# ONE OF ONE Statement

My love for Fashion and Photography allowed me to combine the two and bring both art forms together. The reason I decided to do this was because I am creating pieces of clothing that cannot be replaced or remade. I am using photos taken by me throughout the years and custom designing each piece of streetwear. My Inspiration was different areas, colors, and patterns of New York City.

The Piece "ONE OF ONE" is distressed zip up hoodie with a Photograph of a graffiti mural of The Statue of Liberty taken in SoHo, New York. I decided to use negative space in all of my pieces to force the viewer to try and understand what is being shown using different color schemes to make each piece standout.
