hours.

COM 435 Media Management, Law and Policy

A seminar which examines the management of media systems, the laws that regulate media, and the formation of policy intended to influence media. Topics range from an examination of media management in a quickly changing environment that includes social and mobile technologies for content distribution; the role of the Federal Communications Commission; an analysis of the First Amendment and related Supreme Court interpretations of the law as it relates to policies; and, finally, emerging industry trends. 4 Semester Hours.

COM 440 Political Communication

This course examines the role rhetoric and the media play in constructing and shaping a variety of political messages and citizen perceptions of politics. Topics include the nature of political rhetoric, campaign discourses, media coverage of campaign discourses, congressional and presidential oratory and media ethics. The course aims to sharpen students' critical skills in analyzing and evaluating political rhetoric and media coverage of political campaigns. 4 Semester Hours.

COM 445 Relational Communication

This course provides an exploration of theory and research about communication between individuals in relationships, especially friendships, romantic relationships, family and marriage, but also work relationships, long-distance or online relationships, and enemies, among others. The course addresses issues such as why relationships are important; distinctive forms of interacting in relationships; why and how relationships develop, evolve, and sometimes deteriorate; how identities are managed in relationships; the role of emotion; privacy, disclosure, and secrecy; conflict; power and dominance; ethics and abuse; cultural issues; the effects of new technologies on personal relationships, and a host of other topics that will emerge. Prerequisite: COM 220S is recommended. 4 Semester Hours.

COM 446 Creative Visual Storytelling

This course introduces students to digital filmmaking and provides a basic understanding of how films are made. Student will learn composition, lighting, sound, and editing to tell a story. It centers on the basic language of filmmaking, scriptwriting, preproduction,

production, and postproduction along with the use of social media to raise funds and promote film projects. This course culminates in a final film project, which will be screened in front of an audience. This challenging production-oriented course will teach students to work in a cooperative team environment where each person helps others make their film. Due to the collaborative nature of this course, this course is an excellent elective for theater/acting majors and creative writing English majors. Prerequisite for majors: COM 150 and COM 346. Prerequisite for non-majors: Permission of instructor. 4 Semester Hours.

COM 455 SCE: Public Relations Campaigns

This course allows students to apply their public relations knowledge, including theories, frameworks, and tools, to develop and formulate a comprehensive and strategic professional public relations campaign for a client in the local community. Emphasis will be placed on: conducting research to determine and assess client needs and target publics; developing program objectives, strategies, and tactics; creating all communication incorporating both traditional and social media; and identifying evaluation methods to measure the effectiveness of the program. Additionally, students will apply best principles of effective group interaction and problem solving in an “agency setting” while producing the campaign. Prerequisites: COM 155S, COM 260, COM 321, junior or senior standing. 4 Semester Hours.

COM 483 International Media Systems

Comparison of national approaches to television, radio, cable, telephone, the Internet, satellite communication and print media. The transnational flow of news and entertainment programs and their social and political impact on cultures and the role of international regulatory bodies will be discussed. Prerequisites: COM 130S. 4 Semester Hours.

COM 490 SCE: Communication Studies

A senior seminar that culminates in either (1) a creative project or (2) research paper focusing on a creative, historical, descriptive, legal, or critical aspect of communication or mass media. Synthesis is stressed. Required of all seniors. Prerequisites: junior standing, COM 321. 4 Semester Hours.

COM 494 Honors Thesis/Project

See All-University 494 course description.

COM 499 Internship in Communication

An opportunity for a significant experiential learning experience outside of the classroom. Admission to the internship program is through a formal application and approval process. A student’s academic record and active participation in the communication activities of the department are major criteria for admittance into the program. Consult with a department faculty member for details. Prerequisites: junior or senior standing and approval of the department faculty. Graded S or U. 1-16 Semester Hours.

Computer Science

CSC 100 Introduction to Information Management

An introduction to tools and assessment methods involved in the management of information. Students will gain facility with spreadsheet and database software in a problem-solving context. This course is designed to be useful for Mount Union students in all disciplines. 2 Semester Hours.

CSC 101 Introduction to Virtual Reality

An introduction to virtual reality environments. There are two main components of the course: a history of virtual realities and an introduction to living and building in a virtual space. Building skills will include the creation of web pages, image files, audio files, movies, and virtual objects. 2 Semester Hours.

CSC 105 Introduction to Linux

This course provides an introduction to the Linux operating system, from a user's perspective. Topics include installation, software installation and updates, security issues, network configuration, file systems, graphical and command line interfaces, and shell programming to automate repetitive tasks. 2 Semester Hours.

CSC 108 Introduction to Computer Programming

A first experience in computer programming for students who have no previous programming experience. May not be taken after credit is granted for CSC 120. 2 Semester Hours.

CSC 120 Programming and Problem Solving I

Introduction to object-oriented programming with a focus on algorithms and their use in problem solving. Students will develop concrete problem solving and programming skills through hands-on laboratory experience. 4 Semester Hours.

CSC 140 Data Science Fundamentals

This course provides an introduction to data science, including importing and exporting data, data cleaning and preparation, visualization and statistical analysis, and basic programming skills in programming languages commonly used in the data science field. It will also explore strengths and limitations of modern data analysis, and some of the ethical issues that emerge from the use of data science. Students will gain a general understanding of data science terms, approaches to problems, and strategies for effectively using data science. 4 Semester Hours.

CSC 199 Special Topics in Computer Science

A course designed to permit the offering of special subjects appropriate to the program of the department. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Lower divisional offerings will be listed as 199. Regular or frequently recurring topics are not offered under this title. Prerequisite: permission of the instructor. May be repeated as new topics are presented. Credit variable, 1-4 Semester Hours.

CSC 220 Programming and Problem Solving II

Intermediate object-oriented programming using a visually-oriented, forms-based language. Concepts include encapsulation, inheritance, polymorphism, recursion, and techniques for persistent data storage management. Prerequisite: CSC 120. 4 Semester Hours.

CSC 221 Intermediate Programming in Python

A course in programming techniques using the Python programming language intended for students who have previously taken several programming courses. Prerequisite: CSC 220. 2 Semester Hours.

CSC 224 Intermediate Programming in C#

A course in programming techniques using the C# programming language intended for students who have previously taken several programming courses. Prerequisite: CSC 220. 2 Semester Hours.

CSC 226 Intermediate Programming in Scala

A course in programming techniques using the Scala programming language intended for students who have previously taken several programming courses. Prerequisite: CSC 220. 2 Semester Hours.

CSC 228 Intermediate Programming in Kotlin

A course in programming techniques using the Kotlin programming language intended for students who have previously taken several programming courses. Prerequisite: CSC 220. 2 Semester Hours.

CSC 230 Fundamentals of Bio-Inspired Computing

This course presents an overview of the two fields of Neural Computation and Evolutionary Computation. The biological components that govern brain function and the cognitive frameworks and the behaviors that emerge will be studied. Neural models of computation that simulate the workings of the brains of living creatures will be investigated. The historical foundations of evolutionary thought are explored with particular emphasis on computational simulations of its models and operations. Topics include computational neural networks, evolutionary programming, natural selection, evolved cooperation / competition, cellular automata, genetic algorithms, ant-colony optimization, swarm intelligence and artificial life. Prerequisite: CSC 120. Familiarity with genetics or evolution is not required as a prerequisite but may be helpful. 4 Semester Hours.

CSC 240 Data Analysis and Visualization Techniques

This course develops an overview of the challenges of developing and applying analytics for insight and decision-making, along with a study of practical approaches to information retrieval from large data sets. Practical analytics statistical software such as R will be employed for in-class work. The course also covers programming and data manipulation techniques for constructing analytics-based applications. Topics include SQL and noSQL databases, using web services to acquire data, and an introduction to big data software systems such as Hadoop and Spark. Example problems may come from such domains as customer relations management, price modeling, social media analytics, scientific experimental results and political survey data and demographics, among many others. Prerequisites: CSC 140 and one of the following statistics courses: MTH 123, MTH 200 or MTH 305. 4 Semester Hours.

CSC 260 Introduction to Information Security

An introduction to the field of information security. Topics include a brief introduction to cryptography, security management, information confidentiality, integrity, availability, and network security. The course includes discussion of a model of the information security industry and explores skills, knowledge and roles so that students can determine and analyze potential career opportunities in this important area of computing. Prerequisite: CSC 105, CSC 120, or CSC 140. 4 Semester Hours.

CSC 270 Computer Organization

An introductory course in computer organization and design that additionally covers assembly language programming. Concepts studied apply to various hardware platforms. Students will learn the basic principles governing the organization of computer

hardware components, how those components interact, and how the components may be controlled via layers of software. Topics investigated will include digital logic, registers, addressing modes, instruction execution, instruction sets and various number systems, and an introduction to operating system concepts. Prerequisites: CSC 120. 4 Semester Hours.

CSC 290 Professional Programming Practices

This course provides practical instruction in various software development techniques and approaches to problem solving that are commonly employed by software and tech firms. Students will learn about software testing strategies, configuration management systems, build systems, and product deployment concepts. Course content will be supplemented with hands-on projects that gives students experience with various software development tools and techniques. Prerequisite: CSC 220. 2 Semester Hours.

CSC 299 Special Topics in Computer Science

A course designed to permit the offering of special subjects appropriate to the Computer Science program at the sophomore level. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Regular or frequently recurring topics are not offered under this title. Prerequisite: as established by the department. May be repeated as new topics are presented. Credit variable. 1-4 Semester Hours.

CSC 310 Database Theory and Implementation

A theoretical introduction to database models, database design, normalization and data administration. Specific applications are studied and developed using fourth generation languages. Prerequisite: CSC 220. 4 Semester Hours.

CSC 320 Algorithms and Data Structures

Topics covered include linked lists, stacks, queues, trees, recursion, searching, sorting, hashing, and analysis and measurement of algorithms. Prerequisites: CSC 220, MTH 125 and MTH 141. 4 Semester Hours.

CSC 330 Mobile Device Programming

In this course the student will learn new protocols and/or a new programming language in order to program mobile devices such as tablets and smart phones. Prerequisite: CSC 220. 4 Semester Hours.

CSC 340 Machine Learning and Neural Network Processing

A course focused on machine learning methods and basic neural network construction and operation with special emphasis on deep learning concepts. Deep learning is a form of machine learning that enables computers to learn from experience and ultimately understand the world. In this course, students will learn the foundations of machine learning, understand how to build neural networks, and experience a machine learning project of the students' own design. Prerequisite: CSC 120 or CSC 140. 4 Semester Hours.

CSC 360 Computer Networks

This course provides an introduction to the technologies used in computer networks. Topics include network architecture, network protocols, and software and hardware implementations of the protocols. Prerequisite: CSC 220 or CSC 270. 4 Semester Hours.

CSC 370 Operating Systems

The study of software designed to control the operation of the components of a computer system. A survey of typical operating systems is included along with investigation of concurrent processes, deadlock, memory management, file systems, processor scheduling/utilization, and distributed and/or parallel systems. Programming skills will be utilized and expanded. Prerequisites: CSC 220 and CSC 270. 4 Semester Hours.

CSC 380 Computer Graphics

This course is intended to provide an understanding of the principles behind the art and science of computer graphics. The subject matter is broad and combines elements of computer hardware and software, mathematics and numerical methods, art, and programming with complex data structures. Prerequisite: CSC 220. 4 Semester Hours.

CSC 399 Special Topics in Computer Science

A course designed to permit the offering of special subjects appropriate to the program of the department. Such offerings will fill special needs of specific students, take advantage of the expertise of a visiting professor, or serve as an initial experimental offering of a contemplated regular course. Upper divisional offerings will be listed as 399. Regular or frequently recurring topics are not offered under this title. Prerequisite: permission of the instructor. May be repeated as new topics are presented. Credit variable, 1-4 Semester Hours.

CSC 410 Web Database Programming

An introduction to programming client-server applications that use a web browser on client machines and a database engine on the server. The course includes programming the user interface and the database interface. Prerequisite: CSC 310. 4 Semester Hours.

CSC 420 Principles of Programming Languages

A study of the principles of the design and implementation of computer programming languages. Topics include syntax, lexical analysis, Backus-Naur Form, parsing, compilers, interpreters, binding, and the run-time environment. Languages of various types are examined. Prerequisites: CSC 220 and MTH 125. 4 Semester Hours.

CSC 430 Programming Parallel Computing Systems

This course provides the student with an in-depth introduction to programming parallel computer systems. Major topics include the taxonomy of parallel systems and parallel algorithms. Programming assignments on GPU systems will provide hands-on experience. Prerequisites: MTH 125 and CSC 220. 4 Semester Hours.

CSC 440 Data Science Practicum

Students apply knowledge and skills acquired in previous data-science-related courses to an analytics problem over a large data set. Written and oral presentation of results will be emphasized in assessing student performance in the course for a grade. Prerequisites: CSC 240 and CSC 340. 2 Semester Hours.

CSC 450 Theory of Computation

Topics covered include finite automata, pushdown automata, Turing machines, regular languages, context-free languages, recursively enumerable languages, and the halting problem. Prerequisites: CSC 220 and MTH 125. 4 Semester Hours.

CSC 460 Network Security

This course provides an introduction to the subject of computer and network security. It will cover major threats to security and tools developed to defend against such threats. Prerequisite: CSC 360. 4 Semester Hours.

CSC 470 Computer Architecture and Design

An examination of design principles and techniques used in contemporary microprocessors and computers to achieve high performance. Topics include pipelining, caching, parallelism, code optimization, and case studies of real-world systems. Prerequisites: CSC 220 and CSC 270. 4 Semester Hours.

CSC 480 Artificial Intelligence

An overview of the field of Artificial Intelligence, including knowledge representation, logical systems, forward and backward reasoning, searching, learning, planning, natural language processing, case- and rule-based systems, and genetic algorithms. Prerequisite: CSC 220. 4 Semester Hours.

CSC 491 Software Engineering Fundamentals

A study of software development characterized by a practical, orderly and measured development process. The dominant features of this process are requirements specification, selection of a software life cycle model, software testing, project management techniques and quality assurance. Prerequisite: Junior standing in the CS or IS major. 2 Semester Hours.

CSC 492 The Practice of Software Engineering

A continuation of the study of software engineering practices begun in CSC 491. Issues of team-building, project planning and configuration management will be explored. Each student will complete a significant software development or research project as part of a team. Prerequisite: CSC 491. 2 Semester Hours.

CSC 494 Honors Thesis/Project

A research/project course designed to meet the needs of the individual student seeking honors in the major at graduation. Prerequisites: junior or senior standing, and approval of the instructor, the department chair and the Honors Review Board. Credit variable, 4-8 Semester Hours.

CSC 496 Independent Study

Students design and implement a project. A contract signed by the student, the instructor, and the department chair details the specific project requirements. May be repeated for credit. Prerequisites: Senior standing. 2-4 Semester Hours.

CSC 499 Internship

This course provides a significant learning experience outside of the academic environment and related to the student's career goals. Students conduct their internship activities at an industrial, business, or financial organization, or at a research laboratory. A contract signed by the student, the supervisor, and the departmental representative details the specific activities and requirements. May not be repeated for credit. Prerequisites: Senior standing, cumulative average of 2.50, average of 3.00 in computer science courses, and recommendation of the Computer Science Internship Selection Committee. 4-16 Semester Hours.

Web Design

CSW 103 Introduction to Web Design

An introduction to the techniques and assessment methods involved in the collection, storage, retrieval, interpretation, and presentation of information on the World Wide Web. Students will gain facility, in a problem-solving context, with a variety of tools. The ability to evolve skills in the current environment into skills needed in future environments will be emphasized. 2 Semester Hours.

CSW 113 Introduction to Animation

A first experience in computer animation for students who have no previous animation experience with a focus on creating programmed animation that can be displayed on the web. Prerequisite: CSW 103. 2 Semester Hours.

CSW 223 Programming for Interactive Media

Object-oriented programming concepts using a visually-oriented, time-sensitive language. Concepts include data models, order of execution, file management, encapsulation, testing, and debugging. Prerequisite: CSW 113. 4 Semester Hours.

CSW 363 Principles of Web App Security

In this course, students will learn the basic concepts of Web Application Security from a practical standpoint. Topics include authentication and authorization, browser security basics, database best practices, and security fundamentals. Additionally, students will be exposed to the application of the Secure Software Development Life Cycle. The touchstone for the course is the OWASP Top Ten which are the most critical web application vulnerabilities as determined by security and development industry experts. The final project requires students to develop a basic web application, which will then be subjected to a Red Team review by other members of the class in which common web vulnerabilities will be identified. Prerequisite: Either CSW 103, CSC 310 or CSC 460. 4 Semester Hours

CSW 423 Interaction Design

This course is concerned with the design, evaluation and implementation of interactive computing systems for human use and with the study of major phenomena surrounding them. Basic design theory from both art and computer science will be studied. Prerequisite: CSW 113. 4 Semester Hours.

Criminal Justice

CRJ 105 Introduction to Criminal Justice

This course will introduce the student to the field of criminal justice. Basic information on the police, courts and correctional systems and how they interrelate will be presented. An emphasis will be placed on contemporary issues in the criminal justice system. 4 Semester Hours.

CRJ 199 Special Topics

See All-University 199 course description.

CRJ 201 Law Enforcement

This course is designed to provide basic level information on the structure and function of law enforcement and law enforcement techniques in the United States. Theoretical models explaining law enforcement practices will be discussed. Contemporary issues in law enforcement as well as career options will also be examined. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 203 Community Corrections

This course is designed for students who are interested in areas of criminal justice that are not directly related to law enforcement. Areas such as probation, parole and juvenile justice will be explored. A brief summary of the history of each area will be explored. Career options in these areas will also be addressed. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 208 Diversity Issues in Criminal Justice

This course will explore a wide variety of current issues involving minorities and women as perpetrators, victims and employees of the criminal justice system. Students will actively participate in analyzing potential solutions to contemporary problems in regard to minorities and women in criminal justice. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 210 Careers in Criminal Justice

This course is a practical examination of careers in criminal justice. It will include guest speakers who are criminal justice practitioners in areas such as law enforcement, corrections, homeland security, and private security. Assignments will be designed to improve student understanding of various career opportunities and improve student ability to pursue those opportunities. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 290 Security and Event Management

This course is designed to provide students with an opportunity to examine the security industry (private and public), and its place in today's society. Students will be offered the opportunity to meet with, hear from, and work with members of the profession and to consider their own future career goals. Prerequisite: CRJ105. 4 Semester Hours.

CRJ 299 Special Topics

See All-University 299 course description. Prerequisite: CRJ 105.

CRJ 301 Crime Investigation

This course covers the fundamental principles and procedure employed in the investigation of a crime. Emphasis is placed on the investigation of specific crimes, the identification of sources of information and the procedures necessary for the proper handling of evidence. This course is designed to develop a working knowledge of the steps of investigation beginning with the initial security of the crime scene and concluding with the preparation of the courtroom report. Prerequisites: CRJ 105 and CRJ 201; or permission of the instructor. 4 Semester Hours.

CRJ 308 Criminal Procedure

This course will examine the procedures involved in the processing of crime, including the elements that define specific crimes and the progression of criminal cases from evidence collection and suspect interviews through prosecution. The course will familiarize students with steps involved in the criminal process and constitutional rights of the accused. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 325 Treatment Methods in Criminal Justice

This course is designed to familiarize students with issues related to treatment methodology in corrections. It focuses on principles and theories related to treatment methodologies, with an emphasis on offender rehabilitation. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 335 Offender Behavior

This course is designed to familiarize students with profiling serial killers. Students will study key information related to profiling, learn how to integrate profiling techniques, and develop an understanding of various other concepts related to profiling serial killers. The emphasis of the course is integration of material and developing the ability to profile. Prerequisites: CRJ 105 and CRJ 201. 4 Semester Hours.

CRJ 345 Gangs and Organized Crime

This class familiarizes students with the subject of organized crime. Students will examine major theoretical perspectives and key case studies to understand the way that different organized crimes are perpetrated and combatted. Issues will be examined from multiple disciplinary perspectives. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 355 Law Enforcement Administration

The primary focus of this course is on current organizational theories in law enforcement. These theories will be explored in relation to the management and administration of criminal justice agencies through both classroom exercises and experiential learning. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 360 Investigative Interviewing

This course explores the basic foundations of interviewing victims, witnesses and suspects. These foundations include communication models, question formats, topic control, distortions, inhibitors, facilitators and types of interviews. It also considers Constitutional and due process issues. Students will learn the role of interviewing as it relates to the criminal justice system as well as police and community relations. Prerequisites: CRJ 105 and CRJ 201. 4 Semester Hours.

CRJ 370 Blood Evidence

This course provides students with an in-depth look into examining, collecting, documenting, and testifying about issues related to blood evidence at a crime scene. Students will have the opportunity to examine, collect, and document blood evidence in a practical (scenario based) environment. The course is designed to provide a working knowledge of the criminal investigative process where the students will have to qualify their actions in the process in a prosecution style format. Prerequisites: CRJ105, CRJ 201 and CRJ 301. 4 Semester Hours.

CRJ 399 Special Topics

See All-University 399 course description. Prerequisite: CRJ 105.

CRJ 410 Advanced Seminar

The topics for this seminar will vary. Examples of potential topics include violence and society, administration of justice, and victimology. Students must be prepared to work within the framework of a seminar-style format. Students may repeat this course one time, due to the rotation of topics. Prerequisite: CRJ 105. 4 Semester Hours.

CRJ 490 Senior Culminating Experience

This course involves planning and developing an original research project. Topics and activities include developing research questions, examining theoretical issues, reviewing literature, articulating hypotheses, and describing the methods that are used to answer research questions. In developing and presenting a research proposal, students will incorporate knowledge gained from previously-taken criminal justice courses. Prerequisites: CRJ 105, CRJ 208, CRJ 210, CRJ 308, MTH 121 or SOC 365, SOC 205 or SOC 280, and SOC 364. Cross-listed as SOC 490. 4 Semester Hours.

CRJ 494 Honors Thesis/Project

See All-University 494 course description.

CRJ 499 Internships

See All-University 499 course description. Cross-listed as SOC 499. 1-16 Semester Hours.

Data Science

DSC 250 Scientific Modeling and Data Analysis

This course serves as a focused introduction to programming for scientists and engineers. Topics include algorithm development, statistical tests, the fast Fourier transform (FFT), simulating the dynamics of systems represented by coupled ordinary differential equations (e.g. planetary motion via Runge-Kutta methods), numerical integration, root finding, fitting functions to experimental data, and the creation of publication-quality graphics. Students choose and complete an independent research project on a topic related to their major. This course enables students to integrate computation into advanced courses in theoretical and/or experimental science. Programming language: Python. Prerequisite: MTH 141. 4 Semester Hours.

DSC 330 Data Acquisition and Analysis

A hands-on course in the methods of experimental physics, with a focus on the interfacing of software and hardware for data acquisition and analysis. The course will cover advanced topics from classical mechanics, thermodynamics, electrodynamics, and quantum mechanics, and the communication of scientific results through written and oral presentations. Four laboratory hours per-week. Prerequisite: PHY 211 and DSC 250. 4 Semester Hours.

Economics

ECN 105S Introduction to Economics

An introduction to the tools and techniques of economic analysis. Economics principles and concepts are used to examine current issues such as pollution, education, health care, poverty, housing, discrimination, international trade, national debt, inflation and unemployment. Designed for majors outside the Department of Business. Not open to students with credit for both ECN 200S and either ECN 207 or ECN 208. 4 Semester Hours.

ECN 200S Introduction to Microeconomics

An introduction to economic principles and analytical tools needed to think intelligently about social and economic problems. The course looks at the behavior of individual economic units--consumers, producers, and workers—and examines topics such as opportunity cost, gains from trade, market equilibrium, price controls, consumer decision-making, production, cost, market structure, input markets, and externalities. The course emphasizes concepts and principles and their use in analyzing economic issues. 4 Semester Hours.

ECN 207 Introduction to Macroeconomics I

The first introductory course to Macroeconomics. It is designed primarily for majors in the Department of Economics, Accounting, and Business Administration. The course will expose students to useful tools, including problem solving and analytical thinking. Students will learn about how our personal choices affect the economy as a whole. It will illustrate measures of aggregate economic activity, unemployment, inflation, savings, investment, monetary policy, fiscal policy, government budget, national debt and international trade. Prerequisites: ECN 200S or ECN 105S. 2 semester hours.

ECN 208 Introduction to Macroeconomics II

The second introductory course to Macroeconomics. It is designed primarily for majors in the Department of Economics, Accounting, and Business Administration. The course will expose students to more useful tools, including problem solving and analytical thinking. It will illustrate aggregate demand and supply model, classical macroeconomics theory, Keynesian macroeconomics theory, economic growth, and special macro topics of current interest such as the financial crisis of 2007-2009. Prerequisites: ECN 207. 2 semester hours.

ECN 299 Special Topics in Economics

See All-University 299 course description.

ECN 310V Health Economics

This course examines how economic analysis can be applied to various components of the health care system. Microeconomic theory is used to understand the operation of health care markets and the behavior of participants (consumers, insurers, physicians, and hospitals) in the health care industry. International comparisons and the role of the public sector will be included. Prerequisites: ECN 105 or ECN 200. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ECN 315 Money and Banking

A study of the nature and definition of money, the role of money and financial institutions in the macro-economy, interest rates, monetary policy, the demand for and supply of money, financial crises, and the Federal Reserve System. Prerequisites: ECN 200S and either ECN 201 or both ECN 207 and ECN 208. 4 Semester Hours.

ECN 327G International Trade

An analysis of international economics using the tools of microeconomics: the pure theory of trade, trade in intermediate goods, trade with imperfect competition, tariffs, quotas, discriminatory and non-discriminatory trade liberalization, regional integration, migration, and the World Trade Organization. Prerequisites: ECN 105S or ECN 200S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ECN 330G Economics of Gender

This course examines the impact of gender differences on economic opportunities, activities, and rewards. Economic issues emphasized are labor force participation, earnings, investment in human capital, and gender segregation in the workplace. Cross-societal comparisons also will be made. Prerequisites: ECN 105S or ECN 200S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ECN 360V Managerial Microeconomics

Intermediate microeconomic theory from the perspective of the business manager. Topics are similar to those of ECN 200 but are presented at a more advanced level: household decision-making, behavioral economics, prices, production, cost, wages, market structure, the contributions of game theory to the understanding of economic behavior. An empirical project using regression analysis. Previous exposure to finding derivatives of polynomials and using Ordinary Least Squares regression analysis to test hypotheses will help you with the project. This course is intended to serve the requirements of both the economics majors for intermediate microeconomics and the business majors for managerial economics. Prerequisites: ECN 200S and either ECN 201 or both ECN 207 and ECN 208. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ECN 365G Global Macroeconomics

A course in international monetary economics and intermediate open-economy macroeconomics. Foreign exchange rates, balance of payments, capital flows, international indebtedness, common currencies, alternative international monetary systems. The analysis of consumption, investment, government expenditures, exports, and imports. A study of monetary, fiscal, and exchange-rate policies. Responses to international economic crises. The role of the IMF. Short-run business cycle concerns and long-run economic growth. Prerequisites: ECN 200 and either ECN 201 or both ECN 207 and ECN 208. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ECN 380 Comparative Economic Systems

An examination of the basic institutions of capitalism, socialism and communism from an economic point of view. The course stresses the development and functioning of present varieties of these "isms." Special emphasis is given to those countries of the former Soviet Union and Central and Eastern Europe which are making the transition from centrally planned socialistic states to market economies. Prerequisite: ECN 105S or ECN 201 or both ECN 207 and ECN 208. 4 Semester Hours.

ECN 390 Economies of the Asian Pacific Rim

A survey of economic development in the economies of East Asia, focusing on Japan as the model for the region, the four tigers—Hong Kong, Taiwan, Singapore and South Korea—and the newly industrializing economies of Thailand, Malaysia, Indonesia and the Philippines. The course will include an economic analysis of the factors that contributed to the substantial growth in East Asia from 1960 to 1989 and the subsequent financial crisis that ensued in the 1990s. Prerequisite: ECN 105S or ECN 201 or both ECN 207 and ECN 208. 4 Semester Hours.

ECN 399 Special Topics in Economics

See All-University 399 course description.

ECN 401 SCE in Economics

The student majoring in economics completes a Senior Culminating Experience (SCE) by doing research on a topic that stems from an upper-level (300- or 400-level) economics course already completed. The particular requirements for the SCE such as the issue to be studied, the type of research (quantitative or qualitative) to be undertaken, and the method of reporting the results should be discussed with the instructor during the previous semester. Prerequisite: declared major in economics and permission of instructor. 1 Semester Hour.

ECN 494 Honors Thesis/Project

See All-University 494 course description.

ECN 499 Internship in Economics

An experience-based course in which a student works in an appropriate business or agency. Previous classroom learning is integrated with the work experience. The location, program, method of education, and method of assessment are provided in a contract drawn between the student, the department faculty internship coordinator, and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Will count as only one course towards the major or minor in economics. Graded S/U. Prerequisite: departmental approval. 1-16 Semester Hours.

Education

Adolescence to Young Adult

AYA 315 Teaching Social Studies

This course develops the candidate's skill in teaching social studies as active and student-centered, while being mindful of the need to remember important civic, economic, geography, and history content. The goal is to develop strategies to excite middle and high school students about social studies. Candidates learn effective assessment techniques and methodology aligned with state and national standards. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

AYA 320 The Teaching of Mathematics

A mathematical methods course for students who are preparing to teach in adolescence to young adult programs. Content includes theories, models and strategies for teaching diverse learners, planning instruction, creating effective learning environments and collaboration with parents and other professionals. Emphasis is placed on helping the student to develop the professional knowledge base necessary for success in accordance with the requirements of State and other educational agencies. Field experience is required in order to complete course assignments. Prerequisite: MTH 142 and permission of the instructor. 4 Sem. Hrs.

AYA 325 Teaching English Language Arts

Mindful of the challenges of standards-based instruction this course develops the candidate's skill in teaching language arts as active and student centered, while emphasizing many aspects of traditional English instruction. Candidates will learn strategies for teaching the various genres, including writing, literature, grammar, speech arts, journalism, drama and literary criticism. Effective assessment techniques will also be included. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

AYA 335 Teaching Science

Mindful of the challenges of standards-based instruction, this course develops the candidate's skill in teaching science as active and student centered, emphasizing the scientific method. Candidates will learn the importance of collecting and drawing conclusions from data, based on the assumption that good science teachers model independent thinking, research and asking logical questions. Candidates will also learn effective assessment techniques. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

AYA 460 Preclinical - Adolescence to Young Adult

During the preclinical experience, candidates will plan effective instruction, and design classroom contexts for learning in a 7 - 12 grade level setting. Candidates plan learning activities to promote a full range of competencies for each student to address learners' diversity. A special emphasis is on promoting a positive learning environment, data driven instruction, comprehensive lesson planning, self-reflection, professional development, and a commitment to lifelong learning. Preclinical requires a minimum of 100 clock hours in the field. This course is graded S/U. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

AYA 470 Clinical Practice-Adolescence to Young Adult

During the clinical experience, candidates assume all responsibilities of teaching in a 7-12 grade level setting. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners' diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 Semester Hours.

Early Childhood

ECH 200 The Foundations and Management of the Early Childhood Classroom

A further study to the field of early childhood education, based on standards set by the National Association for Education of Young Children (NAEYC), includes: an in-depth study of developmentally appropriate practice (DAP) including how it is informed, implemented, and evaluated, and a review of the Code of Ethical Behavior. It also considers procedures of classroom structure and behavior management, including special education. Behavioral assessment, self-assessment, and self-control skills are emphasized and sensitivity to possible differences between classroom behavioral expectations and the home environment is developed. Field experience is required in order to complete course assignments. Prerequisite: EDU 150 or MUS 150. 4 Semester Hours.

ECH 320 Early Childhood Mathematics Practices and Curriculum

This course includes an exploration of number concepts and problem-solving strategies designed for prospective early childhood teachers. Real number concepts, operations, algebraic, and geometric properties are considered. Candidates will study the goals, content, material, technology, and methods of teaching mathematics to young children between the ages of 3 and 8. Emphasis is placed on the young child's natural mathematical development. Candidates will create lessons based on play-centered activities, student exploration, and ongoing assessment. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ECH 330 Early Childhood Scientific and Social Studies Practices and Curriculum

This course includes an exploration of national and state standards-based study of objectives, content, materials, technology, and methods of instruction essential to the teaching of science and social studies to young children between the ages of 3 and 8. Emphasis is placed on lesson development based on play-centered activities, exploration, and hands-on experiences. Candidates will focus on the National Council for the Social Studies (NCSS) curriculum standards; these serve as guidelines for interdisciplinary and multicultural lesson design. The incorporation of history, civics, and geographical themes, in addition to appropriate use of children's literature and technological resources in the designing of units, lessons, and assessment to meet the needs of a variety of learners, will also be studied. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ECH 360 Early Childhood Language Arts Practices and Curriculum

This course explores the scope, importance, and content of literature for children. Candidates will be exposed to the techniques of evaluating, presenting, and studying literature with children as an emerging process. Candidates will study theories of development of narrative and expository reading and writing. Attention is given to issues, purpose, materials, technology, and processes for teaching emergent and early reading and writing. A firm knowledge base and skills in planning, delivery, and assessment of content will also be emphasized. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ECH 404 Early Childhood Professional Practices, Research and Preclinical Practice

This course is also designed to initiate work that benefits individuals in an early childhood setting, their families, colleagues, and the professional growth of teacher candidates. Field experience is required in order to complete course assignments. Candidates spend 12-13 hours per week for 7-8 weeks (90 hours) in a preschool, kindergarten, or primary grade setting daily observing and applying theories, principles, and methods of teaching related to Early Childhood Education. The candidate is a teaching assistant and works closely with school personnel in instructional, clinical, and non-instructional activities designed to promote readiness for clinical practice. The completion of an Impact on Student Learning Unit is required. Group seminars are arranged by the field placement coordinator. This course is graded S/U. Prerequisites: ECH 320, ECH 330, ECH 360 and Admission into the Teacher Education Program. 4 Semester Hours.

ECH 440 Early Childhood Assessment and Literacy Practices

This course explores theories of literacy and multiple forms of current literacy assessment and instruction for the PK-3 classroom and clinical situations. Emphasis is on assisting struggling readers and writers, including English language learners, through a variety of formal and informal assessments and instructional strategies. Candidates will develop an understanding of the following: processes and approaches, procedures useful in reading assessment and diagnosis, the remediation of reading, writing, and language, and the utilization of administration techniques. Special attention is given to the alignment of assessment with curriculum and instruction and the assessment to instruction link will be emphasized. This course provides a variety of strategies to address the literacy needs of a wide range of students. Field experience is required in order to complete course assignments. Prerequisite: ECH 360 and Admission into the Teacher Education Program. 4 Semester Hours.

ECH 470 Clinical Practice-Early Childhood

The candidate assumes all responsibilities of teaching in a preschool through 3rd grade setting. This course is graded S/U and is required for Ohio State Early Childhood teaching licensure. Group seminars to enable collaboration, evaluation, and reflection are arranged by the field placement coordinator. Prerequisite: Admission into Clinical Practice. 12 Semester Hours.

Education**EDU 150 Introduction to Teaching Profession**

This introductory course is designed to familiarize future teachers with the important issues existing in educational theory and practice. Each student is obligated to develop a personal philosophy of education to be able to analyze basic concepts such as ethical and legal issues facing teachers, to understand the meaning of professionalism, and to incorporate appropriate methods of teaching. Successful fieldwork is required in order to complete the course requirements. 200 minutes of class and 100 minutes of lab per week. 4 semester hours.

EDU 315G Multicultural Education

This course introduces students to the conceptual, theoretical, historical, and philosophical issues of multicultural education. The underlying theme of the course is that education is a social concept that should be made accessible and equitable to all students, as it equips them to successfully function in society. Current issues (race, culture, socioeconomic status, gender, religion, sexual orientation, language, and geographic location) impacting society and their effects on education and learning are addressed. Students are encouraged to be agents of change in their future schools and other workplaces. 4 Semester Hours.

EDU 218 Educational Technology

This course provides an introduction to the application and introduction of emerging educational technologies in teaching and learning using strategies in design, selection, development, integration, assessment, and evaluation. Candidates examine current trends and gain an understanding of the appropriate integration of technology and instruction. Field experience is required in order to complete course assignments. Prerequisite: EDU 150. 4 Semester Hours.

EDU 230 Student Development: Implications for Planning and Teaching. Student Development

Learning developmentally appropriate practice for young children, preadolescent and adolescent development, and a focus on cognitive, social and behavioral development of all ages are key elements of this course. An understanding of differentiated instruction for teaching students with ELL, and exceptionalities including an emphasis on dyslexia. Other topics developed include lesson planning, writing objectives, standards based decision making, and planning. This course is required for those individuals seeking adolescent to young adult, multiage, and middle school licenses. Field experience is required in order to complete course assignments. Prerequisite: EDU 150 or MUS 150. 4 Semester Hours.

EDU 234 Interdisciplinary Planning for Diverse Learners and Families

Candidates develop an understanding of the central concepts of teaching and learning. They learn to organize, integrate cross disciplinary skills, and develop meaningful learning progressions for diverse learners and families including students with exceptionalities and ELL. Field experience is required in order to complete course assignments.

Prerequisite: EDU 150. 4 Semester Hours.

EDU 270 Practicum 1 - AYA/Multiage

This practicum is designed for teacher candidates seeking a multiage or adolescence to young adult teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, volunteering at after school activities, and basic teaching opportunities aligned to their courses. The course is graded S/U. Prerequisite: EDU 150. 1 Semester Hour.

EDU 340 Phonics, Process, and the Structures of Language Acquisition

This course explores theoretical and evidence-based foundations of literacy and language including concepts of phonological and phonemic awareness, phonics, word recognition, fluency, vocabulary, and spelling. Course content offers an overview of the range of language development emphasizing terminology, acquisition, development, physiological and psychological systems as candidates interact with a variety of print and digital media. Candidates explore various instructional approaches and assessments, plan lessons, and deliver quality instruction to meet the needs of all learners, including a focus on individuals with diverse backgrounds, experiences, and abilities. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

EDU 350 Teaching Language Arts and Social Studies to Young Adolescents

This course focuses on the integration of language arts and social studies at the middle level. Candidates will explore the dynamic context and needs of language arts and social studies classrooms and design engaging lessons that integrate language arts and social studies, including the use of literature and technology to meet the needs of diverse learners. Additionally, the candidates will analyze the alignment of language arts and social studies standards with the development of the young adolescent. Field experience

is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

EDU 355 Content Area Literacy

Emphasis is placed on the development, purpose, methods, materials, technology and processes of teaching reading and writing and study skills, applicable to the content areas in grades 7-12 as well as for Multiage Programs. A firm knowledge base and skills in planning, instruction and assessment, based on the Ohio Department of Education's Competency-Based Language Arts Model curriculum, is developed. The understanding of reading and writing, as well as the other language arts strands as interactive processes influenced by various factors and sensitive to individual differences (e.g., diversity, exceptionality), is emphasized. Special attention is given to unit integration and integrating various types of literature (e.g., multicultural, gender studies) in the content areas. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

EDU 360 Teaching Mathematics and Science to Young Adolescents

This course focuses on the integration of mathematics and science at the middle level. Candidates will explore the dynamic context and needs of mathematics and science classrooms, and design engaging lessons that integrate mathematics and science, including the use of inquiry and technology to meet the needs of diverse learners. Additionally the candidates will analyze the alignment of mathematics and science standards with the development of the young adolescent. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

EDU 370 Practicum II - AYA/Multiage

This practicum is designed for teacher candidates seeking a multiage or adolescence to young adult teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Prerequisite: EDU 270. 1 Semester Hour.

EDU 375 Practicum III - AYA/Multiage

This practicum is designed for teacher candidates seeking a multiage or adolescence to young adult teaching license. The candidate assumes responsibilities of completing various-field based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Prerequisite: EDU 370. 1 Semester Hour.

EDU 408 Multiple Licensure Practicum

This course is designed for candidates seeking multiple teaching licenses and/or endorsements. The candidate assumes responsibilities of teaching various lessons and other teaching requirements for a minimum of 50 clock hours in the additional licensure/endorsement area being sought. The course is graded S/U and may be repeated for credit. Prerequisite Admission into the Teacher Education Program. 2 credit hours.

EDU 410 Professional Practicum

Candidates work with a faculty member to design a field experience that enhances their education related curriculum. The candidate assumes responsibilities and meets with faculty member regularly. The practicum field experience can range from 25-100 clock hours. The numbers of credit hours can range from 1-4 depending on the completed number of clock hours and requirements. The course is graded S/U and may be repeated for credit. Prerequisite: Admission into the Teacher Education Program and permission of the instructor. 1-4 credit hours.

EDU 440 Assessment, Instructional Design, and Evaluation in Education

Assessment, Instructional Design, and Evaluation in Education: This course focuses on assessment development, student data analysis, growth models, accountability systems, teacher evaluation systems, and current trends in educational policy. Candidates will evaluate and design assessments, analyze student data, and collaborate with one another and in-service professionals. Field experience is required for this course. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

EDU 470 Clinical Practice-Multiage

During the clinical experience, candidates assume all responsibilities of teaching in P-12 grade level setting. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners' diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 semester hours.

EDU 478 Clinical Practice-Multiple Licensures

During the clinical experience, candidates assume all responsibilities of teaching in two different licensure types where teaching is equally divided between the two experiences. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners'

diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 semester hours.

Intervention Specialist – Primary Education

ISE 320 Intervention Specialist Methods

This course focuses on the selection, adaptation, and the use of instructional strategies to promote primary student's learning. Methods for designing and implementing instruction to assure acquisition and fluency through maintenance and generalization development are emphasized. Individualized Education Programs are developed. Field experience with young children is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ISE 380 Applied Behavioral Analysis for Intervention Specialist Teachers

This course considers theories, basic principles and procedures of classroom and behavior management in preschool and primary school settings. The principles of applied behavior analysis are emphasized. Candidates gain an understanding of classroom management and behavioral principles including PBIS and how to apply that knowledge in the classroom. Field experience with young children is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ISE 440 Intervention Specialist Assessment and Literacy Practices

This course focuses on general, specialized, and literacy assessment strategies and the use of multiple types of assessment information for a variety of educational decisions. Legal policies and ethical principles of measurement and assessment related to referral, eligibility, program planning, instruction, and placement for young children with educational learning needs. Candidates collaborate with families and other colleagues to assure nonbiased, meaningful assessment and decision making. Field experience with a young child is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ISE 450 Understanding Preschool Children with Exceptionalities & The Learning Environment

This course prepares candidates to know and understand the characteristics and developmental needs of preschool children (ages 3-5) with special needs. The course will explore topics such as medical aspects and physical management implications of working with preschool children with disabilities. Candidates will be prepared to promote the growth and development of special needs children in a respectful, safe, and healthy learning environment. A preschool-based field experience in an intervention setting of 25 hours will be required. Prerequisite: ISP 220 and Admission into the Teacher Education Program 2 Semester Hours

ISE 455 Instructional Strategies and Effective Collaboration for Preschool Children with Exceptionalities

This course will prepare candidates to plan and deliver effective instruction that advances the learning of preschool children (ages 3-5) with exceptionalities. Candidates will understand and use developmentally appropriate assessments to inform instruction, evaluate, and ensure student learning. Candidate will learn strategies to collaborate and communicate with families, other professionals and the community to support student learning. A preschool-based field experience in an intervention setting of 25 hours will be required. Prerequisite: ISP 220 and Admission into the Teacher Education Program 4 Semester Hours

Intervention Specialist – Mild/Moderate

ISM 320 Intervention Specialist Methods

This course focuses on the selection, adaptation, and the use of instructional strategies to promote elementary, middle school and high school student learning. Methods for designing and implementing instruction to assure acquisition and fluency through maintenance and generalization development are emphasized. Individualized Education Programs are developed. Field experience with older students is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ISM 380 Applied Behavioral Analysis for Intervention Specialist Teachers

This course considers theories, basic principles and procedures of classroom and behavior management in elementary, middle and high school settings. The principles of applied behavior analysis are emphasized. Candidates gain an understanding of classroom management and behavioral principles including PBIS and how to apply that knowledge in the classroom. Field experience with older students is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

ISM 440 Intervention Specialist Assessment and Literacy Practices

This course focuses on general, specialized, and literacy assessment strategies and the use of multiple types of assessment information for a variety of educational decisions. Legal policies and ethical principles of measurement and assessment related to referral, eligibility, program planning, instruction, and placement for older students with educational learning needs. Candidates

collaborate with families and other colleagues to assure nonbiased, meaningful assessment and decision making. Field experience with an older student is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

Intervention Specialist

ISP 220 Introduction to the Exceptional Learner

This course based on standards set by the Council for Exceptional Children (CEC), includes a focus on the cognitive, social, and behavioral development of typical and atypical learners. An understanding of the relationship of special education to schools, school systems, and other agencies is emphasized. Field experience is required in order to complete course assignments. Prerequisite: EDU 150 or MUS 150. 4 Semester Hours.

ISP 225 American Sign Language

This is a course for students with no prior knowledge of American Sign Language (ASL). This course is designed to develop the students' receptive skills, and secondarily to develop their expressive and conversational sign language skills in everyday situations with a focus on vocabulary development, grammatical features, syntax, and structure. American Deaf culture and history are also studied with an emphasis on making comparisons and connections to one's own culture, values, and social norms. ISP 225 and courses in American Sign Language may not be used to meet the world language proficiency requirement. Prerequisite: EDU 150 or permission of the instructor. 4 Semester Hours.

ISP 270 Practicum I - Intervention Specialist

This practicum is designed for teacher candidates seeking an intervention specialist teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, volunteering at after school activities, and basic teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: EDU 150

ISP 370 Practicum II - Intervention Specialist

This practicum is designed for teacher candidates seeking an intervention specialist teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: ISP 270

ISP 375 Practicum III - Intervention Specialist

This practicum is designed for teacher candidates seeking an intervention specialist teaching license. The candidate assumes responsibilities of completing various-field based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: ISP 370

ISP 460 Preclinical Practice - Intervention Specialist

During the preclinical experience, candidates will plan effective instruction, and design classroom contexts for learners with exceptionalities. Candidates plan learning activities to promote a full range of competencies for each student to address learners' diversity. A special emphasis is on promoting a positive learning environment, data driven instruction, comprehensive lesson planning, self-reflection, professional development, and a commitment to lifelong learning. Preclinical requires a minimum of 100 clock hours in the field. This course is graded S/U. Prerequisite: Admission into the Teacher Education Program. 4 semester hours.

ISP 470 Clinical Practice-Intervention Specialist

During the clinical experience, candidates assume all responsibilities of teaching learners with exceptionalities in a school settings. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners' diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 semester hours.

Middle Childhood

MCH 205 Foundations of Middle Childhood Education

The course emphasizes the role of the teacher in the middle school and the relationship between the diverse needs of the young adolescent and the curriculum. Field experience is required in order to complete course assignments. Prerequisite: EDU 150. 2 Semester Hours.

MCH 270 Practicum I - Middle Childhood

This practicum is designed for teacher candidates seeking a middle childhood teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, volunteering at after school activities, and basic teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: EDU 150

MCH 315 Teaching Social Studies in the Middle School

This course includes a study of the objectives, content, materials, methods, and assessment of instruction essential for teaching social studies in the middle school. Meeting state and national standards for social studies will be emphasized along with key content in civics, economics, geography, and history. Content related to Ohio history, government, geography, and economy will be included. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

MCH 320 Teaching Mathematics in the Middle School

A national and state standards-based study of the goals, content, materials, technology and methods of teaching mathematics in the middle school is emphasized. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

MCH 325 Teaching English Language Arts in the Middle School

This course focuses on the theories, issues, purposes, materials, technology and processes for teaching the language arts with special attention to narrative reading and writing in the middle school. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

MCH 335 Teaching Science in the Middle School

A national and state standards-based study of objectives, content, materials, technology and methods of teaching science in the middle school is emphasized. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

MCH 345 Content Area Reading and Writing in Middle School

Emphasis is placed on the development, purpose, methods, materials, technology, and processes of teaching reading and writing and study skills, applicable to the content areas in the middle school curriculum. A firm knowledge base and skills in planning, instruction, and assessment, based on the Ohio Department of Education's Competency-Based Language Arts Model curriculum and Association of Middle Level Educators (AMLE) Standards, is developed. The understanding of reading and writing, as well as the other language arts strands as interactive processes influenced by various factors and sensitive to individual differences of young adolescents (e.g., diversity, exceptionality), is emphasized. Special attention is devoted to understanding collaboration in designing interdisciplinary teaching units appropriate for a diverse population of young adolescents. Field experience is required in order to complete course assignments. Prerequisite: Admission to the Teacher Education Program. 4 Semester Hours.

MCH 370 Practicum II - Middle Childhood

This practicum is designed for teacher candidates seeking a middle childhood teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: MCH 270

MCH 375 Practicum III - Middle Childhood

This practicum is designed for teacher candidates seeking a middle childhood teaching license. The candidate assumes responsibilities of completing various-field based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: MCH 370

MCH 440 Middle Childhood Assessment and Literacy Practices

This course explores theories of assessment and multiple forms of current literacy assessment and instruction for middle school grades. The field experience includes an intensive case study, which incorporates reading assessment as a function of interdisciplinary content, as well as diagnosis and remediation of a school-aged student. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

MCH 460 Preclinical - Middle Childhood

Preclinical experience, candidates will plan effective instruction, and design classroom contexts for learning in a 4-9 grade level setting. Candidates plan learning activities to promote a full range of competencies for each student to address learners' diversity. A special emphasis is on promoting a positive learning environment, data driven instruction, comprehensive lesson planning, self-reflection, professional development, and a commitment to lifelong learning. Preclinical requires a minimum of 100 clock hours in the field. This course is graded S/U. Prerequisite: Admission into the Teacher Education Program. 4 semester hours.

MCH 470 Clinical Practice-Middle Childhood

During the clinical experience, candidates assume all responsibilities of teaching in a 4-9 grade level setting. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners' diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 semester hours.

Physical Education Pedagogy**PEP 110 Team Games**

Students will learn various team games including invasion games, net/wall games, fielding/run-scoring games, and target games. Students will also be exposed to various fitness activities and methods of assessing fitness for use as teachers of children and adolescents. 2 Semester Hours.

PEP 130 Lifetime Leisure Activities

Students will be exposed to various activities providing knowledge and application of skills enabling students to participate in activities for a lifetime. This course includes activities such as walking, jogging, golf, tennis, outdoor activities, racquetball, bicycling, and disc golf will be taught in this course. 2 Semester Hours.

PEP 150 Lifetime Fitness Activities

Students will be exposed to various activities providing knowledge and application of fitness skills and concepts to promote a healthy lifestyle. Students will also be exposed to various methods of assessing fitness, maintaining current fitness levels, and improving one's fitness. 2 Semester Hours.

PEP 200 Principles of Physical Education

An introductory course designed to provide a structural basis for total comprehension of physical education. Students will be exposed to the historical and philosophical foundations, and contemporary principles regarding objectives, curriculum, methodology, and evaluation related to P-12 physical education. Field experience is required in order to complete course assignments. 2 Semester Hours.

PEP 330 Teaching in Elementary School Physical Education

The purpose of this course is to expose students to the fundamental concepts and principles of teaching children in grades P-5 with implications for the selection, adaptation, and teaching of appropriate movement and rhythmic activities. The understanding of movement concepts, fundamental motor skills, specialized motor skills, and skill themes will be emphasized. Integrating these concepts into a developmentally appropriate curriculum accompanied with developmentally appropriate pedagogy will also serve as a primary focus of the course. Field experience is required in order to complete course assignments. Prerequisites: PEP 110, PEP 130, PEP 200 and EXS 110. 4 Semester Hours.

PEP 332 Teaching in Secondary School Physical Education

The purpose of this course is to expose students to the fundamental concepts and principles of teaching students in grades 6-12. The understanding of invasion, net/wall, fielding/run-scoring, and target games and strategies for teaching these games will be provided. Additionally, lifelong activities such as tennis, golf, fitness and physical activity, outdoor activities, bicycling, and racquetball accompanied with strategies for teaching these activities will also be emphasized. Integrating these concepts into a developmentally appropriate curriculum accompanied with developmentally appropriate pedagogy will also be emphasized in this course. Field experience is required in order to complete course assignments. Prerequisites: PEP 110, PEP 130, PEP 200 and EXS 110. 4 Semester Hours.

PEP 430 Motor and Developmental Learning

The purpose of this course is to expose students to the various components of motor control and developmental learning. Students will gain an understanding of skill acquisition and learning in various contexts. Students will learn the basic concepts and issues of biological and psychological growth and development from conception through adulthood. Emphasis will be placed on psychomotor, cognitive, and affective development throughout the lifetime. Prerequisites: PEP 110, PEP 130, PEP 200, EXS 110 and EXS 220. 4 Semester Hours.

PEP 440 Assessment in Health and Physical Education

An introduction to measurement and evaluation commonly used in physical education and health education encompassing the administration of skill and performance testing, interpretation of results, basic statistical analysis and grading/evaluation of performance. This course serves as the SCE for physical education pedagogy and will engage students in designing, conducting, and evaluating an assessment project based on the Ohio standards, benchmarks, and grade level indicators. Prerequisites: PEP 330 and PEP 332. 4 Semester Hours.

PEP 491 Special Topics: Professional Conference

All PEP majors are required to attend a minimum of one professional conference prior to graduation. Examples of professional conferences include OAHPERD Convention, SHAPE National Convention, Midwest District Convention, or as approved by the PEP Director. Prerequisite: Instructor Approval. 0 Semester Hours.

PEP 494 Honors Thesis/Project

A research/project course designed to meet the needs of the individual student seeking honors in the major at graduation. Prerequisites: junior or senior standing, and approval of the instructor, the department chair and the Honors Review Board. Credit variable, 4-6 Semester Hours.

Primary

PRM 200 The Foundations and Management of the Primary Classroom

This course focuses on developing an understanding of how children in primary grades grow, develop, and learn. Candidates plan and implement developmentally appropriate and challenging learning experiences within environments that consider the individual strengths and needs of children in the K-5 classroom. It also focuses on procedures of classroom structure, behavior management, and PBIS is discussed. Field experience is required in order to complete course assignments. 4 Semester Hours.

PRM 225 Young Children in Preschool

This course focuses on early learning and development of young children during the preschool years with a focus on physical, cognitive, language, and social/emotional domains of development. An additional emphasis on understanding and valuing the important relationship with families and communities. Candidates will design instructional and assessment practices to support the development and well-being of preschool children and to foster their learning. Additionally, candidates will plan developmentally appropriate learning opportunities and environments that are healthy, respectful, supportive, and challenging for young children. Field experience is required in order to complete course assignments. 4 Semester Hours. Prerequisite: EDU 150

PRM 270 Practicum I - Primary

This practicum is designed for teacher candidates seeking a primary teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, volunteering at after school activities, and basic teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: EDU 150

PRM 315 Social Studies Practices and Curriculum

Candidates will explore and apply the foundational concepts and practices within Civics, Economics, Geography, and History using a framework of informed inquiry. Candidates will demonstrate and apply social studies content using a variety of instructional practices and assessments that support the learning of every child in a primary classroom. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

PRM 320 Mathematics Practices and Curriculum

This course includes an exploration of major mathematics concepts, algorithms, procedures, applications and mathematical practices in varied contexts and connections with and among mathematical domains. Candidates will demonstrate and apply this content using a variety of instructional mathematical practices and assessments that support the learning of every child in a primary classroom. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

PRM 325 English Language Arts Practices and Curriculum

This course explores theories of reading and writing development. Attention is given to issues, purpose, materials, and processes for teaching reading and writing skills and strategies. Candidates demonstrate and apply an understanding of the elements of literacy critical for purposeful oral, print, and digital communication. Candidates use a variety of instructional reading and writing practices and assessments that support the learning of every child in a primary classroom. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

PRM 335 Scientific Practices and Curriculum

This course includes an exploration of the three dimensions of science and engineering practices, cross-cutting concepts, and major disciplinary core ideas, within the major content areas of science. Candidates will demonstrate and apply this content using a variety of instructional scientific practices and assessments that support the learning of every child in a primary classroom. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

PRM 370 Practicum II - Primary

This practicum is designed for teacher candidates seeking a primary teaching license. The candidate assumes responsibilities of completing various field-based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: PRM 270

PRM 375 Practicum III - Primary

This practicum is designed for teacher candidates seeking a primary teaching license. The candidate assumes responsibilities of completing various-field based activities such as assisting students and teachers in the classroom, practicing classroom management strategies, and multiple planning and teaching opportunities aligned to their courses. The course is graded S/U. Credit: 1 Semester Hour Prerequisite: PRM 370

PRM 440 English Language Arts Assessment in the Primary Classroom

This course explores assessment and the role it plays in instructional decision making in language arts including reading and writing. Using various types of assessments candidates assess students, plan reading and writing instruction based on assessment data, remediate, and determine the impact on student learning. Field experience is required in order to complete course assignments. Prerequisite: Admission into the Teacher Education Program. 4 Semester Hours.

PRM 460 Preclinical Practice - Primary

During the preclinical experience, candidates will plan effective instruction, and design classroom contexts for learning in a P-5 grade level setting. Candidates plan learning activities to promote a full range of competencies for each student to address learners' diversity. Candidates promote reflective self-study and professional learning. Preclinical requires a minimum of 100 clock hours in the field. This course is graded S/U. Prerequisite: Admission into the Teacher Education Program. 4 semester hours.

PRM 470 Clinical Practice- Primary

During the clinical experience, candidates assume all responsibilities of teaching in a P-5 grade level setting. Candidates make informed decisions about instruction guided by knowledge of students and assessment of student learning. Candidates differentiate instructional materials and activities to address learners' diversity. Candidates work collaboratively with supervisors, mentors, and other school personnel to work toward common goals that directly influence every learner's development and growth. Group seminars to enable collaboration, evaluation, and reflection are required. This course is graded S/U. Prerequisite: Admission into Clinical Practice. 14 semester hours.

Engineering

Biomedical Engineering

BME 210 Biomaterials I

The study of materials (synthetic and natural) that are used in contact with biological systems. Essential introductory knowledge about Biomaterials selection, design, limitations imposed by the technology, and host environment will be presented. The first part of the course will provide an overview of materials formation, structure, and properties. The second part will discuss bio-molecules' structure, synthesis, and function. The third part will discuss the concepts of biocompatibility and host-immune response. Subsequently, the properties and performance of metals, ceramics, and polymers will be discussed and evaluated for biomedical use. This course has a laboratory component. Prerequisite: CHE 120N, BIO 140N, and EGE 240 (CHE 120N and EGE 240 may be taken concurrently). 2 Semester Hours.

BME 310 Biomechanics

This course involves the analysis and design of musculoskeletal systems. Basic principles of mechanics, stress, strain, tensor analysis, and elastic solids will be applied to analyze structural and material properties of biological tissues such as skin, tendon, ligament, bone and cartilage. The same mechanical principles will also be applied to the design of medical devices and bioengineered tissues. This course has a laboratory component. Prerequisite: BME 210, EGE 240, and BIO 210 (BIO 210 may be taken concurrently). 4 Semester Hours.

BME 320 Biomedical Instrumentation

This course involves the application and design of hardware and instrumentation needed to measure variables from different biological and physiological systems. Electrodes, sensors, transducers, and bioelectric amplifiers will be used for measurement of ECG, EEG, EMG, respiratory system, and nervous system. The first part of the course will provide an overview of electrical safety and hardware for measurement. The second part will discuss clinical laboratory instruments, computers in biomedical instrumentation. This course has a laboratory component. Prerequisites: PHY 230, BIO 210, MTH 333. 4 Semester Hours.

Computer Engineering

CPE 222 Operating Systems Concepts

A fundamental overview of operating systems, operating system structures, processes, process synchronization, deadlocks, CPU scheduling, memory management, file systems, and secondary storage management. Requires substantial programming projects. Prerequisite: CSC 120. 2 semester hours.

CPE 334 Advanced Digital Systems Design

This course is the continuation of EEE 234: Digital System Design using advanced techniques in the design of digital systems. It extends the study of digital systems design into implementation of two- and multi-level logic optimization, timing in combinational and sequential circuits, EDA tools, programmable logic devices and Field Programmable Gate Arrays (FPGAs). It also covers the introduction to simulation and synthesis of digital systems using Verilog hardware description languages (VHDL). Prerequisites: EEE 234, EEE 331. 2 Semester Hours.

Civil Engineering

ECE 230 Construction Materials

Introduction to the behavior and properties of various civil engineering materials. Topics include introduction to mechanical behavior and properties of metals, aggregates, cement, design of Portland cement concrete and asphalt concrete, and introduction to materials testing. Prerequisites: CHE 120N. 2 Semester Hours.

ECE 310 Engineering Surveying

This course presents the theory and practice of land surveying including observing distances, elevations, and angles; analysis of errors in surveying measurements; computations of irregular areas; circular and parabolic curves; and Earth-work estimates. It also includes computer applications, photogrammetry, geographic information systems (GIS) and global positioning systems (GPS) technologies. This course has a laboratory component. Prerequisites: EGE 130 and MTH 142. 2 Semester Hours.

ECE 320 Transportation Engineering and Traffic Analysis

This course presents an introduction to highway engineering and traffic analysis including road vehicle performance involving tractive effort, resistances, and principles of braking; geometric design of highways considering horizontal and vertical alignments; pavement analysis and design of rigid and flexible pavements; fundamentals of traffic flow and queuing theory; and highway capacity and level-of-service analysis. Prerequisites: EGE 210 and ECE 310 (ECE 310 may be taken concurrently). 2 Semester Hours.

ECE 330 Environmental Engineering

This course provides an introduction to environmental engineering. The emphasis will be on introducing students to the fundamental science and principles of environmental engineering. These principles are applied to solve environmental engineering problems, including the design of unit processes in engineered systems and modeling of pollutants in natural systems. This course has a laboratory component. Prerequisites: CHE 120N and EGE 220. 4 Semester Hours.

ECE 340 Structural Analysis

This course presents an introduction to structural analysis of statically determinate and indeterminate structures including shear and moment diagrams, influence lines, and deflection calculations using force-displacement methods. Students will determine structural loads, and the use of commercially available software to analyze trusses and frames. Prerequisite: EGE 240. 4 semester hours.

ECE 350 Geotechnical Engineering

This course provides students with theoretical background in soil mechanics as applied to civil engineering design. Students will learn how the soil history affects engineering properties such as bearing capacity. They will learn how to classify soil and determine internal stresses. The laboratory component provides students with the opportunity to apply their theoretical knowledge to standard soil testing techniques. There is a design project associated with this course. This course consists of three lecture hours and one three-hour lab session per week. Prerequisites: EGE 240. 4 semester hours.

ECE 360 Water Resource Engineering

This course provides students with theoretical background in closed-conduit hydraulics, open channel hydraulics, and hydrology applied to civil engineering design. This course introduces students to a) the quantification of water flows in the hydrologic cycle, b) the design of simple water distribution networks, and c) the principles of uniform and gradually varied open channel flow. There is a design project and a two hour lab associated with this course. Prerequisite: EGE 220. 4 Semester Hours.

ECE 370 Construction Engineering and Management

A study of the planning, administration, management, and cost of construction projects and an introduction to the methodology utilized in executing specified designs. Emphasis is placed on organization of construction firms, development of construction documents, theory of estimating and quantity take-off, contractual and management systems, scheduling, project administration,

and inspection of construction operations. There is a 2-hour lab associated with this course that covers construction documents. Prerequisites: EGE 130 and EGE 210. 4 semester hours.

ECE 420 Structural Design

This course provides students with the principles to design structures, using applicable design codes. Students will learn to determine structural loads, design steel members (tension, compression, beams, and frames), as well as simple steel connections. Students will also understand the properties of concrete and how to design reinforced concrete beams, columns, one-way slabs, and retaining walls. Students will mold and strength test concrete specimens. Structural engineering software will be used to reinforce the analysis and design principles. Prerequisites ECE 340 and MTH 333. 4 Semester Hours.

ECE 440 Sustainable Infrastructure Design

This course will combine knowledge from previous civil engineering courses with the addition of sustainable design principles. Students will design a civil engineering structure that conforms to client requirements, local codes, and best practices in engineering. There will be a final design report and presentation. Prerequisites: ECE 330 and ECE 360. 2 Semester Hours.

ECE 460 Geotechnical Engineering Design

In this course students will apply knowledge of geotechnical engineering theory to the design of foundations and retaining walls. Use knowledge of shear strength, bearing capacity, and lateral earth pressures in their designs. Design topics discussed will include both shallow and deep foundation design along with wall and geotextile design. Prerequisite: ECE 350. 2 Semester Hours.

ECE 470 Construction Methods and Equipment

This course aims to help students gain an understanding of the methodologies used in heavy and building construction with an emphasis on equipment selection, productivity, concrete formwork design, and building systems. Prerequisites: ECE 340 and ECE 370. 2 semester hours.

ECE 480 Civil Engineering Capstone I

This course involves the study and investigation of an open-ended problem in the field of Civil Engineering. The emphasis of this course is on independent learning, literature search and identification of viable solutions for the defined problem. This course is the first component of the Senior Culminating Experience requirement. Prerequisites: ECE 330, ECE 340, ECE 350 and ECE 360. 2 Semester Hours.

ECE 490 Civil Engineering Capstone II

This course is a continuation of ECE 480 with an emphasis on the execution of the design identified for solving the problem introduced in ECE 480. The emphasis of this course is on data collection, analysis, and justification of the most viable solution for the defined problem. This includes providing detailed design calculations and engineering drawings in addition to incorporating engineering standards and realistic constraints that include economic, environmental, sustainability, manufacturability, ethical, health, social, and political considerations. This course is the second and final component of the Senior Culminating Experience requirement for Civil Engineering students. Prerequisite: ECE 480 with a grade of C or better. 4 Semester Hours.

Electrical Engineering

EEE 209 Electrical and Computer Engineering Tools

Introduction to electrical and computer engineering tools, both hardware and software. Students will be taught engineering practice through hands-on projects involving assembling and testing hardware systems. Course will introduce modern computer tools used for circuit analysis, signal and system analysis, control, and data acquisition. Tutorial on several software packages needed for successful practice such as MATLAB, LabView, PSPICE, and Electronic Workbench will be presented. Prerequisite: EGE 110. 2 semester hours.

EEE 221 Electrical Circuits Analysis I

Introduction to fundamental concepts and applications of electrical engineering. Theory, analysis, and design of DC resistive circuits, R, L, and C circuits, using Ohm's and Kirchhoff's laws. Students will study circuit and network analysis techniques such as nodal, mesh, superposition, Thevenin, and Norton Theorem. Students will learn the natural and step responses of circuits and the applications of operational amplifiers. This course has a laboratory component.

Prerequisites: PHY 102, MTH 142, EGE 120 (PHY 102 and MTH 142 may be taken concurrently). 4 semester hours.

EEE 222 Electrical Circuits Analysis II

Continuation of EEE 221. Introduction to AC circuits analysis and design including sinusoidal sources and phasors, balanced and unbalanced three-phase circuits, and AC steady-state. AC circuit analysis in the s-domain, frequency response, magnetically-coupled circuits, mutual inductance, transformers, series and parallel resonance circuits and passive two-port networks. Prerequisite: EEE 221. 2 semester hours.

EEE 234 Digital System Design

Overview of digital computer system and computer engineering design including number systems, Boolean algebra, logic gates, combinational circuits, decoders, multiplexers, adders, sequential logic, flip flops and programmable logic devices. The design and operation of digital computer sub-systems such as ALU, memory, and I/O. Introduction to assembly language programming. This course has a laboratory component. Prerequisite: EEE 221. 4 semester hours.

EEE 239 Engineering Electromagnetics

This course provides the students with an introduction to Electromagnetic field and wave fundamentals and their engineering applications. It will include an overview of electrostatic fields, magnetostatics fields, Gauss's law for electric and magnetic field, vector potential functions, magnetic polarization, induction and energy. The course will also include fundamental laws in time varying fields such as electromagnetic fields. Gauss's, Faraday's, Ampere's, and Biot-Savart's laws, Maxwell's equations for time-varying fields, wave solutions in free space, dielectrics and conducting media, transmission line systems, time- and frequency-domain analysis of transmission line circuits and their engineering applications will be addressed. Prerequisites: EEE 221, MTH 142. 4 semester hours.

EEE 325 Engineering Electronics I

This course is an introduction to electronic circuits analysis and design. It introduces the students to the fundamental concepts in electronics, including Diode, BJT and FET Circuits, photodetectors, design using ideal operational amplifiers, feedback, frequency response, device biasing, current sources and mirrors, small-signal analysis, and design of operational amplifiers. The lectures are accompanied by practical lab experiments. Prerequisites: PHY 102, EEE 221. 4 Semester Hours.

EEE 326 Engineering Electronics II

This course is a continuation of EEE 325. It introduces students to the analysis and design of wide-band transistor amplifier, RF filters, RF Tuned amplifiers, power amplifiers, thermal management systems, RF oscillators, frequency response, feedback principles, stability, analog integrated circuits, and applications. It prepares students for engineering practice through analysis and design experiences involving electronic circuits using both analytic and computer-based processes. Prerequisites: EEE 325. 2 Semester Hours.

EEE 331 Signals and Systems

This course introduces the students to the mathematical analysis of signals and systems in time and frequency domains. It develops the analytical tools and techniques needed for the design and analysis of discrete-time and continuous-time linear systems, using differential equations, convolution, Fourier series, Fourier transforms, Z-transforms, Unilateral and bilateral Laplace transforms, frequency response, Bode plots, and filter design. It also introduces students to sampling theorem and digital signal processing. Prerequisites: MTH 333. 4 Semester Hours.

EEE 338 Electric Power Principles

This course introduces and explains the fundamentals of electrical power systems design and analysis. It begins with the principles of electrical and electromechanical energy conversion, three-phase circuits, transformers, DC machines, induction, and synchronous machines, as well as transmission line modeling and parameter descriptions and their calculations. It culminates by introducing alternative energy systems such as wind and solar electric, geothermal and small-scale hydroelectric generation. Prerequisites: EEE 239, EEE 325. 4 Semester Hours.

Engineering (General)

EGE 110 Introduction to the Engineering Profession

A highly interactive seminar style course that explores all aspects of the engineering profession, including engineering disciplines, challenges, education, and employment; creativity and design; and the professional responsibilities of engineers. Student teams make presentations that discuss the relevance of course topics to current events. 2 Semester Hours.

EGE 120 Introduction to Engineering Design

A hands-on introduction to the practice of engineering. Students will work in teams to implement the engineering design process through a semester-long design project. This course has a strong focus on developing verbal and written communication skills. Prerequisites: EGE 110 and MTH 140 (MTH 140 may be taken concurrently). 2 Semester Hours.

EGE 130 Computer-Aided Design

This course will introduce concepts of engineering graphics and the use of computer-aided design software to represent and design products in two- and three-dimensions. 2 semester hours.

EGE 210 Statics and Dynamics

The study of force systems in two and three dimensions to explore the principles of equilibrium applied to various bodies and simple structures, and the kinematics and kinetics of plane motion of particles. The principles of work and energy and impulse and momentum are also introduced. Course makes extensive use of vector methods. This course has a laboratory component.

Prerequisites: EGE 120, MTH 141 with a grade of C- or better, PHY 101, and MTH 142. (MTH 142 may be taken concurrently). 4 Semester Hours.

EGE 220 Thermodynamics and Fluid Mechanics I

This course is an equal balance between Thermodynamics and Fluid Mechanics. Thermodynamics concepts covered are basic concepts, ideal gas, internal energy, enthalpy, evaluating properties and the first law applied to control mass and control volume systems. Fluid Mechanics concepts covered are fluid measurement, hydrostatics, integral relations-conservation of mass, momentum and energy, Bernoulli equation and viscous flow in pipes. 200 minutes of lecture and one 110 minute lab per week. Prerequisites MTH 142, CHE 120N and EGE 210. 4 Semester Hours.

EGE 240 Mechanics of Materials

Introduction to the behavior of materials, including stress-strain diagram, Hooke's law, principal stresses and strains, Mohr's circle, strain gauges, determination of stresses and deformations in statically determinate and indeterminate members subjected to axial loading, torsion, and bending. Stress analysis of components under general loading are also presented in this course. This course has a laboratory component. Prerequisite: EGE 210. 4 Semester Hours.

EGE 310 Product Design and Development

This course presents interdisciplinary content from business and engineering with an emphasis on the process of product development. The steps in the product development process are presented to give shape to a design idea to make a commercially viable product. Student teams will design a product, construct an Alpha prototype and present the prototype with a business case in support of the product. Prerequisites: EGE 120 and Junior standing and either MGT 495 or ECE 370. 4 Semester Hours.

EGE 320G Global Engineering

This course provides students with the theory and field experience to be successful global engineers. Through course instruction, students will acquire the knowledge, ability, and predisposition to work effectively with people who define and solve problems differently than they do. The field experience component of this course provides students with the opportunity to experience engineering within another culture and will require international travel. This experience is intended to provide students a depth of understanding that would be difficult to replicate here at home. Additional fee applies to this course. Prerequisites: EGE 120 and World Language Proficiency. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

EGE 440 Introduction to Finite Element Analysis

This course introduces the methodology of finite element modeling and analysis. Topics include selection of elements, use of symmetry, plane stress, plane strain, and isoperimetric formulation. This course will make extensive use of ANSYS for finite element analysis. Prerequisite: EGE 240. 2 Semester Hours.

EGE 450 Fatigue and Fracture Mechanics

This course involves the study of low cycle fatigue, high cycle fatigue and fracture mechanics. The emphasis of the course content will be on the incorporation of fatigue and fracture considerations in engineering design to ensure structural integrity. Topics of study include crack initiation, crack growth, notch effects, stress-based fatigue and strain-based fatigue. Prerequisite: EGE 240. 2 Semester Hours.

Mechanical Engineering

EME 230 Material Science

Introduction to the structure, processing, properties, and performance of engineering materials including metals and polymers. Prerequisite: CHE 120N. 2 Semester Hours.

EME 310 Kinematics and Dynamics of Machinery

This course involves the study of the synthesis and analysis required for the design of mechanical systems. The core content is based on the kinematic and kinetic analysis of rigid bodies and the application of this analysis to commonly used devices and products. This course introduces computer aided engineering (CAE) for the analysis of mechanisms. Prerequisite: EGE 210. 4 Semester Hours.

EME 320 Thermodynamics and Fluid Mechanics II

This course is a continuation of Thermodynamics and Fluid Mechanics I. Thermodynamics concepts covered are second law, entropy, exergy, power cycles – rankine, otto, diesel, brayton, refrigeration, psychrometry and reaction thermodynamics. Fluid Mechanics concepts covered are flow past immersed bodies, similarity analysis, differential analysis – total acceleration, continuity, navier-stokes and turbomachines. 200 minutes of lecture and one 110 minutes of lab per week. Lab includes experiments and computer simulations to compliment the lectures. Prerequisites: MTH 333 and EGE 220. 4 Semester Hours.

EME 330 Design of Machine Elements

This course provides students with the theoretical background required for designing components and systems that need to withstand static as well as cyclic loading. The principles of design are applied to multiple elements that are commonly used in Mechanical Engineering. This course introduces students to the application of finite element analysis and the principles of probabilistic design for designing machine elements, parts and systems. Prerequisite: EGE 240. 4 Semester Hours.

EME 350 Manufacturing Science

This course involves the study of topics in manufacturing science for the understanding of manufacturing systems and processes. Topics of study will include manufacturing methods for metal processing and cutting, additive manufacturing, and exposure to polymers and ceramics. This course has a laboratory component. Prerequisites EGE 240 and EME 230. 2 Semester Hours.

EME 410 Control of Dynamic Systems

This course involves the study of analysis and design of control systems for mechanical, electrical and electro-mechanical systems. The core content of this course involves mathematical modeling of dynamic systems and subsequent analysis in time domain and frequency domain. This course introduces concepts of state space design and digital control. Extensive usage of computing tools for simulation of control systems is also integrated into the course content. Required laboratory in dynamic systems provides hands-on experience with dynamic system equipment, instrumentation, control and analysis. Prerequisites: EME 310 and MTH 333. 4 Semester Hours.

EME 420 Mechanical Vibrations

This course involves the study of mathematical modeling for the analysis of dynamic systems. Systems with one degree-of-freedom and multiple degrees-of-freedom are covered with specific focus on mechanical vibrations. Topics of study include vibration isolation and control, damping, harmonic excitation, periodic and non-periodic excitation and modal analysis. An introduction to laboratory equipment and measurement for modal analysis of vibrations. Prerequisites EME 310 and MTH 333. 4 Semester Hours.

EME 430 Heat Transfer

This course covers the basic modes of heat transfer, steady heat conduction, extended surface heat transfer, transient heat conduction, computational methods, forced and free convection, boiling and condensation, heat exchangers, thermal radiation and a thermal systems design project. 200 minutes of lecture and one 110 minute lab per week. Lab includes experiments and computer simulations to compliment the lectures. Prerequisite EME 320. 4 Semester Hours.

EME 440 Power Plant Engineering

Analysis of thermodynamic cycles, environmental, and economic considerations that affect the design and performance of modern fossil fuel based power plants; overview of power generation system and its components, including boilers, turbines, circulating water systems, and condensate-feedwater systems; fuels and combustion; gas turbine and combined cycles. Exposure to nuclear power plants and alternative energy systems based on geothermal, solar, wind, and ocean energy. Prerequisite: EME 430 or Instructor's permission. 2 Semester Hours.

EME 445 Sustainable Energy Practices

This course presents an overview of systems that generate energy from renewable resources. The focus is on wind, solar, geothermal, nuclear, and tidal energy generation systems. These methods are contrasted with the traditional fossil fuel-based power plants. Technical, environmental, and economic challenges of energy generation are considered using case studies. Energy utilization in buildings is examined using CFD tools to emphasize methods for minimizing energy waste. Students are exposed to contemporary initiatives in green industries. Student teams design energy generation or recovery systems. Prerequisites: EME 430 or Instructor's permission. 2 Semester Hours.

EME 460 Introduction to Robotics

This course involves the study of kinematics, dynamics and control of robotic manipulators. Topics of study include path and trajectory planning, independent joint control and current topics in the application and research of robot modeling and control. This course will also introduce students to Programmable Logic Controller (PLC) programming that is commonly used in the industry. Prerequisite: EME 310. 2 Semester Hours.

EME 470 Probabilistic Design and Reliability

This course involves the study of probabilistic techniques in product and system design. The focus of this course will be on the design of Mechanical Engineering components, but the principles of probabilistic design can be applied to other systems as well. This course also introduces concepts in statistical quality control, robust design, design of experiments and product reliability. Prerequisite: EME 330. 2 Semester Hours.

EME 480 Mechanical Engineering Capstone I

This course involves the study and investigation of an open-ended problem in the field of Mechanical Engineering. The emphasis of this course is on independent learning, literature search and identification of viable solutions for the defined problem. This course is the first component of the Senior Culminating Experience requirement. Prerequisites: EME 320 and EME 330. 2 Semester Hours.

EME 490 Mechanical Engineering Capstone II

This course is a continuation of EME 480 with an emphasis on the execution of the design identified for solving the problem introduced in EME 480. Analysis as well as experimentation and data collection will be required to support the identified design. This course is the second and final component of the Senior Culminating Experience requirement for Mechanical Engineering students. Prerequisites: EME 480 with a grade of C or better. 4 Semester Hours.

English

ENG 130 Introduction to Poetry

An introduction to the nature and function of poetry as a literary genre. Emphasis will be placed on recognizing and understanding patterns of cultural, ethical and aesthetic experience as these are reflected in a variety of poems by a diverse range of authors. 4 Semester Hours.

ENG 135 Introduction to Fiction

An introduction to the study of fiction through the analysis and interpretation of representative examples. A thematic focus may be used to provide a basis for comparing writing from diverse periods and places. 4 Semester Hours.

ENG 150H True Lies: Introduction to the Literary Imagination

What distinguishes literature from other kinds of writing? How is it that fictional works reveal deep truths about our lives and the world around us? Why is it that, across time and across cultures, institutions and those in power frequently fear the power of literature and seek to silence its voices? To answer these and other questions, you will be introduced to readings in a variety of literary forms, from drama composed in ancient times to today's detective stories and cyberfiction. You will also become familiar with some of the important assumptions, questions, and debates typical of the dynamic and ever-evolving field of English studies. Instruction in close reading, critical thinking and persuasive writing will provide a foundation for understanding and exploring the humanities. 4 Semester Hours.

ENG 210 Children's Literature

A course exploring the scope, importance and content of literature for children. Students will be exposed to the techniques of evaluation and methods of presenting and studying literature with children. Priority is given to students seeking licensure in inclusive early childhood education. 4 Semester Hours.

ENG 215V Young Adult Literature

Young adult literature speaks to readers conflicted with fitting in and standing out. It provides multiple lenses for young people ages 10-19 to explore identity, responsibility, censorship, and morality while promoting literacy to an age group prone to rejecting reading. In this course, we will examine YA literature as readers, educators, and critical and creative thinkers to expand our perspectives and self-awareness. We will also work to understand this literature in relation to other forms of literature students may read, study, or teach later in life. We'll use YA literature in a variety of formats: audio books, graphic novels, traditional novels, and short stories as well as poetry to reflect, analyze, create projects, and to value reading for more than measurable skills. By doing so, we'll move beyond the boundaries of the classroom. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 220 Careers in English and Writing

This course is intended for first and second-year students interested in majoring or minoring in English or Writing. In this course, students will discover and research the kinds of careers and professional occupations available to students studying writing and English. Students will also develop awareness of the skills and abilities developed and reinforced through English and writing courses and learn about the beneficial role that these skills and abilities play in the larger culture and professional workplace. There is an experiential component to this course. 2 Semester Hours.

ENG 240H Popular Literature

This course is designed to provide scholarly background to genres that have gained wide readership in various historical periods. The focus of the course will alternate each time it is taught, with possible topics including gothic fiction, science fiction, detective fiction, graphic novels, and fantasy genres. In each case, students will be provided with historical background and critical strategies for approaching these popular genres. This course is especially suitable for students who have a particular interest and/or strength in English, as it is the more advanced of the entry-level English courses that serve as both requirements for the English major/minor and Humanities Foundations courses in the IC. 4 semester hours.

ENG 260 British Literature I

An introduction to British literature from its beginnings in the Anglo-Saxon period through the High Middle Ages, the Early Modern (or Renaissance) period, to the Restoration and Eighteenth Century. All readings will be considered in a literary and

historical context in order to produce an understanding of the historical, cultural and philosophical influences that shape texts. Reaching into the literature of the past will force us to ask questions about our positions as readers, about the ideas and literary genres that define each of these periods, about different values and perspectives, and about the political, social, and religious assumptions that characterize earlier eras. What changes and what remains constant? How do Beowulf and Lemuel Gulliver compare with each other and what do they have to say to us? Prerequisite: ENG 150H, or First-Year Seminar. 4 Semester Hours.

ENG 265G British Literature II

This course examines the literature and culture of Britain from the “Age of Revolution” beginning in the 1700s through the Victorian age and up to the present day. Students will explore the ways in which writers contributed to and critiqued dramatic historical changes of the period, including the rise of modern democracy, modern technology, modern warfare, and modern psychology as well as the apex and demise of the largest empire in history. Along the way, students will also trace the development of the period’s major cultural movements, including Neoclassicism, Romanticism, the Gothic, Realism, Naturalism, Decadence, Modernism, and Postmodernism. Prerequisite: ENG 150H, or First-Year Seminar. 4 Semester Hours.

ENG 270 American Literature I

An introduction to the breadth and depth of literature in the Americas from the earliest period of “discovery,” exploration and encounter in the New World of the 16th and 17th centuries, the evolution of an Atlantic world in the 18th century, continuing through the 19th century with emergence and coming of age of a distinctive American literary tradition culminating in the Civil War. Prerequisite: ENG 150H, or First-Year Seminar. 4 Semester Hours.

ENG 275 American Literature II

This course offers an introduction to the rich variety of literature written in this country from the conclusion of the Civil War to the present. Though much of the emphasis in the course will be placed on an understanding of American literature as a “living tradition,” we’ll also carefully explore the major trends and movements that help define the period, with close attention paid to realism, modernism and postmodernism. We will also examine how Native American, African American and immigrant voices have complicated and enriched our understanding of a unified “American” literature. Prerequisite: ENG 150H, or First-Year Seminar. 4 Semester Hours.

ENG 305G Global Anglophone Literature

An exploration of literatures written in English by authors originating from English speaking nations other than Great Britain and the United States of America. The course may be comparative and may be organized according to region (the Caribbean, South Asia, or North Africa), nation (South Africa, India, or Australia), or continent (Africa). It may focus on specific historical moments or phenomena such as South African apartheid, Indian partition, Pan-Africanism, or, issues such as the development of English as global language(s), hybridity and identity, or de-colonization and modernity. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 310G Africana Literature

A comprehensive examination of literatures produced by people of African origin, both in Africa and in the African diaspora. The course is comparative and may be organized according to region (the Caribbean, the Black Atlantic), nation (Great Britain, Brazil, the United States of America, Canada) or continent (Africa, North America); specific historical events such as the Atlantic Slave Trade, South African apartheid, Black Power and the Black Arts movements; or themes such as negritude, Pan-Africanism, or womanism. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 315G Native American Literature

This course will focus on the literature of Native Americans which is not covered by traditional genre and survey courses. It will deal with the distinctive geographical settings, nationalities, social concerns and political issues related to the Native American experience. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. 4 Semester Hours.

ENG 320G Irish Literature and Culture

This course brings together fiction, poetry, drama, and film with a focus on the dramatic last century of Irish history. Like our own history, it is a period marked by the idealism of a revolutionary war against the British Empire and the trauma of a bloody civil war. Unlike our own history, it also includes partition of the island into two countries and the deployment of British troops within recent memory. Do bad times make for good art? Does art record the story of a nation or create it? Where does true liberation begin and end? These are some of the questions this course raises through the extraordinary array of poets and storytellers that emerged from Ireland during this period, a list that includes several winners of the Nobel Prize and the leaders of international movements in art. Choosing from this abundance of influential figures—including Yeats, Joyce, Synge, Bowen, Beckett, Heaney, Boland, and many more—the course explores the power of great stories and places these stories in both national and transnational contexts, including those of post-colonialism, feminism, and modernism. Prerequisite: ENG 150H, or Junior-level standing or

above, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 330V Literature to Film

This course explores literature and film together, tracing the many ways that literary works have been transformed for the screen as well as the cultural impact of such transformations. Students will read films with the same attention scholars pay to the written word, learning to recognize and analyze the techniques used in both mediums. Since films often seek to adapt literature for a different audience, the impact of historical/cultural context will be one major source of research and discussion while the differing artistic visions of authors and filmmakers will be another. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 335 Literature and Human Rights

Words can change the world. Stories can move readers to action. This course inquires into the many ways in which the written word has helped promote human rights across the globe. We will look deeply into how literature fosters imaginative empathy for fellow world citizens, and how it can lead readers to take social and political action. The course will introduce students to human rights theory and will address the literary and ethical challenges that accompany the representation of the suffering of others. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. 4 Semester Hours.

ENG 340 Modernism and Postmodernism

Modernism and postmodernism remain two of the most influential movements in both British and American literature, yet they are also global movements, with a reach that extends far beyond British and American shores. As influential as these movements are, that fact is that both are still poorly understood and often unfairly maligned. This course will examine both modernism and postmodernism in a variety of national contexts. Taking this course will help you make sense of the modern and the postmodern and will enrich your appreciation of the various local and national inflections these two movements have taken on. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. 4 Semester Hours.

ENG 345V Gender Issues in Literature and Culture

An exploration of gender issues in literature and the many ways that these issues impact writers (who writes and what do they write about?); readers (who reads, what do they read, and how do they understand texts?); and the texts themselves (what cultural perspectives and attitudes do the texts reflect and contribute to?). A range of theoretical approaches will also be examined and discussed. The focus and range of literature will vary from semester to semester, but some of the particular issues that may be addressed are questions of cultural attitudes and assumptions toward men and women, literacy and education, gender and class considerations, the masculine literary tradition of Western Europe and its effect on women writers and readers, feminism and feminist theory, theories of gender and gender identity. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENG 350 Introduction to Linguistics

An introduction to linguistics—the scientific study of language. Through an exploration of the subsystems of languages (phonetics, phonology, morphology, syntax, semantics, pragmatics), the contributions of current theoretical approaches which examine how language is learned and processed, and the social aspects of language (language varieties, identities, communication) change over time and related topics of language acquisition (human and nonhuman communication), sign languages, language varieties (dialects of a language), and historical change. 4 Semester Hours.

ENG 355 History of the English Language

A study of the development of the English language from its roots in Proto-Indo-European, through its earliest written records and the three traditional historical phases—Old English, Middle English, and Modern English—into its present forms, the various Englishes that are spread across the globe. This study will examine lexical, semantic, morphological, syntactic, and phonological change as well as explore the intersections between language, literature, and culture. 4 Semester Hours.

ENG 360 Critical Theory and Practice

An advanced introduction to critical and literary theories through the reading of primary texts. Emphasis will be placed on contemporary critical practices beyond what has been introduced in ENG 150H. Attention will be devoted to the history of literary criticism particularly as it informs current literary theory. Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. 4 Semester Hours.

ENG 400 Reading in Depth

Readings focus on a particular author or authors, genre, or topics— historical or cultural -- not provided in the regular departmental curriculum. Examples might include but are not limited to: “19th Century British and American Women Writers”; “Edgar Allen Poe and the Invention of Detective Fiction”; “The Short Fiction of Henry James”; “Leaves of Grass”; “American Travel Narrative(s)”; and “The Graphic Novel.” Prerequisite: ENG 150H, or Junior-level standing or above, or permission of the instructor. 2 Semester Hours.

ENG 410 Major Authors

A study of representative works by one, two, or three authors who have made important contributions to English, American, or world literature[s]. This course allows students the opportunity for in-depth study of a specific body of work. The schedule of classes will indicate which authors will be studied. Prerequisites: ENG 150H and Junior or Senior standing. 4 Semester Hours.

ENG 425 Theory and Methods

This Spring course is required for English majors planning to enroll in ENG 450, the English SCE, for the following Fall semester. This course prepares students for success in their SCE by familiarizing them with contemporary literary theory and research methods, by guiding them through the selection of promising SCE thesis topics, and by providing them with advanced instruction in the writing and presentation techniques required for an extended thesis project. The course will culminate in the production and presentation of each student’s SCE proposal, including a literature review. Prerequisite: ENG 150H and Junior standing. 2 Semester Hours.

ENG 450 Senior Seminar

A conference course for senior English majors, focusing on the research and development to revise a class project into a senior capstone presentation. The emphasis will be on independent research, writing and professionalization. Students will refine a project (from an earlier English class or a concurrent English class) and present it in both written and oral modes. Subject matter and approaches may vary, depending on the student’s interests, background and goals. Prerequisites: ENG 150H and senior standing. Juniors with outstanding performance in the major may take this course with the permission of the instructor. 2 Semester Hours.

ENG 490 Independent Study

Open to senior English majors who wish to pursue a topic related to the study of language or literature. Study may be taken on an interdepartmental basis with permission of the departments involved. A prospectus and preliminary bibliography of the project must be submitted for departmental approval prior to registration. 1-4 Semester Hours.

ENG 499 Internship

Through the cooperation of agencies and business in the vicinity of the University, students are provided with a significant learning experience outside of the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. The basis of determining the grade for the program will be given in the contract and will include an evaluation by the supervisor at the organization where the internship work is done, an assessment by the internship faculty advisor, and a written report of the internship experience submitted by the student. Prerequisites will vary with the internship. Participation is by petition to the chair of the department. Taken under Satisfactory/Unsatisfactory grade option only. Only one internship may be taken for credit but may, in certain cases, be repeated for audit. 1-12 Semester Hours.

English as a Second Language (ESL)

ESL 110 ESL Communication

A semi-intensive course designed to cover a broad range of English communication strategies. Prerequisite: Permission of the instructor. Students who take ESL courses may not apply those credits toward graduation. 4 Semester Hours.

ESL 115 ESL Reading and Writing

ESL Reading and Writing is designed for non-native speakers of English to develop academic reading and writing skills necessary for participation in university courses. Students who take ESL courses may not apply those credits toward graduation. Prerequisite: Permission of the instructor. 4 Semester Hours.

Entrepreneurship

ENT 150 Introduction to Entrepreneurship

This course will introduce the student to a process that will enable them to think and act entrepreneurially to achieve economic and social value in a variety of business situations that they may encounter during their career. During the course students will develop a basic understanding of how to identify various opportunities, assess their feasibility, and assemble the fundamental elements

required to implement their solution to a personal or business problem. They will hear from entrepreneurial-minded speakers that will reinforce the classroom work. The course is open and encouraged for all majors. 4 Semester Hours.

ENT 300 New Venture Planning

This course continues to develop ideas and opportunities from ENT 150 emphasizing the key components of the business model generation canvas to give students the ability to intelligently discuss and present their idea/opportunity with potential key partners and funding sources. This course will introduce students to the various legal issues associated with new ventures to include the various forms of a business entity. Prerequisite: ENT 150. 2 Semester Hours.

ENT 350 The Entrepreneurship Experience

The objective of this course would be to produce a business plan that the student could take to financial sources for funding. To that end students will conduct in-depth research into their chosen idea/opportunity focusing on the analysis of personnel, marketing, and financial aspects providing them the ability to discuss all aspects of their plan with expertise. Prerequisites: ENT 150 and 300. 4 Semester Hours.

ENT 499 Internship in Entrepreneurship

An experience-based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Instructor approval is required prior to registration for this course. 4 Semester Hours.

Environmental Science

ENV 190N Introduction to Environmental Science

This introductory-level course focuses on the scientific principles that underlie the functioning of the global environment. The course addresses problems related to human society and explores possibilities for alleviating these problems. The course will provide the student with knowledge of how the environment functions and understanding of the issues of scale, complexity and conflict resolution. The lab will include field trips, extended case studies and practice making environmental measurements. Three class hours and one three-hour lab per week. 4 Semester Hours.

ENV 199 Special Topics in Environmental Science

See All-University 199 course description.

ENV 210V Hydrology and Water Resources

A study of water properties, occurrence, distribution, and movement and their relationship with the environment within each phase of the hydrological cycle. The course also examines water quantity and quality issues, and water management policies. Prerequisite: BIO 141 or ENV 190 or GEO 112 or GEO 116 or consent of the instructor. Three class hours and one three-hour laboratory per week. Cross-listed as GEO 210V. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

ENV 280 Geographical Information Systems

This course introduces the practice of GIS. It is a very hands-on course and will require extensive practice using ArcGIS to illustrate both the principles and the skills involved in geographical information systems. The class will culminate with the completion of a major project. Prerequisite: Sophomore standing or consent of instructor. 4 Semester Hours. (typically offered in alternate years, fall semester)

ENV 299 Special Topics in Environmental Science

See All-University 299 course description.

ENV 350 Case Studies in Environmental Science

This course provides exposure to modern environmental issues on a local, regional and global scale. Using case studies, students will investigate both enacted and proposed solutions to environmental problems and will be required to integrate the disciplines of biology, geology, chemistry, economics, philosophy and political science, seeking to evaluate and improve these solutions. The course will also discuss complexity, scale and conflict resolution. Prerequisite: Sophomore standing. 4 Semester Hours. (typically offered spring semester)

ENV 425 Senior Culminating Experience

A two-semester research project required of all environmental science majors. Students will develop and conduct an independent scientific research project and present the results as a written report and an oral presentation. A grade of "In Progress" will be

assigned at the end of the first semester. The final grade will be entered for both semesters at the end of the second semester. Prerequisites: Permission of the instructor. 2 Semester Hours each semester for a total of 4 Semester Hours.

ENV 494 Honors Thesis/Project

See All-University course description.

ENV 499 Internships in Environmental Science

See All-University course description.

Exercise Science

EXS 100 Introduction to Exercise Science

Introduction to the field of exercise science including aspects of human performance, clinical exercise physiology and strength training and conditioning. Includes basic components of program design, training and assessment while placing the students in a variety of professional field settings. 2 Semester Hours.

EXS 110 Exercise Physiology I

The goal of this course is to introduce students to the foundational principles of exercise physiology with a particular emphasis on nutrition, metabolism, energetics, and body composition. 4 Semester Hours.

EXS 111 Exercise Physiology II

The goal of this course is to gain an understanding of system physiology and the effects of physical activity on the human body by building on EXS 110. Emphasis will be placed on cardiovascular, pulmonary, musculoskeletal, neural, and endocrine systems' responses during a rested state and to human performance of varying types and intensities. Prerequisite: EXS 110. 4 Semester Hours.

EXS 200 Sophomore Seminar: Professional Skills in Exercise Science

This course is designed to provide students with an overview of the skills necessary for professional success. A special emphasis will be placed on resume building, written and oral communication, career development, networking, research exploration and safety practices, professional conflict resolution, and social media expectations. Prerequisite: Sophomore standing or instructor approval. 1 Semester Hour.

EXS 210 Exercise Physiology Practicum

This course will allow students to develop practical skills associated with human performance testing (aerobic, anaerobic, strength, power, body composition). Students will become familiar with proper protocols and equipment used in the field of exercise science, in the roles of technician and client. Additional fee applies. Prerequisite: EXS 110; and EXS 111 which may be taken concurrently with EXS 210. 2 Semester Hours.

EXS 220 Foundations of Human Movement

A study of the science of human movement with emphasis on the structure and functioning of the movement mechanism, mechanical principles underlying human motion, and an analysis of basic motor skills. Prerequisite or concurrently: BIO 105 or BIO 210 or EXS 110. 4 Semester Hours.

EXS 230 Basic Pharmacology

This course will give the students understanding of medications commonly prescribed in the exercise science setting and commonly associated exercise responses. The student will become aware of indications, contraindications and side effects of drug therapy. Emphasis will range from drugs used for hypertension, diabetes, epilepsy, asthma, cardiac abnormalities, CVD, cardiac arrhythmias, orthopedic problems and common illnesses. Prerequisite: BIO 105 or BIO 210. 4 Semester Hours.

EXS 250 Strength Training and Conditioning

This is a four hour lecture/laboratory course covering the physiological basis of strength and cardiovascular conditioning along with the fundamentals of designing comprehensive training programs for improving human performance. Students learn the kinesiological aspects of training, cardiovascular training, plyometrics, flexibility training and sport specific training for injury prevention. Prerequisite: EXS 220. 4 Semester Hours.

EXS 251 Strength & Conditioning Practicum

This course will only be available to Exercise Science majors who are intending to make a career in the strength & conditioning field and intending to apply for the Strength & Conditioning Internship (EXS 498). This course will provide an in-depth analysis of all aspects related to strength & conditioning of athletes including training philosophy, coaching cues, movement technique analysis, motivational strategies, exercise programming and related business aspects of strength & conditioning. Pre-requisite: EXS 250. 2 Semester Hours.

EXS 260V Scholarship in Exercise Science

This course is designed to facilitate discussion of current research topics in the field of exercise science utilizing scholarly journals. Research methodology, scholarly topics and actual findings will be introduced, examined and discussed. The culmination of the course will be the design and implementation of a research study, including familiarization with and utilization of proper format for submission to a scholarly journal. Prerequisite: EXS 110 or instructor approval. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

EXS 280 Medical Terminology

Students will be introduced to medical word structures, with emphasis on word roots, prefixes, suffixes, and abbreviations while gaining an understanding of the rules for building and analyzing medical terms associated with body systems. Students will define and interpret terms relating to structure and function, pathology, diagnosis, and clinical procedures. Prerequisites: BIO 105 or BIO 210/BIO 211. 2 Semester Hours.

EXS 300 Junior Seminar: Ethics and Grant Writing

This course is meant to provide students with an overview of current ethical issues and the grant writing process as they relate to the field of exercise science. Discussions will be centered on the importance of sound ethical practices as they relate to the field of research, including informed consent and confidentiality concerns. Students will also be introduced to the process of grant writing and provided with opportunities to further develop the skills necessary to seek and apply for appropriate grants. Prerequisite: Junior standing or instructor approval. 1 Semester Hour.

EXS 320 Exercise Testing and Prescription

A study of the standards for exercise testing and prescription. An emphasis will be placed on both preventive exercise programs for apparently healthy individuals and rehabilitative programs for cardiorespiratory diseased persons. Prerequisite: EXS 210. 4 Semester Hours.

EXS 330 Cardiac Rehabilitation

An introduction to the field and business of cardiac rehabilitation. This course heavily focuses on populations at risk of having cardiac-related diseases, disorders, or episodes and how to reinstate activities of daily living post-cardiac event and secondary prevention strategies. Special attention is paid to cardiac physiology, common cardiac issues and arrhythmias, and interpretation of electrocardiograms. This course is primarily designed for those students wishing to pursue either graduate school in the field of clinical exercise physiology or those seeking employment in a hospital based rehabilitation setting. Prerequisites: EXS 110. 4 Semester Hours.

EXS 340 Corporate and Worksite Wellness

Components of administering and managing corporate and worksite fitness and wellness programs are examined. Topics covered include paradigms in health promotion, facility planning and design, program management, and legal issues. Prerequisite: Junior standing or instructor permission. 4 Semester Hours.

EXS 360 Special Populations

This course is designed to explore the role of the exercise specialist and special populations. There is an emphasis placed on working with geriatric populations and addressing issues concerning health and disease in this group. A review of physiological and psychological changes with age will be examined along with disease states such as: cancer, cardiopulmonary, obesity, Parkinson's, Alzheimer's, osteoporosis, among others. Prerequisite: EXS 320. Co-requisite: EXS 361, EXS 362, EXS 363, or EXS 365 IDE: Special Populations. 4 Semester Hours.

EXS 361 IDE: Senior Exercise

This field experience will provide students with an opportunity to design and implement appropriate fitness programs for an older-adult population with minimal health complications. Co-requisite: EXS 360 Special Populations. IDE may be completed without co-requisite if EXS 360 has been successfully completed and with Director approval. 1 Semester Hour.

EXS 362 IDE: Senior Residential

This field experience provides students with an opportunity to design and implement appropriate fitness programs for older-adult populations with minor health complications. Co-requisite: EXS 360 Special Populations. IDE may be completed without co-requisite if EXS 360 has been successfully completed and with Director approval. 1 Semester Hour.

EXS 363 IDE: Adult Exercise

This field experience provides students with an opportunity to design and implement appropriate fitness programs for apparently healthy adults. Co-requisite: EXS 360 Special Populations. IDE may be completed without co-requisite if EXS 360 has been successfully completed and with Director approval. 1 Semester Hour.

EXS 364 IDE: Healthy Campus

This field experience provides students with an opportunity to work within the University of Mount Union's corporate wellness program. Duties may include but are not limited to administering biometric and fitness assessments for faculty and staff participants and contributing original articles to the program's newsletter. Prerequisite: Co-requisite is EXS 360 (Special Populations); IDE may be completed without co-requisite if EXS 360 has been successfully completed and with Director approval. 1 Semester hour.

EXS 365 IDE: Youth and Adolescents

This field experience provides students with an opportunity to design and implement appropriate fitness programs for youth and adolescents. Co-requisite: EXS 360 Special Populations. IDE may be completed without co-requisite if EXS 360 has been successfully completed and with Director approval. 1 Semester Hour.

EXS 370 Environmental Physiology

A multidisciplinary approach to human adaptation and factors influencing human movement in diverse micro- and macro-environments. Factors considered include temperature, altitude, precipitation, under-water weightlessness, light, noise and socio-cultural. Health and safety in locomotion, rehabilitation, sport/recreation and occupational contexts are emphasized. Prerequisites: Junior standing or instructor permission. 4 Semester Hours.

EXS 380 Exercise Leadership

This course is designed to provide students with the opportunity to design and lead group exercise sessions. Students will become familiar with the development processes associated with designing a group fitness class before creating and offering their own fitness class. Pre-requisite: EXS 110 and Junior Standing. 2 Semester Hours.

EXS 381 IDE: Fitness Assistant

This field experience provides students with an opportunity to further develop skills necessary for working in a clinical setting. Emphasis will be placed on equipment orientation, program design and implementation, and tracking progress of clients. Prerequisite: EXS 380. 1 Semester Hour.

EXS 382 IDE: Sport Performance Coach

This field experience provides students with an opportunity to further develop testing skills necessary for working with athletes or athletic teams. Prerequisite: EXS 320. 1 Semester Hour.

EXS 400 Senior Seminar: Contemporary Issues

This course will introduce students to current contemporary issues as related to the field of exercise science. The class will be discussion-based, with the latest and most relevant topics in the field of exercise science and related areas as the primary focus. Senior standing or instructor approval. 1 Semester Hour.

EXS 410 Senior Comps

The objective of this course is to reinforce concepts of exercise science, human anatomy and physiology, and performance testing. The course will culminate with a comprehensive exam covering these materials. Prerequisite: EXS 360. 1 Semester Hour.

EXS 420 Senior Applied Thesis

This capstone course for applied track students allows for the incorporation of all knowledge, skills, and abilities with regards to exercise testing and prescription for various populations. Prerequisite EXS 360 and EXS 301. 4 Semester Hours.

EXS 430 Advanced Exercise Physiology

The goal of this course is to provide students with an in-depth examination of exercise physiology. Particular emphasis will be placed on physiology at the cellular and molecular level as it relates to performance, training, and adaptations. Prerequisite: Junior standing and instructor approval. 4 Semester Hours.

EXS 440 Sports Nutrition and Ergogenic Aids

The objective of this course is to begin a discussion of what sports nutrition is and proceed to an in-depth review of some of the major concepts within the field of sports nutrition and examine some of the most popular sports supplements currently available on the market. A focus will be placed on the role of nutrients as fuels, building blocks, and regulators of cellular and systemic metabolism. Prerequisites: EXS 110. 4 Semester Hours.

EXS 450 Scientific Inquiry

In this course, students engage in a deeper analysis of elements of research design, to perform and interpret descriptive statistics, to perform and interpret ANOVA, to evaluate critical features of a research journal article, integrate research findings and formulate a clinically significant research hypothesis. Prerequisites: Junior standing or instructor permission. 4 Semester Hours.

EXS 460 Lifespan Nutrition

This course will provide students with an exploration of nutrition concepts as they apply to lifetime wellness. Topics of study will include nutritional standards across the lifespan, with an emphasis on maternal-child nutrition, weight management, eating disorders, altered nutritional needs during aging, and disease treatment and prevention. Prerequisites: EXS 110 or HED 250 or permission of the instructor. 4 Semester Hours.

EXS 470 Senior Research

This capstone course for graduate track students emphasizes research design and in-depth research of a selected exercise science topic of the student's choosing. The research/presentation will count as the thesis for exercise science majors. Prerequisites: EXS 450 and Senior Standing. 4 Semester Hours.

EXS 471 IDE: Senior Research Data Collection

This course is an independent research and/or study project in which the student will collect data from a previously designed study. It is an extension of EXS 470 and is offered to students who have a desire to pursue undergraduate research in preparation for graduate-level education. Prerequisites: EXS 470. 2 Semester Hours.

EXS 481 IDE: Faculty Research Assistant

This course is an independent research and/or study project. It is offered to students who have a desire to pursue additional experience as an undergraduate researcher in preparation for graduate-level education. Prerequisites: Instructor approval. 1 Semester Hour.

EXS 482 IDE: Faculty Research Assistant II

This course is an independent research and/or study project. It is offered to students who have a desire to pursue additional experience as an undergraduate researcher in preparation for graduate-level education. Prerequisite: Instructor approval. 1 Semester Hour.

EXS 483 IDE: Faculty Research Assistant III

This course is an independent research and/or study project. It is offered to students who have a desire to pursue additional experience as an undergraduate researcher in preparation for graduate-level education. Prerequisite: Instructor approval. 1 Semester Hour.

EXS 490 Advanced Nutrition for the Health Sciences

Advanced Nutrition for the Health Sciences advances and reinforces student knowledge of scientifically-based topics including a more advanced look at digestion and metabolism of nutrients, nutritional genomics, epigenetics, clinical nutrition, and functional foods and bioactives. The course will explore issues of safety and efficacy and health claims such as those pertaining to popular diets, nutraceuticals, and how they may apply to various populations. Evidence-based nutrition practice and societal regulation of the application of this scientific evidence is also addressed. Prerequisite: A minimum of one 100-300 level course covering nutrition, digestion, or metabolism: BIO 105, BIO 211, CHE 110 or higher, EXS 110, HED 250V, or EXS 460, or instructor permission. 4 Semester Hours.

EXS 491 IDE: Laboratory Assistant

This course is an independent project. It is offered to students who have a desire to gain experience in the classroom in preparation for graduate-level education. Prerequisite: EXS 320 and instructor approval. 1 Semester Hour.

EXS 492 IDE: Laboratory Assistant II

This course is an independent project. It is offered to students who have a desire to gain experience in the classroom in preparation for graduate-level education. Prerequisite: EXS 320 and instructor approval. 1 Semester Hour.

EXS 498 Strength & Conditioning Internship

This course provides credit for an on-campus internship working with UMU's varsity athletic teams under the direct supervision of the Strength & Conditioning coaches. Prerequisite: EXS 251 and instructor approval. 1-6 Semester Hours.

EXS 499 Internship

An experience-based course in which the student spends a specified amount of time with a sport-related medical or allied health agency or organization in order to gain experience and to understand the application of exercise science. Supervision will be jointly provided by the cooperating organization and the University departmental staff. Prerequisites: Permission of the instructor. 1- 12 Semester Hours.

Finance

FIN 125 Personal Financial Planning

This course will provide a hands-on approach, keyed to the concepts students need to build their own financial plans. The course will provide an introduction to tools used for financial planning, managing liquidity, personal financing, protecting wealth and personal investing strategies. 2 Semester Hours (typically offered each semester.)

FIN 225 Retirement and Estate Planning

This course will provide an overview of retirement needs analysis, retirement options, regulatory considerations, distribution rules and estate planning strategies. Prerequisite: FIN 125. 4 Semester Hours (typically offered spring semester.)

FIN 310 Introduction to Finance

This course is intended to expose students to the breadth of Finance and to provide an understanding of the interrelationships among the three areas of finance: financial management, financial markets, and investments; and introduce students to key tools used by financial managers and investors in analysis and decision making. It will make students aware of career opportunities in Finance and acquaint them with the vocabulary of Finance. Note: A student who successfully completes FIN 320 may not subsequently earn credit for FIN 310; however, if credit is first earned in FIN 310, the student may subsequently take and receive credit for FIN 320. Prerequisites: ACC 205. 4 Semester Hours.

FIN 320 Corporate Finance I

Principles and problems in financial management of corporations: Goals and Functions of Financial Management, Financial Analysis and Planning, Time Value of Money, Valuation and Rates of Return, Ratio Analysis, Financial Forecasting, Operating and Financial Leverage; Capital Budgeting and Risk in Capital Budgeting, Capital Rationing, and Replacement Analysis. Note: A student who successfully completes FIN 320 may not subsequently earn credit for FIN 310; however, if credit is first earned in FIN 310 the student may subsequently take and receive credit for FIN 320. Prerequisites: ACC 205, or ACC 206, or with permission of the instructor. Typically offered each semester. 4 Semester Hours.

FIN 321 Corporate Finance II

A continuation of FIN 320 Including such topics as : Working Capital Management, Cost of Capital, Capital Markets, Investment Banking, Long-term Debt and Lease Financing; Common and Preferred Stock Financing, Convertibles, Warrants and Derivatives, External growth through mergers and International financial management. Typically offered each spring semester. Prerequisite: FIN 320. 4 Semester Hours.

FIN 330 Financial Modeling

This course is designed to build and expand upon corporate finance concepts utilizing financial software to prepare and analyze an entire portfolio of financial models. Time value of money, valuation, capital budgeting and investment and financial planning concepts will provide the context of several hands-on financial modeling applications and techniques. Prerequisite FIN 321. 2 semester hours.

FIN 340 Emerging Markets Finance and Investments

This course aims to provide students with a broad-based understanding of the challenges and opportunities of investing in emerging and frontier markets. What makes investment decisions in these markets different from those in developed countries? How do investments managers decide which market to invest in? How do government policies shape market and investment conditions? Which asset classes should investment managers consider? How do they manage political risk, economic risk, currency risk? What about legal and liquidity constraints? In addition to covering investment decisions from a multidisciplinary perspective – including economic history, development economic, international/domestic politics, international finance, and international business – the course includes a number of illustrative country overviews as well as case studies, ranging from South/Central America and Northern/Sub-Saharan Africa to the Middle East, South/Southeast Asia and Northeast Asia. 4 semester hours.

FIN 398 Multinational Finance

Provides students with an awareness of the applicability and limitations of business finance theories and practices when applied to the financial management of international business. Such topics as International Financial Markets, Currency and Eurocurrency derivatives, Currency Parity Conditions , Measurement and Management of Currency Risk exposure , International Capital Budgeting, International Alliances and Acquisitions, International trade and Taxation, and International Portfolio Investments. Prerequisites: ECN 105 and FIN 310 or FIN 320. Typically offered fall semester of odd-numbered years. 4 Semester Hours.

FIN 399 Special Topics in Finance

See All-University 399 course description.

FIN 455 Investment Principles

This course is designed to enable students to distinguish between various types of investment securities and to acquaint the student with recognized safety tests. A part of the course will be devoted to the analysis and valuation of Equity Securities, Issues in efficient markets, Fixed Income and Leveraged securities, Derivative products, Mutual funds – (types, performance analysis, fees and expense), Portfolio Management, and Investment Ethics. This course will require an extensive research project in finance involving a top down approach to investment analysis. The analysis will involve the integration of macroeconomic analysis,

industry evaluation, and fundamental as well as technical company and competitor analysis to evaluate the timing and investment potential surrounding the equity of a particular company. Prerequisite: FIN 321. Typically offered each fall semester. 4 Semester Hours.

FIN 456 Comprehensive Securities Analysis

This is the capstone course for the Finance major; it involves a comprehensive analysis and valuation of a chosen company. This course has been designated as the Senior Culminating Experience for individuals majoring in finance. Prerequisite: FIN 321. 2 Semester Hours.

FIN 457 Personal/Family Financial Planning

This course will engage students in critical thinking and decision-making about personal financial management topics on the context of the financial planning process. They will learn and apply the process in order to analyze and make recommendations for a client in each of the financial planning topic areas of household accounting, taxes, investments, risk management, retirement planning, and estate planning. It will be required to synthesize a plan of action based on the full picture of a client's financial situation. They will demonstrate the ability to make appropriate product suggestions, communicate effectively with the client, and present the information at an appropriate level and prioritize goals and determine the feasibility of achieving these goals. Prerequisites: FIN 125, FIN 225, RMI 325, and FIN 455. 2 Semester Hours.

FIN 473 Seminar in Derivatives

Designed for advanced undergraduate students in accounting and finance. It will build on the concepts introduced in FIN 320 and explore how to use the derivative markets for managing risks in commodity and financial markets. It will concentrate on forward and future contracts, options markets, interest rate and forward exchange derivative contracts and advanced topics in pricing derivative securities. Hedging, interest rate risk and foreign exchange risk management techniques will be discussed. Prerequisite: FIN 320 and at least junior standing. Typically offered each spring semester. 2 Semester Hour.

FIN 494 Honors Thesis/Project

See All-University 494 course description.

FIN 499 Internship in Finance

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. 1-16 Semester Hours.

French

FRN 101 Elementary French I

This course introduces students to the culture and language of the French-speaking world. Students will develop an ability to communicate in real-life situations by acquiring reading, writing, listening, and speaking skills. FRN 101 is intended for students with no prior knowledge of French, or those who have had 2 years or less of high school French. Prerequisite: none. 4 Semester Hours.

FRN 102 Elementary French II

This course builds on the skills acquired in FRN 101. Students will continue to develop an ability to communicate in real-life situations by acquiring additional reading, writing, listening, and speaking skills. Successful completion of this course satisfies the World Language Proficiency requirement. Prerequisite: FRN 101 or 2 or more years of high school French. 4 Semester Hours.

FRN 201G The Francophone World

In this course students will advance their knowledge of French by continuing to work on reading, writing, listening, and speaking. Students will have numerous opportunities for meaningful communication while deepening their knowledge of francophone cultures. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

FRN 202 French Conversation and Composition

This course is designed to develop competence in both written and spoken French. By examining a range of topics, students will develop self-expression ability, communicative strategies, and sociocultural competence. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

FRN 203G French Cinema

This course is an introduction to French cinema. By examining a variety of French films, students will improve listening comprehension and written and oral expression. Movies will be viewed in French. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

FRN 204 French Society

This course is an introduction to French society. By reading, discussing, and listening to lectures and presentations, students will increase their French language skills. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

FRN 205 French Pop Culture

In this course students will build language skills in French through the study of popular culture, including music, technology, bandes-dessinées, political satire, TV, slang, rituals and food. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

FRN 210 Travel Seminar

In this course students will participate in a faculty-led trip to a French-speaking location. 1-4 Semester Hours.

FRN 235H The Peoples and Cultures of Contemporary France

In this course students will examine various aspects of contemporary French culture including, but not limited to, education, family, religion, politics, immigration, media, personal space, language, and the arts. Class discussions will emphasize cross-cultural comparisons. Taught in English. 4 Semester Hours.

FRN 290 French Conversation Practicum

This course offers students the opportunity to develop conversational speaking skills in French. Course graded S/U only. May be repeated for additional credit with permission of the instructor. Prerequisite: FRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 1-4 Semester Hours.

FRN 301 French for the Professions

This course introduces students to advanced structures of the French language with an emphasis on various professional contexts. Students will acquire language abilities in the areas of business, education, the environment, sports, and medicine, among others. Prerequisite: One course from the intermediate level that is taught in French or permission of instructor. 4 Semester Hours.

FRN 302V French Theatre Workshop

This course is an introduction to French theatre. Students will read a variety of French plays from various periods and examine themes, characters, and action. Emphasis will be placed on acting and on developing French language skills. Prerequisite: One course from the intermediate level that is taught in French or permission of instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

FRN 303 Business French

This course teaches students how to communicate in a business setting. Students will learn appropriate vocabulary, write correspondences, and study cross-cultural differences between French and American business environments. Prerequisite: One course from the intermediate level that is taught in French or permission of instructor. 4 Semester Hours.

FRN 304V Modern French Poetry

This course examines the works of a variety of 19th and 20th Century French poets. Prerequisite: One course from the intermediate level that is taught in French or permission of instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

FRN 305 The French Novel

This course is an introduction to the French novel. Students will engage in close readings of several works while improving vocabulary and enhancing abilities in the four language skills. Prerequisite: One course from the intermediate level or above that is taught in French or permission of instructor. 4 Semester Hours.

FRN 306 French for National Security and World Affairs

This course is designed to expose students to the historical evolution of terrorism and national security in France. Students will develop specialized linguistic skills for these growing careers. Prerequisite: One course from the intermediate level that is taught in French or permission of instructor. 4 Semester Hours.

FRN 385 Methods of Teaching French

A practical and theoretical methodology course which emphasizes lesson planning, writing instructional objectives, assessment, curriculum design, and a study of methodologies and materials relevant to the teaching of French in the elementary, middle, and secondary schools. The course emphasizes the core guidelines of the American Council on the Teaching of World Languages and relates instructional planning to Ohio's Model for a Competency-Based Program in World Languages. This course must be taken prior to or concurrently with Multiage Student Teaching and FRN 386. This course does not count toward the requirements of the major or minor in French. Prerequisites: Successful completion of one 300-level course in French and permission of the instructor. 4 Semester Hours.

FRN 386 Practicum in the Teaching of French

A practicum designed to put into immediate practice theories and strategies discussed in FRN 385. The student will serve as a teaching assistant in an elementary or intermediate course in French in the Department of World Languages and Cultures. It is recommended that this course be taken concurrently with FRN 385. This course does not count toward the requirements of the major or minor in French. Prerequisites: Successful completion of one or more 300-level courses in French and permission of the instructor. 2 Semester Hours.

FRN 387 Teaching French in the Elementary School

This course is a practicum designed to make available to the teacher candidate in French a practical field experience at the elementary school level. Under the direct supervision of world language faculty, the teacher candidate will participate in a FLES program at a local elementary school for one semester. It is recommended that this course be taken concurrently with FRN 385. This course does not count toward the requirements for the major or minor in French. Prerequisite: Permission of the instructor. 1 Semester Hour.

FRN 401 Advanced Special Topics

Topics may vary. May be repeated for credit. Consent of instructor required. Prerequisite: One course at the 300 level or permission of instructor. 4 Semester Hours.

FRN 485 Teaching Assistant Practicum – French

Intended for French-language teaching assistants only. This course may be repeated for credit. 6 Semester Hours.

Gender Studies

GEN 199 Special Topics in Gender Studies

See All-University 199 course description.

GEN 201S Introduction to Gender Studies

A broad introduction to the basic theories, definitions and methods of the interdisciplinary field of gender studies. The course is devoted to analyzing the experiences of men and women with respect to the psychological, cultural and biological factors that influence individual gender identity development and the construction and representation of gender in society. The complex intersection of race, ethnicity, class and gender will be explored. 4 Semester Hours.

GEN 220 Gender, Body, Identity

The course examines the importance of the human body understood as both a biological and cultural entity. Some of the topics to be explored in the class are foot-binding, genital mutilation, "cutting," tattoos and "body adornment," steroids, anorexia, cosmetic surgery, the medical construction of gender and the cyborg. 4 Semester Hours.

GEN 299 Special Topics in Gender Studies

See All-University 299 course description.

GEN 310 Seminar in Gender Studies

An advanced seminar exploring current theories and/or issues in the interdisciplinary field of gender studies. The specific topics will vary according to the interests of the faculty member teaching the course. The complex intersections between gender and race, ethnicity, class, and sexual orientation will be an ongoing concern of the seminar. Prerequisite: GEN 201 or permission of the instructor. 4 Semester Hours.

GEN 320 From Antietam to Tora Bora: American Men at War

American tradition tells us that not only is war hell, it is the ultimate measure of manhood. However, the actual experiences of men in war tell us that war is so much more than this, and their narratives reveal that the real story of American men at war is a much more complicated and nuanced one. Using a variety of written texts as well as film, we will explore what war can teach us about masculinity—and vice versa. Along the way, the class will introduce students to some of the approaches and methodologies associated with men's studies. Prerequisite: Sophomore standing or above. 4 Semester Hours.

GEN 330G International Perspectives on Gender

This course examines cultural constructions of both gender and sexuality including how they interact with systems of power such as ethnicity, race, colonialism, imperialism, globalization, genocide, militarism and slavery. Within the frameworks of human rights and transnational feminisms, this course focuses on contemporary global debates regarding a variety of topics such as violence against women, reproductive rights and other women's health issues, sex trafficking, terrorism, poverty, religious fundamentalism, access to education, political participation, among other key issues that affect women and LGBTQ communities. Special attention will be paid to analyzing conditions that promote and inhibit the status of and rights of women and LGBTQ persons including the work of governments, international non-governmental organizations and local activists. Prerequisites: Sophomore standing. GEN 201S is recommended. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

GEN 399 Special Topics in Gender Studies

See All-University 399 course description.

GEN 400 Independent Study in Gender Studies

The study of selected topics or projects in gender studies. Open to juniors and seniors minoring in gender studies. A prospectus must be submitted for approval prior to registration. 4 Semester Hours.

GEN 499 Internship

Prerequisite: Junior or senior status and approval of gender studies coordinator. 1-4 Semester Hours.

Geology

GEO 112N Physical Geology: How the Earth Works

An examination of the natural processes that shape the earth's past, present and future and their impact on the residents of the planet. Course will also introduce the methods scientists use to study the Earth. Topics addressed include the formation of earth materials, natural hazards such as volcanoes and earthquakes, plate tectonics and mountain building, and earth history. There will be three hours of classroom study and one two hour lab each week. Students who complete GEO 112 cannot also receive credit for GEO 116. 4 Semester Hours.

GEO 116N Investigation Earth

A hands-on exploration of the dynamics that shape planet Earth and an introduction to methods scientists use to study the Earth's past, present, and predict its future. The course will examine the origin, evolution, and interaction of the Earth's lithosphere, hydrosphere and atmosphere and the impact these interactions have had on the Earth's history and on human habitation of the planet. Students who complete GEO 116 cannot also receive credit for GEO 112. Five hours of combined lecture and lab per week. 4 Semester Hours.

GEO 199 Special Topics

See All-University 199 course description.

GEO 210V Hydrology and Water Resources

A study of water properties, occurrence, distribution, and movement and their relationship with the environment within each phase of the hydrological cycle. The course also examines water quantity and quality issues, and water management policies. Prerequisite: BIO 141 or ENV 190 or GEO 112 or GEO 116 or consent of the instructor. Three class hours and one three-hour laboratory per week. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

GEO 212 Historical Geology

An investigation of the physical and biologic processes that shape the earth and how those processes are recorded in the rock record. The geologic history of North America will be examined based on the evidence revealed by the rocks and fossils of the continent. Prerequisite: GEO 112 or GEO 116 or instructor's permission. Three class hours and one two hour laboratory session per week. 4 Semester Hours.

GEO 220 History of Life

A study of the basic principles used by paleobiologists to understand the history of life on Earth, and an application of those principles through a survey of major events and trends in the evolution and diversification of life. Offered in alternate years. Prerequisites: open to sophomores, juniors and seniors. 4 Semester Hours.

GEO 270 Regional Geology

An examination of the geology, geomorphology and geologic history of selected regions of North America. Emphasis will be placed on the use of basic geologic principles in the interpretation of geologic features and landforms. Prerequisites: GEO 112 or GEO 116, GEO 212 or permission of the instructor. Four class hours per week. 4 Semester Hours.

GEO 299 Special Topics

See All-University 299 course description.

GEO 301V Earth Materials

An introduction to the materials that make up the Earth and the tools used to study these materials. Emphasis is placed on the identification, classification and interpretation of the geological significance of minerals. The course introduces crystallography, physical mineralogy, crystal chemistry, optical mineralogy, x-ray diffraction, and hand sample petrography. The origin and environmental impacts of mineral resources are also studied. Prerequisite: GEO 112 or GEO 116. Three class hours and one two hour laboratory session per week. Offered in alternate years. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

GEO 302 Igneous and Metamorphic Petrology

A study of the igneous and metamorphic rocks and their significance to the origin and evolution of the earth's crust. Emphasis placed on the identification, physical and chemical classification, petrogenesis, and tectonic significance of igneous and metamorphic rocks. Prerequisite: GEO 301V. Three class hours and one two hour laboratory session per week. Offered in alternate years. 4 Semester Hours.

GEO 325 Sedimentation and Stratigraphy

An examination of the components of sedimentary deposits, processes of sediment deposition in different environments and sedimentary rock formation. The sedimentary rocks are placed in a time-stratigraphic perspective through correlation and basin analysis. Prerequisites: GEO 112 or GEO 116, GEO 212. GEO 301V is recommended but not required. Three class hours and one two hour laboratory session per week. Offered in alternate years. 4 Semester Hours.

GEO 330 Structural Geology

A study of deformation in the Earth's crust at all scales. Emphasis on recognition and analysis of structural features and interpretation of their tectonic significance. Prerequisites: GEO 112 or GEO 116, GEO 212, MTH 140 or equivalent. Three class hours and one two hour laboratory session per week. Offered in alternate years. 4 Semester Hours.

GEO 381-384 Geology Seminar

A review of classic papers and current publications relevant to the broad spectrum of earth sciences. Each semester students will prepare a written report and give a presentation on a subject of their own choosing that is of current geological interest. Normally taken in junior and senior years. Each student is responsible for giving one seminar presentation each semester. Regular attendance at scheduled seminars is also required. Prerequisite: Registration only by permission of the instructor. 0.5 Semester Hours each semester.

GEO 385 Directed Studies in Earth Sciences

Studies relevant to a topic selected by the student in conference with the instructor. The study may take the form of library research, discussion, or field or laboratory investigation under close supervision of the instructor. The study may represent an extension of previous course work. Open to advanced students majoring in geology. Prerequisite: Registration only by permission of the instructor. May be taken more than one semester. 1 - 4 Semester Hours.

GEO 399 Special Topics

See All-University 399 course description.

GEO 410 Research

Independent study and research in earth science. May be taken on an interdepartmental basis with permission of the departments involved. Research projects are determined by the student's interest. A formal presentation of the results of the research is required. Open to advanced students majoring in geology who have demonstrated a desire and an aptitude for independent research. Prerequisite: Registration only by permission of the instructor. May be taken more than one semester. 1 - 4 Semester Hours.

GEO 425 Senior Culminating Experience

A two-semester course designed to fulfill the University requirements for a Senior Culminating Experience. This course is required of all geology majors. Students will develop and conduct an independent scientific research project and present the results as a written report and an oral presentation. A grade of "In Progress" will be assigned at the end of the first semester. The final grade will be entered for both semesters at the end of the second semester. Prerequisites: Permission of the instructor. 2 Semester Hours each semester for a total of 4 Semester Hours.

GEO 494 Honors Thesis/Project

A research/project course designed to meet the needs of the individual student seeking honors in the major at graduation. Prerequisites: junior or senior standing, and approval of the instructor, the department chair and the Honors Review Board. Credit variable, 4-6 Semester Hours.

German

GRN 101 Elementary German I

The first of two elementary-level courses intended to help students develop communicative as well as intercultural competence in German. GRN 101 is intended for students with no prior knowledge of German, or those who have had 2 years or less of high school German. Prerequisite: none. 4 Semester Hours.

GRN 102 Elementary German II

The second of two elementary-level courses intended to help students develop communicative as well as intercultural competence in German. Successful completion of this course satisfies the World Language Proficiency requirement. Prerequisite: GRN 101 or 2 or more years of high school German. 4 Semester Hours.

GRN 201 Issues in Contemporary German Culture and Society

A content-based, intermediate-level course designed to improve students' German language skills by exploring current cultural and social trends in Germany. Prerequisite: GRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

GRN 202 Austria, Switzerland, and German-Speaking Europe

A content-based, intermediate-level course designed to improve students' German language skills by exploring cultural and social trends in Austria, Switzerland, and German-speaking Europe. Prerequisite: GRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

GRN 203 German Through Film

An intermediate-level course designed to improve students' German language skills through the study of German-language cinema. Prerequisite: GRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

GRN 204 The German-American Experience

A content-based, intermediate-level course designed to improve students' German language skills by exploring the unique relationship between Germany and the United States, as well as the contributions of German immigrants to America from its founding to the present day. Prerequisite: GRN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

GRN 210 Travel Seminar

In this course students will participate in a faculty-led trip to German-speaking Europe. 1-4 Semester Hours.

GRN 230 Topics in German Literature

A study of literary works by German-speaking authors within the context of a particular theme or issue. Topic varies from year to year. Course readings and all class discussions are in English. Prerequisite: none. 4 Semester Hours.

GRN 235H The Peoples and Cultures of Contemporary Germany

A study of unified Germany with an emphasis on social, political, economic, and cultural trends from 1945 to the present. Course readings and all class discussions are in English. Prerequisite: none. 4 Semester Hours.

GRN 290 Intermediate Conversation and Composition Practicum

This course features individualized and small group practice designed to help intermediate-level students strengthen their speaking and writing skills in German. Course graded S/U only. May be repeated for additional credit. Prerequisite: GRN 201, GRN 202 or GRN 203, or permission of the instructor. 1 Semester Hour.

GRN 301 Advanced German Language, Literature, and Culture I

The first of two advanced-level content courses required of all German majors. Topics and content may vary. Emphasis is placed on developing advanced-level skills in German, as well as greater intercultural competence by analyzing German literary and artistic works. This course meets for 7 weeks (1/2) of the semester. Prerequisite: One course from the intermediate level that is taught in German or permission of the instructor. 2 Semester Hours.

GRN 302 Advanced German Language, Literature, and Culture II

The second of two advanced-level content courses required of all German majors. Topics and content may vary. Emphasis is placed on developing advanced-level skills in German as well as greater intercultural competence by analyzing German literary and artistic works. This course meets for 7 weeks (1/2) of the semester. Prerequisite: One course from the intermediate level that is taught in German or permission of the instructor. 2 Semester Hours.

GRN 303 German for the Professions

An advanced-level course in commercial and technical German designed for students in the fields of business, economics, engineering, and the sciences. Emphasis is placed on developing the linguistic and cultural competence necessary for using German in professional situations. This course meets for 7 weeks (1/2) of the semester. Prerequisite: One course from the intermediate level that is taught in German or permission of the instructor. 2 Semester Hours.

GRN 304 Special Topics in German Literature and Culture

An advanced-level course exploring literary, cultural and artistic topics from the German-speaking world. This course may be repeated for additional credit with the permission of the instructor. This course meets for 7 weeks (1/2) of the semester. Prerequisite: One course from the intermediate level that is taught in German or permission of the instructor. 2 Semester Hours.

GRN 385 Methods of Teaching German

A practical and theoretical methodology course which emphasizes lesson planning, writing instructional objectives, assessment, curriculum design, and a study of methodologies and materials relevant to the teaching of German in the elementary, middle, and secondary schools. The course emphasizes the core guidelines of the American Council on the Teaching of World Languages and relates instructional planning to Ohio's Model for a Competency-Based Program in World Languages. This course must be taken prior to or concurrently with Multiage Student Teaching and GRN 386. This course does not count toward the requirements of the major or minor in German. Prerequisites: Successful completion of one 300-level course in German and permission of the instructor. 4 Semester Hours.

GRN 386 Practicum in the Teaching of German

A practicum designed to put into immediate practice theories and strategies discussed in GRN 385. The student will serve as a teaching assistant in an elementary or intermediate course in German in the Department of World Languages and Cultures. It is recommended that this course be taken concurrently with GRN 385. This course does not count toward the requirements for the major or minor in German. Prerequisites: Successful completion of one or more 300-level courses in German and permission of the instructor. 2 Semester Hours.

GRN 387 Teaching German in the Elementary School

This course is a practicum designed to make available to the teacher candidate in German a practical field experience at the elementary school level. Under the direct supervision of world language faculty, the teacher candidate will participate in a FLES program at a local elementary school for one semester. It is recommended that this course be taken concurrently with GRN 385. This course does not count toward the requirements for the major or minor in German. Prerequisite: Permission of the instructor. 1 Semester Hour.

GRN 390 Advanced German Conversation and Composition Practicum

This course features individualized and small group practice designed to help advanced-level students strengthen their speaking and writing skills in German. Course graded S/U only. May be repeated for additional credit. Prerequisite: GRN 301 or permission of the instructor. 1 Semester Hour.

GRN 401 Advanced Special Topics

Topics may vary. May be repeated for credit. Consent of instructor required. Prerequisite: One course at the 300 level or permission of the instructor. 4 Semester Hours.

GRN 485 Teaching Assistant Practicum – German

This course is intended for German-language teaching assistants only. This course may be repeated for additional credit. Prerequisite: Permission of the instructor. 6 Semester Hours.

Health

HED 199 Special Topics in Health

See All-University 199 course description.

HED 200 Health Literacy and School Health

Health literacy is a fundamental skill for lifelong health and wellness. Candidates will learn about the Whole School, Community, and Child Model as well as how to provide health education to students and adults with varying levels of literacy. Typically offered

in the spring of even years. Field experience of 300 minutes of observation is required in order to complete course assignments. Typically offered spring of even years. 2 Semester Hours.

HED 230 Substance Abuse Education and Prevention

This course will provide an overview of the major drugs of abuse and their effects on the body as well as the biological, sociological, psychological and legal issues associated with drug use and abuse in our culture. An emphasis will be given to effective educational approaches and prevention programs that address the problems of use and abuse. 4 Semester Hours.

HED 250V Nutrition

A comprehensive investigation of the basics of nutrition, the role that nutrition plays in the maintenance of health, and its effects on human performance. Teacher-candidates will learn about the six main nutrients, dietary supplements, disordered eating, and nutrition for patients with cancer, athletes, and children. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HED 299 Special Topics in Health

See All-University 299 course description.

HED 300 Health Behavior

This course provides students with a foundational understanding of the professional fields of health education and health promotion. Students will gain a greater understanding of the theories, elements, practices, and principles that contribute to health behavior change. 4 Semester Hours.

HED 325 Introduction to Health Methods

Basic concepts of teaching health education will be introduced in this course. Teacher-candidates will learn about the history of school health and education and effective skills-based teaching practices; a 10- hour field experience with a health-education in a P-12 school setting is required. Prerequisite: HED 270. Typically offered in the fall of even years. 4 Semester Hours.

HED 360 Disease Prevention and Control

This course provides an overview of basic prevention and investigation of the signs, symptoms, prognosis, and treatments associated with various common diseases. Cultural diversity in health and illness, the health care delivery system, and aging will also be addressed. Prerequisites: HED 270 and HED 300 or permission of instructor. 4 Semester Hours.

HED 375 Human Sexuality

This course addresses issues related to the practice, meaning and significance of human sexual relations and their biological, psychological, and sociological effects on health. Specific attention will be given to sexually transmitted infections, diverse populations, fostering healthy relationships, refusal skills, decision making skills, communication skills, and strategies for teaching sexuality to children and adolescents. 4 Semester Hours.

HED 399 Special Topics in Health

See All-University 399 course description.

HED 410 Skills-based School Health Methods (SCE)

This course will provide the theory, content, and experiential learning opportunities for teacher-candidates to acquire knowledge and competencies in curricular design, instructional methods, use of technology and other resources, promoting health, and meeting diverse needs in the classroom. Teaching and assessing the National Health Education Standards, CDC risk behaviors, and ten general health education content areas will be stressed. A 10-hour clinical practice experience in a P-12 school setting is required. This course will typically be offered in the spring of odd years. This is the SCE for the health major. Prerequisites: HED 270, HED 300, HED 325, and HED 360. 4 Semester Hours.

HED 494 Honors Project

See All-University 494 course description.

HED 499 Internship in Health

See All-University 499 course description.

History

HST 101H Western Civilization I

A survey of the development of Western civilization from its earliest times to the mid-17th century. It emphasizes the evaluation of institutions and the cultural contributions of successive periods. 4 Semester Hours.

HST 102H Western Civilization II

A survey of the development of western civilization stressing major cultural, political, economic and institutional changes from 1648 to the present. 4 Semester Hours.

HST 110 Asian Civilization

A survey of cultural, political, economic, and social developments in Chinese, Japanese, Indian, and Central Asian civilizations. Critical attention will be paid to the interaction of Asia and the West in the modern era. 4 Semester Hours.

HST 199 Special Topics in History.

See All-University 199 course description. 4 Semester Hours.

HST 200 The Historian's Craft

An examination into the nature and method of historical inquiry and the construction and writing of history. The course will introduce students to historiography, the philosophy of history, issues facing historians, practical research methods and the evaluation of sources. The course stresses critical thinking and analysis as well as close critical reading, writing and speaking skills. HST 200 is a prerequisite for the SCE and is suggested as preparation for 300-level courses. This course is typically taught in the spring of even-numbered years. 4 Semester Hours.

HST 201V Museum Studies

Public History is a vibrant field within the historical profession, and museum studies is an integral component of public history. This course offers students an understanding of the many facets of museum studies including an understanding of historical memory, creativity and historical purpose in museum exhibits, and an understanding of the knowledge and skills required to be successful in museum work. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 205 Colonial America

An examination of American history from the discovery of the Americas through 1787. The course will address elements in political, economic, and cultural histories of the thirteen continental colonies of British North America; students will be introduced to the politics of the Enlightenment and the American founding, including discussion of the U.S. Constitution and Bill of Rights. 4 Semester Hours.

HST 206H Nineteenth Century United States

An examination of U.S. history from 1787 to 1880, including the Early National Period, Civil War, and Reconstruction. Political, economic, social, military, and cultural history will be discussed. 4 Semester Hours.

HST 207V Progressive Movement in American History, 1880 to 1945.

An examination of elements in political, economic, social, and cultural history, as well as foreign affairs, from the Gilded Age to the Second World War. Among topics addressed will be progressivism, the New Deal, the world wars. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 208V United States Since 1945

An examination of elements in political, economic, social, and cultural history, as well as foreign affairs from the end of the Second World War to the present. Among the topics addressed will be the cold war, the affluent society, the war on poverty, the counterculture, the rise of conservatism, the terrorist attack of September 11, 2001, and more. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 220 East Europe

A survey of the history of Eastern Europe from antiquity to the present. Attention will focus on the various empires that have dominated the region at different times, national revival and the emergence of nation-states, communist domination and communist collapse and efforts to craft post-communist political and economic systems. 4 Semester Hours.

HST 260 Women in East Asia

By examining individual life histories, exploring the development of women's consciousness, and analyzing historical events, this course is designed to make a historical survey of continuity and change in the roles and conditions of women in East Asian society from ancient times to the present. 4 Semester Hours.

HST 265 East Asia to 1800

A survey of the traditional cultures of China, Korea, and Japan from antiquity to the incursion of the West. Attention will focus on Chinese, Korean, and Japanese society, religion, art and literature, including the Chinese conception of “dao” and the Japanese “myth of uniqueness”. 4 Semester Hours.

HST 270 East Asia and the United States in Historical Perspectives

Beginning with the first voyages of the Empress of China, the course will examine the economic, political, diplomatic, military, and cultural relations between East Asia and the United States from the late eighteenth century to the present. 4 Semester Hours.

HST 275H African-American History

A survey of African-American History from colonial times to the present. Slavery, abolition, segregation, civil rights, and social reform will be discussed in the context of social, political, economic, and intellectual history. 4 Semester Hours.

HST 280H American Women’s History

This course concentrates on women as active participants in the history of the United States from pre-colonial contact to the present. It will begin with an examination of the status of women in Europe, Africa, and the Americas prior to colonization and will consider the changes that occurred as a result of Europe’s “discovery” of the Americas. It will examine both the general contributions women have made to the economic, social and political spheres and the roles specific women have played in the development of the nation. Women of all socio-economic, religious, ethnic and color groups will be considered. 4 Semester Hours.

HST 290H History of Civil Rights Movements in the U.S.

A study of the origins, development, and ramifications of the modern civil rights movement from the Niagara Movement to the presidency of Barack Obama. The course will focus on the development of black socio-political identity in the context of American culture and society. 4 Semester Hours.

HST 299 Special Topics in History

See All-University 299 course description. 4 Semester Hours.

HST 320 Renaissance and Reformation

A survey of Europe from the first stirrings of the Renaissance in Italy to the conclusion of the Catholic Counter Reformation, covering the approximate years 1300 to 1600. This course emphasizes intellectual, political and institutional developments. 4 Semester Hours.

HST 325 Early Modern Europe

A survey of Europe from the religious wars of the 16th century through the Enlightenment to the eve of the French Revolution covering the approximate years 1559 to 1789. This course emphasizes intellectual, political and economic developments. 4 Semester Hours.

HST 340 Revolutionary Europe

A survey of Europe from the French Revolution to the eve of World War I. This course emphasizes the development of nationalism and liberalism, the implications of the progress of science and industry and the emergence of imperialism. 4 Semester Hours.

HST 344 Africa’s Promise: Challenges and Opportunities of the ‘Forgotten Continent’

This course is intended as a comprehensive survey of the political, social, cultural, economic, and historical factors affecting the African continent. Particular attention will be devoted to the legacy effects of colonialism/imperialism, regional security concerns, and Africa’s position in the global economy and in international politics. In doing so, this course will draw on a diverse range of case studies spanning North Africa and Sub-Saharan Africa. 4 Semester Hours.

HST 345 Contemporary Europe

A survey of Europe from World War I to the present. This course emphasizes the rise of communism and fascism, the breakdown of collective security, World War II, the Cold War, the development of the EU, and the disappearance of the Soviet Union. 4 Semester Hours.

HST 348 Problems of Developing Nations

An interdisciplinary study of the social, economic and political history of the developing world from 1945 to the present. The course will focus on three broad geographical areas, Asia, Africa and Latin America, in the context of foreign aid, globalization, population growth, and human rights. 4 Semester Hours.

HST 349G Middle East: Challenges and Opportunities of a Volatile Region

This course is intended as a comprehensive survey of the political, social, cultural, economic and historical factors affecting the broader Middle East. Particular attention will be devoted to the Sunni-Shiite rivalry, the Arab-Israeli conflict, socioeconomic dynamics, the vulnerability of success of oil-rich economies, political (in)stability, and regional security concerns, and the position of the Middle East in the global economy and in international politics. In doing so, the course will draw on a diverse range of

country case studies. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 350V Ancient Greece and Rome

A survey of the ancient roots of Western Civilization. Attention will focus on the intellectual, cultural, and political development of Ancient Greece and Rome from c. 800 B.C.E. to 300 C.E. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 355G Medieval Europe

A survey of Europe from 300 C.E. to 1300 C.E. with emphasis on religious, political, and economic developments. Particular attention will be given to church and empire, feudalism, commerce, and the rise of the dynastic states. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HST 360 Modern China

An examination of the collapse of the old empire, the rise of Chinese nationalism, Nationalist and communist revolutions, the War of Resistance, the Civil War, the founding of the Peoples' Republic of China, and relations with foreign powers. Attention will focus on China's relationships with Japan, Russia, and the United States. 4 Semester Hours.

HST 365 Southeast Asia

An examination of the Asian countries south of China and east of India. Emphasis will be placed on the political, economic, and social development of the region in the 20th century. 4 Semester Hours.

HST 370 Modern Japan

An examination of Japanese political, economic, cultural and diplomatic history from the end of the feudal era to the present. 4 Semester Hours.

HST 385 Modern Russia

A survey of Russian history in the 19th, 20th and 21st centuries, from the era of the Napoleonic Wars through the Bolshevik Revolution to the collapse of the Soviet Union and the attempts to structure its successor state in the 1990s and 2000s. 4 Semester Hours.

HST 399 Special Topics in History

See All-University 399 course description. 4 Semester Hours.

HST 400 Seminar in Western History

Each student will select a research project from some area of European or American history, apply critical research techniques to it and complete a polished paper. This course satisfies the Senior Culminating Experience requirement for history majors. Prerequisite: HST 200. Fall Semester. 4 Semester Hours.

HST 401 Seminar in Asian History

Each student will select a topic from some area of Asian history, apply critical research techniques to it, and complete a polished paper. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. Prerequisite: HST 200. 4 Semester Hours.

HST 405 Independent Study in History

Open to junior and senior students majoring in history. Emphasis is on an in-depth independent inquiry of a subject. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. Prerequisite: HST 200 and permission of instructor. Variable credit, 1-4 Semester Hours.

HST 494 Honors Thesis/Project

A formal, scholarly paper written under the supervision of an advising professor. (See All-University 494 course description. Can be completed in one or two semesters. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered, and proposal must receive approval from the Honors Review Board. Prerequisite: Junior or senior standing, instructor's permission, and Honors Review Board approval. Prerequisite: HST 200. 4 or 6 Semester Hours.

HST 499 Internship

This is an experience-based course in which the student spends a specified amount of time with a local, county or state historical society in order to learn how such institutions function and to understand the richness of local historical sources and their importance to the historian. Supervision is provided by the cooperating society and the Department of History. The specific program for each

internship will vary as agreed upon by the intern, the internship coordinator and the cooperating society. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. 1-8 Semester Hours.

Honors

HON 110 Honors First Year Seminar

This seminar will emphasize academic skills, such as critical reading and writing and active discussion, while stimulating intellectual curiosity and inquiry-based learning. The content of the seminar will vary with professor and will be announced in advance. A grade of B+ or above is necessary to earn University Honors credit. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 120A Great Plays of Theatre; Are They Still?

This course utilizes several classic plays to analyze the history, relevance, and the collaborative process of theatre. Through the reading and analysis of these scripts, widely considered to be important works of literature, the course will explore the components of theatre, which include playwrights, producers, directors, designers, and actors. The course will culminate in the creation of production companies that will write, direct, and perform their own soon-to-be classic works of theatre. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 121A Introduction to Creative Writing

A course introducing students to the craft of creating fiction, poetry, creative nonfiction and drama. In this course we will explore the various techniques, decisions, styles and approaches used by creative writers. Students will also read extensively and participate in exercises designed to develop the creative process. Attendance at literary and other cultural events throughout the semester is required. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor.. Typically offered every year. 4 Semester Hours.

HON 125A Music, the Arts, and Cultural Context

The study of the some of the basic elements, forms, stylistic traditions, social functions, and standard literature of vernacular and art music throughout history. Music's relationships with other art forms, historical periods and movements, religion, and politics are explored, as are the processes of artistic creation and interpretation. Students will begin to develop the tools to evaluate and place into context artistic works. Not a music history survey, this course will focus in depth on several specific genres, time periods, and historical contexts, as determined by the instructor and the students. Attendance at concerts and other cultural events throughout the semester is required. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 140H Exploring Religion through Film: Big Questions on the Big Screen

This course applies interpretive and critical-analytical methods to the medium of film, which serves as an important conveyor of religious meaning and expression in society. Students will explore meta-questions by examining religious issues through engagement with and evaluation of both contemporary and less-recent films. In particular, the course will focus on the power and value of film for exploring inter-religious dialogue and understanding the religious “other.” Through intensive discussion, research, and various written and oral assignments, students will discover and explore the religious themes, symbols, and concepts present in a variety of films. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 141H Philosophical Questions

Reflection and critical thinking centered on some of the basic problems and questions in philosophy, such as: What is the nature of ultimate reality? How do we know that what we believe is true? Is there more to our mind than just our physical brain? Do we really have free will? Can the existence of God be proven or disproven? What makes a choice good or evil? Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 142H Why Forgive?

In the wake of the terror attacks of September 11, 2001, school bullying, wars, and heated political arguments the question, “Why forgive?” has taken on new importance in the twenty-first century. This course explores the concept of forgiveness and the second-level questions raised by the plethora of answers to the question from the viewpoint of several religions, music, literature, poetry, and film. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 143H True Lies: Introduction to the Literary Imagination

What distinguishes literature from other kinds of writing? How is it that fictional works reveal deep truths about our lives and the world around us? Why is it that, across time and across cultures, institutions and those in power frequently fear the power of

literature and seek to silence its voices? To answer these and other questions, you will be introduced to readings in a variety of literary forms, from drama composed in ancient times to today's detective stories and cyberfiction. You will also become familiar with some of the important assumptions, questions, and debates typical of the dynamic and ever-evolving field of English studies. Instruction in close reading, critical thinking and persuasive writing will provide a foundation for understanding and exploring the humanities. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON145H The Logic of Gothic

It has thrived in literature, film, the fine arts, music, fashion, and beyond. It is well represented in both popular and high culture. It is rooted in archetypal taboos but has morphed from time to time and place to place, adapting to the deep fears and dark desires of its audience. Gothic challenges us to decode it in a multitude of ways and we take up this challenge in "The Logic of Gothic," bringing our powers of analysis to texts such as *Dracula* and *Beloved*. The course includes both scholarly and creative writing, and students are encouraged to devise projects that combine research in the Humanities with research in other fields of interest, including the natural sciences, psychology, and religious studies. After all, the Gothic is interested in our bodies and our minds as well as our souls. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 160N Concepts in Chemistry

This introductory course is a study of atomic structure, intermolecular interactions, chemical kinetics, equilibrium, and chemical thermodynamics. This course provides a chemical basis needed for the continuing study of chemistry and other natural sciences. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Prerequisite: 1 or 2 years of high school chemistry or CHE 110. Three class hours and one three hour lab period. 4 Semester Hours.

HON 161N Astronomy

This course is designed to introduce students to the field of astronomy. Topics covered include historical astronomy, the Solar System, stars, galaxies, and cosmology. Laboratory sessions include observing constellations and astronomical objects through the observatory's telescopes. Six contact hours per week. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 165N Introduction to Environmental Science

This introductory-level course focuses on the scientific principles that underlie the functioning of the global environment. The course addresses problems related to human society and explores possibilities for alleviating these problems. The course will provide the student with knowledge of how the environment functions and understanding of the issues of scale, complexity, and conflict resolution. The lab will include field trips, extended case studies, and practice making environmental measurements. Three hours of lecture and one three hour laboratory per week. 4 Semester Hours.

HON 180S The Psychological Sciences

This course examines the scientific study of behavior and mental processes using current issues and research as the framework for exploring the discipline of psychology. In this course you will learn that psychology is a science that attempts to answer some of the age-old questions about the human experience by using rigorous empirical methods. Students will become familiar with the concepts, general theories, and specific approaches and applications used in the field of psychology as well as how they relate to the work done by other social scientists. The following subfields in psychology will be explored: research methodology, biological bases of behavior, development, sensation and perception, consciousness, learning, memory and cognition, motivation and emotion, personality, social behavior, abnormal psychology, and the treatment of psychological disorders. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Prerequisites: None. 4 Semester Hours.

HON 182S Media Representations of Human Diversity

This course in media literacy offers students the opportunity to examine critically the image construction of human diversity related to sex, gender, sexuality, class, religion, and other aspects of identity from an intersectional perspective. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 semester hours.

HON 185S World Politics

This course examines the structure and operation of the international system, providing an overview of the nature, forms and dynamics of world politics covering issues of international security, international political economy and emerging trends in the post-Cold War world. This course will include an experiential learning component. Honors Foundations focus on research methods and design, the broader intellectual context of the field, a greater emphasis on student autonomy, and connections with other fields. Open to University Honors scholars and to students with a 3.5 GPA and permission of instructor. 4 Semester Hours.

HON 300G Honors Explorations

The Honors Explorations is an interdisciplinary course focused on a central issue related to diversity. The purpose of the Explorations is to challenge students to approach an issue from multiple perspectives, while actively, critically and collaboratively engaging with classmates and faculty. The content of the seminar will vary and will be announced in advance. Prerequisites: HON 110 and completion of Honors Foundations requirements. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

HON 350 Honors Explorations Project

The Honors Explorations Project requires a student to apply the concepts learned in HON 300G by developing a project related to diversity in conjunction with any approved 300-or 400-level course. Students will submit an Honors Explorations Project proposal prior to the start of the semester of the intended project and will register for HON 350 concurrently with the course in which the project will be completed. Prerequisite: HON 300G. Zero Semester hours.

HON 410 Honors Capstone

The Honors Senior Capstone provides the opportunity for students to engage in collaborative, interdisciplinary learning as they research, plan, implement, and evaluate solutions to existing problems in global or local community. Prerequisite HON 300G and HON 350. 4 Semester Hours.

Human Resource Management

HRM 356 Human Resource Management

This course is designed to provide an introductory overview of human resource management as a business function for the future human resource manager, and also provide future business managers with an understanding of managerial activities such as: acquiring, developing, evaluating, disciplining and maintaining a qualified workforce in ways that contribute to organizations effectiveness. Prerequisite: MGT 200. 4 Semester Hours.

HRM 360 Human Resource Information Systems

This course is designed to provide an introduction to the use of technology in the administration of human resource (HR) management. The course will explore the use of technology for processing HR-related information and using data for human resource planning, staffing, training, performance management, and compensation. Prerequisite: HRM 356. 2 Semester Hours.

HRM 380 Employment Law

This course will help students to understand the basic framework of employment law in the United States. The course will analyze major issues in employment law, including laws protecting employees from discrimination and wrongful termination. Additionally, students will explore topics in U.S. employment laws such as family leave, wage and hour laws, workers' compensation, immigration, safety and health, and other current developments. Whenever relevant, students will consider covered topics within the context of the global business environment. Prerequisite: BUS 130. 2 Semester Hours.

HRM 399 Special Topics in Human Resource Management

See All-University 399 course description. Credit variable, 1-4 Semester Hours.

HRM 490 Staffing and Compensation

The first half of this course focuses on the acquisition, deployment and retention of an organization's workforce. Strategic, technological, practical, and legal issues confronting staffing systems will be examined. The second half of this course will focus on compensation strategies and systems, employee benefits, wage and salary administration as well as government regulations. Decisions relating to executive compensation will also be addressed. Prerequisite: MGT 200. 4 Semester Hours.

HRM 491 Seminar in Leadership

This seminar is designed to focus on competencies of effective leadership and how leaders influence others through cooperative organizational relationships. How leaders make decisions regarding human resources; current leadership theories, issues and practices; as well as personal attributes associated with effective leadership are examined. Students will be involved in self-diagnostic tools, current literature, and case studies. Prerequisite: Junior academic standing or permission of the instructor. 4 Semester Hours.

HRM 494 Honors Thesis/Project

See All-University 494 course description.

HRM 499 Internship in Human Resources

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host

internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. 1-16 Semester Hours.

Integrative Core

See “General Education: The Integrative Core” for additional information about the Integrative Core: First Year Seminar, Foundations, Second Year Written and Oral Communication (WOC) Portfolio, Explorations, and Capstone.

FYS 100 First Year Seminar

The first year seminar (FYS) is a topic-oriented course designed to assist students in making the personal and academic transition to higher education and launch them on their journeys through liberal education in small, interactive classes. The FYS further serves to introduce the core learning abilities (with particular emphasis on communication skills) in the context of academic inquiry. In this course, students will begin to develop a comprehensive perspective of a liberal arts education, understand critical thinking in the university context and become oriented to university life. Additionally, the faculty member who teaches this seminar will serve as the students' initial advisor and will help them explore the opportunities of a University of Mount Union education. Students must complete this course within their first two semesters. 4 Semester Hours.

FYS 105 Raiders Rise First Year Seminar

The first year seminar (FYS) is a topic-oriented course designed to assist students in making the academic and personal transition to higher education and launch them on their journeys through liberal education in a small, interactive class. It introduces and develops core abilities such as critical reading, thinking, argumentation and the written and oral communication skills needed to convey these ideas to appropriate audiences. Additionally, the faculty member who teaches this seminar will serve as the students' initial advisor and will help them explore the opportunities of a University of Mount Union education. 4 Semester Hours.

CAP 400 Integrative Core Capstone Seminar

The Senior Capstone is a topic-oriented course that builds on the Explorations requirement by moving students from faculty-guided synthesis to student-led integration. The purpose of the Senior Capstone is twofold:

- providing students with opportunities to engage in collaborative learning with peers from a variety of academic disciplines.
- utilizing the e-portfolio to reflect upon their intellectual journeys through the curriculum in a reflection upon their philosophies of learning

These seminars provide students with the opportunity to engage in collaborative learning with their peers in the context of real world problems. As they work to generate possible solutions for these real-world problems, students will actively integrate the cumulative knowledge and skills they have acquired over the course of their liberal arts educations in both the integrative Core and their respective majors and minors. The Senior Capstone Seminar e-portfolio affords students the opportunity to reflect upon as well as document their individual intellectual journeys through their University of Mount Union curricular and co-curricular experiences. These seminars offer students the opportunity to draw their disciplinary skills and resources into real-world scenarios in ways that link the arts, humanities and sciences with the 21st century global community in which they will live and work, helping them to realize how their education in disciplinary, interdisciplinary and integrative learning through the Integrative Core equips them with resources to address complex issues, especially the ability to work collaboratively across disciplines and to negotiate competing interests and worldviews. Prerequisite: Successful completion of the Second Year Written and Oral Communication (WOC) Portfolio, and all other Integrative Core requirements. 4 Semester Hours.

TRF 100 Transfer Student Seminar

This 8-week course will help transfer students who transfer in fewer than 48 credit hours transition to Mount Union, learn about the meaning and purpose of a liberal education, and understand the purpose and requirements of the Integrative Core. The course will also help transfer students integrate work they have done elsewhere in preparation for the Second Year WOC Portfolio. This course is a graduation requirement for all transfer students and is to be completed in the first semester at Mount Union. Prerequisite: Transfer student standing. 1 Semester Hour. Offered S/U only. Typically offered fall and spring. Advanced transfer students (those transferring in at least 48 credit hours, including successful completion of College Writing, or equivalent, and Public Speaking, or equivalent) substitute TRF 200.

TRF 200 Advanced Transfer Student Seminar

This 16-week course will help advanced transfer students (those who transfer in at least 48 credit hours) transition to Mount Union, learn about the meaning and purpose of a liberal education, and understand the purpose and requirements of the Integrative Core. In addition, students will refine their writing and speaking skills, choose and revise writing and speaking assignments, and complete a Second Year WOC Portfolio. At the end of the course, students' written and speaking proficiency will be assessed. This course replaces TRF 100 and is a graduation requirement for all advanced transfer students and is to be completed in the first semester at Mount Union. Prerequisites: Transfer student standing, and 48 or more credit hours earned, including successful completion of College Writing (or equivalent) and Public Speaking (or equivalent). 2 Semester Hours. Offered S/U only. Typically offered fall and spring.

WOC 200 Revising the Written Communication Portion of the WOC Portfolio

This class is for students who have not shown proficiency in the written communication portion of the 2nd Year WOC Portfolio and have elected to work on their writing in a class setting. In this class, students will learn about effective writing techniques, focusing on those most in need of improvement for each student. While learning more about effective writing, students will work to revise their written communication portion of the WOC portfolio, which will be the final product of the class. Enrolled students will complete the written communication portion of the WOC portfolio requirement if they earn an S grade in this class. Prerequisites: Students must have submitted a complete written communication portion of the WOC portfolio as defined in the catalog section “Details of the Second Year WOC Portfolio” and failed the written communication portion of the WOC portfolio. Offered S/U only. 2 Semester Hours.

WOC 201 Revising the Oral Communication Portion of the WOC Portfolio

This class is for students who have not shown proficiency in the oral communication portion of the 2nd Year WOC Portfolio and have elected to work on their speaking and presenting abilities in a class setting. In this class, students will learn about effective speaking and presenting techniques, focusing on those most in need of improvement for each student. While learning more about effective public speaking, students will work to revise their oral communication portion of the WOC portfolio, which will be the final product of the class. Enrolled students will complete the oral communication portion of the WOC portfolio requirement if they earn an S grade in this class. Prerequisites: Students must have submitted a complete oral communication portion of the WOC portfolio as defined in the catalog section “Details of the Second Year WOC Portfolio” and failed the oral communication portion of the WOC portfolio. Offered S/U only. 2 Semester Hours.

WOC 240 DWOC Practicum

This course covers the theory and practice of peer tutoring with emphasis on tutoring writing and oral communication. Students will learn how to support peers through projects from initial conceptualization through final execution. Course expectations include daily reading responses, reflective writing, participation in mock tutoring sessions, and written and practice-based exams. The course is required for all new Digital, Written and Oral Communication Studio consultants. Prerequisites: Successful completion of competitive interview process. 2 Semester Hours.

Interdisciplinary and Liberal Studies

IDS 200H Why Forgive?

In the wake of the terror attacks of September 11, 2001, school bullying, wars, and heated political arguments the question, “Why forgive?” has taken on new importance in the twenty-first century. This course explores the concept of forgiveness and the second-level questions raised by the plethora of answers to the question from the viewpoint of several religions, music, literature, poetry, and film. 4 Semester Hours.

Japanese

JPN 101 Elementary Japanese I

The first of two elementary-level courses intended to help students develop communicative as well as intercultural competence in Japanese. JPN 101 is intended for students with no prior knowledge of Japanese, or those who have had 2 years or less of high school Japanese. Prerequisite: none. 4 Semester Hours.

JPN 102 Elementary Japanese II

The second of two elementary-level courses intended to help students develop communicative as well as intercultural competence in Japanese. Successful completion of this course satisfies the World Language Proficiency requirement. Prerequisite: JPN 101 or 2 or more years of high school Japanese. 4 Semester Hours.

JPN 201 Japanese Conversation

An intermediate-level course designed to develop speaking, listening, reading, and writing skills in Japanese, plus a general review of Japanese culture. This course will emphasize enhancement of the spoken language competencies in Japanese. Prerequisite: JPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

JPN 202 Japanese Composition

The second intermediate-level course for enhancing Japanese language skills. This course will focus on further developing reading and writing competencies in Japanese. Prerequisite: JPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

JPN 203 Japanese through Popular Culture

An intermediate-level course designed to develop listening, speaking, reading, writing, and cultural awareness skills via Japanese popular media including animation, manga (comics), and music. Prerequisite: JPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

JPN 204G Japanese through Film

An intermediate-level course focusing on language, current events, and culture using feature-length films from Japan. All films viewed are in Japanese with English subtitles. Speaking, listening, and writing skills are reinforced. Prerequisite: JPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

JPN 210 Travel Seminar

In this course students will participate in a faculty-led trip to Japan. 1-4 Semester Hours.

JPN 220 Reading in Japanese

An intermediate-level course designed to improve reading skills with a focus on Japanese writing. Prerequisite: JPN 102 or permission of the instructor. 1 Semester Hour.

JPN 230 Topics in Japanese Literature

A study of literary works by major Japanese authors within the context of a particular theme or issue. Topic varies from year to year. Course readings and all class discussions are in English. 4 Semester Hours.

JPN 235H The Peoples and Cultures of Contemporary Japan

A study of Japan with an emphasis on social, political, economic, and cultural trends from 1945 to the present. Students will examine issues relevant to the Japanese people and to Japanese society from both American and Japanese viewpoints. Course readings and all class discussions are in English. 4 Semester Hours.

JPN 290 Japanese Conversation and Composition Practicum

This course is designed to help students enhance their Japanese speaking and writing skills through individualized instruction. Course graded S/U only. Prerequisite: JPN 202 or permission of the instructor. 1 Semester Hour.

JPN 301 Advanced Japanese Language and Culture

An intensive course designed to enhance speaking, listening, reading, writing, and cultural awareness skills at the advanced level. Prerequisite: JPN 202 or equivalent as determined by the instructor. 4 Semester Hours.

JPN 302G A Cultural Study of Japan

A cultural survey of Japan, focusing on its political, economic, historical, and social developments and traditional arts. Prerequisite: JPN 301 or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

JPN 303 Advanced Readings in Japanese

An advanced-level course in which students read texts in the target language on current issues of culture and society in Japan. Prerequisite: JPN 301 or permission of the instructor. 4 Semester Hours.

JPN 304 Japanese for the Professions

A course designed to improve the practical use of Japanese in professional environments, including business, education, and engineering. Prerequisite: JPN 301 or permission of the instructor. 2 Semester Hours.

JPN 305 Japanese Translation

A study, analysis, and practicum of the techniques of translating technical, literary texts, as well as manga (comics) from Japanese to English. Students will explore the use of software and the Internet for translation purposes. Prerequisite: JPN 301 or permission of the instructor. 2-4 Semester Hours.

JPN 385 Methods of Teaching Japanese

A practical and theoretical methodology course which emphasizes lesson planning, writing instructional objectives, assessment, curriculum design, and a study of methodologies and materials relevant to the teaching of Japanese in the elementary, middle, and secondary schools. The course emphasizes the core guidelines of the American Council on the Teaching of World Languages and relates instructional planning to Ohio's Model for a Competency-Based Program in World Languages. This course must be taken prior to or concurrently with Multiage Student Teaching and JPN 386. This course does not count toward the requirements of the major or minor in Japanese. Prerequisites: Successful completion of one 300-level course in Japanese and permission of the instructor. 4 Semester Hours.

JPN 386 Practicum in the Teaching of Japanese

A practicum designed to put into immediate practice theories and strategies discussed in JPN 385. The student will serve as a teaching assistant in an elementary or intermediate course in Japanese in the Department of World Languages and Cultures. It is recommended that this course be taken concurrently with JPN 385. This course does not count toward the requirements for the major or minor in Japanese. Prerequisites: Successful completion of one or more 300-level courses in Japanese and permission of the instructor. 2 Semester Hours.

JPN 387 Teaching Japanese in the Elementary School

This course is a practicum designed to make available to the teacher candidate in Japanese a practical field experience at the elementary school level. Under the direct supervision of world language faculty, the teacher candidate will participate in a FLES program at a local elementary school for one semester. It is recommended that this course be taken concurrently with JPN 385. This course does not count toward the requirements for the major or minor in Japanese. Prerequisite: Permission of the instructor. 1 Semester Hour.

JPN 401 Advanced Special Topics

Topics may vary. May be repeated for credit. Consent of the instructor required. Prerequisite: One course at the 300 level or permission of the instructor. 4 Semester Hours.

JPN 485 Teaching Assistant Practicum – Japanese

Intended for Japanese-language teaching assistants only. This course may be repeated for additional credit. 6 Semester Hours.

Leadership Studies

LDR 175 Introduction to Leadership for Life

This introductory course investigates leadership philosophy, various styles of leadership, and models of leadership that allow the student to implement and practice positive leadership skills immediately. Students will study the various competencies that great leaders possess and implement them in their everyday associations. Open to all students. 2 Semester Hours.

LDR 275 Developing Your Leadership

This course includes material on theories of leadership, the environmental impact on leadership, and most importantly, leadership practice with smaller projects and/or internships on-or off-campus that will require the use of the leadership skills and competencies learned to include an emphasis on reflection. This course provides students with a complete look at the theoretical and practical leadership dimensions, particularly those revolving around working with others. The course uses interactive class discussion and activities to aid students in a better understanding of their own leadership and working with others. Upon completion, students will be grounded in fundamental leadership styles, theories, and principles and are better prepared to apply these principles in a wide variety of life experiences. Prerequisite: LDR 175 or permission of instructor. 4 Sem. Hrs.

LDR 350 Implementing Leadership Skills and Competencies

This course is 60% experiential and 40% classroom. Students will engage in leadership projects/positions (either on-campus or off-campus) in approved rigorous leadership learning experiences. Working with the faculty member and a site supervisor, the student will reflect on the experience through the lenses of the previous leadership courses. Through hands-on engagement in the form of service to others, as well as thoughtful reflection, it is the aim of this course to prepare student leaders to recognize that service to others is worth far more than a check or the total number of community service hours accumulated. Pre-requisite: Completion of LDR 275 or permission of instructor. 4 Semester Hours.

Library Science

LIB 100 Library Research Methods

A basic course covering information literacy and the research process, emphasizing the principles and methodologies of effectively planning and executing your research. The student learns to utilize library resources (books, journals, digital media and government documents) and research tools (search engines, subscription databases, online catalogs and management tools), and how to integrate these techniques into academic life. In addition, students will learn guidelines on evaluating the quality, authority and accuracy of a source. Ethical and legal considerations about the responsible use of information will also be discussed. 2 Semester Hours.

Management

MGT 200 Management Principles

Introduction to the basic principles, policies and methods employed in the management of business enterprises and not-for-profit organizations. Provides a general understanding of the managerial functions of planning, organizing, leading and controlling from the viewpoint and needs of the professional manager. It will also cover the impact of technology on management activities and it will also include an overview of ethical issues that managers will face in contemporary business environments. An international perspective to business and management will be incorporated in the course. Prerequisite: BUS 100 or SPB 100 or permission of the instructor. 2 Semester Hours.

MGT 299 Special Topics in Management

See All-University 299 course description.

MGT 341 Operations Management

This course examines the role of the operations function in the production of goods and services. Topics include product and service design, operations strategy, quality, forecasting, scheduling, project planning, and inventory management. Quantitative models will be used for analysis and to illustrate their use in the management of operations. Prerequisites: MGT 200, ACC 205, and MTH 123. 4 Semester Hours. (typically offered in the fall semester)

MGT 399 Special Topics in Management

See All-University 399 course description.

MGT 425 Planning, Policy and Control

Provides an in-depth understanding and application of business strategy, policy and planning, organizational design, organizational objectives and control techniques used in a competitive business environment. Topics include leadership, generic strategies, competitive advantage, industry analysis, internal situation analysis, and issues arising from international activities. This course has been designated as the Senior Culminating Experience for individuals majoring in management. Prerequisites: MKT 220, MGT 341, and FIN 320. 2 Semester Hours. (typically offered in the spring semester)

MGT 435 Decision Making Strategies for the 21st Century

This course is designed to examine decision making strategies used by some of the most successful corporations in the United States. Students will be introduced to the problem solving techniques employed by corporations attempting to exceed customer expectations, envision new products and markets, increase speed and agility, pursue total quality and reshape the organization. Prerequisite: MGT 200. 4 Semester Hours. (typically offered in the spring semester)

MGT 481 Seminar in Small Business

This seminar is designed to focus on the start-up management of small businesses. A strong emphasis will be placed on entrepreneurial opportunities and new venture activities necessary for the successful operating of small business firms. Prerequisites: BUS 100 and Junior standing. 2 Semester Hours. (typically offered in the spring semester)

MGT 494 Honors Thesis/Project

See All-University course description.

MGT 495 Project Management

This course is designed to introduce students to project management techniques for coordination, implementation and control of complex projects. Topics include project definition and plan development, estimating, risk management, resource considerations, progress and performance measurement, human resource considerations. Project Management software will be used for much of the course work. Prerequisite: EGE 120 or MGT 200 or permission of the instructor. 2 Semester Hours. (only offered in the fall semester)

MGT 499 Internship in Management

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. 1-16 Semester Hours.

Marketing

MKT 220 Marketing Principles

This course provides an introduction to marketing theory and its application by examining marketing decisions involving pricing, product and service offerings, distribution, and promotion. Also examined are the respective roles of market research and consumer behavior as they relate to marketing management. Prerequisite: BUS 100 or SPB 100 or permission of the instructor. 4 Semester Hours. (typically offered fall and spring semesters)

MKT 299 Special Topics in Marketing

See All-University 299 course description.

MKT 370 Consumer Behavior

The course focuses on consumer decision-making behavior; examining how individuals and organizations search for, evaluate, purchase and use products and/or services. Also considered are social and psychological factors, environmental variables and personal differences that affect consumer behavior. Prerequisite: MKT 220.4 Semester Hours. (typically offered spring semesters)

MKT 371 Integrated Marketing Communications

The course focuses on the various elements of the promotional mix (personal selling, promotion, public relations and advertising). Also considered is the overall role of promotion in the development of an effective marketing strategy. Prerequisite: MKT 220. 4 Semester Hours. (typically offered fall semesters)

MKT 372 Marketing Research

The course focuses on the collection, analysis and presentation of secondary and primary information used to make marketing decisions. Both qualitative and quantitative research methods are examined and applied. Prerequisite: MKT 220. 4 Semester Hours. (typically offered fall semesters)

MKT 395 Digital Marketing

This course focuses on the theoretical understanding of the internet marketplace necessary to adapt to its many changes, while also equipping students with the skills they will need to perform vital daily marketing functions. By the end of the course, students will be able to walk into any company with an online presence and improve their use of the internet. Among topics addressed will be search engine optimization, social media marketing, web analytics, email marketing, and online reputation management. Prerequisite: MKT 220. Typically offered in the Spring semester. 2 Semester Hours.

MKT 396 Selling and Sales Management

The course focuses primarily on the role of personal selling and sales management as part of an organization's overall promotional mix. The importance of relationship marketing is emphasized. Prerequisite: MKT 220. 2 Semester Hours. (typically offered fall semesters)

MKT 399 Special Topics in Marketing

See All-University 399 course description.

MKT 474 Marketing Policies and Strategies

This course is designed as a capstone course in marketing. It will deal with marketing policies and strategies with particular emphasis on decision-making. This course has been designated as the Senior Culminating Experience for individuals majoring in marketing. Prerequisite: MKT 372. 2 Semester Hours. (typically offered spring semesters)

MKT 494 Honors Thesis/Project

See All-University course description.

MKT 499 Internship in Marketing

An experience based course in which students are enrolled once they have secured a position in an appropriate business or agency where previous classroom learning may be integrated with work in their major discipline. The exact location, program and method of education are provided in a contract drawn between the student, the department faculty internship coordinator and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. 1-16 Semester Hours.

Mathematics

MTH 100 Intermediate Algebra

A study of the real number system, linear equations and inequalities, and systems of linear equations and inequalities intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 105 or above except for change of grade. 2 Semester Hours.

MTH 105 College Algebra

A study of exponents and polynomials, factoring, rational expressions, and quadratic equations intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 140 or above except for change of grade. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. 2 Semester Hours.

MTH 119 Quantitative Literacy

This course will provide and enhance student skills in quantitative methods, reasoning, and problem solving. Topics included are from an array of real-world applicable mathematics including data analysis, probability, financial literacy, voting theory, and graph theory. Students are expected to learn and use basic methods of computation as well as be able to draw conclusions and interpret their results. 4 Semester Hours.

MTH 121 Data Analysis

A study of graphical and numerical methods for describing data, counting methods, probability, distributions of data, and data interpretation. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. May not be taken after credit is granted for MTH 123 or above, except for change of grade. 2 Semester Hours.

MTH 123 Elementary Statistics

A study of measures useful in giving concise descriptions of masses of numerical data. A brief study of probability theory provides the basis for an introduction to methods of testing hypotheses and measuring the confidence with which conclusions may be drawn by sampling. Historical developments of statistics and probability will be explored as will applications in various fields. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

MTH 125 Elementary Discrete Mathematics

An introduction to discrete mathematics. Topics include logic and proof, sequences and sets, recurrence relations, elementary probability, functions, mathematical induction, recurrence relations, graphs and trees, and matrix manipulation. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

MTH 130 Calculus Lab

Provides co-requisite support for students while they are enrolled in MTH 141 Calculus I. Emphasis will be placed on skills needed for calculus, with just-in-time review of algebra, trigonometry, and logarithms. May not be taken after credit is granted for MTH 141 except for change of grade. S/U. Prerequisite: Satisfactory math placement. Co-requisite: MTH 141. 1 Semester Hour.

MTH 140 Precalculus Mathematics

A study of topics needed to prepare a student for calculus including polynomial, exponential, and logarithmic functions, graphs, quadratic equations and inequalities, and selected topics from analytic geometry and trigonometry. May not be taken after credit is granted for MTH 141 except for change of grade. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

MTH 141 Calculus I

A study of limits, continuity, differentiation, and an introduction to the indefinite and definite integrals. Includes applications to optimization problems, related rates and the Fundamental Theorem of Calculus. May not be taken after credit is granted for MTH 142 except for change of grade. Prerequisites: MTH 140 with a grade of C- or higher, or satisfactory math placement for MTH 130 (must take MTH 141 and MTH 130 concurrently), or satisfactory math placement for MTH 141. 4 Semester Hours.

MTH 142 Calculus II

A continued study of techniques and applications of integration and study of the calculus of infinite series, polar coordinates and parametric equations. Also includes an introduction to differential equations. Prerequisite: MTH 141 with a grade of C- or higher. 4 Semester Hours.

MTH 200 Statistics for the Health Sciences

The course provides an introduction to the concepts of statistical analysis and statistical reasoning, specifically geared toward health science data. The main topics covered are sampling, experimental design, data summaries, probability, and basic methods of inference. An emphasis will be placed on reading and understanding experimental design and statistical decisions in the healthcare setting. Prerequisites: MTH 105 or satisfactory math placement. 4 Semester Hours.

MTH 222 History of Math

A survey of the history of mathematics from antiquity through the present time. Contributions by various individuals and cultures will be examined. Both European and non-European mathematical developments will be explored, with an emphasis on the interrelationship between mathematics and the culture of the time. Prerequisite: MTH 141. 2 Semester Hours.

MTH 223 Intermediate Statistics

This second course in statistics will emphasize statistical computation and applications in various fields, modeling, and visualization for real data sets. Topics include multiple regression with diagnostics, one-way and multi-way analysis of variance, and analysis of categorical data. Prerequisites: MTH 123 or MTH 200, or permission of instructor for students who have had exposure to statistical hypothesis testing. 4 Semester Hours.

MTH 241 Calculus III

A study of vectors and vector analysis, functions of two or more variables, partial derivatives, multiple integrals, line and surface integrals, and Green's Theorem. Prerequisite: MTH 142 with a grade of C- or better. 4 Semester Hours.

MTH 300 College Geometry

An informal introduction to the concepts and principles of Euclidean geometry in two and three dimensions. Geometric software will be used to explore geometric ideas and their applications in real-world contexts. Typically offered in the fall semester of even-numbered years. Prerequisite: MTH 142. 2 Semester Hours.

MTH 301 Introduction of Advanced Mathematics and Number Theory

A study of selected topics intended to introduce the student to abstract mathematics. Topics include the language of sets and functions and methods of proof, as well as selected topics from number theory including the Euclidean Algorithm and congruences. Prerequisite: MTH 142. 4 Semester Hours.

MTH 305 Introduction to Probability and Statistics for Engineering

This course provides an introduction to the use of probability and statistics in engineering. Topics include descriptive statistics, simple regression, probability, continuous probability distributions, point estimation, confidence intervals, hypothesis tests, and risk assessment. Prerequisite: MTH 142. 2 Semester Hours.

MTH 306 Probability and Statistics for Engineering and Science

This course provides the theory and practice of the use of probability and statistics in engineering and science. Topics include descriptive statistics, probability, discrete and continuous probability distributions, estimation and confidence intervals, hypothesis tests, risk assessment, Monte Carlo methods, correlation and regression, analysis of variance, and design of experiments. An applied group project is required in which experimental design, data collection, and computer analysis of data are utilized. Prerequisite: MTH 142. 4 Semester Hours.

MTH 322 Linear Algebra

An introduction to the principal ideas and methods in linear algebra: systems of linear equations, matrices and determinants, finite-dimensional vector spaces, linear transformations, eigenvalues and eigenvectors, inner product spaces and applications. Prerequisite: MTH 142. MTH 322 cannot be taken after credit has been given for MTH 333. 4 Semester Hours.

MTH 333 Linear Algebra and Differential Equations

An introduction to the principal ideas and methods in linear algebra and differential equations. Some of the topics include systems of linear equations, matrices and determinants, vector spaces, eigenvalues and eigenvectors, linear differential equations, system of differential equations, and applications. Prerequisite: MTH 142 with a grade of C- or better. 4 Semester Hours.

MTH 335 Differential Equations

A study of the theory and techniques of the solution of ordinary differential equations with applications in the sciences. Topics will include separable, first-order linear, exact and homogeneous equations. Methods will include the use of integrating factors, the method of undetermined coefficients, variation of parameters, and Laplace Transforms. Prerequisite: MTH 142 with a C- or better. MTH 335 cannot be taken after credit has been given for MTH 333. 4 Semester Hours.

MTH 341 Advanced Calculus

A rigorous study of the basic concepts and history of calculus including the formal definitions and theorems of limits, the derivative, and the Riemann integral. Prerequisite: MTH 301. 2 Semester Hours.

MTH 351 Numerical Analysis

A study of numerical integration and the numerical solution of differential equations, numerical methods of linear algebra, matrix inversion and the solving for real roots of equations. Oriented toward computation using computers. Typically offered in the fall semester of even-numbered years. Prerequisites: MTH 333 or MTH 322 or MTH 335. A computer programming course such as CSC 220 is recommended. 2 Semester Hours.

MTH 362 Discrete Mathematics

A study of the basic elements and history of discrete mathematics such as graph theory, recurrence relations, finite difference approaches, linear programming, and combinatorics. Prerequisite: MTH 142. 2 Semester Hours.

MTH 401 Topics in Pure Mathematics

The content of this course will come from the general areas of algebra, topology, real and complex analysis, or number theory. This course can be repeated for additional credit hours. Prerequisite: Junior or Senior standing and MTH 301. 2 or 4 Semester Hours.

MTH 405 Mathematical Statistics I

An introduction to statistics making use of calculus. Topics include historical developments of statistics, probability theory, discrete random variables, and continuous random variables. Prerequisites: MTH 123 and MTH 142. 2 Semester Hours.

MTH 406 Mathematical Statistics II

A continuation of MTH 405. Topics include multivariate probability distributions, functions of random variables, sampling theory, estimation, hypothesis testing, linear models, and ANOVA. Prerequisite: MTH 241 and MTH 405. 4 Semester Hours.

MTH 411 Abstract Algebra

A study of the basic properties of groups and rings. The axiomatic approach is emphasized. Prerequisites: MTH 241 and MTH 301. 4 Semester Hours.

MTH 460 Senior Seminar

This course will be taken with one of the following topics of emphasis: Mathematics Education, Pure Mathematics, Applied Mathematics, Statistics, or Financial Mathematics. This course is required of all mathematics and financial mathematics majors. This course has as its requirements the completion of a senior research project which will be communicated to the department in either a poster or a presentation, and a research paper. A total of two credits must be completed in one or both semesters of the senior year. Prerequisites: Mathematics or financial mathematics major with senior standing, or permission of the instructor. 1-2 Semester Hours.

Military Science Leadership (ROTC)

MSL 180 Introduction to Leadership I

Introduces the student to the concept of leadership in the military and in democratic society in general. Examines leadership characteristics, principles and styles. Students must participate in outdoor character-building exercises. Corequisite: MSL 190. 1 Semester Hour.

MSL 185 Introduction to Leadership II

Introduces the student to techniques and methods that leaders must employ. Examines time management, stress management, staff/group dynamics, problem-solving process and leadership climate. Corequisite: MSL 190. 1 Semester Hour.

MSL 190 Leadership Seminar I

Instructional program preparing individuals to undertake the broad range of tasks associated with the dimensions of leadership. Stresses decision-making roles of leaders in planning and executing organizational programs. S/U graded. Corequisite: MSL 180 fall, MSL 185 spring. 0 Semester Hours.

MSL 280 Leadership Assessment I

Interdisciplinary study of organizational leadership and group dynamics through assessment of 16 behavioral dimensions. Provides practical application and assessment of leadership skills in formal organizations. Corequisite: MSL 290. 2 Semester Hours.

MSL 285 Leadership Assessment II

Interdisciplinary study of organizational leadership and group dynamics through assessment of 16 behavioral dimensions. Provides practical application and assessment of leadership skills in formal organizations. Corequisite: MSL 290. 2 Semester Hours.

MSL 290 Leadership Seminar II

Instructional program preparing individuals to undertake the broad range of tasks associated with the dimensions of leadership. Stresses decision-making roles of leaders in planning and executing organizational programs. Corequisite: MSL 280 fall, MSL 285 spring. 0 Semester Hours.

MSL 360 Leadership Development

Develops managerial skills with emphasis on group dynamics, leadership theory and practical leadership experiences. Integrates communication skills, decision making and group motivation. Corequisite: MSL 390. 2 Semester Hours.

MSL 370 Organizational Leadership

Application of management fundamentals, decision theory and leadership principles to organizations. Emphasis in coordinating, directing and controlling organizations. Corequisite: MSL 390. 2 Semester Hours.

MSL 390 Leadership Seminar III

Instructional program preparing individual to undertake the broad range of tasks associated with the dimensions of leadership. Stresses decision-making roles of leaders in planning and executing organizational programs. Corequisite: MSL 360 fall, MSL 370 spring. 1 Semester Hour.

MSL 460 Military Management and Ethics

Professional ethics and responsibilities of military leaders. Development of interpersonal and managerial communicative skills. Corequisite: MSL 490. 2 Semester Hours.

MSL 470 The Professional Military Officer, Management and Law

Studies in professional officer development, the military justice system and the management of personnel resources. Corequisite: MSL 490. 2 Semester Hours.

MSL 490 Leadership Seminar IV

Instructional program preparing individuals to undertake the broad range of tasks associated with the dimensions of leadership. Stresses decision-making roles of leaders in planning and executing organizational programs. Corequisite: MSL 460 fall, MSL 470 spring. 1 Semester Hour.

Music

MUS 110 Music Theory I

A study of the fundamentals of music, diatonic harmony, and basic musical structures. The course aims to develop skills in common-practice part writing, improvisation, the use of music notation software, composition and analysis, and is preparation for intermediate and advanced work in music theory. Offered fall semester. 3 Semester Hours.

MUS 111 Foundations of Musicianship

The course will serve as a primer for freshman music majors in need of preparatory work in musicianship prior to taking the musicianship skills sequence (MUS 113, 211, 213). Topics will include introductory work in basic vocal production, solfege-based sight-singing, rhythmic production, and ear training. Prerequisites: The musicianship entrance exam, given the week before the fall semester begins. Music majors and minors who do not achieve a minimum score on the exam will be required to enroll in MUS 111 before taking MUS 113. 2 Semester Hours.

MUS 112 Music Theory II

The continued study of diatonic harmonic and musical structure and beginning work in chromatic harmony. The course aims to develop skills in common-practice part writing, improvisation, composition and analysis, and the use of music notation software in the study of form, non-harmonic tones, triads and seventh chords in inversions, harmonic sequences, secondary dominant function, and modulation. Prerequisite: MUS 110. Offered spring semester. 3 Semester Hours.

MUS 113 Musicianship Skills I

An introductory course in sight-singing and melodic and harmonic perception. The course aims to develop skills in identifying, notating, and performing scales, intervals, rhythms, melodies, and harmonies, and in improvisation. Both in-class singing, and identification/dictation and computer-assisted instruction are used. Offered fall semester. Prerequisite: MU 111 or passage of musicianship entrance exam. 2 Semester Hours.

MUS 140 Vocal Techniques and Diction

A course in which students will learn the fundamentals of voice production, principles of diction for singers, teaching methods, the International Phonetic Alphabet, the elements of interpretation, and stage deportment. Offered fall semester. 2 Semester Hours.

MUS 141 Brass Instruments

A course designed to acquaint the student with performance techniques, teaching methods, literature, and maintenance of brass instruments. Offered spring semester. 1 Semester Hour.

MUS 143 Piano Class I

An introductory course in piano technique. The course seeks to begin to develop skills necessary for successful completion of the piano proficiency examination. Emphasis will be placed on rudimentary sight-reading, improvisation, scales, arpeggios, and harmonic progressions. Music majors (B.A. and B.M.) successfully completing the piano proficiency examination after completing this course may be exempted by the department from the remaining courses (MUS 144, MUS 243, and MUS 244) in the piano class sequence. Offered fall semester. 1 Semester Hour.

MUS 144 Piano Class II

An introductory course in piano technique that builds on skills developed in Piano Class I. The course seeks to begin to develop skills necessary for successful completion of the piano proficiency examination. Emphasis will be placed on rudimentary sight-reading, improvisation, scales, arpeggios, and harmonic progressions. Music majors (B.A. and B.M.) successfully completing the piano proficiency examination after completing this course may be exempted by the department from the remaining courses (MUS 243 and MUS 244) in the piano class sequence. Prerequisite: MUS 143. Offered in the spring semester. 1 Semester Hour.

MUS 150 Introduction to Music Education

A survey of the music education profession and the total music program in various school settings. Historical, sociological, and philosophical foundations of American music education will be considered, as well as the roles of assessment, research, curriculum, and instruction. Twenty clock hours of field experience are required. This introductory course is designed for the prospective teacher in music education and serves as the beginning course in the professional sequence for multiage music teacher candidates. 2 Semester Hours.

MUS 200A Music, the Arts and Culture

The study of the basic elements, forms, stylistic traditions, social functions, and standard literature of vernacular and concert music throughout history. Music's relationships with other art forms, historical periods and movements, religion, and politics are explored, as are the processes of artistic creation and interpretation. Students will begin to develop the tools to evaluate and place into context artistic works. Attendance at concerts and other cultural events throughout the semester is required. 4 Semester Hours.

MUS 201 History and Analysis of Western Music I

A course that consists of an overview of Western music history, followed by more in-depth study of the music of the early Greek period through the Baroque period. The connectedness of music, religion, philosophy, politics, and the arts of the periods is also explored. The course also covers research techniques. Prerequisite: MUS 210. Typically offered Spring semester of odd-numbered years. 4 Semester Hours.

MUS 210 Music Theory III

An advanced course in chromatic harmony and the compositional and analytical systems of the twentieth century through the present. The course aims to develop skills in part writing, analysis, composition, and improvisation. Prerequisite: MUS112. Offered fall semester 3 Semester Hours.

MUS 211 Musicianship Skills II

An intermediate course in sight-singing and melodic and harmonic perception. The course aims to further enhance those skills developed in MUS 113. Prerequisites: MUS 112 and MUS 113. Offered fall semester. 3 Semester Hours.

MUS 213 Musicianship Skills III

An intermediate to advanced course in sight-singing and melodic and harmonic perception. The course aims to further enhance those skills developed in MUS 113, and MUS 211. Prerequisite: MUS 112, MUS 211. Offered spring semester. 3 Semester Hours.

MUS 240 Stringed Instruments

A course designed to acquaint the student with performance techniques, teaching methods, literature, and maintenance of bowed stringed instruments. Co-requisite: MUS 367. Offered fall semester. 1 Semester Hour.

MUS 242 Woodwind Instruments

A course designed to acquaint the student with performance techniques, teaching methods, literature, and maintenance of woodwind instruments. Offered fall semester. 1 Semester Hour.

MUS 243 Piano Class III

An intermediate course in piano technique. The course seeks to continue to develop skills necessary for successful completion of the piano proficiency examination. Emphasis will be placed on rudimentary sight-reading, improvisation, scales, arpeggios, and harmonic progressions. Music majors (B.A. and B.M.) successfully completing the piano proficiency examination after completing this course may be exempted by the department from the remaining course (MUS 244) in the piano class sequence. Prerequisite: MUS 144. Offered fall semester. 1 Semester Hour.

MUS 244 Piano Class IV

An intermediate course in piano technique. The course seeks to continue to develop skills necessary for successful completion of the piano proficiency examination. Emphasis will be placed on rudimentary sight-reading, improvisation, scales, arpeggios, and harmonic progressions. Prerequisite: MUS 243. Offered spring semester. 1 Semester Hour.

MUS 245 Percussion Instruments

A course designed to acquaint the student with performance techniques, teaching methods, literature, and maintenance of percussion instruments. Offered spring semester. 1 Semester Hour.

MUS 250H Music in American Life

A survey of musical practices and genres of the United States of America, how these have reflected and informed groups of Americans throughout history, and how they continue to relate to the American experience today. From the music of Native Americans and the music of the colonial era to the latest in popular music styles, the course includes such diverse areas as folk, church, country, jazz, blues, concert, stage, and popular music. 4 Semester Hours.

MUS 260-270 Large Ensembles

Course designed to study the music of various composers, periods, and styles through performance. Students will have the opportunity to study the conductors as role models in such areas as rehearsal pacing, rehearsal technique, and conducting technique, an aspect of the course that may be of particular interest to B.M. in Music Education students. All performance ensembles are open through audition. Due to the evolving nature of the repertoire prepared each semester by these ensembles, these courses may be taken multiple times, but not for a “change of grade.” Ensembles are not available for audit.

		Semester Hours
MUS 260	Concert Choir	1
MUS 261	Mount Union Alliance Chorale	0.5
MUS 262	Cantus Femina	1
MUS 265	Symphony Orchestra – Woodwinds, Brass, and Percussion	0.5
MUS 266	Symphony Orchestra – Strings	1
MUS 267	Fall Band	1.5
MUS 268	Wind Ensemble	1
MUS 269	Concert Band	0.5

MUS 279 Applied Pedagogy

This course aims to develop appropriate studio teaching techniques through observation, study of pedagogical practices, and study of pedagogical literature in the student’s primary performance area. Successful completion of this course enables students, upon permission of the instructor, to participate as student teachers under faculty supervision in the Preparatory Division of the Department of Music. Prerequisite: Permission of the instructor. 2 Semester Hours.

MUS 300 Special Topics in Music and Society

A variable series of courses that will be individually designed around Mount Union’s Integrative Core requirement for Explorations courses. 4 Semester Hours.

MUS 301 History and Analysis of Western Music II

A study of the history and development of Western music from the Classical period through the present. The connectedness of music, religion, politics, and the arts of the periods is also explored. Typically offered fall semester of odd numbered years. 4 Semester Hours.

MUS 310 Orchestration and Arranging

In this course, students will learn the description, ranges, and use of instruments in scoring for various instrumental ensembles, including orchestra, concert band, and marching band. Some attention may be given to arranging for choral and mixed choral/instrumental ensembles. The course includes the working out of exercises in orchestration and a major scoring project. In-class performances of scoring assignments provide for a practical laboratory experience as part of the course. Prerequisite: MUS 210, MUS 213, and completion of proficiency requirements in piano. 2 Semester Hours.

MUS 314 Music Technology for the Performing Musician

In this course students will learn through hands-on activities the basics of live and studio recording, live sound reinforcement, audio transducers, and self-promotion through digital and social media outlets. The ability to read music is not a prerequisite for this course. 4 Semester Hours.

MUS 315 Digital Sound

The course covers a variety of topics relating to the treatment of sound and sound processing as a digital medium. Students will learn through hands-on activities and on-line materials the basics of digital recording and sound sampling, including the study of synthesis, digital sound processing, music hardware communications, and web-based multimedia. The ability to read music is not a prerequisite for this course. 4 Semester Hours.

MUS 320 Choral Conducting and Literature

This course aims to help the student develop expressive conducting through score analysis, development of rehearsal strategies, control of dynamics and tempo, and communicating with words, gestures, facial and bodily expressions. It also includes a survey of secular and sacred choral literature from the medieval to contemporary eras. The motet, mass, oratorio, madrigal, chansons, and composition in contemporary idioms are analyzed in terms of stylistic development. Prerequisite: Grade of “C” or higher in MUS 210 and MUS 213. Offered fall semester. 4 Semester Hours.

MUS 321 Instrumental Conducting and Literature

Further development of conducting techniques, principles, and skills introduced in Choral Conducting, including score reading, musical terminology, transposition, compound and non-symmetrical meters, and organizing the rehearsal. The course also includes a study of the emergence of instrumental ensembles (including orchestral, band, and jazz ensembles) and the subsequent development of literature for these ensembles. Major materials for the course include the large collection of recordings and scores

available in Sturgeon Music Library. Prerequisite: MUS 210 with a grade of “C” or better and MUS 213 with a grade of “C” or better. Offered spring semester. 4 Semester Hours.

MUS 330 Music Methods: Early Childhood

The study of curricula, methods, activities, and materials for the teaching of music to all children in pre-school through the third grade by means of field observations, demonstrations, and lectures. A weekly one-hour guitar-techniques laboratory and field experience are required in order to complete course assignments. Prerequisites: MUS 210, MUS 213, completion of the proficiency requirements in piano, successful completion of the Department’s sophomore evaluation, and admission to the Teacher Education Program. 4 Semester Hours.

MUS 331 Music Methods: Middle Childhood and Adolescence to Young Adult

The study of curricula, methods, activities, and materials for the teaching of vocal music, including music appreciation and music theory, to all students in the middle childhood and adolescence to young adult program areas. Field experience is required in order to complete course assignments. Prerequisites: MUS 210, MUS 213, completion of the proficiency requirements in piano, successful completion of the Department’s sophomore evaluation, and admission to the Teacher Education Program. 4 Semester Hours.

MUS 350V Hearing Heaven: Death, Dying, and the Music of Mahler

A course that explores the topics of death and the afterlife through the study of the works of Gustav Mahler. Through study and analysis of Mahler’s life, philosophical and religious views, music, and choice of literary texts in his works, students will debate and defend the purpose and meaning of the composer’s multiple statements on death and the afterlife. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours

MUS 352G World Music and Ethnographic Music Study

A survey of global music with emphasis on Native America, India, Indonesia, Japan, and Africa. A brief history of each culture is presented with an analysis of the music, including theoretical systems on which it is based, a study of the instruments and the types of notation used. The course also includes an introduction to ethnographic field research and a field research project. Offered spring semester. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

MUS 361-385 Small Ensembles

Course designed to study the music of various composers, periods, and styles through performance. Of special interest to Music Education majors, these ensembles provide a practical chamber music laboratory that emphasizes the type of coaching to be done in their future teaching careers. Prerequisite: Audition or permission of the instructor. Due to the evolving nature of repertoire prepared each semester by these ensembles, these courses may be taken multiple times, but not for a “change of grade.” Ensembles are not available for audit. 0.5 Semester Hour each.

MUS 361	Accompanying
MUS 362	Master Chorale
MUS 364	Guitar Ensemble
MUS 365	Musical Theatre Workshop
MUS 366	Student Musical
MUS 367	String Chamber Ensemble
MUS 368	Flute Ensemble
MUS 369	Woodwind Ensemble
MUS 370	Clarinet Ensemble
MUS 371	Saxophone Ensemble
MUS 372	Woodwind Quintet
MUS 373	Trumpet Ensemble
MUS 376	Brass Quintet
MUS 377	Brass Ensemble
MUS 378	Percussion Ensemble
MUS 379	Handbell Choir
MUS 380	Jazz Band
MUS 381	Collegium Musicum
MUS 385	Other Ensemble

MUS 430 Music Methods – Instrumental

Organizing the instrumental music program, including concert bands, marching bands, orchestras, and small ensembles; a survey of the problems of instrumental teaching at various age and ability levels; the care and repair of musical instruments; and a study

of methods and materials for class and private instruction. A portion of the course will be devoted to charting and scoring techniques for marching band, including the use of various computer software packages. Field experience is required in order to complete course assignments. The Ohio Competency Based Model for Arts Education will be addressed in this course. Prerequisites: MUS 141, MUS 240, MUS 242, MUS 245, MUS 320, MUS 321, and admission to the Teacher Education Program. 4 Semester Hours.

MUS 438 Clinical Practice: Multi-Age Music

The candidate assumes responsibility for teaching music in a school setting for a minimum of 300 total clock hours. An additional 30 clock hours of field/clinical experience are required prior to the beginning of clinical practice. The course is graded S/U. The Field Placement Coordinator arranges field placement and required group seminars. Prerequisites: Completion of MUS 320 and MUS 321 with a “C” or better, proficiency requirements in piano, and completion of all other coursework required for the Bachelor of Music degree. See Entry into Clinical Practice and the Music Student Handbook for additional prerequisites. 12 Semester Hours.

MUS 450 Special Projects in Music

Special work adapted to majors in music who wish to pursue fields of interest not covered in the regular departmental offerings. May be repeated. Some possible areas of exploration include advanced form and analysis, counterpoint, advanced conducting, musicology, and pedagogy. Permission of the instructor is required. 1-4 Semester Hours.

MUS 460-481 Applied Lessons in Music (Private Instruction)

Courses designed to guide the student in gaining proficiency on their instrument. The student will work one on one with an expert teacher to learn performance techniques, literature, wellness issues, and practice techniques for the instrument, as well as providing the potential future music educator with an example to emulate in the techniques of private teaching and pedagogy. All students registered for private music lessons must stop at the Visual and Performing Arts Office, located in Cope Music Hall, during the first week of the semester to make arrangements for lesson times. Due to the evolving nature of repertoire prepared for private music lessons, these courses may be taken multiple times, but not for a “change of grade.” Students must meet departmental requirements regarding recital attendance (see *Music Student Handbook* for details). Extra fee required. Credit variable, 1-2 Semester Hours.

MUS 460	Piano
MUS 461	Organ
MUS 462	Harpsichord
MUS 463	Voice
MUS 464	Violin
MUS 465	Viola
MUS 466	Violoncello
MUS 467	String Bass
MUS 468	Electric Bass
MUS 469	Guitar
MUS 470	Harp
MUS 471	Flute
MUS 472	Oboe
MUS 473	Clarinet
MUS 474	Saxophone
MUS 475	Bassoon
MUS 476	Trumpet
MUS 477	French Horn
MUS 478	Euphonium
MUS 479	Trombone
MUS 480	Tuba
MUS 481	Percussion

MUS 482 Applied Composition and Analysis

This course is designed to guide the student in gaining proficiency in composition. The student will work one on one with an expert teacher to learn music composition techniques, literature, scoring, and analysis, wellness issues, as well as providing the potential future music educator with an example to emulate in the techniques of private teaching and pedagogy. Due to the evolving nature of private music composition lessons, these courses may be taken multiple times, but not for a “change of grade”. Students must meet departmental requirements regarding recital attendance (see *Music Student Handbook* for details). Extra fee required. Credit variable. 1-2 Semester Hours.

MUS 486 Collaborative Piano Recital

This course is designed for pianist students preparing and performing a collaborative piano recital. Performance of the recital is contingent upon the student performing and passing a pre-recital hearing no fewer than four weeks before the proposed recital date. Prerequisite: Permission of instructor. This course is graded S/U. 1 Semester Hour.

MUS 487 Senior Project: Bachelor of Arts in Music

Independent study/senior research paper and/or full recital or lecture-recital. Proficiency requirements in piano must be passed before registering for this course. Please see the *Music Student Handbook* for pre-recital hearing requirements for recitals and lecture-recitals. Prerequisites: MUS 213, senior standing, and permission of the instructor. 3 Semester Hours.

MUS 488 Joint Recital

For students giving joint recitals. Please see the *Music Student Handbook* for pre-recital hearing requirements. Prerequisites: Sophomore or junior standing and permission of the instructor. This course is graded S/U. 1 Semester Hour.

MUS 489 Recital

The student will prepare and present a full recital to be performed on their primary instrument. Please see the *Music Student Handbook* for pre-recital hearing requirements. Prerequisites: MUS 213, junior or senior standing, and permission of the instructor. This course is graded S/U. 1 Semester Hour.

MUS 490 Senior Recital

This course consists of an independent study/senior research paper and full recital. Proficiency requirements in piano and basic musicianship skills must be passed before registering for this course. Please see the *Music Student Handbook* for pre-recital hearing requirements. Prerequisites: MUS 213, senior standing, and permission of instructor. This course is graded S/U. 2 Semester Hours.

MUS 494 Honors Thesis/Project

Please see All-University 494 course description.

Nursing

NUR 120 Introduction to Professional Nursing

The course introduces students to nursing as a profession and a discipline. An exploration of the historical development of nursing, evolution of nursing role, and health care system delivery is presented. The role of the professional nurse and scope of practice is examined. Introduction to core health care professional competencies and concepts related to nursing practice concepts are introduced. The philosophy, conceptual framework, and program outcomes of the nursing program are introduced. An emphasis on the acquisition of basic knowledge of social justice, ethical values, holistic care, and respect for diversity, human dignity, and altruism is included. Prerequisite: None. 2 Semester Hours.

NUR 130 Health Promotion Throughout the Life Span

This course is an overview of human development from conception to death, with a focus on health promotion throughout the life span to aid in the assessment and professional care of individuals. The course will examine theoretical perspectives, and common physical, cognitive, emotional, and psychosocial developmental milestones. Prerequisites: Admission to Nursing major or approval of chair. 4 Semester Hours.

NUR 180 Theoretical Foundations of Professional Nursing

The course introduces students to the theoretical foundations of professional nursing practice. Selected theories and models from nursing and non-nursing disciplines are discussed. The role of theory in the advancement of nursing science, practice, promotion of health and wellness is examined. The conceptual framework for the nursing program is re-introduced. Emphasis is placed on the acquisition of knowledge and skills to promote health and enhance nurse-client communication and client education. The significance of client interaction with the environment and diversity in health care is examined. Prerequisite: None. 2 Semester Hours.

NUR 190 Introduction to the Nursing Process

This course introduces basic concepts of nursing practice. The nursing process is introduced as the fundamental organizing framework of nursing care planning and delivery. Components of the nursing process and relationship to critical thinking are discussed. Formulating a comprehensive care plan using the nursing process and concept/mind mapping to plan, implement, and promote the health of the client and community are examined. Concepts including problem solving, decision making, communication, documentation, community health, and ethical/legal principles, are discussed. Scope of nursing practice with emphases on ethical, legal and organizational factors that regulate the practice of the professional nurse and health care is explored. Prerequisite: Admission to the Nursing major or approval of the Chair. 2 Semester Hours.

NUR 220 Introduction to Concepts in Nursing Practice

This course introduces basic concepts of nursing practice. The nursing process is introduced as the fundamental organizing framework of nursing care planning and delivery. Components of the nursing process and relationship to critical thinking are discussed. Formulating a comprehensive care plan using the nursing process and concept/mind mapping to plan, implement, and promote the health of the client and community is examined. Practical concepts, including problem solving, decision making, communication, documentation, community health, and ethical/legal principles, are discussed. The scope of nursing practice with emphases on ethical, legal and organizational factors that regulate the practice of the professional nurse and health care is explored. A focus on nursing care of older adults is discussed. Prerequisites: NUR 120, NUR 180, BIO 210, BIO 211, CHE 110 and CHE 115. 2 Semester Hours.

NUR 240 Health Assessment & Physical Examination Across the Lifespan

This course provides the student with basic knowledge and skills to conduct a complete health history and systematic physical examination for clients across the lifespan with emphasis on adult clients as they adapt to stressors in the internal and external environment. A holistic and systematic approach to assessment of the physical, psychosocial, developmental, spiritual, and emotional aspects is utilized, taking into consideration the client's sociocultural and environmental context. Normal physical findings and variations in health & wellness, as well as common relevant laboratory and diagnostic tests, are examined and recognized. Application of the appropriate medical terminologies, therapeutic communication, and accurate documentation is emphasized. Knowledge and skills in information management and patient-care technology in assessment, communication, and documentation are introduced. Emphasis is given to the role of the nurse as collaborator, communicator, and teacher. Students practice assessment skills in the laboratory setting and long-term facility as part of the course component. Prerequisites: NUR 130, NUR 190, BIO 210, BIO 211, CHE 110, CHE 115 and PSY 225. 4 Semester Hours.

NUR 260 Basic Clinical Pharmacology for Nursing Practice

This course has theoretical and laboratory components. The course examines mechanisms of drug action, indications and contraindications of drug therapy, nursing interventions related to dosage, and therapeutic effects as well as toxic and expected side effects of various medications. Effects of drug therapy on health promotion, health maintenance, and restoration will be explored. Current nursing and related scientific research in medication administration will be discussed in relation to current practice. Emphasis will focus on the care of clients receiving medication across the lifespan and in culturally and socioeconomically diverse settings. Techniques involved in the calculation of drug dosages, regulation and maintenance of controlled substances, I.V. therapy, and administration of medications in parenteral and non-parenteral forms are presented and practiced. Professional issues related to the role of the professional nurse in medication administration are explored. Prerequisites: NUR 130, NUR 190, BIO 210, BIO 211, CHE 110 and CHE 115. 4 Semester Hours.

NUR 262 Basic Nutrition for Nursing Practice

The course introduces the principles of basic normal nutrition and explores basics of nutrition for clients with altered health conditions. The emphasis is on the role of nutrition management in promoting and maintaining health of individuals across the lifespan. Health nutrition for healthy individuals and selected altered health conditions is addressed. Prerequisites: BIO 210 and BIO 211. 2 Semester Hours.

NUR 290 Foundations of Nursing Practice

This is a theoretical and practical course that introduces the student to basic nursing concepts. Students are prepared to provide skilled nursing care, including basic comfort, hygienic and self-care interventions, for older adult clients. Emphasis is placed on scientific nursing practice and evidence, basic human needs, and the care of clients with diverse needs. Communication skills and sensitivity to developmental and cultural needs, and holistic care are emphasized. The nursing process is the organizing framework for the care provided to meet human needs. Students will develop competencies in therapeutic intervention skills for older adult clients with altered health states in the laboratory and clinical settings. Considerations for professional nursing practice standards are examined. Prerequisites: NUR 240 and NUR 260. If not previously taken, BIO 290 will be a corequisite. 6 Semester Hours.

NUR 295 Introduction to Nursing Informatics

This course is designed to explore the application of information systems and technology in health care and nursing practice. Use of computers, electronic technologies, and selected computer applications of data management through information systems and telecommunications is examined. The impact of these technologies on nursing practice, administration, teaching, and research is explored. The role of the nurse, responsibilities, and the legal, ethical and social implications are discussed. Prerequisites: NUR 120 and NUR 180, or approval of the Chair of the Department. 2 Semester Hours.

NUR 340 Nursing Care of the Childbearing Family and Newborn

This course introduces students to theories and practical skills related to the care of the childbearing family, newborn infant, and women's health. Students examine the childbearing family and newborn infant needs, responses, and adaptations to the physical, physiological, psychological, and environmental changes and the internal and external stressors. The nursing process is utilized to manage the care of the family and newborn infant when planning and implementing therapeutic nursing interventions, promoting adaptive responses, and/or supporting death with dignity. Examination of the best evidence for practice and the application of knowledge learned from the liberal arts and sciences are emphasized when providing holistic, ethical, and culturally sensitive care for the family and their newborn infant in a diverse care setting. Utilization of effective oral, written, and electronic communication

with the childbearing family and health care team is exercised. Collaboration with the health care team in utilizing resources to promote adaptation to the environment is emphasized. Concepts of responsibilities and accountability and consideration of policies and standards for safety and quality when implementing and delegating care are reinforced. A clinical rotation in various clinical care units provides practical application of the content of this course. Prerequisites: All 200-level NUR courses and approval of the Department Chair. 4 Semester Hours.

NUR 360 Nursing Care of Adult Clients with Psychiatric Mental Health Conditions

This course focuses on the care and management of clients with psychiatric mental health conditions. Therapeutic nursing intervention with clients at varying points on the mental health continuum who are experiencing internal and external stressors is explored. Application of mental health concepts to nursing practice is stressed as well as collaboration with an interdisciplinary team to meet client needs and foster a therapeutic environment. Communication skills and therapeutic use of self are emphasized as the student interacts with the client individually and in groups to promote, maintain, restore, and reorganize health or to support death with dignity. Accountability and responsibility are expected as the student grows in self-knowledge and awareness of how the nurse's behaviors impact care. Theoretical and empirical knowledge from liberal arts and sciences provide the basis for critical thinking and application of therapeutic nursing intervention with the client who has mental health needs. The delegation of nursing responsibilities in mental health settings will be examined. The use of technology and research data will be emphasized to collect data from various resources. Prerequisites: All 200-level NUR courses and approval of the Department Chair. 4 Semester Hours.

NUR 370V Evidence-Based Practice and Informatics in the Nursing Profession

This course introduces the students to explore the value of nursing research for evidence-based practice and its contribution to quality patient outcomes; students have opportunities for utilizing research as evidence to make clinical decisions affecting patient outcomes. The course also allows students to explore the impact of informatics on nursing practice, administration, teaching, and research. Prerequisites: NUR 130 and NUR 190. If not previously taken, basic statistics will be a corequisite. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

NUR 380 Nursing Care of Adults with Acute & Chronic Health Conditions I

This course has theoretical and practical components. The course introduces students to selected knowledge and skills of acute and chronic health conditions for adults in acute and ambulatory care settings. Students examine the adult clients and their families' needs, responses, and adaptations during periods of acute and chronic illness. The nursing process is utilized to manage the care of adult clients and their families when planning and implementing therapeutic nursing interventions, promoting adaptive responses, and/or supporting death with dignity. Examination of the best evidence for practice and the application of knowledge learned from the liberal arts and sciences are emphasized when providing holistic, patient-centered, ethical, and culturally sensitive care for clients and their families in diverse acute and ambulatory care settings. Utilization of effective oral, written, and electronic communication with client, family, and health care team is exercised. Collaboration with the health care team in utilizing resources to promote adaptation to the environment is emphasized. Students examine the concepts of responsibilities and accountability and consider policies and standards for safety and quality when implementing and delegating care with acutely and chronically ill adult clients. A clinical rotation in various clinical care units provides practical application of the content of this course. Prerequisites: All 200-level NUR courses, BIO 200 and BIO 290. 6 Semester Hours.

NUR 390 Nursing Care of Adults with Acute & Chronic Health Conditions II

This course is a continuation of NUR 380. The course introduces students to additional selected content and skills related to the care of adult clients with acute and chronic health conditions in acute and ambulatory care settings. Students examine the adult clients and their families' needs, responses, and adaptations during periods of acute and chronic illness. The nursing process is used to manage the care of adult clients and their families when planning and implementing therapeutic nursing interventions, promoting adaptive responses, and/or supporting death with dignity. Examination of the best evidence for practice and the application of knowledge learned from the liberal arts and sciences are emphasized when providing holistic, patient-centered, ethical, and culturally sensitive care for clients and their families in diverse acute and ambulatory care settings. Utilization of effective oral, written, and electronic communication with client, family, and health care team is exercised. Collaboration with the health care team in utilizing resources to promote adaptation to the environment is emphasized. Concepts of responsibilities and accountability and consideration of policies and standards for safety and quality when implementing and delegating care with acutely and chronically ill adult clients are reinforced. A clinical rotation in various clinical care units provides practical application of the content of this course. Prerequisites: All 200-level NUR courses, BIO 200 and BIO 290. 6 Semester Hours.

NUR 420 Community Health Nursing

This course introduces students to the nursing theory and public health theory applied to promoting and preserving health of populations. The focus of practice is the community as a whole and the effect of the community's health status and resources on the health of individuals, families, and groups. Care is provided within the context of preventing disease and disability and promoting and protecting the health of the community as a whole. Students will apply therapeutic communication and nursing interventions using the nursing process to populations within the community. Integration of evidence from nursing research and knowledge from nursing and liberal arts and sciences are emphasized. Awareness of the influence of the cultural, political, socioeconomic, regulatory, demographic, environmental, and global factors on the population's health patterns and status at the

local, state, national, and international levels is examined. Students explore the leadership role, accountability and responsibility of the nurse in the health care delivery systems and public policy and in maintaining, promoting, and restoring the health of population in communities. Students will apply principles of critical thinking and best evidence to assess, plan, implement, and evaluate population at risk. The use of technology and research data will be emphasized to collect population data from various resources. Prerequisites: All 200-level NUR course, and approval of department chair. 4 Semester Hours.

NUR 430 Professional Leadership & Management in Nursing Practice

This course provides an introduction and overview of leadership, management, and organizational behavior in health care. Students will integrate theory with practice in the development of skills necessary to provide organizational and systems leadership in health care settings. Leadership development for entry-level professional nursing practice is emphasized. Key leadership concepts of management, leadership, followership, and organizational structure as frameworks for managing delivery of nursing care to groups of clients in an acute care setting are examined. The transition from student role to professional nursing role is emphasized. Components of leadership including change processes, collaboration and conflict resolution, intra- and inter-professional communication and teamwork, delegation and supervision, motivation, staffing and scheduling, ethical decision-making, and accountability issues are discussed. The course addresses building cultures of quality and safety in complex health care delivery systems based on organizational strengths, health policy, and legislative factors. Prerequisite: All 200-level NUR courses and approval of the Department Chair. 4 Semester Hours.

NUR 440 Nursing Care of Clients with Critical Health Conditions

This course introduces students to the management of the care of adult clients and their families who are experiencing conditions that are life threatening and/or involve multiple body systems in acute care settings. Students examine the adult clients and their families' needs, responses, and adaptations during periods of critical and complex health conditions. Critical thinking, clinical reasoning and decision-making, and problem-solving skills are emphasized when assessing, planning, implementing, and evaluating the client/family needs and responses to care. Utilization of the best evidence for practice and integration of knowledge learned from nursing and the liberal arts and sciences are emphasized when promoting and providing holistic, patient-centered, safe, quality, ethical, and culturally sensitive care for clients and their families in diverse acute care settings. Competencies in communication, documentation, application of technologies, leadership and management, delegation, time management, prioritization, coordination and evaluation of client care, and interdisciplinary collaboration are enhanced. A clinical rotation in various critical care units provides practical application of the content of this course. Prerequisites: All 300-level NUR courses. 6 Semester Hours.

NUR 450 Nursing Care of Children & Parents

This course introduces students to theories and practical skills important to the care of children and their families as clients on the health continuum who are in varying stages of growth and development in acute and ambulatory care settings. Emphases are placed on the children and their families' needs, responses, and adaptations to the physical, physiological, psychological, developmental, and constant environmental internal and external stressors. The nursing process is utilized to manage the care of children and families when planning and implementing therapeutic nursing interventions, preventing diseases, promoting adaptive responses, and/or supporting death with dignity. Application of the best evidence for practice, knowledge learned from the liberal arts and sciences, and technologies are emphasized when providing holistic, client-centered, ethical, and culturally sensitive care for children and families in diverse health care settings. Students perform effective oral, written, and electronic communication and documentation in the interactions with children, families, and health care teams. Collaboration with health care teams, children, and families in utilizing resources to promote adaptation to the environment is emphasized. Concepts of responsibilities and accountability and consideration of policies and standards for safety and quality when implementing and delegating care are stressed. A clinical rotation in various clinical care units provides practical application of the content of this course. Prerequisites: All 200-level NUR courses and approval of the Department Chair. 4 Semester Hours.

NUR 480 Professional Role Development & Transition into Nursing Practice

The course prepares senior students to make a smooth transition into the role of entry-level professional nurse. Students apply leadership and management theory and research findings to professional practice as a direct-care provider and coordinator of care to groups of clients. In their practicum, students communicate and collaborate with health care providers and clients to plan, implement and evaluate therapeutic nursing interventions for culturally and ethnically diverse individuals, families, and/or groups in acute care settings. In the classroom, students engage in seminar activities in which they integrate knowledge, values, and practical experiences from current and previous learning in nursing and the liberal arts and sciences throughout their nursing program. This course builds upon content taught in the prerequisite courses and is based on standards and guidelines by the American Nurses' Association and the American Association of Colleges of Nursing. Taken in the senior year of the nursing program. Prerequisites: All 300-level NUR courses and approval of the Department Chair. 4 Semester Hours.

Peacebuilding and Social Justice

PSJ 150H Introduction to Peacebuilding and Social Justice

This course introduces students to the interdisciplinary field of peace and justice studies. The study of peace, conflict, and social justice draws from many fields, including (but certainly not limited to) religious studies and theology, literature, philosophy, communication, history, political science, sociology, and psychology. This course emphasizes a humanistic approach to the field of peace and justice studies, and students will explore the methods, content, and key questions and issues in the field. The course investigates theories of violent conflict and explores the theories and practices of strategic, effective, and just peace-making, drawing from a variety of academic disciplines. The course also provides students with basic conflict mediation and resolution skills. The course emphasizes written and oral communication skills, particularly analytical and persuasive argument. 4 Semester Hours.

PSJ 300V Building Community, Building Peace

How has the breakdown of community contributed to the rise of conflict? Locally? Regionally? Nationally? Globally? Is peace possible in the absence of community? This course is an examination of the roots of conflict and the role of peace building in the context of community(ies) – literal and figurative, real and imagined, large and small. Students will engage with a variety of ways in which community has been theorized, conceptualized and experienced from a range of disciplinary and interdisciplinary perspectives. Students will bring their major/minor training to bear on the question of community and varieties of community as well as conflict and sources of conflict to answer the question – in an interdisciplinary context – of how building community is relevant to the question of peace. Prerequisite: Completion of IC Explorations requirement, or permission of the instructor. 4 Semester Hours.

PSJ 495 Independent Study

Independent study projects can involve an extensive research project and may include an extended service learning project framed by an appropriate academic context which may integrate elements of the student's major. 4 Semester Hours.

Philosophy

PHL 100H Introduction to Philosophy

Reflection and critical thinking centered on some of the basic problems and questions in philosophy, such as: What is the nature of ultimate reality? How do we know that what we believe is true? Is there more to our mind than just our physical brain? Do we really have free will? Can the existence of God be proven or disproven? What makes a choice good or evil? 4 Semester Hours.

PHL 105H Philosophy and Film

A survey of basic problems in philosophy, e.g., the nature of ultimate reality, the problem of knowledge, human nature and the self, freedom and determinism, the existence of God, good and evil and the meaning of life. This course provides the student with an introduction to philosophy that uses movies to illustrate key concepts relevant to the philosophical problems covered in the course. 4 Semester Hours.

PHL 120H Contemporary Moral Problems

This course explores some of the major moral issues confronting contemporary society. Following a brief review of ethical theory, topics discussed may include abortion, physician-assisted suicide, war and pacifism, capital punishment, sexual ethics, legal regulation of drugs, affirmative action, civil disobedience, surrogate parenting, cloning and genetic engineering, global poverty, and environmental ethics. 4 Semester Hours.

PHL 199 Special Topics in Philosophy

See All-University 199 course description.

PHL 210 Logic

An introduction to the art of correct reasoning, including an introduction to symbolic logic as well as treatment of such topics as: the nature of argument, induction, deduction, validity, soundness, aspects of language which tend to interfere with logical thought, definition, role of emotion, types of disagreement, and fallacies. Special emphasis is placed upon recognizing and overcoming hindrances to critical thinking and upon recognizing misleading, fallacious or irrational appeals that attempt to manipulate our beliefs and actions. 4 Semester Hours.

PHL 220H Ancient Greek Philosophy

Socrates, Plato and Aristotle form the core of this introduction to the early history of Western philosophy. Other areas covered may include Pre-Socratics such as Pythagoras and Zeno, later Greek and Roman philosophies such as Stoicism and Skepticism, and early Christian and Medieval philosophies influenced by Greek ideas. Ancient philosophies from other cultures may be presented as points of comparison. 4 Semester Hours.

PHL 230V Modern Philosophy

An introduction to Western philosophy beginning with the Renaissance and the Scientific Revolution, with an emphasis on the Enlightenment and Modern eras in Europe from the 17th to the 19th centuries. The course will include discussion of revolutionary

thinkers such as Descartes, Hobbes, Locke, Hume and Kant. Some more recent philosophical developments may also be covered. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 250H Philosophy of Religion

This course examines standard attempts to establish the rationality of belief in God and the challenges raised to those attempts by the evil in the world. Also to be considered are issues such as what God is like and how God is related to our lives and the limitations of this world. 4 Semester Hours.

PHL 260V Aesthetics

An examination of our aesthetic responses to both the natural world and works of art, including painting, architecture, literature, music and film. Topics discussed may include the nature of the creative process, what counts as art, criteria for judging artworks, the relationship between art and morality/politics, and the aesthetic status of forgeries. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 270V Ethics

An examination of ethical theories about what makes certain actions right or wrong, good or evil, virtuous or vicious, and what constitutes good character and a well-lived life. Some application of ethical theory to practical moral problems will also be included. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 280H Bio-Medical Ethics

Following a brief review of ethical theory, class discussion will focus on ethically complex issues involved in current medical practice. Topics may include research ethics, end-of-life decision-making, abortion, environmental issues, genetic testing and engineering, the just distribution of medical resources, and the responsibilities of healthcare providers concerning confidentiality, truth-telling, and informed consent. 4 Semester Hours.

PHL 290V Environmental Ethics

This course introduces students to ethical issues associated with the relationship between humans and the natural world. Do animals have rights? Do trees? What about entire ecosystems? Can traditional human-centered systems of ethics adequately answer such questions or is a more radical approach to environmental ethics required? Depending upon student interests, the course may offer opportunities for reflective wilderness experiences and/or service learning. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 291 The Wilderness

This course will focus on the nature and value of the wilderness. Is there an ethical obligation to preserve wilderness areas? How can humans visit and use wilderness areas responsibly? Students will participate in an extended trip to a wilderness area and will engage in service learning, discussion, and reflection activities exploring the nature and value of the wilderness and problems associated with wilderness preservation. Prerequisite: permission of instructor. 2 Semester Hour.

PHL 299 Special Topics in Philosophy

See All-University 299 course description.

PHL 310V Experience, Knowledge, and Reality

This course is a survey of classical and current attempts to define knowledge and rational belief and to determine what, if anything, we know. The course examines questions like such as: What conditions must be met in order for someone to be entitled to say that they know something is true, as opposed to just believing it? How should one decide what is worthy of belief? It pays particular attention to the interplay between science and philosophy on this issue. What is the difference between a genuine science and a mere pseudoscience? Does science provide us with an increasingly accurate, objective picture of an independently existing reality, or is all truth, even scientific truth, manufactured? Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 semester hours.

PHL 320V Philosophy of Mind/Artificial Intelligence

This course examines contemporary philosophical theories of the mind. The course includes such topics as the mind/body problem, the problem of consciousness and the problem of mental representation. Special attention is paid to the question of artificial intelligence and to the relation of cognitive psychology, neuroscience, and computer science to the philosophy of mind. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 335V Business Ethics

The course will examine key ethical concepts and issues that apply to careers in business. The course will cover theories of ethics and will also use practical examples. In particular, the content of the course will include the ethical standards applicable to the practice of financial planning. Prerequisite: junior standing or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHL 350 Social Responsibility and Personal Well-Being

This is an experientially-based course that looks at what it means to operate in a socially responsible manner in today's world. It is assumed that service and other forms of helping behavior can be a significant component of social responsibility and so the class discusses service extensively and provides both local and international opportunities for service. One of these service components involves a week-long Spring Break service project in a developing country. In addition to service, the course examines such concepts as sustainability (environmental, economic and social), responsible consumer behavior, economic fairness and social justice. By examining these issues and participating in the service projects, it is hoped that students emerge committed to living in a more socially responsible way. Enrollment by permission of the instructor only. Course offered only in Spring Semester. Application for Course in Fall Semester. 4 Semester Hours.

PHL 399 Special Topics in Philosophy

See All-University 399 course description.

PHL 410 Independent Study

Advanced research in philosophy. Primarily for philosophy majors at the junior or senior level. Students may repeat for different topics. Prerequisite: Permission of instructor. Credit variable, 1-4 Semester Hours.

PHL 420 Research Portfolio

Primarily for philosophy majors at the senior level. The completion and presentation of the Research Portfolio culminates the research requirement for the philosophy major. 1 Semester Hour.

PHL 494 Honors Thesis/Project

See All-University 494 course description.

Physics

PHY 100N How Things Work

A non-mathematical introduction to the science of physics intended for non-science students. Topics covered will be from elementary mechanics, properties of matter, sound, heat, electricity, magnetism, light, atomic physics, nuclear physics and relativity. Emphasis will be on the development of a solid qualitative understanding of the physical world. Demonstrations and activities involving physical phenomena will accompany lectures. Six contact hours per week. 4 Semester Hours.

PHY 101N General Physics I

A practical and theoretical introduction to physics covering elements of classical mechanics including kinematics, forces, momentum conservation, energy conservation, work, thermodynamics, and rotational motion. Elements of vector analysis and calculus are presented. Three class hours and one three-hour laboratory session per week. Corequisite: MTH 140, MTH 141 or higher. 4 Semester Hours.

PHY 102 General Physics II

A practical and theoretical introduction to physics covering elements of electricity and magnetism, waves, optics and quantum mechanics. Elements of vector analysis and calculus are presented. Three class hours and one three-hour laboratory session per week. Prerequisite: PHY 101 with a grade of "C-" or higher (or permission of the instructor) and MTH 140. 4 Semester Hours.

PHY 120N Astronomy

This course is designed to introduce students to the field of astronomy. Topics covered include historical astronomy, the Solar System, stars, galaxies, and cosmology. Laboratory sessions include observing constellations and astronomical objects through the observatory's telescopes. Six contact hours per week. 4 Semester Hours.

PHY 199 Special Topics in Physics

See All-University 199 course descriptions.

PHY 200V Planets and Moons

This course is an introduction to the physical and geological study of the properties, origin and evolution of planets, moons, comets and asteroids. The methods used to explore our solar system and planetary systems of other stars will also be studied. Four class hours per week. Prerequisite: MTH 100 or equivalent mathematics in high school. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHY 201V Einstein's Universe – The Big Bang, Black Holes and Beyond

A study, accessible to non-science majors, of modern scientific cosmology and other ramifications of Einstein's General Theory of Relativity. What is the nature of the universe, and what rules govern it? What is the history of the universe, and what is its future? Do black holes really exist? Could there be more than one universe? These questions, scientific theories related to them, and the observations that lead to those theories will be discussed. Four class hours per week. Prerequisite: MTH 100 or equivalent mathematics in high school. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHY 211 Modern Physics

A laboratory-based study of topics in modern physics including special relativity, the quantization of matter and energy, atomic structure, the Schrodinger equation, the basic physics of atoms, spectroscopy, and the periodic table. Two three-hour lecture/laboratory meetings per week. Prerequisite: PHY 102. Corequisite: MTH 142. 4 Sem. Hrs.

PHY 218 Thermodynamics and Statistical Mechanics

A study of thermodynamics, statistical mechanics and kinetic theory. Core concepts include entropy and the second law of thermodynamics, the canonical probability distribution and the partition function and the chemical potential. Additional topics may include photons and phonons, chemical and phase equilibrium, transport processes and critical phenomena. Four class hours per week. Prerequisites: PHY 101, MTH 142 or permission of the instructor. 4 Semester Hours.

PHY 220 Observational Astronomy

An introduction to aspects of modern observational astronomy. Includes astronomical instrumentation, time, star charts and catalogs, astrometry, photometry, spectroscopy and other selected topics. Particular attention is paid to CCD imaging and data reduction. Three class hours per week plus laboratory and evening observing sessions on individually arranged schedules. Prerequisites: PHY 120 and MTH 140, or permission of the instructor. 4 Semester Hours.

PHY 230V Electronics

A laboratory-based course in the basic principles of practical and theoretical modern electronics. Topics include circuit analysis, semiconductor devices, operational amplifiers, digital electronics and computer interface. Two three-hour lecture/laboratory meetings per week. Additional fee applies. Prerequisite: PHY 102 with a grade of C- or higher. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHY 254V Science, Sound and Music

This course examines the science of sound, music and acoustics, exploring ideas including how sound is produced and perceived, the effect of room acoustics on sound and how musical instruments work. Four class hours per week. Prerequisites: MTH 100 or equivalent mathematics in high school. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PHY 270 Seminar I

Students review relevant topics from physics and astronomy by presenting formally to the class. 1 Semester Hour.

PHY 299 Special Topics in Physics

See All-University 299 course description.

PHY 302 Analytical Mechanics

A study of classical statics and dynamics including translational and rotational motion, work and energy, damped and undamped oscillating systems, wave propagation, Lagrange's equations, the Hamiltonian and tensors. Four class hours per week. Prerequisites: PHY 101 and MTH 142. 4 Semester Hours.

PHY 307 Electromagnetic Theory

Topics to be covered include electrostatics and electrostatic energy, dielectric media, electric currents, magnetic properties of matter, electromagnetic induction and Maxwell's equations. Four class hours per week. Prerequisites: PHY 102 and PHY 302. 4 Semester Hours.

PHY 312 Atomic, Nuclear and Particle Physics

A continued exploration of topics in modern physics including quantum statistics, nuclear physics, solid state physics and elementary particles. Four class hours per week. Prerequisite: PHY 211. 4 Semester Hours.

PHY 322 Astrophysics

Introduction to radiative transport theory, stellar atmospheres and interiors. Selected topics from among interstellar matter, variable stars, stellar dynamics, star clusters, galactic structure, general relativity and cosmology are treated. Four class hours per week. Prerequisites: PHY 120. MA 142 (must be taken previously or concurrently). 4 Semester Hours.

PHY 370 Seminar II

Students review relevant topics from physics and astronomy by presenting formally to the class. Presentations are longer and more in depth in comparison to PHY 270. Prerequisites: PHY 270. 1 Semester Hour.

PHY 399 Special Topics in Physics

See All-University 399 course description.

PHY 409 Quantum Mechanics

Historical introduction, uncertainty principle, barrier penetration, Hilbert space, Schrodinger formulation, Heisenberg formulation, SU groups, operator concepts, Poisson, Lagrange, and commutator brackets, Dirac four-vectors, introduction to field quantization, and perturbation theory are among the topics presented. Four class hours per week. Prerequisites: PHY 211, PHY 302 and MTH 333. 4 Semester Hours.

PHY 420 Condensed Matter Physics

A study of the physical properties of condensed phases of matter including Crystal Lattice Structures, X-ray Diffraction and Reciprocal Lattices, Physical and Thermal properties of Phonons, Conductivity, the Hall Effect and Magnetoresistance, Thermoelectric Effects in metals, the Fermi-Dirac Distribution, Thermal and Conductive properties in a Free Electron Gas, Periodic Potentials and Bloch's Theorem, Classical and Quantum Crystals, and Semiconductors. Four class hours per week. Prerequisites: PHY 211. 4 Semester Hours.

PHY 445 Methods of Mathematical Physics

A study of the interface between mathematics and physics focusing particularly on partial differential equations. Mathematical modeling and various analytical and numerical solutions will be covered. Additional topics may include special functions, the calculus of residues and group theory. Four class hours per week. Prerequisites: PHY 302 or MTH 333. 4 Semester Hours.

PHY 456 Research

This course may serve as the Senior Culminating Experience if arranged in advance with the student's advisor. Class meetings and scheduling are arranged with each student individually; the time commitment expected is eight hours per week Prerequisites: Declared and accepted major in physics and permission of the department chair. May be repeated for credit. 4 Semester Hours.

PHY 460 Senior Thesis I

This course involves the independent investigation of a problem in physics and/or astronomy. Emphasis is on generating appropriate research questions, reading relevant literature and designing a realistic plan of study. The course meets 1 hour a week with all enrolled to discuss thesis progress, composing resumes, taking the GRE exams, and applying for jobs and/or graduate school. When combined with PHY 461, this course is designed to fulfill the Senior Culminating Experience requirement. Prerequisites: Permission of the instructor. 2.0 Semester Hours.

PHY 461 Senior Thesis II

This course involves the independent investigation of a problem in physics and/or astronomy. Emphasis is on executing the plan of study formulated in PH 460 and analyzing and presenting the results. The course meets 1 hour a week with all enrolled to discuss thesis progress and transitioning to graduate school, industry or other employment. When combined with PHY 460, this course is designed to fulfill the Senior Culminating Experience requirement. Prerequisite: PHY 460. 2.0 Semester Hours.

PHY 494 Honors Thesis/Project

See All-University 494 course description.

PHY 499 Internship in Physics

An experience-based course designed for juniors and seniors. Students are placed in appropriate laboratories or agencies where previous classroom learning may be integrated with a work experience. The exact location, program and method of evaluation are provided in a contract drawn between the student, the faculty sponsor and the host internship supervisor. Registration by arrangement with the faculty sponsor and departmental chair. Specific restrictions may apply. 1-16 Semester Hours.

Political Science

POL 100S Be the Change: An Introduction to Public Service

This course provides students with a comprehensive introduction to public service, which will be defined and contrasted with “not-for-profits” and the “private sector.” There will be a broad analysis of the role of government in contemporary American society. Several topics pertaining to applied public service will be introduced: the organization, responsibilities and limitations of the public sector, organizational theory, bureaucratic behavior, decision making, public finance, intergovernmental relations and comparative approaches to governing. 4 Semester Hours.

POL 105S US Politics in Crisis: American Government, Politics, and Society

This course provides a comprehensive introduction to the structure and processes of government in the United States. It is a survey course covering the foundations of American government, its major institutions and the various forces that shape political decision making. Some of the topics which will be addressed include democratic theory, the constitution, federalism, state and local government, public opinion, interest groups, elections, the courts, Congress, and the presidency. 4 Semester Hours.

POL 120S Going Global: An Introduction to World Politics

This course examines the structure and operation of the international system, providing an overview of the nature, forms and dynamics of world politics covering issues of international security, international political economy and emerging trends in the post-Cold War world. This course will include an experiential learning component. 4 Semester Hours.

POL 135 Living the Good Life: Political Philosophy and You

An examination of the principal themes, philosophies, and ideologies of the western tradition which have molded and continue to affect our political institutions, our political beliefs and our politics. The course will begin with the classical Greek roots of our civilization; will explore the religious, primarily Christian, components of western society; will then discuss the contribution of scientific thought and conclude with a brief examination of post-modern perspectives. 4 Semester Hours.

POL 180 Exploring the World: An Introduction to Geography

This course introduces the general student and the prospective teacher of integrated social studies to an examination of geography, focusing in particular on spatial patterns of political organization, cultural diversity and economic activity; overview of major world regions; in-depth introduction of key countries; human geography; and the overall use and relevance of geography. Geography for Life: National Geography Standards will be addressed. 4 Semester Hours.

POL 190 Careers in Politics and International Affairs

This course will acquaint students with the different careers and opportunities available to them with a degree in political science, international affairs, and national security as well as provide them with the basic skills needed to achieve their career goals. 1 Semester Hour.

POL 200 Introduction to Law and the Legal System

This course is intended to provide students with a general understanding of law and the judicial system in the United States. This course will consist of three major segments: The first will analyze the meaning of law, define our legal system and explain the major sources of law. The second will explain our federal judicial system. It will provide an extensive analysis of the state and national courts. The final section will introduce students to specific areas of substantive law. Prerequisite: POL 105S or permission of instructor. 4 Semester Hours.

POL 202 Congressional Politics: Issues and Controversies

This course examines the origins and development of the American Congress, theories of representation and legislative behavior and the legislative process, with particular emphasis on Congressional rules and procedures. The course also explores the electoral connection between members of Congress and their constituents and the relationship between members of Congress and other political officials and organized interest groups. Prerequisite: POL 105S recommended or permission of the instructor. 4 Semester Hours.

POL 203 American President: Power and Leadership in the 21st Century

This course examines the creation of the presidency and the development of the role of the president within our constitutional system of separated powers. In particular, we will focus on the emergence of the ‘public’ presidency. Additional topics include the presidential election process, decision making and personality, and policymaking in both domestic and foreign affairs. Prerequisite: POL 105S recommended or permission of the instructor. 4 Semester Hours.

POL 210 Travel Seminar

In this course students will participate in a faculty-led trip to cities/regions inside or outside the United States. 1-4 Semester Hours.

POL 225 International Relations

This course provides students with an introduction to the basic theories and methods used in the study of international relations. The course covers such topics as the dynamics of conflict and cooperation, the processes of foreign policy decision-making and the evolution of the modern international system. Prerequisite: POL 120S recommended or permission of the instructor. 4 Semester Hours.

POL 245G Comparative Political Systems

This course introduces students to the comparative political analysis. The primary purpose is to familiarize students with the basic themes, concepts, and theoretical and methodological approaches to analyze, compare and contrast the development, governmental structures, political processes, and socio-political and socio-economic dynamics of contemporary political systems. Prerequisite: POL 120S recommended or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 270 US Foreign Policy: Past, Present and Future

This course provides a critical analysis of the foreign policy of the United States looking at both its content and process. The course will examine the key actors and institutions involved in the foreign policy-making process as well as major trends in US foreign policy and contemporary foreign policy challenges. Prerequisite: POL 120S recommended or permission of the instructor. 4 Semester Hours.

POL 275 Intelligence Analysis

The purpose of this course is to introduce the student to the departments and agencies –collectively known as the Intelligence Community (IC). Students will gain a detailed understanding of the definition of intelligence and the role it plays in national security policy. The course will examine the intelligence process, how the IC analyzes threats, and how intelligence fits into American government more broadly in terms of public policy development, bureaucratic politics, and international relations. 4 Semester Hours.

POL 280 Economic Warfare

At a time when geo-economics appears to be or become the new geopolitics, it is critical to understand the dynamics, manifestations, and implications of economic statecraft and warfare. This course will take a comprehensive look at how economic, trade, and investment issues and decisions relate to national security concerns, both historical and current. As such, we will consider topics such as the post-WWII Marshall Plan, China's 'Belt and Road Initiative', and assess the efficacy and consequences of economic sanctions, tariff and non-tariff barriers, voluntary export restraints (VERs), among others. The course will also look at the political, economic, and security implications of the unfolding race to secure resources around the world. Relevant case studies/simulations will be used to help students control for, explain, and understand aspects of economic statecraft and warfare and design adequate responses. 4 Semester Hours.

POL 305 Constitutional Law

This course will provide students with an in-depth study of American constitutional law. It will include an historical analysis of the constitution and its political and social importance. Then substantive areas of constitutional law will be addressed including the incorporation doctrine, legal federalism, civil rights, and civil liberties. Within this context specific issues which will be examined are the commerce clause, the equal protection clause, freedom of speech, freedom of religion, rights against self-incrimination and unreasonable searches and seizures, sex and race discrimination, and affirmative action. Prerequisite: POL 200 (prior to 2016-17 Prereq POL 300) or permission of the instructor. 4 Semester Hours.

POL 310 Elections: How to Run and Win

An analysis of political campaigns and elections for president and Congress. Specific attention will be paid to election trends, voter characteristics and the impact of technology and polling on modern election campaigns. Recommended: POL 105S. 4 Semester Hours.

POL 315V Public Policy

An analysis of the governmental policy making process and substantive policy issues such as health care, education, criminal justice, and the environment. Within this context we will compare U.S. policy approaches with those of other countries. Recommended: POL 105S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 316V Environmental Politics: Pollution, Sustainability and Climate Change

An in-depth look at environmental policy in the United States. This course covers Congress's power to regulate the environment as well as successes and failures of major pieces of environmental policy. Students will consider not only the policy but the impact the policy has/had on the environment, society, and the economy. This class will require active in-class participation and will culminate with the completion of a major project. Explorations prerequisite: Successful completion of all four Foundations courses

or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 317V Education Policy

This course will examine development, implementation, and revision of educational policy at scales from the school district to the federal government. We will examine policymaking through topics such as school funding, the common core, urban education, teacher licensure, curriculum standards, and assessment. As part of the “Data and Information in the Technology Age” theme, particular attention will be given to how educational data are collected and analyzed. Prerequisite: POL 100S or POL 105S or Instructor permission. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 credit hours.

POL 320 Legal Advocacy

This course will introduce students to the methods, concepts, and practice of legal advocacy. Essential to this objective will be instruction in effective techniques of written and oral argumentation as they apply to legal procedure. Course activities will include writing legal and appellate briefs and conducting a mock trial and a simulated oral appellate hearing. Prerequisite: POL 105S or permission of instructor. 4 Semester Hours.

POL 321 Terrorism

This course will involve an examination of the historical evolution of terrorism and its development both on a national and international level. Some of the topics covered will include the psychological profile of terrorists, the socio-political conditions that contribute to the growth of terrorism, terrorist group strategies, tactics and targets as well as methods of counterterrorism. Prerequisite: POL 120S recommended or permission of the instructor. 4 Semester Hours.

POL 325 Civil Rights: Race, Gender, and Sexual Orientation Discrimination

This course analyzes issues of race, gender, and sexual orientation discrimination. It provides an historic, political, ethical, legal, and comparative overview of how these groups have been treated in regard to the provision of basic rights such as property, ownership, education, housing, voting, marriage, and the workplace. Prerequisite: POL 105S recommended or permission of the instructor. 4 Semester hours.

POL 330 Citizens and Subjects: The Roots of Western Political Thought

An analysis and evaluation of the principal themes of Western political philosophy from ancient times to the 17th century. Major thinkers will include Plato, Aristotle, Augustine, Aquinas, Machiavelli, and Hobbes. Major topics will include community, justice, who should rule, rights, consent, liberty, and views on the proper political regime. Recommended POL 135. 4 Semester Hours.

POL 331 Freedom and Revolution: The Roots of Modern Political Thought

An analysis of major political thought from the 17th century to the present. Major thinkers will include Locke, Rousseau, Burke, Marx, Mill, and Nietzsche. Major topics will include individualism, rights, consent, liberty, equality and democracy. American society will be referenced throughout the semester. Recommended POL 135. 4 Semester Hours.

POL 340G Global Competition: The Dynamics of International Political Economy

This course examines the interplay of politics and economics on an international and global level. Key themes will include debates on globalization; the role of states vs. markets; shifting distribution of wealth and power; and global competition. Specific emphasis will be put on the role and motivations of national and foreign governments as well as international institutions with regard to cross-border flows of 1) production (e.g. foreign direct investment policies, growth poles and agglomeration economies), 2) capital (e.g. capital controls, international financial crises and bailouts, currency wars, sovereign wealth funds) and 3) goods (e.g. national and international trade policies, trade wars). Prerequisite: POL 120S recommended or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 341V Market and Business Analysis

This course introduces students to the essential elements of market and business analysis and intelligence. Topics covered include competitive industry/business analysis, strategy development for competitive positioning, management of country, market, and business risks. Illustrative country, industry, and/or specific business case studies will also be an integral part of the course. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 344 Africa’s Promise: Challenges and Opportunities of the ‘Forgotten Continent’

This course is intended as a comprehensive survey of the political, social, cultural, economic, and historical factors affecting the African continent. Particular attention will be devoted to the legacy effects of colonialism/imperialism, regional security concerns, and Africa’s position in the global economy and in international politics. In doing so, this course will draw on a diverse range of case studies spanning North Africa and Sub-Saharan Africa. 4 Semester Hours.

POL 345G Europe's Future: Politics, Society, and Economy

This course provides a comprehensive overview into the situational context, structures, and evolutionary and transformational dynamics of selected European polities (including polities in Western, Northern, Southern, and Central/Eastern Europe) and the European Union. Specific themes will include discussions on European regionalism and supranationalism, social welfare state politics, European integration and enlargement, immigration and demographic challenges, and the rise of extreme right parties, among others. Discussion and contextual analysis of current social, political and/or economic trends and developments, as well as future prospects and challenges, will be an integral part of the course. Prerequisite: POL 120S or POL 180 recommended or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 346G The Rise of Asia: Politics, Society, and Economy

This course is designed to provide a comprehensive analysis of the political systems/processes and socio-economic dynamics of China, Japan, South Korea as well as selected countries in Southeast and South Asia. Specifically, the course will address the historical antecedents, contemporary manifestation and the evolution as well as future prospects and challenges of political culture, political institutions/processes, political economy systems and social structures in these countries. Additionally, discussion and contextual analysis of key contemporary domestic political/economic/social dynamics will also be an integral part of the course. Prerequisite: POL 120S or POL 180 recommended or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 347G Post-Soviet Politics: From Soviet Collapse to Resurgence

An introduction to the politics of Russia and the now independent states of the former Soviet Union. This course examines the changes and continuity in post-Soviet politics as well as the origins and development of the political and economic systems. Some of the issues examined in the course include the politics of economic reform, democratization, the rise of ethnic conflicts, and the collapse of communism and its aftermath. Prerequisite: POL 120S or POL 180 recommended or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 348 Problems of Developing Nations

This course is intended as a comprehensive survey of the political, social, cultural, economic and historical factors affecting the developing countries. Particular attention will be devoted to colonial legacies and post-colonial development, domestic political dynamics and the position of developing countries in the global economy and in international politics. In doing so, the course will draw on a diverse range of case studies from Africa, Asia, and Latin America. Prerequisite: POL 120S or POL 180 recommended or permission of the instructor. 4 Semester Hours.

POL 349G The Middle East: Challenges and Opportunities of a Volatile Region

This course is intended as a comprehensive survey of the political, social, cultural, economic and historical factors affecting the broader Middle East. Particular attention will be devoted to the Sunni-Shiite rivalry, the Arab-Israeli conflict, socioeconomic dynamics, the vulnerability of success of oil-rich economies, political (in)stability, and regional security concerns, and the position of the Middle East in the global economy and in international politics. In doing so, the course will draw on a diverse range of country case studies. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

POL 350 Introduction to Political Science Methods and Inquiry

This course is designed to introduce students to research methods in political science and international studies. The course will focus on such topics as developing a testable research question, data collection, developing and testing hypotheses, and different methods for analyzing political data with a focus on qualitative analysis. 4 Semester Hours.

POL 351 Quantitative Political Analysis

This course will cover the essential quantitative techniques used to analyze many empirical questions involving government and politics. Students will learn how to conduct, interpret, and present the appropriate statistics to test hypotheses. Basic descriptive and inferential statistics will be covered. Prerequisite: POL 350, or permission of the instructor. 4 Semester Hours.

POL 400 Seminar in Political Science

Each student will select a topic within a given area of political science or international studies and will read it, and analyze it, on their own initiative. Emphasis will be placed on primary sources and research methods. A major, scholarly paper is required. This will be the Senior Culminating Experience in the major. Prerequisite: POL 350 and POL 351. 4 Semester Hours.

POL 401 Seminar in International Studies

Each student will select a topic within a given area of international studies and will read it, and analyze it, on their own initiative. Emphasis will be placed on primary sources and research methods. A major, scholarly paper is required. This will be the Senior Culminating Experience in the major. Prerequisite: POL 350 and POL 351. 4 Semester Hours.

POL 405 Independent Study

Open to juniors and seniors majoring in political science. Emphasis is on independent, in-depth inquiry into a subject. Permission of instructor required. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. 1-4 Semester Hours.

POL 470 Seminar in National Security

Each student will conduct an in-depth study of a particular national security issue facing the US and will research and analyze it on their own initiative. Emphasis will be placed on primary sources and research methods. A major analysis paper on the chosen issue is required. This will be the Senior Culminating Experience in the National Security and Foreign Intelligence Analysis major. Prerequisite: POL 270, POL 350 and POL 351. 4 Semester Hours.

POL 494 Honors Thesis/Project

Formal paper written under the supervision of a departmental member. See All-University 494 course description in the catalog. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. 4 Semester Hours.

POL 499 Internship

An experience-based course in which the student spends a specified amount of time attached to a public, government, legal, or non-profit agency in order to gain actual work experience and then have the opportunity to relate classroom knowledge to a work experience situation. The exact program is to be agreed upon by the intern, the internship coordinator and the cooperating agency or office. Permission of internship coordinator required prior to enrollment. Arrangements must be made with the instructor during the semester prior to the one in which the course is offered. 1-16 Semester Hours.

Pre-Medical and Pre-Health Professions

MED 100 Introduction to the Health Professions

An overview of various health care career opportunities, educational requirements and issues affecting the delivery of health care. This course will also help to prepare students to successfully complete these courses of study, leading to a future in the career in the health care field. 1 Semester Hour.

MED 200 Community Healthcare: From Theory to Practice

The Alliance Community Hospital-Community Care Network. A study of key issues concerning community health care aimed at developing practical approaches to supporting patients. Students consider obstacles to effective health care as well as strategies for enabling at-risk patients to play more active roles in promoting their health and well-being. Topics include challenges of delivering adequate healthcare in communities; population medicine; specific problems posed by diabetes, obesity and cardiovascular disease; ethical dimensions of the concept of “underinsurance”; community medicine and the law; and methods of improving compliance and measuring outcomes. Conducted as a seminar, this course provides students with the academic foundation for a subsequent Health Coach Internship with the Alliance Community Hospital Community Care Network. Prerequisites: Sophomore standing, MED 100 and approval of Pre-Health and Pre-Medical Professions Program Director. 1 Semester Hour.

MED 400 The Health Coach Internship: The Alliance Community Hospital-Community Care Network

This internship allows University of Mount Union pre-health students to regularly meet with patients experiencing chronic conditions and having a history of frequent hospitalizations. The health coaches serve in a preventive role by helping patients to maintain their current medications, adhere to testing regimens and, possibly, find other underlying causes for the patient’s problems. The students become part of the Alliance Community Care Network, an Alliance Community Hospital-wide effort comprised of a physician-directed team of nurses, counselors, social workers, nutritionists and ancillary support personnel. The goal of the program is to reduce hospital stays and emergency room visits by these “high-risk” patients. Prerequisites: MED 200, Senior standing and approval of Pre-Health and Pre-Medical Professions Program Director. 2 Semester Hours.

Psychology

PSY 110S The Psychological Sciences

This course examines the scientific study of behavior and mental processes using current issues and research as the framework for exploring the discipline of psychology. In this course you will learn that psychology is a science that attempts to answer some of the age-old questions about the human experience by using rigorous empirical methods. Students will become familiar with the concepts, general theories, and specific approaches and applications used in the field of psychology as well as how they relate to

the work done by other social scientists. The following subfields in psychology will be explored: research methodology, biological bases of behavior, development, sensation and perception, consciousness, learning, memory and cognition, motivation and emotion, personality, social behavior, abnormal psychology, and the treatment of psychological disorders. This course may have online section available. Prerequisites: None. 4 Semester Hours.

PSY 120 Professional Development in Psychology, Neuroscience, and Human Development

This course is designed to acquaint students with the range of career possibilities that exist for them after graduation. This course will also include practical training in two important areas of professional development: writing and ethics. Students will explore their interests across the field of psychology and develop a comprehensive plan for their undergraduate careers. Students will be provided with an introduction to writing in psychology consistent with the requirements of the American Psychological Association. In addition, students will be introduced to ethics in educational, research, and applied settings as related to psychology. Prerequisite: PSY 110S and must be majoring in Psychology, Neuroscience, or Human Development and Family Science. Students in other majors must get permission of the instructor. This course may have online sections available. 2 Semester Hours.

PSY 199 Special Topics in Psychology

See All-University 199 course description.

PSY 200 Research Methods and Data Analysis I

This course is a survey of basic research methodology, design considerations and statistical analyses of corresponding behavioral data. It includes presentation of elementary descriptive and experimental research procedures as well as related statistical procedures (descriptive statistics, data presentation and characterization, inferential statistics, basics of hypothesis testing and parameter estimation). Students will apply these principles in conjunction with and as an introduction to various areas of research psychology through laboratory exercises and use of state-of-the-art statistical packages. Students in PSY 200 are expected to maintain a grade of C- or higher. If the grade earned is lower than a C-, students must retake the course in order to proceed with PSY 205. Only students who have earned a C- or higher in the PSY 200/PSY 205 sequence are permitted to begin their Senior Research course requirements (i.e., PSY 400 and PSY 405). Three lecture hours and one lab hour per week. Prerequisites: PSY 110S (may not be taken concurrently with PSY 205). Open only to declared Psychology, Neuroscience, or Human Development and Family Science majors. 4 Semester Hours.

PSY 205 Research Methods and Data Analysis II

This course is a continuation of PSY 200 dealing with more complex methodological issues. Advanced correlational and experimental designs are introduced. An experimental research project, laboratory exercises and continued work with computerized statistical programs provide direct experience with these techniques. Students in PSY 205 are expected to maintain a grade of C- or higher. If the grade earned is lower than a C-, students must retake the course in order to proceed with PSY 400. Only students who have earned a C- or higher in the PSY 200/PSY 205 sequence are permitted to begin their Senior Research course requirements (i.e., PSY 400 and PSY 405). Three lecture hours and one lab hour per week. Prerequisite: PSY 200. 4 Semester Hours. (Typically offered spring semester).

PSY 210 Educational Psychology

This course explores the psychological issues in the educational context beyond reading, writing, and arithmetic. Students that are interested in pursuing careers in school counseling, school psychology, school social work, or teaching should take this course. It examines the application of psychological theories and principles to education and teaching. There is a focus on the educational implications and application of research relating to human development (including physical, social, emotional, and cognitive development). The topics covered include cognitive processes (e.g., metacognition, memory, transfer, critical thinking, problem solving, etc.) the theories and principles of learning; motivation; individual and group differences; social contexts for learning; and classroom management. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 215 Child and Adolescent Development

This course explores human development from birth to adolescence. The domains of development explored include prenatal, physical, cognitive, linguistic, social and emotional. The course also examines the contexts in which these domains develop. Students are required to engage in regular written and intellectual discourse about contemporary topics related to the course. This course may have online sections available. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 220 Aging and Adulthood

This course is intended to facilitate an understanding of and appreciation for the significant developmental processes and changes that occur in early, middle and late adulthood. In addition to examining current research and theories related to biological, cognitive and social factors, particular attention is paid to the impact of culture and the environmental context on the aging process. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 222 Research Methods in Psychological Sciences

This course is a survey of research methodology, design considerations, and statistical analyses of corresponding behavioral data. The course begins with a presentation of elementary descriptive and experimental research procedures as well as related statistical

procedures (descriptive statistics, data presentation and characterization, inferential statistics, basics of hypothesis testing, and parameter estimation). During the semester, more advanced methodological issues, correlational, and experimental designs will be presented. An experimental research project, laboratory exercises, and work with computerized statistical programs provide direct experience with these techniques. Students in PSY 222 are expected to maintain a grade of C- or higher to prepare them for the senior research sequence. If the grade earned is lower than a C- students must retake the course in order to proceed with PSY 400. Prerequisites: PSY 110S. 4 Semester Hours.

PSY 225 Lifespan Development

This course utilizes a holistic approach to understanding the development of the individual from conception to death. Emphasis is placed on the ways in which contextual variables influence development and functioning in physical, cognitive, affective and social domains. Prerequisite: PSY 110S or permission of instructor. This course may have online sections available. 4 Semester Hours.

PSY 230 Personality Theory

This course is a survey of the work of a diverse group of theorists who have all sought to explain the structure, development and functioning of human personality. Theoretical perspectives covered will include psychodynamic, sociocultural, humanistic, existentialist, biological, trait, behavioral and cognitive approaches. Prerequisite: PSY 110S or permission of instructor. 4 Semester Hours.

PSY 235 Social Psychology

This course is an examination of human behavior in a social and cultural context. Topics covered will include the self in a social context, attitudes, attributions, persuasion, conformity, attraction, altruism, prejudice, aggression, group dynamics and inter-group relations. Prerequisite: PSY 110S or SOC 100S. 4 Semester Hours.

PSY 240 Abnormal Psychology

Abnormal Psychology is largely concerned with the nature, origin, and treatment of mental illness. This course offers the student a comprehensive overview of the field, focusing on the biological, psychological, relational, and social components of mental disorders. A historical and contemporary exploration of mental illnesses offers the student a broad overview of the field, while a cross-cultural examination of disorders offers students insight to how mental illness is viewed from various perspectives. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 245 Learning and Conditioning

This course is an introduction to the concepts of learning as reflected in major theories including classical, operant and social learning. This course examines how humans and animals seek and acquire information about their surroundings, make correlational or predictive inferences and express those inferences behaviorally. Students will engage in various activities to help them understand how basic learning principles explain much of human behavior. A major project in the course will involve an identifying problem behaviors in dogs and using positive reinforcement to correct those behaviors. This training process will be documented in videos that will be made available to the public on the department webpage. Access to/owning a dog is not required to take this course. Prerequisites: PSY 110S. 4 Semester Hours.

PSY 250 Neuroscience: The Brain

This course is part of a two course series examining the biological foundations of behavior which can be completed in any order. This course begins with an introduction to the cells and structures of the nervous systems. Current and past research and psychopharmacological methods are covered during the second portion of the course. Final topics include a detailed look into how visual, auditory, and motor functions are processed by the brain. The course includes a psychophysiological and neuroscience laboratory portion. Prerequisite: PSY 110S. One semester of University level biology and chemistry is suggested. 4 Semester Hours.

PSY 255 Sport Psychology

This course introduces students to the theoretical perspectives and fundamental principles involved in the current research and practice in the field. Various dimensions of Sports Psychology will be covered, including the understanding of how psychological factors influence involvement, motivation and performance in sports and exercise settings, exploring the factors involved in improving performance, group dynamics, overcoming sports slumps, overcoming sports-related anxiety, and enhancing overall health and well-being. The course also offers students an overview of Sports Psychology as a meaningful profession. Prerequisite: PSY 110S. 4 semester hours.

PSY 260V Sensation and Perception

This course covers present research theories of how our sensory organs function and how we perceive the world around us. The course begins with an overview of how sensation and perception research is conducted. The second portion of the course focuses on vision and how various cognitive processes lead to our discovery of our environments. The final portion of the course will explore the senses of audition, taste, smell, and touch. Prerequisite: PSY 110S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PSY 270 Cognitive Psychology

This course examines how humans process (i.e., acquire, store and use) information. The course addresses such topic areas as perception, attention, memory, knowledge organization, language comprehension and production, problem-solving and creativity. Time is spent examining current theories, research techniques and the effect these theories have on important practical problems in society. Hands-on projects are used to explore theories in depth. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 290 Introduction to Autism Spectrum Disorders

This course is for students interested in learning more about people with autism spectrum disorders. In this course students will gain an understanding of the characteristics and incidence of autism, and the implications for children's learning, behavior and ability to process information. Students will explore the latest research on potential causes, best practices for assessment and intervention, areas of impairment, as well as current issues related to autism services. Prerequisite PSY 110S. 4 Semester Hours.

PSY 299 Special Topics in Psychology

See All-University 299 course description.

PSY 300 Movies and Madness

This course explores the ways people with mental illnesses and psychological disorders as well as those who treat them have been presented in feature films. The course examines the issue of stigmatization and marginalization of people with mental illness as a social problem exacerbated by misleading and negative images presented in the mass media. The course will also provide basic information about psychological disorders, the mental health system and various treatment approaches. Students will analyze film content, hear first person accounts of living with mental illness, and develop their own community education projects. 4 Semester Hours.

PSY 305 The Psychology of Humor

The study of humor crosses into multiple psychological domains, including the cognitive, neurological, developmental, social, and positive psychology. This course offers students the opportunity to explore each of these different aspects and presents an overview of relevant past and current research in this growing field. Students will investigate historical and contemporary theoretical perspectives on humor, and how it is applied in different aspects of life. Prerequisite: PSY 110S or permission from instructor. 4 Semester Hours.

PSY 310 Child and Adolescent Psychopathology

This course introduces students to the field of Child and Adolescent Psychopathology. Both a historical and contemporary perspective of this field will be explored, with specific focus placed on theoretical models, etiology, and treatment of mental illness. Current research, case studies, and in-class debate concerning contemporary issues allow for a rich overview of this growing and evolving field of study. Prerequisite: PSY 110S. Recommended: PSY 240. 4 Semester Hours.

PSY 315 Clinical Assessment Lab

This course introduces students to the assessment of child and adult psychopathology. Students will receive training and instruction on how various psychological and neuropsychological assessments of function and personality are conducted while testing their own levels of function. Current research on assessment of function and methods of assessment will be covered. Diversity, gender, and cultural issues with determining what is normal will be explored. Note: This course is optional for majors and does not meet the requirements as a 4-credit psychology elective. Prerequisite: PSY 110S. 2 Semester Hours.

PSY 320 Neuroscience: Behavior and Psychiatric Disorders

This course is part of a two course series examining the biological foundations of behavior which can be completed in any order. This course examines in closer detail how the brain and nervous system impact behavior. The course will begin with an overview of the central nervous system structures. The course will discuss life-sustaining processes such as how the brain regulates sleep, biological rhythms, reproduction, and emotion. Broader topics such as learning, memory, and cognition will be covered as well as how language and communication are handled by the brain. The course will conclude with an examination of neurological correlates of various psychological disorders. The course includes a psychophysiological and neuroscience laboratory portion. Prerequisites: PSY 110S. One semester of University level biology and chemistry is suggested. 4 Semester Hours.

PSY 330 Drugs and Behavior

This course begins with an exploration of the neurobiological nature of chemical dependency. The course examines various models of chemical addiction as well as providing information about psychopharmacology. The second portion of the course examines various drugs and their impact on the brain-behavior relationship. The course closes with theories related to treatment and recovery. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 340 Animal Cognition

This course begins with an overview of the history of philosophical and scientific thought in relation to the debate about what kinds of mental abilities non-human animals have, if any. Past and current empirical research methodologies will be discussed as will

findings regarding the existence and extent of self-awareness, memory, problem-solving and other cognitive processes in various species (including but not limited to birds, sea mammals, monkeys and apes). These findings will be discussed in terms of the research on human cognitive processes; however, the implications for the animals themselves will also be explored. Prerequisite: PSY 110S or permission of the instructor. 4 Semester Hours.

PSY 345 Human Sexual Behavior

The overarching objective of this course is to give students the information and skills they need to make intentional, thoughtful, informed decisions about their sexuality and sexual behavior. The intention is to provide students with practical information about sexuality including issues of sexual response, relationships, and communication. The course is designed to help students become more comfortable with talking about their own sexuality and that of others and, as a result, make them better decision-makers in sexual situations. A final goal of this course is to teach students how psychologists go about the difficult task of studying human sexual behavior, the methods they use, and some of the problems inherent in their work. 4 Semester Hours.

PSY 360 Introduction to Counseling

This course is an introduction to the field of Counseling Psychology. This course has a two-tiered emphasis, including 1) an introduction to the classic and contemporary theoretical perspectives that serve as a foundation to the field, and 2) a focus on current issues, research, and trends that are shaping the field today. Students will also gain hands-on experience into the field of counseling through role-play activities in the department counseling offices. Prerequisite: PSY 110S. Recommended: PSY 240. 4 Semester Hours.

PSY 370 Forensic Psychology

This course is a survey of the field of forensic psychology. Forensic psychology involves the application of the science and profession of psychology to questions and issues relating to law and the legal system. The following topics will be included in the course: defining forensic psychology; describing the profession of forensic psychology; the selection, training and evaluation of police officers; psychological techniques of criminal investigation; insanity and competency; dangerousness and risk assessment; eyewitness identification procedures; interrogations and confessions; sexual abuse and sexual harassment; and death penalty cases. Prerequisite: PSY 110S or SOC 100S. 4 Semester Hours.

PSY 380G Psychology of Gender

Women are from Venus, men are from Mars... or are they? This seminar explores the psychology of gender by examining psychological issues related to sex and gender. The class explores topics including: the nature and meaning of gender roles and gender stereotypes; research on gender similarities and differences with respect to cognitive, physical, personality and social functioning; how gender stereotypes and roles develop; the effects of gender stereotypes and roles on individuals, relationships, and society; and alternatives to traditional gender stereotypes, roles, and sexual orientations. Students are required to engage in regular intellectual discourse about course content and apply their knowledge of such content to real-world contexts via a service learning project. This course may have online sections available. Prerequisite: PSY 110S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PSY 385G Psychology of Prejudice & Power

This is a seminar that investigates the nature of relationships/interactions between and within groups. These relationships are viewed using the lens and language of social psychology. Specifically, the historical and sociological contexts of issues like classism, heterosexism, racism, ageism, sexism, ethnocentrism and speciesism, among others, are discussed. Close attention is paid to how privilege can influence how we perceive ourselves and others within and outside our social/cultural group(s). Coursework involves readings from psychology and other disciplines, viewing relevant films, and experiential learning that is intended to result in higher levels of empathy and a broadened world view. This course may have online sections available. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

PSY 390 Introduction to Marriage and Family Therapy

Marriage and Family Therapy (MFT) is a unique form of psychotherapy that focuses on relationships, interactional patterns, family dynamics, and mental health from a Family Systems perspective. This course is an introduction to the theory, practice, and research in the field of Marriage and Family Therapy. Students will explore both foundational and contemporary theories and practice the ability of applying this knowledge to individual, couple, and family case studies. Also, this course offers an overview and critical analysis of current research, as well the opportunity for students to both observe and demonstrate methods of intervention. Prerequisite: PSY 110S. Recommended: PSY 240. 4 Semester Hours.

PSY 399 Special Topics in Psychology

See All-University 399 course description.

PSY 400 Senior Research I

This course, along with PSY 405 constitutes the major senior research project in the Psychology and Neuroscience majors. Students are required to work in groups to select a research question, review the relevant literature, develop materials for review by the IRB, and write and present a formal research proposal. Only students who have earned a C- or higher in the PSY 222 are permitted to begin their Senior Research course requirements (i.e., PSY 400 and PSY 405) Prerequisites: PSY 110S and PSY 222 (Cannot be taken concurrently with PSY 200 or 205). 4 Semester Hours. (Only offered Fall Semester)

PSY 405 Senior Research II

In this course, students will complete the research projects begun in PSY 400 by collecting and analyzing data and by writing a detailed research report according to American Psychological Association guidelines. Students will present their findings in a public forum. Prerequisite: PSY 400. (Cannot be taken concurrently with PSY 222). 2 Semester Hours. (Only offered Spring Semester.)

PSY 410G Cultural Health Psychology

This course will examine health psychology through a cultural lens. The course will compare European, Asian, and American approaches to health and medicine. A primary focus of the course will be on wellness models and disease prevention. Students will learn how chronic stress can negatively impact the immune and cardiovascular systems. The course will cover how diversity and culture influence cancer, cardiovascular disease, and HIV. Biological vulnerabilities impacting the likelihood of disease states will also be discussed and recommendations on how to live healthy will be explored. Group discussions of journal articles will provide the opportunity to investigate current health research recommendations. Prerequisite: PSY 110S. 4 Semester Hours.

PSY 420 The Origins of Psychology

This seminar explores the philosophical and physiological beginnings of the "new science" of psychology. Students are expected to 1) contemplate seminal questions about human nature posed by early philosophers, 2) see how early experimental psychology emerged from the fields of physiology and medicine, 3) be introduced to important figures and events in the various fields of psychology, and 4) explore the greater cultural and temporal paradigms that have shaped psychological theory from its beginnings to the present day. This course may have online sections available. Prerequisite: PSY 110S. Freshman and sophomore requirements for departmental majors are strongly recommended. 4 Semester Hours.

PSY 430 Stigma Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 431 Neuropsychology and Physiology Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 432 Human Development Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 433 Canine Cognition Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 434 Educational Psychology Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 435 Cognitive Experimental Research

This course involves the experimental investigation of problems in psychology, neuroscience, and/or human development under the supervision of a department member. Registration requires consent of the instructor. 1-4 Semester Hours.

PSY 485 Independent Study

This course involves an individual study of a special problem. Concentration may be on a research project or on a review of the literature in the problem area. Offered only upon request of the student who shows interest and initiative and with permission of the instructor. Prerequisites: PSY 110S. Variable credit, 1-4 Semester Hours.

PSY 494 Honors Thesis/Project

See All-University 494 course description.

PSY 499 Psychology Internship

This is an experience-based course in which the student spends an agreed upon amount of time in a social service or psychology-related organization in order to gain first-hand experience and develop an understanding of possible applications of psychology to that setting. Supervision will be jointly provided by the cooperating organization and the instructor of the course. Prerequisite: Permission of the instructor. Variable credit, 1-16 Semester Hours.

Recreation

REC 105 Aerobic Dance

This course provides the opportunity for individuals to explore a self-expressive form of physical activity. Students enrolled in the course will be exposed to various forms of aerobic dance movement primarily focused on cardiovascular exercises but will also include some strength training components. Students of all fitness levels welcome. 1 Semester Hour.

REC 110 Aerobic Strength and Fitness

This course provides the opportunity for individuals to experience physical conditioning through a variety of exercise formats. Students enrolled in this class will learn different strength, plyometric, and agility exercises which will allow them to get a high metabolic burn. Recommended for individuals with an intermediate to an advanced level of fitness. 1 Semester Hour.

REC 115 Bowling

Introduction to the fundamentals and rules of bowling. Additional fee applies. 1 Semester Hour.

REC 120 Golf

Introduction to the fundamentals, rules and etiquette of golf. 1 Semester Hour.

REC 125 Lacrosse

Introduction to the fundamentals and rules of lacrosse. 1 Semester Hour.

REC 130 Soccer Skills

Introduction to the fundamentals and rules of soccer. 1 Semester Hour.

REC 135 Martial Arts and Self Defense

Introduction to the fundamentals and rules of various martial arts systems and basic self-defense tactics. 1 Semester Hour.

REC 140 Exploring Extreme Fitness of the Popular Culture

This course provides the opportunity for individuals to experience physical conditioning through a variety of exercise formats. Students enrolled in this class will learn different strength, plyometric, and agility exercises which will allow them to get a high metabolic burn. Includes activities such as P90x, Insanity, and TRX. Recommended for individuals with an intermediate to an advance level of fitness. 1 Semester Hour.

REC 145 Racquet Sports

Introduction to the fundamentals and rules of tennis and badminton. 1 Semester Hour.

REC 150 Running/Interval Training

This is an advanced running course in which principles of running and interval training are discussed and applied to provide a foundation for high level aerobic and anaerobic fitness. Each student will get to experience training through tempo runs, distance runs, sprinting, plyometrics, and strength training. 1 Semester Hour.

REC 155 Beginning Swimming

Students will learn the freestyle and are introduced to various other strokes and beginner swimming knowledge. They also learn basic water safety, and rescue skills. Upon completion, students should be able to perform all skills in deep water. 1 Semester Hour.

REC 160 Advanced Swimming

Students will learn all the strokes and are introduced to various workouts that an advanced swimmer would use to develop aerobic capacity and anaerobic endurance. Students taking this course should be able to swim well already. 1 Semester Hour.

REC 165 Team Sports

The class will teach the methods and tactics for several team sports and activities. Activities may include basketball, ultimate, volleyball, handball, dodgeball, capture the flag and flag football. 1 Semester Hour.

REC 170 Weight Lifting/Strength Training

This is a weightlifting and strength training course in which principles of lifting free weights and body weight training will be experienced. Each student will get to experience training with machines, free weights, and body weight and track their strength improvements throughout the course. 1 Semester Hour.

Religious Studies

REL 120H Reel Religion: Religion and Human Experience

This course includes an examination of religion and religious traditions as an academic endeavor. Students will examine religious views and values through engagement with and evaluation of film, literature, and other aspects of culture. Through intensive discussion and corresponding written assignments, students will discover and wrestle with religious themes, symbols, and concepts. The purpose of the course is to develop in the student a heightened awareness of the significance of religion in human life and culture. 4 Semester Hours.

REL 200H Biblical Texts and Contexts

This course involves a close reading of biblical texts, which will be examined in light of literary, historical, social, and religious contexts. The course will address enduring questions raised by the text, including creation, suffering, community formation, ethics, and salvation. Students will learn and practice several critical methods of analysis, including the concept of social location. 4 Semester Hours.

REL 220H Religions of the World

This course is an introductory study of the history, thought and practice of the religions of Africa, India, Asia and the Middle East. It will focus on the basic tenets, examine some of the basic texts, analyze the historical context in which the religion developed, and explore some of the rituals and worship practices. 4 Semester Hours.

REL 225V Native American Spirituality

Native American Spirituality explores some of the broad contours of Native American spiritual life. The course will examine samples of Native American concepts such as the unity of all things living, the inter-connectivity of peoples everywhere, the relationship between people, plants, animals and the earth. The course will also focus on the lives of the Hopi and the Navajo. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester hours.

REL 235G The Black Church

This course surveys the growth and development of the Black Church by examining various modes of Christian worship and aspects of the Black Church. As such the course will examine the role of women, the place of the Bible, how public discourse is handled, preaching, role of music and the arts. The course will study the impact the Black Church has had on the Black community. This survey nature of this course will further the learning goals of the department in that the student has to demonstrate an understanding of the major ideas and tenets of the Black Church and understand the use of text and the oral tradition. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 240H Interreligious Understanding: Can't We All Just Get Along?

In this course students will learn to engage, sustain and enrich an interfaith dialogue. We will address such broad questions as: Why do we interact with others who are different from us? Why should we care? Does it water down your faith to meet and discuss with people of various religions? How does religious diversity influence our understanding of religious freedom? Do members of marginalized religions have the same rights and freedoms as those of the dominant religion? Are all religious observances respected or just some? We will look at the more practical implications of how religions are practiced in a multi-faith society. The course will include reading sacred texts from various traditions and learning about religious practice in context. In addition, the course will include conversations with representatives of various faith traditions and visits to places of worship, as we examine the history and future of interfaith dialogue in this country. 4 Semester Hours.

REL 255V Christianity: Past, Present, Future

This course explores the Christian tradition. Attention will be given to the emergence of Christianity out of a 1st century Jewish context, the life and teachings of Jesus of Nazareth, theological categories of Christian faith and practice (such as ecclesiology, the Trinity, sacraments, the Atonement), and the major divisions and denominations of Christianity. Some attention will be paid to the realities of contemporary Christianity in the United States and in the broader global context as well. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 260H Islam: An Introduction

The course on Islam will study the development of Islam from its Arabic beginning to its Asian outgrowth. The student will come to understand how Islam came to be a major religion in the world. The course examines the major tenets, important rituals,

significant people, profound developments and major viewpoints. The course seeks to provide an understanding of Islam that will broaden student's perspective on what it means to be a religious person in the 21st century. 4 semester hours.

REL 270V Death and Dying

The first half of this course surveys ideas about death and dying as found in both Western and Eastern religions and philosophies. The second half of the course is devoted to such practical and ethical issues as suicide, euthanasia, capital punishment, the grieving process, the funeral industry, living wills, hospice care, and the near death experience. Emphasis is placed throughout the course on how the inevitability of death encourages us to live more intentionally and meaningfully. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 300V Old Testament Interpretation

A close study of a select group of texts from the Bible, focusing on Old Testament. The course will employ several interpretive approaches including historical, literary, feminist, and third-world perspectives. Topics will vary and may include individual books or blocks, such as Pentateuch, Deuteronomistic History, Prophets, and Wisdom literature. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 310V Jesus and the Gospels

This course will focus on the New Testament Gospels of Matthew, Mark, Luke, and John, introducing critical methods in the study of the gospels. It will also address non-canonical texts and the study of the historical Jesus. Particular emphasis will be given to the historical, literary, and theological context of the gospels and the understandings of Jesus that arise from them. The portrayal of Jesus in music, art, and popular culture will also be explored. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 315V Paul and the Epistles

This course will examine the apostle Paul and his writings, in the context of both the early Christian communities and contemporary times. Beginning with a survey of Paul's life and the early church as portrayed in Acts, it will then turn to a close reading of the Pauline letters. The latter part of the course will concentrate on important social issues raised by the letters. The course will introduce students to the principles of biblical scholarship, which will be used to interpret the letters in their social, political, and economic context. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 330G Buddhism in Film

This course is an introductory course to Buddhism. This course seeks to explore the basic concepts of Buddhism as they are presented in film. The course will examine the Buddhist concepts of karma, impermanence, Nirvana, enlightenment, desire as the cause of suffering, five aggregates, and no self. The course will explore these ideas and more through the characters and situations as they have arisen in various films. The course will also delve into the history of Buddhism as a religious phenomenon and briefly examine the life of the Buddha. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 340V Christian Social Ethics

This course is an introduction to Christian ethics which stresses its social dimensions and addresses such issues as politics, human sexuality, economics and environmental problems. Students will have the option to research an ethical issue of their choice or to complete a semester-long service-learning project. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 360G Religious Conflict and Peace-Building

This course investigates the role that religion plays in conflict and peace-building. Through a case-study approach in analyzing selected conflict zones, both past and present, the course explores the complexity of such conflicts and the role of religion in exacerbating or alleviating conflict. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 370G Gender and Religion

This course will explore the myriad ways in which gender and religion interact. It will address feminist religious ideology and theology, masculinity studies, women's and men's roles in religious institutions, men's and women's religious expression, and the

construction of gender in religious texts and structures. The roles that power, cultural attitudes, and social and political context play will be discussed with respect to the above categories. Both specific women and men and general trends within and across different religious traditions will be studied. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

REL 400 Seminar in Religious Studies

A student-driven, reading- and discussion-intensive course focusing on critical study and research of a specific area of religious studies. Topics will vary. Prerequisite: Junior standing or permission of the instructor. 4 Semester Hours.

REL 410 Religious Studies Portfolio

Students will create and submit a portfolio that demonstrates their achievement of the Religious Studies learning objectives. 1 Semester Hour.

REL 490 Travel Seminar

The Travel Seminar will normally consist of in-class instruction and a travel component, although occasionally academic instruction will be included as part of the travel component. Full participation in the Travel Seminar will be required to pass the course. 2 or 4 Semester Hours.

REL 495 Independent Research

Involves an extensive research project under the guidance of a faculty supervisor. The independent research may include an extended service-learning or related experiential learning project framed by additional and relevant scholarly work. Independent research projects require submission and acceptance of a proposal to the department before the research can begin. 2-4 Semester Hours.

REL 499 Internship in Religion

This course provides the framework in which students can gain field experience in churches, church agencies, or other social institutions approved by the department chairman. The internship can provide a variety of pre-professional work experiences, e.g., parish administration, radio ministry, institutional chaplaincy, etc. Written application should be made to the internship coordinator (department chairman) during the first two weeks of the semester which precedes the internship. Graded S/U. 2-8 Semester Hours.

Risk Management and Insurance

RMI 325 Insurance and Risk Management

Addresses concepts of risk, identifying and analyzing loss exposures and techniques for treating loss exposures. Fundamental legal principles related to insurance contracts and the basis of legal liability are covered as well as commercial property, liability and crime insurance. Various personal insurance programs will be reviewed as time permits including life, health, auto, homeowners, employer group plans and social insurance. Prerequisite: MTH 123. 4 Semester Hours.

RMI 335 Insurance Company Operations

This course allows students to explore issues facing managers of insurance operations and the functional activities of insurance operations. Topics will include underwriting, ratemaking, reinsurance, claims adjusting, marketing, and distribution channels. Prerequisite: RMI 325. 4 Semester Hours.

RMI 340 Personal Property and Liability Insurance

This course examines property and liability risks and the management of those risks through major types of personal property and liability insurance. With emphasis on Auto and Homeowners insurance, the provisions of personal property and liability contracts are analyzed as well as the application of these products to common and major personal risks. Prerequisite: RMI 325. 2 Semester Hours.

RMI 345 Commercial Property and Liability Insurance

This course examines property and liability risks and the management of those risks through the major types of commercial property and liability insurance. The structure of commercial property and liability contracts are analyzed as well as the application of liability insurance to general business liability and catastrophic liability risks. Prerequisite: RMI 325. 2 Semester Hours.

RMI 350 Personal Property and Liability Insurance

This course will cover Life, Health, Disability, and Long-term care insurance as well as retirement plans and Medicare. Students will learn detailed policy and plan information applicable to individuals and groups in this growing career field. Prerequisite: RMI 325. 2 Semester Hours.

RMI 465 Enterprise Risk Management

This course will cover holistic methodologies in enterprise risk management and how they are implemented given today's complex marketplace. Students will explore the various sources of risks and discuss loss prevention strategies and risk financing techniques that are available to minimize the cost of risk regardless of the source. Strategic planning, risk-based performance, and risk assessment and modeling are also presented. Prerequisites: RMI 335 and RMI 345. 4 Semester Hours.

RMI 499 Experiential Learning Practicum (Internship or Independent Project)

Students may complete an internship or an independent research project. Previous classroom learning may be integrated with work in the student's major discipline after securing a position in an appropriate business or agency or selecting a topic for a related independent research project. The exact location, program, method of education, and project requirements are provided in a contract between the student, the department faculty internship coordinator, and/or RMI Program Director and the host internship supervisor. Specific restrictions apply. Departmental approval is required prior to registration for this course. Graded S/U. 2 Semester Hours.

Sociology

SOC 100S Introduction to Sociology

A survey of the basic concepts, methods and principles used in the scientific study of human interaction. Emphasis is on such distinctively sociological concepts as socialization, social stratification, social organization, minority groups, deviant behavior and social change. 4 Semester Hours.

SOC 130 Introduction to Social Services

A study of contemporary social service organization and practice in private and public agencies. 4 Semester Hours.

SOC 199 Special Topics

See All-University 199 course description.

SOC 200 Contemporary Social Issues

A study of the major social issues in American society. Among the issues considered are aging, the environment, terrorism, family violence, gender roles and minority group relations. 4 Semester Hours.

SOC 205 Juvenile Delinquency

This course is an examination of children and crime. It includes an overview of the theoretical models that explain delinquency and an examination of how these models relate to our social institutions and to juvenile corrections. 4 Semester Hours.

SOC 210 Careers in Sociology

This course is a practical examination of careers in sociology. It will include guest speakers who are practitioners in sociology and allied professions. Assignments will be designed to improve student understanding of various career opportunities and improve student ability to pursue those opportunities. Prerequisite: SOC 100S. 4 Semester Hours.

SOC 215 Drugs and Society

This course examines the impact of substance use and abuse on the user, the user's interpersonal relationships, as well as on society, as a whole. Also, the course examines the history and philosophy of various regulatory efforts, their successes and failures, and the impact of those on society. 4 Semester Hours.

SOC 220 The Many Faces of Poverty

Poverty is one of the most persistent social problems in America. And it is a social problem that causes or impacts many other social conditions in America. Depending on the definition used to measure poverty, between 14 percent and 20 percent of Americans live in poverty. This course covers the social characteristics of the poor, the impact of poverty on personal life chances, and the social consequences of poverty. Analysis is also provided of societal attempts to address poverty. 4 Semester Hours.

SOC 225 Family Violence

An examination of family violence from sociological, legal and medical perspectives. Considers major issues related to family violence including types, predictors and consequences. Also evaluates the strategies that are used by professionals to study, detect, intervene, treat and prevent family violence. 4 Semester Hours.

SOC 235 Stress and Wellbeing

An examination of how the social environment affects health. Investigates stress processes that are rooted in social structures including race, class, gender, age, work and family. Examines how such characteristics and conditions help explain the unequal distribution of health. 4 Semester Hours.

SOC 240 Sex, Love, and Relationships

An examination of the process of forming adult relationships in the U.S. including gender role development, dating, mate-selection, love, sexuality, marriage or alternative relationship choices, and parenthood in sociological perspective. 4 Semester Hours.

SOC 245 The Sociology of Education

This course identifies how various political, economic, and cultural forces influence educational institutions in the American society. Further analysis is directed to analyzing the sociological factors that influence the internal workings of the school and the classroom and the factors that impact how students experience the educational process. 4 Semester Hours.

SOC 250 Medical Sociology

An examination of health, illness, and medical care from the sociological perspective. Topics include social epidemiology; health and illness behavior, socialization of health professionals; health care provider /patient relationships; and the organization of health and medical care. 4 Semester Hours.

SOC 260 Social Gerontology

An introduction to the process of human aging with particular emphasis on their social and social psychological aspects. Included in the course are examinations of the processes of aging, problems of the aged and demographic characteristics of the aged. 4 Semester Hours.

SOC 275 White Collar Crime

The course is designed for Sociology, Criminal Justice, Business, and Accounting majors and explores the various types of white collar crime. The course examines both occupational crimes (which benefit the offender) and corporate crimes (which benefit the company). The causes of these crimes, motives of offenders, and the history of laws governing these offenses are discussed. Finally, the methods used by business and government to deter, investigate, and prosecute these crimes are included. 4 Semester Hours.

SOC 280 Criminology

A survey of the major theories of crime causation and a social scientific examination of various types of crime, criminals and criminal behavior. 4 Semester Hours.

SOC 299 Special Topics

See All-University 299 course description.

SOC 310 American Families

Both an historical and contemporary examination of the family system in America from marriage through death or divorce. Includes discussions about marital commitment, adjustment, satisfaction and sexuality as well as child rearing, family violence and abuse. Prerequisite: SOC 100S. 4 Semester Hours.

SOC 315 Penology

This course is the study of how and why we punish. Students will examine explanations for punishment, helping them to develop a critical perspective on contemporary debates concerning the philosophy and practice of punishment, including the structure, organization and major problems of the penal system in the United States and internationally. Prerequisite: CRJ 105. 4 Semester Hours.

SOC 320 Sociology of Gender

A study of the cultural norms and social roles which govern gender relationships in contemporary American society. The course examines origins of masculine and feminine gender roles, the nature of sexism, and changing gender roles in families, occupations, politics and religion. Prerequisite: SOC 100 or GEN201. 4 Semester Hours.

SOC 325 Organizational Analysis

An examination of bureaucracy, decision making, communication, leadership, power relations and the environmental context for both business and service organizations. This course includes a 15hr field practicum. Prerequisites: SOC 100S or junior standing and permission of instructor. 4 Semester Hours.

SOC 330G Minority Group Relations

An examination of the social and structural relationships between racial, ethnic, religious, sexual and other stigmatized groups and the dominant society in America. Prerequisite: SOC 100S. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

SOC 345 Deviance

Emphasis is upon examination of the major theoretical explanations of deviant behavior and the empirical evidence supporting these perspectives. Prerequisite: SOC 100S. 4 Semester Hours.

SOC 350 Grants and Planning

This course introduces students to the professional skills required of social scientists working in applied settings. In particular, the course emphasizes the development of both theoretical and practical knowledge associated with grant writing, strategic planning and other philanthropic-related skills required of social scientists working in both non-profit and for-profit organizations. Prerequisites: SOC 100S or PSY 110S and junior standing. 4 Semester Hours.

SOC 364 Research Methods I

This course will familiarize students with the research methods that are used in the social and behavioral sciences. This includes issues related to research design, measurement, and data collection. Attention will be given to both qualitative and quantitative approaches. Prerequisite: SOC 100S or CRJ 105. 4 Semester Hours.

SOC 365 Research Methods II

This course will introduce students to basic statistical procedures necessary for social science research with quantitative data. Students will also learn data entry and management, conducting statistical analysis and interpreting results utilizing SPSS program. Prerequisite: satisfactory score on the mathematics placement exam or MTH 100. 4 Semester Hours.

SOC 375 Sociological Theory

A study of sociological theory from Comte to the present with emphasis upon the major schools of sociological theory and the main contributions of outstanding sociologists. Prerequisites: SOC 100S and junior or senior standing. 4 Semester Hours.

SOC 384 Diversity: Intercultural Communication

A study of human communication across cultures focusing on the variables that influence interaction when members of different cultures come together. 4 Semester Hours.

SOC 399 Special Topics

See All-University 399 course description.

SOC 490 Senior Culminating Experience

This course involves planning and developing an original research project. Topics and activities include developing research questions, examining theoretical issues, reviewing literature, articulating hypotheses, and describing the methods that are used to answer research questions. In developing and presenting a research proposal, students will incorporate knowledge gained from previously-taken sociology courses. Prerequisites: SOC 100S, SOC 210, SOC 364, SOC 365, and SOC 375. Cross-listed as CRJ 490. 4 Semester Hours.

SOC 494 Honors Thesis/Project.

See All-University Honors course description.

SOC 499 Field Work Internship

See All-University 499 course description. Cross-listed as CRJ 499. 1-16 Semester Hours.

Spanish

SPN 101 Elementary Spanish I

A course designed to develop listening, speaking, writing, and reading skills in Spanish as well as cultural competency in the Hispanic world. SPN 101 is intended for students with no prior knowledge of Spanish or those who have had 2 years or less of high school Spanish. Prerequisite: none. 4 Semester Hours.

SPN 102 Elementary Spanish II

A course designed to enhance and further develop listening, speaking, writing, and reading skills in Spanish as well as cultural competency in the Hispanic world. Successful completion of this course satisfies the World Language Proficiency requirement. Prerequisite: SPN 101 or 2 or more years of high school Spanish. 4 Semester Hours.

SPN 111 Experiential Learning in a Latin American Country

In this course, high school or transfer students who have completed an Amigos de las Américas service learning experience in a Spanish-speaking country prior to beginning classes at the University of Mount Union will complete a series of evaluative assignments. This course does not satisfy the world language proficiency requirement. No more than four credits from the Amigos de las Américas experience may count toward the Spanish major or minor. This course does not count as part of the study abroad experience required for the Spanish major. Graded S/U. 1-4 Semester Hours (based on the granting of one-credit for every two weeks spent at the Amigos de las Américas project site and completion of the coursework in SPN 111). Prerequisite: Completion of an Amigos de las Américas program prior to beginning classes at the University of Mount Union.

SPN 201 Spanish-language Cinema

A course designed as a general review of Spanish grammar structured around films from the Spanish-speaking world. This course is designed to enhance and further develop listening, speaking, writing, and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 202 Introduction to Hispanic Literature

A course designed as a general review of Spanish grammar structured around readings from the Spanish-speaking world. This course is designed to enhance and further develop listening, speaking, writing and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 203 Introduction to Hispanic Civilization

A course designed as a general review of Spanish grammar structured around the history and contemporary societies of the Spanish-speaking world. This course is designed to enhance and further develop listening, speaking, writing, and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 204 Introduction to Hispanic Theatre

A course designed as a general review of Spanish grammar structured around plays from the Spanish-speaking world. This course is designed to enhance and further develop listening, speaking, writing and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 205 Spanish and Spanish-American Pop Culture

A course designed as a general review of Spanish grammar structured around music, films, and readings from the Spanish-speaking world. This course is designed to enhance and further develop listening, speaking, writing, and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 207 Spanish-language Mysteries

A course designed as a general review of Spanish grammar structured around readings, videos, films, and blogs from the Spanish-speaking world that deal with popular mysteries. This course is designed to enhance and further develop listening, speaking, writing, and reading skills in Spanish with a heavy emphasis on culture. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 4 Semester Hours.

SPN 208 Medical Spanish I

A thorough review of Spanish grammar with a focus on medical Spanish and cultural differences among Hispanic patients. This course may include a service-learning component. Prerequisite: SPN 102 or four years of high school Spanish or permission of the instructor. 2 Semester Hours.

SPN 209 Medical Spanish II

A continuation of SPN 208. A thorough review of Spanish grammar with a focus on medical Spanish and cultural differences among Hispanic patients. This course may include a service-learning component. Prerequisite: SPN 208 or five years of high school Spanish or permission of the instructor. 2 Semester Hours.

SPN 210 Travel Seminar

In this course students will participate in a faculty-led trip to a Spanish-speaking location. 1-4 Semester Hours.

SPN 211 Pre-trip Service Learning in a Spanish-speaking Country

In this course students will participate in a pre-trip service learning experience in a Spanish-speaking country that has been arranged via the Amigos de las Americas organization and complete pre-experience coursework assigned by a Spanish instructor at the University of Mount Union. This course does not count toward the study abroad experience required for the Spanish major. Graded S/U. Prerequisite: Enrollment in the Amigos de las Americas service learning program. 1 Semester Hour.

SPN 212 Service Learning in a Spanish-Speaking Country

In this course students will develop projects in Spanish and English to synthesize and share with local communities their Amigos de las Americas service learning experience. This course does not count toward the study abroad experience required for the Spanish major. Graded S/U. Prerequisite: Enrollment in the Amigos de las Americas service learning program in Latin America. 3 Semester Hours.

SPN 220 Gender and Ethnicity in Spanish-American Literature

An exploration of gender and ethnicity as revealed through Spanish-American literature supplemented by postcolonial writings that will examine these themes within a global context. Emphasis will be placed on viewing the texts from the perspective of women and minorities. Prerequisite: SPN 201, SPN 202, SPN 203, SPN 204, or SPN 205. 4 Semester Hours.

SPN 221 Spanish and Spanish-American Culture and Civilization

A study of the culture and civilization of Spain, pre-Columbian civilizations and their impact upon today's Spanish-speaking world. Taught in English, but with some required work in Spanish. Spanish majors and minors will be encouraged to do all of the readings and the written work in Spanish. This course does not satisfy the World Language Proficiency requirement. 4 Semester Hours.

SPN 222 Hispanic Literature in Translation

A study of major literary works from various parts of the Spanish-speaking world. Course content, theme and focus may vary with each offering. Taught in English, but with some required work in Spanish. Spanish majors and minors will be encouraged to do all of the readings and the written work in Spanish. This course does not satisfy the World Language Proficiency requirement. 4 Semester Hours.

SPN 290 Spanish Conversation Practicum

This course offers students the opportunity to develop conversational speaking skills in Spanish. Course graded S/U only. May be repeated for additional credit. Prerequisite: SPN 102, passing the University of Mount Union proficiency test, or permission of the instructor. 1-4 Semester Hours.

SPN 301 Spanish for Traveling and Living Abroad

An intensive course designed to enhance reading, writing, listening, and speaking skills in everyday Spanish with strong cultural and grammatical components oriented toward preparing the student for an extensive stay in a Spanish-speaking country. Prerequisite: One course from the intermediate level that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 302 Spanish for the Professions

An intensive course designed to enhance reading, writing, listening and speaking skills in everyday Spanish with strong cultural and grammatical components oriented toward preparing the student for employment in a business, agency or institution where proficiency in Spanish is expected. Prerequisite: One course from the intermediate level that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 303G Hispanic Perspectives on U.S. Society

A review of writings describing and analyzing U.S. society from the viewpoints of Spanish and Spanish-American authors. Possible topics include, but are not limited to, Hispanic perspectives on U.S. politics, educational systems, commercial practices, daily customs, religious beliefs, and history. Prerequisite: One course from the intermediate level that is taught in Spanish or permission of the instructor. Explorations prerequisite: Successful completion of all four Foundations courses or the WOC Portfolio. Explorations credit may only be earned for a course if this prerequisite is completed prior to the commencement of the course. 4 Semester Hours.

SPN 304 Spanish Across the Curriculum

This course will encourage students to develop their Spanish language proficiency across disciplines. Students will study authentic Spanish-language materials as they relate to materials in another course. Prerequisite: One course from the intermediate level that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 305 Translating Spanish

A study, analysis, and practicum of the techniques of translating from Spanish to English and English to Spanish including the use of software and the Internet. Prerequisite: One course from the intermediate level that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 306 Spanish-American Readings

A survey of the literature of the Spanish-speaking countries in the Americas. Prerequisite: One course from the intermediate level or above that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 307 Hispanic Art and Cinema

A study of Hispanic cinema, painting, and music as sociocultural products of their time. Prerequisite: One course from the intermediate level or above that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 308 Peninsular Spanish Readings

A survey of the literature of Spain including works from different literary movements. Prerequisite: One course from the intermediate level or above that is taught in Spanish or permission of the instructor. 4 Semester Hours.

SPN 309 Conversational Spanish for Medical Practitioners I

A conversation practicum with a focus on medical Spanish and cultural differences among Hispanic patients. This course includes a service-learning component. Prerequisite: SPN 209, an equivalent course, or five years of high school Spanish or permission of the instructor. 2 Semester hours.

SPN 310 Conversational Spanish for Medical Practitioners II

A continuation of SPN 309. A conversation practicum with a focus on medical Spanish and cultural differences among Hispanic patients. This course includes a service-learning component. Prerequisite: SPN 309, an equivalent course, or permission of the instructor. 2 Semester hours.

SPN 385 Methods of Teaching Spanish

A practical and theoretical methodology course which emphasizes lesson planning, writing instructional objectives, assessment, curriculum design, and a study of methodologies and materials relevant to the teaching of Spanish in the elementary, middle, and secondary schools. The course emphasizes the core guidelines of the American Council on the Teaching of World Languages and relates instructional planning to Ohio's Model for a Competency-Based Program in World Languages. This course must be taken prior to or concurrently with Multiage Student Teaching and SPN 386. This course does not count toward the requirements of the major or minor in Spanish. Prerequisites: Successful completion of one 300-level course in Spanish and permission of the instructor. 4 Semester Hours.

SPN 386 Practicum in the Teaching of Spanish

A practicum designed to put into immediate practice theories and strategies discussed in SPN 385. The student will serve as a teaching assistant in an elementary or intermediate course in Spanish in the Department of World Languages and Cultures. It is recommended that this course be taken concurrently with SPN 385. This course does not count toward the requirements for the major or minor in Spanish. Prerequisites: Successful completion of one or more 300-level courses in Spanish and permission of the instructor. 2 Semester Hours.

SPN 387 Teaching Spanish in the Elementary School

This course is a practicum designed to make available to the teacher candidate in Spanish a practical field experience at the elementary school level. Under the direct supervision of world language faculty, the teacher candidate will participate in a FLES program at a local elementary school for one semester. It is recommended that this course be taken concurrently with SPN 385. This course does not count toward the requirements for the major or minor in Spanish. Prerequisite: Permission of the instructor. 1 Semester Hour.

SPN 401 Advanced Special Topics

Topics may vary. May be repeated for credit. Consent of instructor required. Prerequisite: One course at the 300 level or permission of instructor. 4 Semester Hours.

SPN 485 Teaching Assistant Practicum – Spanish

Intended for Spanish-language teaching assistants only. This course may be repeated for additional credit. 6 Semester Hours.

Spectrum Education Center Internship

SPE 200 Introduction to Developmental Disorders

This course is designed for students participating in the semester-long Spectrum Program. It is designed to complement the hands-on experience that students engage in at their clinical site placement. In this course students will gain an understanding of the characteristics and incidence of developmental disabilities, and the implications for children's learning, behavior and ability to process information. Students will explore the latest research on potential causes, best practices for assessment and intervention, areas of impairment, as well as current issues related to disability services. Corequisite: SPE 205 and SPE 499. 4 Semester Hours.

SPE 205 Clinical Seminar on Developmental Disorders

This course is designed for students participating in the semester-long Spectrum Program. It is designed to complement the hands-on experience that students engage in at their clinical site placement. In this course students will cover various topics related to the intervention and advocacy of developmental disabilities. Corequisite: SPE 200 and SPE 499. 2 Semester Hours.

SPE 210 PEERS Program Mentor Training

This course is designed for undergraduate students who wish to work with adolescents on the autism spectrum. The experiential learning component of this course is conducted as part of the PEERS (Program for the Education and Enrichment of Relational Skills) Program, which is offered through the Spectrum Education Center. PEERS is an evidence-based social skills intervention program for adolescents who are interested in learning ways to help them develop friendships. Students in this course learn and practice implementing social skill interventions. 2 Semester Hours.

SPE 499 Spectrum Education Center Internship

This is an experienced-based course in which students spend approximately 24 hours per week working with a site that provides services for people with developmental disabilities. Supervision is jointly provided by the cooperating site and the Spectrum Education Center. This internship may also count for PSY 420 (Seminar) or PSY 499 (Internship). Corequisite: SPE 200 and SPE 205. Graded S/U. 8 Semester Hours.

Sport Business

SPB 100 Introduction to Sport Business

An investigation of the principles of the sport and recreation business. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 199 Special Topics in Sport Business

See All-University 199 course description.

SPB 200 Sport Event and Venue Management

Planning and organizing sport and recreation events. Included will be facility management and legal considerations. Prerequisite: SPB 100 or permission of instructor. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 210 Analytics, Business Intelligence & New Media in Sport

This course explores basic concepts and the role analytics, business intelligence and new media play in sport. Throughout the course, discovery and communication of meaningful patterns in data are reviewed and applied to improve sport business performance. The course also explores the evolution of digital media technologies and their impact in sport business and considers tools to measure engagement and activity. Prerequisite: SPB 100 or permission of instructor. (offered fall and spring semesters). 4 Semester Hours.

SPB 230 Introduction to Sport Sales

Sport businesses succeed based upon their ability to generate revenue. Focusing primarily on ticket sales, this course examines the importance of sales to a sport organization, introduces the steps and strategies of the sales process, and looks at the legitimacy of sales as a career path. Prerequisite: SPB 100 or permission of instructor. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 275 Sport Journalism

This course is designed to introduce students to sports journalism in the modern era (21st century). This writing intensive course provides a broad overview of the ever-changing sports media field, discusses journalists as public figures, explores the role of the Internet in covering sports and analyzes the 24-hour news cycle and its effects on journalists and the public figures they cover. Cross-listed as COM 275. 4 Semester Hours.

SPB 290 Practicum in Sport Business I

Sport Business majors must complete two practicums in two separate courses. A minimum of 60 work hours is required for the one semester hour practicum credit. Prerequisites: SPB 100 or permission of the instructor. 1 Semester Hour.

SPB 305 Travel Seminar

A guided study tour of a domestic or international nature. Emphasis is on site visitations and presentations by administrators and experts in those agencies and institutions. The course incorporates a degree of flexibility in order that it may serve a variety of situations involving foreign on-site study. In addition to the tour, seminar attendance (prior to tour), background study, writing projects and research are required. Prerequisite: Permission of the Instructor. 1-4 Semester Hours.

SPB 320 Recreation Management

This course is designed to provide students with a comprehensive understanding of recreational management with a focus on campus and municipal recreation. This course will provide students with the skills and knowledge to plan recreation programming, funding, budgets, facilities, risk management, and training programs. Prerequisite: SPB 100 or permission of the instructor. 2 credit hours.

SPB 330 Public Relations and Marketing of Sport

An overview of the role, theory and application of public relations strategies and techniques in the sport industry. Also considered is the application of marketing theory and sponsorship to the sport business. This course provides knowledge of product, price, promotion, place and distribution in a defined market segment. Prerequisites: SPB 100, SPB 210, and MKT 220 or permission of the instructor. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 370 Intercollegiate Athletic Administration

This course is designed to give students a comprehensive understanding of intercollegiate athletics in today's sport industry. Focus will be placed on current issues, management, governance, budgeting, personnel, ethics, collegiate career development and student-athlete welfare. This class is designed to prepare student interested in careers within intercollegiate athletics. Prerequisites: SPB 100 and SPB 200 or permission of the instructor. 4 Semester Hours. (typically offered spring semester)

SPB 380 Sport Entrepreneurship

Management techniques of private sport clubs are studied in order to prepare the student to start and manage this type of business, i.e., golf courses, racquet and tennis clubs, fitness centers. Prerequisites: SPB 100 and SPB 200 or permission of the instructor. 4 semester hours. (typically offered even year spring semesters)

SPB 390 Practicum in Sport Business II

Sport Business majors must complete two practicums in two separate courses. A minimum of 60 work hours is required for the one semester hour practicum credit. Prerequisites: SPB 100 and SPB 290. (offered fall and spring semester) 1 Semester Hour.

SPB 399 Special Topics in Sport Business

See All-University 399 course description.

SPB 400 Independent Study

Open to juniors and seniors majoring or minoring in sport business. The student, in consultation with the instructor, will select a topic or problem that they wish to research in depth. Departmental permission required for registration. Prerequisite: SPB 100 and Junior or Senior status. 1-4 Semester Hours.

SPB 410 Finance and Economics of Sport and Recreation

Understanding the factors and ramifications of financial issues with respect to sport and recreation. Addressed will be economic principles, financial resource management, economic impact analysis, stadium financing and grant acquisition. Prerequisite: SPB 100, SPB 200, SPB 210, SPB 230, ACC 205 and junior/senior standing OR permission of the instructor. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 430 Advanced Sport Sales

Building upon the foundation laid in SPB 230, this course develops the steps and strategies of the sales process including overcoming objections and closing the sale. Students will also receive authentic sales training and engage in a ticket sales campaign for a sport organization, utilizing the Mount Union Sport Sales Training and Research (STAR) Centre. Prerequisites: SB 100 and SPB 230. 2 Semester Hours.

SPB 450 International Sport Business and Administration

Attention is focused upon sport business that crosses country borders. Aspects of the course will sensitize the student to the cultural and political nature of sport. Regional and global sport associations will be explained and discussed. Prerequisites: SPB 100, SPB 200, SPB 330 or permission of instructor. 4 Semester Hours. (typically offered fall and spring semesters)

SPB 460 Senior Research in Sport Business

A research project incorporating concepts learned in sport business curriculum. Open only to majors in sport business. Prerequisites: Senior standing and permission of instructor. 1 Semester Hour.

SPB 494 Honors Project

See All-University 494 course description.

SPB 499 Internship in Sport Business

An experience-based course in which the student spends a specified amount of time with a sport or recreation agency or organization in order to gain experience and to understand the application of sport administration and facility management in this setting. Supervision will be jointly provided by the cooperating organization and the University departmental staff. Prerequisites: At least junior standing and permission of the instructor. 1-16 Semester Hours.

Sustainability

SUS 100 Introduction to Sustainability

This course will examine what is meant by the term sustainability and will provide foundational knowledge of the principles of sustainable development as a possible way to balance social, environmental, and economic equity. This course will draw upon a diverse set of case studies and issues of concern from around the world to illustrate the complexity of sustainability issues and their implicit trade-offs. These include but are not limited to poverty, hunger, education, industry and resource use and availability, responsible consumption and production, affordable and clean energy, biodiversity impacts, planetary degradation, climate change, and local community-government partnerships. 2 semester hours.

SUS 400 Sustainability Seminar

This course will provide students the opportunity to demonstrate a cohesive body of knowledge was developed through the progression of the minor. It will enhance the student's ability to connect the core concepts and theories of sustainability to their specific disciplines. This course will require collaboration among the interdisciplinary group of students to apply systems thinking and problem-solving to an identified sustainability issue. The students will be required to research the identified issue, identify appropriate partners and stakeholders, and formulate a plan or solution that is a synthesis of equitable economic growth, social well-being, and thriving natural systems. Prerequisite: SUS 100 and an additional 8-credit hours of approved electives, or permission of instructor. 4 semester hours.

Theatre

THE 121 Dance Fundamentals

This course focuses on the fundamentals of dance and requires active participation in exercises and choreography designed to establish basic proficiency in specific genres of dance, such as Ballet, Jazz/Musical Theatre, and Modern. May be repeated. Dance style may rotate by semester. 1 Semester Hour.

THE 141 Lighting Craft

The purpose of this course is to help students develop a basic understanding of the backstage activities and terminology of the theatre—basic electrical theory and the technical aspects of theatrical lighting will be emphasized. Offered spring semester of odd years. 2 Semester Hours.

THE 142 Stage Craft

The purpose of this course is to help students develop a basic understanding of the backstage activities and terminology of the theatre - theatrical scenery construction and rigging techniques will be emphasized. Offered spring semester of odd years. 2 Semester Hours.

THE 143 Costume Technology

An introduction to the process and technical aspects of theatrical costuming including pattern development, garment construction, fabric coloring and decoration, accessory construction, millinery, and shoe making. Offered spring semester of even years. 2 Semester Hours.

THE 144 Stage Make Up

A study of the basic principles and techniques involved in creating character make-up for the stage, including various make-up media, emphasis and de-emphasis of facial features, aging techniques, prosthetics, hairpieces, and special effects. Offered spring semester of even years. 2 Semester Hours.

THE 150 Acting I

An introductory course in the theory and practice of acting for the stage. Includes consideration of playscript analysis, basic performance techniques and development of the actor's instrument: voice, body and imagination, stage composition, movement, picturization and the work of the production team. Extensive use of practical exercises and scene presentations. 4 Semester Hours.

THE 155 Stage Combat

This introductory stage combat course focuses on creating the illusion of violence for the stage and screen. Basic instruction is given in unarmed and armed stage fighting. Emphasis is on the development of technique; the process of the work, and the performance, with a focus on safety, accuracy, and the fundamental techniques recognized by the Society of American Fight Directors (SAFD). Basic techniques will be incorporated into short scenes to provide experience performing fights in production. 4 Semester Hours.

THE 200A People, Society and Theatre

This course is an introduction to the exciting, complex, and collaborative process of theatre. Comprised of the work of a number of dedicated passionate people (playwrights, producers, directors, designers, actors, and technicians), encompassing historical traditions, and drawing from old and new scripts, theatre culminates in a live performance in front of a live audience, both in the same place at the same time. In this class, we will examine and consider the history, the choices, and the process which results in the production. 4 Semester Hours.

THE 205A The History of the American Musical Theatre

From the Black Crook (1866) to Spiderman: Turn Off the Dark (2011), musical theatre has been an integral part of not only the world of theatre, but the world at large. Although all-too frequently regarded as "fluff entertainment," musical theatre has been responsible for significant social observation and change. From the issues of racism in Showboat (1927) to the questions of AIDS in Rent (1996), unemployment in The Full Monty (1997) and sustainability in Urinetown (2001), musical theatre has often offered

the ticket-buying public the palatable opportunity to examine tough issues from a safe place. This course will examine the history, impact, and the effects of musical theatre. 4 Semester Hours.

THE 210 Travel Seminar

In this course, students will participate in a faculty-led trip to a site of theatrical significance, i.e. London, Paris, New York City, Los Angeles. Graded S/U. Variable 1-4 Semester Hours.

THE 221 Intermediate Dance

Students in Intermediate Dance will build on proficiencies established in Dance Fundamentals I. This course focuses on a deeper examination of Ballet, Jazz/Musical Theatre, and Modern Dance or Tap. May be repeated. Dance style may rotate by semester. 1 Semester Hour.

THE 225 Creative Dramatics

A study of the theories and methods involved in using improvisation, theatre games, and other creative dramatic techniques as an approach to teaching theatre and developing theatrical productions. 4 Semester Hours.

THE 255 Voice and Movement for the Actor

An exercise-based course strengthening the external components of performance: voice and body. Coursework will seek to develop a complete performer with a vibrant and resonant voice, along with a controlled and engaged body awareness. 4 Semester Hours.

THE 256 Improvisation

This course will teach and strengthen the fundamentals of Improvisation as a rehearsal tool, as well as a performance opportunity. Prerequisite: Successful completion of THE 150 or THE 200. 4 Semester Hours.

THE 275 Theatre Practicum I

Open to theatre majors and minors fulfilling production participation requirements. Course work involves active participation in a main stage departmental production. 0.5 Semester Hour.

THE 276 Theatre Practicum II

Open to theatre majors and minors fulfilling production participation requirements. Course work involves active participation in a main stage departmental production. 0.5 Semester Hour.

THE 299 Special Topics in Theatre

See All-University 299 course description.

THE 305 Theatre History I

A survey of the development of dramatic literature and theatrical production techniques from the Greek to Renaissance periods. 4 Semester Hours.

THE 306 Theatre History II

A survey of the development of dramatic literature and theatrical production techniques from the Renaissance to Contemporary periods. 4 Semester Hours.

THE 341 Lighting Design

A study and analysis of stage lighting. Consideration given to advanced elements of electricity, electrical control and circuitry, reflection, refraction and color. Emphasis will be on the lighting design and aesthetics of a theatrical production. Prerequisite: THE 141 or permission of the instructor. 4 Semester Hours.

THE 342 Scene Design

A study and analysis of the visual elements of theatrical production. Emphasis on the principles and elements of design, drafting and rendering. Consideration of the aesthetics of stage design through specific applied projects. Prerequisite: THE 142 or permission of instructor. 4 Semester Hours.

THE 343 Costume Design

A study of costume history and theatrical costume design from the Greek period to the present day. Emphasis on the manner in which costume reflects the culture and values of each period. Prerequisite: THE 143 or permission of the instructor. 4 Semester Hours.

THE 350 Acting II

An advanced course in the theory and practice of acting. Includes practice in classical roles, handling poetic speech and development of audition pieces. Intensive work on the actor's use of specific vocal, physical and emotional choices in creating a characterization. Prerequisite: THE 150. 4 Semester Hours.

THE 360 Directing for the Stage

A study of the initial steps in translating the play script into a theatrical production. Particular emphasis is placed on script analysis, stage composition, movement, picturization and the work of the production team. Prerequisite: THE 150 and Junior or Senior standing only. 4 Semester Hours.

THE 375 Theatre Practicum III

Open to theatre majors and minors fulfilling production participation requirements. Course work involves active participation in a main stage departmental production. 0.5 Semester Hour.

THE 376 Theatre as a Profession

This course is intended to help students prepare for summer theatre opportunities, graduate study or a professional career. Students will work to understand various elements of successful pursuit of theatre opportunities, including portfolio development, auditioning, interviewing, career-related communication and professional presence. 0.5 Semester Hour.

THE 399 Special Topics in Theatre

See All-University 399 course description.

THE 400 Independent Research

Open to advanced students wishing to pursue a particular aspect of theatre in depth. A prospectus and preliminary bibliography for the project must be submitted for departmental approval prior to registration. Variable Semester Hours.

THE 420 Senior Culminating Experience

A senior research seminar that culminates in either: (1) a major thesis focusing on a creative, historical, descriptive or critical aspect of the theatre, or (2) the production of a creative, theatrical project and the composition of a paper which discusses and evaluates the process. Open to seniors only. Offered fall and spring semester. 2 Semester Hours.

THE 494 Honors/Thesis Project

See All-University 494 course description.

THE 499 Internship in Theatre

Open to juniors and seniors majoring in theatre. Students will be placed in internship stations which complement their career orientation. Admission into the program is through a formal application and evaluation process and is dependent on the student's academic record and active participation in the theatre program. Taken under Satisfactory/Unsatisfactory grade option only. 1-16 Semester Hours.

Writing

WRT 100 College Writing

A course requiring a research paper and frequent written assignments related to classroom discussions and readings. Individual conferences help students formulate, organize, and express ideas. WRT 100 satisfies the General Education Requirement for Written Communication (I,B.1) and is intended for students entering before fall 2012. Prerequisite: None. 4 Semester Hours.

WRT 110H Introduction to Professional Writing

A course introducing students to the rhetorical foundations of business, professional, and technical writing. In this class we will pay attention to such rhetorical elements as style, audience, purpose, and design and learn how these varying contextual factors affect the creation and reception of professional and technical documents. Prerequisite: None. Typically offered every year. 4 Semester Hours.

WRT 120A Introduction to Creative Writing

A course introducing students to the craft of creating fiction, poetry, creative nonfiction and drama. In this course we will explore the various techniques, decisions, styles and approaches used by creative writers. Students will also read extensively and participate in exercises designed to develop the creative process. Prerequisite: None. 4 Semester Hours.

WRT 200A Fieldwork for Writers

A course introducing students to the type of research real writers do. Writers learn to conduct research in order to present a piece of writing that is "right" not only factually, but aesthetically. They conduct interviews, observe scenes, walk the ground, consult archives and read extensively to find the story and the story beneath the story. In this class, we will study how writers research their subjects and practice doing research using multiple methods. Students will identify a writing project and conduct both primary and secondary research. Primary research might include observation, interviews, and case studies; secondary research may include traditional scholarly research and the use of a wide net of resources useful to a particular project (resources that would not be

considered scholarly, but which would illuminate the subject for readers in new ways). Prerequisite: WRT 110H or WRT 120A. 4 Semester Hours.

WRT 220 Careers in English and Writing

This course is intended for first and second-year students interested in majoring or minoring in English or Writing. In this course, students will discover and research the kinds of careers and professional occupations available to students studying writing and English. Students will also develop awareness of the skills and abilities developed and reinforced through English and writing courses and learn about the beneficial role that these skills and abilities play in the larger culture and professional workplace. There is an experiential component to this course. 2 Semester Hours.

WRT 230H Rhetorical Grammar

A course introducing students to the rhetorical choices writers make at the sentence-level to create a particular effect among readers, including grammatical, punctuation, and mechanical choices. In this class, we will wrestle with some of the big questions surrounding language use today: What are the consequences for “incorrect” grammar today? How do societies decide what makes for “correct” grammar? What makes good writing good? How does language use affect meaning? In addition to asking the big questions, we will examine how people use language “rules” to shape writing, and how people break those rules for certain, deliberate effects. We will also learn and practice the methods of studying language use that can be helpful for anyone who wants to communicate well. Practically speaking, we will study examples of effective communication and practice using their successful strategies to produce and revise our own work. This class can be beneficial for the student who just wants to gain a better grasp of grammar as well as the student who really wants to learn more about the power of language in our lives. Typically offered every Fall semester. 4 Semester Hours.

WRT 310 Theory and Practice of Editing

A course introducing students to the knowledge, skills, and techniques necessary for a career in professional editing. In this class we will examine textual and literary approaches to editing given particular rhetorical contexts, emphasizing the various approaches to editing and how to make editorial judgments that promote editorial standards without violating authorial intent. Topics covered will include visual and textual document design, editorial design, copy editing, proofreading, and plain language principles. Prerequisite: Junior standing. Typically offered every other year. 4 Semester Hours.

WRT 311V Publications Management

A course introducing students to the historical, theoretical, and practical aspects of publications management. In this course we will gain familiarity with the responsibilities of people who manage a variety of publications including in-house publications, those of independent companies, organization-wide information policies, and professional publications. We will cover the principles of effective visual and document design, the role of the technical communicator in the design process, and the application of professional design principles and production techniques to create effective print and digital publications. We will also assist in the management and production of *The Agora* and *Calliope*. Prerequisite: Junior standing. Typically offered every other year. 4 Semester Hours.

WRT 312 Writing and the Web

A course introducing students to the principles of writing in digital, networked environments. In this class we will conduct oral and/or written analyses of a number of different digital artifacts and practice writing and designing websites, weblogs, and digital video content. We will read contemporary theories of digital, visual, and public rhetoric as well as texts on the history of digital writing technologies and their effect on contemporary practice. Students will propose, plan, and develop a number of individual and group web writing projects. Prerequisite: WRT 110H or WRT 120A. Typically offered every other year. 4 Semester Hours.

WRT 320 Reading and Writing Poetry

A course helping students to expand on introductory material from WRT 120 in a focused study and production of poetry. In this course we will learn where poetry comes from (historical context), how it has changed over the centuries, and where poetry now stands as a literary art form and vibrant cultural expression. We will write about writing poetry, write poetry, and read poetry. We will research poets, publications, and topics for writing poetry. Students will produce a poem a week based on an exercise from the text, which will help to develop a sense of the range and possibilities in poetic expression. Students will also host and participate in monthly coffeehouse events for writers on campus. At least one piece will be revised for inclusion in the major portfolio. Prerequisites: WRT 120A and WRT 200A. Typically offered every other year. 4 Semester Hours.

WRT 321 Reading and Writing Fiction

A course helping students to expand on introductory material from WRT 220 in a focused study and production of fiction. Writing creatively begins by reading with the eye of a writer. Thus, in this course we will read classic and contemporary fiction paying close attention to aesthetic elements such as characterization, conflict, dialogue, narrative, and plot, while always keeping in mind that good literature appeals to its reader through the senses. The published works of others will provide inspiration as well as a framework through which we can analyze, understand and discuss stories as an enthusiastic community of writers. As the semester progresses we will turn our attention to stories written by class members. These stories will be critiqued in the classic workshop style, whereby students will present their works in progress, and will receive responses from the instructor as well as fellow class-

members through writing and through discussion. Students will also host and participate in monthly coffeehouse events for writers on campus. At least one piece will be revised for inclusion in the major portfolio. Prerequisites: WRT 120 and WRT 200A. Typically offered every other year. 4 Semester Hours.

WRT 322 Reading and Writing Creative Nonfiction

A course helping students to expand on introductory material from WRT 220 in a focused study and production of creative nonfiction. Creative nonfiction uses the techniques of poetry, fiction and journalism to get at truth, both emotionally and factually. Creative nonfiction (CNF) is thriving in the world. Any reader can pick up *The New York Times* and find it there as the “New Journalism,” in essays that tell the stories behind specific events, people, and problems. CNF can be found in hundreds of trade journals and specialty magazines, on any magazine row, in literary journals devoted to the genre, and in the thousands of personal web blogs flourishing today. In this course we will read the works of classic and contemporary creative nonfiction writers in order to provide a framework through which we can analyze and understand creative-nonfiction as writers. This reading will also provide a means for us to discuss our own work, as well as that published by others. As the semester progresses we will turn our attention to work written by class members. These pieces will be critiqued in the classic workshop style whereby students will present their works in progress and will receive responses from fellow class-members through writing and through discussion. Prerequisites: WRT 120 and WRT 200A. Typically offered every other year. 4 Semester Hours.

WRT 330 Special Topics

A course offering students an opportunity for advanced study of a more focused area of professional or creative writing. Special Topics courses may be offered on occasion as a substitute for a rotational elective (e.g., “The Short Story Collection” instead of “Reading and Writing Fiction”) or as an extra topic (e.g., “Writing for the Screen and Stage,” “The Novella, Writing about Place,” “Argument and Persuasion,” or “Major Author”) in addition to the rotational offerings. Prerequisite: Varies by topic. 4 Semester Hours.

WRT 400 Style, Voice, Ethos

A course helping students to examine some of the most significant concepts common to writers of all texts (poetry and prose of all kinds). In this course we will emphasize the concepts of style, voice, and ethos and explore how writers develop strategies for the choices they make to have a desired effect on readers. Students will also develop strategies for honing their own language choices to better attend to the issues of style, voice, and ethos in their texts. Prerequisite: Senior standing in the Writing major or minor. Typically offered every fall. 4 Semester Hours.

WRT 422 Science Writing

Scientific discoveries, problems, and solutions help to shape our world, yet the public often does not understand science, with its necessary jargon, symbols, and equations. The person who can write about scientific issues in an accessible manner can help readers of all sorts understand and appreciate science and our complicated connections to it in everyday life. This class will introduce interested students to the art of writing about science for the public, a kind of writing that can be found in short, informative articles in newspapers, magazines, and blogs, and in longer, journalistic, narrative nonfiction in newspapers, magazines, blogs and books. Typically offered every two years. Prerequisites: WRT 200A, WRT 230H, and one 300-level WRT course. 4 Semester Hours.

WRT 450 Independent Study

Open to senior Writing majors who wish to pursue a topic related to the advanced study of writing in an area not offered under the traditional curriculum. Study may be taken on an interdepartmental basis with permission of the departments involved. A prospectus and preliminary bibliography of the project must be submitted for departmental approval prior to registration. 1-4 Semester Hours.

WRT 499 Internship

Through the cooperation of agencies and business in the vicinity of the University, students are provided with a significant learning experience outside of the classroom setting. Although the program is designed to be fundamentally an educational experience, professionally productive work will constitute an integral part of the internship. Specific arrangements and requirements will vary with the program. A contract will specify the activities with which the student will be involved. The basis of determining the grade for the program will be given in the contract and will include an evaluation by the supervisor at the organization where the internship work is done, an assessment by the internship faculty advisor, and a written report of the internship experience submitted by the student. Prerequisites will vary with the internship. Participation is by petition to the chair of the department. Taken under Satisfactory/Unsatisfactory grade option only. Only one internship may be taken for credit but may, in certain cases, be repeated for audit. 1-12 Semester Hours.

Sandra L. Thomas, B.A.; Retired Senior Vice President, JP Morgan Chase, Westerville, OH

Office of the President

Thomas J. Botzman, B.S., M.A., Ph.D.; President
Caitlin Clark, B.S., M.S., M.Ed.; Executive Assistant to the President and Board of Trustees

Office of Academic Affairs

Bryan J. Boatright, B.A., M.B.A., Ed.D.; Assistant Vice President for Academic Affairs & University Registrar
Jeffrey Breese, B.A., M.A., Ph.D.; Provost and Vice President for Academic Affairs
Jesse Cunion, B.A., M.A.; Assistant Dean for Student Success
Corey Delaney, A.A.S., B.S.; Assistant Athletic Trainer
Heather L. Duda, B.A., M.A., Ph.D.; Founding Dean of the College of Arts and Humanities
Anna Duffrin, B.S., M.S.; Assistant Athletic Trainer
Kelly L. Gaughan, B.S., M.S.; Head Athletic Trainer
Adina Haught, B.A.; Senior Administrative Assistant to the Dean of the College of Applied and Social Sciences
Cody Herman, B.S.; Assistant Athletic Trainer
Heather Hickman, B.A., M.A.; Executive Assistant to the Provost and Vice President for Academic Affairs
Barbara Lyons, B.A., M.A.; Senior Administrative Assistant to the Dean of the College of Arts and Humanities
Sandra I. Madar, B.S., Ph.D.; Founding Dean of the College of Natural and Health Sciences
Isiah Mast, B.S., M.A.; Assistant Athletic Trainer
Traci McGary, B.S.; Education Department Coordinator
Christine Pontius; Administrative Assistant for Nursing Department
Stephanie Salamon, A.A.S., B.A.; Assistant Clinical Coordinator, Physician Assistant Studies Program
Rebekah L. Shank; Office Coordinator, Physical Therapy Program
Karen Skiba, A.A.B.; Administrative Assistant for Business and Engineering
Kristine L. Still, B.S., M.A., Ph.D.; Founding Dean of the College of Applied and Social Sciences
Amanda Valverde, B.A.; Administrative Assistant for Academic Affairs – Events and Programs
Andrea Williams, B.S.; Senior Administrative Assistant to the Dean of the College of Natural and Health Sciences

Center for Faculty Development

Danielle Cordaro, B.A., M.A. Ph.D.; Director of the Center for Faculty Development and Associate Professor of English
Stephen Craig, B.A., M.A., Ed.D.; Instructional Designer
Cara McEldowney, B.A.; Manager of Instructional Technology
Melissa Muller, B.S., M.A., Ph.D.; College of Natural and Health Sciences Faculty Fellow and Associate Professor of Psychology, Neuroscience, and Human Development

Center for Global Education

Douglas Granger, B.A., M.A.P.; Assistant Director of the Center for Global Education
Jennifer Hall, B.A., M.A., Ph.D.; Faculty Director of the Center for Global Education

Center for Student Success

Jody Bryan, B.A.; Coordinator for the Center for Student Success
Jessica Cunion, B.A., M.A.; Assistant Dean for Student Success
Sara Fugett, B.A., M.S.; Director of Career Development
Brian T. Hopkins, B.S., M.Ed.; Director of First Year Initiatives
Tammi Kohl Kennedy, B.A., M.A., M.Ed.; Director of Academic Support
Marci Muckleroy, B.A., M.Ed.; Assistant Director of the Center for Student Success
Ross Miltner, B.A., M.Ed., J.D.; Director of Student Accessibility Services

Digital, Written, and Oral Communication Studio

Rodney Dick, B.A., M.A., Ph.D.; Director of the Digital, Written, and Oral Communication Studio and Professor of English

Office of Camps and Conferences

Jenny Huth, B.A.; Director of Camps and Conferences

Office of Institutional Effectiveness

Suzette Burlingame, B.A., M.L.I.S.; Director of Institutional Effectiveness
Aimee Huter, B.A., M.S.; Assistant Director of Institutional Effectiveness

Office of the University Registrar

Bryan J. Boatright, B.A., M.B.A., Ed.D., Assistant Vice President for Academic Affairs and University Registrar
Kimberly Eckenrode, A.A.B.; Academic Systems Coordinator
Shelley Floor, Academic Records Coordinator
Lisa Johnson, B.A., Assistant University Registrar
Diane Yarnell, A.A.; Scheduling Manager

Integrative Core

Amy Laubscher-Milnes, B.A., M.A., Associate Director of the Integrative Core
Keith Miller, B.S., Ph.D.; Director of the Integrative Core

Intercollegiate Athletics

Abby Bartoszewicz, B.A., M.B.A.; Assistant Women's Basketball Coach
Caitlin Clark, B.S., M.S., M.Ed., Associate Athletic Director for Compliance, Administration & Inclusion
Kelley Clark, B.S., M.A.; Head Women's Soccer Coach
Jasper Collins, B.A., Assistant Football Coach
Mark Cyron, B.S., M.Ed.; Assistant Men's Lacrosse Coach
Geoff Dartt, B.S., Head Football Coach
Daryl Ely, B.A.; Assistant Football Coach
Alek Erwin, B.A.; Assistant Men's and Women's Track and Field and Cross Country Coach
Emily Fisher, B.A., M.Ed.; Assistant Athletic Director and Head Women's Lacrosse Coach
Michael Fuline, B.G.S., M.A.; Head Men's Basketball Coach
Michael Greisl, B.A.; Assistant Men's and Women's Swimming and Diving Coach
Paul Hesse, B.S., M.A.; Assistant to the Athletic Director and Head Baseball Coach
Chris Kappas, B.A., M.Ed.; Assistant Football Coach
David Krems, B.A., Head Men's Soccer Coach
Kevin Lucas, B.A., M.Ed.; Head Men's and Women's Track and Field and Cross Country Coach
Melissa Mahnke, B.A., M.A.; Head Women's Volleyball Coach
Josh Malave, B.A., M.A., Head Men's Wrestling Coach
Matthew Mihelic, B.A.; Head Men's Volleyball Coach
Kyle Miller, B.A.; Assistant Football Coach
Eric Mojock, B.S., M.Ed.; Head Men's and Women's Swimming and Diving Coach
Michael Parnell, B.S., M.B.A., Interim Director of Athletics
Leonard Reich Jr., B.S.; Assistant to the Athletic Director for Communication
Meghan Simons, B.A., M.S.; Head Softball Coach
Brian Stewart, B.A.; Head Men's Lacrosse Coach

Joshua Twiddy, B.A., M.S.; Assistant Men's Basketball Coach
Suzy Venet Pietz, B.S., M.S.; Senior Women's Administrator and Head Women's Basketball Coach

Library

Cynthia Cirone, A.A.S.; Technical Services Assistant, Library
Christine Cochran, B.A.; Part-time Circulation & Interlibrary Loan Coordinator
Amanda Dutter; Part-time Music Library Assistant
Kathy Kehner, B.S., M.S.; Part-time Circulation and Reserves Assistant
Gina Maida, B.A.; Circulation Manager
Abigail Noland, M.Div., M.L.S.; Systems Librarian
Carla Sarratt, M.L.S.; Director of Libraries
Leah Scott; Part-time Library Curriculum Center
Alan Zahorsky, B.S., M.L.I.S.; Reference/Instructional Librarian

Huston-Brumbaugh Nature Center

Gail Granger, B.S., M.S.; Nature Center Horticulture and Facilities Manager
Jamie Greiner, B.S., M.S.; Sustainability and Academic Outreach Manager
Michael Greiner, B.S.; Nature Center Site Manager
R. Chris Stanton, B.A., M.S., Ph.D.; Director of the Huston-Brumbaugh Nature Center
Bonita Twaddle; Nature Center Outreach Coordinator
Lin Wu, B.S.; M.S.; Ph.D.; Assistant Director of the Huston-Brumbaugh Nature Center
Adam Zorn, B.S.; Nature Center Program Manager

Radio Station, WRMU-FM

Lynn Riggle, B.A., WRMU Coordinator and Co-Advisor Student Media

The Ralph and Mary Regula Center for Public Service and Community Engagement

Abigail Honaker Schroeder, B.A., M.P.A; Director

Office of Advancement

Logan Aguiniga, B.A.; M.Ed.; Advancement Officer
Jessica Baum, B.A.; Advancement Officer
Crystal Johnson, B.A.; Prospect Research
Gregory King, B.A., M.Ed.; Vice President for University Advancement
Patricia Kuhn, Executive Assistant to the Vice President for University Advancement
Bethany Leslie, B.A.; M.A.; M.B.A; Director of The Mount Union Fund
Donald Montgomery, B.S., M.B.A.; Director of Advancement
Cathy Ossler; Data Specialist, The Mount Union Fund
Annie Schultz, B.S., M.A.; Advancement Officer, Stewardship Specialist
Caitlin Shimp, B.S., M.Ed.; Assistant Director of The Mount Union Fund
Logan Cooper, B.A.; Manzilla Diversity Intern, Mount Union Fund

Alumni Engagement and University Activities

Michelle Banis, B.A., M.Ed.; Assistant Director of Alumni Engagement and University Activities
Kimesha Flonnoy, B.A., M.Ed.; Assistant to the President for Community Engagement and Alumni Engagement Specialist
Audra Youngen, B.A., Director of Alumni Engagement and University Activities
Rebecca Walker, A.S.; B.A.; Administrative Assistant for Alumni Engagement and University Activities

Office of Business Affairs

Shawn Bagley, B.S., M.A.; Purchasing and Risk Manager
Michelle Baker Sams, A.A.S., B.A., C.P.A.(Inactive); Assistant Vice President and Controller
Lisa Blake; Cashier/Billing Representative
Ron Crawl, B.S., M.B.A.; Associate Vice President for Business Affairs and Chief Planning Officer
Patrick Heddleston, B.A.; Vice President for Business Affairs and Treasurer
Rebecca King, Accounts Payable Representative
Kara Martin-Ellsworth; Executive Assistant for Business Affairs

Christine Morey, B.R.E., M.D.P.; Student Accounts Representative
Rodney Peterson, A.C.E.; Part-time Coordinator of University Concessions
Danial Yard, B.A., M.B.A.; C.P.A., Assistant Controller
Renee Young, B.S.W.; Students Accounts Manager

Human Resources

Marci L. Craig, B.S., M.P.A., S.P.H.R., S.H.R.M.-S.C.P.; Director of Human Resources
Collette Frank; Human Resources Specialist
Laura Good, B.A., M.S., SHRM-CP; Assistant Director of Human Resources and Employee Benefits Manager

Information Technology

Jerry Brugh, B.A.; Manager of Media Services
John Burkey, B.S., M.B.A., M.A.; Administrative Systems and Identity Management Analyst
Anissa Citino, Administrative Assistant
Christine Cook, B.S.; Technology Support and Training Analyst
Alec Cotton, B.S.; Network Infrastructure Analyst
Devon Doran, B.S.; Administrative Systems Analyst
Scott Ginder, B.S.; Network Systems Analyst
Nicholas Howley, B.S.; Helpdesk Coordinator
Margherita Kavulla, B.S.; Assistant Director of IT for Administrative Systems
Mark Kolenz, B.A., M.B.A.; Director of Information Technology for Operations
Diana Lozier, A.A.; Senior Network Systems Analyst
Catherine Royer; Administrative Systems Analyst
David R. Smith, B.A., M.S.; Director of Information Technology for Security
Tina M. Stuchell, A.C.P., B.S., M.A. Ph.D.; Executive Director of Information Technology & Chief Information Officer
Sandy Vild; Data and Business Analyst

Payroll

Dianna Barley, B.S.; Payroll Specialist
Andrew Boothe, B.A., M.B.A.; Manager Payroll and Compensation Analytics

Physical Plant

Diana Bondoni; Senior Coordinator
Anson Gross; Grounds Supervisor
Blaine D. Lewis, A.S., B.A.; Director of Physical Plant
Christine Morey; Administrative Assistant & Mail Center Coordinator
Debbie Place; Housekeeping Supervisor
James Rhodes; Project Manager and Fleet Supervisor
Regina Shellenberger; Housekeeping Supervisor
Scott Watson; Maintenance Supervisor

University Store

Deanna Arnold; Customer Service Representative
Patty Nutial; Assistant Manager, University Store
Aimee Schuller, B.A.; Manager of the University Store
Debra Wolpert, B.S.; Part-time Customer Service Representative
Liana Yoder, University Store Representative

Office of Enrollment Services

Lindajeane Heller Western, B.A., M.A.O.M.; Vice President for Enrollment Management

Office of Admission

Bridget England, B.A., M.Ed.; Admission Counselor
Lori Peters; Application Process Coordinator
Hannah Reese, B.A., M.Ed.; Admission Counselor
Laurie Scarpitti, B.A.; Part-Time Admission Counselor
Linda Shirey, B.B.A., M.B.A.; Associate Director of Enrollment Operations
Randolph Smith, B.A., M.A.; Assistant Director of Admission

Corey Stamco, B.A.; Assistant Director of Enrollment Communication
Jimmy Cross, B.A.; Admission Counselor
Kelsey Binsley, B.S.; Senior Admission Counselor
Sara Washington; Application and Information Processor
Erin West; B.A.; Visit Coordinator
Kaetlynn Wise, B.A., M.A.; Assistant Director of Admission
Eric Young, B.S., M.Ed.; Director of Admission

Office of International Admission

Kimberly Hajec, B.S., M.P.A; Director of International Admission

Student Financial Aid

Jennifer Chadwell; Financial Aid Representative
Megan Edwards, B.A., M.B.A.; Assistant Director of Student Financial Aid
Kendra Mazzei; Financial Aid Assistant
Jamie Ruth; Financial Aid Assistant
Reagan Stull, B.A.; Financial Aid Representative
Kathleen Thomas, B.A; Director of Student Financial Aid

Office of Marketing

Melissa Gardner, B.A., M.A.; Vice President for Marketing
Dominic Golembiewski, B.A., M.B.A.; Assistant Vice President for Marketing
Sara Powers, B.A., M.A.; Assistant Director of Academic Marketing
Lynn Riggle, B.A.; Box Office and Art Promotion Manager
Kelby Smith, B.A.; Enrollment Marketing Manager
Ryan Smith, B.A., M.S.; Assistant Director of Academic Marketing
Angi Swonger; Executive Assistant to the Vice President for Marketing
Darnell Tucker, B.A., M.Ed.; Internal Communication and Event Manager

Office of Student Affairs

Tara Canestraro, A.S.; Executive Assistant Student Affairs/ Dean of Students

Michelle Gaffney, B.A., B.S., M.A.Ed.; Associate Dean of Students and Title IX Co-Coordinator
Teresa Latham, A.S.; Student Affairs Coordinator

Alcohol, Drug and Wellness Education

Kelleen Weber, B.A., M.A.Ed., LPCC-S, LCDCCIII, M.A.C.; Director of Alcohol, Drug and Wellness Education
Michael Anderson, B.A.; Graduate Assistant for Alcohol, Drug and Wellness Education

Campus Safety and Security

Nicki Andrews; Security Officer
Donald Cook; Security Officer
Corey Davis; Security Officer
John Hawk; Security Officer
William Ketjen, III, B.S., M.S.; Director of Campus Safety and Security
Michael Perkins; Security Officer
Savannah Perkins, B.S.; Security Officer
Corey Prendergast; Security Officer
Jeremy Secrest; Security Officer
David Schmid; Sergeant
Eric Ulrich; Security Officer

Chaplain

Stephen Dages, B.S.; Interim University Chaplain

Counseling Services

Timothy Campbell, B.A., M.S.Ed., LPC.; University Counselor
Sheila Donnadio, M.P.A., M.S.Ed., LPC.; University Counselor
Macayla Gibbons, B.S., C.T.; University Counseling Intern
Gena Hicks, B.A., C.T.; University Counseling Intern
Melissa Johnson, B.A., C.T.; University Counseling Intern
Francine Packard, Ph.D., LPCC-S, LICDC-CS; Director of Counseling Services, University Counselor

Diversity and Inclusion

Dawn Adams, B.A., M.B.A.; Director of International Student Services
Ronald Holden, II, B.A., M.A.; Assistant Dean of Students and Director of Diversity and Inclusion

Esports

Derek Spinell, B.A.; Director of Esports and Head Coach

Student Health Center

Beth Wayt, L.P.N.; Health Center

Recreation and Wellness

Matthew Parnell, B.A., M.S.; Director of Recreation and Wellness
Patty Fisher, Part-Time MAAC Receptionist
Amy Malysa, Part-Time MAAC Receptionist

Residence Life

Michael Anderson, B.A.; Resident Director
Gabrielle Catlin, B.A.; Resident Director
Michael Gregg, B.A.; Resident Director
Andrei Iacob, B.S.; Resident Director
Grayson McKeown, B.A., M.A.; Resident Director and Graduate Assistant for Residence Life
Anna Ressel, B.S.; Assistant Director of Residence Life
Sara Sherer, B.A., M.Ed.; Director of Residence Life
Hannah Sisler, B.A.; Resident Director

Spirit Squad

Jill Grove, B.S.; Spirit Squad Advisor
Brandy Vandegrift, B.S.; Dance Team Coach

Student Conduct

Patience Bartunek, B.A., M.Ed.; Director of Student Conduct
Gabrielle Catlin, B.A.; Graduate Assistant for Student Conduct

Student Involvement and Leadership

Katherine Carnell, B.A., M.A.Ed., Ph.D.; Director of Student Involvement and Leadership
Klaire Mathews, B.A.; Graduate Assistant for Student Involvement and Leadership
Hannah Sisler, B.A.; Graduate Assistant for Student Involvement and Leadership

The Faculty

The listing that follows includes full-time members of the faculty and certain administrators. The year of initial appointment is indicated in parentheses.

Department of Art

Arron Foster

(2020) Teaching Fellow of Art and Integrative Core; B.F.A., East Carolina University '05; M.F.A., University of Georgia '17.

Margo Miller

(2004) Associate Professor and Chair of the Department of Art; B.F.A., The University of Akron '82; M.F.A., Kent State University '85.

Lisa Parnell

(2020) Assistant Professor of Art; B.S., Bournemouth University '11; M.F.A., Kent State University '16.

Department of Biology

Michael Gresock

(2015) Instructor of Biology; B.S., Saint Vincent College '07; Ph.D., Pennsylvania State University '14

Phillip LaScola

(2012) Assistant Professor of Biology; B.S., Mount Union College '03; M.S.Ed. University of Akron '04, Ph.D., Kent State University '15.

Sandra I. Madar (2019) Professor of Biology and Dean of the College of Natural and Health Sciences; B.S., University of Michigan '89; Ph.D., Kent State University '96.

Christopher Marks

(2013) Associate Professor of Biology; B.A., University of Akron '02; M.S., University of Akron '06; Ph.D., University of Akron '12.

Spiro M. Mavroidis

(2011) Associate Professor of Biology; B.S., Cleveland State University '90; M.S. Cleveland State University '98; Ph.D. Cleveland State University '06.

Amy L. McElhinney

(2011) Associate Professor and Chair of the Department of Biology; B.A., Wartburg College '97; M.S., University of North Carolina at Wilmington '02; Ph.D. Indiana University '10.

Heather Mercer

(2017) Instructor of Biology; B.S., Kent State University '99; M.A., Kent State University '07; M.S., Kent State University '13.

Kim M. Risley

(2004) Professor of Biology and the Milton J. Lichty Chair in Biology; B.S., North Dakota State University '94; Ph.D., East Carolina University School of Medicine '98.

R. Christopher Stanton

(2018) Professor of Biology and the John D. Brumbaugh Chair of Environmental and Ecological Sciences; B.A., Wittenberg University '91; M.S., University of Tennessee '94; Ph.D., The Ohio State University '00.

Tom Wise

(2006) Biology Lab Manager; B.S., Kent State University '87.

Lin Wu

(1994) Professor of Biology; B.S. Huazhong Agricultural University, China '83; M.S., The Ohio State University '90; Ph.D., The Ohio State University '91.

Department of Business

Lori L. Braa

(2011) Associate Professor of Sport Business; B.A., University of Southern Colorado '84; M.A., University of Northern Colorado '93; Ph.D., University of Northern Colorado '11.

E. Anne Christo-Baker

(2018) Professor and Chair of the Department of Business; B.S., University of Sierra Leone; M.O.D., Bowling Green State University '98; Ed.D., Bowling Green State University '04.

Joel M. Evans

(2013) Assistant Professor of Marketing; B.S., Youngstown State University '06; M.B.A., Youngstown State University '07.

Xiaoshu Han

(2007) Associate Professor of Economics; B.A., Beijing Foreign Studies University '99; M.A., State University of New York at Binghamton '02; M.S., University of Texas-Austin '04; Ph.D., University of Texas-Austin '07.

Amber M. Hunt

(2016) Assistant Professor of Finance; B.A., Mount Union College '03; M.B.A., Ashland University '08; Ph.D., University of Akron '14.

Michael Kachilla

(2009) Associate Professor of Management, Professional in Residence and Internship Coordinator; B.A., The Ohio State University '77; M.B.A., Ohio University '07.

Tim Koba

(2020) Assistant Professor of Sport Business, B.S., State University of New York Cortland '05; M.S., State University of New York Cortland '14.

Holly Lucas

(2015) Instructor of Business; B.S., Indiana University '02; J.D., Capital University '06.

Mark McConnell

(2007) Associate Professor of Marketing; B.B.A., Youngstown State University '78; M.B.A., Tulane University '81.

Michael R. Myler

(1983) Professor of Economics; B.A., Northern Michigan University '69; M.A., Michigan State University '76; Ph.D., Michigan State University '83.

Ruth Pogacnik

(2007) Associate Professor of Accounting; B.S., Youngstown State University '86; C.P.A. '94; M.B.A., Youngstown State University '97.

Linda S. Ruse (2019) Instructor and Director of Risk Management and Insurance Program; B.A., John Carroll University '80; J.D., University of Akron, '85.

Francis Schortgen

(2008) Professor of Political Science and International Studies and Business and Chair of the Departments of Political Science and International Studies and Sociology and Criminal Justice; B.A., Miami University '97; M.A., University of San Francisco '99; M.B.A., National University of Singapore '02; Ph.D., Miami University '08.

William P. Schweizer

(2015) Assistant Professor and Professional in Residence of Management; A.B., Saint Louis University '78; M.B.A., University of Akron '81.

Russell I. Tietz

(2013) Associate Professor of Accounting; B.S., University of Akron '81; C.P.A. '83; M.B.A., University of Akron '91.

Department of Chemistry and Biochemistry

Debra Boyd-Kimball

(2004) Professor of Chemistry and Biochemistry; B.S., Bethany College '01; Ph.D., University of Kentucky '04.

Jeffrey Buth

(2012) Associate Professor of Chemistry and Biochemistry; B.A., Augustana College '04; Ph.D., University of Minnesota '09.

Laura Dwyer (2018) General Chemistry Lab Coordinator; B.S., University of Notre Dame '11.

Ryan Dwyer

(2018) Assistant Professor of Chemistry and Biochemistry; B.S., University of Notre Dame '11; Ph.D., Cornell University '17.

Deok-im Jean

(2013) Assistant Professor of Chemistry and Biochemistry; B.S., Dankook University '05; M.S., Dankook University '07; Ph.D., Miami University '13.

Scott S. Mason

(2001) Professor and Chair of the Department of Chemistry and Biochemistry and Director of Pre-Health Professions Program; B.S., Mount Union College '89; Ph.D., University of South Carolina '93.

Sheryl S. Mason

(2011) Associate Professor of Chemistry and Biochemistry; B.S., Mount Union College '90; Ph.D., University of South Carolina '94.

Keith R. Miller

(2013) Associate Professor of Chemistry and Biochemistry and Director of the Integrative Core; B.S., Mount Union College '08; Ph.D., University of North Carolina '13.

Carolyn S. Reid

(2013) Associate Professor of Chemistry and Biochemistry; B.S., University of the West Indies '95; Ph.D., Tulane University '07.

Robert Woodward

(2012) Associate Professor of Chemistry and Biochemistry; B.A., The Ohio State University '06; B.S. The Ohio State University '06; Ph.D., The Ohio State University '10.

Department of Communication

Elizabeth Bandy

(2017) Assistant Professor of Communication; B.S., Miami University '94; M.A., University of Texas at Austin '98; Ph. D., Stanford University '07.

Jamie C. Capuzza

(1992) Professor of Communication and Chair of the Department of Communication; B.A., Mount Union College '85; M.A., The Ohio State University '88; Ph.D., The Ohio State University '91.

Adelina Cooper

(2007) Associate Professor of Communication; B.A., The University of Akron '94; M.A., The University of Akron '99; Ph.D., The Ohio State University '05.

Andrea M. Ferraro

(2015) Associate Professor of Communication; B.A., The University of Akron '87; M.A., The University of Akron '92; Ph.D., The University of Akron '15.

Department of Computer Science

Blase B. Cindric

(1999) Associate Professor of Computer Science and Chair of the Department of Computer Science; B.S., Westminster College '82; M.S., Pennsylvania State University '85.

Sarah J. Huibregtse (2019) Assistant Professor of Computer Science; B.A., Lakeland University '01; M.S., Cardinal Stritch University '04; Ph.D., Capella University '14.

Department of Earth and Environmental Sciences

Andrew Hutsky

(2017) Assistant Professor of Earth and Environmental Sciences; B.S., University of Pittsburgh – Johnstown '09; M. S. University of Nebraska, Lincoln '11; Ph.D., University of Nebraska, Lincoln '15.

Mark A. McNaught

(1998) Associate Professor and Chair of the Department of Earth and Environmental Sciences; B.S., Lafayette College '85; M.S., University of Rochester '89; Ph.D., University of Rochester '91.

Department of Education

Melissa Askren-Edgehouse

(2009) Associate Professor and Chair of the Department of Education, CAEP Coordinator; B.A., Mount Union College '99; M.E., Ashland University '03; Ed.D., Bowling Green State University '08.

Linda Bigham

(1999) Associate Director of Assessment and Licensure; B.S., Mount Union College '08; M.S., Kent State University '14.

Jeremy S. Brueck

(2019) Assistant Professor of Education: B.S., University of Akron '01; M.A., University of Akron '07; Ph.D., University of Akron '14.

Linda C. Burkey

(1995) Professor of Education and The Lester D. Crow Professor in Education; B.S., Kent State University '79; M.A., Lenoir-Rhyne University '89; Ph.D., Kent State University '93.

Beth Canfield-Simbro

(2004) Associate Professor of Education; B.S., Wright State University '96; M.P.H., The Ohio State University '99; Ph.D., The Ohio State University '03.

Mandy Capel

(2007) Associate Professor of Education; B.A., Mount Union College '98; M.A., Mary Grove University '01; Ph.D., Kent State University '08.

Chanda Coblenz

(2019) Assistant Professor of Education; B.S., West Liberty State College '96; M.S., Franciscan University '03; Ed.D., Walden University '16.

Mary Beth Henning

(2019) Professor of Education; B.A., College of Wooster '94; M.S., University of Toledo '97; Ph.D., Pennsylvania State University '02.

Jennifer Hollinger

(2018) Assistant Professor of Education and Assistant Chair of the Department of Education; B.A., Cedarville University '02; M.Ed., University of Cincinnati '07; M.S., Western Governors University '18, Ed.D., Youngstown State University '18.

Bruce A. Pietz

(2010) Associate Professor of Education; A.A., Minnesota State University '95; B.S., Minnesota State University '00; M.A., Minnesota State University '04; Ed.D., St. Mary's University of Minnesota '12.

Ernest Pratt

(2000) Associate Professor of Education; B.S., University of Sierra Leone, West Africa '78; M.E., University of North Texas '94; Ph.D., University of Tennessee '00.

Caitlin Reash

(2019) Coordinator of Clinical Partnerships; B.A., University of Mount Union '10; M.A., University of Mount Union '14.

Kristine L. Still

(2019) Professor Education; B.S., University of Akron '92; M.A., Walsh University '98; Ph.D., University of Akron '06.

School of Engineering

Loay Al-Zube

(2018) Associate Professor of Biomedical Engineering; B.S., Jordan University of Science & Technology '00; M.S., New Jersey Institute of Technology '04; Ph.D., Rutgers University '08.

Jinwoo An

(2019) Assistant Professor of Civil Engineering; Dankook University '06; M.S., Yonsei University '09; M.S., University of Texas at Austin '12; Ph.D., University of Central Florida '15.

Shehla Arif

(2015) Assistant Professor of Mechanical Engineering; B.E., University of Engineering & Technology, Pakistan '96; M.S., Bucknell University '04; Ph.D., Northwestern University '10.

Lynn Dudash

(2020) Assistant Professor of Biomedical Engineering; B.S., Georgia Institute of Technology '05; M.S., Case Western Reserve University '06; Ph.D., Case Western Reserve University '13.

Joshua Gargac

(2015) Assistant Professor of Mechanical Engineering; B.S., Ohio Northern University '10; Ph.D., University of Notre Dame '15.

Vahraz Honary

(2020) Assistant Professor of Computer Engineering; B.S., National University of Guilan '06; M.S., Lancaster University '10.

Gerald Hoover

(2011) Engineering Lab Technician; A.S., Kent State University '75.

Adrian Jaesim

(2019) Assistant Professor of Electrical Engineering; B.S., Applied Science University '10; M.Eg., Brunel University '11; Ph.D., University of South Florida '18.

Chad Korach

(2013) Associate Professor of Mechanical Engineering and Director of the Engineering Program; B.S., Georgia Institute of Technology '95; M.S., Georgia Institute of Technology '99; Ph.D., Northwestern University '04.

Zhongkun “Frankie” Ouyang

(2020) Assistant Professor of Civil Engineering; B.Eng., University of Hong Kong '13; M.S., Georgia Institute of Technology '14; Ph.D., Georgia Institute of Technology '19.

Julie Phillips

(2020) Electrical Engineering Lab Technician., A.S., Community College of the Air Force '03.

Hans Tritico

(2012) Associate Professor of Civil Engineering; B.S., University of Michigan '99; M.S., Washington State University '02; Ph.D., University of Michigan '09.

Okechukwu Ugweje

(2018) Professor of Electrical Engineering; B.S., Southern Illinois University '84; M.S., Southern Illinois University '86; Ph.D., Florida Atlantic University '97.

Xi Wang

(2018) Assistant Professor of Civil Engineering; B.C.M., Sanjiang University '12; M.C.E., Auburn University '14; Ph.D., University of Kentucky '18.

Department of English

Michelle Collins-Sibley

(1994) Professor of English; A.B., Stanford University '77; M.A., Monterey Institute of International Studies '80; Ph.D., State University of New York at Binghamton '90.

Danielle Cordaro

(2010) Associate Professor of English and Director of the Center for Faculty Development; B.A., Western Michigan University '03; M.A., Western Michigan University '05; Ph.D., Purdue University '10.

Rodney Dick

(2003) Professor of English and Director of the Digital, Written, and Oral Communication Studio; B.A. Gonzaga University '96; M.A., University of Louisville '00; Ph.D., University of Louisville '05.

Michael Olin-Hitt (1993) Professor of English; B.A., Otterbein College '86; M.A., The Ohio State University '89; Ph.D., The Ohio State University '93.

Heather Duda

(2019) Professor of English; B.A., Lycoming College '98; M.A., University of Maryland – College Park '01; Ph.D., Indiana University of Pennsylvania '06.

Andrew Price

(1990) Professor of English and Chair of the Department of English, The Mary W. and Eric A. Eckler Chair in American Literature and Drama; B.A., St. Anselm College '82; M.A., University of Notre Dame '85; Ph.D., University of Notre Dame '88.

Gwen Gray Schwartz

(2006) Professor of English; B.A., Occidental College '90; M.A., Morehead State University '94; Ph.D., University of Arizona '06.

Frank J. Tascone

(1998) Assistant Professor of English; B.A., Edinboro University of Pennsylvania '85; M.A., Bowling Green State University '89; M.F.A., University of North Carolina at Wilmington '98.

David Thiele

(2007) Associate Professor and Director of the University Honors Program; B.A., Kenyon College '91; M.A., Boston College '95; Ph.D., Boston College '03.

Department of Exercise, Sport, and Nutrition Sciences

Tomás Barrett

(2020) Assistant Professor of Exercise Science; B.S., University of Limerick '12; M.A., Central Michigan University '15.

Katherine Clark

(2008) Associate Professor of Exercise Science; B.S., Mount Union College '05; M.A., Kent State University '06; Ph.D., Kent State University '08.

Rachel A. Cummings

(2019) Program Director and Instructor of Athletic Training; B.S., Mount Union College '09; M.A., Kent State University '11.

Lonnie Lowery

(2012) Associate Professor of Exercise Science; B.S., Kent State University '91; M.A., Kent State University '96; M.S., Kent State University '04; Ph.D., Kent State University '01.

Ronald W. Mendel

(2004) Professor of Exercise Science and Chair of the Department of Exercise, Sport, and Nutrition Sciences; B.S., Walsh University '91; M.A., Walsh University '93; Ph.D., Kent State University '00.

Kelsey F. Scanlon

(2013) Instructor of Exercise Science; B.S., University of Mount Union '11; M.S., Kent State University '13; Ph.D., Kent State University '17.

Department of History

Theresa Davis

(2006) Associate Professor of History and Chair of the Department of History; B.A., Mount Union College '95; M.A., University of Akron '00; Ph.D., University of Akron '13.

John L. Recchiuti

(1998) Professor of History and The John E. and Helen Saffell Endowed Chair in Humanities; B.A., Wesleyan University '79; M.A., Warwick University '82; M. Phil., Columbia University '85; Ph.D., Columbia University '92.

Department of Interdisciplinary and Liberal Studies

Michelle Collins-Sibley

(1994) Professor of English and Liberal Studies; A.B., Stanford University '77; M.A., Monterey Institute of International Studies '80; Ph.D., State University of New York at Binghamton '90.

Nicole L. Johnson

(2007) Professor of Philosophy and Religious Studies and Chair of the Department of Interdisciplinary and Liberal Studies; B.A., Westminster College '98; M.A., Wheeling Jesuit University '01; Ph.D., Boston University School of Theology '07.

Department of Mathematics

Sherri Brugh

(1994) Professor of Mathematics; B.S., Baldwin-Wallace College '90; M.S., Vanderbilt University '92; Ph.D., Vanderbilt University '94.

Sara B. Crawford

(2019) Assistant Professor of Mathematics: B.A., Kenyon College '02; Ph.D., Emory University '07.

Douglas Henry

(2018) Mathematics Lab Coordinator; B.S., Kent State University '05; M.S., Kent State University '09.

Maureen M. Morton

(2020) Assistant Professor of Mathematics, B.A., University of Kansas '01; Ph.D., Michigan State University '10.

Katherine Ritchey

(2019) Instructor of Mathematics; B.A., University of Notre Dame '13; M.S., The Ohio State University '16; Ph.D., The Ohio State University '19.

Anne Triplett

(2000) Professor of Mathematics and Chair of the Mathematics Department; B.S., California State University Stanislaus '88; M.S., California State University Hayward '91; Ph.D., University of Oregon '97.

Gerald J. Wuchter

(1995) Professor of Mathematics; B.S., Miami University '89; M.S., University of Michigan - Ann Arbor '91; Ph.D., University of Michigan - Ann Arbor '95.

Department of Music**Elaine M. Anderson**

(1997) Professor of Music; B.M., Concordia College '90; M.M., Manhattan School of Music '92; D.M.A., University of Alabama '99.

Patricia A. Boehm

(2001) Professor of Music; B.M., Jacksonville University '75; M.M., Florida State University '80; Ph.D., Kent State University '99.

Grant W. Cook, III

(2011) Professor of Music, Director of Choral Activities and The Margaret Morgan Ramsey Professor in Music; B.M., Heidelberg College '89; M.M., Kent State University '92; Ph.D., Kent State University '01.

Maira Liliestedt

(2005) Professor of Music; B.M., Bowling Green State University '00; M.M., University of Cincinnati University Conservatory of Music '02; D.M.A., University of Cincinnati College Conservatory of Music '05.

Jerome P. Miskell

(1999) Professor of Music and Chair of the Department of Music; B.M., University of Akron '85; M.M., University of Akron '88; D.M.A., University of South Carolina '95.

Jeffrey M. Neitzke

(2017) Director of Bands; B.M., University of Illinois '00; M.M., University of Akron '03.

Department of Nursing**Betty Allen**

(2015) Assistant Professor of Nursing and Assistant Department Chair of Nursing; B.S.N., Valparaiso University '99; M.S.N., Malone College '08; Ed.D, Nova Southeastern University '16

Monica L. Andreski

(2015) Clinical Assistant Professor of Nursing; B.S.N., Walsh University '09; M.S.N., Benedictine University '15.

Jessica Beitler

(2014) Assistant Professor of Nursing; B.S.N., Malone University '08; M.S.N., Walden University '13.

Perri-Anne Concialdi

(2015) Clinical Assistant Professor of Nursing; B.S.N., University of Akron '83; M.S.N., Kent State University '91.

Andrea Dickinson Corbisello

(2015) Clinical Assistant Professor and Director of Nursing Laboratory and Clinical Experiences; B.S.N., Kent State University '97; M.S.N., Franciscan University of Steubenville '09.

Sara Dorris

(2016) Assistant Professor of Nursing, A.D.N., Kent State University '06; B.S.N., Kent State University '11; M.S.N., Youngstown State University '14; D.N.P., Chamberlain College of Nursing '16.

Timothy W. Meyers

(2020) Professor and Chair and Director of the Nursing Program. B.S.N., Edinboro University of Pennsylvania '02; M.S.N., Clarion University of Pennsylvania '07; Ph.D., Kent State University '16.

Kelly Schwendiman

(2017) Clinical Assistant Professor of Nursing; A.A.S., Stark State College of Technology '97; B.S.N., Kent State University '02; M.S.N., Kent State University '12.

Karen Towne

(2017) Clinical Assistant Professor of Nursing; B.A., Ohio University '00; B.S.N., Kent State University '08; M.S.N., Case Western Reserve University '15.

Department of Philosophy and Religious Studies**G. Scott Gravlee**

(1998) Associate Professor of Philosophy and Religious Studies; B.A., University of Washington '88; Ph.D., Stanford University '96.

Susan E. Haddox

(2005) Professor and Chair of the Department of Philosophy and Religious Studies; B.A., Gustavus Adolphus College '94; M.S., Stanford University '97; M.Div., Pacific School of Religion '00; Ph.D., Emory University '05.

Nicole L. Johnson

(2007) Professor of Philosophy and Religious Studies and Chair of the Department of Interdisciplinary and Liberal Studies; B.A., Westminster College '98; M.A., Wheeling Jesuit University '01; Ph.D., Boston University School of Theology '07.

Ivory Lyons

(2000) Professor of Philosophy and Religious Studies; B.S., Boston University College of Engineering '82; B.S., Morehouse College '82; M.Div., Bethel Theological Seminary '92; M.A., Claremont Graduate University '97; Ph.D., Claremont Graduate University '98.

Paul Tidman

(1997) Professor of Philosophy and Religious Studies; B.A., Asbury University '78; Ph.D., University of Notre Dame '90.

Department of Physical Therapy

Mark J. Carroll

(2017) Associate Professor of Physical Therapy; B.A., The Ohio State University '87; M.A., Mt. Vernon Nazarene University '03; Ed.D., Bowling Green State University '07.

Sheryl L. Holt

(2015) Assistant Professor of Physical Therapy and Program Director of the Department of Physical Therapy; B.S.P.T., Georgia State University '78; M.S., The Ohio State University '99; Ph.D., University of Kentucky '16.

Elizabeth Narducci

(2017) Assistant Professor of Physical Therapy; B.A., Kenyon College '07; D.P.T., Walsh University '11.

Megan Salvatore

(2014) Associate Professor of Physical Therapy; B.S., Wheeling Jesuit University '98; M.S., Wheeling Jesuit University '01; D.P.T., Wheeling Jesuit University '06.

Jennifer Sensor

(2017) Assistant Professor of Physical Therapy; B.S., Pennsylvania State University '08; Ph.D., Kent State University '17.

Amanda Waltz

(2019) Assistant Professor and Director of Clinical Education of Physical Therapy; B.S., Walsh University '07; D.P.T., Walsh University '11).

Department of Physician Assistant Studies

Ryan Adler

(2016) Assistant Professor of Physician Assistant Studies; B.S., University of Toledo '09; M.S., University of Mount Union '11; Ed.D., A.T. Still University '19.

Kelly Dallas

(2013) Assistant Professor of Physician Assistant Studies; B.S., University of Findlay '01; M.P.A.S., University of Nebraska '07.

Dana Domer

(2015) Assistant Professor and Clinical Coordinator of Physician Assistant Studies; A.A.S., Cuyahoga Community College '97; M.P.A.S., Arizona School of Health Sciences '10.

Betsy Ekey

(2009) Associate Professor and Program Director of the Department of Physician Assistant Studies; B.M.S., Alderson-Broaddus College '99; M.P.A.S., Alderson-Broaddus College '07.

Wendy Kissinger

(2011) Medical Director; B.S., The Ohio State University '96; D.O., Ohio University College of Osteopathic Medicine '00.

Jessica Klaus

(2015) Assistant Professor and Clinical Coordinator of Physician Assistant Studies; B.S., Youngstown State University '10; M.P.A.S., University of Mount Union '13.

Roger W. Kunes

(2015) Assistant Professor of Physician Assistant Studies; B.S., Marietta College '95; M.M.Sc., Emory University, '98.

Vanessa Worley

(2012) Associate Professor and Academic Coordinator of Physician Assistant Studies; B.S., Allegheny College '01; M.P.A.S., Chatham University '04.

Department of Physics and Astronomy

Colin Campbell

(2019) Assistant Professor of Physics and Astronomy; B.S., Westminster College '07; Ph.D. Pennsylvania State University '12.

Steven E. Cederbloom

(1992) Associate Professor of Physics and Astronomy; B.A., Carleton College '86; M.A., Indiana University '91; Ph.D., Indiana University '95.

Robert C. Ekey

(2009) Professor and Chair of the Department of Physics and Astronomy; B.S., Dickinson College '99; M.S., Bryn Mawr College '01; Ph.D., Bryn Mawr College '06.

Richelle M. Teeling-Smith

(2017) Assistant Professor of Physics and Astronomy; B.S., Kent State University '90; M.S., The Ohio State University '11; Ph.D., The Ohio State University '15.

Department of Political Science and International Studies

Lee Dionne

(2020) Assistant Professor of Political Science and International Studies; B.A., University of California Riverside '04; M.A., California State University San Bernardino '06; J.D., Northwestern School of Law '09; Ph.D., University of California San Diego '20.

Michael Grossman

(2003) Professor of Political Science and International Studies; B.A., The George Washington University '92; M.A., Northeastern University '97; Ph.D., University of South Carolina '03.

Laura Kumler

(2012) Associate Professor of Political Science and International Studies and Internship Coordinator, Faculty Liaison to the Regula Center for Public Service; B.A., Brown University '91; M.A., Tufts University '92; M.S., University of Michigan '05; Ph.D., University of Michigan '09.

Francis Schortgen

(2008) Professor of Political Science and International Studies and Business and Chair of the Departments of Political Science and International Studies and Sociology and Criminal Justice; B.A., Miami University '97; M.A., University of San Francisco '99; M.B.A., National University of Singapore '02; Ph.D., Miami University '08.

Department of Psychology, Neuroscience, and Human Development

Ryan Cook

(2019) Instructor of Psychology, Neuroscience, and Human Development; B.A., Malone University '05; M. Ed., University of Akron '08; Ph.D., University of Akron '16.

Tamara Ann Daily

(1993) Professor of Psychology, Neuroscience, and Human Development and Lewis Miller Professor in Psychology; B.A., Ohio Wesleyan University '88; M.A., University of Nebraska-Lincoln '91; Ph.D., University of Nebraska-Lincoln '93.

Michael M. Knepp

(2010) Associate Professor and Chair of the Department of Psychology, Neuroscience, and Human Development, B.S. University of Pittsburgh '05; M.S., Virginia Polytechnic Institute and State University '07; Ph.D., Virginia Polytechnic Institute and State University '10.

Kevin Meyer

(2009) Associate Professor of Psychology, Neuroscience, and Human Development; B.A., The Ohio State University '99; M.S., The Ohio State University '01; Ph.D., The Ohio State University '07.

Melissa Muller

(2006) Associate Professor of Psychology, Neuroscience, and Human Development; B.S., California Lutheran University '98; M.A., Kent State University '00; Ph.D., Kent State University '06.

Sarah Torok-Gerard

(2006) Associate Professor of Psychology, Neuroscience, and Human Development; B.A., Mercyhurst College '00; M.A., State University of New York at Albany, '01; Ph.D., State University of New York at Albany '05.

Kristine Schuster Turko

(2006) Professor of Psychology, Neuroscience, and Human Development; B.S. Drexel University '95; M.S., Lehigh University '01; Ph.D., Lehigh University '06.

Department of Sociology and Criminal Justice

Andrew J. Bain

(2013) Associate Professor of Sociology and Criminal Justice; B.Sc., Southampton University, England '00; M.Sc., University of Portsmouth, England '02; Dip-Psych, The Open University, England '03; PGCLTHE, University of Portsmouth England '09; Ph.D., University of Portsmouth, England '13.

Jeffrey R. Breese

(2017) Professor of Sociology and Criminal Justice; B.A., Youngstown State University '87; M.A., Ohio University '89; Ph.D., University of Akron '93.

Aaron Howell

(2019) Assistant Professor of Sociology and Criminal Justice; B.S., Kansas State University '04; M.A., University of Cincinnati '07; Ph.D., University of Cincinnati '14.

Paul Muller

(2004) Associate Professor of Sociology and Criminal Justice and Chair of the Department of Sociology and Criminal Justice; B.S., Brigham Young University '97; M.A., University of New Hampshire '99; Ph.D., University of New Hampshire '04.

Francis Schortgen

(2008) Professor of Political Science and International Studies and Business and Chair of the Departments of Political Science and International Studies and Sociology and Criminal Justice; B.A., Miami University '97; M.A., University of San Francisco '99; M.B.A., National University of Singapore '02; Ph.D., Miami University '08.

Kelly Rae Stout

(2019) Assistant Professor of Sociology and Criminal Justice; A.A.S., University of Idaho '11, B.S., University of Idaho '11; M.A., University of Nevada at Las Vegas '13; Ph.D., University of Nevada at Las Vegas '19.

Department of Theatre

Kevin Kern

(2012) Associate Professor and Chair of the Department of Theatre; B.A., California Lutheran University '90; M.F.A., Brandeis University '93.

Ryan Patterson

(2018) Assistant Professor of Theatre; B.S., University of Akron '12; M.F.A., Kent State University '15.

Sarah Russell

(2018) Assistant Professor of Theatre; B.M., Bowling Green State University '05; M.F.A., Kent State University '09.

Department of World Languages and Cultures

Gregg O. Courtad

(1996) Professor of Spanish; B.A., Kenyon College '83; B.S., The Ohio State University '87; M.A., University of Cincinnati '85; Ph.D., University of Cincinnati '96.

Jennifer E. Hall

(1999) Professor of French and Chair of the Department of World Languages and Cultures; B.A., Beloit College '91; M.A., University of Wisconsin-Madison '94; Ph.D., The Ohio State University '99.

Mark W. Himmelein

(1996) Professor of German; B.A., Baldwin-Wallace College '79; M.A., University of Pittsburgh '81; Ph.D., University of Akron '95.

Bertrand Landry

(2012) Associate Professor of French; Baccalauréat, Lycée Prieur de la Côt'Or, France '89; Maîtrise, L.C.E. Anglais, Université de Bourgogne, France '95; M.A., Miami University '01; Ph.D., Boston University '05.

Noriko Okura

(2020) Visiting Assistant Professor of Japanese; B.A., Doshisha Women's College '01; M.A., Mary Baldwin Wallace College '05; M.A., Columbia University '15; Ed.D., Eastern Kentucky University '16.

Emeriti Faculty and Emeriti Staff

Clark B. Archer

(2001-2011) Department of Computer Science; B.S. Mount Union College '62; M.A., Bowling Green State University '64; M.S., Florida State University '66; Ph.D., Kennedy-Western University '95. Emeritus '11.

John Bienz

(1985-2012) Department of English; B.A. University of Michigan '67; M.A. Indiana University '70; Ph.D., Indiana University '76. Emeritus '12.

Donald R. Buckley

(1973-1998) Department of Philosophy and Religious Studies; B.A., Cornell University '54; B.D., Drew University '57; M.A., Yale University '60; Ph.D., Yale University '66. Emeritus '99.

Robert Buganski

(2003-2019) Department of Art; A.A., Cumberland Community College '76; B.A., Stockton State College '82; M.F.A., Rhode Island School of Design '85.

William E. Coleman

(1979-2013) Department of Communication; B.A., The Ohio State University '67; M.A., The Ohio State University '68; M. Div., Capital University '71; Ph.D., The Ohio State University '74. Emeritus '13.

Joel R. Collins

(1978-2014) Department of Art; B.A., Alderson-Broadus College '69; M.F.A., West Virginia University '76. Emeritus '14.

Ralph J. Daily

(1960-1990) Department of Education; B.S., University of Akron '52; M.S., University of Akron '57. Emeritus '91.

Jack DeSario

(1990-2020) Department of Political Science and International Studies; B.A., Brooklyn College '75; M.A., Miami University '76; Ph.D., State University of New York '81; J.D., Case Western University '89.

W. James Dillon

(1981-2004) Department of Mathematics; B.S., Idaho State University '63; M.A., University of Nebraska '66; Ph.D., St. Louis University '72. Emeritus '05.

Richard W. Dutson

(1985-2014) Department of Political Science and International Studies; B.A., Brigham Young University '72; M.A., Brigham Young University '82; D.A., Idaho State University '84. Emeritus '14.

Sandra R. Ekstrand

(2002-2015) Department of Business; B.A. Malone University '97; M.S., Case Western University '99. Emerita '15.

Leonard G. Epp

(1970-2011) Department of Biology; B.S., Gettysburg College '66; M.S., Pennsylvania State University '68; Ph.D., Pennsylvania State University '70. Emeritus '11.

Paul E. Froman

(1966-1993) Department of World Languages; B.A., Baldwin-Wallace College '53; M.Div., Drew University '59; M.A., Kent State University '71. Emeritus '95.

Hamako Furuhata-Turner

(1996-2020) Department of World Languages and Cultures; B.A., Kyoto University of Foreign Studies '77; M.A., Western Michigan University '91; Ph.D., University of Idaho '96.

Lee Gray

(1984-2017) Department of Geology; B.A., Colgate University '74; M.S., University of Rochester '76; Ph.D., University of Rochester '85. Emeritus '17.

Jeffery L. Hahn

(1975-2013) Department of Sociology and Criminal Justice; B.A., Mount Union College '73; M.A., Kent State University '75; Ph.D., Kent State University '80. Emeritus '13.

Douglas Hendel

(1982-2012) Department of Theatre; B.S. Bowling Green State University '71; M.A., Bowling Green State University '79; Ph.D., Bowling Green State University '86. Emeritus '12.

Donald G. Hobson

(1986-1999) Department of Philosophy and Religious Studies; B.A., Willamette University '56; M. Div., Union Theological Seminary '60; Ph.D., Claremont Graduate School '68; Emeritus '01.

W. Faye Hollaway

(1958-2001) Department of Chemistry; B.S., Mount Union College '57; M.S., Western Reserve University '58; Ph.D., Kent State University '84. Emerita '02.

Martin Horning

(1979-2011) Department Business; B.A., Mount Union College '71; M.A., Bowling Green State University '72; Ph.D., Rutgers University '79. Emeritus '11.

James Hopper

(1966-1999) Department of Art; B.S., Juniata College '60; M.F.A., Columbia University '62. Emeritus '01.

Theodore D. Isue

(1999-2013) Department of Education; B.S., Kent State University '65; M.Ed., Kent State University '69. Emeritus '13.

James C. Kadlecek

(1997-2020) Department of Business; B.S., University of Northern Colorado '79; M.A., University of Northern Colorado '91; Ed.D., University of Northern Colorado '01.

Carl H. Kandel

(1961-1989) Department of Music; Mus.B., Ohio Wesleyan College '57; M.A., Kent State University '69. Emeritus '90.

John F. Kirchmeyer

(1978-2013) Department of Computer Science; B.A., Carthage College '72; Ph.D., Northwestern University '78. Emeritus '13.

James R. Klayder

(1991-2020) Department of Computer Science; B.A., University of Kansas '72; B.S., University of Kansas '76; M.S., University of Kansas '85; Ph.D., University of Kansas '93.

Harold M. Kolenbrander

(1986-2000) President of the University and Professor of Chemistry; B.A., Central College '60; Ph.D., University of Iowa '64. Stephen R. Kramer (1974-2009) Department of Psychology; B.A., College of the Holy Cross '66; Ph.D., The University of Texas-Austin '74. Emeritus '10.

David Kuhlke

(2001-2012) Department of Business; B.S. Oakland University '74; M.B.A., University of Akron '88. Emeritus '12.

Mary Ellen Lloyd

(1988-2007) Department of Business; B.S., University of Michigan '57; M.S., Kent State University '89; CPA State of Ohio '85. Emerita '08.

Peter B. Lucke

(1982-2009) Department of Physics and Astronomy; B.A., Occidental College '65; M.S., University of Washington '67; Ph.D., University of Washington '72. Emeritus '10.

Judith Makens

(1989-2007) Department of English; B.A., University of Utah '66; M.A., University of Utah '68; Ph.D., University of Utah '72. Emerita '08.

Gloria S. Malone

(1969-1990) Department of English; B.S., Central State College '49; M.Ed., Kent State University '56; M.A., Kent State University '79. Emerita '91.

William A. Markley, Jr.

(1956-1995) Department of Mathematics; B.S., Bucknell University '49; M. Litt., University of Pittsburgh '59; Ph.D., University of Pittsburgh '68. Emeritus '96.

Patricia C. Matthews

(1975-2015) Department of Business; B.S., Mount Union College '73; M.A., Kent State University '75; D.B.A., Kent State University '79. Emerita '15.

Katherine G. McMahon

(1985-2014) Department of English; B.A., Oberlin College '71; M.A., Northern Illinois University '76; Ph.D., Northern Illinois University '85. Emerita '14.

Charles R. Morford

(1966-1994) Department of Communication and Director of the Radio Station, WRMU; B.S., Kent State University '56; M.A., Western Reserve University '64. Emeritus '96.

Louise E. Moses

(1987-2013) Department of Computer Science; B. S., Muskingum College '62; M.S., University of Akron '72; M.S., University of Nebraska-Lincoln '81. Emerita '13.

Charles A. McClaugherty

(1988-2018) Department of Biology; B.S., Cornell University '73; M.S., University of Virginia '80; Ph.D., University of Wisconsin '83. Emeritus '18.

Arthur Murdoch

(1968-1999) Department of Chemistry; B.A., Westmar College '56; M.S., Yale University '58; Ph.D., Yale University '64; Emeritus '01.

Naoko Oyabu-Mathis

(1988-2019) Department of Sociology and Criminal Justice; B.A., Mount Union College '80; M.A., University of Akron, '85; Ph.D., University of Akron '89. Emerita '19.

Harry P. Paidas

(2009-2015) Department of Communication; B.A., Mount Union College '74; M.S., Northwestern University '75. Emeritus '16.

James E. Perone

(1994-2019) Department of Music; B.M., Capital University '80; M.F.A., State University of New York at Buffalo '82; M.A., SUNY at Buffalo '84; Ph.D., SUNY at Buffalo '88. Emeritus '19.

Lewis A. Phelps

(1970-2001) Department of Music; B.M., University of Arizona '62; M.M., University of Arizona '63; A.Mus.D., University of Arizona '70; Emeritus '02.

Kathleen Piker-King

(1978-2015) Department of Sociology and Criminal Justice; B.A., Indiana State University '72; M.A., Kent State University '73; Ph.D. Kent State University '78. Emerita '15.

Hubert R. Pinney
